encing regulations contained in other CFR Parts, if possible; to make the regulations as comprehensive and clear as possible; to assure that both parties to the contract know their rights, roles and responsibilities; and to remove any unnecessary or inapplicable requirements found in the standard procurement rules which would not apply to self-determination contracts with tribal organizations.

The contractual approach is one of several voluntary options available to Indian and Alaska Native governing bodies to assist them in the self-development process. Depending on their basic needs and goals, they may want to use the contract mechanism in their self-development process. If so, the proposed Part 14H-70 seeks to simplify the contracting procedure for them.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections regarding the proposed amendment to the Bureau on or before October 4, 1975, as follows:

1. By mail addressed to the Commissioner of Indian Affairs, Attention: Public Law 93-638 Task Force (Code 101A), Washington, D.C. 20245.

2. Or by hand delivery to the Commissioner of Indian Affairs, Attention: Public Law 93-638 Task Force, Room 4620, 18th and C Streets N.W., Washington, D.C.

Comments, suggestions, or objections received on or before October 4, will be considered in preparing the final regulations.

It is proposed to amend Chapter 14H of Title 41 of the Code of Federal Regulations by adding a new Part 14H-70 to read as follows:

**PART 14H-70—CONTRACTING WITH INDIAN ORGANIZATIONS PURSUANT TO THE INDIAN SELF-DETERMINATION AND EDUCATION ASSISTANCE ACT**

Sec.	Scope of part.
14H-70.000	Scope of part.
Subpart 14H-70.0—Regulation System	
14H-70.001	Scope of subpart.
14H-70.002	General.
14H-70.003	Federal and Interior procurement regulations.
14H-70.004	Area office implementation of Federal or Interior procurement regulation issuances.
14H-70.005	Applicability.
14H-70.006	Changes of regulations.

AUTHORITY: Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486 (c); Pub. L. 93-638, 88 Stat. 2203.	
§ 14H-70.000 Scope of part.	
This part sets forth policies and procedures concerning the Bureau of Indian Affairs Procurement Regulation System insofar as the system pertains to contracts entered into under the authority of the Indian Self-Determination and Education Assistance Act (Pub. L. 93-683, 88 Stat. 2203).	
Subpart 14H-70.0—Regulation System	
§ 14H-70.001 Scope of subpart.	
This Subpart establishes a system for the codification and publication of procurement policy and procedural regulations of the Bureau of Indian Affairs which implement the Indian Self-Determination and Education Assistance Act (Pub. L. 93-683, 88 Stat. 2203).	
§ 14H-70.002 General.	
The Act provides that, contracts with tribal organizations pursuant to Section 102 of the Act shall be in accordance with all contracting laws and regulations except that, in the discretion of the Secretary, contracts may be negotiated without advertising and need not conform with the provisions of the Act of August 24, 1935 (49 Stat. 793), as amended. The Secretary may waive any provision of such contracting laws or regulations	

which he determines are not appropriate for the purposes of the contract involved or inconsistent with the provisions of the Act.

#### § 14H-70.003 Federal and Interior procurement regulations.

To the extent that the Federal Procurement Regulations and Interior Procurement Regulations, 41 CFR Chapter 1, Chapter 14, and Chapter 14H (except 41 CFR Part 14H-1) respectively are not made specifically applicable to contracts entered into pursuant to the Act by reference in this Part 14H-70 they are hereby waived. If this part conflicts with any of the provisions of either the Federal Procurement Regulations or Interior Procurement Regulations the provisions of this Part 14H-70 shall govern. When either the Federal Procurement Regulations or Interior Procurement Regulations are referenced in this Part, the reference shall be similar to the following:

(a) "§ 1-1.000 of this title", when referring to a section of the Federal Procurement Regulations.

(b) "§ 14-1.000 of this title", when referring to a section of the Interior Procurement Regulations.

#### § 14H-70.004 Area Office implementation of Federal or Interior procurement regulation issuances.

Any regulations issued through the Federal Procurement Regulation or Interior Procurement Regulation System shall not be implemented by contracting officers insofar as contracts entered into pursuant to the Act are concerned unless such regulations are implemented in this Part 14H-70.

#### § 14H-70.005 Applicability.

The provisions of this Part 14H-70 apply only to those contracts between the Bureau and Indian organizations entered into pursuant to the Act. They do not apply to contracts with individuals, partnerships, corporations or other Indian organizations that do not fall under the purview of the Act.

#### § 14H-70.006 Changes of regulations.

(a) To the extent that a change of the regulations issued under this Part 14H-70 may—

(1) Impose additional requirements on the contractor;

(2) Have an adverse effect on the contractor's operations; or,

(3) Delay or impede the contracting process, such changes shall be made only after consultation, to the maximum extent practicable, with Indian tribes and national and regional Indian organizations. Further those changes shall be presented to the Committees on Interior and Insular Affairs of the United States Senate and House of Representatives before publication in the FEDERAL REGISTER for comments.

(b) To the extent that changes of the regulations issued under this Part 14H-70 affect only the internal operation of the Bureau's contracting offices, the changes may be made without consultation.

#### Subpart 14H-70.1—Definition of Terms

##### § 14H-70.101 Definitions.

For the purpose of this part, unless otherwise indicated in 25 CFR 401.2, the terms given in this subpart have the meanings set forth in this subpart. The definitions in 25 CFR 401.2 also apply to this part.

##### § 14H-70.102 Contract.

"Contract" means any promissory arrangement between a tribal organization and the Federal government which is reduced to writing and signed by duly authorized agents of the parties. The term "contract" will also mean a transaction authorized by a purchase order signed in behalf of the Federal government by a duly authorized agent and accepted in behalf of a tribal organization by beginning performance.

##### § 14H-70.103 Program.

"Program" means a delivery of service generally of a continuing nature separated from other similar efforts by funds, staff or location, except that a program may involve, in certain instances, more than one location.

##### § 14H-70.104 Project.

"Project" means an effort aimed at a specific objective, not of a continuing nature, and having defined parameters.

#### Subpart 14H-70.2—General Policies

##### § 14H-70.201 Method of procurement.

It is neither feasible nor practicable to obtain competition on contracts entered into under the Act. Therefore, contracts with tribal organizations entered into pursuant to the Act will be negotiated without competition.

##### § 14H-70.202 Profit.

(a) Profit is not allowable on contracts entered into pursuant to the Act.

(b) Profit may be allowed when a contract is entered into pursuant to the Act of June 25, 1910 (36 Stat. 861; 25 U.S.C. 47), commonly referred to as the "Buy Indian Act" and its implementing regulations and when all of the following conditions are met:

(1) The contract is for the procurement of goods, materials, supplies, etc., or, if for services, the services are for a specific project rather than for the operation of a Bureau program or part of a program.

(2) The materials to be supplied or the services to be provided are normally supplied or provided by a private contractor rather than by Bureau personnel or, in the case of services traditionally performed by Bureau personnel, a contract for such services does not involve "tribal governmental functions" or "business related functions" as defined in 25 CFR 401.2 or contractable trust resources programs as set forth in 25 CFR 401.32.

(3) Definitive specifications are used which permit rejection by the Bureau of defective material and workmanship and replacement at the contractor's expense as may be required.

(4) The price to be paid can be demonstrated to be fair and reasonable in

terms of the price prevailing in the locality for similar materials or services, including profit.

(5) All requirements of applicable procurement laws and regulations are followed.

##### § 14H-70.203 Payment of interest on contractor's claim.

(a) Payment of interest on contractor's claims is allowable under the conditions set forth in § 1-1.322 of this title.

(b) Payment of interest is allowable whether the clause set forth in § 14H-70.628-28 is or is not included in the contract.

##### § 14H-70.204 Protests to Comptroller General.

Contracting officers will process protests to the Comptroller General in accordance with the procedures set forth in § 1-2.407-8 and § 14-2.407-8 of this title.

#### Subpart 14-70.3—Procurement Responsibility and Authority

##### § 14H-70.301 General.

The responsibilities of the Bureau under Subparts 1-1.4 and 14-1.4 of this title are not changed by the Act.

#### Subpart 14H-70.4—Procurement by Negotiation

##### § 14H-70.401 Scope of subpart.

This subpart concerns negotiation of contracts entered into pursuant to the Act.

##### § 14H-70.402 Circumstances permitting negotiation.

Contracts entered into at the request of an Indian tribe will be negotiated on a non-competitive basis with the tribal organization designated by the tribe in its request.

##### § 14H-70.403 Determinations, findings and authorities.

A tribe's request that a contract be entered into with a designated tribal organization will be entered into the contract file and will serve as the contracting officer's justification for negotiating the contract on a non-competitive basis.

##### § 14H-70.404 Types of contract.

Cost-reimbursement type contracts provide for payment to the contractor of allowable costs incurred in the performance of the contract, to the extent prescribed in the contract. This type of contract establishes an estimate of total cost to obligate the funds, and a monetary ceiling which the contractor may not exceed. Cost reimbursement type contracts will be used for all contracts made pursuant to this Part.

##### § 14H-70.405 Negotiated overhead rates.

Overhead (indirect costs) is allowable on contracts entered into pursuant to the Act under the conditions set forth in Subpart 14H-70.10 of this part.

##### § 14H-70.406 Price negotiation policies.

(a) When costs reflected in a program proposal submitted by a tribal organization essentially conform with the Bureau

budget for that program and do not exceed the amount programmed for and allocated to the operating level, the proposal may be accepted without price negotiation.

(b) When costs reflected in a program proposal differ from the Bureau budget with respect to certain budget items, the contracting officer may request the tribal organization to submit cost and pricing data in sufficient detail to determine the validity and reasonableness of costs.

(c) When a program proposal is not based on a Bureau budget which has previously been established in the budget process for that program, unit costs and total costs will be subject to negotiation.

(d) Nothing in this section is to be construed to mean that contracting officers and cognizant program officials are relieved from responsibility for assuring that elements of total contract amounts are reasonable as to unit prices, salary scales, and program requirements. Recognition will be given to the special and unique relationship between the Bureau and tribal organizations under this Act; however, acceptance of proposals, without review, discussion and resolution of differences by negotiation will not be made, except as provided in § 14H-70.408. Files will be properly documented to reflect the negotiation process, including the basis for final determination of the scope of work and price.

##### § 14H-70.407 Requirements for price or cost analysis and cost or pricing data.

Except for initial contracts or other agreements, the requirements of § 1-3.807-2 and § 1-3.807-3 of this title are optional with the contracting officer.

##### § 14H-70.408 Audit as a pricing aid.

(a) In instances in which a basis for price determination does not exist in sufficient detail and form and the contract amount is expected to exceed \$100,000, the contracting officer may request a pre-award audit; or if time does not permit, a clause may be inserted in the contract providing for adjustment of allowable costs when determined necessary or advisable by a post-award audit.

(b) When the contracting officer determines that there is sufficient information to award a contract without a pre-award audit the audit may be waived. However, the waiver of a pre-award audit shall be supported by a written statement in the contract files setting forth the reason for the waiver as prescribed by § 14-63.103(a) (1) of this title.

##### § 14H-70.409 Subcontracting.

Any contract proposal or plan of operations submitted by a tribal organization which contains a proposed subcontract will identify the subcontractor, the amount and purpose of the subcontract, the manner in which the subcontractor was selected, and the basis for the cost of subcontract. Subcontract opportunities shall be advertised or negotiated in a manner that provides open and free competition to the maximum extent practicable and subcontracts will be awarded in accordance with sound business practices.

#### Subpart 14H-70.5—Special and Directed Sources of Supply

##### § 14H-70.605 Retrocession

contract (hereinafter collectively called "records") to the extent and in such detail as

(b) The contractor further agrees to include in each of his subcontracts hereunder, other than those set forth in paragraph (a)

off or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

with a limit of not less than \$5,000 for each accident.

(5) Food products liability insurance with

### Subpart 14H-70.5—Special and Directed Sources of Supply

#### § 14H-70.501 General Services Administration supply sources.

Tribal organizations performing services under cost reimbursement contracts pursuant to the Act are entitled to use General Services Administration supply sources in accordance with Subpart 1-5.9 of this title.

#### § 14H-70.502 Inter-agency motor pool vehicles.

Tribal organizations performing services under cost reimbursement contracts pursuant to the Act are entitled to use General Services Administration inter-agency motor pool vehicles in accordance with Subpart 1-5.5 of this title.

#### § 14H-70.503 Purchase of passenger carrying vehicles.

Purchase of passenger carrying vehicles is prohibited. If allowed under the contract, purchase of other vehicles shall be through Federal buying channels unless a waiver by the General Services Administration is obtained.

### Subpart 14H-70.6—Contract Clauses

#### § 14H-70.601 Scope of subpart.

This subpart sets forth the clauses to be included in the contracts entered into with tribal organizations pursuant to the Act.

#### § 14H-70.602 Required clauses.

The clauses set forth in this subpart shall be included in all contracts entered into pursuant to the Act unless otherwise indicated.

#### § 14H-70.603 Definitions.

##### DEFINITIONS

The following terms shall have the meanings set forth below throughout this contract:

- (a) The term "head of the agency" or "Secretary" as used herein means the Secretary, the Under Secretary, and Assistant Secretary, or any other head or assistant head of the Department of the Interior; and the term "his duly authorized representative" means any person or persons or board (other than the contracting officer) authorized to act for the head of the agency or the Secretary.
- (b) The term "contracting officer" means the person executing this contract on behalf of the Government, and any other officer or civilian employee who is properly designated as a contracting officer; and the term includes, except as otherwise provided in this contract, the authorized representative of a contracting officer acting within the limits of his authority.

#### § 14H-70.604 Effect on existing rights.

##### EFFECT ON EXISTING RIGHTS

- (a) Nothing in this contract shall be construed as—
  - (1) Affecting, modifying, diminishing, or otherwise impairing the sovereign immunity from suit enjoyed by an Indian tribe; or,
  - (2) Authorizing or requiring the termination of any existing trust responsibility of the United States with respect to the Indian people.

### § 14H-70.605 Retrocession.

#### RETROCESSION

(a) The Indian tribe that initially requested this contract may also request its retrocession, notwithstanding the fact that the contractor may be a tribal organization other than the tribe.

(b) Should the tribe request retrocession of the contract and the contractor is other than the tribe, the contracting officer will notify the contractor of the request and establish the effective date of the retrocession in consultation with the tribe and the contractor. The retrocession will become effective no later than 120 days after the contracting officer receives the tribe's request unless the tribal governing body, the tribal organization and the contracting officer mutually agree on a later date.

(c) Immediately after receipt of the request for retrocession and where applicable notifying the contractor, the contracting officer will meet the contractor and, where applicable, the tribal governing body and mutually agree to the following:

- (1) A plan for the orderly transfer of responsibilities;
- (2) A plan for inventorying materials and supplies on hand;
- (3) An accounting for funds, including but not limited to current and anticipated obligations;
- (4) The cost of operation until retrocession; and,
- (5) The identification of all records relating to the contract and the contracted function.

#### § 14H-70.606 Examination of records.

(a) The following clause shall be included in all negotiated contracts which do not exceed \$10,000:

##### EXAMINATION OF RECORDS

(a) (1) The contractor agrees to maintain books, records, documents and other evidence pertaining to the costs and expense of this contract (hereinafter collectively called records) to the extent and in such detail as will properly reflect all net costs, direct and indirect, of labor, materials, equipment, supplies and services, and other costs of whatever nature for which reimbursement is claimed under the provisions of this contract.

(2) The contractor agrees to make available at the office of the contractor at all reasonable times during a period of three years, after final payment under this contract all records specified in paragraph (1) above for examination and audit by designated representative of the Comptroller General, the Secretary of Interior or the contracting officer.

(3) The contractor further agrees that records which relate to claims, litigation, or to any costs or expenses of this contract to which exception has been taken by the Comptroller General, the Secretary of Interior or the contracting officer or any of their duly authorized representatives shall be retained by the contractor until such appeals, litigation or exceptions have been disposed of.

(4) The provisions of this clause shall be applicable to and included in any negotiated subcontract.

(b) The following clause shall be included in all negotiated contracts which exceed \$10,000:

##### EXAMINATION OF RECORDS

(a) (1) The contractor agrees to maintain books, records, documents, and other evidence pertaining to the costs and expenses of this

contract (hereinafter collectively called "records") to the extent and in such detail as will properly reflect all net costs, direct and indirect, of labor, materials, equipment, supplies and services, and other costs and expenses of whatever nature for which reimbursement is claimed under the provisions of this contract.

(2) The contractor agrees to make available at the office of the contractor at all reasonable times during the period set forth in subparagraph (4) below any of the records for inspection, audit or reproduction by any authorized representative of the Comptroller General, Secretary of the Interior, and the contracting officer.

(3) If the Comptroller General or any of his duly authorized representatives determine that his audit of the amounts reimbursed under this contract as transportation charges will be made at a place other than the office of the contractor, the contractor agrees to deliver, with the reimbursement voucher covering such charges or as may be otherwise specified within 2 years after reimbursement of charges covered by any such voucher, to such representative as may be designated for that purpose through the contracting officer, such documentary evidence in support of transportation costs as may be required by the Comptroller General or any of his duly authorized representatives.

(4) Except for documentary evidence delivered to the Government pursuant to subparagraph (3) above, the contractor shall preserve and make available his records:

(i) Until expiration of 3 years after final payment under this contract or of the time periods for the particular records specified in Part 1-20 of the Federal Procurement Regulations (41 CFR Part 1-20), whichever expires earlier; and

(ii) For such longer period, if any, as is required by applicable statutes, by any other clause of this contract, or by (A) or (B) below:

(A) If this contract is completely or partially terminated, the records relating to the work terminated shall be preserved and made available for a period of 3 years from the date of any resulting settlement.

(B) Records which relate to:

(i) Appeals under the disputes clause of this contract;

(ii) Litigation or the settlement of claims arising out of the performance of this contract; or,

(iii) Costs and expenses of this contract to which exception has been taken by the Comptroller General, Secretary of the Interior or the contracting officer, or any of their duly authorized representatives, shall be retained by the contractor until such appeals, litigation, claims or exceptions have been disposed of.

(5) Except for documentary evidence delivered pursuant to subparagraph (3) above, and the records described in subparagraph (4) (i) (B) above, the contractor may in fulfillment of his obligation to retain his records as required by this clause substitute photographs, microphotographs, or other authentic reproductions of such records, after the expiration of 2 years following the last days of the month of reimbursement to the contractor of the invoice or voucher to which such records relate, unless a shorter period is authorized by the contracting officer with the concurrence of the Comptroller General or his duly authorized representative.

(6) The provisions of this paragraph (a), including this subparagraph (6), shall be applicable to and included in each subcontract hereunder which is on a cost-plus-a-fixed-fee, time-and-material or labor-hour basis.

have a lien to the extent of the Government's interest under this contract on any mass of

(b) The contractor further agrees to include in each of his subcontracts hereunder, other than those set forth in paragraph (a) (6) above, a provision to the effect that the subcontractor agrees that the Comptroller General, the Secretary of the Interior, and the contracting officer, or any of their duly authorized representatives, shall, until the expiration of 3 years after final payment under the subcontract, or of the time periods for the particular records specified in Part 1-20 of the Federal Procurement Regulations (41 CFR Part 1-20), whichever expires earlier, have access to and the right to examine any directly pertinent books, documents, papers, and records of such subcontractor, involving transactions related to the subcontract. The term "subcontract", as used in this paragraph (b) only, excludes:

(1) Purchase orders not exceeding \$10,000; and

(ii) Subcontracts or purchase orders for public utility services at rates established for uniform applicability to the general public.

#### § 14H-70.607 Penalties.

##### PENALTIES

(a) Any officer, director, agent, employee or such other person connected in any capacity with this contract or any subcontract thereunder that embezzles, willfully misapplies, steals or obtains by fraud any of the money, funds, assets or property provided through the contract shall be fined not more than \$10,000 or imprisoned for not more than two years, or both: Provided, that if the amount embezzled, misapplied, stolen, or obtained by fraud does not exceed \$100, such person shall be fined not more than \$1,000 or imprisoned not more than one year, or both.

(b) The contractor agrees to insert this clause in all subcontracts.

#### § 14H-70.608 Indian employment preference.

##### INDIAN EMPLOYMENT PREFERENCE

(a) The contractor shall give preference in employment for all work performed under the contract, including subcontracts thereunder, to qualified Indians regardless of age, religion or sex, and to the extent feasible consistent with the efficient performance of the contract, provide employment and training opportunities to Indians, regardless of age, religion or sex that are not fully qualified to perform under the contract.

(b) If the contractor or any of its subcontractors is unable to fill its employment openings after giving full consideration to Indians as required in paragraph (a) above, these employment openings may then be filled by other than Indians under the conditions set forth in the Equal Opportunity clause of this contract.

(c) The contractor agrees to include this clause or one similar thereto in all subcontracts issued under the contract.

#### § 14H-70.609 Equal opportunity.

##### EQUAL OPPORTUNITY

During the performance of this contract and after complying with the Indian Employment Preference clause of this contract, the contractor agrees as follows:

(a) The contractor will not discriminate against any employee or applicant for employment because of race, age, religion, or sex. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, age, religion, or sex. Such action shall include, but not be limited to, the following: Employment, up-grading, demotion, or transfer; recruitment or recruitment advertising; pay-

ment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

payment(s) hereunder, and has taken all necessary action to authorize such

off or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

(b) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, age, religion or sex.

(c) The contractor will include the provisions of paragraphs (a) through (b) in every subcontract or purchase order, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action which respect to any subcontract or purchase order as the Bureau of Indian Affairs may direct as a means of enforcing such provisions, including sanctions for noncompliance. However, if the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Bureau of Indian Affairs, the contractor may request the United States to enter into such litigation to protect the interest of the United States.

#### § 14H-70.610 Use of Indian business concerns.

##### USE OF INDIAN BUSINESS CONCERNS

(a) As used in this clause, the term "Indian business concern" means Indian organizations or an Indian-owned economic enterprise as defined in 25 CFR 401.2.

(b) The contractor agrees to give preference to qualified Indian business concerns in the awarding of any subcontracts entered into under the contract consistent with the efficient performance of the contract.

(c) If no Indian business concerns are available under the conditions in paragraph (b) above, the contractor agrees to accomplish the maximum amount of subcontracting, as the contractor determines is consistent with its efficient performance of the contract, with small business concerns, labor surplus area concerns or minority business enterprises, the definitions for which are contained in Subparts 1-1.7, 1-1.8, and 1-1.13 of the Federal Procurement Regulations. The contractor is not, however, required to establish a small business, labor surplus, or minority business subcontracting program as described in § 1-1.710-3(b), § 1-1.805-3(b) and § 1-1.1310-2(b) respectively of the Federal Procurement Regulations (41 CFR 1).

#### § 14H-70.611 Indemnity and insurance.

##### INDEMNITY AND INSURANCE

(a) The contractor shall indemnify and save and keep harmless the Government against any or all loss, cost, damage, claim, expense or liability whatsoever, because of accident or injury to persons or property or others occurring in connection with any program included as a part of this contract, and provide where applicable, the insurance described below.

(b) The contractor shall secure, pay the premium for, and keep in force until the expiration of this contract or any renewal period thereof, insurance as provided below. Such insurance policies shall specifically include a provision stating the liability assumed by the contractor under this contract.

(1) Workman's compensation insurance as required by laws of the State.

(2) Owner's, landlord's and tenant's bodily injury liability insurance with limits of not less than \$50,000 for each person and \$500,000 for each accident.

(3) Property damage liability insurance with limits of not less than \$25,000 for each accident.

(4) Automobile bodily injury liability insurance with limits of not less than \$50,000 for each person and \$500,000 for each accident and property damage liability insurance

with a limit of not less than \$5,000 for each accident.

(5) Food products liability insurance with limits of not less than \$50,000 for each person and \$500,000 for each accident.

(6) Other insurance not specifically mentioned when required.

(c) Each policy of insurance shall contain an endorsement providing that cancellation by the insurance company shall not be effective unless a copy of the cancellation is mailed (registered) to the contracting officer at least 30 days before the effective date of cancellation.

(d) A certificate of each policy of insurance, and any changes therein, shall be furnished to the contracting officer immediately upon receipt from the insurance company.

(e) Insurance companies of the contractor shall be satisfactory to the contracting officer. When in his opinion an insurance company is not satisfactory for reasons that will be stated, the contractor shall provide insurance through companies that are satisfactory to the contracting officer.

(f) Each policy of insurance shall contain a provision that the insurance carrier waives any rights it may have to raise as a defense the tribe's sovereign immunity from suit, but such waiver shall extend only to claims the amount and nature of which are within the coverage and limits of the policy of insurance. The policy shall contain no provision, either express or implied, that will serve to authorize or empower the insurance carrier to waive or otherwise limit the tribe's sovereign immunity outside or beyond the coverage and limits of the policy of insurance.

§ 14H-70.612 Advance payment.

(a) The following clause will be inserted in all contracts in which deposit of the advance in a special bank account is not required.

##### ADVANCE PAYMENT

(a) Amount of advance. At the request of the contractor, and subject to the conditions set forth herein, the Government shall make advance payments to the contractor. Each payment shall be limited to the amount determined necessary for the contractor's operation under the contract for the period of time covered by the advance, which shall not be less than two weeks, except that the final payment under the contract may be a period less than two weeks.

(b) Payment will be made by check payable to the contractor.

(c) Funds advanced under this contract may not be used for any purpose except for making payments for materials, labor, administrative and overhead expenses allowable under this contract.

(d) The contractor shall keep separate accounts in his accounting system which will reflect all receipts, expenditures, fund balances and obligations under this contract.

(e) Return of funds. The contractor may at any time repay any or all of the funds advanced hereunder when it is determined that such funds will not be required for operations under the contract; or, when requested, in writing, by the contracting officer, as a result of retrocession, rescission or termination for cause of this contract, the contractor shall return such amount as may be determined by the contracting officer is not required for settlement of outstanding obligations.

(f) Liquidation. Advance payments may be liquidated by expenditure for purposes allowable under the contract. When the sum of all the advance payments made under this contract equals 85 per cent of the contract amount, no further advance payments shall be made until a review or audit of accounts has been made and any non-allowable

charges against the contract have been identified. Such amounts shall be subtracted

by the contracting officer or by an official of the Bureau of Indian Affairs authorized in

have a lien to the extent of the Government's interest under this contract on any mass of

(5) The commission of an act of bankruptcy by the Government, without limiting

payment(s) hereunder, and has taken all necessary action to authorize such

(7) Permit a writ of attachment or any similar process to be issued against its prop-

charges against the contract have been identified. Such amounts shall be subtracted from remaining funds due under the contract.

(g) No interest will be charged on advance payments.

(b) The following clause will be used in all contracts under which deposit of advance payments in a special bank account will be required.

#### ADVANCE PAYMENTS

(a) *Amount of advance.* At the request of the contractor and subject to conditions set forth herein, the Government shall make advance payments to the contractor in amounts and at such times as agreed to between the contractor and the contracting officer and which are specified in \_\_\_\_\_ of this contract.

(b) *Special bank account.* Until the advance payment(s) made hereunder is liquidated and the contracting officer approves in writing the release of any funds due and payable to the contractor, the advance payment(s) and all other payments (progress, partial, and final) made under the contract shall be made by check payable to the contractor but mailed to the bank, where the special bank account is maintained as stated in the Agreement for Special Bank Account. The check must be marked for "Deposit in Special Bank Account Number \_\_\_\_\_, Bureau of Indian Affairs." The Agreement for Special Bank Account shall designate the account number. No part of the funds deposited in the Special Bank Account shall be mingled with other funds of the contractor prior to withdrawal thereof from the Special Bank Account as hereinafter provided. Except as hereinafter provided, each withdrawal shall be only by check of the contractor, unless countersigning on behalf of the Government by the contracting officer or such other person as he may designate in writing is determined to be in the best interest of the Government and the contracting officer notifies the contractor and bank in writing that countersigning will be required.

(c) *Use of funds.* The funds in the Special Bank Account may be withdrawn by the contractor solely for the purposes of making payments for materials, labor, administrative and overhead expenses, and other purposes required for this contract, or for the purposes of reimbursing the contractor for such payments, and for such other purposes as the contracting officer may approve in writing. If this is a cost reimbursement contract, the funds in the Special Bank Account may be withdrawn by the contractor solely for the purpose of making payments for items of allowable costs as provided in the clause titled "Allowable Cost and Payment" of this contract. Any interpretation required as to the proper use of funds shall be made in writing by the Contracting Officer.

(d) *Return of funds.* The contractor may at any time repay all or any part of the funds advanced hereunder. Whenever so requested in writing by the contracting officer, the contractor shall repay to the Government such part of the unliquidated balance of the advance payment as shall be in excess of the contractor's current requirements or, when added to total advances previously made and liquidated, are in excess of the amount specified in paragraph (n)(1) hereof or are no longer to be made available to the contractor because of default, or abuse of their use, or for such other reasons as the contracting officer may specify. If the contractor fails to repay such part of the unliquidated balance of the advance payment when so requested by the Contracting Officer, all or any part thereof may be withdrawn from the Special Bank Account by check(s) made payable to the Bureau of Indian Affairs signed

by the contracting officer or by an official of the Bureau of Indian Affairs authorized in writing by the contracting officer to take such action. Such withdrawals shall be applied in reduction of the advance payment(s) then outstanding hereunder. The contracting officer shall notify the contractor and the bank of the action taken.

(e) *Liquidation.* If not otherwise liquidated, the advance payment(s) made hereunder shall be liquidated as herein provided. When the sum of all the estimated payments remaining due on the contract approximate the unliquidated amount of the advance payment(s), the contracting officer shall thereafter withhold further payments due on the contract, represented by proper invoiced amounts submitted by the contractor, and apply the amount(s) withheld against the liquidation of the advance payment until the advance payment has been fully liquidated. If, upon completion or termination of the contract, or for other reasons, the entire advance payment(s) is not fully liquidated, by the process indicated above, and the contractor does not repay the balance due upon request, then the balance thereof shall be offset against any sums otherwise due or which may become due to the contractor from the Government on any other contracts or from any source.

(f) *Interest charge.* No interest will be charged on the amount of the advance payment(s), but any interest earned on the advance payment(s) including sub-advances or contract earnings deposited in the Special Bank Account shall be used in the performance of the contract and to liquidate the advance payment(s) made.

(g) *Bank agreement.* Before an advance payment(s) is made hereunder, the contractor shall submit to the contracting officer in the form prescribed, an Agreement for Special Bank Account, in triplicate, signed by the contractor and an official of the bank in which the Special Bank Account is established as the depository for the advance payment(s) and other payments. The agreement shall clearly set forth the character of the Special Bank Account and the responsibilities of the contractor, the bank and contracting officer, thereunder. Wherever possible, such bank shall be a member of the Federal Reserve System, or an "insured" bank within the meaning of the Act creating the Federal Deposit Insurance Corporation (Act of August 23, 1935, 49 Stat. 684, as amended; 12 U.S.C. 264).

(h) *Lien on special bank account.* The Government shall have a lien upon any balance in the Special Bank Account paramount to all other liens, which lien shall secure the repayment of any advance payment(s) made hereunder.

(i) *Lien on property under contract.* Any advance payment(s) made under this contract shall be secured, when made, by a lien in favor of the Government, paramount to all other liens, upon the supplies or other things covered by this contract. The Government's lien shall apply to all material and other property acquired for or allocated to the of this contract, except to the extent that the Government by virtue of any other provision of this contract, or otherwise, shall have valid title to such supplies, materials, or other property as against other creditors of the contractor. The contractor shall identify, by marking or segregation, all property which is subject to a lien in favor of the Government by virtue of any provisions of this contract in such a way as to indicate that it is subject to such lien and that it has been acquired for or allocated to the performance of this contract. If for any reason such supplies, materials, or other property are not identified by marking or segregation, the Government shall be deemed to

have a lien to the extent of the Government's interest under this contract on any mass of property with which such supplies, materials, or other property are commingled. The contractor shall maintain adequate accounting control over such property on his books and records. If at any time during the progress of the work on the contract it becomes necessary to deliver any item or items and materials upon which the Government has a lien as aforesaid to a third person, the contractor shall notify such third person of the lien herein provided and shall obtain from such third person a receipt, in duplicate, acknowledging, inter alia, the existence of such lien. A copy of each receipt shall be delivered by the contractor to the contracting officer. If this contract is cancelled in whole or in part and the contractor is authorized to sell or retain cancellation inventory acquired for or allocated to this contract, such sale or retention shall be made only if approved by the contracting officer, which approval shall constitute a release of the Government's lien hereunder to the extent that such cancellation inventory is sold or retained, and to the extent that the proceeds of the sale, or the credit allowed for such retention of the contractor's termination claim, is applied in reduction of advance payment(s) then outstanding hereunder.

(j) *Insurance.* The contractor represents and warrants that he is now maintaining with responsible insurance carriers:

(1) Insurance upon his own plant and equipment against fire and other hazards to the extent that like properties are usually insured by others operating plants and properties of similar character in the same general locality;

(2) Adequate insurance against liability on account of damage to persons or property; and,

(3) Adequate insurance under all applicable workmen compensation laws. The contractor agrees that, until work under this contract has been completed and the advance payment(s) made hereunder has been liquidated, he will:

(i) Maintain such insurance;

(ii) Maintain adequate insurance upon any materials, parts, assemblies, sub-assemblies, supplies, equipment, and other property acquired for or allocated to this contract and subject to the Government lien hereunder; and,

(iii) Furnish such certificate with respect to his insurance as the contracting officer may require from:

(k) *Default provisions.* Upon the happening of any of the following events of default:

(1) Cancellation of this contract by reason of fault of the contractor;

(2) A finding by the contracting officer that the contractor:

(i) Has failed to observe any covenants, conditions, or warranties of these provisions or has failed to comply with any material provision of this contract; or,

(ii) Has so failed to make progress or is in such unsatisfactory financial conditions as to endanger performance of this contract; or,

(iii) Has allocated inventory to this contract substantially exceeding reasonable requirements; or,

(iv) Is delinquent in payment of taxes, or of the costs of performance of this contract in the ordinary course of business.

(3) Appointment of a trustee, receiver or liquidator for all or a substantial part of the contractor's property or institution of bankruptcy, reorganization, arrangement, or liquidation proceedings by or against the contractor;

(4) Service of any writ of attachment, levy of execution, or commencement of garnishment proceedings with respect to the Special Bank Account; or,

(5) The commission of an act of bankruptcy; the Government, without limiting any rights which it may otherwise have, may in its discretion and upon written notice to the contractor and bank, withhold further withdrawals from the Special Bank Account and withhold further payments on this contract. Upon the continuance of any such events of default for a period of 30 days after such written notice to the contractor and bank, the Government may, in its discretion, and without limiting any other rights which the Government may have, take the following additional actions as it may deem appropriate in the circumstances:

(i) Withdraw all or any part of the balance in the Special Bank Account by checks made payable to the Bureau of Indian Affairs, signed solely by an official of the Bureau of Indian Affairs authorized in writing by the contracting officer to take such action, and apply such amounts in reduction of the advance payment(s) then outstanding hereunder and in reduction of any other claims of the Government against the contractor;

(ii) Demand immediate repayment of the unliquidated balance of the advance payment(s) hereunder; or,

(iii) Take possession of and, with or without advertisement, sell at public sale at which the Government may be the purchaser, or at a private sale, all or any part of the property on which the Government has a lien under this contract and, after deducting any expenses incident to such sale, apply the net proceeds of such sale in reduction of the unliquidated balance of the advance payment(s) hereunder and in reduction of any other claims of the Government against the contractor.

(l) *Prohibition against assignment.* Notwithstanding any other provision of this contract, the contractor shall not, while any part of the advance payment(s) is unliquidated, pledge, or otherwise assign any monies due under this contract, or any claim arising thereunder, to any party or parties, bank, trust company, or other financing institution.

(m) *Information—access to records.* The contractor shall furnish to the contracting officer signed or certified balance sheets and profit and loss statements monthly, if required by the contracting officer, together with a monthly bank statement for the Special Bank Account and such other information concerning the operation of the contractor's business as may be requested. The contractor shall afford to authorize representatives of the Government facilities for inspection of the contractor's books, records, and accounts.

(n) *Designations and determinations.* (1) *Amount.* The amount of the advance payment(s) at any time outstanding hereunder shall not exceed the amount authorized in the Findings, Determinations, and Authorization for the advance payment(s).

(2) *Depository.* The advance payment(s) shall be deposited in the bank with which the Agreement for Special Bank Account is established.

(o) *Other security.* The terms of this contract shall be considered adequate security for advance payment(s) hereunder.

(p) *Representations and warranties.* To induce the making of the advance payment(s), the contractor represents and warrants that:

(1) No litigation or proceedings are presently pending or threatened against the contractor.

(2) None of the provisions herein contravenes or is in conflict with the authority under which the contractor is doing business or with the provision of any existing agreement of the contractor.

(3) The contractor has the power to enter into this contract and accept an advance

payment(s) hereunder, and has taken all necessary action to authorize such acceptance under the terms and conditions of this contract.

(4) None of the assets of the contractor is subject to any lien or encumbrance of any character except for current taxes not delinquent. There has been no assignment of claims under any contract affected by these advance payment provisions, or if there has been any assignment, such assignments have been terminated.

(5) All information furnished by the contractor to the contracting officer in connection with the request for an advance payment is true and correct.

(6) These representations and warranties shall be continuing and shall be deemed to have been repeated by the submission of any subsequent request for additional advance payment(s) under this contract.

(q) *Subadvances.* Subject to the prior written approval of the contracting officer, funds from the Special Bank Account may be used by the contractor to make advance payment(s) or down payments to subcontractors and suppliers of material in advance of performance by the subcontractor or suppliers of material. Such subadvances shall not exceed the subcontract price or estimated cost as the case may be. The subcontractors or suppliers of material to whom such advance payment(s) is made shall furnish adequate security therefor. Unless other security is required by the contracting officer, covenants in subcontracts, expressly made for the benefit of the Government providing for a Special Bank Account for the subadvance with Government lien thereon, and providing for a Government lien, paramount to all other liens, on all property under such subcontract, and the depository bank substantially the same duties and giving the Government substantially the same rights as are provided herein (and in the Agreement for Special Bank Account supplemental hereto) between the Government, the contractor, and the bank may be considered as adequate for such subadvance(s), unless adequate justification is first furnished to and approval obtained by the contracting officer.

(r) *Covenants.* During the period of time that an advance payment(s) made hereunder remains unliquidated, the contractor shall not, without prior written consent of the contracting officer:

(1) Mortgage, pledge, or otherwise encumber, or suffer to be encumbered, any of the assets of the contractor now owned or hereinafter acquired by it, or permit any pre-existing mortgages, liens, or other encumbrances to remain on or attach to any assets of the contractor which are allocated to the performance of this contract and with respect to which the Government has a lien hereunder;

(2) Sell, assign, transfer, or otherwise dispose of accounts receivable, notes, or claims for money due or to become due.

(3) Declare or pay any dividends, except dividends payable in stock of the corporation, or make any other distribution on account of any shares of its capital stock, or purchase, redeem, or otherwise acquire for value any such stock, except as required by sinking fund or redemption arrangements reported to the contracting officer incident to the establishment of these advance payment(s) provisions;

(4) Sell, convey, or lease all or a substantial part of its assets;

(5) Acquire for value the stock or other securities of any corporation, municipality, or governmental authority, except direct obligations, of the United States.

(6) Make any advance or loan to or incur any liability as guarantor;

(7) Permit a writ of attachment or any similar process to be issued against its property without procuring release thereof or bonding the same within 30 days after the entry of the writ of attachment or any similar process;

(8) Pay any salaries, commissions, bonuses, or other remuneration in any form or manner to its directors, officers, or key employees in excess of existing rates of payments, or of rates provided by this contract, or in existing agreements, in connection with which notice has been given to the contracting officer; or accrue such excess remuneration without first obtaining an agreement subordinating the same to all claims of the Government hereunder.

(9) Make any substantial change in management, ownership, or control of the organization with which this contract is made.

(10) Merge or consolidate with any other firm or corporation, change the type of its business, or engage in any transaction outside the ordinary course of its business as presently conducted;

(11) Deposit any of its funds except in a bank or trust company insured by the Federal Deposit Insurance Corporation; or,

(12) Create or incur indebtedness, borrow money or advances other than advances to be made hereunder, except as specified herein.

(c) The following clause will be used in all contracts in which the advance payment will be made by Letter of Credit:

#### ADVANCE PAYMENT

At the request of the contractor, and subject to the conditions set forth herein, and to Treasury Fiscal Requirements Manual, Department Circular 1075, the Government shall make advance payments to the contractor by Letter of Credit.

(a) The contractor agrees to comply with all the requirements and conditions set forth in Treasury Fiscal Requirements Manual, Department Circular 1075, a copy of which is attached and made a part of this contract.

(b) The contractor agrees to initiate cash draw-downs only when actually needed for its disbursements.

(c) The contractor agrees to report to the contracting officer cash disbursements and balances monthly not later than 15 days after the end of the month covered by the report.

(d) Failure to adhere to the provisions of this clause may cause the unobligated portion of the Letter of Credit to be dissolved by the contracting officer or the Department of the Treasury.

§ 14H-70.613. Contract funding and renegotiation.

The following clause shall be included in contracts which have a term of more than one year under the conditions set forth in 25 CFR 401.51.

#### CONTRACT FUNDING AND RENEGOTIATION

(a) Funds other than those appropriated during the fiscal year in which the contract commenced, that are included in the contract amount are subject to the availability of appropriations from Congress and there shall be no legal liability on the part of the Government in regard to such funds unless and until they are appropriated. Funds appropriated during the fiscal year in which the contract commenced that are included in the contract amount but not expended at the end of such fiscal year may be carried over and used for contract purposes in the succeeding fiscal year of the contract's operation, when the contract funds were appropriated pursuant to the Act of November 2, 1921 (42 Stat. 208), except as otherwise specifically provided in appropriation acts, or may be used to provide addi-

tional services upon modification of the con-

same in the condition in which received or

(c) When there is no immediate threat to the contractor, the contracting officer shall pro-

tract, the matter shall be resolved as prescribed in 25 CFR 401.63, 25 CFR 401.64 and

rective or are in fact segregated on the basis of race, color, religion, or national origin, be-

(c) If the estimated cost is not increased, and additional funds are not allocated to the contract, and all work under this contract

## PROPOSED RULES

tional services upon modification of the contract to include such services therein.

(b) Each succeeding year of the contract may be renegotiated prior to the end of the then current fiscal year in order to reflect changes that have taken place beyond the control of the contractor since the contract was originally negotiated or last renegotiated as is applicable.

#### § 14H-70.614 Government furnished property.

##### GOVERNMENT FURNISHED PROPERTY

(a) The Government will deliver to the contractor the property described in the Schedule and may, at its option, furnish other supplies or equipment as it may from time to time deem necessary or desirable for use in performing the work under this contract. All property furnished by the Government, together with all property acquired or furnished by the contractor with contract funds, title to which vests in the Government under this article, is subject to the provisions of this clause and is hereinafter collectively referred to as "Government property."

(b) The title of each item of equipment purchased with funds made available under this contract, the cost of which is reimbursable to the contractor under the contract, shall pass to and vest in the Government upon:

(1) Issuance for use of such property and in the performance of this contract; or,  
(2) Commencement of processing or use of such property in the performance of this contract; or,

(3) Reimbursement of the cost thereof by the Government, whichever first occurs. A simple record listing all items of equipment purchased with funds made available under this contract showing such property by names, manufacturers, serial number (if any), and the cost of the equipment, will be furnished to the contracting officer by the contractor. Each item of Government property shall be given an identification number, be subject to accountability, and become a part of the Bureau's property inventory, all as provided by the Bureau Manual.

(c) Title to Government property shall remain in the Government and shall be unaffected by the incorporation or attachment thereof to any property not owned by the Government, nor shall Government property or any part thereof be or become a fixture or lose its identity as personal property by reason of affixation to any realty. Except as otherwise specifically provided in this contract, the contractor:

(1) Shall not pledge, assign, or transfer title to any Government property; nor to allow or suffer anything to be done whereby any Government property may be seized, taken in execution, attached, destroyed or injured, and

(2) Shall not remove or otherwise part with possession of, or permit the use by others of, any Government property.

(d) The contractor shall maintain and administer, in accordance with sound industrial practice, a program for the maintenance, repair, protection and preservation of Government property.

(e) Except as may be otherwise provided for herein, Government property shall be used only for the performance of this contract unless written permission is granted by the contracting officer.

(f) Upon completion or termination of the contract, the contractor shall make such disposition of Government property then in his possession or custody as the contracting officer shall direct.

(g) The contractor shall be responsible for the care and safekeeping of Government property, and for the return or delivery of the

same in the condition in which received or appropriated for the contract, except for reasonable wear and tear, and except to the extent such property is consumed in the performance of this contract.

#### § 14H-70.615 Annual reporting.

##### ANNUAL REPORTING

(a) Within 90 days of the end of each fiscal year of this contract's term, the Indian tribe that requested the contract shall furnish the contracting officer a report that includes but is not limited to an accounting of the amounts and purposes for which the contract funds were expended and information on the conduct of the program or services and the extent to which the goals and objectives of the tribe were accomplished.

(b) When the contractor is the governing body of the Indian tribe that requested the contract, the report shall be submitted directly to the contracting officer.

(c) When the contractor is a tribal organization other than the governing body of the tribe, the tribal governing body that requested the contract shall submit the report. However, at the option of the tribe, the contractor shall prepare the report and submit it to the tribe for review and approval prior to the tribe submitting the report to the contracting officer.

(d) When the contract benefits more than one tribe, the contractor shall prepare the report and submit it to each of the tribes. Each of the tribes will endorse and make any comments they consider applicable before submitting the report to the contracting officer.

(e) Notwithstanding this requirement for an annual report, the contracting officer may request the contractor to furnish such other reports at such intervals as is deemed necessary.

#### § 14H-70.616 Reassumption of programs.

##### REASSUMPTION OF PROGRAMS

(a) Upon written notice to the contractor, the contracting officer may rescind the contract in whole or in part and assume or resume control or operation of the program, activity or service involved if it is determined that the contractor's performance involves

(1) the violation of the rights, or endangerment of the health, safety or welfare of any person; or (2) gross negligence or mismanagement in the handling or use of funds provided the contractor under the contract; or (3) when the contractor fails to perform the work required under the contract.

(b) If it is determined, under paragraph (a) of this clause, that there is an immediate threat to safety the contracting officer may by written notice to the contractor immediately rescind the contract or that portion thereof that poses such threat and assume or resume operation of the program activity or service involved. Within 10 calendar days of the date the contract was rescinded, the contracting officer will schedule a hearing at a time and place mutually agreed to by the parties. When the contractor is other than the governing body of the Indian tribe that requested the contract, the tribe will be advised of the contract rescission at the same time as the contractor and invited to attend the hearing and present its views. The time and place of the hearing will be coordinated with the tribe. If agreement on corrective measures is not reached at the hearing, the contracting officer shall reduce the issues to writing and mail or otherwise furnish a copy thereof to the contractor within 30 calendar days from the date of the hearing. The contractor may appeal the issues as provided for in Subpart C of 43 CFR Part 4.

(c) When there is no immediate threat to safety, the contracting officer shall provide written notice to the contractor of intent to rescind the contract which will include the reason why contract rescission is contemplated, what corrective measures are considered necessary and a reasonable time period in which corrective measures must be accomplished. If the contractor does not take corrective action within the time specified, the contracting officer may rescind the contract. However, the contractor has a right to a hearing and appeal as provided in paragraph (b) of this clause.

(c) When there is no immediate threat to safety, the contracting officer shall provide written notice to the contractor of intent to rescind the contract which will include the reason why contract rescission is contemplated, what corrective measures are considered necessary and a reasonable time period in which corrective measures must be accomplished. If the contractor does not take corrective action within the time specified, the contracting officer may rescind the contract. However, the contractor has a right to a hearing and appeal as provided in paragraph (b) of this clause.

#### § 14H-70.617 Fair and uniform services.

##### FAIR AND UNIFORM SERVICES

The contractor agrees that any services or assistance provided to Indians under the contract shall be provided in a fair and uniform manner.

#### § 14H-70.618 Disputes.

##### DISPUTES

(a) Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract, which is not disposed of by agreement, shall be decided by the contracting officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the contractor. The decision of the contracting officer shall be final and conclusive unless within thirty (30) days from the date of receipt of such copy, the contractor mails or otherwise furnishes to the contracting officer a written appeal addressed to the Secretary. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this clause, the contractor shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, the contractor shall proceed diligently with the performance of the contract and in accordance with the contracting officer's decision.

(b) This "Disputes" clause does not preclude consideration of law questions in connection with decisions provided for in paragraph (a) above. However, nothing in this contract shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

(c) Upon written notice to the contractor, the contracting officer may rescind the contract in whole or in part and assume or resume control or operation of the program, activity or service involved if it is determined that the contractor's performance involves

(1) the violation of the rights, or endangerment of the health, safety or welfare of any person; or (2) gross negligence or mismanagement in the handling or use of funds provided the contractor under the contract; or (3) when the contractor fails to perform the work required under the contract.

(b) If it is determined, under paragraph (a) of this clause, that there is an immediate threat to safety the contracting officer may by written notice to the contractor immediately rescind the contract or that portion thereof that poses such threat and assume or resume operation of the program activity or service involved. Within 10 calendar days of the date the contract was rescinded, the contracting officer will schedule a hearing at a time and place mutually agreed to by the parties. When the contractor is other than the governing body of the Indian tribe that requested the contract, the tribe will be advised of the contract rescission at the same time as the contractor and invited to attend the hearing and present its views. The time and place of the hearing will be coordinated with the tribe. If agreement on corrective measures is not reached at the hearing, the contracting officer shall reduce the issues to writing and mail or otherwise furnish a copy thereof to the contractor within 30 calendar days from the date of the hearing. The contractor may appeal the issues as provided for in Subpart C of 43 CFR Part 4.

(b) If it is determined, under paragraph (a) of this clause, that there is an immediate threat to safety the contracting officer may by written notice to the contractor immediately rescind the contract or that portion thereof that poses such threat and assume or resume operation of the program activity or service involved. Within 10 calendar days of the date the contract was rescinded, the contracting officer will schedule a hearing at a time and place mutually agreed to by the parties. When the contractor is other than the governing body of the Indian tribe that requested the contract, the tribe will be advised of the contract rescission at the same time as the contractor and invited to attend the hearing and present its views. The time and place of the hearing will be coordinated with the tribe. If agreement on corrective measures is not reached at the hearing, the contracting officer shall reduce the issues to writing and mail or otherwise furnish a copy thereof to the contractor within 30 calendar days from the date of the hearing. The contractor may appeal the issues as provided for in Subpart C of 43 CFR Part 4.

#### § 14H-70.619 Officials not to benefit.

##### OFFICIALS NOT TO BENEFIT

No members of Congress, or Resident Commissioner, shall be admitted to any share or part of this contract, or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

#### § 14H-70.620 Changes.

The following changes clauses are for use as indicated:

(a) For contracts other than construction.

##### CHANGES

This contract may be modified or amended on the written request of the contractor to the contracting officer; or when recommended by the contracting officer and with the consent of the contractor. When the contracting officer recommends a declination of a contractor's request to amend the con-

tract, the matter shall be resolved as prescribed in 25 CFR 401.63, 25 CFR 401.64 and 25 CFR 401.65.

(b) In addition, all cost-reimbursement contracts over \$10,000 shall contain the following clause:

##### FUNDING CHANGES

If for any reason beyond the control of the contracting office, the amount of funds allocated for the program operated under this contract are reduced by an amount or by a percentage resulting in a specific amount, the contract will be modified accordingly after consultation with the contractor. Such modification shall be made without penalty to the Government and shall not constitute basis for a claim under this contract.

#### § 14H-70.621 Bid guarantee and bonds.

The following clause shall be included in all construction contracts with a tribal organization, in accordance with § 1-10.103, § 1-10.104-1(a) and § 1-10.104-1(b) of this title, when it is estimated that the amount of the contract will exceed \$2,000:

##### BID GUARANTEE AND BONDS

(a) The contractor shall require a bid guarantee from all (sub) contractors who submit bids (proposals) for performing work under the contract in accordance with the policy set forth in § 1-10.103-1 of the Federal Procurement Regulations (41 CFR 1). When the bid guarantee is in the form of a bid bond, it may be submitted on other than the standard Government form: Provided, that the bond binds the Principal and the Surety(ies) in the same manner as they would be bound had the bid (proposal) been submitted to the Government.

(b) The contractor shall require the successful bidder (offeror) to furnish performance and payment bonds in the amounts set forth in the Miller Act (40 U.S.C. 270a-270e) and in accordance with the policies in §§ 1-10.104 and 1-10.105 of the Federal Procurement Regulations (41 CFR 1) as a condition precedent to the award of the (sub) contract. The bonds may be submitted on other than the standard Government form: Provided, that the form used binds the Principal and the Surety(ies) in the same manner that they would be bound were the (sub) contract with the Government.

#### § 14H-70.622 Certificate of nonsegregated facilities.

##### CERTIFICATE OF NONSEGREGATED FACILITIES

By signing the contract, the contractor certifies that he does not maintain or provide for his employees any segregated facilities at any of his establishments, and that he does not permit his employees to perform their services at any location, under his control, where segregated facilities are maintained. He certifies further that he will not maintain or provide for his employees any segregated facilities at any of his establishments, and that he will not permit his employees to perform their services at any location, under his control, where segregated facilities are maintained. The contractor agrees that a breach of this certification is a violation of the Equal Opportunity clause in this contract. As used in this certification, the term "segregated facilities" means any waiting rooms, work areas, rest rooms and wash rooms, restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit di-

## PROPOSED RULES

rective or are in fact segregated on the basis of race, color, religion, or national origin, because of habit, local custom, or otherwise. He further agrees that (except where he has obtained identical certifications from proposed subcontractors for specific time periods) he will obtain identical certifications from proposed subcontractors prior to the award of subcontracts exceeding \$10,000 which are not exempt from the provisions of the Equal Opportunity clause; that he will retain such certifications in his files; and that he will forward the following notice to such proposed subcontractors (except where the proposed subcontractors have submitted identical certifications for specific time periods):

##### NOTICE TO PROSPECTIVE SUBCONTRACTORS OF REQUIREMENT FOR CERTIFICATIONS OF NON-SEGREGATED FACILITIES

A certification of nonsegregated facilities must be submitted prior to the award of a subcontract exceeding \$10,000 which is not exempt from the provisions of the Equal Opportunity clause. The certification may be submitted either for each subcontract or for all subcontracts during a period (i.e., quarterly, semiannually, or annually).

#### § 14H-70.623 Convict labor.

##### CONVICT LABOR

In connection with the performance of work under this contract, the contractor agrees not to employ any person undergoing sentence of imprisonment except as provided by Public Law 89-176, September 10, 1965 (16 U.S.C. 4082(c) (2)) and Executive Order 11755, December 29, 1973.

#### § 14H-70.624 Limitation of costs.

##### LIMITATION OF COSTS

(a) It is estimated that the total costs to the Government for the performance of the work specified in this contract, will not exceed the estimated costs set forth in the Schedule. The contractor agrees to use its best efforts to perform this contract within the estimated total amount so specified, but neither the Government nor the contractor guarantees the accuracy of such estimate. If at any time the contractor has reason to believe that the costs which it expects to incur in the performance of this contract in the next succeeding thirty (30) days, when added to all costs previously incurred, will exceed eighty-five percent (85%) of the estimated costs then set forth in the Schedule, or if at any time the contractor has reason to believe that the total costs for the performance of this contract, will be greater or substantially less than the then estimated cost thereof, the contractor shall notify the contracting officer in writing to that effect, giving the revised estimate of such total cost for the performance of this contract.

(b) The Government shall not be obliged to reimburse the contractor for costs incurred in excess of the estimated costs set forth in the Schedule, and the contractor shall not be obliged to continue performance under the contract or to incur costs in excess of such estimate, unless and until the contracting officer has notified the contractor in writing that such estimated cost has been increased, and has specified in such notice a revised estimated cost, which shall thereupon constitute the estimated cost of performance of this contract. When, and to the extent that, the estimated cost has been increased, any costs previously incurred by the contractor in excess of such estimated cost shall be allowable to the same extent as if such costs are incident to and necessary for the performance of work specifically authorized under this contract at the time incurred.

(c) If the estimated cost is not increased, and additional funds are not allocated to the contract, and all work under this contract is discontinued because of exhaustion of funds, the contractor shall furnish a final report on the work which has been performed and the Government shall have no obligation to make further payments hereunder.

#### § 14H-70.625 Allowable cost and payment.

##### ALLOWABLE COST AND PAYMENT

(a) For the performance of this contract, the Government shall pay to the contractor (1) the costs thereof (hereinafter referred to as "allowable cost") determined by the contracting officer to be allowable in accordance with:

(i) Appendix A to 25 CFR 406 as in effect on the date of this contract.

(ii) The terms of this contract.  
(b) Once each month (or at more frequent intervals as may be specified elsewhere, or if approved by the contracting officer), the contractor may submit to the contracting officer or his authorized representative, in such form and reasonable detail as may be required, an invoice or public voucher supported by a statement of cost incurred by the contractor in the performance of this contract and claimed to constitute allowable cost.

(c) Promptly after receipt of each invoice or voucher, the Government shall make payment of the allowable costs incurred subject to the provisions of (d) below.

(d) At any time or times prior to final payment under this contract, the contracting officer may cause to be made such audit of the invoices or vouchers and statements of cost as shall be deemed necessary. Each payment made before that time shall be subject to reduction to the extent that amounts included in the related invoice or vouchers and statement of cost are found by the contracting officer not to constitute allowable cost, and shall also be subject to reduction for overpayments or to increase for underpayments on preceding invoices or vouchers.

(e) On receipt and approval of the voucher or invoice designated by the contractor as the "completion voucher" or "completion invoice" and statement of cost, which shall be submitted by the contractor as promptly as may be practicable following completion of the work under this contract but no later than six (6) months (or such longer period as the contracting officer may in his discretion, approve in writing) from the date of such completion, and following compliance by the contractor with all provisions of this contract, the Government shall as promptly as may be practicable pay to the contractor any balance of allowable cost.

(f) Any cost incurred by the contractor under the terms of this contract which would constitute allowable cost under the provisions of this clause shall be included in determining the amount payable under this contract, notwithstanding any provisions contained in the specification or other documents incorporated in this contract by reference, designating services to be performed or materials to be furnished by the contractor at its expense or without cost to the Government.

#### § 14H-70.626 Negotiated overhead rates.

##### NEGOTIATED OVERHEAD RATES

(a) Notwithstanding the provisions of the clause of this contract entitled "Allowable Cost and Payment," the allowable indirect costs under this contract shall be obtained by applying negotiated overhead rates to

## PROPOSED RULES

bases agreed upon by the parties, as specified below.

date the contractor furnishes to the contracting officer his written appeal under the

higher-tier subcontractor at the level involved in place of the contractor; to add "of

this contract was increased by any significant sums because the contractor, or any

\$100,000, the contractor shall insert the substance of the following clause:

Subpart 14H-70.7—Cancellation or Reassumption of Contracts

## PROPOSED RULES

bases agreed upon by the parties, as specified below.

(b) The contractor, as soon as possible, but not later than six (6) months after the expiration of the contractor's financial year or such other period as may mutually be agreed upon by the Government and the contractor shall submit to the contracting officer, with a copy of the cognizant audit agency, a proposed final overhead rate or rates for that period based on the contractor's costs experience during that period, together with supporting cost data. Negotiation of final overhead rates by the contractor and the contracting officer shall be undertaken as promptly as practicable after receipt of the contractor's proposal.

(c) Allowability of costs and acceptability of cost allocation methods shall be determined in accordance with Appendix A of 25 CFR 406, as in effect on the date of this contract.

(d) The results of each negotiation shall be set forth in an amendment to this contract, which shall specify (1) the agreed final rates, (2) the bases to which the rates apply, (3) the periods for which the rates apply, and (4) the specific items treated as direct costs or any changes in the items previously agreed to be direct costs.

(e) Pending establishment of final overhead rates for any period, the contractor shall be reimbursed either at negotiated provisional rates as provided in this contract or at billing rates acceptable to the contracting officer, subject to appropriate adjustment when the final rates for that period are established. To prevent substantial over or under payment, the provisional or billing rates may, at the request of either party, be revised by mutual agreement, either retroactively or prospectively. Any such revision of negotiated provisional rates provided in this contract shall be set forth in an amendment to this contract.

(f) Any failure by the parties to agree on any final rate or rates under this clause shall be considered a dispute concerning a question of fact for decision by the contracting officer within the meaning of the clause of this contract entitled "Disputes."

## § 14H-70.627 Assignment of claims.

## ASSIGNMENT OF CLAIMS

Pursuant to the provisions of the Assignment of Claims Act of 1940, as amended (31 U.S.C. 203, 41 U.S.C. 15), if this contract provides for payments aggregating \$1,000 or more, claims for monies due or to become due the contractor from the Government under this contract may be assigned to a bank, trust company, or other financing institution, including any Federal lending agency, and may thereafter be further assigned and reassigned to any such institution. Any such assignment shall cover all amounts payable under this contract and not already paid, and shall not be made to more than one party, except that any such assignment or reassignment may be made to one party as agent or trustee for two or more parties participating in such financing.

## § 14H-70.628 Payment of interest on contractor's claims.

## PAYMENT OF INTEREST ON CONTRACTOR'S CLAIMS

(a) If an appeal is filed by the contractor from a final decision of the contracting officer under the disputes clause of this contract, denying a claim arising under the contract, simple interest on the amount of the claim finally determined owed by the Government shall be payable to the contractor. Such interest shall be at the rate determined by the Secretary of the Treasury pursuant to Pub. L. 9241, 85 Stat. 97, from the

date the contractor furnishes to the contracting officer his written appeal under the disputes clause of this contract, to the date of (1) a final judgment by a court of competent jurisdiction, or (2) mailing to the contractor of a supplemental agreement for execution either confirming completed negotiations between the parties or carrying out a decision of a board of contract appeals.

(b) Notwithstanding (a) above, (1) interest shall be applied only from the date payment was due, if such date is later than the filing of appeal, and (2) interest shall not be paid for any period of time that the contracting officer determines the contractor has unduly delayed in pursuing his remedies before a board of contract appeals or a court of competent jurisdiction.

## § 14H-70.629 Audit and records.

## AUDIT AND RECORDS

(a) The contractor shall maintain books, records, documents, and other evidence and accounting procedures and practices, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred for the performance of this contract. The foregoing constitute "records" for the purposes of this clause.

(b) The contractor's facilities, or such part thereof as may be engaged in the performance of this contract, and his records shall be subject at all reasonable times to inspection and audit by the contracting officer or his authorized representatives. In addition, for purpose of verifying that cost or pricing data submitted, in conjunction with the negotiation of this contract or any contract change or other modification involving an amount in excess of \$100,000, were accurate, complete and current, the contracting officer, or his authorized representative, shall, until the expiration of 3 years from the date of final payment under this contract, or of the time periods for the particular records specified in Part 1-20 of the Federal Procurement Regulations (41 CFR Part 1-20), whichever expires earlier, have the right to examine those books, records, documents, papers, and other supporting data which involve transactions related to this contract or which will permit adequate evaluation of the cost or pricing data submitted, along with the computations and projections used therein.

(c) The contractor shall preserve and make available his records (1) until the expiration of 3 years from the date of final payment under this contract, or of the time period for the particular records specified in 41 CFR Part 1-20, whichever expires earlier, and (2) for such longer period, if any, as is required by applicable statute, or by other clauses of this contract, or by (c) (2) (i) or (ii) below.

(i) If the contract is completely or partially cancelled the records relating to the work terminated shall be preserved and made available for a period of 3 years from the date of any resulting final settlement.

(ii) Records which relate to (A) appeals under the "Disputes" clause of this contract, (B) litigation or the settlement of claims arising out of the performance of this contract, or (C) costs and expenses of this contract as to which exception has been taken by the contracting officer or any of his duly authorized representatives, shall be retained until such appeals, litigation, claims, or exceptions have been disposed of.

(d) (1) The contractor shall insert the substance of this clause, including the whole of this paragraph (d), in each subcontract hereunder that is not firm-fixed-price or fixed-price with escalation. When so inserted, changes shall be made to designate the

higher-tier subcontractor at the level involved in place of the contractor; to add "of the Government prime contract" after "contracting officer"; and to substitute "the Government prime contract" in place of "this contract" in (B) of paragraph (c) (2) (ii) above.

## § 14H-70.630 Contract Work Hours and Safety Standards Act—Overtime Compensation.

## CONTRACT WORK HOURS AND SAFETY STANDARDS ACT—OVERTIME COMPENSATION

This contract is subject to the Contract Work Hours and Safety Standards Act and to the applicable rules, regulations, and the interpretations of the Secretary of Labor.

(a) *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any laborer or mechanic in any work-week in which he is employed on such work to work in excess of eight hours in any calendar day or in excess of forty hours in such work-week on work subject to the provisions of the Contract Work Hours Standards Act unless such laborer or mechanic receives compensation at a rate not less than one and one-half times his basic rate of pay for all such hours worked in excess of eight hours in any calendar day or in excess of forty hours in such work-week, whichever is the greater number of overtime hours.

(b) *Violation, liability for unpaid wages, liquidated damages.* In the event of any violation of the provisions of paragraph (a), the contractor and any subcontractor responsible therefor shall be liable to any affected employee for his unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic employed in violation of the provisions of paragraph (a) in the sum of \$10 for each calendar day on which such employee was required or permitted to be employed on such work in excess of eight hours or in excess of the standard work-week of forty hours without payment of the overtime wages required by paragraph (a).

(c) *Withholding for unpaid wages and liquidated damages.* The contracting officer may withhold from the Government prime contractor, from any monies payable on account of work performed by the contractor or subcontractor, such sums as may administratively be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the provision of paragraph (b).

(d) *Subcontracts.* The contractor shall insert paragraphs (a) through (d) of this section in all subcontracts, and shall require their inclusion in all subcontracts of any tier.

(e) *Records.* The contractor shall maintain payroll records containing the information specified in 29 CFR 516.2(a). Such records shall be preserved for three years from the completion of the contract.

## § 14H-70.631 Price reduction for defective cost or pricing data.

The following clause shall be included in all contracts where cost and pricing data is required in accordance with § 14H-70.407.

## PRICE REDUCTION FOR DEFECTIVE COST OR PRICING DATA

(a) If the contracting officer determines that any price negotiated in connection with this contract or any cost reimbursable under

## PROPOSED RULES

this contract was increased by any significant sums because the contractor, or any subcontractor pursuant to the clause of this contract entitled "Subcontractor Cost or Pricing Data" or "Subcontractor Cost or Pricing Data-Price Adjustments," or any subcontract clause therein required, furnished incomplete or inaccurate cost or pricing data or data not current as certified in his Contractor's Certificate of Current Cost or Pricing Data, then such price or cost shall be reduced accordingly and the contract shall be modified in writing to reflect such reduction.

(b) Failure to agree on a reduction shall be a dispute concerning a question of fact within the meaning of the "Disputes" clause of this contract.

(NOTE: Since the contract is subject to reduction under this clause by reason of defective cost or pricing data submitted in connection with certain subcontracts, it is expected that the contractor may wish to include a clause in each such subcontract requiring the subcontractor to appropriately indemnify the contractor. It is also expected that any subcontractor subject to such indemnification will generally require substantially similar indemnification for defective cost or pricing data required to be submitted by his lower tier subcontractors.)

## § 14H-70.632 Subcontractor cost and pricing data.

The following clause should be included in all contracts, when the subcontracts of the type and size described herein are contemplated.

## SUBCONTRACTOR COST AND PRICING DATA

(a) The contractor shall require subcontractors hereunder to submit in writing cost or pricing data under the following circumstances:

(1) Prior to award of any cost-reimbursed type, time and material, labor-hour, incentive, or price redeterminable subcontract the price of which is expected to exceed \$100,000; and

(2) Prior to the award of any other subcontract, the price of which is expected to exceed \$100,000, or to the pricing of any subcontract change or other modification for which the price adjustment is expected to exceed \$100,000, where the price or price adjustment is not based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation.

(b) The contractor shall require subcontractors to certify, in substantially the same form as that used in the certificate by the Prime Contractor to the Government, that, to the best of their knowledge and belief, the cost and pricing data submitted under (a) above are accurate, complete, and current as of the date of the execution, which date shall be as close as possible to the date of agreement on the negotiated price of the subcontract or subcontract change or modification.

(c) The contractor shall insert the substance of this clause including this paragraph (c) in each of his cost-reimbursable type, time and material, labor-hour, price redeterminable, or incentive subcontracts hereunder, and in any other subcontract hereunder which exceed \$100,000 unless the price thereof is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation. In each such expected subcontract hereunder which exceed

\$100,000, the contractor shall insert the substance of the following clause:

## SUBCONTRACTOR COST AND PRICING DATA—PRICE ADJUSTMENTS

(a) Paragraphs (b) and (c) of this clause shall become operative only with respect to any change or other modification made pursuant to one or more provisions of this contract which involves a price adjustment in excess of \$100,000. The requirements of this clause shall be limited to such price adjustments.

(b) The contractor shall require subcontractors hereunder to submit cost or pricing data under the following circumstances:

(1) Prior to award of any cost-reimbursable type, time and material, labor-hour, incentive, or price redeterminable subcontract, the price of which is expected to exceed \$100,000; and—

(2) Prior to award of any other subcontract, the price of which is expected to exceed \$100,000, or to the pricing of any subcontract change or other modification for which the price adjustment is expected to exceed \$100,000, where the price or price adjustment is not based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation.

(c) The contractor shall require subcontractors to certify, in substantially the same form as that used in the Certificate by the Prime Contractor to the Government, that, to the best of their knowledge and belief, the cost and pricing data submitted under (b) above are accurate, complete, and current as of the date of the execution, which date shall be as close as possible to the date of agreement on the negotiated price of the contract modification.

(d) The contractor shall insert the substance of this clause including this paragraph (d) in each subcontract hereunder which exceeds \$100,000.

## § 14H-70.633 Buy American Act.

## BUY AMERICAN ACT

(a) The Buy American Act (41 U.S.C. 10a-d) requires, with certain exceptions, that in the procurement of supplies and services only domestic source end products shall be acquired for public use.

(b) The provisions of Part 1-6 of the Federal Procurement Regulations (41 CFR 1-6) deals with the Buy American Act and its application to Government contracts.

(c) The provisions of Part 1-6 of the Federal Procurement Regulations (41 CFR 1-6) are applicable to this contract and any subcontracts entered into under the contract. Questions concerning the Buy American Act and its applicability in specific circumstances should be directed to the contracting officer.

## § 14H-70.634 Anti-Kickback Act.

## ANTI-KICKBACK ACT

(a) Pub. L. 86-695, September 2, 1960 (41 U.S.C. 51-54) among other things, prohibits the payment, directly or indirectly, by or on behalf of a subcontractor in any tier under any Government negotiated contract of any fee, gift, or gratuity to the prime contractor or any higher tier subcontractor or any officer, agent, partner or employee thereof, as an inducement or acknowledgement for the award of a subcontract or order.

(b) The provisions of Pub. L. 86-695, are set forth in more detail in § 1-1.320 of the Federal Procurement Regulations (41 CFR 1-1) and are applicable to this contract and any subcontracts entered into under the contract.

## Subpart 14H-70.7—Cancellation or Reassumption of Contracts

## § 14H-70.701 General.

(a) Contracts pursuant to the Act may only be cancelled or reassumed under the conditions set forth in 25 CFR 401 as follows:

(1) Retrocession (25 CFR 401.71)  
(2) Reassumption (25 CFR 401.74)  
(3) Cancellation for cause (25 CFR 401.76)

(b) The clauses to be included in contracts covering the above situations are found in Subpart 14H-70.6 of this Part 14-70.

## § 14H-70.702 Settlement of cancelled contracts.

The settlement of any contracts cancelled or reassumed for the reasons set forth in § 14H-70.701 shall be as mutually agreed to by the Bureau and the contractor. If mutual agreement cannot be reached, the principles set forth in Subpart 1-8.6 of this title shall be used to arrive at the settlement.

## Subpart 14H-70.8—Bonds and Insurance

## § 14H-70.801 Scope of subpart.

This subpart deals with the requirement for tribal organizations to furnish bid guarantees, performance bonds and payment bonds on contracts for construction.

## § 14H-70.802 Policy on use of bid guarantees.

Bid guarantee will not be required in connection with construction contracts negotiated on a sole source basis with an Indian tribe or an Indian organization serving as a governmental instrumentality of an Indian tribe; *Provided* that such tribe or tribal organization shall require any potential subcontractor to furnish a bid guarantee in the amount and manner set forth in § 1-10.103-2 of this title.

## § 14H-70.803 Performance bonds.

(a) Performance bonds will not be required from an Indian tribe or Indian organization serving as a governmental instrumentality or an Indian tribe; *Provided* that such tribe or tribal organization shall require any subcontractor performing work under the contract to provide a performance bond in the amount and manner set forth in § 1-10.104.1 of this title.

(b) The clause to be included in construction contracts with Indian tribes and Indian organizations relative to performance bonds is set forth in § 14H-70.621.

## § 14H-70.804 Payment bonds.

(a) Payment bonds will not be required from an Indian tribe or Indian organization serving as a governmental instrumentality of an Indian tribe. However, such tribe or tribal organization shall require any subcontractor performing work under the contract to provide a payment bond in the amount and manner set forth in § 1-10.104-1 of the Federal Procurement Regulations.

## PROPOSED RULES

(b) The clauses to be included in con- § 14H-70.809 Indemnity and insurance. rate be established. The request shall be

of an Indian tribe, but shall be prefaced

§ 14H-70.1404 Advance payments when

dictable, automatic advance payments may be authorized by the contracting

## PROPOSED RULES

(b) The clause to be included in construction contracts with Indian tribes and Indian organizations relative to payment bonds is set forth in § 14H-70.621.

## § 14H-70.805 Liability insurance.

(a) This section prescribes policies and procedures with respect to the furnishing of liability insurance by Indian contractors in accordance with 25 CFR 401.44.

(b) Contracting offices shall assure themselves that all contracts with tribal organizations provide for the tribal organization to obtain general liability insurance and motor vehicle insurance. Each such contract shall further provide that the insurance carrier must be satisfactory to the contracting officer and that the contractor shall forward to the contracting officer a copy of the certificate of insurance as soon as such certificate is received from the insurance carrier.

## § 14H-70.806 Insurance coverage.

(a) The insurance provided by the contractor shall provide coverage to the contractor, the United States, their agents, and their employees within minimum amounts that are at least comparable to the minimum insurance coverage carried by other organizations in the same general area performing similar activities.

(b) The insurance shall provide for a waiver by the insurance carrier of any right it may have to raise as a defense the tribe's sovereign immunity from suit when a claim is within the limits of the policy. Further, the insurance shall not empower the insurance carrier to waive or otherwise limit the tribe's sovereign immunity outside or beyond the coverage and limits of the policy of insurance.

## § 14H-70.807 Exceptions.

(a) In those cases where the contracting officer determines that the risk of death, personal injury or property damage under the contract is small and that the time and cost of procuring the insurance is great in relation to the risk, he may exempt such contracts from the requirements of this Subpart.

(b) Some of the factors which the contracting officer shall consider in determining the magnitude of the risk involved are:

(1) The nature of the program contracted for.

(2) The number of persons involved in performing the contract.

(3) The contract period.

(4) The number of persons likely to come in contact with or be affected by the performance of the contract.

(5) The nature and value of any property which might be affected by the contract.

## § 14H-70.808 Motor vehicle insurance.

Notwithstanding the provisions of § 14H-70.807, any contract which requires or authorizes, either expressly or by implication, the use of motor vehicles must contain a provision requiring the tribal contractors to provide motor vehicle insurance, regardless of how small the risk may seem.

## § 14H-70.809 Indemnity and insurance clause.

The clause contained in § 14H-70.611 shall be included in all contracts with tribal contractors, unless the contracting officer determines that an exemption is warranted under § 14H-70.807. The limits of liability prescribed in the clause may be modified by the contracting officer when he determines such action is warranted.

## Subpart 14H-70.9—Labor

## § 14H-70.901 Labor standards in construction contracts.

The provisions of Subpart 1-12.4 of this title are applicable to construction contracts entered into pursuant to the Act, except when the contractor is the recognized governing body of an Indian tribe or a non-profit Indian organization serving as a governmental instrumentality of an Indian tribe.

## § 14H-70.902 Labor standards in subcontracts.

Subcontracts shall include and subcontractors shall comply with the provisions of Part 1-12 of the Federal Procurement Regulations (41 CFR 1-12) to the extent that the provisions are applicable to the subcontract requirements. Questions concerning the applicability of the provisions of Part 1-12 of the Federal Procurement Regulations should be addressed to the contracting officer.

## Subpart 14H-70.10—Contract Cost Principles and Procedures

The principles for determining costs applicable to contracts under the Act are contained in Appendix A to 25 CFR 406.

## § 14H-70.1001 Principles for determining costs.

(a) Indirect cost or overhead rates may be negotiated annually where cost experience, reliable accounting data and other pertinent facts are available to support the projection of allowable costs for the period covered by the contract or grant. Negotiated rates shall not result in an amount which will exceed actual costs.

(b) Where cost experience and accounting data are not available to support a negotiated rate and where the estimated amount of the contract is less than \$10,000, a lump sum overhead amount may be negotiated. Such an amount will be based on reasonable projection of estimated costs to be incurred by the tribal organization and shall take into consideration all costs which can be applied as direct costs, and shall not exceed 10 percent of the direct labor costs.

## § 14H-70.1003 Procedures.

(a) When a tribal organization desires overhead rates to be established and where no other Federal agency has established a rate nor will be expected to do so, the tribal organization may request through the contracting officer that a

rate be established. The request shall be supported by, as a minimum:

(1) A schedule of common costs which cannot be feasibly charged as direct costs of a program and are costs benefiting more than one program.

(2) The nature and extent of services provided and their relevance to the specific program.

(3) Methods and manner of distribution of costs.

(4) Total business of all programs to which indirect costs will be distributed.

(b) The contracting officer shall, after review and if indicated, further consultations with the tribal organization, forward the request to the Department of Interior, Office of Audit and Investigation, for review and audit as determined necessary. In the event a rate is approved without audit, the contract shall contain a clause to the effect that upon audit the rate may be changed retroactively to the beginning of the contract period.

(c) An audit by the Department's Office of Audit and Investigation will not be required prior to contract award and overhead rates may be approved by the Contracting Officer when:

(1) The amount of the contract is less than \$100,000.

(2) The contract is not the initial contract with the particular tribal organization, an overhead rate was previously established, and the overhead rate currently requested does not exceed that previously established one by more than one percentage point.

(3) Current overhead rates have been established by another Federal agency.

## Subpart 14H-70.11—Procurement Forms

## § 14H-70.1101 Applicability of standard forms.

The standard forms prescribed in Part 1-16 of this title may be used in connection with contracts entered into pursuant to the Act when applicable and may be modified when deemed necessary. However, standard forms other than SF 147 that contain clauses not prescribed by this Part 14H-70 shall not be used.

## Subpart 14H-70.12—Procurement of Construction

## § 14H-70.1201 Scope of subpart.

This subpart sets forth procedures and requirements peculiar to construction contracts. The terms and conditions of construction contracts when negotiated with an Indian organization pursuant to the Act shall to the extent applicable be in accordance with the requirements set forth in Part 1-18 of this title. However, if there is a conflict between Part 1-18 of this title and any provision of the Act or 25 CFR 401, the Act or 25 CFR 401 shall govern.

## § 14H-70.1202 Exceptions.

(a) Subpart 1-18.10 of this title is not applicable.

(b) The contract clauses required by § 1-18.703-1 of this title shall be inserted in construction contracts with an Indian tribe or an Indian organization which serves as a governmental instrumentality

of an Indian tribe, but shall be prefaced by the provision contained in § 1-18.703-2 of this title.

(c) In all cases, the contracting officer shall obtain and insert the Wage Determination Decision issued by the Secretary of Labor in the contract prior to award of any contract for construction that falls within the purview of the Davis-Bacon Act. The Wage Determination Decision should be furnished sufficiently in advance of the contract award date to permit full consideration by the tribal organization and any prospective subcontractors prior to contract award.

## Subpart 14H-70.13—Retention Requirements for Contractor and Subcontractor Records

## § 14H-70.1301 General.

The record retention requirements in Subpart 1-20.2 and Subpart 1-20.3 of this title are applicable to contracts under the Act.

## Subpart 14H-70.14—Contract Financing

## § 14H-70.1401 General.

This subpart sets forth the methods of making payments to tribal organizations performing contracts under the Act.

## § 14H-70.1402 Reimbursement.

This method will be used when a tribal organization does not request an advance payment. Payment will be made on receipt of a SF-1034 or other approved invoice form supported by documentation required by the contract after completion of the contract or such portions thereof as provided in the contract for partial payments.

## § 14H-70.1403 Advance payments by Treasury check.

(a) At the request of a tribal contractor, and subject to the conditions hereinafter set forth, and Chapter 2000 of the Treasury Fiscal Requirements Manual, the Government will make advance payments to tribal organizations as prescribed in 25 CFR 401.41.

(b) Any request for advance payment by a tribal contractor shall specify the amount(s) required and the dates such advance(s) will be required and shall be supported by a schedule of estimated expenditures.

(c) An initial advance will be limited to the amount of estimated expenditures for a period of time required to effect payment, based on experience in the locality. The initial advance may be made in amounts at times determined suitable to satisfy the minimum essential needs of the contractor.

(d) Subsequent advances may be made at times and in amounts determined necessary to insure availability of funds for timely payment of the contractor's obligations and to minimize the time between withdrawal from the Treasury and expenditure. Requests for advances subsequent to an initial advance shall be accompanied and supported by a report of expenditures to date and the amount of funds on hand.

## PROPOSED RULES

## § 14H-70.1404 Advance payments when special bank account required.

(a) Contracts authorizing the making of advance payments shall, except as provided in 25 CFR 401.41(a)(2)(i), require that the check be mailed to a bank to be deposited in a special bank account in the name of the contractor. No part of the funds deposited in the special bank account other funds of the contractor prior to withdrawal to meet obligations accruing under the contract.

(b) For all advance payments requiring the use of a special bank account, the form of Agreement for Special Bank Account prescribed in § 14H-70.1410 shall be used.

(c) All contracts requiring the use of a special bank account shall contain the contract clause prescribed in § 14H-70.6.

## § 14H-70.1405 Letter of credit.

When a contract authorizes advance payments totaling \$250,000 or more and the contract period is one year or more, advance payments will normally be made by Letter of Credit in accordance with the policies and procedures contained in Treasury Fiscal Requirements Manual, Chapter 2000.

## § 14H-70.1406 Approval of advance payments.

(a) Area Directors may approve advance payments which do not exceed \$250,000. When the contract term is for more than one year, Area Directors may approve advance payments which do not exceed \$250,000 each succeeding year of the contract.

(b) Requests for advance payments exceeding \$250,000 in the aggregate for the term of the contract, or one year if a multi-year contract, shall be forwarded to the Commissioner of Indian Affairs by Area Director for submission to the Department in accordance with § 14-30.406 of this title.

## § 14H-70.1407 Sub-advances.

Sub-advances may be made when predetermined as a part of a contracted program or when specifically authorized in writing by the contracting officer. Sub-advances will not be made to individuals except for approved travel and in such cases shall not exceed the minimum required for one trip and shall be settled by voucher or repayment within 30 days.

## § 14H-70.1408 Interest.

(a) Contractors shall not be held accountable for interest earned on funds advanced pending disbursement. However, it is required that bank balances be maintained at the minimum level consistent with program requirements, and requests for advances shall be reviewed to insure that excess funds are not advanced.

(b) Contractors shall not be charged interest by the Bureau for funds advanced under contracts entered into pursuant to the Act.

## § 14H-70.1409 Automatic advances.

When periodic payments under a contract will be essentially uniform and pre-

dictable, automatic advance payments may be authorized by the contracting officer to avoid delay inherent in payments based on formal request by the contractor. In such cases, reports of expenditures will be required and payments will be adjusted as necessary to prevent withdrawal of funds over and above that needed for efficient operation, and to insure adequate funds for timely settlement of the contractor's obligations. Adjustments to automatic advances shall be made after consultation with the contractor.

## § 14H-70.1410 Agreement for special bank account.

(a) In all instances where deposit of an advance payment in a special bank account is required, the following form of agreement will be used:

## AGREEMENT FOR SPECIAL BANK ACCOUNT

(1) This agreement entered into between the United States of America, hereinafter called the "Government," contractor, and Bank, each represented by the officials executing this agreement.

(2) The Government and the contractor entered into the contract(s) or Supplemental Agreement(s) thereto, providing for the making of advance payment(s) to the contractor. Copy of the advance payment clause included in the contract is attached to and made a part of this agreement.

(3) The advance payment clause requires that amounts advanced to the contractor be deposited in a Special Bank Account at a member bank or banks of the Federal Reserve System or any "insured" bank within the meaning of the Act creating the Federal Deposit Insurance Corporation (Act of August 23, 1935; 49 Stat. 684, as amended; 12 U.S.C. 264), separate from the contractor's general or other funds; and, the Bank being such a bank, the parties are agreeable to so depositing said amounts with the Bank.

(4) This Special Bank Account shall be designated as indicated in paragraph (7) of this agreement.

(5) In consideration of the foregoing, and for other good and valuable considerations, it is agreed that:

(i) The Government shall have a lien upon the credit balance in said account to secure the repayment of all advance payments made to the contractor, which lien shall be superior to any lien or claim of the bank with respect to such account.

(ii) The Bank will be bound by the provisions of the advance payment clause relating to the deposit in and withdrawal of funds from the Special Bank Account, but shall not be responsible for the use of funds withdrawn from said account. Upon receipt by the Bank of written directions of any kind from the contracting officer, or from the duly authorized representative of the contracting office, pertaining to the use of the funds in the Special Bank Account upon Department of the Interior, Bureau of Indian Affairs stationery and purporting to be signed by the contracting officer or the contracting officer's authorized representative, the Bank shall act thereon and insofar as the rights, duties, and liabilities of the Bank are concerned, the written directions shall be conclusively deemed to have been properly issued and filed with the Bank by the Department of the Interior, Bureau of Indian Affairs.

(iii) The Government, or its authorized representatives, shall have access to the books and records maintained by the Bank with respect to the Special Bank Account at all reasonable times and for all reasonable

## PROPOSED RULES

purposes, including (but without limiting the generality thereof) the inspection or copying of such books and records and any and all memoranda, checks, correspondence or documents appertaining thereto. Such books and records shall be preserved by the Bank for a period of six (6) years after the closing of the Special Bank Account.

(4) In the event of the service of any writ of attachment, levy of execution, or commencement of garnishment proceedings with respect to the Special Bank Account, the Bank will promptly notify the contracting officer.

(5) The Bank, contractor, and Government by executing this agreement are bound by all of the provisions contained in the advance payment clause attached which is made a part of the contract.

(6) The contract number and purpose of the Contract(s) or supplemental agreement(s) referred to above are as follows:

(7) The Special Bank Account shall be designated as SPECIAL BANK ACCOUNT NUMBER \_\_\_\_\_ Bureau of Indian Affairs. IN WITNESS WHEREOF, The parties hereto have caused this agreement to be executed as of the date and year written below:

Date \_\_\_\_\_ 19\_\_\_\_  
CONTRACTOR  
Name: \_\_\_\_\_

Name and title of representative: \_\_\_\_\_

Subpart 14H-70.15—Novation and Change of Name Agreements

§ 14H-70.1501 General.

The provisions of Subpart 1-26.4 of this title are applicable to contracts under the Act.

Subpart 14H-70.16—Procurement Reports

§ 14H-70.1601 General.

This subpart sets forth the requirements for reporting procurement actions under the Act.

§ 14H-70.1602 Standard Form 37, Report on Procurement by Civilian Executive Agencies.

Procurements under the Act shall be reported on SF-37, in accordance with § 1-16.804-3 and § 14-16.804-3 of this title. However, the number and dollar amount of such procurements shall be entered in the "remarks" section of SF-37, and shall be clearly identified as having been entered into with tribal organizations pursuant to the Act.

MORRIS THOMPSON,  
Commissioner of Indian Affairs.

**Title 49—Transportation**  
**SUBTITLE A—OFFICE OF THE**  
**SECRETARY OF TRANSPORTATION**  
 [OST Docket No. 29; Amdt. No. 25-1]

**PART 25—RELOCATION ASSISTANCE AND**  
**LAND ACQUISITION FOR FEDERAL AND**  
**FEDERALLY-ASSISTED PROGRAMS**

This amendment revises Part 25 of the Regulations of the Office of the Secretary of Transportation in accordance with experience gained by the Department since Part 25 was issued on May 13, 1971, and pursuant to revised guidelines of the General Services Administration (Federal Management Circular 74-8, dated October 4, 1974 (39 FR 37367)), for procedures to carry out the Uniform Relocation Assistance and Real Properties Acquisition Policies Act of 1970. Part 25, which applies to Federal and Federally-assisted programs administered by each operating administration in the Department as well as the Office of the Secretary implements a uniform Federal policy for the fair and equitable treatment of persons displaced by Federal or Federally-assisted programs or whose land is acquired for those programs.

On June 14, 1973, the Department published a notice in the Federal Register proposing to amend the regulations in Part 25. (38 FR 15696, Docket No. 29, Notice No. 73-7). Interested persons were invited to submit comments or suggestions by close of business on August 10, 1973. After consideration of all the comments and suggestions received, insofar as they relate to matters within the scope of the notice, changes to a number of the proposed rules have been incorporated in the final versions of those rules. The principal changes made follow, listed by section in the notice:

§ 25.1. Paragraph (b) was modified to make it clear that the Department will not participate in a project unless comparable replacement dwellings are available to displacees in advance of displacement.

§ 25.3. The definition "dwelling" was modified by deleting subparagraph (4) because subparagraph (5) (now redesignated subparagraph (4)) is broad enough to include subparagraph (4).

A minor editorial change was made in the definition of "own" by transferring a portion of the introductory sentence to § 25.181(d). In addition, in subparagraph (5) the word "proprietary" was added.

§ 25.11. A minor editorial change was made in the introductory paragraph of (a) of § 25.11. A portion of paragraph (c) (3) was deleted because it imposed an inequitable requirement.

§ 25.12. This section was deleted because it duplicates the requirements set forth in § 25.93.

§ 25.13. Paragraph (b) was clarified to indicate that the appropriate DOT official need not approve every written notice, but rather the conditions under which written notices may be issued.

§ 25.15. Paragraph (a) (3) (iii) was corrected to indicate that consideration should be given to unreasonable adverse

**RULES AND REGULATIONS**

environmental factors. Paragraph (a) (6) was deleted as surplusage. Paragraph (a) (7) was redesignated (a) (6). Paragraph (a) (8) was redesignated (a) (7) and revised to require comparable replacement dwellings to be available to all individuals regardless of sex.

§ 25.17. Paragraph (a) (7) was revised to require adequate and safe wiring to cover situations where localities have no codes governing electrical systems. Paragraph (a) (9) was changed editorially to clarify the paragraph. Paragraph (a) (10) was changed to clarify the paragraph. Paragraph (11) was deleted because it is covered in the comparable replacement dwelling requirement.

§ 25.19. Paragraph (a) (5) was changed editorially to clarify the paragraph. Paragraph (6) was deleted since it is covered in the comparable replacement dwelling requirement. Paragraph (a) (7) was deleted as surplusage.

§ 25.21. Paragraph (a) was modified to specify the subparts applicable to the paragraph.

§ 25.23. Paragraph (a) was revised so that each agency concerned shall maintain relocation accounts, records and reports in accordance to the requirement prescribed by the appropriate DOT official.

§ 25.25. This section was clarified to indicate that the appropriate DOT official is to be guided by HUD criteria.

§ 25.27. This section was clarified to indicate that the appropriate DOT official is to be guided by the HUD criteria.

§ 25.29. Paragraph (b) was revised to include the Federal Register citation to OMB Circular A-95.

§ 25.30. This section in the notice was redesignated 25.31 and clarified to include the displacement of persons.

§ 25.31. This section in the notice was redesignated 25.41 without change.

§ 25.33. This section in the notice was redesignated 25.43 without change. A new section 25.33 was added to make clear that relocation payments are not to be considered income for certain purposes.

§ 25.35. This section in the notice was redesignated 25.45 without change.

§ 25.53. Paragraph (a) was revised to indicate the sources that may be used when the preliminary investigations are made. In addition, it details the kind of data that should be included.

§ 25.55. Paragraph (c) (1) was revised since some of the information required in the notice would be obtained at an earlier stage of the project.

§ 25.57. This section was revised to indicate that with regard to displacements occurring before July 1, 1972, the assurance required applies only to the extent the State agency was able to make the assurance under State law.

§ 25.59. This section was revised to indicate that with regard to property acquisitions occurring before July 1, 1972, the assurance required applies only to the extent the State agency was able to make the assurance under State law.

§ 25.61. This section was deleted since similar requirements are covered in Subpart D.

§ 25.63. This section in the notice was redesignated 25.61 without change.

§ 25.65. This section in the notice was redesignated 25.63 without change.

§ 25.75. The introductory sentence in this section was revised to indicate that the relocation assistance advisory program must comply with Title VI of the Civil Rights Act of 1964 requirements and the Department's implementing regulations.

§ 25.77. Paragraph (c) (5) was changed to make clear the information required to be maintained.

§ 25.91. The introductory sentence in this section was revised to indicate that notices are to be posted unless prohibited by law.

§ 25.117. Paragraph (b) was changed editorially to clarify the paragraph.

§ 25.121. Paragraph (a) (5) (iii) has been deleted as surplusage. Paragraph (a) (7) was added to enable the appropriate DOT official to determine other additional allowable expenses.

§ 25.123. Paragraph (b) was added to make it clear that paragraph (a) is not applicable to an outdoor advertising display owned and located on the premises of a business or farm operation being displaced.

§ 25.157. Paragraph (b) revised the criteria for a business conducted for profit. In paragraph (b) (2) (iv) an editorial change was made to clarify the sentence. Paragraph (c) (1) corrected an error in the notice by changing the words "appropriate DOT official" to "agency concerned".

§ 25.159. In paragraph (a) a sentence was added making the criteria for a business conducted for profit applicable to a farm operation. Paragraph (b) revised the criteria for a partial displacement of a farm operation.

§ 25.163. This section was added and provides for rules in considering fixed allowances.

§ 25.187. Minor editorial changes were made to clarify the section.

§ 25.195. This section was revised to clarify the period and term applicable to payments for increased interest cost. In addition, paragraph (b) (3) provides the conditions under which purchaser points, or origination fees, or both, are payable.

§ 25.199. Minor editorial changes were made to clarify the section.

§ 25.205. Paragraph (a) was revised to provide for installments when the displaced person so requests.

§ 25.207. A minor editorial change was made in this section by including the words "and incidental expenses" in the introductory sentence to conform with paragraph 25.185(b) (2).

§ 25.209. This section was revised and paragraph (a) sets the upper limits of a down payment.

§ 25.217. This section was revised and now requires the appropriate DOT official to establish implementing criteria.

§ 25.235. Paragraph (f) was deleted since the requirement is covered in paragraph (a).

§ 25.252. This section in the notice has been redesignated as 25.260 without change.

§ 25.253. In paragraph (c), a minor editorial change was made.

Paragraph (c) was modified since deposits for the benefit of the owner may be made with a board, commission, or similar body not having jurisdiction over the condemnation proceedings.

Paragraph (d) was deleted as surplusage.

§ 25.255. The introductory paragraph was revised to indicate that the phrase "to the greatest extent practicable" is applicable to the contents of the statement.

§ 25.259. Paragraph (a) was changed to clarify the paragraph.

§ 25.261. The introductory sentence of this section was revised to conform with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970.

§ 25.267. This section has been added. While this provision is not part of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, the Department feels that is appropriate that its policy regarding replacing publicly-owned property be placed in this part.

Appendix A was deleted. Section 25.23 requires the appropriate DOT official to prescribe the record-keeping criteria.

Appendix B in the notice has been redesignated Appendix A. In addition, Table 1 and Table 2 of Appendix A were revised to reflect changes in the schedule.

Appendix C in the notice has been redesignated Appendix B without change.

In consideration of the foregoing, Part 25 of Title 49 of the Code of Federal Regulations is amended as set forth below, by—

- (a) Revising the table of sections.
- (b) Revising Subparts A through I.
- (c) Deleting Appendix A.
- (d) Redesignating Appendix B as Appendix A.
- (e) Redesignating Appendix C as Appendix B.

This amendment is issued under the authority of section 213, 84 Stat. 1900, 42 U.S.C. 4633.

*Effective date:* This amendment is effective September 4, 1975.

Issued in Washington, D.C., on August 27, 1975.

WILLIAM T. COLEMAN, Jr.,  
 Secretary of Transportation.

25.73	Extension of services to adjacent occupants.
25.75	Relocation programs; general requirements.
25.77	Organizational requirements.
25.79	Local relocation office.
25.81	Coordination with other agencies.
25.83	Public information; general.
25.85	Public information; hearings.
25.87	Public information; brochure.
25.89	Public information; announcements.
25.91	Public information; notices.
25.93	Information for displaced persons.

<b>Subpart E—Moving and Related Expenses</b>	
25.111	Scope.
25.113	Eligibility.
25.115	Payment limited to one move; exception.
25.117	Moving expenses; application and payment.
25.119	Exclusions.
25.121	Moving expenses; displaced persons.
25.123	Moving expenses; outdoor advertising businesses.
25.125	Low value, high bulk property; businesses and farm operations.
25.127	Actual direct losses; businesses and farm operations.
25.129	Expenses in searching for replacement business or farm operation.

<b>Subpart F—Fixed Allowance in Lieu of Moving and Related Expenses</b>	
25.151	Scope.
25.153	Schedule of moving expense allowances; individuals and families.
25.155	Dislocation and moving expense allowances; individuals and families.
25.157	Fixed allowance; profit and non-profit businesses.
25.159	Fixed allowance; farm operation.
25.161	Computing average annual net income; businesses and farm operations.
25.163	Rules in considering fixed allowance; businesses and farm operations.

<b>Subpart G—Replacement Housing Payments</b>	
25.171	Scope.
25.173	Purchase of a decent, safe, and sanitary dwelling.
25.175	Occupancy.
25.177	Inspection of replacement dwelling required.
25.179	Application and payment.
25.181	Eligibility.
25.183	Replacement housing payment; purchase price.

Sec.	Replacement housing payments; rent and down payments.
25.185	Rules for considering land values.
25.187	Limitations; payment for purchase price.
25.189	Reasonable cost of comparable replacement dwelling.
25.191	Owner retention.
25.193	Increased interest costs.
25.195	Incidental expenses.
25.197	Computation of rental payments; tenants.
25.199	Computation of rental payments; homeowners.
25.201	Limitation of rental payment.
25.202	Determining reasonable monthly rent.
25.203	Rental payments; method of payment.
25.205	Computation of down payments.
25.207	Down payments.
25.209	Provisional payment pending condemnation.
25.211	Combined payments.
25.213	Partial use of home for business or farm operation.
25.215	Multiple occupants of a single dwelling.
25.217	Multi-family dwelling.
25.219	Certificate of eligibility pending purchase of replacement dwelling.

<b>Subpart H—Relocation Assistance Functions Carried Out Through Other Agencies</b>	
25.231	Authority to carry out relocation assistance through other agencies.
25.233	Information to be furnished to DOT.
25.235	Interagency agreement required.
25.237	Amendment of existing agreements required.

<b>Subpart I—Acquisition of Real Property</b>	
25.251	Scope.
25.253	Real property acquisition practices.
25.255	Statement of just compensation to owner.
25.257	Equal interest in improvements to be acquired.
25.259	Payments to tenants for improvements.
25.261	Criteria for appraisals.
25.263	Expenses incidental to transfer of title.
25.265	Litigation expenses.
25.267	Allowance for benefits prohibited.
25.269	Cost of replacing publicly-owned property.

APPENDIX A—Schedule of Moving Expense Allowances  
 AUTHORITY: Sec. 213, 84 Stat. 1900, 42 U.S.C. 4633.

**Subpart A—General**

**§ 25.1 Purpose and policy.**

(a) This part implements the Uniform Relocation Assistance and Land Acquisition Policies Act of 1970 which provides for the uniform and equitable treatment of persons displaced from their homes, businesses, or farms by Federal and Federally-assisted programs and establishes uniform and equitable land acquisition policies for Federal and Federally-assisted programs.

(b) In implementing the Act, it is the policy of the Department of Transportation to deal consistently and fairly with all persons whose property is taken for public projects and all persons who are displaced from their homes, businesses, or farms. The Department will not participate in a project which displaces individuals and families from their homes unless comparable replacement dwell-

ings are available to them in advance of

"Homeowner" means an individual or

(i) U.S. Coast Guard.  
 and Federal Administration.

**RULES AND REGULATIONS**

(ii) For the purposes of Subparts D and E and §§ 25.153 and 25.155 to vacate

(6) Within the financial means of the displaced family or individual;

properly connected to a sewage water drainage system;

## RULES AND REGULATIONS

ings are available to them in advance of their displacement.

## § 25.3 Definitions.

As used in this part—

"Agency concerned" means the operating administration within the Department of Transportation or the State agency responsible for carrying out the project concerned, or the Office of the Secretary of Transportation in the case of a project being carried out by that office.

"Appropriate DOT official" means an official of the Department of Transportation to whom the Secretary of Transportation has delegated authority to carry out this part, and includes any person to whom that official has redelegated that authority.

"Business" means a lawful activity, other than a farm operation, conducted primarily—

(1) For the purchase, sale, lease, or rental of personal and real property, and the manufacture, processing or marketing of products, commodities, or other personal property;

(2) For the sale of services to the public; or

(3) By a nonprofit organization.

"Dwelling" means the place of permanent or customary and usual residence of an individual or family, and includes:

(1) A single-family house;

(2) A single-family unit in a multi-family building;

(3) A unit of a condominium or cooperative housing project; or

(4) Any other residential unit.

"Economic rent" means the amount of rent a tenant or homeowner would have to pay for a dwelling comparable to the acquired dwelling in a similar area.

"Family" means two or more individuals who live together in a dwelling and are—

(1) Related by blood, marriage, adoption, or legal guardianship; or

(2) Determined to be jointly eligible for benefits under this part by the appropriate DOT official.

"Farm operation" means a lawful activity conducted solely or primarily for the production of one or more agricultural products or commodities, including timber, for sale or home use.

"Federal agency" means a department, agency or instrumentality in the Executive Branch of Government (except the National Capital Housing Authority), any wholly-owned Government corporation (except the District of Columbia Redevelopment Land Agency), and the Architect of the Capitol, the Federal Reserve Banks and branches thereof.

"Federal financial assistance" means a grant, loan, or contribution by the United States, other than a Federal guarantee or insurance or an annual payment or capital loan to the District of Columbia.

"Federally-assisted" means assisted by a grant, loan or contribution by the United States, other than a Federal guarantee or insurance or an annual payment or capital loan to the District of Columbia.

"Homeowner" means an individual or family who owns and occupies a dwelling.

"Initiation of negotiations" means the date the agency concerned makes its first personal contact with the owner of real property, or his representative, to give him a written offer for the property to be acquired.

"Mortgage" means a lien commonly given to secure an advance on, or the unpaid purchase price of, real property under the laws of the State in which real property is located, together with any credit instruments secured thereby.

"Own" means holding any of the following interests in a dwelling, or a contract to purchase one of those interests:

(1) A fee title.

(2) A life estate.

(3) A 99-year lease.

(4) A lease with at least 50 years to run from the date of acquisition of the property.

(5) A proprietary interest in a cooperative housing project which includes the right to occupy a dwelling; or

(6) Any other interest which the appropriate DOT official determines to be a sufficient proprietary right.

"Person" includes a partnership, company, corporation, or association as well as an individual or family.

"State" means any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a territory or possession of the United States, the trust territories of the Pacific Islands, or a political subdivision of any of those jurisdictions.

"State agency" means a department, public body, agency or instrumentality of a State or of a political subdivision of a State, or any department, agency or instrumentality of two or more States or of two or more political subdivisions of a State or States, the National Capital Housing Authority and the District of Columbia Redevelopment Land Agency.

"Tenant" means an individual or family who rents, or is temporarily in lawful possession of a dwelling, including a sleeping room.

## § 25.5 Applicability.

This part applies to projects which are part of a Federal or Federally-assisted program administered by the Department of Transportation and which, after January 1, 1971, cause the displacement of persons or the acquisition of real property, including acquisition by a State agency without Federal financial assistance.

## § 25.7 Delegations of authority.

(a) Except as provided in § 25.153, the functions, powers, and duties of the Secretary of Transportation with respect to the "Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970" are delegated to—

(1) The Assistant Secretary for Administration with respect to programs administered directly by the Office of the Secretary; and

(2) The head of each of the following operating administrations with respect to programs administered by their respective organizations:

(i) U.S. Coast Guard.

(ii) Federal Aviation Administration.

(iii) Federal Highway Administration.

(iv) Federal Railroad Administration.

(v) Urban Mass Transportation Administration.

(vi) National Highway Traffic Safety Administration.

(vii) St. Lawrence Seaway Development Corporation.

(b) Each officer to whom authority is delegated by paragraph (a) of this section may redelegate and authorize successive redelegations of that authority within the organization under his jurisdiction.

## § 25.9 Regulations.

(a) Each officer to whom authority is delegated by § 25.7 may prepare, and submit to the Assistant Secretary for Environment, Safety and Consumer Affairs for approval, regulations that—

(1) Implement the requirements of the "Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970" (84 Stat. 1894) and this part; and

(2) Prescribe additional procedures and requirements that are appropriate to the particular programs administered by the preparing officer's organization and are not inconsistent with the Act or this part.

(b) After the Assistant Secretary for Environment, Safety and Consumer Affairs approves the regulations, the preparing officer shall submit them to the FEDERAL REGISTER for publication.

(c) Regulations issued under this section are effective only after approval by the Assistant Secretary for Environment, Safety and Consumer Affairs and publication in the FEDERAL REGISTER.

(d) This section applies to each amendment of regulations issued under this section.

(e) Regulations issued under this section shall be revised, as necessary, to conform to any amendments that may be made to this part.

## § 25.11 Displaced person: qualifications.

(a) Subject to the requirements of paragraph (c) of this section, a person qualifies as a displaced person if after January 1, 1971, he moves from real property, or moves his personal property from real property, and the move is a direct result of—

(1) The initiation of negotiations—

(i) For the real property; or

(ii) For the purposes of Subparts D and E and §§ 25.153 and 25.155, for other real property on which he conducts a business or farm operation;

(2) A written notice from the agency concerned of its intent—

(i) To acquire the real property by a definite date; or

(ii) For the purposes of Subparts D and E and §§ 25.153 and 25.155, to acquire other real property on which he conducts a business or farm operation; or

(3) A written order from the agency concerned—

(i) To vacate the real property; or

(ii) For the purposes of Subparts D and E and §§ 25.153 and 25.155, to vacate other real property on which he conducts a business or farm operation.

(b) A person may qualify as a displaced person, regardless of—

(1) Whether the property is acquired by a Federal or State agency;

(2) The method of acquisition;

(3) The name or status of the person who acquires or holds fee title to the property; or

(4) Whether Federal funds contribute directly to the payment for the property, if the property must be acquired for a Federal or Federally-assisted program or project, and the end result is to serve or be considered to serve in the public interest.

(c) A person does not qualify as a displaced person under paragraph (a) (1) or (2) of this section until—

(1) The agency concerned becomes entitled to possession of the real property under an agreement or a court order in a condemnation proceeding for acquiring the property;

(2) The owner conveys title to the real property to the agency concerned; or

(3) The owner and the agency concerned enter into a contract for the purchase of the real property.

## § 25.13 Notices of intent to acquire real property.

The agency concerned may not issue written notices of intent to acquire real property by a definite date until—

(a) The beginning of any project phase which will cause the displacement of persons who are to receive the written notices; and

(b) The appropriate DOT official has approved the conditions under which the written notices may be issued.

## § 25.15 Comparable replacement dwelling: requirements.

(a) A dwelling is a comparable replacement dwelling for the purposes of this part if it is available on the market and—

(1) Decent, safe, and sanitary;

(2) Functionally equivalent and substantially the same as the dwelling being acquired, but not excluding newly constructed housing, with respect to—

(i) Number of rooms;

(ii) Area of living space;

(iii) Type of construction;

(3) In an area not generally less desirable than the dwelling being acquired with respect to—

(i) Public utilities;

(ii) Public and commercial facilities; and

(iii) Neighborhood conditions, including municipal services, and unreasonably adverse environmental factors;

(4) Reasonably accessible to the place of employment, or potential place of employment, of the head of the displaced family, or the displaced individual, as the case may be;

(5) Adequate in size to accommodate the needs of the displaced family or individual;

## RULES AND REGULATIONS

(6) Within the financial means of the displaced family or individual;

(7) Is open to all individuals regardless of race, color, religion, or national origin, in a manner consistent with the requirements of title VIII of the Civil Rights Act of 1968, and which is available to all individuals regardless of sex.

(b) If replacement dwellings which meet the requirements of paragraphs (a) (1)-(7) of this section are not available on the market, the agency concerned may, after a proper finding of the need therefor, treat available dwellings which exceed those requirements as comparable replacement dwellings.

(c) For the purpose of paragraph (a) (6) of this section, a dwelling is within the financial means of an individual or family if, taking into account payments made under Subpart G of this part, the monthly housing cost (including payments for mortgage, insurance, and property taxes) or rental cost is not more than—

(1) 25 percent of the monthly gross income of the individual or family, including supplemental income payments received from public agencies; or

(2) The portion of the monthly gross income of the individual or family, including supplemental income payments received from public agencies, paid for rent or housing cost at the acquired dwelling if the rent or housing cost is not excessive taking into consideration the cost of other needs of the family or individual.

## § 25.17 Decent, safe, and sanitary dwelling: requirements.

(a) A dwelling is decent, safe, and sanitary for the purposes of this part if it—

(1) Meets the applicable State or local building, plumbing, electrical, housing and occupancy codes or similar ordinances or regulations for existing structures;

(2) Has a continuing and adequate supply of potable safe water;

(3) Has a kitchen or an area set aside for kitchen use which contains a sink in good working condition and properly connected to hot and cold water, and to a sewage water drainage system;

(4) Has a cooking stove and refrigerator in good operating condition, if required by local code or ordinance, or, if not so required, utility service connections and adequate space for these installations in the kitchen or area set aside for kitchen use;

(5) Except in a geographical area where it is not normally included in new housing, has an adequate heating system in good working order capable of maintaining a minimum temperature of 68 degrees F. in the living area (not including the bedrooms) under local outdoor temperature design conditions;

(6) Has a bathroom, well lighted and ventilated and affording privacy to an individual within it, containing a lavatory and a bathtub or shower stall, properly connected to an adequate supply of hot and cold running water, and a flush toilet, all in good working order and

properly connected to a sewage water drainage system;

(7) Has an adequate and safe electrical wiring system for lighting and other electrical services in each room;

(8) Is structurally sound, clean, weathertight, and in good repair and adequately maintained;

(9) Has a continuous and unobstructed path of travel from any point in the dwelling to a safe open space at ground level and, in the case of a multi-dwelling building of more than two stories, at least two continuous and unobstructed paths of travel from the common corridor on each story; and

(10) Has habitable sleeping, living, cooking, and dining floor space (exclusive of such enclosed spaces as closets, pantries, bath or toilet rooms, service rooms, connecting corridors, laundries, unfinished attics, foyers, storage spaces, cellars, utility rooms, or similar spaces) which is subdivided into adequately ventilated rooms sufficient to accommodate the occupants.

(b) If an applicable local housing code does not meet all the requirements of paragraph (a) of this section or there is no local housing code, the agency providing relocation assistance may establish and submit the standards to the appropriate DOT official for approval as acceptable standards for decent, safe, and sanitary housing.

(c) In case of extreme hardship or other similar extenuating circumstances involving a displaced individual or family, the agency concerned may, with the concurrence of the appropriate DOT official, waive any requirement of paragraph (a) of this section.

## § 25.19 Decent, safe, and sanitary rental sleeping rooms: requirements.

(a) A rental sleeping room is decent, safe, and sanitary for the purposes of this part if it—

(1) Meets applicable State or local building, plumbing, electrical, housing and occupancy codes or similar ordinances or regulations for existing structures;

(2) Except in a geographical area where it is not normally included in new housing, has an adequate heating system in good working order which will maintain a minimum temperature of 68 degrees F. under local outdoor temperature design conditions;

(3) Has an adequate and safe electrical wiring system for lighting and other electrical services;

(4) Is structurally sound, clean, weathertight, and in good repair and adequately maintained;

(5) Has a continuous and unobstructed path of travel from any point in a dwelling to a safe open space at ground level and, in the case of a rooming house, access from each sleeping room directly or through a common corridor to a safe open space at ground level and, in the case of a rooming house of more than two stories, at least two continuous and unobstructed paths of travel from the common corridor on each story; and

## RULES AND REGULATIONS

(6) Provides use of a bathroom, well lighted and affording privacy to an individual within it, containing a lavatory and a bathtub or shower stall, properly connected to an adequate supply of hot and cold running water, and a flush toilet, all in good working order and

properly connected to a sewage water drainage system;

(7) Has an adequate and safe electrical wiring system for lighting and other electrical services in each room;

(8) Is structurally sound, clean, weathertight, and in good repair and adequately maintained;

(9) Has a continuous and unobstructed path of travel from any point in the dwelling to a safe open space at ground level and, in the case of a multi-dwelling building of more than two stories, at least two continuous and unobstructed paths of travel from the common corridor on each story; and

(10) Has habitable sleeping, living, cooking, and dining floor space (exclusive of such enclosed spaces as closets, pantries, bath or toilet rooms, service rooms, connecting corridors, laundries, unfinished attics, foyers, storage spaces, cellars, utility rooms, or similar spaces) which is subdivided into adequately ventilated rooms sufficient to accommodate the occupants.

(b) If an applicable local housing code does not meet all the requirements of paragraph (a) of this section or there is no local housing code, the agency providing relocation assistance may establish and submit the standards to the appropriate DOT official for approval as acceptable standards for decent, safe, and sanitary housing.

(c) In case of extreme hardship or other similar extenuating circumstances involving a displaced individual or family, the agency concerned may, with the concurrence of the appropriate DOT official, waive any requirement of paragraph (a) of this section.

## RULES AND REGULATIONS

(3) He prepares a relocation plan which meets the requirements of § 25.55

Federally-assisted project to which this part applies until the State agency has

written assurance from the head of the State agency that—

## RULES AND REGULATIONS

(6) Provides use of a bathroom, well lighted and ventilated and affording privacy to an individual within it, including a door that can be locked if the facilities are separate from the sleeping room, containing a lavatory and a bathtub or shower stall, properly connected to an adequate supply of hot and cold running water, and a flush toilet, all in good working order and properly connected to a sewage water drainage system.

(b) If an applicable local housing code does not meet all the requirements of paragraph (a) of this section if there is no local housing code, the agency providing relocation assistance may establish and submit the standards to the appropriate DOT official for approval as acceptable standards for decent, safe, and sanitary housing.

(c) In case of extreme hardship or other similar extenuating circumstances involving a displaced individual or family, the agency concerned may, with the concurrence of the appropriate DOT official, waive any requirement of paragraph (a) of this section.

## § 25.21 Appeals.

(a) An applicant for a payment under Subparts E, F, G and I who is aggrieved by an agency's determination as to the applicant's eligibility for payment or the amount of the payment may appeal that determination in accordance with the procedures established by the agency concerned under paragraph (b) of this section.

(b) Each agency concerned shall establish procedures for reviewing appeals by aggrieved applicants for payments under this part. The procedures shall ensure that—

(1) Each appellant applicant has the opportunity for oral presentation;

(2) Each appeal will be decided promptly and the applicant is informed of the decision in writing;

(3) Each appeal decision will include a statement of the reasons upon which it is based;

(4) The agency retains all documents associated with each appeal; and

(5) Each appellant applicant has a right of final appeal to the head of the agency concerned.

## § 25.23 Accounts, records and reports.

(a) Each agency concerned, in accordance with requirements prescribed by the appropriate DOT official, shall—

(1) Maintain relocation accounts and records and make them available for inspection by Federal officials during regular business hours; and

(2) Submit timely, complete, and accurate reports on relocation assistance and benefits rendered.

(b) The accounts and records maintained under paragraph (a) (1) of this section must be retained by the agency at least 3 years after completion of the project to which they pertain.

## § 25.25 Last report housing.

If a relocation plan submitted under §§ 25.33 or 25.55 discloses that there are not enough comparable replacement

dwellings, the appropriate DOT official may use project funds, or authorize a State agency to use project funds, as the case may be, to develop housing. In doing so, that official is to be guided by criteria and procedures of the Secretary of Housing and Urban Development appearing at 24 CFR Part 43, Subpart A.

## § 25.27 Loans for planning and preliminary expenses.

An appropriate DOT official may make or approve loans for planning and preliminary expenses in connection with the construction or rehabilitation of housing under Section 214 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (84 Stat. 1894). In doing so, that official is to be guided by the criteria and procedures of the Secretary of Housing and Urban Development appearing at 24 CFR Part 43, Subpart B.

## § 25.29 Consultation at planning stage.

(a) Each agency concerned that plans a project which will result in the displacement of persons in an area in which one or more other Federal or State agencies are also planning projects which will result in the displacement of persons, shall—

(1) Coordinate its relocation assistance activities and available housing resources with the other agencies;

(2) Designate at least one employee to meet with the representatives of the other agencies to review the impact of their respective projects on the persons that will be displaced by the project; and

(3) Consult with the appropriate Housing and Urban Development regional area office on the availability of housing resources and provide that office with information concerning the persons that will be displaced by the project. (See 39 F.R. 37374 for a listing of the area offices.)

(b) Each agency concerned that plans a project which will result in the displacement of persons shall coordinate that project through the State, regional, and metropolitan planning and development clearinghouses pursuant to the Office of Management and Budget Circular published on November 28, 1973, at 38 F.R. 32874.

## § 25.31 State agency obligated to provide real property for Federal or Federally-assisted project.

(a) Whenever real property is acquired by a State agency and provided as the required contribution incident to a Federal or Federally-assisted project, no DOT official may accept that real property until he determines that the State agency has carried out the requirements of §§ 25.57 and 25.59. However, in the case of displacement of persons or real property acquisition occurring before July 1, 1972, this section is applicable only to the extent that agency was able to meet the requirements of §§ 25.57 and 25.59 under State law.

(b) The cost to a State agency of providing the payments and services required by this part shall be paid in the same manner and to the same extent as

the cost of the real property acquired for the project. The Department of Transportation will pay a State agency the full amount of the first \$25,000 of the cost of providing payment and services for any person displaced before July 1, 1972.

## § 25.33 Payments not to be considered income.

Payments received by a displaced person under Subparts E, F, or G of this part shall not be considered income for the purpose of—

(1) Internal Revenue Code of 1954; or

(2) Determining the eligibility or extent of eligibility for assistance under the Social Security Act or any other Federal law.

## Subpart B—Requirements for Federal Projects

## § 25.41 Scope.

This subpart prescribes requirements governing the administration of real property acquisition and relocation assistance for displaced persons for projects which are part of a Federally-assisted program administered by the Department of Transportation.

## § 25.43 Determinations: displacement of persons.

(a) No DOT official may approve a Federal project to which this part applies which will result in the displacement of any person until he determines that—

(1) Fair and reasonable relocation payments will be provided to displaced persons as required by Subparts E, F, and G of this part;

(2) Relocation assistance programs offering the services described in Subpart D of this part will be provided for displaced persons;

(3) The public was or will be adequately informed of the relocation payments and services which will be available under Subparts D, E, F, and G of this part; and

(4) Comparable replacement dwellings will be available, or provided if necessary, within a reasonable period of time before any individual or family is displaced.

(b) No DOT official may proceed with any phase of a Federal project if that phase will cause the displacement of any individual or family until—

(1) He determines that based on a current survey and analysis of available replacement housing and considering competing demands for that housing, comparable replacement dwellings will be available within a reasonable period of time prior to displacement equal in number to the displaced individuals and families that require them;

(2) He determines that adequate provisions have been made to provide orderly, timely, and efficient relocation of displaced individuals and families to decent, safe, and sanitary housing available without regard to race, color, religion, sex, or national origin with minimum hardship to those affected; and

(3) He prepares a relocation plan which meets the requirements of § 25.55 (a), (b) and (c).

## § 25.45 Determinations: acquisition of real property.

No DOT official may approve a Federal project to which this part applies and which will result in the acquisition of real property until he determines that adequate provisions have been made to—

(a) Fully comply with the requirements of Subpart I, of this part; and

(b) Inform the public of the acquisition policies, requirements, and payments which will apply to the project.

## Subpart C—Requirements for Federally-Assisted Projects

## § 25.51 Scope.

This subpart prescribes requirements governing the administration of real property acquisition and relocation assistance for displaced persons for projects which are part of a Federally-assisted program administered by the Department of Transportation.

## § 25.53 Preliminary requirements.

Before a State agency begins a Federally-assisted project to which this part applies, it shall—

(a) Make preliminary investigations of relocation problems by visual inspection of the proposed project area and by community and other sources where available to determine—

(1) The approximate number of persons that will be displaced;

(2) The number of businesses and farm operations that will be displaced;

(3) The characteristics of the individuals and families that will be displaced with respect to racial and ethnic identification, age, number of children, income level, nature of occupancy and tenure of residency.

(4) The probable availability of comparable replacement dwellings.

(b) Submit to the appropriate DOT official—

(1) A statement of the basis for the data required by paragraph (a) of this section;

(2) A statement of the displacement problems involved at each identifiable location, along with possible solutions; and

(3) If the data required by paragraph (a) of this section disclose that the comparable replacement dwellings will be insufficient to meet the displacement needs of the project, a description of the actions proposed to insure that the necessary dwellings will be available in advance of any displacement.

If a public hearing is held concerning the project, the State agency shall submit the information required by paragraph (b) of this section in advance of that hearing. Where prepared, the information shall be set forth in an environmental impact statement or in a negative declaration.

## § 25.55 Relocation plan required.

No DOT official may authorize a State agency to proceed with any phase of a

## RULES AND REGULATIONS

Federally-assisted project to which this part applies until the State agency has submitted a relocation plan to him for approval. The plan shall include:

(a) An inventory of the characteristics and needs of persons to be displaced. This inventory may be based upon a representative sampling process rather than a complete occupancy survey.

(b) An estimated inventory of currently available comparable replacement dwellings. The inventory shall set forth for each dwelling the type of house or building, state of repair, number of rooms, type of neighborhood, proximity of public transportation, schools, and commercial shopping areas, and distance to any pertinent social institutions, such as religious and community facilities.

(c) An analysis of the information required by paragraphs (a) and (b) of this section which—

(1) Discusses relocation problems and possible solutions;

(2) Provides an analysis of Federal, State, and community programs currently in operation in the project area which will affect the availability of housing;

(3) Provides detailed information on concurrent displacement and relocation by other governmental agencies or private concerns;

(4) Describes the methods to be used to relocate displaced persons; and

(5) Explains the amount of lead time necessary to carry out a timely, orderly, and humane relocation program.

(6) Sets forth the results of consultation held under § 25.29.

## § 25.57 Assurances required: displacement of persons.

(a) No DOT official may approve a Federally-assisted project to which this part applies and which results in the displacement of any person until the head of the State agency provides that official with satisfactory written assurances that after January 1, 1971—

(1) It provides fair and reasonable relocation payments to displaced persons as required by Subparts E, F, and G of this part;

(2) It provides relocation assistance programs for displaced persons offering the services described in Subpart D of this part;

(3) It adequately informs the public of the relocation payments and services which are available under Subparts D, E, F, and G of this part; and

(4) Based on the requirements of § 25.53 comparable replacement dwellings are available, or provided if necessary, within a reasonable period of time before any individual or family is displaced. However, the assurances required by this paragraph apply to displacements occurring before July 1, 1972, only to the extent the State agency was able to make the assurances under State law.

(b) No DOT official may authorize a State agency to proceed with any phase of a project if that phase will cause the displacement of any individual or family until that official receives satisfactory,

written assurance from the head of the State agency that—

(1) Based on a current survey and analysis of available replacement housing and in considering competing demands for that housing, comparable replacement dwellings will be available within a reasonable period of time prior to displacement, equal in number to the displaced individuals and families that require them; and

(2) The State agency relocation program is realistic and is adequate to provide orderly, timely, and efficient relocation of displaced individuals and families to decent, safe, and sanitary housing available without regard to race, color, religion, sex, or national origin with minimum hardship to those affected.

## § 25.59 Assurances required: acquisition of real property.

No DOT official may approve a Federally-assisted project to which this part applies and which results in the acquisition of real property until the head of the State agency concerned provides that official with satisfactory written assurances that after January 1, 1971, it—

(a) Is guided by the requirements of §§ 25.253, 25.255, 25.257 and 25.259 to the greatest extent practicable under State law and fully complies with all other requirements of Subpart I of this part; and

(b) Adequately informs the public of the acquisition policies, requirements, and payments which apply to the project. However, the assurances required by this section apply to real property acquisitions occurring before July 1, 1972, only to the extent the State agency was able to make the assurances under State law.

## § 25.60 Monitoring assurances.

After a State agency provides the assurances under §§ 25.57 and 25.59 for a Federally-assisted project, the appropriate DOT official shall monitor the activities of the State agency with respect to the project to insure that those assurances are or have been carried out.

## § 25.61 Use of Federal financial assistance.

(a) Federal financial assistance may not be used for relocation and acquisition costs unless—

(1) The Federally-assisted project concerned has been approved and authorized to proceed;

(2) The relocation and acquisition costs are lawfully incurred; and

(3) The project agreement has been executed for the particular project involved.

(b) The type of interest acquired in real property does not affect the eligibility of related relocation costs for Federal financial assistance provided the interest is sufficient to cause displacement.

(c) Federal financial assistance may not be used to pay a relocated person for any loss that is due to his negligence.

(d) Federal financial assistance may not be used for any payment under this part to a displaced person if that person receives a separate payment which is—

## RULES AND REGULATIONS

- (1) Required by the State law of eminent domain;
- (2) Determined by the appropriate DOT official to have substantially the same purpose and effect as a payment under this part; and
- (3) Otherwise included as a project cost for which Federal financial assistance is available.

## § 25.63 Federal share of costs.

(a) The cost to a State agency of providing the payments and services required by this part, shall be included as part of the cost of the Federally-assisted project and, except as provided in paragraphs (b) and (c) of this section, the State agency is eligible for Federal financial assistance with respect to those costs in the same manner and to the same extent as other project costs.

(b) If Federal financial assistance is by grant or contribution, the Department of Transportation will pay a State agency the full amount of the first \$25,000 of the cost of providing the payments and services described in this part for any displaced person because of any acquisition or displacement occurring before July 1, 1972.

(c) If Federal financial assistance is by loan, the Department of Transportation will loan a State agency the full amount of the first \$25,000 of the cost of providing the payments and services described in this part for any displaced person because of any acquisition or displacement occurring before July 1, 1972.

## Subpart D—Relocation Assistance Advisory Programs

## § 25.71 Scope.

This subpart prescribes requirements for relocation assistance advisory programs for persons who will be displaced by projects which are part of a Federal or Federally-assisted program administered by the Department of Transportation.

## § 25.73 Extension of services to adjacent occupants.

Each agency concerned shall provide the relocation assistance advisory services described in this subpart to all prospective displaced persons. The agency may also offer those services to any person occupying property immediately adjacent to the real property being acquired who, in the agency's opinion, will suffer substantial economic injury.

## § 25.75 Relocation programs: general requirements.

Each agency concerned shall carry out a relocation assistance advisory program so that displaced persons will receive uniform and consistent services and payments regardless of race, color, or national origin pursuant to Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000a) and Part 21 of this title. The program must provide for—

- (a) Explaining to persons the relocation assistance and payments that are available;
- (b) Assisting persons to complete applications required for payments;

(c) Determining the needs of persons for relocation assistance;

(d) Informing persons as to the availability and costs of comparable replacement dwellings and comparable locations for businesses and farm operations;

(e) Assisting each individual or family to obtain and move to a comparable replacement dwelling;

(f) Informing individuals and families as to Federal and State housing programs; and

(g) Providing counsel and advice to displaced persons that will minimize the hardships associated with adjusting to a new location.

## § 25.77 Organizational requirements.

The organization and procedures of the agency concerned for carrying out a relocation assistance advisory program must include provisions for:

(a) Assigning at least one employee whose primary responsibility is to provide relocation assistance for one or more projects;

(b) Establishing a local relocation office for each project where the agency determines that the volume of work or the needs of the displaced persons so require.

(c) Maintaining and providing the following information for each project:

(1) Lists of replacement dwellings available without regard to race, color, religion, sex, or national origin drawn from various sources, suitable in price, size, and condition for individuals and families.

(2) Current information as to security deposits, closing costs, typical down payments, interest rates, and terms for residential real property in the area.

(3) Maps showing the location of schools, parks, playgrounds, shopping, and public transportation routes in the area.

(4) Schedules and costs of public transportation in the area.

(5) Copies of:

(i) The agency's brochure explaining its relocation program;

(ii) Local ordinances pertaining to housing and building codes;

(iii) Consumer education literature on housing, shelter costs, and family budgeting; and

(iv) Federal and local statutes and regulations on open housing.

(6) Subscriptions for apartment directory services, neighborhood and metropolitan newspapers, and where available, multiple listing services.

## § 25.79 Local relocation office.

(a) A determination of whether or not to establish a local relocation office must be made before any phase of a project causes the displacement of any person, and submitted to the appropriate DOT official for approval.

(b) The office must be established at a place reasonably convenient to public transportation or within walking distance of the project and shall be open during hours (including evening hours when necessary) convenient to the persons being displaced.

(c) In the employment of individuals in the local relocation office, consideration should be given to those who are familiar with the problems of the area.

## § 25.81 Coordination with other agencies.

(a) Each agency concerned shall coordinate its relocation assistance activities with the local officials of the Federal Housing Administration and Veterans Administration responsible for making properties acquired by those agencies available for direct sale to persons to be relocated as a result of governmental action.

(b) The employee assigned by the agency concerned to provide relocation assistance for a particular project shall maintain personal contact and exchange information with welfare agencies, urban renewal agencies, redevelopment authorities, public housing authorities, the Federal Housing Administration, the Veterans Administration, the Small Business Administration and other Federal and State agencies providing services to displaced persons. He shall also collect and maintain information on private replacement properties in the area of the project through personal contact with real estate brokers, real estate boards, property managers, apartment owners and operators, and home building contractors.

## § 25.83 Public information: general.

(a) To ensure public awareness of its relocation assistance advisory program, when a public hearing is held for a project, the agency concerned shall provide an opportunity for presentation of information and discussion of relocation services and payments at the hearing. The agency shall also prepare a relocation brochure, and give full and adequate public notice of the relocation program for each project to which this part applies.

(b) In areas where a language other than English is predominant, public information must be published in the predominant language as well as in English, unless—

(1) The appropriate DOT official finds that publication in a language other than English is unnecessary; and

(2) An alternative program is established for the displaced person unable to communicate in English.

## § 25.85 Public information: hearings.

If a public hearing is held for a project, the following information must be presented at the hearing:

(a) Eligibility requirements, payment procedures and limitations for moving expenses and replacement housing;

(b) A description of the expenses incidental to transfer of property that will be paid;

(c) Appeal procedures;

(d) A description of how relocation assistance and services will be provided;

(e) The address and telephone number of the local office of the State agency and the name of the relocation officer in charge;

(f) The identity, local address, and telephone number of any other cooperating agency;

## RULES AND REGULATIONS

(g) An estimate of the number of individuals, families, businesses, and farm operations to be relocated;

(h) The estimated number of dwelling units presently available to meet the replacement housing needs; and

(i) An estimate of the time necessary for relocation and the number of comparable replacement dwellings that will become available during that period. The extent of the presentation should depend on the comprehensiveness of the brochure. If the brochure covers a particular item in detail, it is sufficient to merely highlight what the brochure contains. If a particular item is not applicable to the project, it is not necessary to discuss the item in detail.

## § 25.87 Public information: brochure.

The agency concerned shall prepare a brochure which fully describes its relocation assistance advisory program, including information on payments for replacement housing, moving expenses and appeal procedures. The brochure must be distributed free of charge at all public hearings and given to any prospective displaced person upon request. The brochure must state where copies of any regulations implementing the relocation assistance program may be obtained.

## § 25.89 Public information: announcements.

The agency concerned shall provide brief public announcements of the relocation services, payments, and where the brochure describing the relocation program can be obtained, unless the appropriate DOT official finds that public announcements are not necessary because only a small number of persons will be displaced. Public announcements must be made over any type of mass media that is familiar to persons who will be displaced by the project, such as local newspapers, radio, television, or posted advertisements.

## § 25.91 Public information: notices.

Within 15 days after approval to begin any phase of a project which will cause the displacement of any person, unless prohibited by law, the agency concerned shall post notices of acquisition in adequate numbers and in places accessible to occupants of dwellings to be taken for the project. In addition, an adequate number of advertisements must be run in newspapers normally read by occupants of dwellings to be taken. The posted notices and newspaper advertisements must—

(a) State the date approval was given for that phase of the project;

(b) Define the area of the project;

(c) Advise occupants of the area of the eligibility requirements for receiving moving and replacement housing payments;

(d) Advise occupants to notify the agency before moving to ensure eligibility for moving and replacement housing payments;

(e) Advise homeowners that to be eligible for relocation benefits they must sell to the agency concerned; and

(f) State where the brochure describing the relocation program may be obtained.

## § 25.93 Information for displaced persons.

(a) The agency concerned shall deliver to each prospective displaced person either in person or by certified or registered first-class mail, return receipt requested—

(1) A brochure explaining the relocation assistance advisory program; and

(2) If it is not included in the brochure, a notice stating the eligibility requirements for payments for replacement housing and moving expenses.

(b) In addition to the information furnished under paragraph (a) of this section, the agency concerned shall deliver to each homeowner and tenant that will be displaced, either in person or by certified or registered first-class mail, return receipt requested, a written statement setting forth the optional types and amounts of replacement housing payments to which they may be entitled.

(c) The information required by paragraphs (a) and (b) of this section must be furnished—

(1) To homeowners not later than the initiation of negotiations for the property or the issuance of a written notice of intent to acquire the property by a definite date, as the case may be; and

(2) To tenants within 7 days after the initiation of negotiations for the property or the issuance of a written notice of intent to acquire the property by a definite date, as the case may be.

(d) The agency concerned shall notify each prospective displaced person of his right of appeal under § 25.21.

## Subpart E—Moving and Related Expenses

## § 25.111 Scope.

This subpart prescribes the requirements governing the payment of moving and related expenses of persons displaced by projects which are part of a Federal or Federally-assisted program administered by the Department of Transportation.

## § 25.113 Eligibility.

(a) A displaced person is eligible for payment of moving and related expenses under this subpart without regard to the length of time that he occupied the real property from which he is displaced.

(b) A person eligible for a payment under § 25.121 with respect to a business or farm operation may also be eligible for a payment under § 25.121 as a dwelling occupant, even though he resides on the business or farm property that is acquired.

## § 25.115 Payment limited to one move: exception.

(a) Except as provided by paragraph (b) of this section, payment of a displaced person's moving and related expenses may not be made for more than one move in connection with a particular project.

(b) If the appropriate DOT official considers it to be in the public interest, he may authorize payment of a displaced person's moving and related expenses for additional moves.

## § 25.117 Moving expenses: application and payment.

(a) Upon application by a displaced person for payment of moving and related expenses, the agency concerned shall—

(1) Pay those expenses in accordance with this subpart; or

(2) If the applicant elects to receive it, pay him a fixed allowance in accordance with Subpart F of this part.

(b) The application must be in writing and filed with the agency concerned within 18 months after the date the applicant moves from real property, or moves his personal property from real property, as the case may be, or the date of acquisition, whichever is later. The application must include an itemization of the expenses involved and, except as provided in paragraphs (d) and (e) of this section, must be supported by receipts and such other evidence as the agency concerned may require.

(c) A displaced person may not be paid for his moving expenses in advance of the actual move unless the agency concerned finds that a hardship would otherwise result.

(d) If a displaced person, his mover, and the agency concerned agree in writing, the displaced person may submit an unpaid bill for moving expenses for direct payment.

(e) If the agency concerned contracts with independent movers on a schedule basis and provides a displaced person with a list of movers he may choose from to move his personal property, payment shall be made directly to the mover.

(f) In the case of a self-move by a displaced person who conducts a business or farm operation, the amount of payment for actual reasonable moving expenses is negotiable but may not be more than the lower of two firm bids or estimates received by the agency concerned, unless the appropriate DOT official determines that a greater amount is justified.

## § 25.119 Exclusions.

A displaced person is not entitled to be paid for—

(a) Additional expenses incurred because of living in a new location;

(b) The cost of moving structures or other improvements to real property in which ownership is reserved by the displaced person, except as otherwise provided under section 25.193.

(c) Improvements to the replacement site, except when required by law;

(d) Interest on loans to cover moving expenses;

(e) Loss of good will;

(f) Loss of profits;

(g) Loss of trained employees;

(h) Personal injury;

(i) Cost of preparing the application for moving and related expenses;

(j) Expenses in searching for a replacement dwelling; or

## RULES AND REGULATIONS

(k) Any item which the appropriate DOT official excludes from payments

the agency concerned shall consider acquiring the display as part of the real

who conducts a business or farm operation is entitled to not more than \$500, or such higher amount as the agency

meets the requirements of paragraphs (b) or (c) of this section may elect to receive a fixed allowance in lieu of actual

§ 25.161 Computing average annual net income: businesses and farm operations.

(g) Contracts for the construction of a dwelling on a site provided by a builder or on a site which he owns or acquires.

(k) Any item which the appropriate DOT official excludes from payments consistent with this part.

**§ 25.121 Moving expenses: displaced persons.**

(a) Except as provided in § 25.119, a displaced person is entitled to actual reasonable expenses for—

(1) Transporting individuals, families and personal property from the displacement site to a replacement site, but not more than fifty (50) miles unless the agency concerned finds that the displaced person cannot relocate within that distance;

(2) Packing and unpacking, crating and uncrating, and, if the agency concerned finds it necessary, storing his personal property for not more than 12 months;

(3) If the agency concerned finds it necessary advertising for packing, crating, storing or transporting his personal property;

(4) Insuring against loss or damage of his personal property while in storage or transit;

(5) Removing and reinstalling machinery, appliances, and equipment, including modifying the machinery, appliance, or equipment, and reconnecting utilities, if—

(i) It is not acquired by the agency concerned as real property; and

(ii) The displaced person agrees in writing that the machinery, appliance, or equipment is personal property and releases the agency concerned from paying for it;

(6) Searching for a replacement business or farm operation, to the extent those expenses meet the requirements of § 25.129, if the displaced person conducts a business or farm operation which is discontinued or relocated; and

(7) Such other reasonable expenses determined to be allowable by the appropriate DOT official.

(b) A displaced person is entitled to be reimbursed for uninsurable loss or damage of his personal property while in the process of moving, if the loss or damage was not the result of his fault or damage.

(c) A displaced person who conducts a business or farm operation which is discontinued or relocated is entitled to the actual direct losses of personal property resulting from the discontinuation or relocation, to the extent those losses meet the requirements of § 25.127.

**§ 25.123 Moving expenses: outdoor advertising businesses.**

(a) A displaced person who conducts a lawful activity primarily for assisting in the purchase, sale, resale, manufacture, processing, or marketing of products, commodities, personal property, or services by the erection and maintenance of outdoor advertising displays, whether or not the displays are located on the premises on which any of those activities are conducted, is entitled to the moving expenses described in § 25.121. However, if the cost of moving an outdoor advertising display is more than the in-place fair market value of the display,

the agency concerned shall consider acquiring the display as part of the real property, unless prohibited by State law.

(b) Paragraph (a) of this section does not apply to an outdoor advertising display owned by and located on the premises of a business or farm operation being displaced.

**§ 25.125 Low value, high bulk property: businesses and farm operations.**

In the case of low value, high bulk personal property, such as junk, stockpiled sand, gravel, minerals, metals, or similar items, used in connection with a relocated business or farm operation, payment for actual reasonable moving expenses may not be more than the cost of replacing that property at the relocation site less the amount for which it could be sold at the displacement site.

**§ 25.127 Actual direct losses: businesses and farm operations.**

(a) Subject to the requirements and limitations in paragraphs (b) through (e) of this section, a displaced person who conducts a business or farm operation is entitled to payment for actual direct losses of personal property that is used in connection with the business or farm operation but is—

(1) No longer needed because the business or farm operation is being discontinued; or

(2) Not being moved to a relocation site because it is not suitable for use there.

(b) A displaced person who conducts a business or farm operation which is discontinued or relocated shall make a bona fide effort to sell personal property he does not move.

(c) If a displaced person relocates a business or farm operation and sells an item of personal property and promptly replaces it with a comparable item, payment for actual direct loss of the original item may not be more than the replacement cost less its sale price, or the estimated cost of moving the original item, whichever is less.

(d) If a displaced person discontinues a business or farm operation and sells an item of personal property, payment for actual direct loss of the item may not be more than the fair market value of the item for continued use at its location prior to displacement less its sale price, or the estimated cost of moving the original item 50 miles, whichever is less.

(e) If a displaced person abandons an item of personal property after making a bona fide effort to sell it, payment for the actual direct loss of that item may not be more than the fair market value of the item for continued use at its location prior to displacement or the estimated cost of moving the original item 50 miles, whichever is less, irrespective of the cost to the agency concerned of removing that item.

**§ 25.129 Expenses in searching for replacement business or farm operation.**

(a) Except as provided in paragraph (b) of this section, a displaced person

who conducts a business or farm operation is entitled to not more than \$500, or such higher amount as the agency concerned considers justified under the circumstances, for actual reasonable expenses in searching for a replacement business or farm operation including—

(1) Cost of travel;

(2) Cost for meals and lodging;

(3) An amount for time spent searching, based on the salary or earnings of the displaced person from the business or farm operation, but not more than \$10 per hour; and

(4) If the agency concerned considers it desirable, the cost of a broker or realtor, or other professional fees, to locate a replacement site.

(b) A displaced person who conducts an advertising business described in § 25.123, is entitled to not more than \$100, or if the agency concerned considers it justified under the circumstances not more than \$500, for actual reasonable expenses in searching for a replacement outdoor advertising display site.

**Subpart F—Fixed Allowance in Lieu of Moving and Related Expenses**

**§ 25.151 Scope.**

This subpart prescribes the requirements governing payment of dislocation and moving expense allowances to displaced persons who are eligible for payment of their actual moving and related expenses under Subpart E of this part, but elect to receive a fixed allowance in lieu thereof.

**§ 25.153 Schedule of moving expense allowances: individuals and families.**

The Federal Highway Administrator shall establish and maintain in Appendix B a schedule of moving expense allowances applicable to individuals and families displaced by projects to which this part applies for each State. The schedule shall cover every locality in the State and shall be based on current local moving costs. The allowance for any individual or family may not be more than \$300.

**§ 25.155 Dislocation and moving expense allowances: individuals and families.**

(a) Except as provided in paragraph (b) of this section, a displaced individual or family who elects to receive fixed dislocation and moving expense allowances in lieu of payment of actual moving and related expenses is entitled to—

(1) A dislocation allowance of \$200; and

(2) The applicable moving expense allowance specified in the schedule of moving expense allowances maintained in Appendix A for the locality in which the displacement occurs.

(b) Two or more individuals, not a family, who occupy the same dwelling, are considered to be a single family for the purposes of this section.

**§ 25.157 Fixed allowance: profit and nonprofit businesses.**

(a) A displaced person who conducts a business (other than an advertising business as described in § 25.123) which

meets the requirements of paragraphs (b) or (c) of this section may elect to receive a fixed allowance in lieu of actual moving and related expenses equal to the average annual net earnings of the business, computed in accordance with § 25.161, but not less than \$2,500 or more than \$10,000.

(b) A business conducted for profit qualifies for payment under this section if, in the opinion of the agency concerned, it—

(1) During the two taxable years immediately preceding displacement has—

(i) Average gross receipts of at least \$2,000 in value;

(ii) Average annual net earnings of at least \$1,000 in value; or

(iii) Contributes to at least 33½ percent of the average gross income of the displaced person.

(2) Cannot be relocated without substantial loss of existing patronage, taking into consideration—

(i) The type of the business;

(ii) The nature of its clientele;

(iii) The relative importance of the displacement and proposed relocation sites to the business; and

(iv) The availability of the relocation site for the business; and

(3) Is not part of a commercial enterprise having at least one other establishment engaged in the same or similar business which is not being acquired by the agency concerned.

(c) A business conducted by a nonprofit organization qualifies for payment under this section if, in the opinion of the agency concerned, it—

(1) Cannot be relocated without substantial loss of existing patronage, taking into consideration the persons, community, or clientele served or affected by the business; and

(2) Is not part of a commercial enterprise having at least one other establishment engaged in the same or similar business which is not being acquired by a State agency or the United States.

**§ 25.159 Fixed allowance: farm operation.**

(a) A displaced person who conducts a farm operation and elects to receive a fixed allowance in lieu of actual moving and related expenses is entitled to a fixed amount equal to the average annual net income of the farm operation, computed in accordance with § 25.161, but not less than \$2,500 or more than \$10,000. Each farm operation shall be subject to the criteria established in § 25.157(b)(1).

(b) In the case of a partial acquisition and displacement of a farm operation, the fixed allowance described in paragraph (a) of this section may be paid only if the agency concerned determines that—

(1) The displaced activity was a farm operation before the acquisition of the displacement site;

(2) The acquisition caused the displacement from the farm operation or the remaining land; or

(3) The acquisition caused such a substantial change in the nature of the farm operation as to constitute a displacement.

**§ 25.161 Computing average annual net income: businesses and farm operations.**

(a) For the purposes of this subpart, the average annual net earnings is one-half of any net earnings of a business or farm operation before Federal, State, and local income taxes, during the two taxable years immediately preceding the taxable year in which it was displaced. Net earnings include any compensation obtained from the business or farm operation by its owner, his spouse, or dependents. However, when a business or farm operation has no average annual net earnings or has an average annual net deficit during the period used to compute average annual net earnings, the person who conducts that business or farm operation may receive a \$2,500 payment if he is otherwise eligible for payment under § 25.157 or § 25.159.

**§ 25.163 Rules in considering fixed allowance: businesses and farm operations.**

(a) If the agency concerned finds that the two tax years immediately preceding displacement are not representative, or if the business or farm operation has not been in operation that long, it may, with the concurrence of the appropriate DOT official, prescribe some other time period for computing average annual net earnings.

(b) If the agency concerned finds that the criteria established in § 25.157(b)(1) or § 25.159(b) creates an inequity in a particular case, it may, with the concurrence of the appropriate DOT official, prescribe other criteria.

(c) If a displaced person who conducts a business or farm operation elects to receive a fixed payment under this subpart, he shall provide proof of his earnings from the business or farm operation to the agency concerned. Proof of earnings may be established by income tax returns, certified financial statements, or other similar evidence.

**Subpart G—Replacement Housing Payments**

**§ 25.171 Scope.**

This subpart prescribes the requirements governing payment for replacement housing for individuals and families displaced by projects which are part of a Federal or Federally-assisted program administered by the Department of Transportation.

**§ 25.173 Purchase of a decent, safe, and sanitary dwelling.**

A displaced tenant or homeowner "purchases" a dwelling within the meaning of this subpart when he—

(a) Acquires an existing dwelling;

(b) Rehabilitates a substandard dwelling which he owns or acquires;

(c) Relocates a dwelling which he owns or acquires;

(d) Relocates and rehabilitates a substandard dwelling which he owns or acquires;

(e) Constructs a new dwelling on a site which he owns or acquires;

(f) Contracts to purchase a dwelling on a site provided by a builder; or

(g) Contracts for the construction of a dwelling on a site provided by a builder or on a site which he owns or acquires.

**§ 25.175 Occupancy.**

(a) A displaced tenant or homeowner "occupies" a dwelling within the meaning of this subpart only if the dwelling is his permanent place of residence.

(b) If a tenant or homeowner contracts for the construction or rehabilitation of a replacement dwelling, and for reasons not within his control the construction or rehabilitation is delayed beyond the date occupancy is required, the agency concerned may extend the period of eligibility for a replacement housing payment until the tenant or homeowner occupies the replacement dwelling.

**§ 25.177 Inspection of replacement dwelling required.**

(a) Before making a replacement housing payment to a displaced homeowner or tenant, or releasing a payment from escrow, as the case may be, the agency concerned shall inspect the replacement dwelling to determine whether or not it meets the criteria for decent, safe, and sanitary dwellings. The agency concerned may use the services of any public agency ordinarily engaged in housing inspection to conduct the inspection required by this section.

(b) A determination by the agency concerned that a dwelling meets the criteria for decent, safe, and sanitary housing is solely for the purpose of this subpart and is not a representation for any other purpose.

**§ 25.179 Application and payment.**

(a) Upon application by a displaced homeowner or tenant who meets the requirements of this subpart for a replacement housing payment, the agency concerned shall—

(1) If he has purchased or rented, and occupied a decent, safe, and sanitary dwelling, make the payment directly to him, or, at his option, to the seller or lessor of the decent, safe, and sanitary dwelling; or

(2) If he has purchased or rented, but not yet occupied a decent, safe, and sanitary dwelling, upon his request make the payment into an escrow account.

(b) The application must be in writing and filed with the agency concerned within 6 months after the date the applicant becomes eligible for a replacement housing payment in accordance with § 25.181.

**§ 25.181 Eligibility.**

(a) A displaced homeowner is eligible for a replacement housing payment under § 25.183 or § 25.185(a), if he—

(1) Qualifies as a displaced person under § 25.11;

(2) Actually owned and occupied the acquired dwelling for at least 180 consecutive days immediately before the initiation of negotiations for the property or the issuance of a written notice of intent to acquire the property by a definite date, as the case may be;

(3) In the case of a payment under § 25.183, purchases and occupies, or in

the case of a payment under § 25.185(a), before the initiation of negotiations for the acquired dwelling and if the cost of

and occupy a decent, safe, and sanitary dwelling higher in price than the ac-

## RULES AND REGULATIONS

the case of a payment under § 25.185(a), rents and occupies a decent, safe and sanitary dwelling within one year after the latest of the following events:

- (i) He receives final payment for the acquired dwelling;
- (ii) In the case of a condemnation suit, the State agency deposits the required amount in court for the benefit of the owner; or
- (iii) He is required to move from the acquired dwelling.

(b) A displaced homeowner who is not eligible for a replacement housing payment under § 25.183, is eligible for a payment under § 25.185, if he—

- (1) Qualifies as a displaced person under § 25.11;
- (2) Actually owned and occupied the acquired dwelling for at least 90 consecutive days immediately before the initiation of negotiations for the property or the issuance of a written notice of intent to acquire the property by a definite date, as the case may be; and
- (3) Rents or purchases, and occupies a decent, safe and sanitary dwelling within one year after the latest of the following events:
  - (i) He receives final payment for the acquired dwelling;
  - (ii) In the case of a condemnation suit, the State agency deposits the required amount in court for the benefit of the owner; or
  - (iii) He is required to move from the acquired dwelling.

(c) A displaced tenant is eligible for a replacement housing payment under § 25.185 if he—

- (1) Qualifies as a displaced person under § 25.11;
  - (2) Actually lawfully occupied the acquired dwelling for at least 90 consecutive days immediately before the initiation of negotiations for the property or the issuance of a written notice of intent to acquire the property by a definite date, as the case may be; and
  - (3) Rents or purchases, and occupies a decent, safe and sanitary dwelling within one year after the date he is required to move from the acquired dwelling, or if earlier, the date he actually moves.
- (d) For the purpose of paragraphs (a) (2) and (b) (2) of this section, if a homeowner inherits an interest in a dwelling by devise or operation of law, his tenure of ownership includes the tenure of the preceding homeowner.

#### § 25.183 Replacement housing payment: purchase price.

A displaced homeowner who qualifies under § 25.181(a) is entitled to a replacement housing payment of not more than \$15,000. Within that limitation the payment includes the following amounts:

(a) Subject to the requirements of § 25.189, if the reasonable cost of a comparable replacement dwelling is more than the acquisition price of the acquired dwelling, the difference between them.

(b) If there was a bona fide mortgage which constituted a valid lien on the acquired dwelling for at least 180 days

before the initiation of negotiations for the acquired dwelling and if the cost of financing the purchase of a replacement dwelling includes increased interest costs, an amount to compensate for that increase, as provided in § 25.195.

(c) An amount necessary to cover incidental expenses on the purchase of a replacement dwelling, but not including prepaid expenses, as provided in § 25.197.

#### § 25.185 Replacement housing payments: rent and down payments.

A displaced homeowner or a displaced tenant who qualifies under § 25.181 is entitled to a replacement housing payment of not more than \$4,000. Within that limitation the payment is that amount necessary for—

- (a) The homeowner who qualifies under § 25.181(a) to rent a comparable replacement dwelling for a period of not more than four years, subject to the requirements of §§ 25.199 and 25.201; or
- (b) The homeowner who qualifies under § 25.181(b) or the tenant who qualifies under § 25.181(c) to—
  - (1) Rent a comparable replacement dwelling for a period of not more than four years, subject to the requirements of §§ 25.199 and 25.201; or
  - (2) Make the down payment required for a conventional loan (including incidental expenses as provided in § 25.197) on the purchase of a comparable replacement dwelling, subject to the requirements of § 25.207.

#### § 25.187 Rules for considering land values.

In determining the amount of a replacement housing payment under § 25.183(a) the following rules apply:

- (a) If the acquired dwelling is located on a tract typical for residential use in the area, the maximum amount payable is the probable selling price of a comparable replacement dwelling on a tract typical for the area less the acquisition price of the acquired dwelling.
- (b) If the acquired dwelling is located on a tract larger than typical for residential use in the area, the maximum amount payable is the probable selling price of a comparable replacement dwelling on a tract typical for residential use in the area less the acquisition price of the dwelling assuming it is located on a tract typical for the area.
- (c) If the acquired dwelling is located on a tract that has a use higher and better than residential, the maximum amount payable is the probable selling price of a comparable replacement dwelling on a tract typical for residential use in the area less the acquisition price of that portion of the acquired land which represents a tract typical for residential use in the area.

#### § 25.189 Limitations: payment for purchase price.

(a) The price established as the reasonable cost of a comparable replacement dwelling under § 25.191 sets the upper limit of the differential amount payable under § 25.183(a). To qualify for any amount, the homeowner must purchase

and occupy a decent, safe, and sanitary dwelling higher in price than the acquired dwelling.

(b) If the homeowner voluntarily purchases and occupies a decent, safe, and sanitary dwelling at a price less than the reasonable cost established for a comparable replacement dwelling, the amount payable under § 25.183(a) is that amount required to pay the difference between the acquisition price of the acquired dwelling and the actual purchase price of the decent, safe, and sanitary dwelling.

#### § 25.191 Reasonable cost of comparable replacement dwelling.

(a) In determining the reasonable cost of a comparable replacement dwelling, the agency concerned shall use one of the following methods:

- (1) It may establish a schedule of reasonable acquisition costs for the various types of comparable replacement dwellings. If more than one agency is administering a project causing displacements in the area, it shall cooperate with those agencies in establishing a uniform schedule for the area. The schedule must be based on a current analysis of the market to determine a reasonable cost for each type of dwelling to be purchased. In large urban areas this analysis may be confined to one area of the city, or may cover several different areas if they are comparable and equally accessible to public services and places of employment. To assure the greatest comparability of dwellings in any analysis, the analysis must be divided into classifications of the type of construction, number of rooms, and price ranges.
- (2) It may determine the reasonable cost of a comparable replacement dwelling by examining the probable selling prices of at least three comparable replacement dwellings. Selection of the dwellings must be made by a qualified employee of the agency concerned who is familiar with real property values and current real estate transactions.
- (3) If it finds that the methods described in paragraph (a) (1) and (2) of this section are not feasible for determining the reasonable cost of a comparable replacement dwelling, it may propose what it considers to be a feasible method to the appropriate DOT official for approval.

(b) If the acquired dwelling is located on a tract larger than typical for residential use in the area, the maximum amount payable is the probable selling price of a comparable replacement dwelling on a tract typical for residential use in the area less the acquisition price of the dwelling assuming it is located on a tract typical for the area.

#### § 25.193 Owner retention.

(a) If a displaced homeowner elects to retain, move, and occupy his dwelling, the amount payable under § 25.183(a) is the difference between the acquisition price of the acquired dwelling and the sum of—

- (1) The moving and restoration expenses;
- (2) The cost of correcting decent, safe, and sanitary deficiencies, if any; and
- (3) The actual purchase price of a comparable relocation site.

(b) The amount computed in accordance with paragraph (a) of this section is subject to the limitations prescribed in § 25.189.

#### § 25.195 Increased interest costs.

(a) The amount payable for increased interest costs under § 25.183(b) is—

- (1) The present value of the difference in interest costs and other debt service costs (including points paid by the purchaser) charged for refinancing an amount equal to the new mortgage or the balance of the mortgage on the acquired dwelling at the time of acquisition, whichever is less over a period equal to the term of the new mortgage or the remaining term of the mortgage on the acquired dwelling, whichever is shorter; or
- (2) An amount based on a schedule prescribed or approved by the appropriate DOT official and computed in accordance with this section.

(b) For purposes of computing increased interest costs, the following rules apply:

- (1) The interest charge on the new mortgage may not exceed the prevailing interest rate currently charged by mortgage lending institutions in the area in which the replacement dwelling is located.
- (2) The present value of the increased interest cost must be computed at the prevailing interest rate paid on savings deposits by commercial banks in the area in which the replacement dwelling is located.
- (3) Purchaser's points or origination fees, or both, may be added to the increased interest costs upon approval by the appropriate DOT official.
- (4) Seller's points may not be added to the increased interest costs.

#### § 25.197 Incidental expenses.

(a) The incidental expenses payable under § 25.183(c) or § 25.185(b) (2) is the amount necessary to compensate the homeowner or tenant for actual costs incurred incident to the purchase of a decent, safe, and sanitary dwelling, including the following:

- (1) Legal closing costs, including title search, preparing conveyance instruments, notary fees, surveys, preparing plats, and charges incident to recordation.
- (2) Lender, FHA, or VA appraisal fees.
- (3) FHA or VA application fee.
- (4) Certification of structural soundness when required by the lender, FHA, or VA.
- (5) Credit report.
- (6) Title policies or abstract of title.
- (7) Escrow agent's fee.
- (8) State revenue stamps or sale or transfer taxes.

(b) An incidental expense which is part of a finance charge under the Truth in Lending Act, Title I, Pub. L. 90-321, and Regulation "Z" (12 CFR Part 226) issued thereunder by the Board of Governors of the Federal Reserve System, may not be reimbursed.

#### § 25.199 Computation of rental payments: tenants.

(a) Except as provided in § 25.202, the amount payable to a displaced tenant (other than a tenant of the agency concerned) for rent under § 25.185(a) or

## RULES AND REGULATIONS

§ 25.185(b) (1) is 48 times the reasonable monthly rent for a comparable replacement dwelling, less 48 times the average month's rent paid by the displaced tenant for the last three months before initiation of negotiations for the acquired dwelling if that rent was reasonable, and if not reasonable, 48 times the monthly economic rent for the dwelling unit as established by the agency concerned.

(b) Except as provided in § 25.202, the amount payable to a displaced tenant of the agency concerned for rent under § 25.185(a) or § 25.185(b) (1) is 48 times the reasonable monthly rent for a comparable replacement dwelling, less 48 times the monthly economic rent.

#### § 25.201 Computation of rental payments: homeowners.

Except as provided in § 25.202, the amount payable to a displaced homeowner for rent under § 25.185(a) or § 25.185(b) (1) is 48 times the reasonable monthly rent for a comparable replacement dwelling, less 48 times the monthly economic rent.

#### § 25.202 Limitation of rental payment.

(a) The rent established as the reasonable monthly rent under § 25.203 for a comparable replacement dwelling sets the upper limit of the differential amount payable under §§ 25.199 and 25.201. To qualify for any amount, the displaced homeowner or tenant must rent and occupy a decent, safe, and sanitary dwelling higher in rent than the rent or economic rent at the acquired dwelling.

(b) If the displaced homeowner or tenant voluntarily rents and occupies a decent, safe, and sanitary dwelling at a rent less than the reasonable monthly rent established for a comparable replacement dwelling, the amount payable under §§ 25.199 and 25.201 is that amount required to pay the difference between 48 times the average monthly rent or economic rent at the acquired dwelling and 48 times the actual monthly rent paid for the decent, safe, and sanitary dwelling.

#### § 25.203 Determining reasonable monthly rent.

In determining the reasonable monthly rent for a comparable replacement dwelling for the purposes of §§ 25.199 and 25.201, the agency concerned shall use one of the following methods:

- (a) It may establish a schedule of monthly rents for each type of dwelling required. The schedule must be based on a current analysis of the available private market. If more than one agency is administering a project causing displacement in the area, it shall cooperate with those agencies in establishing a uniform schedule for the area.
- (1) It may determine a reasonable monthly rent by examining the rent of at least three comparable replacement dwellings.
- (2) If it finds that the methods described in paragraph (a) (1) and (2) of this section are not feasible, it may propose what it considers to be a feasible method to the appropriate DOT official for approval.

#### § 25.205 Rental payments: method of payment.

A rental payment under § 25.185(a) must be made in installments if requested by the displaced person.

#### § 25.207 Computation of down payments.

The amount payable to a displaced homeowner or tenant for a down payment and incidental expenses under § 25.185(b) (2) is the full amount of the first \$2,000 of the required down payment and incidental expenses plus one half of any amount required over \$2,000. However, the homeowner or tenant shall provide the other half of any amount required over \$2,000.

#### § 25.209 Down payments.

(a) The amount payable to a displaced homeowner or tenant under § 25.207 sets the upper limits of the down payment under § 25.185(b) (2) and shall be the required down payment for financing a conventional loan on a comparable dwelling or the required down payment for financing the conventional loan on the replacement dwelling actually purchased whichever is less.

(b) A displaced homeowner or tenant shall apply the full amount of the payment to which he is entitled under § 25.185(b) (2) to the down payment and the incidental expenses described in the closing statement.

#### § 25.211 Provisional payment pending condemnation.

If the exact amount of a replacement housing payment cannot be determined because of a pending condemnation suit, the agency concerned may make a provisional replacement housing payment to the displaced homeowner equal to the difference between the agency's maximum offer for the property and the reasonable cost of a comparable replacement dwelling, but only if the homeowner enters into an agreement with the agency that—

(a) Upon final adjudication of the condemnation suit the replacement housing payment will be recomputed on the basis of the acquisition price determined by the court;

(b) If the acquisition price as determined by the court is greater than the agency's maximum offer upon which the provisional replacement housing payment is based, the difference will be refunded to the agency; and

(c) If the acquisition price as determined by the court is less than the agency's maximum offer upon which the provisional replacement housing payment is based, the difference will be paid to the homeowner.

#### § 25.213 Combined payments.

(a) If a homeowner is eligible for payment under § 25.183, but has previously received a rental payment under § 25.185(a), the amount of rental payment previously received must be deducted from any amount that he receives under § 25.183.

(b) If a homeowner or tenant is eligible for a down payment under § 25.185

**§ 25.215 Partial use of home for business or farm operation.**

(a) In the case of a displaced homeowner or tenant who has allocated part of his dwelling for use in connection with a displaced business or farm operation, a replacement housing payment may not be paid for that part of the property which is allocated to the business or farm operation.

(b) The eligibility of a homeowner or tenant to receive a payment under § 25.121 is not affected by this section.

**§ 25.217 Multiple occupants of a single dwelling.**

(a) Where two or more individuals, families, or combination thereof occupy an acquired dwelling, the replacement housing payment is based on the cost of a single comparable replacement dwelling.

(b) If a single replacement dwelling which meets the requirements of § 25.15 (a) (1)-(7) is not available on the market, then the replacement housing payment may be based on the cost of more than one comparable replacement dwelling.

(c) The appropriate DOT official shall establish criteria to implement this section.

**§ 25.219 Multi-family dwelling.**

In the case of a displaced homeowner who is required to move from a one-family unit of a multi-family building which he owns, the replacement housing payment must be based on—

(a) The cost of a comparable one-family unit in a multi-family building without regard for the number of units in the building being acquired; or

(b) If a comparable one-family unit in a multi-family building is not available, the cost of a single-family structure.

**§ 25.221 Certificate of eligibility pending purchase of replacement dwelling.**

Upon request by a displaced homeowner or tenant who has not yet purchased and occupied a decent, safe, and sanitary replacement dwelling, but who is otherwise eligible for a replacement housing payment under this subpart, the agency concerned shall certify to any interested party, financial institution, or lending agency, that the displaced homeowner or tenant will be eligible for the payment of a specific sum if he purchases and occupies a decent, safe, and sanitary dwelling within the time limits prescribed by § 25.181(a) (1), (b) (3), or (c) (3), as the case may be.

**Subpart H—Relocation Assistance Functions Carried Out Through Other Agencies**

**§ 25.231 Authority to carry out relocation assistance through other agencies.**

(a) To prevent unnecessary expenses and duplication of activities, an agency concerned that is required to provide relocation services or make relocation payments under this part may carry out any of those functions through the facilities, personnel, and services of the central relocation agency for the area in which the project is located. The appropriate regional area office of the Department of Housing and Urban Development will provide information concerning the services furnished by that agency. (See 39 FR 37374 for a listing of the area offices.)

(b) The agency concerned may carry out its relocation assistance program by contracting with a public or private agency having an established organization for providing relocation services and payments other than the central relocation agency, if—

(1) There is no central relocation agency in the area in which the project is located; or

(2) In the opinion of the agency concerned, the central relocation agency does not have the capacity to furnish the requisite relocation program within the time required by the project's schedule.

**§ 25.233 Information to be furnished to DOT.**

If an agency concerned elects to provide relocation services or make relocation payments through another agency, the agency shall furnish the appropriate DOT official with the following information concerning the other agency:

(a) The name and location of the agency.

(b) An analysis of the agency's present workload and of its ability to perform the requirements of this subpart.

(c) The estimated number and the job titles of relocation personnel of the agency that will provide the relocation assistance for the project.

**§ 25.235 Interagency agreement required.**

If an agency concerned elects to provide relocation services or make relocation payments through another agency, it shall enter into a written agreement with that agency. The agreement must be approved by the appropriate DOT official and contain the following:

(a) An obligation on the part of the other agency to perform the services and make the relocation payments in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, and this part.

(b) A requirement that the records required by § 25.23 be retained by the other agency or turned over to the agency concerned and that they be retained for a period of at least 3 years after

payment of the final voucher on each project, regardless of which agency retains them.

(c) A requirement that the records required by § 25.23 be available for inspection by representatives of the Department of Transportation at any reasonable business hour.

(d) If the contract is with a public agency administering another Federal or Federally-assisted program, a description of the financial responsibilities of each program to finance the relocation program required by this part.

(e) A provision acknowledging that only those costs directly chargeable to the Federal or Federally-assisted project are eligible for Federal funds.

(f) A provision for negotiation of major changes that become necessary in the scope, character, or estimated total cost of the work to be performed.

**§ 25.237 Amendment of existing agreements required.**

Each agreement between an agency concerned and another agency for carrying out relocation assistance functions through the other agency that is in effect on June 1, 1971, shall be amended or supplemented as necessary to include the requirements of § 25.235. The agency concerned shall furnish the appropriate DOT official with a copy of the amended agreement or the existing agreement and the supplement, as the case may be.

**Subpart I—Acquisition of Real Property**

**§ 25.251 Scope.**

This subpart prescribes requirements for the acquisition of real property in a Federal or Federally-assisted program administered by the Department of Transportation.

**§ 25.253 Real property acquisition practices.**

(a) In acquiring real property, each agency concerned shall to the greatest extent practicable—

(1) Make every reasonable effort to acquire real property expeditiously through negotiation;

(2) Before the initiation of negotiations have the real property appraised and give the owner or his representative an opportunity to accompany the appraiser during inspection of the property;

(3) Before the initiation of negotiations establish an amount which it believes to be just compensation for the real property and make a prompt offer to acquire the property for that amount;

(4) Before requiring any owner to surrender possession of real property—

(i) Pay the agreed purchase price;

(ii) Deposit with the court, for the benefit of the owner, an amount not less than the agency's approved appraisal of the fair market value of the property; or

(iii) Pay the amount of the award of compensation in a condemnation proceeding for the property;

(5) If any interest in real property is to be acquired by exercise of the power of eminent domain, institute formal condemnation proceedings and not intentionally make it necessary for an owner to institute legal proceedings to prove the fact of the taking of his real property; and

(6) If the acquisition of only part of a property would leave its owner with an uneconomic remnant, offer to acquire that remnant.

(b) In acquiring real property, to the greatest extent practicable an agency may not—

(1) Schedule the construction or development of a public improvement that will require any person lawfully occupying real property to move from a dwelling, or to move his business or farm operation, without giving that person at least 90 days' written notice of the date he is required to move.

(2) If it rents acquired real property to the former owner or tenant for short term or subject to termination by the agency on short notice, charge rent that is more than the fair rental value of the property to a short-term occupier;

(3) Compel an agreement on the price to be paid for the property by—

(i) Advancing the time of condemnation;

(ii) Deferring negotiations, condemnation, or the deposit of funds in court for use of the owner; or

(iii) Taking any other coercive action.

(c) For purposes of paragraph (a) (4) (i) and (b) (3) (i) of this section, the word court includes any board, commission or similar body.

**§ 25.255 Statement of just compensation to owner.**

At the time it makes an offer to purchase real property, the agency concerned shall provide the owner of that property with a written statement of the basis for the amount estimated to be just compensation. To the greatest extent practicable, the statement must include the following:

(a) An identification of the real property and the particular interest being acquired.

(b) A certification, where applicable, that any separately held interest in the real property is not being acquired in whole or in part.

(c) An identification of buildings, structures, and other improvements, including fixtures, removable building equipment, and any trade fixtures which are considered to be part of the real property for which the offer of just compensation is made.

(d) A declaration that the agency's determination of just compensation—

(1) Is based on the fair market value of the property;

(2) Is not less than the agency's approved appraised value of the property;

(3) Disregards any decrease or increase in the fair market value caused by the project for which the property is being acquired; and

(4) In the case of separately held interests in the real property, includes an apportionment of the total just compensation for each of those interests.

(e) In the case of partial taking, the amount of damages, if any, to the remaining real property.

**§ 25.257 Equal interest in improvements to be acquired.**

In acquiring any interest in real property each agency concerned shall acquire at least an equal interest in all buildings, structures, or other improvements located on that real property which will be removed or which will be adversely affected by the completed project.

**§ 25.259 Payments to tenants for improvements.**

(a) In the case of a building, structure, or other improvement owned by a tenant on the real property acquired for a project to which this part applies, the agency concerned shall, subject to paragraph (b) of this section, pay the tenant the larger of—

(1) The fair market value that the building, structure, or other improvement contributes to the fair market value of the real property acquired; or

(2) The fair market value of the building, structure, or other improvement, assuming its removal from the property.

(b) A payment may not be made to a tenant under paragraph (a) of this section unless—

(1) The tenant, in consideration for the payment, assigns, transfers, and releases to the agency concerned all his right, title, and interest in the improvement;

(2) The owner of the land involved disclaims all interest in the improvement; and

(3) The payment is not duplicated by any payment otherwise authorized by law.

(c) Nothing in this section shall be construed to deprive the tenant of any rights to reject payment under this section and to obtain payment as otherwise authorized by law.

**§ 25.260 Criteria for appraisals.**

(a) The appropriate DOT official shall establish—

(1) Criteria for determining the qualifications of appraisers;

(2) Criteria for a system of review by qualified appraisers; and

(3) Standards for appraisals consistent with the "Uniform Appraisal Standards for Federal Land Acquisition" (1972 edition, published by the Interagency Land Acquisition Conference).

(b) The publication incorporated by reference in paragraph (a) (3) of this section may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, for 35 cents. Requests for copies should refer to Stock No. 5259-0002. A copy may be examined in the Office of the General Counsel, Room 10100, Department of Transportation, 7th and D Streets SW., Washington, D.C.

**§ 25.261 Expenses incidental to transfer of title.**

As soon as possible after real property has been acquired, the agency concerned shall, to the extent it deems fair and reasonable, reimburse the owner for expenses necessarily incurred for—

(a) Recording fees, transfer taxes, and similar expenses incidental to conveying the real property to the agency;

(b) Penalty costs for prepayment of any preexisting recorded mortgage entered into in good faith encumbering the real property; and

(c) The pro rata portion of any prepaid real property taxes which are allocable to a period subsequent to the date of vesting title in the agency or the effective date of possession of the real property by the agency, whichever is the earlier.

**§ 25.263 Litigation expenses.**

(a) In any condemnation proceeding brought by the agency concerned to acquire real property, it shall reimburse the owner of any right, title, or interest in the real property for his reasonable costs, disbursements, and expenses, including attorney, appraisal, and engineering fees, actually incurred because of the proceeding, if—

(1) The final judgment is that the agency concerned cannot acquire the real property by condemnation; or

(2) The proceeding is abandoned by the agency concerned.

(b) In any inverse condemnation proceeding where the owner of any right, title, or interest in real property receives an award of compensation by judgment or settlement, the agency concerned shall reimburse the plaintiff for his reasonable costs, disbursements, and expenses, including reasonable attorney, appraisal, and engineering fees, actually incurred because of the proceeding.

**§ 25.265 Allowance for benefits prohibited.**

No allowance for benefits provided by this part may be included in—

(a) Contracts or options to purchase real property;

(b) The appraised value of real property; and

(c) Estimated compensation in the event of condemnation with a declaration of taking.

**§ 25.267 Cost of replacing publicly-owned property.**

(a) When publicly-owned property used for public purposes is acquired for a project to which this part applies, the cost of replacing that property (including any improvement thereon) may be included in the cost of the project, if the appropriate DOT official finds that:

(1) The State agency has determined that the replacement of this property is in the public interest;

(2) The replacement property substantially has the same functional utility as the property acquired for the project; and

(3) The replacement cost will be actually incurred.

(b) As used in paragraph (a) of this section, "replacement" includes—

(1) The acquisition or construction of property similar to the acquired property; or

(2) The addition or modification of other property to provide for functionally equivalent public use.

PRIVACY ACT OF 1974

Regulations

# federal register

Title 17—Commodity and Securities  
Exchanges

CHAPTER I—COMMODITY FUTURES  
TRADING COMMISSION

PART 146—RECORDS MAINTAINED ON  
INDIVIDUALS

On August 5, 1975, the Commodity Futures Trading Commission published in the FEDERAL REGISTER, 40 Fed Reg. 32839, notice that it was considering adoption of rules to implement the Privacy Act of 1975, 5 U.S.C. 552a (P.L. 93-579). These rules generally relate to an individual's right to know what personal information the Commission has in its files about him, his right to have those records be relevant, accurate, timely, and complete and his right to prevent personal information about himself from being disseminated to unauthorized persons. The Commission invited interested persons to participate in the rulemaking process by providing written submissions to the Commission. No comments have been received. However, upon further consideration the Commission has determined to make certain modifications, adopting rules in the form set forth below in lieu of the form proposed. Those modifications relate to a clarification of the systems of records being exempted from certain provisions of the Privacy Act and to a simplification of the schedule of fees for copies of records requested by the individual. The rules, as adopted, comprise a new Part 146 of Title 17 of the Code of Federal Regulations.

SUMMARY OF THE RULES' PROVISIONS

The Privacy Act and the rules adopted by the Commission provide for the annual publication by the Commission in the FEDERAL REGISTER of notices of each "system of records" it maintains on individuals. The individual may then examine these system notices, determine which system might contain records pertaining to him, and, following procedures established in the rules, ask the Commission to determine whether those systems do in fact contain any information about him.

If the system of records has information concerning an individual, the individual may request and obtain access to those records. Upon payment of specified charges, he may also obtain copies of the records. Furthermore, if he believes information contained in the records is not accurate, relevant, timely, or complete, procedures are established whereby he may seek amendment or correction.

The rules restrict access by others to personal information concerning an individual that is contained in the Commission files, without the specific consent of the individual. The information is available to members of the Commission and the Commission staff who need it in the pursuit of their duties. Disclosure of the record as required under the Freedom of Information Act, 5 U.S.C. 552, is also permitted without restriction. Beyond that, a record may be disclosed only for purposes specifically authorized under the Privacy Act, or for "routine uses," which must be described and published by the

RULES AND REGULATIONS

Commission in the Federal Register for each system of records it maintains. Furthermore, the Commission is required to keep a record of each disclosure, except those made to Commission employees or made pursuant to the Freedom of Information Act. Upon request, it must provide that record to the individual.

The rules exempt certain kinds of records from some of the provisions of the Privacy Act. This is done pursuant to specific statutory authority provided in that Act, 5 U.S.C. 552a(k). The exemptions relate to investigatory material compiled for law enforcement purposes and confidential employee background investigation materials.

Finally, the rules prescribe certain information that the Commission must give to an individual whenever the Commission requests personal information from him, and standards that the Commission will meet in maintaining its files.

SCOPE OF RULES

Section 146.1 of Part 146 generally describes the scope and purpose of the rules which follow. Section 146.2 contains definitions of terms as they are used in the Privacy Act and in the Commission's rules. An understanding of several key terms is essential to an understanding of the scope of the remainder of the provisions.

Of central importance to the Privacy Act and to the Commission's rules, is the concept of a "system of records." A "record" is defined as any item, collection or grouping of information about an individual that contains his name or other identifying particular. A "system of records" is defined as a group of records: (1) which is under the control of the agency; (2) from which information may be retrieved by the name of the individual. Thus, information about an individual might be contained in the Commission record, but unless the information is filed under or indexed by the name of the individual, or an individual identifier, it will not come within many of the provisions of the Privacy Act.

The Privacy Act and these rules apply only to records concerning individuals. An "individual" is defined under the Act and for purposes of the rules to mean a citizen of the United States or an alien lawfully admitted for permanent residence. Thus, the Privacy Act and the rules will not apply to records of corporations and business organizations. The legislative history of the Privacy Act indicates that it is not intended to apply to individuals acting in an entrepreneurial capacity. As a practical matter, however, it may at times be difficult to distinguish between personal and entrepreneurial records concerning an individual, and the Commission does not intend to rely upon the distinction as a basis upon which it will deny an individual access to records that concern him, if they contain what is essentially personal information, and are retrievable by use of his name or other identifier.

Among the other important definitions included in Section 146.2 are "routine use," which describe a use of a record

for a purpose which is compatible with the purpose for which it was collected, and "system notice," which is the description of a system of records that an agency is required to publish in the Federal Register.

PROCEDURES FOR REQUESTING INFORMATION  
OR ACCESS TO RECORDS PERTAINING TO  
AN INDIVIDUAL, AND FOR DISCLOSURE OF  
THE REQUESTED INFORMATION TO THE  
INDIVIDUAL

Section 146.3 of the rules establishes procedures by which an individual may request information as to whether a system of records maintained by the Commission contains any information relating to him and may request access to his records. Requests are to be made in writing and are to be directed to a Privacy Unit established in the Office of Public Information in the Commission's Washington, D.C. office.

To assist the Commission staff in identifying the requested records, certain information is required to be supplied with respect to each system of records from which information is sought. The individual is also required to include in his request certain other information which is designed to enable the Commission to (1) identify the individual to whom the records pertain and (2) select the particular information sought by the individual within a record which may contain other types of personal information as well. To assist in properly preparing requests, the Commission offers individuals, free of charge, a compilation of its systems notices. A description of the information included in the system notice and instructions on how to obtain these compilations are set forth in Section 146.11.

Requests will be processed promptly, and the individual will be informed whether any information available to him is contained in the systems of records the Commission maintains. If the individual has requested access, he will be advised where and when he may inspect the records or be given the name and address of the person with whom he should communicate to make further arrangements.

The Commission's rules are designed not only to give an individual access to information about himself, but also to protect him against unauthorized disclosure of that information to others. Section 146.4 of the proposed rules sets forth the methods by which an individual must identify himself in order to gain access to his records. Generally, an individual will be able to satisfy those requirements with forms of identification that he may be expected to have in his possession, e.g., a driver's license or credit cards. However, provision is made for the use of other types of identification in appropriate circumstances. Of course, no identification will be required where access is requested to records that are available to any person under the Freedom of Information Act.

Section 146.5 of the rules establishes procedures by which information will be supplied to the individual after the re-

quest for access has been granted. The individual will normally be given access to his records during the normal business hours in the Commission office where the records are maintained, but exceptions will be granted for good cause. The individual may be accompanied by persons of his own choosing when reviewing the records, but will be required to provide the Commission with a statement in writing authorizing access by these persons, unless access would be available to them under the terms of the Freedom of Information Act.

The Privacy Act makes no special provision for access by a second person unless accompanied by the individual, to whom the record pertains and the legislative history suggests that the Privacy Act was in fact directed toward personal participation by the individual in the process. However, the Commission anticipates that in most cases it will honor a request by the individual that another person be granted access in his absence, so long as the authority and identity of the other person are unambiguously demonstrated.

The individual is entitled to the information he requests in a meaningful form. Under some circumstances, this may not be possible through direct access to the record itself. For example, the record may contain information concerning matters which do not pertain to the individual and which he is not entitled to see. To extract only the information relating to that individual may not be a satisfactory solution. Accordingly, where necessary to make the record meaningful, the staff is authorized to prepare a report of the relevant information and present that to the individual.

As an alternative to personal inspection of the record, or in addition thereto, the individual may obtain copies of the records which pertain to him. The fees which the Commission has established for copies are set forth in an appendix to Section 146. The Commission in its final rules has eliminated specific charges for all materials as set forth in the proposed rules, except for copies of paper records for which explicit fees are set. It is anticipated that in nearly all cases records will be supplied in the form of paper records and that the detailing of specific charges for other types of records is unnecessary. For other types of records the rules provide generally that the individual shall be charged the cost of the materials furnished.

DISCLOSURE OF THE INDIVIDUAL'S  
RECORD TO THIRD PARTIES

To protect against disclosure of personal information to unauthorized persons, Section 146.6 of the rules implements the provisions of the Privacy Act limiting disclosure without the written consent of the individual whose record is involved, except in certain specified circumstances.

There are three situations in which disclosure is authorized under the rules that can be expected to arise frequently: Disclosure to those persons within the Commission who need to have access to

RULES AND REGULATIONS

the information in order to perform their jobs; disclosure required under the Freedom of Information Act; and disclosure that has been established as a routine use for that system of records, through publication in the FEDERAL REGISTER.

When disclosures are made of individual information contained in a system of records, the Commission's rules, consistent with the Privacy Act, require that an accounting be kept of such disclosures. This accounting serves two purposes: (1) to enable the individual, with certain exceptions, to determine to whom disclosures about him are being made, and (2) to enable the Commission to notify prior recipients of subsequent corrections to records or of the existence of a dispute concerning their accuracy. No accounting is required, however, for disclosures made with the consent of the individual, for internal disclosures, and for disclosures pursuant to the Freedom of Information Act.

PROCEDURES FOR CORRECTION OR  
AMENDMENT OF RECORDS

If an individual believes that records concerning him are not accurate, relevant, timely and complete, he may request an amendment to these records following procedures established in Section 146.8. If the staff grants a request to amend a record, not only will the individual be notified of the decision, but prior recipients of the record—identified in the accounting of disclosures—will be notified of the correction and of its substance. If the request for amendment should be denied, the individual will be given the reasons for that decision and notified that he may seek review of the denial by the Commission itself, in accordance with procedures set forth in Section 146.9.

PROCEDURES FOR APPEALS TO THE  
COMMISSION

In order to assure that all persons will have direct access to the Commission to complain about an alleged failure of the Commission or members of its staff to comply with the requirements of the Privacy Act and of these rules, Section 146.9 creates a right to petition the Commission in writing to seek correction of the deficiency. The individual may petition for review of a denial of access or denial of a request to amend a record. This section also authorizes a petition to the Commission when it is claimed that a determination was made previously on the basis of inaccurate, incomplete, irrelevant, or out of date information about the individual contained in Commission records. Commission review may also be sought with respect to other matters as well. The procedures established are not, however, intended to permit the reopening of litigated cases although, under exceptional circumstances, if injustice has been done, the Commission may treat a petition under this section as a petition to reopen an otherwise finally decided matter.

Instructions on preparing and filing a petition are contained in Section 146.9. While the word "petition" is used in the

rule, the Commission will consider any written complaint, however informally presented, if the complainant indicates it is being submitted pursuant to Section 146.9 or if it plainly encompasses a complaint remediable under that provision. The Commission has undertaken in its rule to make a determination of the matter within thirty business days after it is received.

In those situations where an individual has sought review of the denial of a request to amend a record, which was made pursuant to Section 146.8, certain special provisions apply. If the Commission determines that the record should be amended, prior recipients of the record will be notified of the change and its substance. If the petition is denied, the individual will be advised of that determination, the reasons for the denial and of his right to obtain judicial review. The rules also permit an individual to file a statement indicating why he disagrees with the Commission's refusal to amend the record. Subsequent disclosures of the disputed record will note the dispute and include a copy of the statement of disagreement.

EXEMPTIONS

The Privacy Act, 5 U.S.C. 552a(k), authorizes the Commission by rule to exempt certain systems of records from some of the provisions of the Act, primarily those provisions relating to disclosure to the individual of information about himself contained in Commission files. Pursuant to that authority the Commission in Section 146.12 of the rules is exempting investigatory material compiled for law enforcement purposes, and employee background investigation material obtained under a promise of confidentiality.

The exemptions being adopted are limited in scope. They will be applied only to the extent that the protection of the records comes within the purposes and policies underlying the exemptions, as stated therein. As a result, an investigation or inquiry into a law enforcement or employment matter may involve records contained in both exempted and non-exempted systems of records. The records contained in the two systems will not necessarily be segregated, however, since a determination concerning which system a given record falls within can and will be made at the time when a request is made for access to the record.

The Commission has made revisions in the wording of § 146.12 of these rules to clarify that exempted and non-exempted systems dealing with the same general subject matter may, in fact, exist concurrently.

OTHER MATTERS

The individual is entitled, pursuant to Section 146.10 of the rules, to certain information from the Commission when it seeks personal information from him. This includes information about: (1) the Commission's authority to request the information; (2) the purposes and uses which will be or may be made of the data; (3) whether the disclosure is mandatory or voluntary; and (4) the effect,

RULES AND REGULATIONS

if any, of not providing the information. Current Commission reporting forms are

§ 146.2 Definitions.

For purposes of this Part 146—

(b) A request for information or for access to records under this Part may be made by an individual as in person. The request

(1) One piece of identification containing a photograph and signature, such as

izing discussion of that individual's record in the accompany persons'

(3) Disclosure is required under the Freedom of Information Act (5 U.S.C. 552).

if any, of not providing the information. Current Commission reporting forms are being modified to include this information and other arrangements for disclosure will be made in appropriate cases.

Section 146.7 provides that the Commission's records shall be timely, relevant, accurate and complete, and that the Commission shall not maintain information in the files which is not relevant or necessary to accomplish statutory objectives. The rules also circumscribe the collection of material by the Commission relating to the exercise of First Amendment rights, and require that the Commission should collect information directly from the individual—rather than secondary sources—where fairness so requires.

Chapter I of Title 17 of the Code of Federal Regulations is amended by adding a new Part 146, reading as follows:

Sec.

- 146.1 Purpose and Scope.
- 146.2 Definitions.
- 146.3 Requests by an individual for information or access.
- 146.4 Procedures for identifying the individual making the request.
- 146.5 Disclosure of requested information to individuals; fees for copies of records.
- 146.6 Disclosure to third parties.
- 146.7 Content of Systems of Records.
- 146.8 Amendment of a record.
- 146.9 Appeals to the Commission.
- 146.10 Information supplied by the Commission when collecting information from an individual.
- 146.11 Public notice of records systems.
- 146.12 Exemptions.

AUTHORITY: Pub. L. 93-579, 88 Stat. 1896 (5 U.S.C. 552a); Sec. 101(a), Pub. L. 93-463, 58 Stat. 1389 (7 U.S.C. 4a(j)).

§ 146.1 Purpose and Scope.

(a) This part contains the rules of the Commission for the Privacy Act of 1974 (P.L. 93-579, 5 U.S.C. 552a). These rules apply to all records maintained by this Commission which are not excepted or exempted as set forth in § 146.12, insofar as they contain personal information concerning an individual, identify that individual by name or other symbol and are contained in a system of records from which information is retrieved by the individual's name or identifying symbol. Among the primary purposes of these rules are to permit individuals to determine whether information about them is contained in Commission files and, if so, to obtain access to that information; to establish procedures whereby individuals may have inaccurate and incomplete information corrected; and, to restrict access by unauthorized persons to that information.

(b) In this part the Commission is also exempting certain Commission systems of records from some of the provisions of the Privacy Act of 1974 that would otherwise be applicable to those systems. These exemptions are authorized under the Privacy Act, 5 U.S.C. 552a(k).

§ 146.2 Definitions.

For purposes of this Part 146—

(a) The term "Commission" means the Commodity Futures Trading Commission;

(b) The term "Executive Director" refers to the executive level staff official appointed pursuant to § 2(a)(5) of the Commodity Exchange Act;

(c) The term "Privacy Unit" refers to a staff subdivision established in the Commission's Office of Public Information in Washington, D.C. to process requests and handle various other matters relating to the Commission's implementation of the Privacy Act of 1974;

(d) The term "individual" means a citizen of the United States or an alien lawfully admitted for permanent residence;

(e) The term "maintain" includes maintain, collect, use, or disseminate;

(f) The term "record" means any item, collection, or grouping of information about an individual that is maintained by the Commission, including but not limited to, his education, financial transactions, and criminal or employment history and that contains his name, or the identifying number, symbol, or other identifying particular assigned to the individual;

(g) The term "system of records" means a group of any records under the control of the Commission from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual;

(h) The term "system notice" means a notice of the existence and character of the Commission's system of records published in the Federal Register pursuant to § 146.11(a) of these rules;

(i) The term "routine use" means, with respect to the disclosure of a record, the use of that record for a purpose which is compatible with the purpose for which it was collected;

(j) The term "Freedom of Information Act" encompasses both the Freedom of Information Act, as amended, 5 U.S.C. 552, and the Commission's rules contained in Part 145 of this Title.

(k) The term "agency" means any executive department, military department, Government corporation, Government controlled corporation or other establishment in the Executive branch of the Government or any independent regulatory agency.

§ 146.3 Requests by an individual for information or access.

(a) Any individual may request information on whether a system of records maintained by the Commission contains any information pertaining to him, or may request access to his record or to any information pertaining to him which is contained in a system of records. All requests shall be directed to the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, N.W., Washington, D.C. 20036.

(b) A request for information or for access to records under this Part may be made by mail or in person. The request shall (1) be in writing and signed by the individual making the request; (2) include the full name (including the middle name) of the individual seeking the information or record, his home address and telephone number, his business address and telephone number; and (3) if he is or ever has been registered with the Commission or its predecessor agency, or associated with a firm so registered as a partner, officer or director or 10% shareholder, state in what capacity he is or was registered.

(c) For each system of records from which information is sought, the request shall (1) specify the title and identifying number for that system as it appears in the system notice published by the Commission; (2) provide additional identifying information, if any, specified in the system notice; (3) describe the specific information or kind of information sought within that system of records; and (4) set forth any special arrangements sought concerning the time, place, or form of access. A description of the information contained in a system notice and instructions on how to obtain copies of the Commission's system notices appear in § 146.11(b).

(d) The Commission will respond in writing to a request made under this section within ten days (excluding Saturdays, Sundays and legal public holidays) after receipt of the request. If a definitive reply cannot be given within ten days, the request will be acknowledged and an explanation will be given of the status of the request.

(e) When an individual has requested access to records, available to him under these rules, he will either be notified in writing of where and when he may obtain access to the records requested or be given the name, address and telephone number of the member of the Commission staff with whom he should communicate to make further arrangements for access.

§ 146.4 Procedures for identifying the individual making the request.

When a request for information or for access to records has been made pursuant to § 146.3, before information is given or access is granted pursuant to § 146.5 of these rules the Commission shall require reasonable identification of the person making the request to insure that information is given and records are disclosed only to the proper person.

(a) An individual may establish his identity by—

(1) Submitting with his request for information or for access a photocopy of two pieces of identification bearing his name and signature, one of which shall bear his current home or business address; or

(2) Appearing at any office of the Commission (located at the addresses set forth in § 145.6 of these rules) during the regular working hours for that office and presenting either

(i) One piece of identification containing a photograph and signature, such as a driver's license or passport or

(ii) Two pieces of identification bearing his name and signature, one of which shall bear his current home or business address; or

(3) Providing such other proof of identity as the Commission deems satisfactory in the circumstances of a particular request.

(b) If the Executive Director or other designated Commission official determines that the data in a requested record is so sensitive that unauthorized access could cause harm or embarrassment to the person whose record is involved, or if the person making the request is unable to produce satisfactory evidence of identity under paragraph (a) of this section, the individual making the request may be required to submit a notarized statement attesting to his identity and that he is familiar with and understands the criminal penalties provided under Section 1001 of Title 18 of the United States Code for making false statements to a Government agency and under the Privacy Act, Section 552a(i)(3) of Title 5 of the United States Code, for obtaining records under false pretenses. Copies of these statutory provisions and forms for such notarized statements may be obtained upon request from the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, N.W., Washington, D.C. 20036.

(c) The parent or guardian of a minor or a person judicially determined to be incompetent, in addition to establishing the identity of the person he represents as described in the previous paragraphs of this subsection, shall establish his own identity and his parentage or guardianship by furnishing a copy of a birth certificate showing parentage or a court order establishing the guardianship.

(d) Nothing in this section shall preclude the Commission from requiring additional identification before granting access to the records if there is reason to believe that the person making the request may not be the individual to whom the record pertains, or where the sensitivity of the data warrants it.

(e) The requirements of this § 146.4 shall not apply if the records involved would be available to any person pursuant to the Commission's rules under the Freedom of Information Act as set forth in Part 145 of this chapter.

§ 146.5 Disclosure of requested information to individuals; fees for copies of records.

(a) Any individual who has requested access to his record or to any information pertaining to him in the manner prescribed in § 146.3, and has identified himself as prescribed in § 146.4, shall be permitted to review the record and have a copy made of all or any portion thereof in a form comprehensible to him, subject to fees for copying services set forth in Appendix A to this Part. Upon his request persons of his own choosing may accompany him, but the individual shall first furnish a written statement author-

izing discussion of that individual's record in the accompany persons' presence.

(b) Access will generally be granted in the office of the Commission where the records are maintained during normal business hours, but for good cause shown the Commission may grant access at another office of the Commission or at different times for the convenience of the individual making the request.

(c) Where a document containing information about an individual also contains information not pertaining to him, the portion not pertaining to the individual shall not be disclosed to him except to the extent the information is available to any person under the Freedom of Information Act. If the records sought cannot be provided for review and copying in a meaningful form, the Commission shall provide to the individual a report of the information concerning the individual contained in the record or records which shall be complete and accurate in all material aspects.

(d) Where the disclosure involves medical records, the records may be provided only to a physician designated in writing by the individual.

(e) Requests for copies of documents may be directed to the Privacy Unit or to the member of the Commission's staff through whom arrangements for access were made.

(f) Fees for copies of records shall be charged as set forth in the schedule of fees contained in Appendix A to this Part. Copies of the schedule may be obtained upon request from the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, N.W., Washington, D.C. 20036. Payment should be made by check or money order payable to the Treasury of the United States. Advance payment of all or part of the fee may be required at the discretion of the Commission, but generally this will not be required for requests where the anticipated fee is less than \$25.

(g) Nothing in this § 146.5 or in § 146.3 shall:

(1) Require the disclosure of investigative records exempted under § 146.12 of these rules;

(2) Allow an individual access to any information compiled in reasonable anticipation of a civil action, administrative proceeding or a criminal proceeding;

(3) Require the furnishing of information or records which cannot be retrieved by the name or other identifier of the individual making the request.

§ 146.6 Disclosure to third parties.

(a) The Commission shall not disclose to any agency or to any person by any means of communication a record pertaining to an individual which is contained in a system of records, except under the following circumstances:

(1) The individual to whom the record pertains has given his written consent to the disclosure;

(2) The disclosure is to officers and employees of the Commission who need it in the performance of their duties;

(3) Disclosure is required under the Freedom of Information Act (5 U.S.C. 552);

(4) Disclosure is for a routine use as defined in § 146.2(g) and described in the system notice for that system of records;

(5) The disclosure is made to the Bureau of the Census for purposes of planning or carrying out a census or survey or related activity;

(6) The disclosure is made to a recipient who has provided the agency with advance adequate written assurance that the record will be used solely as a statistical research or reporting record, and the record is to be transferred in a form that is not individually identifiable;

(7) The disclosure is made to another agency or to an instrumentality of any Governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity if the activity is authorized by law and if the head of the agency or instrumentality has made a written request to the Commission specifying the particular portion desired and the law enforcement activity for which the record is sought.

(8) The disclosure is made to a person pursuant to a showing of compelling circumstances affecting the health or safety of an individual if upon such disclosure notification is transmitted to the last known address of such individual;

(9) The disclosure is made to either House of Congress, or to the extent of matter within its jurisdiction, any committee or subcommittee thereof, any joint committee of Congress or subcommittee of any such joint committee;

(10) The disclosure is made to the Comptroller General, or any of his authorized representatives, in the course of the performance of the duties of the General Accounting Office; or

(11) The disclosure is pursuant to the order of a court of competent jurisdiction.

(b) The Commission will make reasonable efforts to serve notice on an individual when any record on such individual is made available to any person under compulsory legal process when such process becomes a matter of public record.

(c) The Commission, with respect to each system of records under its control, shall keep an accurate accounting of certain disclosures.

(1) A record shall be kept of all disclosures made under paragraph (a) of this § 146.6, except disclosures made with the consent of the individual to whom the record pertains [subparagraph (a)(1)], disclosures to authorized employees [subparagraph (a)(2)] and disclosures required under the Freedom of Information Act (subparagraph (a)(3)).

(2) The record shall include:

(i) The date, nature, and purpose of each disclosure of a record made to any person or to another agency;

(ii) The name and address of the person or agency to whom the disclosure was made.

(3) The accounting will be retained for at least five years or the life of the record, whichever is longer, after the disclosure for which the accounting is made.

(d) The accounting described in paragraph (c) of this section will be made available to the individual named in the record upon his written request, directed to the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, N.W., Washington, D.C. 20036, except that the accounting will not be revealed with respect to disclosures made under paragraph (a)(7) of this § 146.6, pertaining to law enforcement activity, and to disclosures involving systems of investigative records exempted under § 146.12 of these rules.

(e) Whenever an amendment or correction of a record or a notation of dispute concerning the accuracy of records is made by the Commission in accordance with §§ 146.8 and 146.9 of these rules, the Commission will inform any person or other agency to whom the record was previously disclosed, if an accounting of the disclosure was made pursuant to the requirements of paragraph (c) of this section.

#### § 146.7 Content of Systems of Records.

(a) The Commission will maintain in its records only such information about an individual as is relevant and necessary to accomplish the purposes of the Commodity Exchange Act and other purposes required to be accomplished by statute or by executive order of the President.

(b) The Commission will maintain no record describing how any individual exercises rights guaranteed by the First Amendment unless expressly authorized by statute or by the individual about whom the record is maintained or unless pertinent to and within the scope of an authorized law enforcement activity.

(c) The Commission will collect information to the greatest extent practicable directly from the subject individual when the information may result in adverse determinations about an individual's rights, benefits, and privileges under Federal programs.

(d) The Commission will maintain all records which are used by the Commission in making any determination about any individual with such accuracy, relevance, timeliness, and completeness as is reasonably necessary to assure fairness to the individual in the determination.

#### § 146.8 Amendment of a record.

(a) Any individual may request amendment of information pertaining to him which is contained in a system of records maintained by the Commission and which is filed under his name or other individual identifier if he believes the information is not accurate, relevant, timely or complete. A request for amendment shall be directed to the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, N.W., Washington, D.C. 20036.

(b) A request for amendment may be made by mail or in person and shall (1) be in writing and signed by the person

making the request; (2) describe the particular record to be amended with sufficient specificity to permit the record to be located among those maintained by the Commission; and (3) specify the nature of the amendment sought and the justification for the requested change. The person making the request may be required to provide the information specified in § 146.3 and § 146.4 of these rules in order to simplify identification of the record and permit verification of the identity of the person making the request for amendment.

(c) Receipt of a request for amendment will be acknowledged in writing within ten days (excluding Saturdays, Sundays and legal public holidays) except that, if the individual is given notice within the ten day period that his request will or will not be complied with, no acknowledgement is required.

(d) Assistance in preparing a request to amend a record may be obtained from the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, N.W., Washington, D.C. 20036; Telephone: (202) 254-8630.

(e) Upon receipt of a request for amendment the Executive Director of the Commission or a person designated by the Executive Director shall promptly determine whether the record is materially inaccurate, incomplete, misleading, or is irrelevant or not timely, as claimed by the individual, and, if so, shall cause the record to be amended in accordance with the individual's request.

(f) If the Executive Director or designee grants the request to amend the record, the individual shall promptly be advised of the decision and of the action taken, and notice shall be given of the correction and its substance to each person or agency to whom the record had previously been disclosed, as shown on the record of disclosures maintained in accordance with § 146.6(c).

(g) If the Executive Director or designee disagrees in whole or in part with a request for amendment of a record, the individual shall promptly be notified of the complete or partial denial of his request and the reasons for the refusal. The individual shall also be notified of the procedures for administrative review by the Commission of any complete or partial denial of a request for amendment, which are set forth in § 146.9.

(h) If a request is received for amendment of a record prepared by another agency which is in the possession or control of the Commission, the request for amendment will be forwarded to that agency. If that agency determines that the correction should be made, the Commission will amend its records accordingly and notify the individual making the request for amendment of the change. If the other agency declines to make the amendment, the Executive Director or designee will independently determine whether the amendment will be made to the record in the Commission's possession or control, considering any explanation given by the other agency for its decision.

#### § 146.9 Appeals to the Commission.

(a) Any individual may petition the Commission:

(1) To review a refusal to comply with an individual request for access to records pursuant to the Privacy Act, 5 U.S.C. 552a(d)(1), and §§ 146.3 and 146.5 of the rules in this part;

(2) To review denial of a request for amendment made pursuant to § 146.8;

(3) To correct any determination that may have been made adverse to the individual based in whole or in part upon inaccurate, irrelevant, untimely or incomplete information;

(4) To correct a failure to comply with any other provision of the Privacy Act, 5 U.S.C. 552a, and the rules of this Part 146, which has had an adverse effect on the individual.

(b) The petition to the Commission shall be in writing and shall (1) state in what manner it is claimed the Commission or any Commission employee has failed or refused to comply with provisions of the Privacy Act or of the rules contained in this Part 146, and (2) set forth the corrective action the petitioner wishes the Commission to take. The petitioner may, if he wishes, state such facts and cite such legal or other authorities as he considers appropriate.

(c) The petition should be directed to the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, N.W., Washington, D.C. 20036.

(d) The Commission will make a determination of any petition filed pursuant to this § 146.9 within thirty days (excluding Saturdays, Sundays and legal public holidays) after receipt by the Privacy Unit of the petition, unless for good cause shown, the Commission extends the 30-day period. If a petition is denied, the Commission will notify the petitioner in writing and state the reasons therefor.

(e) Where the petition is made for review of a denial of a request for amendment made pursuant to § 146.8, the following additional procedures shall apply:

(1) If upon review the Commission grants the petition to amend the record, notice of the correction and its substance shall be given to each person or agency to whom the record had previously been disclosed, as shown on the record of disclosures maintained in accordance with § 146.6(c) of these rules.

(2) If upon review the initial denial of the request for amendment is upheld in whole or in part, the individual shall be notified of the provisions for judicial review of that determination which are set forth in Section 552a(g)(1)(A) and (2)(A), of Title 5 of the United States Code and the provisions for disputed records set forth in subparagraph (e)(3) of this § 146.7.

(3) If after review the Commission has declined to amend the records as the individual has requested, the individual may file with the Privacy Unit a concise statement setting forth why he disagrees with the Commission's denial of his request. Any subsequent disclosure containing information about which a

statement of disagreement has been filed shall clearly note the portion which is disputed, and include a copy of the individual's statement. The Commission may also include a copy of a concise statement explaining its reasons for not making the amendments requested.

#### § 146.10 Information supplied by the Commission when collecting information from an individual.

The Commission will inform each individual whom it asks to supply information, on the form which it uses to collect the information or on a separate form that can be retained by the individual of—

(a) The authority (whether granted by statute, or by executive order of the President) which authorizes the solicitation of the information and whether disclosure of such information is mandatory or voluntary;

(b) The principal purpose or purposes for which the information is intended to be used;

(c) The routine uses which may be made of the information, as published in the FEDERAL REGISTER; and

(d) The effects on him, if any, of not providing all or any part of the requested information.

#### § 146.11 Public notice of records systems.

(a) The Commission will publish in the FEDERAL REGISTER at least annually a notice of existence and character of each of its systems of records, which notice shall include—

(1) The name and location of the system;

(2) The categories of individuals on whom records are maintained in the system;

(3) The categories of records maintained in the system;

(4) Each routine use of the records contained in the system, including the categories of users and the purpose of such use;

(5) The policies and practices of the Commission regarding storage, retrievability, access controls, retention, and disposal of the records;

(6) The title and business address of the Commission official who is responsible for the system of records;

(7) The procedures whereby an individual can be notified at his request if the system of records contains a record pertaining to him;

(8) The procedures whereby an individual can be notified at his request how he can gain access to any record pertaining to him contained in the system of records, and how he can contest its contents; and

(9) The categories of sources of records in the system.

(b) Copies of the notices as printed in the FEDERAL REGISTER will be available in each office of the Commission. Locations of Commission offices are listed in § 145.6. Mail requests should be directed to the Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, N.W., Washington, D.C. 20036. The first copy will be furnished free of charge. A charge will be made for each additional copy.

#### § 146.12 Exemptions.

(a) Investigatory materials compiled for law enforcement purposes are exempt from portions of the Privacy Act of 1974 and of these rules as set forth in paragraph (c) of this section, on the basis and to the extent that individual access to these files could impair the effectiveness and orderly conduct of the Commission's regulatory and enforcement program. Materials exempted under this paragraph are contained in the system of records entitled "Exempted Investigatory Records." Notwithstanding the foregoing, however, no record which has served as a basis for denying an individual a right, privilege, or benefit to which he would otherwise be eligible, shall be maintained in this system, unless the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to the effective date of this section, under an implied promise that the identity of the source would be held in confidence. For records of this type, if practicable, material identifying the confidential source shall be extracted or summarized in a manner which protects the source and the summary or extract shall be maintained in a comparable non-exempted system of records.

(b) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for employment with the Commission are exempt from portions of the Privacy Act of 1974 and of these rules as set forth in paragraph (c) of this section, to the extent that it identifies a confidential source. This is done in order to encourage persons from whom information is sought to provide information to the Commission which, absent assurances of confidentiality, they would be unwilling to give. However, if practicable, material identifying a confidential source shall be extracted or summarized in a manner which protects the source and the summary or extract shall be maintained in a non-exempt system containing the same category of record. Materials exempted under this paragraph are included in the system of records entitled "Exempted Employee Background Investigation Material."

(c) The systems set forth in paragraphs (a) and (b) of this section are hereby exempted from the provisions of Sections 552a (c), (3) (d), (e) (1), (e) (4)(G), (e) (4)(H), (e) (4)(I) and (f) of Title 5 of the United States Code (the Privacy Act of 1974), and are also exempted from the following Sections of these rules: § 146.3 [requests for information and for access]; § 146.5 [access to records]; § 146.6(d) [accounting of disclosures to be made available to the individual]; § 146.11(a)(7), (8), (9) [content of the system notice]; and § 146.7(a) [relevancy of records].

#### APPENDIX A—FEES FOR COPIES OF RECORDS REQUESTED UNDER THE PRIVACY ACT OF 1974

a. The following schedule of fees shall apply to copies of records requested by individuals pursuant to the Privacy Act of 1974, 5 U.S.C. 552a and § 146.5(f).

(1) No fee shall be charged for copies of documents if the number of pages requested by that individual totals less than 10. This limit applies to the total requests under this section during any 180-day period.

(2) For requests for copies of documents in excess of 10 pages the charge will be \$0.10 per page.

(3) For materials other than paper records, the direct cost of the materials shall be charged, but person making the request shall be notified of the amount of the charge and shall give specific approval prior to the preparation of copies.

(4) The Commission may, upon application by the individual, furnish any records without charge or at a reduced rate, if it determines that such waiver or reduction of fee is in the public interest.

b. Requests for copies of documents should be addressed to Privacy Unit, Commodity Futures Trading Commission, 1120 Connecticut Avenue, N.W., Washington, D.C. 20036, or may be made to the member of the Commission's staff through whom arrangements for access were made.

c. Payment must be made by check or money order payable to the Treasury of the United States. No employee of the Commission is authorized to accept payment of fees in cash.

d. Advance payment of all or part of the fee may be required at the discretion of the Commission. Generally, advance payment will not be required where the anticipated fee is less than \$25.

The foregoing rules shall be effective on September 27, 1975, the effective date of the Privacy Act. The publication of these rules less than 30 days before their effective date is necessary to prevent a lapse between the effective date of the Act and the rules. The shortened notice period will not prejudice persons affected by these rules.

Issued in Washington, D.C. on August 28, 1975.

WILLIAM T. BAGLEY,  
Chairman, Commodity Futures  
Trading Commission.

# COMMUNITY SERVICES ADMINISTRATION PRIVACY ACT OF 1974

## Notice of Systems of Records

Notice is hereby given that the Community Services Administration (formerly the Office of Economic Opportunity), in accordance with 5 U.S.C. 552a (e) (4) and (11), Section 3 of the Privacy Act of 1974 (Pub. L. 93-579), proposes to adopt the notice of systems of records set forth below. Although the Privacy Act requires only publication for comment of that portion of a notice which describes the routine uses of the particular systems of records, the Community Services Administration (CSA) invites public comment on all parts of the notice. Comments should be submitted on or before September 10, 1975 to the Privacy Act Officer, Community Services Administration, Management and Systems Staff, 1200 19th Street NW., Washington, D.C. 20506.

This notice does not include detailed information on certain systems of records for which other Federal agencies have assumed responsibility for publishing a Government-wide notice. The primary example is the publication of systems of records pertaining to Federal employee personnel by the United States Civil Service Commission. The Community Services Administration lists all such known notices and publishing agencies in Appendix B to the proposed regulations published in the FEDERAL REGISTER.

**AUTHORITY:** 5 U.S.C. 552a

**Effective date:** This notice shall be effective September 27, 1975.

**Dated:** August 25, 1975.

BERT A. GALLEGOS,  
Director.

## PREFATORY STATEMENT OF GENERAL ROUTINE USES FOR THE COMMUNITY SERVICES ADMINISTRATION SYSTEMS OF RECORDS

The following routine uses apply to and are incorporated by reference into each system of records set forth below:

(1) In the event that records in this system of records indicate a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by statute or by regulation, rule or order issued pursuant thereto, the records may be referred, as

## NOTICES

a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto. Furthermore, presentation of evidence and disclosure to counsel for litigants before any court, magistrate, or administrative tribunal, or in the normal process of discovery attendant to such litigation or procedures shall constitute a routine use of records in this system of records.

(2) Records from this system of records may be disclosed as a "routine use" to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

(3) Records from this system of records may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

(4) A record from this system of records may be disclosed, as a routine use, to a member of Congress seeking information concerning the individual, but only when the individual is a constituent of the member and has requested assistance from the member with respect to the subject matter of the record.

## GEOGRAPHICAL GUIDANCE FOR ACCESSING SYSTEMS OF RECORDS

Many CSA systems of records are maintained wholly or partially in the CSA Regional Offices. To facilitate access to such records, a listing of the CSA Regional Offices, the states served thereby, their addresses and telephone numbers are provided:

### REGION I

Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont, John F. Kennedy Federal Building, Boston, Massachusetts 02203 (617) 223-4025.

### REGION II

New Jersey, New York, Puerto Rico, Virgin Islands. 26 Federal Plaza, 32nd Floor, New York, New York 10007, (212) 264-1900.

### REGION III

Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, West Virginia. Gateway Building, 3535 Market Street, Philadelphia, Pennsylvania 19104 (215) 597-1000.

### REGION IV

Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee. 730 Peachtree Street NE., Atlanta, Georgia 30308 (404) 526-3172.

### REGION V

Illinois, Indiana, Michigan, Minnesota, Ohio, Wisconsin. 300 South Wacker Drive, 24th Floor, Chicago, Illinois 60606 (312) 353-5987.

### REGION VI

Arkansas, Louisiana, New Mexico, Oklahoma, Texas. 1200 Main Street, Dallas, Texas 75202 (214) 749-1301.

### REGION VII

Iowa, Kansas, Missouri, Nebraska. 911 Walnut Street, Kansas City, Missouri 64106 (816) 374-3364.

### REGION VIII

Colorado, Montana, North Dakota, South Dakota, Utah, Wyoming. Federal Building, 1961 Stout Street, Denver, Colorado 80202 (303) 837-4767.

### REGION IX

Arizona, California, Guam, Hawaii, Nevada, Pacific Trust Territories. 100 McAllister Street, San Francisco, California 94102 (415) 556-3706.

### REGION X

Alaska, Idaho, Oregon, Washington. Arcade Plaza Building, 1321 Second Avenue, Seattle, Washington 98101 (206) 442-4910.

## INDEX OF COMMUNITY SERVICES ADMINISTRATION

### SYSTEMS OF RECORDS UNDER THE PRIVACY ACT OF 1974

- CSA 1 Employee Applicants for Upward Mobility Program.
- CSA 2 Employee Attendance, Leave & Payroll Records.
- CSA 3 Employee Employment History.
- CSA 4 Employee Suggestion System.
- CSA 5 Employee of CSA and Other Government Agencies & Invited Travelers' Travel Records.
- CSA 6 Freedom of Information Act Requests for Records.
- CSA 7 Inspection Reports on Grantees, Contractors and CSA Employees.

## CSA—1

**System name:** Employee applicants for upward mobility program—CSA

**System location:** See system manager title and address below for location.

**Categories of individuals covered by the system:** CSA employees making application for crossover positions.

**Categories of records in the system:** Applications include, name, address, social security number, job title, grade, service time, sex, organizational element, present supervisor, work experience, education, training, awards, association memberships, co-worker evaluation and job evaluation.

**Authority for maintenance of the system:** FPM Chapter 410, EEO Act of 1972.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** See routine use paragraphs in Prefatory Statement.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** Forms in file folders.

**Retrievability:** Filed by name.

**Safeguards:** Locked metal file cabinets accessible by authorized personnel only.

**Retention and disposal:** Maintained for one year or until employee resigns, transfers or retires, then destroyed.

**System manager(s) and address:** Training Officer, Manpower Management and Personnel Division, Community Services Administration, 1200 19th Street, N.W., Washington, D.C. 20506

**Notification procedure:** Information may be obtained from the Privacy Act Reviewing Officer at the appropriate address listed in Appendix A of the CSA rules and regulations published in proposed form at 40 F.R. 38165, August 27, 1975.

**Record access procedures:** Requests and inquiries from individuals should be addressed to the system manager at the appropriate address and under the position title listed above.

**Contesting record procedures:** The CSA's rules for access to records and for contesting content and appealing initial determinations by the individual concerned appear in the CSA rules and regulations published in proposed form at 40 F.R. 38165, August 27, 1975.

**Record source categories:** Subject individuals, supervisors and co-workers.

## CSA—2

**System name:** Employee Attendance, Leave & Payroll Records—CSA

**System location:** See System Manager title and address below for location. (Magnetic tapes of this system of records are located at the CSA Data Processing Center, 7981 Eastern Avenue, Silver Spring, Maryland, 20910; and a currently updated record (one month) for emergency backup at the General Services Administration, Region 3, 7th and D Streets, N. W., Washington, D.C.)

**Categories of individuals covered by the system:** Current and past employees of the Community Services Administration and its predecessor agency, the Office of Economic Opportunity.

**Categories of records in the system:** Individual employee pay data and leave records which include a pay folder containing copies of Allotment Forms, Health Benefit Forms, SF-50 Personnel Action forms, Payroll Listing and Tax Deductions. The system also produces Master Earnings History Files and numerous reports such as Bond Listings, Tax Withholdings, W-2 Listings with addresses, etc. The records contain name, social security number and employee number, grade, step, and salary; organization (code), retirement or FICA data as applicable; Federal, state, and local tax deductions, as appropriate; IRS tax lien data; savings bond and charity deductions; regular and optional Government life insurance deduction(s), health jury duty data; military leave data; pay differentials; union dues deductions; allotments, by type and amount; financial institution code and employee account number; leave status and leave data of all types (including annual, compensatory, jury duty, maternity, military, retirement disability, sick, transferred, and without pay); time and attendance records, including number of regular, overtime, holiday, Sunday, and other hours worked; pay period number and ending date; cost of living allowances; mailing address; co-owner and/or beneficiary of bonds,

marital status and number of dependents; and "Notification of Personnel Action." The individual records listed herein are included only as pertinent or applicable to the individual employee.

**Authority for maintenance of the system:** Title 6, GAO Policy and Procedures Manual, pursuant to 5 U.S.C. and sections 112(a) and 113 of the Budget and Accounting Procedures Act of 1950.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Transmittal of data to U.S. Treasury to effect issuance of paychecks to employee and distribution of pay according to employee directions for savings bonds, allotments, financial institutions and other authorized purposes. Reporting of: tax withholdings to Internal Revenue Service and appropriate State and local taxing authorities; FICA deductions to the Social Security Administration; dues deductions to the employee union; withholdings for health insurance to the insurance carriers and the U.S. Civil Service Commission; charity contribution deductions to agents of charitable institutions; annual W-2 statements to taxing authorities and the individual.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** Both manual and computer-produced paper copy, and magnetic tape.

**Retrievability:** By name of employee and/or social security number.

**Safeguards:** Physical, technical, and administrative security is maintained, with all storage equipment and/or rooms locked when not in use. Admittance, when open, is restricted to authorized personnel only. All payroll personnel and computer operators and programmers are instructed and cautioned on the confidentiality of the records.

**Retention and disposal:** Retained on site until after GAO audit, then disposed of, or transferred to Federal Records Storage Centers in accordance with the fiscal records program approval by GAO, as appropriate, or General Record Schedules of GSA.

**System manager(s) and address:** Chief, Financial Policies, Procedures & Payroll Division, Office of the Controller, Community Services Administration, 1200 19th Street, N. W., Washington, D. C. 20506

**Notification procedure:** Information may be obtained from the Privacy Act Reviewing Officer at the appropriate address listed in Appendix A of the CSA rules and regulations published in proposed form at 40 F.R. 38165, August 27, 1975.

**Record access procedures:** Requests and inquiries from individuals should be addressed to the system manager at the appropriate address and under the position title listed above.

**Contesting record procedures:** The CSA's rules for access to records and for contesting content and appealing initial determinations by the individual concerned appear in the CSA rules and regulations published in proposed form at 40 F.R. 38165, August 27, 1975.

**Record source categories:** Subject individuals, supervisor, timekeepers, official personnel records and IRS.

## CSA—3

**System name:** Employee employment history—CSA

**System location:** See System Manager title and address below for location. (Magnetic tapes of this system of records are located at the CSA Data Processing Center, 7981 Eastern Avenue, Silver Spring, Maryland 20910; and a currently updated record (one month) for emergency backup at the General Services Administration, Region 3, 7th and D Streets N.W., Washington, D.C.)

**Categories of individuals covered by the system:** Current and past employees of the Community Services Administration and its predecessor agency, the Office of Economic Opportunity.

**Categories of records in the system:** Data relating to the employment of each CSA employee including name, social security number, position title, organizational element, veterans preference, entrance on duty date, pay plan and occupational code, last promotion date, tour of duty, total federal service date, salary grade and step, retirement system, within-grade due date, actual salary, position type, physical handicap, educational level, appointment status, college major, birth date, and related data necessary to maintain the accuracy of the file.

**Authority for maintenance of the system:** Title 5, U.S.C. Sections 1302, 2951, 4118, 4308, and 4506.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** See routine use paragraphs in Prefatory Statement.

lations published in proposed form at 40 F.R. 38165, August 27, 1975.

**Record source categories:** Subject individual and evaluators of

**Categories of records in the system:** Name, address, and telephone number of requester; description or identification of records requested, furnished and/or denied; dates of request and response; amount of fees paid, reduced or waived, if any; payment

and CSA officials and employees engaged in processing or making determinations on FOIA requests.

## CSA—7

**System name:** Employee employment history—CSA

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** See routine use paragraphs in Prefatory Statement.

To provide information to a prospective employer of a Government employee.

To provide statistical and background information to Civil Service Commission.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** System is maintained on magnetic tape.

**Retrievability:** By social security number/name.

**Safeguards:** Physical, technical, and administrative security is maintained, with all storage equipment and/or rooms locked when not in use. Admittance when open, is restricted to authorized personnel only. All personnel and computer operators and programmers are instructed and cautioned on the confidentiality of the records.

**Retention and disposal:** Retained on site, then disposed of, or transferred to Federal Records Storage Centers, as appropriate, in accordance with General Record Schedules of GSA.

**System manager(s) and address:** Chief, Manpower Management and Personnel Division, Community Services Administration, 1200 19th Street, N.W., Washington, D.C. 20506.

**Notification procedure:** Information may be obtained from the Privacy Act Reviewing Officer at the appropriate address listed in Appendix A of the CSA rules and regulations published in proposed form at 40 F.R. 38165, August 27, 1975.

**Record access procedures:** Requests and inquiries from individuals should be addressed to the system manager at the appropriate address and under the position title listed above.

**Contesting record procedures:** The CSA's rules for access to records and for contesting content and appealing initial determinations by the individual concerned appear in the CSA rules and regulations published in proposed form at 40 F.R. 38165, August 27, 1975.

**Record source categories:** Subject individuals, supervisors and official personnel records.

#### CSA—4

**System name:** Employee Suggestion System—CSA

**System location:** See system manager title and address below for location.

**Categories of individuals covered by the system:** Current and past employees of CSA.

**Categories of records in the system:** Name, position title, grade, social security number, organization element, appraisal of suggestion and supervisory evaluator's name.

**Authority for maintenance of the system:** FPM Chapter 451-7.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** See routine use paragraphs in Prefatory Statement.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** Forms and description of suggestion in file folders.

**Retrievability:** File is retrieved by individual's name.

**Safeguards:** Locked metal file cabinets accessible by authorized personnel only.

**Retention and disposal:** Maintained two years after close of case and then destroyed.

**System manager(s) and address:** Chief, Manpower Management and Personnel Division, Community Services Administration, 1200 19th Street, N.W., Washington, D.C., 20506, and at each CSA Regional Office the Personnel Officer, address above, under "Geographical Guidance for Accessing Systems of Records."

**Notification procedure:** Information may be obtained from the Privacy Act Reviewing Officer at the appropriate address listed in Appendix A of the CSA rules and regulations published in proposed form at 40 F.R. 38165, August 27, 1975.

**Record access procedures:** Requests and inquiries from individuals should be addressed to the system manager at the appropriate address under the position title listed above.

**Contesting record procedures:** The CSA's rules for access to records and for contesting content and appealing initial determinations by the individual concerned appear in the CSA rules and regulations published in proposed form at 40 F.R. 38165, August 27, 1975.

lations published in proposed form at 40 F.R. 38165, August 27, 1975.

**Record source categories:** Subject individual and evaluators of suggestion.

#### CSA—5

**System name:** Employees of CSA and Other Government Agencies & Invited Travelers' Travel Records—CSA

**System location:** Paper records, see System Manager Title and address below. Supporting records are maintained in other offices at Headquarters and each of the Regional Offices listed under Geographical Guidance above. Magnetic tape records are at the CSA Data Processing Center, 7981 Eastern Avenue, Silver Spring, Maryland, 20910.

**Categories of individuals covered by the system:** Employees of CSA, members of CSA Advisory Committees, other government agency employees and private persons traveling under invitation on official program matters.

**Categories of records in the system:** Name, address, social security number; destination, itinerary, mode and purpose of travel; dates; expenses including amounts advanced (if any), amounts claimed and amounts reimbursed; travel orders, travel vouchers and receipts.

**Authority for maintenance of the system:** Chapter 57, Subchapter 1 of U.S.C. 5, Budget & Accounting Act of 1921, Accounting & Auditing Act of 1950, and Federal Claim Collection Act of 1966.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Transmittal to U.S. Treasury for payment, to GAO for audit support of Accountable Offices and internally to support disbursement of Federal funds.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** Manual and computer-produced paper copy, and magnetic tape.

**Retrievability:** Filed by name, social security number or travel order number.

**Safeguards:** Physical, technical, and administrative security is maintained, with all storage equipment and/or rooms locked when not in use. Admittance, when open, is restricted to authorized personnel only. All processing personnel, including computer operators and programmers are instructed and cautioned on the confidentiality of the records.

**Retention and disposal:** Retained according to GSA Federal Travel Regulations and on site until after GAO audit, then disposed of, or transferred to Federal Records Storage in accordance with the fiscal records program approval by GAO, as appropriate, or General Record Schedules of GSA.

**System manager(s) and address:** Chief, Finance & Grants Management Division, Office of the Controller, Community Services Administration, 1200 19th Street, N.W., Room 320, Washington, D.C. 20506.

**Notification procedure:** Information may be obtained from the Privacy Act Reviewing Officer at the appropriate address listed in Appendix A of the CSA rules and regulations published in proposed form at 40 F.R. 38165, August 27, 1975.

**Record access procedures:** Requests and inquiries from individuals should be addressed to the system manager at the appropriate address and under the position title listed above.

**Contesting record procedures:** The CSA's rules for access to records and for contesting content and appealing initial determinations by the individual concerned appear in the CSA rules and regulations published in proposed form at 40 F.R. 38165, August 27, 1975.

**Record source categories:** Subject individuals, supervisors, and finance or accounting office standards references.

#### CSA—6

**System name:** Freedom of Information Act Requests for Records—CSA

**System location:** See System Manager's Title and location below. Supporting records are maintained in other offices at Headquarters and the Regional Offices.

**Categories of individuals covered by the system:** Individuals who have requested records from CSA under the provisions of the Freedom of Information Act, as amended.

**Categories of records in the system:** Name, address, and telephone number of requester; description or identification of records requested, furnished and/or denied; dates of request and response; amount of fees paid, reduced or waived, if any; payment delinquencies, if any; appeals of denials, final determinations; and names and titles of denying officials and determining officials.

**Authority for maintenance of the system:** Freedom of Information Act, as amended.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Annual Report to the Congress under section (d) of the Freedom of Information Act, as amended, and available for public inspection at all times. Also see routine use paragraphs of the Prefatory Statement above.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** Correspondence in file folders, manual chronological log, suspense control card file and accounts receivable record.

**Retrievability:** Filed by requester name and/or chronological dates of action steps.

**Safeguards:** Records are retained in locked furniture in secured rooms with access limited to those whose official duties require access, and under supervisory controls as defined in the CSA Rules and Regulations published in the FEDERAL REGISTER.

**Retention and disposal:** Retained on site, then disposed of, or transferred to Federal Records Storage Center, as appropriate, in accordance with General Record Schedules of GSA.

**System manager(s) and address:** FOIA Records Officer, Office of Administration, Community Services Administration, 1200 19th Street, N.W., Washington, D.C., 20506.

**Notification procedure:** Information may be obtained from the Privacy Act Reviewing Officer at the appropriate address listed in Appendix A of the CSA rules and regulations published in proposed form at 40 F.R. 38165, August 27, 1975.

**Record access procedures:** Requests and inquiries from individuals should be addressed to the system manager at the appropriate address and under the position title listed above.

**Contesting record procedures:** The CSA's rules for access to records and for contesting content and appealing initial determinations by the individual concerned appear in the CSA rules and regulations published in proposed form at 40 F.R. 38165, August 27, 1975.

**Record source categories:** Requesters for information under FOIA

and CSA officials and employees engaged in processing or making determinations on FOIA requests.

#### CSA—7

**System name:** Inspection reports on grantees, contractors, and CSA employees—CSA

**System location:** See system manager title and address below for location.

**Categories of individuals covered by the system:** Inspection reports of investigations in complaints alleging misfeasance, malfeasance and nonfeasance by employees of CSA, grantees, contractors and consultants.

**Categories of records in the system:** Name, address, date and place of birth, citizenship, physical characteristics, employment history, financial records, education, arrest records, Federal employee's relatives, names of spouses, relatives, references, personal associates, activities and conflict of interest.

**Authority for maintenance of the system:** Title 18 U.S.C. including sections 201, 287, 508, 641, 1001, and 1913 and sections 602, 603, and 626 of the Community Services Act of 1974 (42 U.S.C. 2942, 2943, and 2971f).

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** See routine use paragraphs in Prefatory Statement.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** Paper records in file folders.

**Retrievability:** Indexed by Grantees, Regional Officer, and/or individual respondents against whom complaints have been filed.

**Safeguards:** Padlock, bar type filing cabinets and used only by authorized screened personnel.

**Retention and disposal:** Retired to Federal Records Center 3 years after close of case.

**System manager(s) and address:** Chief, Inspection Division, Office of General Counsel, Community Services Administration, 1200 19th Street, N.W., Washington, D.C. 20506.

**Systems exempted from certain provisions of the act:** System exempted from certain provision of the Act: Pursuant to 5 U.S.C. 552a (k) (2), this system is exempted from 5 U.S.C. 552a (c) (3), (d), (e) (1), (e) (4) (g), (h), and (f). The exemption of this information is necessary to facilitate the enforcement of the Community Services Act of 1974 and other relevant statutes, and to avoid revealing and endangering sources of information.

**MARINE MAMMAL COMMISSION**  
**[50 CFR Part 501]**  
**PRIVACY ACT OF 1974**  
**Proposed Implementation**

Notice is hereby given that the Marine Mammal Commission (the "Commission"), pursuant to Section 3 of the Privacy Act of 1974 (the "Act"), 5 U.S.C. 552(a) (e) (4) and (e) (11), proposes to adopt the proposed rules set forth below to establish procedures for inquiries concerning access to, and correction or amendment of records maintained by the Commission. Interested persons may submit any written comments regarding this Notice to the Executive Director, Marine Mammal Commission, 1625 I Street, N.W., Room 307, Washington, D.C. 20006, for consideration by the Commission before a final notice is published. Submissions received on or before September 27, 1975 will be considered by the Commission in formulating the final notice. All submissions will be available for public inspection at the Commission offices during normal business hours.

JOHN R. TWISS, JR.,  
 Executive Director.

August 27, 1975.

It is proposed to amend 50 CFR by adding a new chapter V, Marine Mammal Commission, consisting of the following Part 501:

**PART 501—IMPLEMENTATION OF THE**  
**PRIVACY ACT OF 1974**

- Sec.  
 501.1 Purpose and scope.  
 501.2 Definitions.  
 501.3 Procedure for responding to requests regarding the existence of records pertaining to an individual.  
 501.4 Requests for access—times, places and requirements for identification of individuals.  
 501.5 Disclosure of requested information.  
 501.6 Requests for correction or amendment of a record.  
 501.7 Agency review of requests for amendment or correction of a record.  
 501.8 Appeal of initial denial of a request for amendment or correction.

AUTHORITY: Sec. 3, Privacy Act of 1974 (5 U.S.C. 552a(e) (4) and (11)).

**§ 501.1 Purpose and scope.**

(a) **Purpose.** The purpose of these rules is to fulfill the responsibilities of the Marine Mammal Commission (the "Commission") under Section 3 of the Privacy Act of 1974, 5 U.S.C. 552a(f) (the "Act") by establishing procedures whereby an individual will be notified if any system of records maintained by the Commission contains a record pertaining to him or her; by defining the times and places at which records will be made available and the identification requirements which must be met by any individual requesting access to them; by establishing procedures for disclosure to an individual, on request, of any record pertaining to him or her; and by establishing procedures for processing, reviewing, and making a final determination on requests of individuals to correct or amend a record pertaining to him or her, including a provision for administrative appeal of initial adverse determinations on such requests. These rules are promulgated with particular attention to the purposes

and goals of the Act, and in accordance therewith provide for relative ease of access to records pertaining to an individual, and for maintenance by the Commission of only those records which are current, accurate, necessary, relevant and complete with respect to the purposes for which they were collected.

(b) **Scope.** These rules apply only to "records" contained in "systems of records," defined by the Act as follows:

The term "record" means any item, collection, or grouping of information about an individual that is maintained by an agency, including, but not limited to, his education, financial transactions, medical history, and criminal or employment history and that contains his name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a finger or voice print or a photograph.

The term "system of records" means a group of any record under the control of any agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual.

Notices with respect to the systems maintained by the Commission have been published in the FEDERAL REGISTER, as required by the Act. These rules pertain only to the systems of records disclosed in such notices, and to any systems that may become the subject of a notice at any time in the future.

Nothing in these rules shall be construed as pertaining to requests made under the Freedom of Information Act, 5 U.S.C. § 552.

**§ 501.2 Definitions.**

(a) As used in this Part:

(1) The term "Act" means the Privacy Act of 1974, 5 U.S.C. 552a.

(2) The term "Commission" means the Marine Mammal Commission.

(3) The term "Director" means the Executive Director of the Marine Mammal Commission.

(4) The term "individual" means any citizen of the United States or an alien lawfully admitted for permanent residence into the United States.

(5) The term "Privacy Officer" means an individual designated by the Director to receive all requests regarding the existence of records, requests for access and requests for correction or amendments; to review and make initial determinations regarding all such requests; and to provide assistance to any individual wishing to exercise his or her rights under the Act.

(b) Other terms shall be used in this part in accordance with the definitions contained in Section 3 of the Privacy Act of 1974, 5 U.S.C. 552a(a).

**§ 501.3 Procedure for responding to requests regarding the existence of records pertaining to an individual.**

Any individual may submit a request to be notified whether a system of records, with respect to which the Commission has published a notice in the FEDERAL REGISTER, contains a record pertaining to him or her. Requests may be made in writing to the Privacy Officer or by appearing in person at the Commission offices located at 1625 I Street, N.W., Room 307, Washington, D.C. 20006 between the hours of 9:00 a.m. and 5:00 p.m. on any

working day. Systems of records that are the subject of a request should be identified by reference to the system name designated in the Notice of Systems of Records published in the FEDERAL REGISTER. In the event a system name is not known to the individual, a general request will suffice if it indicates reasons for the belief that a record pertaining to the named individual is maintained by the Commission. Receipt of inquiries submitted by mail will be acknowledged within 10 days of receipt (excluding Saturdays, Sundays, and legal public holidays) unless a response can also be prepared and forwarded to the individual within that time.

**§ 501.4 Requests for access—times, places and requirements for identification of individuals.**

Requests for access to a system of records pertaining to any individual may be made by that individual by mail addressed to the Privacy Officer, or by submitting a written request in person at the Commission offices located at 1625 I Street, N.W., Room 307, Washington, D.C. 20006, between the hours of 9:00 a.m. and 5:00 p.m. on any working day. An individual appearing in person at the Commission offices will be granted immediate access to any records to which that individual is entitled under the Act upon satisfactory proof of identity by means of a document bearing the individual's photograph or signature. For requests made by mail, identification of the individual shall be adequate if established by means of submitting a certificate of a notary public, or equivalent officer empowered to administer oaths, substantially in accord with the following:

City of \_\_\_\_\_  
 County of \_\_\_\_\_ ss \_\_\_\_\_  
 (name of individual)  
 who affixed (his)(her) signature below in my presence, came before me, a \_\_\_\_\_  
 (title)

In the aforesaid County and State, this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_, and established (his)(her) identity to my satisfaction. My Commission expires \_\_\_\_\_

The Privacy Officer shall determine the adequacy of any proof of identity offered by an individual.

**§ 501.5 Disclosure of requested information.**

(a) Upon request and satisfactory proof of identity, an individual appearing at the Commission offices shall be given immediate access to and permission to review any record, contained in a system of records, pertaining to him or her, shall be allowed to have a person of his/her choosing accompany him/her, and shall be given a copy of all or any portion of the record. The individual to which access is granted shall be required to sign a written statement authorizing the presence of the person who accompanies him or her, and authorizing discussion of his or her record in the presence of the accompanying person.

(b) Requests made by mail to the Privacy Officer at the Commission offices will be acknowledged within 10 days from date of receipt (excluding Saturdays, Sundays, and legal public holidays). This

acknowledgment shall provide the individual with information regarding whether access to the record will be granted and, if access is granted, a description of the records, documents or other information that will be disclosed and copies of such records.

(c) If the Privacy Officer initially determines to deny access to all or any portion of a record, notice of denial shall be given to the individual in writing, within a reasonable time, and shall include the following:

(1) The precise record to which access is being denied;

(2) The reasons for denial, including a citation to the appropriate provisions of the Act and of these Rules;

(3) A statement that the denial may be appealed to the Director;

(4) A statement of what steps must be taken to perfect an appeal to the Director; and,

(5) A statement that the individual has a right to judicial review under 5 U.S.C. 552a(g) (1) of any final denial issued by the Director.

(d) Administrative appeal of a final denial, in whole or in part, of any request for access to a record, shall be available. An individual may appeal by submitting to the Director a written request for reconsideration stating therein specific reasons for reversal, which address directly the reasons for denial, stated in the initial notice of denial. If access is denied on appeal, a final notice of denial shall be sent to the individual within a reasonable time, and shall state with particularity the grounds for rejecting all reasons for reversal submitted by the individual. The denial shall then be deemed final for purposes of obtaining judicial review.

**§ 501.6 Requests for correction or amendment of a record.**

(a) Any individual may request the correction or amendment of a record pertaining to him or her in writing addressed to the Privacy Officer at the Commission offices. Verification of identity required for such requests shall be the same as that specified in Section 401.4 above with respect to requests for access. Records sought to be amended must be identified with as much specificity as is practicable under the circumstances of the request, and at a minimum, should refer to the system name designated in the Notice of System Records published in the FEDERAL REGISTER, the type of record in which the information thought to be improperly maintained or incorrect is contained, and the precise information that is the subject of the request (for example, system name, description of record, paragraph, sentence, line, words). Assistance in identifying a record, and in otherwise preparing a request, may be obtained by contacting the Privacy Officer at the Commission offices.

(b) A request should, in addition to identifying the individual and the record sought to be amended or corrected, include:

(1) The specific wording or other information to be deleted, if any;

(2) The specific wording or other information to be inserted, if any, and the exact place in the record at which it is to be inserted, and,

(3) A statement of the basis for the requested amendment or correction (e.g., that the record is inaccurate, unnecessary, irrelevant, untimely, or incomplete), together with supporting documents, if any, which substantiate the statement.

**§ 501.7 Agency review of requests for amendment or correction of a record.**

(a) Where possible, each request for amendment or correction shall be reviewed, and a determination on the request made, by the Privacy Officer within 10 days of receipt (excluding Saturdays, Sundays and holidays). Requests shall be acknowledged within that period where insufficient information has been provided to enable action to be taken. An acknowledgment shall inform the individual making the request of the estimated time within which a disposition of the request is expected to be made, and shall prescribe such further information as may be necessary to process the request. The request shall be granted, or an initial decision to deny shall be made, within ten days of receipt of all information specified in the acknowledgment (excluding Saturdays, Sundays and holidays).

(b) Within a reasonable time after arriving at a decision on a request, the Privacy Officer shall either:

(1) Make the requested amendment or correction, in whole or in part, and advise the individual in writing of such action; or,

(2) Advise the individual in writing that the request has been initially denied, in whole or in part, stating, with respect to those portions denied:

(a) The date of the denial;

(b) The reasons for the denial, including a citation to an appropriate section of the Act and these Rules; and,

(c) The right of the individual to prosecute an appeal and to obtain judicial review should a final denial result from the appeal.

(c) In reviewing a request for amendment or correction of a record, the Privacy Officer shall consider the following criteria:

(1) The sufficiency of the evidence submitted by the individual;

(2) The factual accuracy of the information sought to be amended or corrected;

(3) The relevance and necessity of the information sought to be amended or corrected in terms of the purposes for which it was collected;

(4) The timeliness and currency of the information sought to be amended or corrected in terms of the purposes for which it was collected;

(5) The completeness of the information sought to be amended or corrected in terms of the purposes for which it was collected;

(6) The degree of possibility that denial of the request could unfairly result in determinations adverse to the individual;

(7) The character of the record sought to be corrected or amended; and,

(8) The propriety and feasibility of complying with the specific means of correction or amendment requested by the individual.

If an amendment or correction is otherwise permissible under the Act and other relevant statutes, a request shall be denied only if the individual has failed to establish, by a preponderance of the evidence, the propriety of the amendment or correction in light of these criteria.

**§ 501.8 Appeal of initial denial of a request for amendment or correction.**

(a) The initial denial of a request for amendment or correction may be appealed by submitting to the Director, within thirty days after the date of such denial, the following appeal papers:

(1) A copy of the original request for amendment or correction;

(2) A copy of the initial denial; and,

(3) A precise statement of the reasons for the individual's belief that the denial is in error, referring specifically to the criteria contained in § 501.7(c) (1-8).

The appeal must be signed by the individual. While these papers normally will constitute the entire Record on Appeal, the Director may add additional information, from sources other than the individual, where necessary to facilitate a final determination. Any such additional information added to the record shall promptly be disclosed to the individual to the greatest extent possible, and an opportunity for comment thereon shall be afforded prior to the final determination.

(b) The Director shall issue a final determination on appeal within thirty days (excluding Saturdays, Sundays, and legal public holidays) from the date on which a completed Record on Appeal (including any additional information deemed necessary) is received. Review, and final determination by the Director, shall be based upon the criteria specified in § 501.7(c) (1-8).

(c) If the appeal is resolved favorably to the individual, the final determination shall specify the amendments or corrections to be made. Copies of the final determination shall be transmitted promptly to the individual and to the Privacy Officer. The Privacy Officer shall make the requested amendment or correction and advise the individual in writing of such action.

(d) If the appeal is denied, the final determination shall state, with particularity, the reasons for denial, including a citation to an appropriate section of the Act and of these Rules. The final determination shall be forwarded promptly to the individual, together with a notice which shall inform the individual of his or her right to submit to the Privacy Officer, for inclusion in the record, a concise statement of grounds for disagreement with the final determination. Receipt of any such statement shall be acknowledged by the Privacy Officer, and subsequent users of the record shall be provided copies of the statement. The notice shall also inform the individual of his or her right, under 5 U.S.C. 552a (g) (1), to obtain judicial review of the final determination.

**Categories of individuals covered by the system:** Commission employees.

**Categories of records in the system:** SF 1038. Application and account for advance of funds; Vendor register and vendor payment tape. Information is used by accounting technicians to maintain adequate financial information and by other officers and employees of GSA and the Commission who have a need for the record in the performance of their duties.

**Authority for maintenance of the system:** 31 U.S.C., generally; Section 206(5) of the Marine Mammal Protection Act of 1972, 16 U.S.C. 1406(5).

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Records also are released to GAO for audits; to the IRS for investigation; and to private attorneys, pursuant to a power of attorney.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** Paper and tape.

**Retrievability:** Manual and automated by name.

**Safeguards:** Stored in guarded building; released only to authorized personnel.

**Retention and disposal:** Disposition of records shall be in accordance with the HB GSA Records Maintenance and Disposition System (OAD P 1820.2).

**System manager(s) and address:** Executive Director, Marine Mammal Commission, 1625 I Street N.W., Washington, D.C. 20006, Room 307.

**Notification procedure:** See Commission access regulations in 50 CFR Part 401.3.

**Record access procedures:** See Commission access regulations in 50 CFR Parts 401.4, 401.5.

**Contesting record procedures:** See Commission regulations in 50 CFR Parts 401.6 through 401.8.

**Record source categories:** The subject individual; the Commission.

MMC—S

**System name:** Payroll records—MMC

**System location:** General Services Administration, Region 3 Of-

ice; copies held by the Commission (GSA holds records for Commission under contract.)

**Categories of individuals covered by the system:** Past and present Commission employees

**Categories of records in the system:** Varied payroll records, including, among other documents, time and attendance cards; payment vouchers; comprehensive listing of employees; health benefits records; requests for deductions; tax forms; W2 forms; overtime requests; leave data; retirement records. Records are used by Commission and GSA employees to maintain adequate payroll information for Commission employees and otherwise by Commission and GSA employees who have a need for the record in the performance of their duties.

**Authority for maintenance of the system:** 31 U.S.C., generally.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Records also are released to GAO for audits; to the Internal Revenue Service for investigation; and to private attorneys, pursuant to a power of attorney.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** Paper and microfilm

**Retrievability:** Social Security Number

**Safeguards:** Stored in guarded building; released only to authorized personnel.

**Retention and disposal:** Disposition of records shall be in accordance with HB GSA Records Maintenance and Disposition System (OAD P 1820.2).

**System manager(s) and address:** Executive Director, Marine Mammal Commission, 1625 I Street, N.W., Washington, D.C. 20006.

**Notification procedure:** See Commission access regulations, 50 CFR Part 401.3.

**Record access procedures:** See Commission access regulations in 50 CFR Parts 401.4, 401.5.

**Contesting record procedures:** See Commission regulations in 50 CFR Parts 401.6 through 401.8.

**Record source categories:** The subject individual; the Commission.

## reminders

**NOTE:** There were no items published after October 1, 1972, that are eligible for inclusion in the list of RULES GOING INTO EFFECT TODAY.

### Daily List of Public Laws

**NOTE:** No acts approved by the President were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

The following government agencies have submitted Privacy Act documents to the Office of the Federal Register for publication. These documents are available for public inspection at the Federal Register Office, 1100 L St. NW., Rm. 8401. They will be published according to the following schedule:

Agency	1975 Date of Issue
Dept. of Defense/Army, supplement to notices published Aug. 13.....	Sept. 9
Consumer Product Safety Commission, proposed rules.....	Sept. 9
Dept. of Labor, notices.....	Sept. 8
Treasury Dept., additional notices.....	Sept. 9
International Trade Commission.....	Sept. 9
National Security Council, notices.....	Sept. 9

\*Will be published as soon as possible but not yet scheduled.

**ATTENTION:** Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202-523-5284. For information on obtaining extra copies, please call 202-523-5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202-523-5022.

**federal register**

Phone 523-5240

Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20403, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

FEDERAL REGISTER, VOL. 40, NO. 173—FRIDAY, SEPTEMBER 5, 1975

## HIGHLIGHTS—Continued

### RAILROAD RETIREMENT BENEFITS

Railroad Retirement Board amendments regarding claimant appeals ..... 41084

### REGISTERED PESTICIDES

EPA announces Enforcement Policy Statement No. 2..... 41175

### AFFIRMATIVE ACTION

Labor/FCCO proposed plan for federally involved construction contractors in Washington, D.C. area; comments by 10-7-75 ..... 41149  
Labor/FCCO requests information on discrimination in Baltimore area construction industry, hearing 10-15-75 ..... 41206

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 16—Commercial Practices  
CHAPTER I—FEDERAL TRADE COMMISSION  
[Docket No. C-2686]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Amerada Hess Corp.  
Subpart—Interlocking directorates unlawfully: § 13.1106 Interlocking directorates unlawfully.  
(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45; sec. 8, 38 Stat. 732; 49 Stat. 717; 15 U.S.C. 19)

In the Matter of Amerada Hess Corp., a Corporation.

Consent order requiring a New York City energy company, among other things to cease permitting any individual to serve on its board of directors if such individual is or would be at the same time a director of Newmont Mining Corp. The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

ORDER

It is ordered, That Amerada Hess Corporation (Amerada), its successors and assigns, do forthwith cease and desist from permitting any individual to serve on its Board of Directors if such individual is or would be at the same time a director of Newmont Mining Corporation.

II. It is further ordered, That Amerada shall, within thirty (30) days after service of this Order, and annually for a period ending five (5) years thereafter, request from each member of its Board of Directors a written statement which discloses the name, business, and location of operations of each other corporation of which such member is also a director, exclusive of any corporation in which Amerada controls, directly or indirectly through subsidiaries, more than 50 percent of the voting stock; exclusive of any corporation which derives annual gross revenues of less than \$1,000,000 from the exploration, production and sale of natural gas and crude petroleum; and exclusive of any corporation not engaged in "commerce" as defined in Section 1 of the Clayton Act as amended or Section 4 of the Federal Trade Commission Act.

III. It is further ordered, That for a period ending five (5) years after service of this Order, Amerada shall, at least

<sup>1</sup> Copies of the Complaint, Decision and Order, filed with the original document.

thirty (30) days prior to any directors' meeting at which one or more directors will be elected or the mailing or proxy statements for any shareholder meeting at which one or more directors will be elected, request from each person who is being considered as a member of the Board of Directors but has not been a member of the Board of Directors during the previous year, a written statement which discloses the information described in Paragraph II.

IV. It is further ordered, That for a period ending five (5) years after service of this Order, Amerada shall not permit on its Board of Directors any person who fails to submit a written statement pursuant to Paragraphs II and III, or any person who is a director of another corporation named in response to the statements required pursuant to Paragraphs II and III when said statement reveals or when a reasonably diligent investigation would reveal to respondent that such other corporation is a competitor of Amerada by virtue of its business and location of operation in the exploration, production or sale of crude petroleum or natural gas. If compliance with Paragraphs I and IV requires any member of Amerada's Board of Directors to resign or to be removed from the Board of Directors of either Amerada or such other corporation, Amerada shall be allowed a reasonable period of time within which to take any legal or other steps which are necessary to secure compliance with this Order.

V. It is further ordered, That Amerada notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent which may affect compliance obligations arising out of this Order, such changes to include, but not be limited to, dissolution, assignment or sale resulting in the emergence of a successor corporation.

VI. It is further ordered, That respondent Amerada shall, within thirty (30) days after service upon it of this Order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this Order, and shall within sixty (60) days submit copies of those lists provided by all current directors of Amerada pursuant to Paragraphs II and III designating all other corporations of which they are directors.

The Decision and Order was issued by the Commission July 17, 1975.

CHARLES A. TOBIN,  
Secretary.

[Docket No. 8905]

PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

Associated Dry Goods Corp.

Subpart—Acquiring corporate stock or assets: § 13.5 Acquiring corporate stock or assets.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 7, 38 Stat. 731, as amended; 15 U.S.C. 18)

In the Matter of Associated Dry Goods Corporation, a corporation.

Consent order requiring a New York City department store organization, among other things to divest itself of all stocks, assets, properties, etc.; which it acquired in 1972, comprising Ayr-Way Stores, Inc.

The Divestiture Order, including further order requiring report of compliance therewith, is as follows:

ORDER

I. Respondent shall, as soon as possible and in no event later than two years from the effective date of this Order, divest all of the assets, properties, stores, goodwill, rights, privileges and interests of whatever nature, real, personal, tangible and intangible (subject to liabilities and to the other provisions of this Order) comprising Ayr-Way Stores, Inc., a division of respondent Associated. Divestiture shall include but shall not be limited to the Ayr-Way stores and warehouse listed in the schedule attached hereto as exhibit A and all Ayr-Way facilities opened after December 1, 1974, and prior to divestiture.

Respondent may, but shall not be required to divest the names, trademarks, service names, service marks, or logos "Ayr-Way" or "Ayr-Way Stores, Inc." Nothing in this order shall be deemed to require the divestiture of respondent of the names, trademarks, service names, service marks, or logos "Associated Dry Goods Company," "Ayres," "L. S. Ayres" or "L. S. Ayres and Company, Inc.," or to require the divestiture of any other assets relating to the business of Associated Dry Goods Corporation or L. S. Ayres and Company, Inc.

Divestiture shall be in a manner which preserves the assets and business of Ayr-Way Stores, Inc. as a going concern and fully effective competitor.

<sup>1</sup> Copies of the Complaint, Appendices, Decision and Order, filed with the original document.

In the event that respondent elects to divest itself of the assets or capital stock Associated shall not utilize the names, trademarks, service names, service marks, or logos "Ayr-Way Stores, Inc." to the divestiture as may, from time to time, be requested by the Commission.

and proper utilization; 13.382-1(a) Fair Credit Reporting Act; 13.382-5 Formal regulatory and/or statutory require-

persons are who they represent themselves to be.  
2. Failing to require nonmember con-

ment; and (d) when consumer reports are requested in connection with business transactions having a personal,

In the event that respondent elects to divest itself of the assets or capital stock of Ayr-Way Stores, Inc. by a sale of such assets or capital stock other than by means of a public offering of capital stock which is registered pursuant to the Securities Act of 1933, the acquirer or acquirers shall be approved in advance by the Commission. Nothing in this Order shall be deemed to preclude divestiture to a firm which is engaged in operating department stores or GMAF stores, as defined by the Complaint, if such acquirer is otherwise acceptable to the Commission. Respondent shall not knowingly sell, divest, or otherwise transfer, directly or indirectly, any assets or stock of Ayr-Way Stores, Inc. to any person (other than an underwriter or selling dealer) who is at the time of the transfer the beneficial owner of more than two (2) percent of the outstanding stock of Associated.

If divestiture has not been effected within the two-year period provided by this Order, the Commission, on request submitted at least 30 days prior to the expiration of the period shall grant respondent an opportunity to file a written submission which it will consider before issuing any further order or orders which may be deemed appropriate.

II. Associated or its subsidiaries may be obligated on the effective date of this Order as lessee, guarantor or otherwise with respect to leases pertaining to Ayr-Way stores, its land or buildings, and other obligations of Ayr-Way. Associated will use its good faith efforts to obtain releases of such obligations in connection with the divestiture. In the event that Associated is unable to obtain such releases, the divestiture herein provided shall be deemed to have been accomplished notwithstanding the continuance of any such obligations on the part of Associated provided that at the time of divestiture the acquiring entity assumes responsibility for the operation of the divested facilities; and provided further that the continuance of any such obligation on the part of Associated does not give rise to any influence or control, on the part of Associated in, over or with respect to the operations by said entity of the facilities divested.

In the event of default by the acquiring entity with respect to any such lease or other obligation upon which Associated may remain obligated, Associated shall be entitled, without being deemed to have violated any provisions of this Order, to take whatever action may be necessary with respect to the defaulted facility or facilities to hold itself harmless from the consequences of any such default or defaults, including the right to repossess and to reoperate any such retail facility or facilities the lease of which is in default, provided that Associated notifies the Commission within 48 hours of taking such action, and Associated shall redive itself of any such retail facilities so repossessed within one year from the date of repossession unless a longer period is approved by the Commission, or unless the Commission approves the continued operation by Associated of any such facility.

Associated shall not utilize the names, trademarks, service names, service marks, or logos "Ayr-Way" or "Ayr-Way Stores, Inc." in the course of any retail business operated by Associated for a period of at least two years from the date of the divestiture.

III. (1) Pending divestiture, respondent shall make every reasonable effort to maintain and preserve the assets and business of Ayr-Way Stores, Inc. in good operating condition with such replacements and additions and such effective overall organization as may be necessary to divest Ayr-Way Stores, Inc. as a viable competitive entity; provided, however, that nothing contained herein shall be deemed to require respondent to continue to operate any store which has become so unprofitable that sound business judgment requires its closing or which is rendered inoperative as a result of force majeure or other event beyond the control of respondent.

(2) Whether the operation of a particular store has become so unprofitable during the pendency of divestiture that sound business judgment requires its closing shall be determined on the basis that such operation shall have yielded an aggregate operating loss during the last previous two calendar years, taken together. An "operating loss" occurs when the total operating revenues of a store fail to cover its total reasonable operating costs. "Operating costs" shall not include taxes on net income or any provision for the general and administrative overhead of L. S. Ayres and Company, Inc. or Associated Dry Goods Corporation. Other general and administrative expenses, provision for doubtful accounts and inventory adjustments shall be deemed to be reasonable if they do not exceed by more than one-third Associated Dry Goods' average for stores of similar size. Corrections to year-end statements and inventory shall be made in accordance with the methods and procedure used by Ayr-Way Stores, Inc. for the two years prior to the making of corrections.

(3) The judgment of respondent that a particular store should be closed prior to divestiture shall be communicated in writing to the Commission at least 30 days before the proposed closing, together with a full statement of (a) the reasons for such closing; (b) in case unprofitability is alleged, the store's sales and profitability history; (c) respondent's plans, if any, for the disposition of the store's assets, the consideration to be received therefor and the identity of proposed transferees so far as then known; and (d) such other information, including production of and/or access to original accounting records, as may be required for consideration of the proposed closing.

It is further ordered, That respondent shall, within ninety (90) days from the date of service of this Order, and every one hundred eighty (180) days thereafter until the divestiture required by this Order has been completed submit in writing to the Commission, a report setting forth its plans, actions and progress in complying with the divestiture required by this Order and such other reports related

to the divestiture as may, from time to time, be requested by the Commission.

#### PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

##### Credit Data Northwest, et al.

Subpart—Collecting, assembling, furnishing or utilizing consumer reports: § 13.382 Collecting, assembling, furnishing or utilizing consumer reports; 13.382-1 Confidentiality, accuracy, relevancy,

and proper utilization; 13.382-1(a) Fair Credit Reporting Act; 13.382-5 Formal regulatory and/or statutory requirements; 13.382-5(a) Fair Credit Reporting Act. Subpart—Corrective actions and/or requirements: § 13.533 Corrective actions and/or requirements; 13.533-45 Maintain records; 13.533-45(k) Records, in general.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46, Interpret or apply sec. 5, 38 Stat. 719, as amended; 82 Stat. 146, 147; 84 Stat. 1127-36; 15 U.S.C. 1601, et seq.)

In the Matter of Credit Data Northwest, a partnership, doing business as Seattle Credit Bureau; and Olympia Credit Bureau, Inc., a corporation, individually and as a partner in Credit Data Northwest; and Credit Bureau of Spokane, Inc., a corporation, individually and as a partner in Credit Data Northwest; and Retail Credit Grantors Bureau, Ltd., a corporation, individually and as a partner in Credit Data Northwest; and Terry B. Smith, individually and as General Manager of Credit Data Northwest; and Allen F. Leiter, individually and as Credit Reporting Manager of Credit Data Northwest.

Consent order requiring a Seattle, Wash., credit reporting agency and three affiliated agencies located in Washington and Canada, among other things to cease collecting, assembling, furnishing or utilizing consumer reports in violation of the Fair Credit Reporting Act.

The Order to cease and desist, including further order requiring report of compliance therewith, is as follows:

#### ORDER

It is ordered, That respondents Credit Data Northwest, a partnership; Olympia Credit Bureau, Inc., Credit Bureau of Spokane, Inc., and Retail Credit Grantors Bureau, Ltd., corporations, individually and as partners in Credit Data Northwest; and Terry B. Smith and Allen F. Leiter, individually, and as principal operating officials of Credit Data Northwest; and respondents' agents, representatives, employees, successors and assigns, directly or through any corporation, subsidiary, division, or other device, in connection with the collecting, assembling, evaluating or furnishing of consumer reports, as "consumer report" is defined in the Fair Credit Reporting Act (15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Failing to make reasonable efforts to verify the identity of new members and nonmember consumer report applicants who are unknown to respondents by checking references, such as the yellow pages, a city directory, business reports, on-site inspection of the business premises or other methods adequate to reasonably ensure that such entities or

<sup>1</sup> Copies of the Complaint, Exhibits, Decision and Order, filed with the original document.

persons are who they represent themselves to be.

2. Failing to require nonmember consumer report applicants at the time they apply for each consumer report to certify in writing the purposes for which the consumer report is sought and that it will be used for no other purpose.

3. Furnishing consumer reports to members and nonmember applicants who have not, through the execution of a membership contract or an application for a single report, clearly stated a purpose for the report which is listed in Section 604 of the Fair Credit Reporting Act.

4. Failing to specifically inquire of prospective members concerning the particular purposes for which information will be used, to set out such purposes in the membership contract, and to require that prospective members certify to such purposes and certify that the information will be used for no other purposes as required by Section 607(a) of the Fair Credit Reporting Act.

5. Failing to require attorneys, private investigators and private clubs, and such other classes of members who respondents have reason to obtain consumer reports for impermissible purposes, to certify orally or in writing at the time such members seek each consumer report, the purpose for which the information is sought, and that the information will be used for no other purpose, in accordance with Section 607(a) of the Fair Credit Reporting Act. The respondents shall require such members to agree in their membership contracts with respondents that if oral certification is given such members must provide written certification of the said purpose within 5 business days of such oral certification. If certification is made orally, the respondents shall make a written record of such oral certification at the time of the request.

6. Failing to make reasonable efforts to verify the uses certified by prospective members and to make reasonable efforts to reverify the purposes certified by members in the membership agreement every three (3) years.

7. Failing to make reasonable efforts to verify the uses certified by nonmember applicants for consumer reports. Such efforts shall include (a) when consumer reports are requested for purported credit transactions, inquiry shall be made to seek verification of such transactions through contacting the other party to the transaction or other knowledgeable parties; (b) in the case of a property owner purportedly seeking a consumer report on a prospective buyer or tenant, inquiry shall be made to seek verification of the applicant's ownership of the property in question and whether it is for sale or rent; (c) in the case of a party seeking a report for purported employment purposes, inquiring whether the consumer is employed by the party or has applied for employment and, if so, verifying whether the consumer is so employed or has applied for employ-

ment; and (d) when consumer reports are requested in connection with business transactions having a personal, family or household purpose for the consumer, inquiry shall be made to seek verification of such transactions through contacting the other party to the transaction or other knowledgeable parties.

8. Failing, prior to the dissemination of any consumer report, to separate or delete adverse items of information in the consumer's file which antedate the date of the report by more than the applicable period specified in Section 605(a) of the Fair Credit Reporting Act.

9. Making any consumer report containing any item of information prohibited by Section 605(a) of the Fair Credit Reporting Act, except as provided in Section 605(b) of that Act, including the giving of any consumer report concerning the delinquency of an account more than seven years after such delinquency.

10. Recording information in a consumer's file, unless the source of the information provides at least one type of identification for the consumer in addition to the consumer's name, such as address, social security number, employer, or name of spouse.

11. Failing, when the completeness or accuracy of information in his or her file is disputed by a consumer, to:

a. (i) Initiate reinvestigation within three business days, (ii) continue to make reasonable efforts to complete the reinvestigation and (iii) to complete the reinvestigation within thirty days of the initiation thereof or, in the alternative, delete such information. Such reinvestigations with creditors shall include, but not necessarily be limited to, requesting examination by the creditor, where relevant, of any original documentation relating to the dispute in addition to credit records; such reinvestigations concerning suits and judgments shall include making inquiry of original creditors, where relevant and possible, and making inquiry in official records to determine if the judgment has been satisfied, the suit dismissed or other relevant action taken;

b. Reinvestigate with the original creditor when an account placed for collection is disputed;

c. Record immediately after reinvestigation the current status of information disputed by the consumer;

d. Immediately delete information which is found to be inaccurate or not verifiable after reinvestigation;

e. Inform the consumer, orally or in writing by mailing the information, of the results of the reinvestigation within five business days after the completion of the reinvestigation.

12. Failing to explicitly orally disclose to the consumer his or her right to request that all deletions, notations and consumer statements with respect to disputed information be sent by respondents to persons designated by the consumer who have received the deleted or disputed information within two years for employment purposes or within six months for any other purpose. Such dis-

closure shall be made at or prior to the time the information is deleted or the

ance of their present business or employment and of their affiliation with a new

revenues of less than \$1,000,000 from the exploration, production and sale of

[Docket No. C-2694]

#### PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

IV. It is further ordered, That for a period ending five (5) years after service of this order, Ayr-Way Stores shall not

or testimonials falsely or misleadingly: § 13.330 Claiming or using endorsements or testimonials falsely or misleadingly.

closure shall be made at or prior to the time the information is deleted or the consumer's statement regarding the disputed information is received.

13. Failing to furnish notification of deletion of information and any consumer statement, codification or summary thereof to any person designated by the consumer and qualified under Section 611(d) of the Fair Credit Reporting Act to receive such information. Such notification shall take place within five business days after the deletion or receipt of the consumer's request that the statement, codification or summary be sent.

14. Failing, whenever a statement of dispute has been filed, unless there are reasonable grounds to believe that the statement of dispute is frivolous or irrelevant, to clearly note in any subsequent consumer report containing the information in question that it is disputed by the consumer, and to provide either the consumer's statement or a clear and accurate codification or summary thereof.

15. Failing to provide each consumer who requests disclosure of information in his or her file with an exact facsimile of Exhibit A attached hereto.

*It is further ordered*, That respondents shall, at all times subsequent to the effective date of this order, maintain complete business records relative to the manner and form of their compliance with this order during the immediately preceding two-year period. Such records shall include all correspondence with consumers and consumer report applicants, policy directives, completely filled out interview reports, complaints from consumers and consumer report applicants, and other pertinent documents. Such records shall be kept in chronological order separate from the consumer files and shall be made available for inspection and photocopying by any authorized representative of the Federal Trade Commission upon reasonable notice at respondents' place of business or other properly designated location.

*It is further ordered*, That respondents deliver a copy of this order to cease and desist to all employees now or hereafter engaged in the collecting, assembling, evaluating or furnishing of consumer information to third parties and that respondents secure a signed statement acknowledging receipt of said order from each such person.

*It is further ordered*, That respondents notify the Commission at least thirty days prior to any proposed changes in the corporate respondents or in the partnership entity, such as dissolution, assignment or sale, resulting in the emergence of successor corporations or partnerships, creation or dissolution of subsidiaries, or any other changes in the legal entities which may affect compliance obligations arising out of this order.

*It is further ordered*, That the individual respondents named herein promptly notify the Commission of the discontinu-

ance of their present business or employment and of their affiliation with a new business or employment in the event of such discontinuance or affiliation. Such notice shall include respondents' current business or employment in which they are engaged as well as a description of their duties and responsibilities.

*It is further ordered*, That respondents shall, within sixty days after service upon them of this order, file with the Commission a written report setting forth in detail the manner and form of their compliance with this order.

The Decision and Order was issued by the Commission July 29, 1975.

CHARLES A. TOBIN,  
Secretary.

[Docket No. C-2688]

#### PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

##### El Paso Natural Gas Co.

Subpart—Interlocking directorates unlawfully: § 13.1106 Interlocking directorates unlawfully.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45; sec. 8, 38 Stat. 732; 49 Stat. 717; 15 U.S.C. 19)

*In the Matter of El Paso Natural Gas Company, a corporation.*

Consent order requiring a Houston, Texas, energy company, among other things to cease permitting any individual to serve on its board of directors if such individual is or would be at the same time a director of Transcontinental Gas Pipeline Corporation.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:<sup>1</sup>

##### ORDER

*It is ordered*, That El Paso Natural Gas Company (El Paso), its successors and assigns, do forthwith cease and desist from permitting any individual to serve on its Board of Directors if such individual is or would be at the same time a director of Transcontinental Gas Pipeline Corporation.

*It is further ordered*, That El Paso shall, within thirty days after service of this order, and annually for a period ending five (5) years thereafter, request from each member of its Board of Directors a written statement which discloses the name, business, and location of operations of each other corporation of which such member is also a director, exclusive of any corporation in which El Paso controls, directly or indirectly through subsidiaries, more than 50 percent of the voting stock; exclusive of any corporation which derives annual gross

<sup>1</sup> Copies of the Complaint, Decision and Order, filed with the original document.

revenues of less than \$1,000,000 from the exploration, production and sale of natural gas; and exclusive of any corporation not engaged in "commerce" as defined in Section 1 of the Clayton Act as amended or Section 4 of the Federal Trade Commission Act.

*It is further ordered*, That for a period ending five (5) years after service of this order, El Paso shall, at least thirty (30) days prior to any directors' meeting at which one or more directors will be elected or the mailing of proxy statements for any shareholder meeting at which one or more directors will be elected, request from each person who is being considered as a member of the Board of Directors, but has not been a member of its Board of Directors during the previous year, a written statement which discloses the information described in Paragraph II.

*It is further ordered*, That for a period ending five (5) years after service of this order, El Paso shall not permit on its Board of Directors any person who fails to submit a written statement pursuant to Paragraphs II and III, or any person who is a director of another corporation named in response to the statements required pursuant to Paragraphs II and III when said statement reveals or when a reasonably diligent investigation would reveal to respondent that such other corporation is a competitor of El Paso by virtue of its business and location of operation in the exploration, production or sale of natural gas. If compliance with Paragraphs I and IV requires any member of El Paso's Board of Directors to resign or to be removed from the Board of Directors of either El Paso or such other corporation, El Paso shall be allowed a reasonable period of time within which to take any legal or other steps which are necessary to secure compliance with this order.

*It is further ordered*, That El Paso notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent which may affect compliance obligations arising out of this order, such changes to include, but not be limited to, dissolution, assignment or sale resulting in the emergence of a successor corporation.

*It is further ordered*, That respondent El Paso shall, within thirty (30) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order, and shall within sixty (60) days submit copies of those lists provided by all current directors of El Paso pursuant to Paragraphs II and III designating all other corporations of which they are directors.

The Decision and Order was issued by the Commission July 17, 1975.

CHARLES A. TOBIN,  
Secretary.

[Docket No. C-2694]

#### PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

##### Kerr-McGee Corp.

Subpart—Interlocking directorates unlawfully: § 13.1106 Interlocking directorates unlawfully.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45; sec. 8, 38 Stat. 732; 49 Stat. 717; 15 U.S.C. 19)

*In the Matter of Kerr-McGee Corporation, a corporation.*

Consent order requiring an Oklahoma City, Okla., energy company, among other things to cease permitting any individual to serve on its board of directors if such individual is or would be at the same time a director of Oklahoma National Gas Company.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:<sup>1</sup>

##### ORDER

*I. It is ordered*, That Kerr-McGee Corporation (Kerr-McGee), its successors and assigns, do forthwith cease and desist from permitting any individual to serve on its Board of Directors if such individual is or would be at the same time a director of Oklahoma Natural Gas Company.

*II. It is further ordered*, That Kerr-McGee shall, within thirty days after service of this order, and annually for a period ending five (5) years thereafter, request from each member of its Board of Directors a written statement which discloses the name, business, and location of operations of each other corporation of which such member is also a director, exclusive of any corporation in which Kerr-McGee controls, directly or indirectly through subsidiaries, more than 50 percent of the voting stock; exclusive of any corporation which derives annual gross revenues of less than \$1,000,000 from the exploration, production and sale of natural gas, the purchase and refining of crude oil, and the sale of refined petroleum products; and exclusive of any corporation not engaged in "commerce" as defined in Section 1 of the Clayton Act as amended or Section 4 of the Federal Trade Commission Act.

*III. It is further ordered*, That for a period ending five (5) years after service of this order, Kerr-McGee shall, at least thirty (30) days prior to any directors' meeting at which one or more directors will be elected or the mailing of proxy statements for any shareholder meeting at which one or more directors will be elected, request from each person who is being considered as a member of the Board of Directors, but has not been a member of the Board of Directors during the previous year, a written statement which discloses the information described in Paragraph II.

<sup>1</sup> Copies of the Complaint, Decision and Order, filed with the original document.

*IV. It is further ordered*, That for a period ending five (5) years after service of this order, Kerr-McGee shall not permit on its Board of Directors any person who fails to submit a written statement pursuant to Paragraphs II and III, or any person who is a director of another corporation named in response to the statements required pursuant to Paragraphs II and III when said statement reveals or when a reasonably diligent investigation would reveal to respondent that such other corporation is a competitor of Kerr-McGee by virtue of its business and location of operation in the exploration for, production or sale of natural gas or in the purchase or refining of crude oil, or in the sale of refined petroleum products. If compliance with Paragraphs I and IV requires any member of Kerr-McGee's Board of Directors to resign or to be removed from the Board of Directors of either Kerr-McGee or such other corporation, Kerr-McGee shall be allowed a reasonable period of time within which to take any legal or other steps which are necessary to secure compliance with this Order.

*V. It is further ordered*, That Kerr-McGee notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent which may affect compliance obligations arising out of this order, such changes to include, but not be limited to, dissolution, assignment or sale resulting in the emergence of a successor corporation.

*VI. It is further ordered*, That respondent Kerr-McGee shall, within thirty (30) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order, and shall within sixty (60) days submit copies of those lists provided by all current directors of Kerr-McGee pursuant to Paragraphs II and III designating all other corporations of which they are directors.

The Decision and Order was issued by the Commission July 17, 1975.

CHARLES A. TOBIN,  
Secretary.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 82 Stat. 146, 147; 15 U.S.C. 45, 1601, et seq.)

*In the Matter of Maralco Enterprises, Inc., a corporation, New York School of Computer Technology, Inc., a corporation, Education Beneficial, Inc., a corporation, Tuition Payments, Inc., a corporation, and Hyman Marcus, Bartholomew Colangelo, and Fred Rosenberg, individually and as officers of said corporation.*

Consent order requiring four New York City corporations operating a computer programming school, among other things to cease misrepresenting the demand for its graduates, job opportunities, earnings, and using testimonials and endorsements unfairly; and violating the Truth in Lending Act in connection with the sale of its courses.

The Order to cease and desist, including further order requiring report of compliance therewith, is as follows:<sup>1</sup>

##### ORDER

*It is ordered*, That respondents Maralco Enterprises, Inc., New York School of Computer Technology, Inc., Education Beneficial, Inc., and Tuition Payments, Inc., corporations, their successors and

<sup>1</sup> Copies of the Complaint, Appendices, Decision and Order, filed with the original document.

assigns, and their officers, and Hyman Marcus, Bartholomew Colangelo, and Fred Rosenberg, individually and as officers of said corporation.

which shall be the percentage of students who were scheduled to graduate

provided to the consumer which can be used by him as a means of cancellation.

median salary disclosed pursuant to paragraph 3(a).

remitted up until the notice of cancellation.

with a consumer credit transaction, without also stating all of the following

assigns, and their officers, and Hyman Marcus, Bartholomew Colangelo and Fred Rosenberg, individually and as officers of said corporations, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, or under any other name, in connection with the advertising, offering for sale, sale of courses of instruction in electronic data processing, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Failing to send by certified mail, return receipt requested, to each person that shall contract with respondents for the sale of any course of instruction, a notice which shall disclose the following information and none other:

(a) The title "IMPORTANT INFORMATION" printed in bold face type across the top of the form.

(b) Paragraphs containing the information set forth below, which shall be compiled and updated at least once every month. Such information shall be computed separately for each course of instruction offered by respondents at each school, location or facility.

(1) A paragraph as follows: "The information below relates to the (name of vocational school). The placement rate is the percentage of graduating students who obtained employment within three months of their graduation, in positions for which they were trained by this school."

(2) The "Placement Rate", using this term, to be determined as follows:

A. Respondents shall ascertain whether each graduate has obtained employment within three months of graduation in a position for which respondents' course has prepared him. If such employment has been obtained, respondents shall further ascertain the name of the employer, the position and the starting salary obtained by the graduate.

B. The placement rate shall be the percentage of students who have graduated within the base period (as defined in paragraph 1(b)(2)(C)) who have obtained employment as determined in 1(b)(2)(A). The placement rate need not include those students exempted pursuant to subparagraph 1(b)(2)(D).

C. The base period shall be the one year period ending four months prior to the date on which the information required under 1(b) is compiled or updated.

D. At the time each student signs his enrollment contract, respondents shall have him complete the form set forth in Appendix A of this order. Students who indicate their intention not to seek employment in the computer field (by checking box number 3 on such form) need not be included in the computation of the school's placement rate.

(3) The "Salary Range" and the "Average Salary (Median)", using these terms, of the graduates who have obtained employment as determined pursuant to 1(b)(2)(A).

(4) The dropout rate, using the term "Students Not Completing Course",

which shall be the percentage of students who were scheduled to graduate from respondents' course during the base period who have discontinued or interrupted their studies without completing such course. Provided, however, the dropout rate need not include:

A. Any student who indicates in writing his desire to interrupt his course of study, provided such interruption not exceed six months; or

B. Any student whose enrollment contract, and all obligations thereunder, are expressly conditioned upon the receipt by the student of an educational loan guaranteed by a federal or state agency, if the student's application for such a loan is in fact rejected; or

C. Any student who cancels his enrollment contract pursuant to his right of cancellation set forth in Paragraph 8 of this order.

(5) A sentence which sets forth the time period upon which the data in subparagraphs (1)-(4) above are based.

Provided, however, subparagraph (b) shall be inapplicable, and no disclosures shall be made thereunder, in the case of any newly established school or course, as described in subparagraph (c), until such time as the new school or course has been in operation for 16 months.

(c) In the case of any newly established school that respondents may establish in any metropolitan area or county, whichever is larger, where they did not previously operate a school, or to any course newly introduced by respondents, until such time as the new school or course has been in operation for 16 months, the following paragraph: "This school (course) has not been in operation long enough to indicate, what, if any, actual employment or salary may result upon graduation from this school (course)."

(d) A paragraph which states that a list is available for inspection during respondents' business hours which contains the names of employers who have hired graduates of respondents' courses. Such list shall contain the names of those firms who employed students graduating in the most recent base period as ascertained by respondent in 1(b)(2)(A).

(e) An explanation of the cancellation procedure provided in this order, namely that any contract or other agreement may be cancelled for any reason within three business days after receipt by the customer of this notice, or any other cancellation procedure provided by applicable state or local laws more favorable to the customer. Respondents shall include with the notice a detachable form or post card, or other separate form as may be applicable under state or local law, which the person may use as a notice of cancellation, and, which indicates the proper address for accomplishing any such cancellation.

The notice required under this paragraph shall be sent by respondents no sooner than the day after the person shall have contracted for the sale of any course of instruction. No other information or materials shall be sent with this notice except for the form or postcard

provided to the consumer which can be used by him as a means of cancellation. During the period provided in paragraph (e), respondents shall not initiate contact with such persons other than required by this paragraph. This shall not prohibit respondents from conducting classes for those students who have begun their classes prior to signing a contract, provided that such classes are solely instructional in nature.

2. Making any representations, orally or in writing, directly or by implication, concerning any of the following:

(a) The demand for persons completing any of the courses offered by respondents in the area of electronic data processing, or any other course in any field;

(b) The opportunities or prospects for employment, or the opportunities of any type or number, available to persons completing any of respondents' courses;

(c) The likelihood of placement in positions for which respondents' graduates have been trained; or

(d) The salaries that might be earned by graduates or potential graduates of respondents' courses; or the salaries of such graduates or potential graduates as compared to their previous or present salaries; or the salaries of such graduates or potential graduates as compared to the salaries of any other persons or groups of persons.

Provided, however, that respondents may disclose in advertising, promotional materials or in any other manner the information otherwise disclosable pursuant to subparagraphs 1(b), 1(c) and 1(d) of this order. Such information shall be disclosed in the form and manner set forth in subparagraphs 1(b), 1(c), and 1(d) except that for the purposes of this provision, the information need only be updated once every six (6) months. If any such information is disclosed, all the information shall be disclosed.

3. Representing, by the use of photographs, testimonials or otherwise, the positions or salaries obtained by graduates of respondents' courses, or the employers who have hired such graduates. However, respondents may make such representations provided that:

(a) In immediate conjunction therewith, respondents disclose the information required to be disclosed under subparagraphs 1(a), 1(b), 1(c) and 1(d) of this order. Such information shall be disclosed in the form and manner set forth in subparagraphs 1(a), 1(b), 1(c) and 1(d) except that for the purposes of this provision, the information shall be updated at least once every six (6) months. Such disclosures shall be made clearly, conspicuously and with the prominence afforded to the salary, job, and other employment representations.

(b) Any such representations are based on the experiences of persons who graduated from respondents' courses during the base period used to compute the information to be disclosed pursuant to Paragraph 3(a).

(c) The arithmetic average of the salaries disclosed is no greater than the

median salary disclosed pursuant to paragraph 3(a).

4. Representing, orally or in writing, directly or by implication that:

(a) College education, training beyond a high school diploma or job experience is not necessary or advantageous for the placement of persons in the field of electronic data processing, or otherwise representing that persons with a high school education or its equivalent will achieve employment in the electronic data processing field, unless in every such instance it is disclosed, in immediate and conspicuous conjunction therewith, that college education or job experience is highly advantageous for placement; or misrepresenting in any manner the qualifications necessary to achieve employment in any field.

(b) Any number of occupationally useful programming languages are taught in respondents' courses of instruction in excess of those actually provided; or representing in any manner the materials available to enrollees in said courses unless true; or representing that types or brands of computers are used, unless true and the designation of the computer is disclosed.

(c) Individual instruction adapted to the needs of each student is provided in respondents' courses of instruction; or misrepresenting in any manner the quality or type of instructional method used in said courses. Provided, however, respondents may represent that a student can proceed at his or her own rate through the respondents' course material, if such is the fact.

5. Representing, orally or in writing, directly or by implication, that any courses of instruction are the equivalent of practical experience in the field of computer programming, or that the graduates of any such courses can represent themselves to prospective employers as experienced programmers.

6. Providing students of respondents' courses of instruction with resumes containing untrue information, suggesting to students that such resumes be prepared, or aiding in any way in the preparation of such resumes, or in any way verifying or attesting to false information included in resumes by graduates of respondents' courses of instruction.

7. Misrepresenting directly or by implication the significance or importance of any courses of instruction in qualifying any persons for employment in a particular field of endeavor, or misrepresenting in any manner the positions which graduates have obtained.

8. Contracting for any sale of any course of instruction in the form of a sales contract or other agreement which shall become binding prior to midnight of the third business day after the receipt by the customer of the form of notice provided for in Paragraph One above. Upon cancellation of any said sales contract or other agreement, as provided in Paragraph 1(c) above, respondents are obligated to refund within three business days to any person exercising the cancellation right all monies paid or

remitted up until the notice of cancellation.

9. Making any representations of any kind whatsoever in connection with the advertising, promoting, offering for sale, sale or distribution of courses of study, training or instruction in the field of electronic data processing or any other course offered to the public in any field of commerce, for which respondents have no reasonable basis prior to the making or dissemination thereof.

II. It is further ordered, That respondents Maralco Enterprises, Inc., New York School of Computer Technology, Inc., Education Beneficial, Inc., and Tuition Payments, Inc., corporations, their successors and assigns and their officers, and Hyman Marcus, Bartholomew Colangelo and Fred Rosenberg, individually and as officers of said corporations, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with any extension of consumer credit or in connection with any advertisement to aid, promote, or assist directly or indirectly any extension of consumer credit, as "consumer credit" and "advertisement" are defined in Regulation Z (12 C.F.R. 226) and the Truth in Lending Act (Pub. L. 90-321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Failing, when offering a reduction from the cash price to those who elect to meet their obligation on or before a specified date, to disclose, as required by § 226.8(c)(1) of Regulation Z:

(a) The rate of discount, and date by which or period within which the discount may be taken; —

(b) The amount of the discount, designated as a "finance charge", using that term; and

(c) The "annual percentage rate", using that term.

2. Failing to accurately disclose the "cash price", using that term, as required by § 226.8(c)(1), computed in accordance with § 226.8(c)(7) of Regulation Z.

3. Failing to disclose the downpayment in money, and to describe that amount as the "cash downpayment," as required by § 226.8(c)(2) of Regulation Z.

4. Failing to disclose the difference between the cash price and the total downpayment, and to describe that amount as the "unpaid balance of cash price," as required by § 226.8(c)(3) of Regulation Z.

5. Failing to disclose the amount of credit extended, and to describe that amount as the "amount financed," as required by § 226.8(c)(7) of Regulation Z.

6. Failing to disclose the sum of the payments scheduled to repay the indebtedness, and to describe that sum as the "total of payments," as required by § 226.8(b)(3) of Regulation Z.

7. Failing to disclose the sum of the cash price and the finance charge, and to describe that sum as the "deferred payment price," as required by § 226.8(c)(8) of Regulation Z.

8. Stating the period of payments which can be arranged in connection

with a consumer credit transaction, without also stating all of the following items, in terminology prescribed under § 226.8 of Regulation Z, as required by § 226.10(d)(2) thereof:

(a) The cash price;

(b) The amount of the downpayment required or that no downpayment is required, as applicable;

(c) The number, amount, and due dates or period of payments scheduled to repay the indebtedness if credit is extended;

(d) The amount of the finance charge expressed as an annual percentage rate; and

(e) The deferred payment price.

9. Failing in any consumer credit transaction or advertising to make all disclosures determined in accordance with §§ 226.4 and 226.5 of Regulation Z, at the time and in the manner, form and amount required by §§ 226.6, 226.8 and 226.10 of Regulation Z.

It is further ordered, That the respondent corporations shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged as well as a description of their duties and responsibilities.

It is further ordered, That respondents maintain adequate records, to be furnished upon request of the staff of the Federal Trade Commission, which evidence compliance with the provisions of this order, including, but not limited to, the names, addresses and scores of all persons who take an aptitude test of any kind, copies of all contracts entered into between respondents and customers, copies of all correspondence between respondents and their customers, records showing the name and address of each student, the dates of his attendance, the date of his graduation or other termination of his studies, the names and addresses of any employers he was referred to, and his position and starting salary.

It is further ordered, That no provision of this order shall be construed in any way to annul, invalidate, repeal, terminate, modify or exempt respondents from complying with agreements, orders or directives of any kind obtained by any other agency or act as a defense to actions instituted by municipal or state regulatory agencies. No provision of this

order shall be construed to imply that any past or future conduct of respondents complies with the rules and regulations of, or the statutes administered by the Federal Trade Commission.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

## APPENDIX A

## IMPORTANT NOTICE

The (name of school), in accordance with an agreement with the Federal Trade Commission, must determine the job placement rate of its graduates. To make this determination, it is necessary to know the intention of each student with regard to his or her desire to obtain employment in the computer field.

In order to assist the school in computing the placement rate of its graduates, please read and complete this form carefully.

Name: \_\_\_\_\_  
Last First Middle  
Address: \_\_\_\_\_  
Number and Street  
City State Zip

Please check one of the following boxes:

- ☐ 1. I am not presently working, and I am taking this course to help me get a job in the computer field.
- ☐ 2. Although I am presently employed, I am taking this course to help me get a job in the computer field or to help me get a promotion in the computer field.
- ☐ 3. I do not plan to look for a job in the computer field after I graduate.

If you checked box number 3, please indicate why you do not plan to look for a job in the computer field. Please circle the appropriate letter: (Do not fill out this part if you checked #1 or #2 above.)

A. I am presently employed and I am taking this course to help me better understand my current job and better perform my duties.

B. I am taking this course solely because I am interested in computers, but I do not wish to look for a job in the computer field.

## RULES AND REGULATIONS

[Docket No. C-2687]

## PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

## Newmont Mining Corp.

Subpart—Interlocking directorates unlawfully: § 13.1106 Interlocking directorates unlawfully.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45; sec. 8, 38 Stat. 732; 49 Stat. 717; 15 U.S.C. 19)

In the Matter of Newmont Mining Corp., a corporation.

Consent order requiring a New York City energy company, among other things to cease permitting any individual to serve on its board of directors if such individual is or would be at the same time a director of Amerada Hess Corp.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

## ORDER

I. It is ordered, That Newmont Mining Corporation (Newmont) its successors and assigns, do forthwith cease and desist from permitting any individual to serve on its Board of Directors if such individual is or would be at the same time a director of Amerada Hess Corporation.

II. It is further ordered, That Newmont shall, within thirty (30) days after service of this Order, and annually for a period ending five (5) years thereafter, request from each member of its Board of Directors a written statement which discloses the name, business, and location of operations of each other corporation of which such member is also a director, exclusive of any corporation in which Newmont controls, directly or indirectly through subsidiaries, more than 50 percent of the voting stock; exclusive of any corporation which derives annual gross revenues of less than \$1,000,000 from the exploration, production and sale of natural gas and crude petroleum; and exclusive of any corporation not engaged in "commerce" as defined in Section 1 of the Clayton Act as amended or Section 4 of the Federal Trade Commission Act.

III. It is further ordered, That for a period ending five (5) years after service of this order, Newmont shall, at least thirty (30) days prior to any directors' meeting at which one or more directors will be elected or the mailing of proxy statements for any shareholder meeting at which one or more directors will be elected, request from each person who is being considered as a member of the Board of Directors, but has not been a member of the Board of Directors during the previous year, a written statement which discloses the information described in Paragraph II.

IV. It is further ordered, That for a period ending five (5) years after service

of this order, Newmont shall, at least thirty (30) days prior to any directors' meeting at which one or more directors will be elected or the mailing of proxy statements for any shareholder meeting at which one or more directors will be elected, request from each person who is being considered as a member of the Board of Directors, but has not been a member of the Board of Directors during the previous year, a written statement which discloses the information described in Paragraph II.

V. It is further ordered, That Newmont shall, within thirty (30) days after service of this order, and annually for a period ending five (5) years thereafter, request from each member of its Board of Directors a written statement which discloses the name, business, and location of operations of each other corporation of which such member is also a director, exclusive of any corporation in which Newmont controls, directly or indirectly through subsidiaries, more than 50 percent of the voting stock; exclusive of any corporation which derives annual gross revenues of less than \$1,000,000 from the exploration, production and sale of natural gas and crude petroleum; and exclusive of any corporation not engaged in "commerce" as defined in Section 1 of the Clayton Act as amended or Section 4 of the Federal Trade Commission Act.

VI. It is further ordered, That Newmont shall, within thirty (30) days after service of this order, and annually for a period ending five (5) years thereafter, request from each member of its Board of Directors a written statement which discloses the name, business, and location of operations of each other corporation of which such member is also a director, exclusive of any corporation in which Newmont controls, directly or indirectly through subsidiaries, more than 50 percent of the voting stock; exclusive of any corporation which derives annual gross revenues of less than \$1,000,000 from the exploration, production and sale of natural gas and crude petroleum; and exclusive of any corporation not engaged in "commerce" as defined in Section 1 of the Clayton Act as amended or Section 4 of the Federal Trade Commission Act.

1 Copies of the Complaint, Decision and Order, filed with the original document.

of this Order, Newmont shall not permit on its Board of Directors any person who fails to submit a written statement pursuant to Paragraphs II and III, or any person who is a director of another corporation named in response to the statements required pursuant to Paragraphs II and III when said statement reveals or when a reasonably diligent investigation would reveal to respondent that such other corporation is a competitor of Newmont by virtue of its business and location of operation in the exploration, production or sale of crude petroleum or natural gas. If compliance with Paragraphs I and IV requires any member of Newmont's Board of Directors to resign or to be removed from the Board of Directors of either Newmont or such other corporation, Newmont shall be allowed a reasonable period of time within which to take any legal or other steps which are necessary to secure compliance with this order.

V. It is further ordered, That Newmont notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent which may affect compliance obligations arising out of this order, such changes to include, but not be limited to, dissolution, assignment or sale resulting in the emergence of a successor corporation.

VI. It is further ordered, That respondent Newmont shall, within thirty (30) days after service upon it, of this Order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this Order, and shall within sixty (60) days submit copies of those lists provided by all current directors of Newmont pursuant to Paragraphs II and III designating all other corporations of which they are directors.

The Decision and Order was issued by the Commission July 17, 1975.

CHARLES A. TOBIN,  
Secretary.

## PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

## Oklahoma Natural Gas Company

Subpart—Interlocking directorates unlawfully: § 13.1106 Interlocking directorates unlawfully.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45; sec. 8, 38 Stat. 732; 49 Stat. 717; 15 U.S.C. 19)

In the Matter of Oklahoma Natural Gas Company, a corporation.

Consent order requiring a Tulsa, Okla., energy company, among other things to cease permitting any individual to serve on its board of directors if such individual is or would be at the same time a director of Kerr-McGee Corporation.

## RULES AND REGULATIONS

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

## ORDER

I. It is ordered, That Oklahoma Natural Gas Company (ONG), its successors and assigns, do forthwith cease and desist from permitting any individual to serve on its Board of Directors if such individual is or would be at the same time a director of Kerr-McGee Corporation.

II. It is further ordered, That ONG shall, within thirty (30) days after service of this order, and annually for a period ending five (5) years thereafter, request from each member of its Board of Directors a written statement which discloses the name, business, and location of operations of each other corporation of which such member is also a director, exclusive of any corporation in which ONG controls directly or indirectly through subsidiaries, more than 50 percent of the voting stock; exclusive of any corporation which derives annual gross revenues of less than \$1,000,000 from the exploration for, production and sale of natural gas; and exclusive of any corporation not engaged in "commerce" as defined in Section 1 of the Clayton Act as amended or Section 4 of the Federal Trade Commission Act.

III. It is further ordered, That for a period ending five (5) years after service of this order, ONG shall at least thirty (30) days prior to any directors' meeting at which one or more directors will be elected or the mailing of proxy statements for any shareholder meeting at which one or more directors will be elected, request from each person who is being considered as a member of the Board of Directors, but has not been a member of the Board of Directors during the previous year, a written statement which discloses the information described in Paragraph II.

IV. It is further ordered, That for a period ending five (5) years after service of this order, ONG shall not permit on its Board of Directors any person who fails to submit a written statement pursuant to Paragraphs II and III, or any person who is a director of another corporation named in response to the statements required pursuant to Paragraphs II and III when said statement reveals or when a reasonably diligent investigation would reveal to respondent that such other corporation is a competitor of ONG by virtue of its business and location of operation in the exploration for, production, or sale of natural gas. If compliance with Paragraphs I and IV requires any member of ONG's Board of Directors to resign or to be removed from the Board of Directors of either ONG or such other corporation, ONG shall be allowed a reasonable period of time within which to take any legal or other steps which are necessary to secure compliance with this order.

V. It is further ordered, That ONG notify the Commission at least thirty

(30) days prior to any proposed change in the corporate respondent which may affect compliance obligations arising out of this order, such changes to include, but not be limited to, dissolution, assignment or sale resulting in the emergence of a successor corporation.

VI. It is further ordered, That respondent ONG shall, within thirty (30) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order, and shall within sixty (60) days submit copies of those lists provided by all current directors of ONG pursuant to Paragraphs II and III designating all other corporations of which they are directors.

The Decision and Order was issued by the Commission July 17, 1975.

CHARLES A. TOBIN,  
Secretary.

[Docket 8991]

## PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

## Serr of Washington, D.C., Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.10 Advertising falsely or misleadingly; § 13.135 Nature of product or service; § 13.155 Prices; § 13.155-5 Additional charges unmentioned; § 13.170 Qualities or properties of product or service; § 13.170-24 Cosmetic or beautifying; § 13.170-30 Durability or permanence; § 13.195 Safety; § 13.205 Scientific or other relevant facts. Subpart—Contracting for sale in any form binding on buyer prior to specified time period: § 13.527 Contracting for sale in any form binding on buyer prior to end of specified time period. Subpart—Corrective actions and/or requirements: § 13.533 Corrective actions and/or requirements; § 13.533-10 Corrective advertising; § 13.533-20 Disclosures. Subpart—Misrepresenting oneself and goods—Goods: § 13.1685 Nature; § 13.1710 Qualities or properties; § 13.1730 Results; § 13.1740 Scientific or other relevant facts. —Prices: § 13.1778 Additional costs unmentioned. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1882 Prices; § 13.1882-10 Additional prices unmentioned; § 13.1885 Qualities or properties; § 13.1890 Safety; § 13.1892 Sales contract, right-to-cancel provision; § 13.1895 Scientific or other relevant facts; § 13.1905 Terms and conditions; § 13.1905-50 Sales contract. Subpart—Offering unfair, improper and deceptive inducements to purchase or deal: § 13.2063 Scientific or other relevant facts.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

In the Matter of Serr of Washington, D.C., Inc., a corporation, and Herb Mann, individually and as an officer of said corporation.

Consent order requiring a Washington, D.C., promoter of a hair implant replacement system, among other things to cease misrepresenting the nature, appearance and other related characteristics of its system; and failing to disclose that their system involves surgical procedures and continually requires special care. Further, respondents are required to devote 15% of all of their advertisements to warning prospective customers of the inherent dangers associated with their system of hair implant replacement.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

1. The System does not involve wearing a device or cosmetic which is like a hair-piece or toupee;

2. After the System has been applied, the hair applied becomes part of the anatomy like natural hair, and has the following characteristics of natural hair:

a. The same appearance in all applications as natural hair, upon normal observation, and upon extreme close-up examination;

b. It may be cared for like natural hair, particularly in that actions such as washing, combing, brushing and mousing might be performed on it in the same manner as might a person with natural hair;

c. The wearer may engage in physical activity and movement with the same disregard for his hair as he would if he had natural hair.

3. After the System has been applied, the wearer can care for it himself, and will not have to seek professional or skilled assistance in maintaining the System, and that the customer will not incur maintenance costs over and above the cost of applying the System.

It is further ordered, That respondents, in advertising, offering for sale, selling or distributing the System, disclose clearly and conspicuously that:

1. The System involves a surgical procedure resulting in the implantation of synthetic sutures in the scalp, to which hair is affixed.

Consent order requiring a Washington, D.C., promoter of a hair implant replacement system, among other things to cease misrepresenting the nature, appearance and other related characteristics of its system; and failing to disclose that their system involves surgical procedures and continually requires special care. Further, respondents are required to devote 15% of all of their advertisements to warning prospective customers of the inherent dangers associated with their system of hair implant replacement.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

## ORDER

It is ordered, That respondent Serr of Washington, D.C., Inc., a corporation, its successors and assigns and its officers, and Herb Mann, individually and as an officer of said corporation, and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division or other device or through franchisees or licensees, in connection with the advertising, offering for sale, sale, or distribution of the implant replacement system or other hair replacement product or process involving surgery (hereinafter sometimes referred to as the "System"), in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, or by the United States mails within the meaning of section 12(a)(1) of the Federal Trade Commission Act do forthwith cease and desist from representing, directly or by implication, that:

1. The System does not involve wearing a device or cosmetic which is like a hair-piece or toupee;

2. After the System has been applied, the hair applied becomes part of the anatomy like natural hair, and has the following characteristics of natural hair:

a. The same appearance in all applications as natural hair, upon normal observation, and upon extreme close-up examination;

b. It may be cared for like natural hair, particularly in that actions such as washing, combing, brushing and mousing might be performed on it in the same manner as might a person with natural hair;

c. The wearer may engage in physical activity and movement with the same disregard for his hair as he would if he had natural hair.

3. After the System has been applied, the wearer can care for it himself, and will not have to seek professional or skilled assistance in maintaining the System, and that the customer will not incur maintenance costs over and above the cost of applying the System.

It is further ordered, That respondents, in advertising, offering for sale, selling or distributing the System, disclose clearly and conspicuously that:

1. The System involves a surgical procedure resulting in the implantation of synthetic sutures in the scalp, to which hair is affixed.

1 Copies of the Complaint, Decision and Order, filed with the original document.

## RULES AND REGULATIONS

2. By virtue of the surgical procedure involving implantation of synthetic sutures in the scalp, and by virtue of the synthetic suture remaining in the scalp, there is a risk of discomfort, pain, infection, scarring, and other skin disorders.

3. Continuing special care of the System is necessary to minimize the probabilities and risks referred to in Subparagraph Two of this Paragraph, and such care may involve additional costs for medications and assistance.

4. The purchaser is advised to consult with his personal physician about the System before deciding whether to purchase it.

Respondents shall set forth the above disclosures separately and conspicuously from the balance of each advertisement or presentation used in connection with the advertising, offering for sale, sale, or distribution of the System, and shall devote no less than 15% of each advertisement or presentation to such disclosures. Provided, however, that in advertisements which consist of less than ten column inches in newspapers and periodicals, and in radio and television advertisements with a running time of one minute or less, respondents may substitute the following statement, in lieu of the above requirements:

Warning: This application involves surgery whereby synthetic sutures are placed in the scalp. Discomfort, pain, and medical problems may occur. Continuing care is necessary. Consult your own physician.

No less than 15% of such advertisements shall be devoted to this disclosure, such disclosure shall be set forth clearly and conspicuously from the balance of each of such advertisements, and if such disclosure is a newspaper or periodical, it shall be in at least eleven point type.

It is further ordered, That respondents, in connection with the sale of the System, provide prospective purchasers with a separate disclosure sheet containing the information required in the immediately preceding Paragraph of this Order, Subparagraphs One (1) through Four (4) thereof, and that respondents require that, prior to executing any contract to purchase said System, such prospective purchasers, sign and date the disclosure sheet after the sentence, "I have read the foregoing disclosures and understand what they mean," and that Serr of Washington, D.C., Inc. provide a copy of said disclosure sheet to the customer and retain such signed disclosure sheet for at least three years.

It is further ordered, That, in connection with the sale of the System, no contract for application of the System shall become binding on the purchaser prior to midnight of the third day, excluding Sundays and legal holidays, after the day on which said contract for application of the System was executed, and that:

1. Respondents shall clearly and conspicuously disclose, orally prior to the time of sale, and in writing on any contract, promissory note or other instrument executed by the purchaser in connection with the sale of the System, that the purchaser may rescind or cancel any obligation incurred by mailing or deliv-

ering a notice of cancellation to the office responsible for the sale prior to midnight of the third day, excluding Sundays and legal holidays, after the day on which said contract for application of the System was executed.

2. Respondents shall provide a separate and clearly understandable form which the purchaser may use as a notice of cancellation.

3. Respondents shall not negotiate any contract, promissory note, or other instrument of indebtedness to a finance company or other third party prior to midnight of the fifth day, excluding Sundays and legal holidays, after the day on which said contract for application of the System was executed.

It is further ordered, That respondents, in connection with the advertising, offering for sale, sale, or distribution of the System, serve a copy of this Order upon each present and every future licensee or franchisee, and upon each physician participating in application of respondents' System, and obtain written acknowledgment of the receipt thereof; and that respondents obtain from each present and future licensee or franchisee an agreement in writing, (1) to abide by the terms of this Order, and (2) to cancellation of their license or franchise for failure to do so; and that respondents cancel the license or franchise of any licensee or franchisee that fails to abide by the terms of this Order. Respondents shall retain such acknowledgments and agreements for so long as such persons or firms continue to participate in the application or sale of respondents' System.

It is further ordered, That respondents, in connection with the advertising, offering for sale, sale, or distribution of the System, forthwith distribute a copy of this Order to each of their operating divisions or departments.

It is further ordered, That the corporate respondent notify the Commission at least thirty (30) days prior to any proposed change in said respondent, such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, licensees, or franchisees, or any other change in the corporation which may affect compliance obligations arising out of the Order.

It is further ordered, That in the event that the corporate respondent merges with another corporation or transfers all or a substantial part of its business or assets to any other corporation or to any other person, said respondent shall require such successor or transferee to file promptly with the Commission a written agreement to be bound by the terms of this Order; provided that if said respondent wishes to present to the Commission any reasons why said Order should not apply in its present form to said successor or transferee, it shall submit to the Commission a written statement setting forth said reasons prior to the consummation of said succession or transfer.

It is further ordered, That the individual respondent Herb Mann promptly notify the Commission of the discontinuance of his present business or employ-

ment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission July 23, 1975.

CHARLES A. TOBIN,  
Secretary.

# PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

## The Standard Oil Co.

Subpart—Interlocking directorates unlawfully: § 13.1106 Interlocking directorates unlawfully.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45; sec. 8, 38 Stat. 732; 49 Stat. 717; 15 U.S.C. 19)

In the Matter of The Standard Oil Company, a corporation.

Consent order requiring a Cleveland, Ohio, energy company, among other things to cease permitting any individual to serve on its board of directors if such individual is or would be at the same time a director of Diamond Shamrock Corporation.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

## ORDER

I. It is ordered, That The Standard Oil Company, an Ohio corporation (Sohio), its successors and assigns, do forthwith cease and desist from permitting any individual to serve on its Board of Directors if such individual is or would be at the same time a director of Diamond Shamrock Corporation.

II. It is further ordered, That Sohio shall, within thirty days after service of this Order annually for a period ending five (5) years thereafter, request from each member of its Board of Directors a written statement which discloses the name, business, and location of operations of each other corporation of which such member is also a director, exclusive of The British Petroleum Company Limited, a United Kingdom Corporation, and any corporation in which Sohio or The British Petroleum Company Limited controls, directly or indirectly through subsidiaries, more than 50 percent of the voting stock; exclusive of any corporation which derives annual gross revenues of less than \$1,000,000 from the

exploration, production, and sale of natural gas and crude petroleum; and exclusive of any corporation not engaged in "commerce" as defined in section 1 of the Clayton Act as amended or Section 4 of the Federal Trade Commission Act.

III. It is further ordered, That for a period ending five (5) years after service of this Order, Sohio shall, at least thirty (30) days prior to any directors' meeting at which one or more directors will be elected or the mailing of proxy statements for any shareholder meeting at which one or more directors will be elected, request from each person who is being considered as a member of its Board of Directors, but has not been a member of the Board of Directors during the previous year, a written statement which discloses the information described in Paragraph II.

IV. It is further ordered, That for a period ending five (5) years after service of this Order, Sohio shall not permit on its Board of Directors any individual who fails to submit a written statement pursuant to Paragraphs — and —, or any person who is a director of another corporation named in response to the statements required pursuant to Paragraphs — and — when said statement reveals or when a reasonably diligent investigation would reveal to respondent that such other corporation is a competitor of Sohio by virtue of its business and location of operations in the exploration, production, or sale of crude petroleum or natural gas. If compliance with Paragraphs I and IV requires any member of Sohio's Board of Directors to resign or to be removed from the Board of Directors of Sohio or such other corporation, Sohio shall be allowed a reasonable period of time within which to take any legal or other steps which are necessary to secure compliance with this Order. For purposes of this Order, Sohio, The British Petroleum Company Limited and any corporation which Sohio or The British Petroleum Company Limited controls, directly or indirectly through subsidiaries, more than 50 percent of the voting stock shall not be considered competitors.

V. It is further ordered, That Sohio notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent which may affect compliance obligations arising out of this Order, such changes to include, but not be limited to, dissolution, assignment or sale resulting in the emergence of a successor corporation.

VI. It is further ordered, That respondent Sohio shall, within thirty (30) days after service upon it of this Order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this Order, and shall within sixty (60) days submit copies of those lists provided by all current directors of Sohio pursuant to Paragraphs — and — design-

nating all other corporations of which they are directors.

Decision and order issued by the Commission, July 17, 1975.

# PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

## Transcontinental Gas Pipe Line Corp.

Subpart—Interlocking directorates unlawfully: § 13.1106 Interlocking directorates unlawfully.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 19)

In the Matter of Transcontinental Gas Pipe Line Corp., a corporation.

Consent order requiring a Houston, Texas, energy company, among other things to cease permitting any individual to serve on its board of directors if such individual is or would be at the same time a director of El Paso Natural Gas Company.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

## ORDER

I. It is ordered, That Transcontinental Gas Pipe Line Corporation (Transcontinental), its successors and assigns, do forthwith cease and desist from permitting any individual to serve on its Board of Directors if such individual is or would be at the same time a director of El Paso Natural Gas Company.

II. It is further ordered, That Transcontinental shall, within thirty (30) days after service of this order, and annually for a period ending five (5) years thereafter, request from each member of its Board of Directors a written statement which discloses the name, business, and location of operations of each other corporation of which such member is also a director, exclusive of any corporation in which Transcontinental controls, directly or indirectly through subsidiaries, more than 50 percent of the voting stock; exclusive of any corporation which derives annual gross revenues of less than \$1,000,000 from the exploration, production and sale of natural gas; and exclusive of any corporation not engaged in "commerce" as defined in Section 1 of the Clayton Act as amended or Section 4 of the Federal Trade Commission Act.

III. It is further ordered, That for a period ending five (5) years after service of this order, Transcontinental shall, at least thirty (30) days prior to any directors' meeting at which one or more

<sup>1</sup> Copies of the Complaint, Decision and Order, filed with the original document.

directors will be elected or the mailing of proxy statements for any shareholder meeting at which one or more directors will be elected, request from each person who is being considered as a member of its Board of Directors, but has not been a member of the Board of Directors during the previous year, a written statement which discloses the information described in paragraph II.

IV. It is further ordered, That for a period ending five (5) years after service of this order, Transcontinental shall not permit on its Board of Directors any person who fails to submit a written statement pursuant to Paragraphs II and III, or any person who is a director of another corporation named in response to the statements required pursuant to Paragraphs II and III when said statement reveals or when a reasonably diligent investigation would reveal to respondent that such other corporation is a competitor of Transcontinental by virtue of its business and location of operations in the exploration, production or sale of natural gas. If compliance with Paragraphs I and IV requires any member of Transcontinental's Board of Directors to resign or to be removed from the Board of Directors of either Transcontinental or such other corporation, Transcontinental shall be allowed a reasonable time within which to take any legal or other steps which are necessary to secure compliance with this order.

V. It is further ordered, That Transcontinental notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent which may affect compliance obligations arising out of this order, such changes to include, but not be limited to, dissolution, assignment or sale resulting in the emergence of a successor corporation.

VI. It is further ordered, That respondent Transcontinental shall, within thirty (30) days after service upon it of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order, and shall within sixty (60) days submit copies of those lists provided by all current directors of Transcontinental pursuant to Paragraphs II and III designating all other corporations of which they are directors.

The Decision and Order was issued by the Commission July 17, 1975.

CHARLES A. TOBIN,  
Secretary.

Bradshaw, individually and as former officer of said corporation, and d/b/a Associated Systems, and d/b/a Atlas Systems, and d/b/a Coastway American Systems, and d/b/a Great Lakes Development Corporation, and d/b/a New Horizons Unlimited and others, and Eugene C. Kobylarz, individually and d/b/a New Horizons Unlimited, and d/b/a Rapidway Systems, and d/b/a Trailmasters, and d/b/a Roads and Lands.*

Consent order requiring an Indianapolis, Ind., training school for truck drivers and heavy equipment operators, among other things to cease using decep-

tive and unfair means to sell instruction courses or any other product or service.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

## ORDER

It is ordered, That respondents World Wide Systems, Inc., a corporation, its successors and assigns and Francis J. Witherbee, individually and as an officer of said corporation and doing business as Associated Systems, Atlas Systems, Coastway American Systems and Great Lakes Development Corporation and Steven L. Bradshaw, individually and as a former officer of said corporation and doing business as Associated Systems, Atlas Systems, Coastway American Systems, Great Lakes Development Corporation, New Horizons Unlimited and others, and Eugene C. Kobylarz, individually and doing business as New Horizons Unlimited, Rapidway Systems, Trailmasters and Roads and Lands, and respondents' officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale or distribution of courses of study and instruction in heavy equipment operation, truck driving or courses of study and instruction in any other subject, trade or vocation, or in connection with any other product or service, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, orally or in writing, that:

A. They are, or represent, or are affiliated with, construction or trucking companies or any industry for which enrollees of any courses offered by respondents are being trained; or misrepresenting, in any manner, the nature of their business.

B. Persons receiving training will, or may, earn any specified amounts or misrepresenting in any manner the prospective earnings of such persons after completion of said training.

C. They have been requested by construction and trucking companies or any other business or organization to train persons for specific jobs, or misrepresenting, in any manner, respondents' connection or affiliation with any industry or any member thereof.

D. Graduates of any courses offered by respondents will be qualified thereby for employment at jobs for which said graduates were purportedly trained when additional training or experience is required.

E. The nature of the initial payment by prospective enrollees of courses offered by respondents prior to the undertaking of a formal obligation to respondents is not that of a non-refundable tuition fee; or misrepresenting in any other manner the nature of any payment made by prospective enrollees of any courses offered by respondents.

<sup>1</sup> Copies of the Complaint, Decision and Order, filed with the original document.

F. They, or others, will permit enrollees of any courses to defer payment of the balance of the cost of said courses remaining after the initial or registration fee has been paid until after the enrollee has completed said courses and commenced employment; or misrepresenting in any other manner the terms or conditions under which payment is to be made for said courses.

G. They, or others, will handle or arrange financing of the balance of the cost of said courses remaining after the initial or registration fee has been paid, unless respondents, or others specifically named, will, in fact, handle or arrange said financing.

H. They, or others, provide a placement service which will secure a job for graduates of said courses.

I. Graduates of said courses are assured jobs as a consequence of graduation from said courses.

J. There is a substantial demand, or a demand of any size or proportion, for persons completing any of the courses offered by the respondents in the field of truck driving or heavy equipment operations, or any other field, or otherwise representing, orally or in writing, that opportunities of any type or number, are available to such persons, except as hereinafter provided in Paragraph 6 of this Order. Provided, however, that respondents shall cease and desist making such representations unless the respondents in each and every instance:

(1) until the passage of a base period to be determined pursuant to Paragraph 6(b) of Part I of this Order, after the establishment of a new school location by respondents in any metropolitan area or county, whichever is larger, where they did not previously operate a school, and after the introduction by respondents of any new course of instruction at any school or location, shall:

(A) have in good faith conducted a statistically valid survey which establishes the validity of any such representation at all times when the representation is made, and

(B) have disclosed in immediate and conspicuous conjunction with any such representation, that: "All representations for potential employment demand or opportunities for graduates of this school (course) are merely estimates. This school (course) has not been in operation long enough to indicate what, if any, actual employment may result upon graduation."

(2) After the passage of a base period to be determined pursuant to Paragraph 6(b) of Part I of this Order, and until two years after the establishment of a new school location by respondents in any metropolitan area or county, whichever is larger, where they did not previously operate a school, and after the introduction by respondents of any new course of instruction at any school or location, shall:

(A) make any representations in the form and manner provided in Paragraph 6(b) of Part I of this Order, and

(B) disclose in immediate and conspicuous conjunction with any such representation, that:

"This school (course) has not been in operation long enough to indicate what, if any, actual employment may result upon graduation."

2. Placing ads in "Help-Wanted" columns or representing by any means that employment is being offered when such offer is not a bona fide offer of employment.

3. Failing to disclose, in writing, clearly and conspicuously, prior to the signing of any contract, to any prospective enrollee of any course offered by respondents, the full cost of such courses including the fee for any home study lessons and for any residential training.

4. Failing to place the title "CONTRACT", in bold face type, or any document which evidences an agreement between a person and respondents relating to the purchase of any of the courses offered by respondents, and failing to remove from any such document the word "application", or words of similar import or meaning.

5. Failing to show each prospective purchaser the home study portion of said courses and allow said prospective purchaser a reasonable time for examination of said home study materials before said prospective purchaser has paid any money or has signed any contract, or has obligated himself in any other way.

6. Failing to send by certified mail, return receipt requested, to each person that shall contract with respondents for the sale of any course of instruction a notice, the specific provisions of which will be based upon the record in adjudicative proceedings in this matter, which shall disclose the following information and none other:

(a) The title "IMPORTANT INFORMATION" printed in bold face type across the top of the form.

(b) Paragraphs providing the following information computed in the manner and using a form and for a base period to be approved by the Commission:

(1) The placement rate, ratio or percentage for graduates, and also the numbers upon which such rates, ratios or percentages are based;

(2) A list of firms or employers which are currently hiring graduates of respondents' courses in substantial numbers and in the positions for which such graduates have been trained, and the number of such graduates hired, as to the same graduates used to compute the placement percentage in (b)(1) above;

(3) The salary range of respondents' graduates as to the same graduates used to compute the placement percentage in (b)(1) above;

(4) The percentage of enrollees who have failed to complete their course of instruction, such percentage to be computed separately for each course of instruction offered by respondents at each school, location or facility.

(c) An explanation of the cancellation procedure provided in this Order, namely that any contract or other agreement may be cancelled for any reason until midnight of the third business day after

receipt by the customer, via the U.S. Mails, of this notice.

(d) A detachable form which the person may use as notice of cancellation, which indicates the proper address for accomplishing any such cancellation.

This notice shall be sent by respondents no sooner than the next day after the person shall have contracted for the sale or any course of instruction; respondents, during such period provided for in subparagraph (c) above, shall not initiate contact with such person other than that required by this paragraph.

Provided, however, that subparagraph (b) above shall be inapplicable to any newly established school that respondents may establish in any metropolitan area or county, whichever is larger, where they did not previously operate a school, or to any course newly introduced by respondents, until such time as the new school or course has been in operation for the base period to be established pursuant to subparagraph (b) above. The following statement shall be included in such notice during such period:

"All representations of potential employment or salaries are merely estimates. This school (course) has not been in operation long enough to indicate what, if any, actual employment or salary may result upon graduation from this school (course)."

After such time as the new school or course has been in operation for the base period to be established pursuant to subparagraph (b) above, and until two years after the establishment of a new school location in any metropolitan area or county, whichever is larger, where they did not previously operate a school, or the introduction of any new course by respondents, the following statement shall be included in such notice:

"This school (course) has not been in operation long enough to indicate what, if any, actual employment or salary may result upon graduation from this school (course)."

7. Contracting for any sale of any course of instruction in the form of a sales contract or other agreement which shall become binding prior to midnight of the third business day after the date of receipt by the customer of the form of notice provided for in Paragraph 6 above. Upon cancellation of any said sales contract or other agreement as provided in Paragraph 6(c) above, respondents are obligated to refund within three business days to any person exercising the cancellation right, all monies paid or remitted up until the notice of cancellation.

8. Failing to disclose, clearly and conspicuously, in advertisements, in catalogs, brochures and on letterheads that respondents' business is solely and exclusively that of a private school, not affiliated with any members of the construction industry, the trucking industry or any member of any other industry.

9. Failing to refund promptly to purchasers who have cancelled their contracts such monies as may be due and owing according to the terms of such contracts.

II. 1. It is further ordered, That:

(a) Respondents herein deliver, by registered mail, a copy of this Decision and Order to each of their present and future franchisees, licensees, employees, sales representatives, agents, solicitors, brokers, independent contractors or to any other person who promotes, offers for sale, sells or distributes any course of instruction included within the scope of this Order;

(b) Respondents herein provide each person or entity so described in subparagraph (a) of this Paragraph with a form returnable to the respondents clearly stating his or her intention to be bound by and to conform his or her business practices to the requirements of this Order; retain said statement during the period said person or entity is so engaged; and make said statement available to the Commission's staff for inspection and copying upon request;

(c) Respondents herein inform each person or entity described in subparagraph (a) of this paragraph that the respondents will not use or engage or will terminate the use or engagement of any such party, unless such party agrees to and does file notice with the respondents that he or she will be bound by the provisions contained in this Order;

(d) If such party as described in subparagraph (a) of this paragraph will not agree to file the notice set forth in subparagraph (b) above with the respondents and be bound by the provisions of this Order, the respondents shall not use or engage or continue the use or engagement of such party to promote, offer for sale, sell or distribute any course of instruction included within the scope of this Order;

(e) Respondents herein inform the persons or entities described in subparagraph (a) above that the respondents are obligated by this Order to discontinue dealing with or to terminate the use or engagement of persons or entities who continue on their own the deceptive acts or practices prohibited by this Order;

(f) Respondents herein institute a program of continuing surveillance adequate to reveal whether the business practices of each said person or entity described in subparagraph (a) above conform to the requirements of this Order;

(g) Respondents herein discontinue dealing with or terminate the use or engagement of any person described in subparagraph (a) above, who continues in his or her own any act or practice prohibited by this Order as revealed by the aforesaid program of surveillance.

(h) Respondents herein maintain files containing all inquiries of complaints from any source relating to acts or practices prohibited by this Order, for a period of two years after their receipt, and that such files be made available for examination by a duly authorized agent of the Federal Trade Commission during the regular hours of the respondents' business for inspection and copying.

2. It is further ordered, That respondents herein present to each interested

applicant or prospective student immediately prior to the commencement of any interview or sales presentation during which the purchase of or enrollment in any course of instruction offered by respondents herein is discussed or solicited a 5" x 7" card containing only the following language:

**"YOU WILL BE TALKING TO A SALESPERSON"**

3. *It is further ordered.* That respondent corporation shall forthwith distribute a copy of this Order to each of its operating divisions.

4. *It is further ordered.* That the respondent World Wide Systems, Inc., shall notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sales resulting in the emergency of a successor corporation, the creation or dissolution of subsidiaries or any other change in the respondents which may affect compliance obligations arising out of this Order.

5. *It is further ordered.* That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business or employment in which they are engaged as well as a description of their duties and responsibilities.

*It is further ordered.* That the respondents herein shall within sixty (60) days after service upon them of this Order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this Order.

The Decision and Order was issued by the Commission July 16, 1975.

CHARLES A. TOBIN,  
Secretary.

[FR Doc.75-2354 Filed 9-4-75;8:45 am]

**Title 19—Customs Duties**

**CHAPTER I—UNITED STATES CUSTOMS SERVICE**

[TD 75-221]

**PART 112—CARRIERS, CARTMEN, AND LIGHTER MEN**

**Private Carriers of Bonded Merchandise**

On April 7, 1975, there was published in the FEDERAL REGISTER (40 FR 15389) a notice of a proposal to amend § 112.11 (a) (4) (iii) of the Customs Regulations (19 CFR 112.11 (a) (4) (iii)) to expand the authority granted to private carriers in the transportation of their own bonded merchandise.

Presently, § 112.11 (a) (4) (iii) of the Customs Regulations (19 CFR 112.11 (a) (4) (iii)) only permits a private carrier to carry his own bonded merchandise from the port of importation or port of entry for warehouse to his own bonded warehouse for physical deposit. Private carriers have advised the United States Customs Service that this limitation has resulted in an extravagant consumption of fuel and use of vehicles by prohibit-

ing possible "two-way" hauling operations that could be instituted if this limitation was removed.

In order to conserve fuel and to better utilize the vehicles and equipment of private carriers, it was proposed to amend § 112.11 (a) (4) (iii) of the Customs Regulations by also permitting a private carrier to transport his own merchandise under bond from his Customs bonded warehouse to another Customs bonded warehouse for physical deposit or, if for exportation, to transport his own merchandise under bond from his Customs bonded warehouse to a Customs bonded warehouse at the port of exportation. After consideration of the comments received in response to the notice of proposed rulemaking, it has been decided to adopt the proposed amendment without change.

Accordingly, § 112.11 (a) (4) (iii) of the Customs Regulations (19 CFR 112.11 (a) (4) (iii)) is amended to read as follows:

- § 112.11 Carriers which may be authorized.
- (a) \* \* \*
  - (4) \* \* \*
  - (iii) The merchandise is to be transported from the port of importation or port of entry for warehouse to the private carrier's Customs bonded warehouse for physical deposit, or from the private carrier's Customs bonded warehouse to another Customs bonded warehouse for physical deposit, or, if for exportation, from a Customs bonded warehouse of which the private carrier is the proprietor to a Customs bonded warehouse at the port of exportation.

(R.S. 251, as amended, secs. 551, 565, 624, 46 Stat. 742, as amended, 747, as amended, 759 (19 U.S.C. 66, 1551, 1565, 1624))

*Effective date.* This amendment will become effective October 7, 1975.

VERNON D. ACREE,  
Commissioner of Customs.

Approved: August 26, 1975.

DAVID R. MACDONALD,  
Assistant Secretary  
of the Treasury.

[FR Doc.75-23633 Filed 9-4-75;8:45 am]

[T.D. 75-220]

**PART 148—PERSONAL DECLARATIONS AND EXEMPTIONS**

**Public International Organizations Entitled to Free Entry Privileges**

By Executive Order No. 11866 signed June 18, 1975 (40 FR 26015), the President designated the World Intellectual Property Organization as a public international organization entitled to enjoy all the privileges, exemptions, and immunities provided for by the International Organizations Immunities Act of December 29, 1945 (59 Stat. 669).

The names of public international organizations currently designated as entitled to free entry privileges under the International Organizations Immunities Act are set forth in § 148.87 (b) of the

Customs Regulations (19 CFR 148.87 (b)) together with the number and date of the Executive order by which they were designated.

Accordingly, § 148.87 (b) is amended by the following addition (in proper alphabetical order):

Organization	Executive Order	Date
World Intellectual Property Organization	11866	June 18, 1975

(R.S. 251, as amended, secs. 498, 624, 46 Stat. 728, as amended, 759, sec. 1, 59 Stat. 669 (19 U.S.C. 66, 1498, 1624, 22 U.S.C. 288))

Inasmuch as these amendments merely correct the listing of organizations entitled by law to claim free entry privileges as public international organizations, notice and public procedure thereon is found to be unnecessary and good cause exists for dispensing with a delayed effective date under the provisions of 5 U.S.C. 553.

G. R. DICKERSON,  
Acting Commissioner of Customs.

Approved: August 26, 1975.

DAVID R. MACDONALD,  
Assistant Secretary  
of the Treasury.

**Title 20—Employees' Benefits**  
**CHAPTER II—RAILROAD RETIREMENT BOARD**

**PART 200—PROCEDURES AND FORMS**  
**PART 260—APPEALS WITHIN THE BOARD**

**Additional Types of Determinations**

This document provides a revision of the Board's Regulations with respect to the additional types of determinations, in addition to determinations on applications for benefits, which are considered to be "initial decisions" from which a claimant may appeal.

Pursuant to the general authority contained in section 10 of the act of June 24, 1937 (50 Stat. 314, as amended; 45 U.S.C. 228j), § 200.1 (a) of Part 200 (20 CFR 200.1 (a)) and §§ 260.1, 260.2 (a), (b), and (d) of Part 260 (20 CFR 260.1 and 260.2 (a), (b), and (d)) of the Regulations under such act are amended as follows:

§ 200.1 The general course and method by which the Board's functions are channeled and determined.

(a) *Retirement and death benefits.* Retirement and death benefits must be applied for by filing application therefor. (For details as to application, see Parts 210 and 237 of this chapter.) The Bureau of Retirement Claims considers the application and the evidence and information submitted with it. Wage and service records maintained by the Board are checked and if necessary, further evidence is obtained from the employee, the employer, fellow employees, public records and any other person or source

available. The Bureau makes initial decisions on the following matters:

- (1) Applications for benefits;
- (2) Requests for the withdrawal of an application;
- (3) Requests for a change in an annuity beginning date;
- (4) The termination of an annuity;
- (5) The modification of the amount of an annuity or lump sum;
- (6) Requests for the reinstatement of an annuity which had been terminated or modified;
- (7) The existence of an erroneous payment; and
- (8) The eligibility of an individual for a supplemental annuity or the amount of such supplemental annuity.

A claimant dissatisfied with the Bureau's decision may, upon filing notice within one year from the date the decision is mailed to the claimant, appeal to the Bureau of Hearings and Appeals. There he may have an oral hearing before a referee of which a stenographic record is made, submit additional evidence, be represented, and present written and oral argument. If dissatisfied with the decision of the referee, the claimant may appeal to the Board itself. This appeal must be made on a prescribed form within four months of the date a copy of the referee's decision was mailed to him. If new evidence is received, the Board may remand the case to the referee for investigation and recommendation concerning the new evidence. (For details on appeals procedure, see Part 260 of this chapter.) A claimant, after he has unsuccessfully appealed to the Board itself and has thus exhausted all administrative remedies within the Board, may obtain a review of a final decision of the Board by filing a petition for review, within one year after the entry of the decision on the records of the Board and its communication to the claimant, in the United States court of appeals for the circuit in which the claimant resides, or in the United States Court of Appeals for the Seventh Circuit, or in the United States Court of Appeals for the District of Columbia Circuit.

§ 260.1 Initial decisions by the Bureau of Retirement Claims.

- (a) Claims shall be adjudicated and initial decisions made by the Bureau of Retirement Claims concerning:
- (1) Applications for benefits;
- (2) Requests for the withdrawal of an application;
- (3) Requests for a change in an annuity beginning date;
- (4) The termination of an annuity;
- (5) The modification of the amount of an annuity or lump sum;
- (6) Requests for the reinstatement of an annuity which had been terminated or modified;
- (7) The existence of an erroneous payment; and
- (8) The eligibility of an individual for a supplemental annuity or the amount of such supplemental annuity.

Adjudication and initial decision shall be in accordance with instructions issued

by the Director of the Bureau and shall be made upon the basis of evidence submitted by the claimant and evidence otherwise available.

(b) Notice of an initial decision shall be communicated by the Bureau of Retirement Claims to the claimant in writing within thirty days after such decision is made.

§ 260.2 Appeal from an initial decision of the Bureau of Retirement Claims.

(a) Every claimant shall have a right to appeal to the Bureau of Hearings and Appeals from any initial decision of the Bureau of Retirement Claims by which he claims to be aggrieved.

(b) Appeal from an initial decision of the Bureau of Retirement Claims shall be made by the execution and filing of the appeal form prescribed by the Board. Such appeal must be filed with the Bureau of Hearings and Appeals within one year from the date upon which notice of the initial decision is mailed to the claimant at the address furnished by him.

(d) Within a reasonable time after the claimant has filed a properly executed appeal, the Director of the Bureau of Hearings and Appeals shall appoint a referee to act in the appeal. Such referee shall not have any interest in the parties or in the outcome of the proceedings, shall not have directly participated in the initial decision from which the appeal is made, and shall not have any other interest in the matter which might prevent a fair and impartial decision.

By Authority of the Board.

Dated: August 29, 1975.

[SEAL] R. F. BUTLER,  
Secretary of the Board.

[FR Doc.75-23653 Filed 9-4-75;8:45 am]

**Title 21—Food and Drugs**

**CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE**

**PART 121—FOOD ADDITIVES**

**PART 556—TOLERANCES FOR RESIDUES OF NEW ANIMAL DRUGS IN FOOD**

**Medroxyprogesterone Acetate**

Elsewhere in this issue of the FEDERAL REGISTER, the Commissioner of Food and Drugs is issuing a notice withdrawing approval for use of the drug Repromix (contains medroxyprogesterone acetate for the synchronization of estrus and ovulation in breeding cattle and ewes). Use of the drug was provided for by new animal drug application No. 13-578V held by The Upjohn Co., Kalamazoo, MI 49001.

The notice is based on a request from the firm that the application be withdrawn since the drug is no longer being marketed. Since approval of the drug product is being withdrawn, corresponding regulations in Parts 121 and 556 (21 CFR Parts 121, 556), which provide for the use of the drug in feed and establish

an appropriate tolerance for residues in food, are accordingly revoked.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512 (i), 82 Stat. 340-351 (21 U.S.C. 360b (i))) and under the authority delegated to him (21 CFR 2.120), Parts 121 and 556 are amended as follows:

§ 121.276 [Revoked]

1. In Part 121, § 121.276 *Medroxyprogesterone acetate* is revoked.

§ 556.370 [Revoked]

2. In Part 556, § 556.370 *Medroxyprogesterone acetate* is revoked.

*Effective date.* This regulation becomes effective September 5, 1975.

(Sec. 512 (i), 82 Stat. 340-351 (21 U.S.C. 360b (i)))

Dated: August 28, 1975.

SAM D. FINE,  
Associate Commissioner  
for Compliance.

**CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE**

[Lemon Regulation 9]

**PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA**

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period September 7-13, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

**§ 910.309 Lemon Regulation 9.**

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is active on all fruit, thus for this week. Average f.o.b. price was \$7.99 per carton the week ended August 30, 1975, compared to \$7.48 per carton the previous week. Track and rolling supplies at 102 cars were down 10 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on September 2, 1975.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which

may be handled during the period September 7, 1975, through September 13, 1975, is hereby fixed at 225,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674))

Dated: September 3, 1975.

CHARLES R. BRADER,  
Deputy Director, Fruit and  
Vegetable Division, Agricultural  
Marketing Service.

[FR Doc.75-23842 Filed 9-4-75; 11:22 am]

**CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE**

[CCC Grain Price Support Regulations, 1975 Crop Peanut Farm-Stored Loan and Purchase Supplement]

**PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES**

Loan and Purchase Rates

On January 27, 1975, notice of proposed rulemaking regarding loan and purchase rates for 1975 crop peanuts and operating provisions to carry out the 1975 crop peanut loan and purchase program was published in the FEDERAL REGISTER, 40 FR 4019.

Six responses were received from individual producers and other interested parties. None of the written comments, suggestions, or objections received, pertained to the aspects of the loan and purchase program covered by this subpart. The regulations contained in 7 CFR, §§ 1421.291 through 1421.295 are revised to read as follows, effective as to the 1975 crop of peanuts. The material previously appearing in these sections remains in full force and effect as to the crops to which it was applicable.

**Subpart—1975 Crop Farm Stored Peanut Loan and Purchase Program**

Sec.  
1421.291 Purpose.  
1421.292 Availability.  
1421.293 Maturity of loans.  
1421.294 Loan and purchase rates.  
1421.295 Eligible peanuts.

AUTHORITY: Secs. 4 and 5, 62 Stat. 1070, as amended (15 U.S.C. 714 (b) and (c)); Secs. 101, 401, 403 and 405, 63 Stat. 1051, as amended (7 U.S.C. 1441, 1421, 423, 425).

**Subpart—1975 Crop Farm Stored Peanut Loan and Purchase Program**

**§ 1421.291 Purpose.**

This supplement contains program provisions which, together with the applicable provisions of the General Regulations Governing Price Support for the 1970 and Subsequent Crops of Grains and Similarly Handled Commodities (35 FR 7363 and 7761, 7 CFR 1421.1-29), as amended, and the provisions of the 1970 and Subsequent Crops Peanut Farm-Stored Loan and Purchase Supplement (35 FR 12706, 7 CFR 1421.280-289), as amended, (hereinafter referred to as "the continuing supplement"), which contain regulations of a general nature with re-

## RULES AND REGULATIONS

spect to loan and purchase operations, apply to farm-stored loans and purchases for the 1975 crop of peanuts.

**§ 1421.292 Availability.**

(a) *Farm-stored loans.* Producers must request a loan on 1975 crop eligible peanuts on or before March 31, 1976.

(b) *Purchases.* Producers desiring to offer for purchase, eligible peanuts not under loan must execute and deliver to the appropriate county ASCS office, on or before April 30, 1976, a Purchase Agreement (Form CCC-614) indicating the approximate quantity of 1975 crop peanuts he may sell to CCC.

**§ 1421.293 Maturity of loans.**

Unless demand is made earlier, farm-stored loans on farmers' stock peanuts will mature on April 30, 1976.

**§ 1421.294 Loan and purchase rates.**

(a) *Loan rate.* Subject to the discounts specified in paragraph (b) of this section, the loan rates for farmers' stock peanuts placed under farm-stored loan shall be the following rates by types per ton:

Type:	Dollars per ton
Virginia	394
Runner	399
Southeast Spanish	385
Southwest Spanish	381
Valencia (suitable for cleaning and roasting in southwest)	394

(b) *Location adjustment to support prices.* The loan rates specified in paragraph (a) of this section shall be subject to the following discounts for farmers' stock peanuts placed under a farm-stored loan in the States specified where peanuts are not customarily shelled or crushed:

State:	Dollars per ton
Arizona	25
Arkansas	10
California	33
Louisiana	7
Mississippi	10
Missouri	10
Tennessee	25

(c) *Settlement values.* The support prices, premiums, and discounts for use in computing the settlement value, under § 1421.289(b) (2) of the continuing supplement, of peanuts acquired by CCC under loan or purchase shall be those specified in § 1446.12 of the 1975 crop peanut warehouse storage loan supplement (39 FR 26715, 7 CFR 1446.12), including the location adjustments specified therein for peanuts delivered to CCC in States where peanuts are not customarily shelled or crushed.

**§ 1421.295 Eligible peanuts.**

In addition to meeting the requirements of § 1421.228 of the continuing supplement, farmers' stock peanuts to be

The price for all Valencia-type peanuts in the Southeast and Virginia-Carolina areas and for those Valencia-type peanuts in the Southwest area which are not suitable for cleaning and roasting will be the same as for Spanish-type peanuts in the same area.

eligible for farm-stored loan and purchase must be free of *Aspergillus flavus* mold as determined by a Federal-State inspector.

Effective date: September 5, 1975.

Signed at Washington, D.C., on August 27, 1975.

KENNETH E. FRICK,

[CCC Grain Price Support Regulations, 1975 Crop Honey Supplement]

**PART 1434—HONEY**

Purchase Rates

On January 15, 1975, notice of proposed rulemaking regarding purchase rates for 1975 crop honey and detailed operating provisions to carry out the 1975 crop honey purchase program was published in the FEDERAL REGISTER (40 FR 2726).

Two responses were received, one from an interested individual honey producer and the other from a marketing association. The responses recommended that a proposed purchase program permit producers to make declaration of intent to sell honey to CCC through March 31 for the previous year's production, that producers be notified of their delivery date and destination by June 1, and that delivery be made by producers on or about July 1. Specific delivery dates are not being adopted by CCC because of their impracticability under the purchase program.

The regulations contained in 7 CFR 1434.40 through 1434.44 are revised to read as follows, effective as to 1975 crop honey. The material previously appearing in these sections remains in full force and effect as to the crops to which it was applicable.

**Subpart—1975 Crop Honey Purchase Program**

Sec.  
1434.40 Purpose.  
1434.41 Availability.  
1434.42 Purchase rates.  
1434.43 Discounts.

AUTHORITY: Secs. 4 and 5, 62 Stat. 1070, as amended (15 U.S.C. 714 b and c); Secs. 201, 401, 63 Stat. 1052, 1054 (7 U.S.C. 1446, 1421).

**Subpart—1975 Crop Honey Purchase Program**

**§ 1434.40 Purpose.**

This subpart contains program provisions which, together with (a) the Honey Purchase Regulations for 1975 and Subsequent Crops (40 FR 30798), (b) the Cooperative Marketing Association Eligibility Requirements for Price Support in Part 1425 of this chapter, and (c) any amendments to such regulations set forth the requirements with respect to purchases of 1975-crop honey.

**§ 1434.41 Availability.**

Producers desiring to offer eligible honey for purchase must complete a pur-

titration method used in paragraph (c)

chase agreement (Form CCC-614) at the county ASCS office on or before March 31, 1976.

#### § 1434.42 Purchase rates.

(a) *Table and nontable honey.* The rate for the quantity of 1975-crop honey purchased shall be the rate for the respective class and color set forth below:

Class and color:	Cents per pound
Table honey:	
1. White and lighter.....	26.3
2. Extra light amber.....	25.3
3. Light amber.....	24.3
4. Other table honey.....	22.3
Nontable honey.....	22.3

(b) *Objectionable flavor, fermentation, or caramelization.* The settlement value for a lot of honey delivered for purchase which grades substandard on account of objectionable flavor, fermentation, or caramelization shall be the lower of its market value as determined by CCC or a value determined on the basis of the purchase rate for nontable honey.

(c) *Grade not certified.* The settlement value for a lot of honey for purchase on which the grade cannot be certified shall be the lower of its market value as determined by CCC or a value as determined on the basis of the purchase rate for nontable honey.

(d) *Substandard.* The rate for a lot of honey delivered for purchase which grades substandard on account of defects or moisture or a combination of defects and moisture shall be adjusted by the discounts in § 1434.43.

#### § 1434.43 Discounts.

(a) *Defects.* The purchase rate for a lot of honey delivered for purchase which grades substandard on account of defects shall be adjusted by the following discount:

Substandard account of:	Discount (cents per pound)
Defects.....	2

(b) *Moisture.* The purchase rate for a lot of honey delivered for purchase which contains moisture in excess of 18.5 percent shall be adjusted by the following discounts which shall be in addition to the discount for defects:

Moisture (percent):	Discount (cents per pound)
18.5.....	\$0.0
19.0.....	.5
19.5.....	1.0
20.0.....	1.5
20.5.....	2.0
21.0.....	2.5
21.5.....	3.0
22.0.....	3.5
22.5.....	4.0
23.0.....	4.5
23.5.....	5.0
24.0.....	5.5
24.5.....	6.0

(c) *Commingled storage.* The purchase rate for a lot of honey tendered for purchase by CCC while stored commingled in a warehouse, or delivered to a warehouse in bulk, shall be adjusted by the following discount:

#### RULES AND REGULATIONS

Discount (cents per pound)

Bulk commingled..... 1.5

#### Title 9—Animals and Animal Products

#### CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

#### SUBCHAPTER E—VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS: ORGANISMS AND VECTORS

#### PART 113—STANDARD REQUIREMENTS

#### Miscellaneous Amendments

• Purpose: To make minor editorial changes for scientific accuracy in the choice of words and to correct spelling and printing errors.

Pursuant to the authority contained in the Virus-Serum-Toxin Act of March 4, 1913 (21 U.S.C. 151-158), Part 113, Subchapter E, Chapter 1 of Title 9 of the Code of Federal Regulations is amended by making corrections as follows:

"Perfringens" was incorrectly capitalized in § 113.96 and § 113.97 and the plural of "gram" was incorrectly used in § 113.97. The word "samples" was inadvertently omitted from § 113.162(d)(3) and "per chicken" from § 113.164(e)(2)(iii). An incorrect reference was made in § 113.164(e)(3)(i). The word "centrifuge" was misprinted in § 113.202(a).

For scientific accuracy, "Potency Test" has been changed to "Virus titer requirements" and "0.7 logs" has been changed to  $10^{0.7}$  where they occur in paragraphs 113.139(d)(2), 113.140(d)(2), 113.141(d)(2), 113.142(d)(3), 113.143(c)(3)(v), 113.144(d)(3), 113.145(d)(3), 113.146(d)(3), 113.160(d)(3), 113.161(d)(2), 113.162(d)(3)(iii), 113.163(d)(3), and 113.164(d)(3). Other minor editorial changes have been made for correctness, consistency, and clarity.

Also for consistency, the parenthesis has been deleted from the headings for sections 113.125, 113.128, and 113.129.

All words in the headings should be capitalized.

1. Section 113.96 is amended by revising the introductory paragraph to read:

§ 113.96 *Clostridium Perfringens* Type C Toxoid and Bacterin-Toxoid.

*Clostridium Perfringens* Type C Toxoid and *Clostridium Perfringens* Type C Bacterin-Toxoid shall be produced from a culture of *Clostridium perfringens* Type C which has been inactivated and is non-toxic. Each serial shall meet the applicable requirements in § 113.85 and shall be tested for purity, safety, and potency as prescribed in this section. Any serial found unsatisfactory by a prescribed test shall not be released.

2. Section 113.97 is amended by revising the introductory paragraph and paragraph (c)(1)(vi) to read:

§ 113.97 *Clostridium Perfringens* Type D Toxoid and Bacterin-Toxoid.

*Clostridium Perfringens* Type D Toxoid and *Clostridium Perfringens* Type D Bacterin-Toxoid shall be produced from a culture of *Clostridium perfringens* Type D which has been inactivated and is non-toxic. Each serial shall meet the applicable requirements in § 113.85 and shall be tested for purity, safety, and potency as prescribed in this section. Any serial found unsatisfactory by a prescribed test shall not be released.

(c) \* \* \*

(vi) *Diluent.* The solution used to make proper dilutions prescribed in this test. Such solutions shall be made by dissolving 1 gram of peptone and 0.25 gram of sodium chloride in each 100 ml of distilled water; adjusting the pH to 7.2; autoclaving at 250° F for 25 minutes; and storing at 4° C until used.

3. Section 113.125 is amended by revising the heading to read:

§ 113.125 *Newcastle Disease Vaccine, Killed Virus.*

§ 113.128 *Avian Encephalomyelitis Vaccine, Killed Virus.*

4. Section 113.128 is amended by revising the heading as set forth above.

§ 113.129 *Rabies Vaccine, Killed Virus.*

5. Section 113.129 is amended by revising the heading as set forth above.

6. Section 113.139 is amended by revising paragraph (d)(2) to read:

§ 113.139 *Feline Panleukopenia Vaccine.*

(d) \* \* \*

(2) *Virus titer requirements.* Final container samples of completed product shall be tested for virus titer using the titration method used in paragraph (c)(2) of this section. To be eligible for release, each serial and each subserial shall have a virus titer sufficiently greater than the titer of vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer of  $10^{0.7}$  greater than that used in such immunogenicity test but not less than  $10^{0.5}$  ID<sub>50</sub> per dose.

7. Section 113.140 is amended by revising paragraph (d)(2) to read:

§ 113.140 *Canine Hepatitis Vaccine.*

(d) \* \* \*

(2) *Virus titer requirements.* Final container samples of completed product shall be tested for virus titer using the titration method used in paragraph (c)(2) of this section. To be eligible for release, each serial and each subserial shall

have a virus titer sufficiently greater than the titer of vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer of  $10^{0.7}$  greater than that used in such immunogenicity test but not less than  $10^{0.5}$  TCID<sub>50</sub> per dose.

8. Section 113.141 is amended by revising paragraph (d)(2) to read:

§ 113.141 *Canine Distemper Vaccine, Ferret Avirulent.*

(d) \* \* \*

(2) *Virus titer requirements.* Final container samples of completed product shall be tested for virus titer using the titration method used in paragraph (c)(2) of this section. To be eligible for release, each serial and each subserial shall have a virus titer sufficiently greater than the titer of vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer of  $10^{0.7}$  greater than that used in such immunogenicity test but not less than  $10^{0.5}$  ID<sub>50</sub> per dose.

9. Section 113.142 is amended as follows:

§ 113.142 *Canine Distemper Vaccine, Ferret Virulent.*

(d) \* \* \*

(3) *Virus titer requirements.* Final container samples of completed product shall be tested for virus titer using the titration method used in paragraph (c)(2) of this section. To be eligible for release, each serial and each subserial shall have a virus titer sufficiently greater than the virus dose used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer of  $10^{0.7}$  greater than that used in such immunogenicity test but not less than  $10^{0.5}$  TCID<sub>50</sub> per dose.

13. Section 113.146 is amended by revising paragraph (d)(3) to read:

§ 113.146 *Bovine Virus Diarrhea Vaccine.*

(d) \* \* \*

(3) *Virus titer requirements.* Final container samples of completed product shall be tested for virus titer using the titration method used in paragraph (c)(2) of this section. To be eligible for release, each serial and each subserial shall have a virus titer sufficiently greater than the titer of vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer of  $10^{0.7}$  greater than that used in such immunogenicity test but not less than  $10^{0.5}$  TCID<sub>50</sub> per dose.

10. Section 113.143 is amended by revising paragraph (c)(3)(v) to read:

§ 113.143 *Encephalomyelitis Vaccine, Venezuelan.*

(c) \* \* \*

(3) \* \* \*

(v) Final container samples of completed product shall be tested for virus titer. To be eligible for release, each serial of vaccine shall have a GPIPID<sub>50</sub> titer of sufficiently greater than the titer of vaccine virus used in the immunogenicity test prescribed in paragraph (b) of this section to assure that when tested at any time within the expiration period, each serial shall have a GPIPID<sub>50</sub> titer  $10^{0.7}$  greater than that used in such immunogenicity test but not less than  $10^{0.5}$  GPIPID<sub>50</sub> per dose.

11. Section 113.144 is amended by revising paragraph (d)(3) to read:

§ 113.144 *Bovine Parainfluenza Vaccine.*

(d) \* \* \*

(3) \* \* \*

(3) *Virus titer requirements.* Final container samples of completed product shall be tested for virus titer using the titration method used in paragraph (c)(2) of this section. To be eligible for release, each serial and each subserial shall have a virus titer sufficiently greater than the titer of vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer of  $10^{0.7}$  greater than that used in such immunogenicity test but not less than  $10^{0.5}$  TCID<sub>50</sub> per dose.

14. Section 113.160 is amended by revising paragraph (d)(3) and the introductory paragraph in (e) to read:

§ 113.160 *Avian Encephalomyelitis Vaccine.*

(d) \* \* \*

(3) \* \* \*

(3) *Virus titer requirements.* Final container samples of completed product shall be tested for virus titer using the

shall be tested for virus titer using the titration method provided in paragraphs (c) (2) or (3) of this section. To be eligible for release, each serial and each subserial shall have a virus titer sufficiently greater than the titer of vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer of  $10^{5.5}$  greater than that used in such immunogenicity test but not less than  $10^{5.0}$  EID<sub>50</sub> per dose for chicken embryo origin vaccine and  $10^{5.0}$  EID<sub>50</sub> or  $10^{5.0}$  TCID<sub>50</sub> per dose for tissue culture origin vaccine.

18. Section 113.164 is amended by revising paragraphs (b), (d) (3), (e) (1), (e) (2) (iii), and (e) (3) (i) to read:  
§ 113.164 Newcastle Disease Vaccine.

(b) Each lot of Master Seed Virus shall be tested for pathogens by the chicken embryo inoculation test prescribed in § 113.37, except that, if the test is inconclusive because of a vaccine virus override, the test may be repeated and if the repeat test is inconclusive for the same reason, the chicken inoculation test prescribed in § 113.36 may be conducted and the virus judged accordingly.

(3) *Virus titer requirements.* Final container samples of completed product shall be tested for virus titer using the titration method used in paragraph (c) (2) of this section. To be eligible for release, each serial and each subserial shall have a virus titer sufficiently greater than the titer of vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer of  $10^{5.5}$  greater than that used in such immunogenicity test but not less than  $10^{5.0}$  EID<sub>50</sub> per dose.

(1) A virus titration shall be conducted on final container samples of completed product in accordance with the titration methods used in paragraph (c) (2) of this section. A serial or subserial which does not contain at least  $10^{5.5}$  EID<sub>50</sub> per dose of Newcastle disease virus through the expiration date is unsatisfactory.

(iii) Twenty to twenty-eight days post-vaccination, the vaccinates and the controls shall be challenged intramuscularly with at least  $10^{5.5}$  EID<sub>50</sub> per chicken of Newcastle disease virus provided or approved by Veterinary Services. The chickens shall be observed each day for 14 days.

(i) Vaccines recommended for use in chickens 10 days of age or younger shall be tested in accordance with paragraphs (d) (2) (i), (ii), and (iii) of this section.

(37 Stat. 832-833; 21 U.S.C. 151-158)

These amendments are administrative or editorial and the changes are corrective or conformative in nature and make no substantive changes in the affected regulations.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure concerning the amendments are impracticable and unnecessary, and good cause is found for making the amendments effective less than 30 days after publication in the FEDERAL REGISTER.

The foregoing amendments shall become effective upon issuance.

Done at Washington, DC, this 29th day of August 1975.

PIERRE A. CHALOUX,  
Acting Deputy Administrator,  
Veterinary Services, Animal  
and Plant Health Inspection  
Service.

#### Title 12—Banks and Banking CHAPTER VII—NATIONAL CREDIT UNION ADMINISTRATION

##### PART 701—ORGANIZATION AND OPERATION OF FEDERAL CREDIT UNIONS

###### Cashing Checks and Money Orders

On pages 30291-30292 of the July 18, 1975, edition of the FEDERAL REGISTER (40 FR 30291-30292) there was published a proposal to amend Part 701 (12 CFR 701) by revising § 701.23(d). The purpose of the proposal is to give to each Federal credit union the option of charging a fee when the cashing of a check or money order is not applied in its entirety for payment of a loan, payment of interest, payment of any obligation to the credit union, or the purchase of shares. Interested persons were given until August 11, 1975, to submit written comments, suggestions and objections regarding the proposed amendment. As a result of the comments, no changes were deemed necessary.

Accordingly, the proposed amendment to Part 701 (12 CFR 701) is adopted as set forth below and is effective immediately.

HERMAN NICKERSON, Jr.,  
Administrator.

AUGUST 28, 1975.

(Sec. 120, 73 Stat. 635, (12 U.S.C. 1766) and Sec. 209, 84 Stat. 1014, (12 U.S.C. 1789))

##### § 701.23 Cashing checks and money orders.

(d) No fee shall be charged by a Federal credit union to a member for the cashing of a check or money order when such check or money order is applied in its entirety for payment of a loan, payment of interest, payment of any obligation to the credit union, or the purchase of shares. Nor shall any fee be charged to the member for the cashing of a check or money order drawn by the Federal credit union on its own bank account and

issued to the member in connection with a withdrawal by the member from a share account or in connection with the disbursement of a loan.

#### Title 14—Aeronautics and Space CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 75-WE 1 AD; Amdt. 39-2357]

##### PART 39—AIRWORTHINESS DIRECTIVES AirResearch Model GTC660-4 and -4R Auxiliary Power Units (APU)

Pursuant to a Notice of Proposed Rule Making, published June 12, 1975, in the FEDERAL REGISTER, (40 FR 25027), the agency proposed to amend Amendment 39-2108 (40 FR 8541), AD 75-05-17, as amended by Amendment 39-2224 (40 FR 23722), to require accomplishment of modifications and inspections described in AirResearch Service Bulletin GTC660-49-3713, dated May 15, 1975, or later FAA-approved revisions, within six months of the effective date of the adopted rule on certain Boeing 747 aircraft. When the modifications and inspections were performed, the placard required by paragraph (a) of the AD may be removed, and the inspections required by paragraph (b) may be discontinued.

The agency considered the incorporation of these modifications and inspections as necessary to minimize the hazard of injury to persons near the aircraft during ground operations.

Interested persons have been afforded an opportunity to participate in the making of the amendment.

Three comments were received. The Air Transport Association on behalf of member air carriers, British Airways, and Belgian World Airlines (Sabena), as Central Agency for the ATLAS group (Air France, Lufthansa, Alitalia, Iberia and Sabena) submitted comments. The comments stressed problems of parts availability, scheduling capabilities of the operators, and spare APU availability; Sabena also noted that there had been only one penetration of the aircraft Body Station 2658 firewall due to non-containment of fragments during over more than 2,900,000 total aircraft hours of operation. Based on the foregoing, the comments requested substantial extensions of the compliance time within which the actions were to be taken in the adopted rule, while concurring in the agency's intent to effect a terminating action with some time frame.

The Sabena comment referencing the incident in which there had been penetration of the firewall at Body Station 2658 is true, but is not pertinent to the agency's intent to protect ground personnel from shrapnel piercing the adjacent fuselage. In addition to the fragments which pierced the forward firewall of the APU compartment during the incident cited above, there were numerous fragments which penetrated the lower sur-

face of the APU compartment and could have endangered ground personnel and produced a condition which could impair fire containment because of firewall degradation.

With respect to the compliance time proposed in the Notice of Proposed Rule Making, it is to be noted that the agency previously, by Amendment 39-2224, referenced above, issued on May 21, 1975, and made effective on June 5, 1975, authorized the operators to incorporate the modifications and inspections of the manufacturer's service bulletin as a terminating action to the placard requirement of paragraph (a) of the AD, and the inspections of paragraph (b). Amendment 39-2224 was adopted as an immediately adopted rule, as it provided an alternative means of compliance, which, when performed, relieved the operators of the AD requirements, as indicated above. The agency believes that the operators, both in the interest of safety for the ground personnel involved, and the advantages of eliminating the restrictions of the AD, would have been incorporating the actions set forth in the service bulletin on a scheduled basis even before the issuance of the Notice. And, while it is true that there has been but one incident involving the failure to contain the fragments of the APU, the potential hazard presented by the occurrence is sufficiently serious to warrant effective corrective action at the earliest time, and on a practicable basis.

The ATA comment suggested a compliance time of 24 months or 1,000 hours time in service on the APU, whichever occurs later.

British Airways suggested a date of June 30, 1976. Sabena suggested that the service bulletin be incorporated the first time the APU is removed from the airplane with a maximum delay of 24 months after the effective date of the amendment.

The agency has considered these comments. In the interest of safety in aviation, the agency believes that the compliance time adopted herein, namely, on or before July 1, 1976, to do the work, represents a reasonable standard.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-2108 (40 FR 8541), AD 75-05-17, as amended by Amendment 39-2224 (40 FR 23722), is further amended, by revising paragraph (c) to read:

##### § 39.13 [Amended]

(c) The modifications and inspections described in AirResearch Bulletin GTC660-49-3713, dated May 15, 1975, or later FAA-approved revisions must be incorporated on or before July 1, 1976. Upon completion of these modifications and inspections, the placard required by paragraph (a), above, may be removed and the inspections required by (b), above, may be discontinued.

This amendment becomes effective October 6, 1975.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California on August 21, 1975.

LYNN L. HINK,  
Acting Director,  
FAA Western Region.

[FR Doc. 75-23488 Filed 9-4-75; 8:45 am]

[Airworthiness Docket No. 75-SW-11, Amdt. 39-2350]

##### PART 39—AIRWORTHINESS DIRECTIVES Bell Models 206A, 206B, 206A-1, and 206B-1 Helicopters

Amendment 39-2122 (40 FR 10661), AD 75-06-03, as revised by Amendment 39-2146 (40 FR 14297) requires an immediate and a 100-hour repetitive inspection for possible cracks in the upper and lower clevis on each main rotor blade pitch link assembly, P/N 206-010-330 or 206-010-342, and an inspection of the outer swashplate ring horn bearings for excessive breakaway torque on Bell Models 206A, 206B, 206A-1 and 206B-1 helicopters. After issuing Amendment 39-2122, AD 75-06-03, and Amendment 39-2146, the agency has been informed of satisfactory service history on the affected clevises and helicopters by several operators and by the Helicopter Association of America. Bell Helicopter Company has inspected approximately 40 clevises with alleged cracks that were returned to them as prescribed in the Mailgram dated February 15, 1975, from Bell Helicopter Company to all 206A, 206B, and TH57A operators. None of these clevises had cracks in the threaded shanks. Amendment 39-2122, AD 75-06-03, has been in effect since March 12, 1975, and the FAA has not received a confirmed case of a cracked clevis as a result of this AD. Based on this information and the numerous requests for relief from further repetitive inspections, the AD is being amended to delete any further requirement for a repetitive inspection.

The agency again requests interested persons to submit written information and comments on the main rotor pitch link assemblies as they may desire. Communications should identify the docket number and be submitted in triplicate to the Regional Counsel, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All comments will be available in the Office of Regional Counsel for examination by interested persons.

The comments received on or before September 22, 1975, that are submitted in response to the request for additional information will be considered by the Director and the amendment may be changed in the light of those comments.

prior to the adoption on October 2, 1975. Since this amendment provides relief from further repetitive inspections and imposes no additional burden on any person, the amendment may be made effective in 40 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), Section 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-2122 (40 FR 10661), AD 75-06-03 as amended by Amendment 39-2146 (40 FR 14297) is further amended by changing the compliance paragraph to read as follows:

Compliance required within 10 hours' time in service after March 12, 1975, unless already accomplished.

This amendment becomes effective October 2, 1975.

This amendment is made under the authority of Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Texas, on August 13, 1975.

HENRY L. NEWMAN,  
Director, Southwest Region.

[FR Doc. 75-23480 Filed 9-4-75; 8:45 am]

[Airworthiness Docket No. 75-SW-39; Amdt. 39-2356]

##### PART 39—AIRWORTHINESS DIRECTIVES

###### Rockwell Models 690, 690A, and 685

Amendment 39-2275, 40 FR 29272, AD 75-15-01, imposes a speed and deflection limitation during flap operation, and requires a one-time inspection of flap bracket, P/N 510003-92, with a subsequent modification prior to lifting the flap speed and deflection limitation. After issuing Amendment 39-2257, service experience established that cracks were still occurring while operating with the flap speed and deflection limitation.

Therefore, the AD is being superseded by a new AD that requires a repetitive inspection while operating in accordance with the flap speed and deflection limitation. Also, further modification information is provided.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

ROCKWELL: Applies to Models 690, S/N 11000 and subsequent, 690A, S/N 11100 and subsequent, and 685, S/N 12000 and subsequent.

Compliance required as indicated:  
A. Immediately upon receipt of this AD, limit flap speed and deflection as follows:

Flap

bine shafts that have not been reworked by undersizing the threads in the collar

33-6, or later FAA approved revision, prior to the accumulation of 6700 cycles in service or

changes and additions may be obtained

[Docket No. 14120, Amdt. No. 171-10]

§ 101-26.000 Scope of part.

Flap speed (Kts)	Flap deflection (degrees)	Models
101.....	40	600, 600A, 685
113.....	35	600, 600A, 685
128.....	30	600, 600A, 685
140.....	27	600, 600A, 685
156.....	20	600
170.....	20	685
180.....	20	600A

B. Within 25 hours' time in service after the effective date of this AD, unless already accomplished.

1. Install a limitation placard, covering paragraph A, in accordance with Rockwell International Service Bulletin No. 156 dated June 27, 1975, Revision 1 dated July 3, 1975, or later approved revision, or an equivalent approved by the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Southwest Region, Federal Aviation Administration, Fort Worth, Texas.

2. Inspect flap bracket P.N. 510003-92 for cracks.

a. If cracks are found, modify the flap bracket in accordance with Rockwell International Service Bulletin No. 157 dated July 16, 1975, or an equivalent approved by the Chief, Engineering and Manufacturing Branch, Flight Standards Division, Southwest Region, Federal Aviation Administration, Fort Worth, Texas, and install prior to further flight.

A special flight permit pursuant to FAR 21.197 may be issued to allow ferrying of the aircraft to a facility where the required maintenance can be performed. Flaps should not be operated during ferry flight. Following modification, the placard required by paragraph B may then be removed and the limitations specified in paragraph A may be disregarded.

b. If no cracks are found, continue to operate the aircraft in accordance with the limitations specified in paragraph A. Reinspect at intervals of 25 hours thereafter, and within the next 100 hours' time in service, accomplish the modification specified in paragraph B(2)(a). Upon installation of this modification, the placard required by paragraph B may be removed and the limitations specified in paragraph A may be disregarded.

This amendment becomes effective on receipt of an individual copy or on September 8, 1975, whichever occurs first.

This amendment is made under the authority of Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 135(a), 1421, and 1423) and of Section 6(e) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Texas, on August 22, 1975.

HENRY L. NEWMAN,  
Director, Southwest Region.

[FR Doc. 75-23490 Filed 9-4-75; 8:45 am]

[Docket No. 74-NE-45; Amdt. 39-2358]

#### PART 39—AIRWORTHINESS DIRECTIVE

##### Pratt & Whitney JT6D Aircraft Engines

Amendment 39-2055 (39 FR 40167), AD 75-01-01 requires operators of certain JT6D engines to remove low tur-

bine shafts that have not been reworked by undercutting the threads in the spline end, and to repetitively inspect shafts with reworked splines at intervals of 6700 cycles in service. The AD also requires an inspection of the No. 2 compressor hub spline.

Since the issuance of the AD, an alternate procedure has been approved for inspection of the shaft splines. Paragraph 2 of the AD has been revised to reflect this. In addition, it has come to our attention that some confusion exists on the required No. 2 compressor hub spline inspection required by Paragraph 3. For clarification, the plated and the nonplated titanium hub inspections have been separated into Paragraph 3 and 4, respectively, of the amended AD.

Since this amendment clarifies the AD, provides an alternative means of compliance, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-1835 (39 FR 16388), AD 75-01-01, is amended as follows:

Compliance Paragraph 1 is amended by deleting the words "after the effective date of this AD, whichever is later", and inserting the words "after January 8, 1975, whichever is later".

Compliance Paragraph 2 is amended by:

a. Deleting the words "eddy current spline inspection procedure in Pratt & Whitney Service Bulletin 2452, Revision 5", and inserting the words "Pratt & Whitney Service Bulletin 2452, Revision 10".

b. Deleting the words "since last eddy current spline inspection", and inserting the words "since last inspection".

c. Deleting the words "after the effective date of this AD, whichever is later, unless already accomplished", and inserting the words "after January 8, 1975, whichever is later, unless already accomplished in accordance with Pratt & Whitney Service Bulletin No. 2452, Revision Nos. 5 thru 9".

Compliance Paragraph 3 is deleted in its entirety and the following paragraphs inserted in lieu thereof:

3. Inspect all No. 2 compressor hub splines plated per Pratt & Whitney Service Bulletins 2964 and 4193, in accordance with Pratt & Whitney Alert Service Bulletin 4357, Paragraphs IV.D.2 and IV.D.3, or later FAA approved revision, as applicable, when the low turbine shafts are removed or inspected in accordance with Paragraph 1 or 2 above. Remove hubs with plate peeling from service before further flight.

4. Inspect nonplated titanium No. 2 compressor hub splines, run with low turbine shafts requiring inspection under Paragraphs 1 or 2 of this AD, for taper wear in accordance with Pratt & Whitney JT6D manual, P.N. 481672, Revision 76, Section 72-

33-6, or later FAA approved revision, prior to the accumulation of 6700 cycles in service or within the next 2000 cycles in service after January 8, 1975, whichever is later, unless already accomplished. Inspect thereafter at intervals not to exceed 6700 cycles in service since last inspection. Remove hubs with taper wear in excess of .010 inch from service before further flight.

This amendment becomes effective September 7, 1975.

(Sec. 313(a), 601, and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Burlington, Massachusetts, on August 22, 1975.

WILLIAM E. CROSBY,  
Acting Director,  
New England Region.

#### PART 73—SPECIAL USE AIRSPACE

##### Alteration of Restricted Areas

##### Correction

In FR Doc. 75-22639, appearing at page 38146 of the issue for Wednesday, August 27, 1975, in the third column, the third full paragraph, the third line from the top, the effective date "September 27, 1975", should read "August 27, 1975".

[Docket No. 14954; Amdt. No. 984]

#### PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

##### Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 F.R. 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, S.W., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Information Center, AIS-230, 800 Independence Avenue, S.W., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft, or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP

changes and additions may be obtained by subscription at an annual rate of \$150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for \$30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 9723 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, effective October 16, 1975.

Anoka, MN—Gateway North Industrial Arpt., VOR Rwy 33, Orig.

\* \* \* effective September 18, 1975.

Marion, IL—Williamson County Arpt., VOR Rwy 2, Amdt. 5.

Marion, IL—Williamson County Arpt., VOR Rwy 20, Amdt. 6.

##### Correction

In FR Doc. 75-21143, appearing at page 34089, in the issue for Thursday, August 14, 1975, make the following changes:

1. On page 34094, in the third column, the first full paragraph, the ninth line from the top, the word "mixture" should read "minimum".

2. On page 34098, in the third column, in the fourth full paragraph, the third line from the bottom should be followed by the words: "OTC rule, and to be in a position to act".

3. On page 34103, in the second column under § 378a.30(j), the section referred to in the last line should read "§ 378a.31 (d)".

4. On page 34105, in the first column under § 378a.102, in the definition for "Special event", the first line, the word "specific" should be inserted immediately after the word "significant".

#### Title 41—Public Contracts and Property Management

#### CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

##### SUBCHAPTER E—SUPPLY AND PROCUREMENT

[FPMR Amendment E-169]

#### PART 101-26—PROCUREMENT SOURCES AND PROGRAMS

##### Policy and Procedural Changes

This amendment provides policy and procedural changes in GSA's procurement sources and programs.

The table of contents for Part 101-26 is amended to include the following revised entry:

§ 101-26.104 End-of-year submission of requisitions for action by GSA.

Section 101-26.000 is revised to read as follows:

#### § 101-26.000 Scope of part.

This part prescribes policies and procedures which govern the procurement of personal property and nonpersonal services by Federal agencies from or through GSA supply sources as established by law or other competent authority. The specific subparts or sections covering the subject matter involved prescribe the extent to which the sources of supply are to be used by Government agencies. Certain civilian and military commissaries and nonappropriated fund activities are also eligible to use GSA supply sources for their own use, not for resale, unless otherwise authorized by the individual Federal agency and concurred in by GSA. Policy and procedures pertaining to purchasing of property or contracting for services from commercial sources, without recourse to established GSA supply sources, are provided in the Federal Procurement Regulations and are exempted from this part.

#### Subpart 101-26.1—General

1. Section 101-26.100-1 is revised to read as follows:

§ 101-26.100-1 Procurement of lowest cost items.

GSA provides lines of similar items to meet particular end-use requirements under both its supply distribution system and the Federal Supply Schedule program. Although these similar items may differ in terms of price, quality, and essential characteristics, they can often serve the same functional end-use procurement needs of the various ordering agencies. Therefore, in submitting requisitions for an item obtainable from both GSA stock and Federal Supply Schedule contracts, agencies shall utilize the source from which the lowest cost item can be obtained which will adequately serve the functional end-use purpose.

2. Section 101-26.102-3 is amended to read as follows:

§ 101-26.102-3 Procurement leadtime.

When GSA performs the purchasing services for other agencies or activities as contemplated by this § 101-26.102-3, calculation of the delivery dates required for the items involved shall be based on the procurement leadtimes illustrated in § 101-26.4801. These leadtimes are based on the normal time required after receipt of agency requisitions by GSA to effect delivery to destinations within the 50 States.

3. The title of § 101-26.104 is changed and §§ 101-26.104 (b) and (c) are revised as follows:

§ 101-26.104 End-of-year submission of requisitions for action by GSA.

(b) Under the FEDSTRIP/MILSTRIP systems, the requisitions submitted to GSA are not required to reflect the applicable appropriation or fiscal year funds to be charged. The Fund Code entry on the requisition simply indicates

to the supply source (GSA) that funds are available to pay the charge, thereby providing authority for the release of material and subsequent billing. Requisitions received by GSA in purchase authority format are normally likewise converted to FEDSTRIP/MILSTRIP documentation so that processing can be accomplished expeditiously through a uniform system based on the use of automated equipment. Accordingly, primary responsibility rests with the ordering activity for ensuring that requisitions intended to be chargeable to appropriations expiring the last day of the fiscal year are submitted in sufficient time for GSA to consummate the necessary action before the end of the fiscal year. Requisitions submitted on or before the last day of the fiscal year may be chargeable to appropriations expiring on that date provided the ordering agency is required by law or GSA regulation to use GSA supply sources. When the ordering agency is not required to use GSA sources, requisitions for GSA stock items may be recorded as obligations provided the items are intended to meet a bona fide need of the fiscal year in which the need arises or to replace stock used in that fiscal year; requests for other than GSA stock items are to be recorded as obligations at the time GSA awards a contract for the required items. In the latter case, GSA procurement leadtimes illustrated in § 101-26.4811 should be used as a guide for timely submission of these requisitions. The leadtimes referred to relate to the number of days between submission of a requisition and actual delivery of the items involved. While this may furnish some guidance to requisitioners, there is no direct relationship between those leadtimes and the time it takes for GSA to make an award of a contract.

(c) End-of-year submission of requisitions which require GSA to award a contract not later than the last day of the fiscal year in order to obligate the appropriation or funds of the ordering agency will be annotated to indicate that GSA procurement of the requested items must be accomplished not later than the last day of the fiscal year in which the requisitions are submitted. For example, a FEDSTRIP/MILSTRIP requisition should be prepared to include Document Identifier Code A0E or A05 and reflect the annotation in the "Remarks" block. With this information GSA will attempt to complete procurement action before the end of the fiscal year. When a requisition is received too late to permit GSA to complete procurement action before the end of the fiscal year, the requisitioning activity will be so notified and requested to furnish instructions regarding the action to be taken. Based on these instructions, procurement action will be taken or the requisition will be canceled and returned to the ordering activity.

4. Section 101-26.105 is revised to read as follows:

**§ 101-26.105** Justification to support negotiated procurement by GSA for other agencies.

Each requisition submitted by an agency to GSA requiring negotiated pro-

curement shall be accompanied by a justification or findings and determination, as applicable. When the justification or findings and determination does not clearly and fully support the requested procurement, the requesting agency will be so notified and requested to furnish sufficient information to satisfy the requirements of the applicable negotiation authority. The GSA contracting officer will suspend procurement action pending receipt of the requested information.

(a) When the requisition is for a requirement to be procured under § 1-3.202 (public exigency), citation of a FEDSTRIP priority designator 03 or 06, or a Uniform Material Movements and Issue Priority System (UMMIPS) priority designator 01 through 06, inclusive, will indicate that the agency is identifying a circumstance within the purview of § 1-3.202. No further information is required to support the findings and determination to be made by the GSA contracting officer.

Note: A requisition which cites a priority designator above 06 may justify negotiation under this or other negotiation authority, but in such cases the request must be accompanied by a justification setting forth specific circumstances sufficient to support the findings and determination to be made by the GSA contracting officer.

(b) When the requisition is for a requirement to be procured by negotiation under § 1-3.208 (property purchased for authorized resale) or § 1-3.210 (impracticable to secure competition by formal advertising), the request must refer to and be accompanied by a statement containing sufficient information to justify use of the negotiating authority contemplated. For circumstances permitting negotiation as set forth in § 1-3.210, each requisition for a particular make, model, brand, or other similarly designed item, or which restricts procurement action to a limited number of competing commercially available products, must be justified by a statement of facts establishing the minimum needs to be fulfilled, and that these needs can be satisfied only by procurement of the designated item or any one of a limited number of competing commercially available products. (Personal preference and subjective evaluations are not acceptable as sufficient justification.) Specifically, the justification statement must include the following detailed information:

(1) The specific needs to be satisfied in terms of identified tasks or work processes;

(2) The requirements that generate the specific needs;

(3) The characteristics of the designated item that enable it to satisfy the specific needs; and

(4) Identification of other items evaluated and, for each, a statement of the characteristics (or lack thereof) which preclude their satisfying the specific needs.

(c) When the requisition is for a requirement to be procured by negotiation under § 1-3.211 (experimental, developmental, or research work), § 1-3.212 (purchases not to be publicly disclosed),

or § 1-3.213 (technical equipment requiring standardization and interchangeability of parts), the requests must refer to and be accompanied by a copy of a findings and determination made by the head of the requesting agency. However, in the case of contracts for experimental, developmental, or research work which will not require the expenditure of more than \$25,000 or such higher amount as may have been delegated by the head of the requesting agency, the findings and determination may be made by the chief officer responsible for procurement when authorized by the delegation or as provided in § 1-3.303.

(d) When the requisition is for a requirement to be procured by negotiation in accordance with § 1-3.215 (otherwise authorized by law), the request must cite the law authorizing negotiation and refer to and be accompanied by any justification or findings and determination required by such authority and applicable regulations.

5. Section 101-26.106 is revised to read as follows:

**§ 101-26.106** Consolidation of requirements.

Full consideration shall be given to the consolidation of individual small volume requirements to enable the Government to benefit from lower prices normally obtainable through definite quantity contracts for larger volume procurements. This policy pertains to procurement from commercial sources either direct or through an intermediary agency and does not apply to GSA stock items or small volume requirements normally obtained from a GSA self-service store. When it is practical, each agency shall establish procedures that will permit planned requirements consolidation on an agency-wide basis. When it is impractical to plan requirements on an agency-wide consolidated basis, the requirements consolidation effort may be limited to a bureau, to other agency segments, or to a program, if such limited consolidation will provide significant price advantages when procurement is effected on a volume basis. Requisitions for items requirements exceeding maximum order limitations in Federal Supply Schedule contracts shall be submitted to GSA in accordance with the applicable instructions in the respective schedules. Special buying services desired by agencies for procurement of other consolidated item requirements shall be requested from GSA in accordance with § 101-26.102.

#### Subpart 101-26.2—Federal Requisitioning System

1. Section 101-26.201 is amended as follows:

**§ 101-26.201** General.

This requisitioning and issue system is identified as the Federal Standard Requisitioning and Issue Procedures (FEDSTRIP) and is similar to and compatible with the Military Standard Requisitioning and Issue Procedures (MILSTRIP). The FEDSTRIP system pro-

vides GSA and other supply sources the means to automate the processing of requisitions. Its main features are:

2. Section 101-26.203-1 is amended as follows:

**§ 101-26.203-1** Forms prepared by ordering offices.

(a) GSA Form 1348m, Single Line Item Requisition System Document (Mechanical), (illustrated in the FEDSTRIP Operating Guide) is prepared mechanically by ADP equipment through computer output or key punch machine.

(b) (1) Standard Form 344, Multiuse Standard Requisitioning Issue System Document, (illustrated in the FEDSTRIP Operating Guide) is a manually prepared form used for requisitioning, cancellation, or followup;

(2) GSA Form 1348 (6-PT), Single Line Item Requisition System Document (Manual), (illustrated in the FEDSTRIP Operating Guide) and;

(3) GSA Form 1348-6, Non-NSN Requisition (Manual), (illustrated in the FEDSTRIP Operating Guide) will be used when ordering non-national stock numbered items which exceed the stock or part number field and/or require additional information; e.g., manufacturers part number, technical data, or detailed description. Document Identifier code (DIC) A05 or A0E will be used for non-part-numbered requirements.

3. Section 101-26.203-2 is amended as follows:

**§ 101-26.203-2** Forms furnished to ordering offices.

(a) (1) GSA Form 1348-1, Single Line Item Release/Receipt Document (illustrated in the FEDSTRIP Operating Guide). This form serves as a shipping and receiving document for GSA supply distribution facilities shipments. On items for direct delivery, a copy of the requisition will be furnished instead of the GSA Form 1348-1.

(2) GSA Format 952, Single Line Item Billing Register (illustrated in the FEDSTRIP Operating Guide). This form serves as a billing support for GSA stock shipments made during the billing period. On items for direct delivery, copies of requisitions will be used to support the billing instead of the GSA Format 952.

(b) Supply/shipment status information will be provided by electrical transmission in machine-sensible (card) format via the Defense Automatic Addressing System (DAAS), Dayton, Ohio, to all military and civil activities having capabilities to receive or transmit by electrical communications. Military and civil activities not having electrical transmission facilities will be furnished information on the status of requisitions and replies to followup inquiries by DAAS (via first class mail) on GSA Form 2779, Supply/shipment Status Information As Of,

or DD Form 1348m, DOD Single Line Item Requisition System Document (Mechanical), as requested by the media and status (M & S) code (cc 7) of the requisition.

4. Section 101-26.205-2 is revised to read as follows:

**§ 101-26.205-2** Assignment of codes.

Codes will be assigned by GSA for the requisitioning agency as specified in the FEDSTRIP Operating Guide. When agency procedures provide for payment of bills on a national or other basis extending beyond respective GSA regional boundaries, each agency shall furnish address information to the General Services Administration (FF), Washington, DC 20406, for assignment of codes and distribution to all GSA regional offices.

5. Section 101-26.206 is revised to read as follows:

**§ 101-26.206** GSA assistance.

The Federal Supply Service at each GSA regional office will advise and assist in the development of procedures required to adopt FEDSTRIP within an agency's field activities. Agency headquarters activities requiring assistance may contact General Services Administration (FF), Washington, DC 20406.

(Sec. 205(c), 63 Stat. 390, 49 U.S.C. 486(c))

Effective date. This regulation is effective September 5, 1975.

Dated: August 25, 1975.

ARTHUR F. SAMPSON,  
Administrator of General Services.

#### Title 42—Public Health CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE SUBCHAPTER J—HEALTH CARE DELIVERY SYSTEMS PART 110—HEALTH MAINTENANCE ORGANIZATIONS Correction

In FR Doc. 74-24046 published at 39 FR 37308-23 on Friday, October 18, 1974, the following corrections should be made:

1. On page 37311, in the subpart H title, add the letter s to the word "Benefit" to read "Benefits".

2. On page 37313, § 110.102(a), delete subparagraphs (9) and (10).

3. On page 37313, § 110.102 in subparagraph (b) (9), on line 2, insert "(A) or (1)" between the number (1) and the letter (H) to read "(1) (A) or (1) (H)".

4. On page 37313, § 110.102, in subparagraph (b) (10), on line 2, insert "(A) or (1)" between the number (1) and the letter (H) to read "(1) (A) or (1) (H)".

5. On page 37316, in § 110.201, delete the word and comma "contracts," on line 2.

6. On page 37317, § 110.203 subparagraph (e), on line 2, close up the first two letters in the word "appropriate."

7. On page 37317, § 110.203, in subparagraph (k), on line 2, delete the word and comma "contract."

8. On page 37319, in the subpart C title, delete the words "and Contracts".

9. On page 37323, in the subpart H title, add the letter s to the word "Benefit" to read "Benefits".

Dated August 27, 1975.

THOMAS S. McFEE,  
Deputy Assistant Secretary for  
Management, Planning, and  
Technology.

#### Title 43—Public Lands: Interior CHAPTER II—BUREAU OF LAND MANAGEMENT APPENDIX—PUBLIC LAND ORDERS Public Land Order 5524 [Los Angeles 0167441] CALIFORNIA Evocation of Air Navigation Site Withdrawal

By virtue of the authority contained in section 4 of the Act of May 24, 1928, 49 U.S.C. 214 (1970), it is ordered as follows:

1. The departmental order of December 15, 1944, withdrawing public lands as Air Navigation Site Withdrawal No. 67, is hereby revoked as to the remaining land described as follows:

SAN BERNARDINO MERIDIAN  
T 10 S., R. 21 E.,  
Sec. 27, E 1/4 NE 1/4 SE 1/4 SW 1/4.

The area described contains 5 acres in Imperial County.

2. The land is withdrawn from all forms of appropriation under the public land laws, including the United States mining laws, for reclamation purposes, and will remain so withdrawn. The land has been and will continue to be open to the filing of applications and offers under the mineral leasing laws.

Inquiries concerning the land should be addressed to the Chief, Division of Technical Services, Bureau of Land Management, Federal Office Building, 2800 Cottage Way, Sacramento, California 95825.

JACK O. HORTON,  
Assistant Secretary of the Interior.

AUGUST 29, 1975.

[FR Doc. 75-23550 Filed 9-4-75; 8:45 am]

#### [Public Land Order No. 5523] [Idaho 4982] IDAHO Withdrawal for National Forest Recreation Area

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from nonmetallic mineral location and entry under the mining laws, 30 U.S.C. Ch. 2, but not from leasing under the mineral leasing laws, in aid of programs of the Department of Agriculture:

comment period ending August 31, 1975. In this connection, the Final Environ-

ment Impact Statement (EIS) for the proposed action is being prepared by the Bureau of Reclamation. There is no excuse for the toleration of practices which allow one

years. It appears that the Department is straining too hard to produce additional

recognized that hunters vary greatly in ability to distinguish between species of waterfowl in flight or in hand. This is primarily a matter of basic identification skill and only secondarily a matter of light conditions. While light conditions may, at times, affect the ease of identification, this problem is not confined to the period one-half hour before sunrise, but may be operative at other times of the day as when a bird approaches a hunter from the direction of bright sunlight. As noted above, it is not necessary for hunters to identify ducks before shooting in order to avoid violations. It is the responsibility of the individual hunter to determine when light conditions enable him to identify ducks in flight. The Service is of the opinion that hunter responsibility is sufficiently great that the shooting hours in these regulations pose no significant dangers to protected species.

2. No acceptable standard exists against which the effectiveness of a game law enforcement program can be measured. Consequently, the imposition of sanctions such as reduced season lengths and bag limits would necessarily be capricious in nature. However, the Service attempts to enforce its regulations uniformly for all age groups, and expects the various States to do the same.

3. Section 20.25, Part 20, CFR Title 50 states that "No person shall kill or cripple any migratory game bird pursuant to this part without making a reasonable effort to retrieve the bird and include it in his daily bag limit." The determination of "reasonable effort" can best be ascertained from the circumstances of each situation.

4. The basic frameworks for ducks and geese in each Flyway already correspond closely to the suggested hunting period of three and one-half months. For instance, the following frameworks have been set by flyways: Atlantic and Mississippi Flyways, October 1 through January 20, and Central and Pacific Flyways, October 4 through January 18. Departures from the basic season frameworks are limited to a few species and situations such as snow (including blue) geese in Louisiana to facilitate crop depredations control, to black brant in the Pacific Flyway to permit hunting when birds are most abundant, and to sea ducks and September teal seasons. The total permissible season lengths for various species of migratory game birds within a given geographical location is limited by Treaty obligations.

5. The seeming complexity of present day hunting regulations for migratory game birds is an outgrowth of accumulating knowledge about differences in the status, behavior, and habitat needs for various species and manageable population units within species, geographical and temporal differences in distribution, variations in actual and potential shooting pressures, habitat availability and trends, and the obligation to manage the resource more efficiently to satisfy the needs of both the hunting and non-hunting public while insuring the welfare of the resource. In practice, most hunters

confine their activities to one general hunting location and consequently can limit their understanding of regulations to those applicable to this area. The review and improvement of regulations is a continuing process by the Service and others who provide input into the regulatory process.

6. The purpose of this regulation is to reduce hunting pressure on the black duck but not on other species in the harvest area. The potential of a hunter for bagging a second black duck is significantly greater than his potential of bagging a fifth duck of any other species. The increased hunting pressure as measured by the increased harvest, estimated at 2 to 5 percent, derived from the fifth bird in the bag is distributed among other species available in the harvest area.

7. Black duck harvests have been relatively stable for the past 7 years and no significant changes in band recovery rates have occurred during the past 20 years. Meanwhile, winter inventory indices have shown a decline in black duck numbers but such indices are not altogether reliable measures of the populations of this species. Indeed, it is far from clear what the populations are, or what their limiting factor is. A large-scale cooperative program, therefore, is being initiated to band increased numbers of the species and an intensive study program, perhaps including experimental area closures, will follow this effort. But season closure does not presently appear justified for the species.

The one-black-duck option has been offered to Atlantic Flyway States for many years, and has frequently been chosen by mid-Atlantic and southeastern States.

8 and 9. Winter surveys suggest that a decline in goldeneye and merganser numbers may have occurred. However, it is not known to what extent, if any, the inventories of these species reflect actual population changes as opposed to survey sampling error. Mergansers are not inventoried separately by species because the three species are indistinguishable from survey aircraft. Mergansers are known to be common and widely distributed over vast northern breeding areas that are not systematically surveyed because of remoteness and inaccessibility. They are also widely distributed on their wintering areas. The same applies in a somewhat lesser degree to goldeneyes. Hooded mergansers frequent wooded habitats where they are not observable, and large water bodies sometimes used by other mergansers are often incompletely covered or unsurveyed by aerial crews.

In the point system, mergansers are assigned point values along with other species of ducks, and under both point and conventional regulation systems, the hooded merganser is given special protection. Separate merganser daily bag and possession limits were removed this year in the Central and Mississippi Flyways. The Service believes that these measures, and the regulatory frameworks

adopted herein, provide sufficient protection for these species, ensuring that no jeopardy will befall them.

The special goldeneye-scaup season in Vermont resulted in a total harvest of about 300 birds; such a harvest level is not great enough to adversely affect the goldeneye population.

10. Fall flights of cackling geese and white-fronted geese are expected to be of average size this year. Greater snow geese and Atlantic brant are expected to have high production this year, based on satellite imagery of arctic habitat conditions and Canadian field observations. The loss of brant winter food supplies could occur if heavy fall rains substantially reduce the estuarine salinities of the detriment of sea lettuce, a key brant food. The emergency closure provision for the Atlantic brant season provides insurance against such natural calamities. Similarly, the emergency closure provision for snow geese simply provides a safety valve in case of an altogether unforeseen calamity affecting the population.

As was announced in the proposed regulations frameworks published in the FEDERAL REGISTER on August 15, 1975 (40 FR 34363), environmental assessments on the proposed resumption of snow goose and brant hunting in the Atlantic Flyway have been prepared and copies are available upon request.

11. In managing waterfowl, the Service seeks to provide responsible stewardship for the resource while providing people with opportunities for utilizing the resource through various pursuits and interests, including sport hunting. Proponents of these various uses often reflect differing viewpoints. Insofar as sport hunting is concerned, the regulatory record demonstrates that regulations have been made more restrictive when circumstances dictate, and more liberal when conditions allow. Hunters of migratory game birds traditionally have been in the forefront of the conservation movement and many of the management programs, treaties, laws and regulations governing the use and protection of migratory game birds have been outgrowths of sportsmen involvement. The Final Environmental Statement for the Issuance of Annual Regulations Permitting the Sport Hunting of Migratory Birds (FES 75-54) documents these contributions in more detail.

With mounting pressures being brought to bear against the migratory bird resource by environmental destruction and degradation, it is desirable that all those having an interest in the welfare and perpetuation of the resource be given an opportunity to express their viewpoints and provide information useful in the formulation of management programs, including the development of hunting regulations. Because of this desire, the Service made special effort this year to solicit greater public input into the regulatory process. These efforts included the publication in the FEDERAL REGISTER of detailed regulatory proposals, news releases announcing the availability of proposed regulations,

and supplying proposed regulatory frameworks to interested persons. In addition, public comment was solicited at the Director's Waterfowl Advisory Committee meeting held in Washington, D.C., on August 5, 1975, and at the special meeting of the same committee in Pittsburgh, Pennsylvania, on March 16, 1975.

The foregoing concludes comments responding to Wildlife Preserves, Inc. The following comments relate to those from other respondents or Service changes.

**Changes in Season Lengths in the Two Eastern Flyways.** The 47-day basic season length proposed for the Atlantic Flyway is changed to 45 days to conform to the Atlantic Flyway Council's recommendations. For the same reason, the basic season length in the Mississippi Flyway is changed from 44 days to 45 days. These modifications are not expected to have a significant effect on harvests. In both flyways, five additional days may be taken if Wednesday noon openings are selected. This incentive is offered to alleviate crowded hunting conditions which occur with weekend openings, and to reduce opening day harvests.

**Brant.** Five comments related to proposed brant regulations. Four proposed that the season not be reopened on Atlantic Flyway brant because the population had not recovered sufficiently. The fifth respondent wrote of "black brant" but inasmuch as this species has been hunted for many years, we concluded that his concern was also about Atlantic brant.

**Response.** Atlantic brant populations are expected to reach a level this fall equivalent to that of many past years when brant seasons were twice as long, and bag limits were larger. The delayed opening provision in the brant regulation will further reduce the impact of hunting on total harvest.

**Proposed Closure Provision for Atlantic Brant and Greater Snow Goose.** Three organizations stated that the 49-hour emergency closure provision was indicative that the population status of these species was uncertain.

**Response.** The rationale for the emergency provision is explained in the response to Wildlife Preserves, Inc.

**Greater Snow Geese.** Six comments were directed to the proposal for opening the hunting season on greater snow geese. One comment favored the proposal, pointing out that concentrations of this species damage marsh habitat. One State requested that a 50-day, 1 goose per day bag be allowed as an alternative to the proposed season and bag. Three organizations opposed resumption of hunting of this species, chiefly because of the status of the population.

**Response.** The fall flight of greater snow geese is expected to be the largest on record, probably approaching 200,000 birds. The estimated harvest, based on Canadian experience with greater snow goose seasons, should not exceed 5 to 10 percent of the fall population. This rate of harvest will not adversely affect the greater snow goose population. The Service believes that for purposes of

evaluating the harvest, a uniform season length and bag limit should be required on a flyway-wise basis. The comments did not provide any new facts or information that would substantiate a need to change the proposal.

**Point System Category in Atlantic Flyway.** One individual questioned the justification for a point category of less than 25 points in the Atlantic Flyway.

**Response.** A 10-point value has been placed on those species that are lightly harvested and relatively abundant. Hunting pressure on these species provides additional harvest opportunity and relieves hunting pressure on other more heavily harvested birds. Harvest data do not indicate that populations of low point species are unable to sustain the annual harvests that occur under low point regulations.

**Change in Boundary of Long Island Zone in New York.** New York requested that the boundary of the Long Island Zone be changed so that Interstate Route 95 rather than the Hutchinson River is the boundary in Westchester County. The change reduces the Long Island Zone by about 10 square miles, most of which is highly urbanized.

**Response.** The change would provide a more understandable and enforceable boundary and would result in no significant change in the waterfowl harvest and is therefore accepted.

**Season Length in Atlantic Flyway.** One individual asked why a 55- or 60-day duck season could not be allowed in the Atlantic Flyway.

**Response.** The season length permitted is designed to allow reasonable harvest opportunity while safeguarding the welfare of the waterfowl resource. The season length is based on consideration of waterfowl population size, habitat conditions, and hunter numbers and success. Waterfowl population levels under present harvest conditions do not warrant a longer harvest season in 1975-76.

**Closure of Lake Mattamuskeet to Duck Hunting.** One organization asked why Lake Mattamuskeet, North Carolina, remains closed to duck hunting.

**Response.** Populations of Canada geese wintering at Mattamuskeet declined over the years to a low of 8,700 birds during the winter of 1972. As part of an effort to restore populations, the waterfowl season there was closed in 1973 and 1974. During the past winter the Canada goose population increased to 18,500 birds. The effects on the wintering goose population of season closures and other factors are being studied, with the objective of developing long-range management plans.

**Wednesday Noon Opening Option.** Two respondents favored the Wednesday noon option and one State opposed it on the grounds that it deprived persons such as workers and students from going afield.

**Response.** The purpose of the Wednesday noon opening option is to afford a means of reducing hunting pressure and harvest on the opening day when ducks are most vulnerable to shooting. The problem of heavy first-day shooting pressure is greater in the Atlantic and Mississippi Flyways than elsewhere because

of more limited habitat and higher densities of hunters.

**Request for Regulations Changes in Portions of the Mississippi Flyway.** On August 19, 1975, seven States in the Mississippi Flyway submitted a resolution seeking changes in season length and bag limits. The major points in the resolution are as follows:

A 50-day waterfowl season and, if noon opening is offered as an option, a 55-day season be offered, including the following point values:

100 Points	90 Points
Canvasback	Hen mallard
Redhead	Hooded merganser
15 Points	
Blue-winged teal	Scaup
Pintail	Wigeon
Shoveler	Green-winged teal
Gadwall	All other ducks
35 Points	
Wood duck	30 Points
Fulvous tree duck	Drake mallard
Ring-necked duck	Mottled duck
	Black duck
	Other mergansers

After careful consideration, it was concluded that the proposal would result in an unacceptable increase in the harvest of mallards, black ducks, wood ducks and wigeon, and that the addition of one more point category would be confusing to hunters. The features of the resolution were supported by one association of duck hunters. Two individuals expressed dissatisfaction with the general season and bag limit provision of the Mississippi Flyway proposals, and another was dissatisfied with those for southwestern Louisiana.

**Redhead.** Three comments were received, two favoring more restrictive regulations because of the species' status, and one requesting liberalization.

**Response.** The redhead breeding population index for 1975 is the highest recorded since waterfowl breeding ground surveys began. However, the Service does not attach great significance to indicated annual population changes of species such as the redhead because of survey sampling problems; rather, the reliance is placed on population trends over several years. Redhead regulations this year are conservative in view of the redhead population size. The season remains closed in the Atlantic Flyway except for some off-shore areas in western Florida where only one bird may be taken in the daily bag. In the Mississippi and Central Flyways, most of the closures of historically high harvest areas remain in effect and daily bag limits elsewhere cannot exceed a single bird. Area closures have been removed in the Pacific Flyway but the daily bag has been restricted so that no more than two redheads or two canvasbacks or one of each may be taken. The comments do not provide any new facts or information that would substantiate a need to change the proposal.

**Changes in Mississippi Flyway Point Category and Allocation.** The 15-point category in the point system originally proposed for the Mississippi Flyway is changed to a 10-point category. The purpose of the change is to allow additional

harvest opportunity for low point cate-

fronted geese) or 3 snow geese." This

The Fish and Wildlife Service is of the

before sunrise until sunset except that

ducks of 5 daily and 10 in possession of

species and sexes taken are as follows:

harvest opportunity for low point category ducks which are harvested lightly and are relatively abundant. The change raises the highest potential number of ducks which may be taken daily from 7 to 10; harvest statistics in the Mississippi Flyway for the 1974-75 season indicate that the average hunter bagged 0.8 ducks per day and 5.7 per season. Consequently, a small change in harvest is expected from this liberalization.

In the Mississippi Flyway the point allocation for the fulvous tree duck is changed from 90 to 35, increasing the highest potential daily bag from 2 to 3 birds. This change returns this species to the 1974-75 point category, and will not alter the potential harvest rate.

**Application of Point System in Four Central Flyway-Pacific Flyway Boundary States.** The proposed regulatory language stated, "Any State selecting the point system must do so on a statewide basis. . . ." The boundary between the Central and Pacific Flyways generally follows the Continental Divide, resulting in portions of Montana, Wyoming, Colorado, and New Mexico being placed in the two Flyways. Consequently, the present wording might be construed to prohibit the Central Flyway portions of the four States from participating in the point system. In practice, the point system has been offered and implemented in the Central Flyway portions of these States for several years. Inasmuch as it is intended that this option continue, the wording is being clarified.

**Closures of Hunting Seasons During Whooping Crane Migration.** One individual asked why hunting seasons are not closed when whooping cranes are migrating.

**Response.** The migration route of the endangered whooping cranes is well known, as is the timing of their migration. Care is taken in setting sandhill crane seasons that hunting is not permitted at times and in areas where whooping cranes might be expected to occur. On one occasion whooping cranes appeared in an area of South Dakota during the lesser sandhill crane season, resulting in an emergency closure of the crane season. The sandhill crane is the species which most closely resembles the whooping crane, particularly young whooping cranes which have not obtained the white plumage characteristic of the adult whooping crane. Other large white birds do not closely resemble whooping cranes; furthermore, they are not likely to occur in places or at times when whooping cranes are present. Within the past decade, only one whooping crane is known to have been killed by waterfowl hunters, and in this instance the violator was convicted and fined.

**Pacific Flyway Framework.** One State offered two suggestions for clarifying certain proposed goose frameworks relating to the Pacific Flyway. In describing the general daily bag and possession limit for geese, the proposed wording reads, ". . . provided that the daily bag limit does not include more than 3 geese of the dark species (Canada and white-

fronted geese) or 3 snow geese." This wording suggests that hunting would have to cease after a hunter obtained 3 dark geese—or 3 snow geese. It is intended that hunters be allowed to take up to 3 dark geese and 3 snow geese separately, and the wording of the regulation is being clarified by substituting "and" for "or". The second comment pointed out that the general daily bag and possession limit of 6 geese did not apply uniformly throughout the Flyway. In many areas special restrictions of 1 and 2 Canada geese apply, thus the daily bag and possession limit of 6 birds would not be possible. The regulatory wording has been modified to reflect situations where restrictions on Canada geese result in reductions in the total number of geese which may be bagged and possessed. Some restrictions are imposed by State regulations.

**Miscellaneous Comments.** One group believed that the hunting regulations for ring-necked ducks were too liberal and questioned the wisdom of the proposed regulations for buffleheads. In the Atlantic Flyway both species count 25 points each and in the Mississippi Flyway both count 35 points each. The Service does not believe that these point allocations, or the number of birds permitted under conventional regulations, would result in excessive harvests.

One State and one waterfowl hunters' organization agreed with all provisions of the proposed frameworks.

One State expressed the belief that hunting opportunities offered by the proposed regulations in the Central and Pacific Flyways were too liberal.

Three organizations in one letter plus one individual opposed the opening of the season on greater snow geese and continuation of black duck hunting; the response to Wildlife Preserves, Inc., addresses these same points.

One State strongly objected to the proposed zoning of Louisiana, and expressed hope that the proposal would be withdrawn because of the dissension it has caused among the Mississippi Flyway States. Reasons for allowing the zoning experiment were given at the time the proposal was announced.

One State expressed satisfaction with the proposal to retain a separate bag and possession limit on mergansers in the Atlantic Flyway under conventional regulations.

The foregoing text relates to all responses received during the official comment period. In addition, 40 communications on waterfowl proposals were received before the designated comment period, or after the comment period to 9 a.m. on August 28, 1975. These communications generally covered the same subjects commented upon by persons responding within the official comment period.

Comments on the Service's regulations proposals are available for public inspection during normal business hours at the Service's Office of Migratory Bird Management, Fish and Wildlife Service, Room 2257, U.S. Department of the Interior, 18th and C Streets, Washington, D.C.

The Fish and Wildlife Service is of the view that, although the rulemaking process for migratory bird hunting must by its nature, operate under severe time constraints, every attempt should be made to give the public the greatest possible opportunity to comment on the regulations; thus, when the above-mentioned proposed rulemaking was published, the Service established what it believed were the longest periods possible for public comment. In doing this, the Service recognized that at the end of the periods, time would be of the essence. That is, if there were a delay in the effective date of these regulations after this final rulemaking, the Service is of the opinion that the States would have insufficient time to select their season dates, shooting hours, and bag limits, to communicate those selections to the Service, and finally to establish and publicize the necessary regulations and procedures to implement their decisions. The Service therefore finds that "good cause" exists, within the terms of 5 U.S.C. 553(d) (3) of the Administrative Procedure Act; and these regulations will therefore take effect immediately upon publication.

After due consideration of the comments received, the U.S. Fish and Wildlife Service, under authority of the Migratory Bird Treaty Act of July 3, 1918, as amended, (40 Stat. 755; 16 U.S.C. 703-711), prescribes final rulemaking on all but the lesser sandhill (little brown) crane portion of the Final Regulations Frameworks for 1975-76 Hunting Seasons on Waterfowl, Coots, and Gallinules; Cranes in Parts of North Dakota, South Dakota, New Mexico, Oklahoma, Montana, and Wyoming; and for Common Snipe in the Pacific Flyway.

Effective date: September 5, 1975.

F. V. SCHMIDT,  
Acting Director,  
U.S. Fish and Wildlife Service.

SEPTEMBER 2, 1975.

**Final Regulations Frameworks for 1975-76 Hunting Seasons on Waterfowl, Coots, and Gallinules; Cranes in Parts of North Dakota, South Dakota, New Mexico, Texas, Colorado, Oklahoma, Montana, and Wyoming; and for Common Snipe in the Pacific Flyway.** Pursuant to the Migratory Bird Treaty Act, the Secretary of the Interior has approved final frameworks which prescribe season lengths, bag limits, shooting hours, and outside dates within which States may select seasons for hunting waterfowl, coots, and gallinules; cranes in parts of North Dakota, South Dakota, New Mexico, Texas, Colorado, Oklahoma, Montana, and Wyoming; and for common snipe in the Pacific Flyway. Frameworks are summarized below.

#### GENERAL

States may split their season for ducks or geese into two segments without penalty in number of days. Segments may be of unequal length. Exceptions to this rule are noted.

Shooting hours in all States, on all species, and for all seasons are ½ hour

before sunrise until sunset except that during September teal seasons the shooting hours are sunrise to sunset. States have the option to select a later opening time within this framework.

Any State in the Atlantic, Mississippi, or Central Flyways selecting neither a September teal season nor the point system may take an extra bag limit on blue-winged teal of 2 daily and 4 in possession for 9 consecutive days during the regular duck season. This extra limit is in addition to the regular duck bag limit.

States in the Atlantic, Mississippi, and Central Flyways may select a special scaup-only hunting season not to exceed 16 consecutive days with a daily bag limit of 5 and a possession limit of 10 scaup, subject to the following conditions:

1. Such special season must fall between October 1, 1975, and January 31, 1976, in the Atlantic and Mississippi Flyways, and between October 4, 1975, and January 31, 1976, in the Central Flyway, all dates inclusive.

2. Such special season must fall outside the open season for any other ducks except sea ducks.

3. Such season must be limited to described areas mutually agreed upon between the State and the Service prior to September 4, and

4. Such areas must be described and delineated in State hunting regulations; or

As an alternative, States in the Atlantic, Mississippi, and Central Flyways, except those States selecting a point system, may take an extra bag limit on scaup of 2 daily and 4 in possession during the regular duck hunting season, subject to conditions 3 and 4 listed above. This extra limit is in addition to the regular duck bag limit and may be taken during the entire regular duck season.

Any State entirely within a flyway in selecting the point system must do so on a statewide basis, except if New York selects the point system, conventional regulations may be retained for the Long Island Area.

Dates within which States may select their open seasons, season lengths, bag and possession limit options, and other special provisions are listed below by Flyway.

States in the Atlantic, Mississippi, and Central Flyways are reminded that if they did not select their gallinule season in July, they should do so at the time they make their waterfowl selections. Frameworks for gallinules are: outside dates: September 1, 1975-January 20, 1976; season length: not more than 70 days; bag limits: 15 daily, 30 in possession. Season may be split without penalty.

#### ATLANTIC FLYWAY

Between October 1, 1975, and January 20, 1976, States in this Flyway may hold open seasons on ducks, coots, and mergansers of: (a) 45 days with basic bag limits on ducks of 4 daily and 8 in possession of which no more than 2 daily and 4 in possession may be black ducks; or (b) 45 days with basic bag limits on

ducks of 5 daily and 10 in possession of which no more than 1 daily and 2 in possession may be black ducks. Under either Option (a) or (b), a 50-day season may be selected provided the season is opened on a Wednesday at noon, local time. If the season is split, each opening must occur on a Wednesday at noon, local time.

Under both options, the daily bag limit may not include more than 2 wood ducks, and 4 in possession. The season is closed on canvasback and redhead ducks throughout the Flyway except in Florida as described: seaward of the mainland shoreline including offshore islands from the northern boundary of Everglades National Park in Collier County north and west to and including Escambia County, but excluding all inland bays and mouths of rivers landward of a line between the most seaward points of the mouth of such bays and rivers; specifically excluded, but not inclusive of all exclusions, are Escambia Bay, Choctawhatchee Bay, West Bay and St. Andrews Bay at Panama City, East Bay at Apalachicola, and Ochlochonee Bay the waters of which are north of U.S. Highway 95; Tampa Bay landward of U.S. Highway 19 and Charlotte Harbor landward of U.S. Highway 41. In this redhead harvest area the daily bag and possession limits are 1 redhead or 1 canvasback.

The bag limit on mergansers is 5 daily and 10 in possession, of which not more than 1 daily and 2 in possession may be hooded mergansers. The bag limit on coots is 15 daily and 30 in possession. The Lake Champlain area of New York State must follow the waterfowl seasons, limits, and shooting hours selected by Vermont. This area includes that part of New York State lying east and north of a line running south from the Canadian border along U.S. Highway 9 to New York Route 22 south of Keeseville, along New York Route 22 to South Bay, along and around the shoreline of South Bay to New York Route 22, along New York Route 22 to U.S. Highway 4 at Whitehall, and along U.S. Highway 4 to the Vermont border.

In lieu of a special scaup season, Vermont may, for the Lake Champlain Area, select a special scaup and goldeneye season not to exceed 16 consecutive days with a daily bag limit of 3 scaup or 3 goldeneyes or 3 in the aggregate and a possession limit of 6 scaup or 6 goldeneyes or 6 in the aggregate, subject to the same provisions that apply to the special scaup season elsewhere.

The State of New York may, for the Long Island area, select season dates and bag limits which differ from those in the remainder of the State. As an alternative to the conventional bag limits for ducks, a point system bag limit may be selected by States in the Atlantic Flyway for 45 days during the framework dates shown above. A 50-day season may be selected provided the season is opened on a Wednesday at noon, local time. If the season is split, each opening must occur on a Wednesday at noon, local time. The point values for

species and sexes taken are as follows: in Florida only, the fulvous tree duck, and the canvasback and redhead in designated redhead harvest areas, count 100 points each; in all States, the hen mallard, black duck, mottled duck, wood duck, and hooded merganser count 70 points each; the blue-winged teal, green-winged teal, pintail, gadwall, shoveler, scaup, sea ducks, and mergansers (except hooded) count 10 points each; all other species of ducks count 25 points each. The daily bag limit is reached when the point values of the last bird taken added to the sum of the point values of the other birds already taken during that day reaches or exceeds 100 points. The possession limit is the maximum number of birds of species and sexes which could have legally been taken in 2 days.

Coots have a point value of zero, but the bag is limited to 15 daily and 30 in possession as under the conventional limits.

In any State in the Atlantic Flyway selecting a point system bag limit and also having a special sea duck season, sea ducks count 10 points each during the point system season, but during any part of the regular sea duck open season falling outside the point system season, the regular sea duck limit of 7 daily and 14 in possession applies.

Between October 1, 1975, and January 20, 1976, the States of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania, West Virginia, New Jersey, Delaware, Maryland, and Virginia (excluding the Back Bay area) may hold an open season on Canada geese of 70 days; the daily bag limit is 3 and the possession limit is 6. The States of North Carolina, South Carolina, and the Back Bay area of Virginia may select an open season on Canada geese of 50 days; the daily bag limit is 1 and the possession limit is 2.

The season on Canada geese is closed in the States of Florida and Georgia.

Between October 1, 1975, and January 20, 1976, but within its regular waterfowl season, each State in the Atlantic Flyway may select an open season on snow geese (including blue geese) of 30 days; the daily bag limit is 2 and the possession limit is 4.

Between November 10, 1975, and January 20, 1976, States in this Flyway may select an open season on Atlantic brant of 30 days; the daily bag limit is 4 and the possession limit is 8.

For Atlantic brant, snow, and blue geese the Secretary shall close the season within 48 hours upon recommendation of the Director, Fish and Wildlife Service, that such closure is necessary to avoid excessive harvest.

#### MISSISSIPPI FLYWAY

Between October 1, 1975, and January 20, 1976, States in this Flyway may hold concurrent open seasons on ducks, coots, and mergansers of 45 days with a basic bag limit on ducks and mergansers of 4 daily, including no more than 2 mallards or 2 black ducks, or 1 of each, 2 wood ducks, 2 fulvous tree ducks and 1 hooded merganser; and 8 in possession, including

no more than 4 mallards or 4 black ducks, or 4 in the aggregate, 4 wood ducks, 4 fulvous tree ducks and 2 hooded mergansers. A 50-day season may be selected provided the season is opened on a Wednesday at noon, local time. If the season is split, each opening must occur on a Wednesday at noon, local time.

Except in closed areas, the limit on canvasbacks and redheads is 1 canvasback daily and 1 in possession or 1 redhead daily and 1 in possession. Under the point system, canvasbacks and redheads count 100 points each except in closed areas. The areas closed to canvasback and redhead hunting are:

Mississippi River—Entire river, both sides, from Alton Dam upstream to Prescott, Wisconsin, at confluence of St. Croix River.

Alabama—Baldwin and Mobile Counties.

Louisiana—Caddo, St. Charles, and St. Mary Parishes; that portion of Ward 1 formerly designated as Ward 6 of St. Martin Parish; and Catahoula Lake in LaSalle and Rapides Parishes.

Michigan—Arenac, Bay, Huron, Macomb, Monroe, St. Clair, Tuscola, and Wayne Counties, and those adjacent waters of Saginaw Bay south of a line extending from Point au Gres in Sec. 6, T18N, R7E (Arenac County) to Sand Point in Sec. 11, T17N, R9E (Huron County), the St. Clair River, Lake St. Clair, the Detroit River and Lake Erie, under jurisdiction of the State of Michigan.

Minnesota—Sibley and Nicollet Counties, and the area encompassed by a line drawn as follows: beginning at the North Dakota border on U.S. Highway 2, thence east on U.S. Highway 2 to Bemidji, thence south on U.S. Highway 71 to U.S. Highway 12 at Willmar, thence west on U.S. Highway 12 to the South Dakota border, thence north on the South Dakota and North Dakota border to the point of beginning.

Ohio—Land and water areas comprising Erie, Ottawa and Sandusky Counties.

Tennessee—Kentucky Lake lying north of Interstate Highway 40.

Wisconsin—In the Mississippi River Zone, all that part of Wisconsin west of the CB&Q railroad in Grant, Crawford, Vernon, La Crosse, Trempealeau, Buffalo, Pepin, and Pierce Counties. Also, Dodge and Winnebago Counties and the land and water areas extending 100 yards from the shorelines of Lake Poygan in Waushara County, Lake Winnebago in Calumet and Fond du Lac Counties, and Rush Lake, Fond du Lac County.

The bag limit on coots is 15 daily and 30 in possession.

As an alternative to the conventional bag limits for ducks, a point system bag limit may be selected by all States in the Mississippi Flyway for 45 days during the framework dates shown above. A 50-day season may be selected provided the season is opened on a Wednesday at noon, local time. If the season is split, each opening must occur on a Wednesday at noon, local time. The point values for species and sexes taken are as follows:

except in closed areas, the canvasback and redhead count 100 points each; the hen mallard, wood duck, black duck and hooded merganser count 90 points each; the pintail, blue-winged teal, cinnamon teal, gadwall, shoveler, scaup and green-winged teal count 10 points each; the drake mallard and all other species of ducks and mergansers count 35 points each. The daily bag limit is reached when the point value of the last bird taken added to the sum of the point values of the other birds already taken during that day reaches or exceeds 100 points. The possession limit is the maximum number of birds of species and sexes which could have legally been taken in 2 days.

Coots have a point value of zero, but the bag is limited to 15 daily and 30 in possession as under the conventional limits.

In that portion of Louisiana west of a line beginning at the Arkansas-Louisiana border on Louisiana Highway 3; thence south along Louisiana Highway 3 to Shreveport; thence east along Interstate 20 to Minden; thence south along Louisiana Highway 7 to Ringgold; thence east along Louisiana Highway 4 to Jonesboro; thence south along U.S. Highway 167 to Lafayette; thence southeast along U.S. Highway 90 to Houma; thence south along the Houma Navigation Channel to the Gulf of Mexico through Cat Island Pass—the season on ducks, coots and mergansers may extend 5 additional days, provided that the season opens on November 1, 1975. If the 5-day extension is selected, and if a point system bag limit is selected for the State, point values will be the same as for the rest of the State.

The Pymatuning Reservoir area of Ohio takes the waterfowl seasons, limits, and shooting hours selected by Pennsylvania. The area includes Pymatuning Reservoir and that part of Ohio bounded on the north by County Road 306 known as Woodward Road, on the west by Pymatuning Lake Road, and on the south by U.S. Highway 322.

Between October 1, 1975, and January 20, 1976, States in this Flyway, except Louisiana, may hold an open season of 70 days on geese, with daily bag and possession limits of 5 geese, to include no more than 2 white-fronted geese. Regulations for Canada geese are shown below by State.

Between October 1, 1975, and February 14, 1976, Louisiana may hold an open season of 70 days on snow (including blue) and white-fronted geese, with daily bag and possession limits of 5 geese, to include no more than 2 white-fronted geese. The season on Canada geese is closed in Louisiana.

In the State of Minnesota, in the:

(a) Lac Qui Parle Quota Zone—the season on Canada geese closes after 45 days or when 4,000 birds have been harvested, whichever occurs first. The daily bag limit is 1 Canada goose or two white-fronted geese, or 1 of each; the possession limit is 2 Canada and 2 white-fronted geese. The quota zone is that area encompassed by a line drawn as follows: beginning at Montevideo, thence west on U.S. Highway 212 to U.S. Highway 75,

thence north on U.S. Highway 75 to State Highway 7 at Odessa, thence north on County State Aid Highway 21, Big Stone County, to U.S. Highway 12, thence east on U.S. Highway 12 to County State Aid Highway 17, Swift County, thence south on C.S.A.H. 17 and C.S.A.H. 9, Chippewa County, to State Highway 40, thence east on State Highway 40 to State Highway 29, thence south on State Highway 29 to point of beginning at Montevideo.

(b) Southeastern Zone (same description as in 1971)—The season for Canada geese may extend for 70 consecutive days. The daily bag limit is 1 Canada goose or 2 white-fronted geese, or 1 of each; the possession limit is 2 Canada and 2 white-fronted geese.

(c) Remainder of State—The season on Canada geese may not exceed 45 days. The daily bag limit is 1 Canada goose or 2 white-fronted geese, or 1 of each; the possession limit is 2 Canada and 2 white-fronted geese.

In the State of Iowa the season for Canada geese may extend for 45 consecutive days. The daily bag and possession limits are 2 Canada geese.

In the State of Missouri, in the:

(a) Swan Lake Quota Zone (same description as in 1971)—the season on Canada geese closes after 45 days or when 25,000 birds have been harvested, whichever occurs first. The daily bag limit is 1 Canada goose or 2 white-fronted geese, or 1 of each; the possession limit is 2 Canada and 2 white-fronted geese.

(b) Southeastern area (east of U.S. Highway 67 and south of Crystal City)—State may select a 45-day season on Canada geese between December 1, 1975, and January 20, 1976, with a daily bag limit of 2 Canada geese or 2 white-fronted geese, or 1 of each; and a possession limit of 4 Canada and white-fronted geese in the aggregate, of which not more than 2 may be white-fronted geese.

(c) Remainder of the State—the season on Canada geese may not exceed 45 days. The daily bag limit is 2 Canada geese or 2 white-fronted geese, or 1 of each; the possession limit is 2 Canada and 2 white-fronted geese.

In the State of Wisconsin, the harvest of Canada geese is limited to 28,000 with 16,000 birds allocated to the Horicon Zone (same description as in 1971). The daily bag limit is 1 Canada goose, 2 white-fronted geese, or 1 of each; the possession limit is 2 Canada and 2 white-fronted geese. In the Horicon Zone, Canada goose hunting is restricted to those persons holding a valid Horicon Zone Canada goose hunting permit issued by the State.

In the State of Illinois, the harvest of Canada geese is limited to 28,000 with 22,000 birds allocated to the Southern Illinois Zone (same description as in 1971). The daily bag limit is 2 Canada geese or 2 white-fronted geese, or 1 of each; the possession limit is 4 Canada geese and white-fronted geese in the aggregate, of which not more than 2 may be white-fronted geese. The season on Canada geese may open at a later date

in the Southern Illinois Quota Zone and extend to January 20, 1976, or until the Zone's quota of 22,000 birds is reached, whichever occurs first.

In the States of Michigan, Ohio, and Indiana, the daily bag limit may not include more than 1 Canada goose, or 2 white-fronted geese, or 1 of each; the possession limit may not include more than 2 Canada and 2 white-fronted geese, except in Michigan, the possession limit on Canada geese is 1.

In the State of Kentucky, in the Counties of Ballard, Hickman, Fulton, and Carlisle, the daily bag limit is 2 Canada geese or 2 white-fronted geese, or 1 of each; the possession limit is 4 Canada geese and white-fronted geese in the aggregate, of which not more than 2 may be white-fronted geese. In the remainder of the State, the daily bag limit is 1 Canada goose or 2 white-fronted geese, or 1 of each; the possession limit is 2 Canada and 2 white-fronted geese.

In Tennessee, the daily bag limit is 1 Canada goose and the possession limit is 2 Canada geese except that in the Counties of Shelby, Lake, Tipton, Lauderdale, Dyer, and Obion, the daily bag and possession limits are 2 Canada geese.

In Mississippi, the daily bag and possession limits are 2 Canada geese, except that in the Counties of Lafayette, Marshall, and Panola, the daily bag limit is 1 Canada goose and the possession limit is 2 Canada geese. The season is closed on Canada geese in the Counties of Washington, Sharkey, and Issaquena.

The season is closed on all geese in the Alabama counties of Russell and Barbour. Elsewhere in Alabama, the bag limit is 1 Canada goose, or 2 white-fronted geese, or 1 of each; the possession limit is 2 Canada and 2 white-fronted geese.

In Arkansas, the Canada goose season may not exceed 30 consecutive days, subject to State closure of designated areas. The daily bag limit is 1 Canada goose and the possession limit is 2 Canada geese.

When it has been determined by the Director that the quota of Canada geese allotted to the State of Illinois, to the Swan Lake area of Missouri, and to the Lac Qui Parle Area of Minnesota will have been filled, the season for taking Canada geese in the respective area will be closed by the Director upon giving public notice through local information media at least 48 hours in advance of the time and date of closing.

Geese taken in the States of Illinois and Missouri and in the Kentucky Counties of Ballard, Hickman, Fulton, and Carlisle may not be transported, shipped, or delivered for transportation of shipment by common carrier, the postal service, or by any person except as the personal baggage of the hunter taking the birds.

CENTRAL FLYWAY

Between October 4, 1975, and January 18, 1976, States and portions of States in this Flyway may hold concurrent open seasons on ducks, including mergansers, and coots, of 60 days with basic bag limits on ducks of 6 daily and 12 in possession. The daily bag limit on ducks includ-

ing mergansers may include no more than 1 hooded merganser, 2 wood ducks and 3 mallards of which no more than one mallard may be a hen and the possession limit on ducks may include no more than 2 hooded mergansers, 4 wood ducks and 6 mallards of which no more than two mallards may be hens.

The bag limit on coots is 15 daily and 30 in possession.

The bag limits, except in closed areas, may include no more than 1 canvasback daily and 1 in possession or 1 redhead daily and 1 in possession. Except in closed areas, canvasbacks and redheads count 100 points each under the point system. The areas closed to canvasback and redhead hunting are:

North Dakota—all that portion east of State Highway 3, including all or portions of 27 counties.

South Dakota—the Counties of Brookings, Codington, Day, Kingsbury, Roberts, Marshall, and Hamlin.

Texas—the Counties of Brazoria, Chambers, Galveston, Orange, Harris and Jefferson.

The season is closed on the Mexican duck.

As an alternative to the conventional bag limits for ducks, States in this Flyway may select a point system. The point system season length in the High Plains Mallard Management Unit portions of Colorado, Kansas, Montana, Nebraska, New Mexico, Texas, Oklahoma, North Dakota, South Dakota, and Wyoming is 83 days, provided, that the last 23 days of such season must begin on or after December 8, 1975. The season length for those portions of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas not included in the High Plains Mallard Management Unit may not exceed 60 days. The High Plains Area is roughly defined as that portion of the Central Flyway which lies between the 100th meridian and the Continental Divide.

The point values for species and sexes taken in the High Plains Area of the Flyway are as follows: except in closed areas, the canvasback and redhead count 100 points each; the hen mallard, wood duck, and hooded merganser count 70 points each; the blue-winged teal, green-winged teal, cinnamon teal, scaup, pintail, gadwall, shoveler, and mergansers (except the hooded merganser) count 10 points each; all other species and sexes of ducks count 20 points each. The daily bag limit is reached when the point value of the last bird taken added to the sum of the point values of other birds already taken during that day reaches or exceeds 100 points. The possession limit is the maximum number of birds of species and sex which could have been legally taken in 2 days.

The point values for species and sexes taken in the remainder of the Flyway are as follows: except in closed areas, the canvasback and redhead count 100 points each; the hen mallard, wood duck, and hooded merganser count 70 points each; the blue-winged teal, green-winged teal, cinnamon teal, scaup, pintail, gadwall, shoveler, and mergansers (except the hooded merganser) count 10 points each; all other species and sexes of ducks count 20 points each. The daily bag limit is reached when the point value of the last bird taken added to the sum of the point values of other birds already taken during that day reaches or exceeds 100 points. The possession limit is the maximum number of birds of species and sex which could have been legally taken in 2 days.

Between October 4, 1975, and January 18, 1976, States and portions of States in this Flyway may hold concurrent open seasons on ducks, including mergansers, and coots, of 60 days with basic bag limits on ducks of 6 daily and 12 in possession. The daily bag limit on ducks includ-

ing mergansers (except the hooded merganser) count 10 points each; all other species and sexes of ducks count 25 points each. The daily bag limit is reached when the point value of the last bird taken added to the sum of the point values of other birds already taken during that day reaches or exceeds 100 points. The possession limit is the maximum number of birds of species and sex which could have been legally taken in 2 days.

Coots have a point value of zero, but the bag is limited to 15 daily and 30 in possession as under the conventional limits.

Those portions of the States of Colorado and Wyoming lying west of the Continental Divide, that portion of New Mexico lying west of the Continental Divide plus the entire Jicarilla Apache Indian Reservation, and that portion of Montana which includes the Counties of Hill, Chouteau, Cascade, Meagher, and Park and all counties west thereof, must select open seasons on waterfowl and coots in accordance with the framework for the Pacific Flyway.

Between October 4, 1975, and January 18, 1976, States in this Flyway may hold an open season on geese as follows:

(a) For the Central Flyway portions of Montana, Wyoming, Colorado and New Mexico, and that portion of Texas west of U.S. Highway 81, States may select a season of 93 days, with a daily bag limit of 2 and a possession limit of 4 geese.

(b) The States of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas for that portion east of U.S. Highway 81 may select a season of 72 days.

The daily bag and possession limits may not exceed 5 geese subject to the following:

In North Dakota the daily bag limit may include no more than 1 Canada goose and 1 white-fronted goose or 2 white-fronted geese. The possession limit may include no more than 2 Canada or 2 white-fronted geese or 1 of each. The season on Canada geese may not extend beyond November 16, 1975.

In South Dakota the daily bag limit may include no more than 1 Canada goose and 1 white-fronted goose and the possession limit may include no more than 2 Canada geese or 2 white-fronted geese or 1 of each. The season on Canada geese may not extend beyond November 30, 1975.

In Nebraska the season on Canada and white-fronted geese may not extend beyond December 21, except the season on Canada and white-fronted geese is closed in that portion of Nebraska encompassed by a line from the South Dakota border south on Nebraska Highway 27 to Ellsworth, east on Nebraska Highway 2 to Dunning, northeast on Nebraska Highway 91 to Burwell, north on Nebraska Highway 11 to Atkinson, west on U.S. Highway 20 to Valentine, and north on U.S. Highway 83 to the South Dakota border.

The season on Canada and white-fronted geese will close December 7 in

that portion of Nebraska encompassed within an October 4, 1975-January 18,

Exception: the limit on canvasbacks

plete closure on Canada geese during the 1975-76 waterfowl hunting season.

Canada geese and the season on Canada geese may not extend beyond December

tion, subject to the provisions of Title 50, Code of Federal Regulations, all ap-

that portion of Nebraska encompassed by a line from Hyannis south on State Highway 61 to its junction with State Highway 92, west on State Highway 92 to its junction with U.S. 26, east on U.S. Highway 26 to its junction with U.S. Highway 30, east on U.S. Highway 30 to its junction with U.S. Highway 183, north on U.S. Highway 183 to its junction with State Highway 91, west on State Highway 91 to its junction with State Highway 2 and west on State Highway 2 to its junction with State Highway 61 at Hyannis.

The daily bag limit may include no more than 1 Canada and 1 white-fronted goose and the possession limit may include no more than 2 Canada or 2 white-fronted geese or 1 of each.

In Kansas the season on Canada and white-fronted geese may not extend beyond December 21. The daily bag limit may include no more than 1 Canada and 1 white-fronted goose and the possession limit may include no more than 2 Canada geese or 2 white-fronted geese or 1 of each.

In the Oklahoma Counties of Alfalfa, Bryan, Johnston, and Marshall, the State may select either:

(a) A season of 72 days with a daily bag limit of no more than 1 Canada goose and 1 white-fronted goose, and a possession limit of no more than 2 Canada geese, or 2 white-fronted geese, or 1 of each; or

(b) A season of 53 days (within the 72-day period selected for the remainder of the State) with a daily bag limit of no more than 2 Canada geese, or 1 Canada goose and 1 white-fronted goose, and a possession limit of no more than 2 Canada geese or 2 white-fronted geese or 1 of each.

In the remainder of Oklahoma, the daily bag limit may include no more than 2 Canada geese or 1 Canada goose and 1 white-fronted goose and the possession limit no more than 2 Canada geese or 2 white-fronted geese or 1 of each.

In that portion of Texas east of U.S. Highway 81, the State may select either:

(a) A season of 72 days with a daily bag limit of no more than 1 Canada goose or 1 white-fronted goose, and a possession limit of no more than 2 Canada geese or 2 white-fronted geese or 1 of each; or

(b) A season of 64 days beginning no earlier than November 16, 1975, with a daily bag of no more than 1 Canada goose and 1 white-fronted goose, and a possession limit of no more than 2 Canada geese or 2 white-fronted geese or 1 of each.

In all States in the Flyway, the daily bag and possession limits may include no more than 1 Ross' goose.

The States of Colorado, New Mexico, Oklahoma, Texas, Montana, and Wyoming may select a season on the lesser sandhill (little brown) crane with a daily bag limit of 3 and a possession limit of 6

within an October 4, 1975-January 18, 1976, framework as follows:

(a) 36 consecutive days from October 4 through November 8, 1975, in the Central Flyway portion of Colorado except the San Luis Valley area.

(b) 93 consecutive days between October 25, 1975, and January 31, 1976, in the New Mexico Counties of Chaves, Curry, De Baca, Eddy, Lea, Quay, and Roosevelt, and in that portion of the State of Texas lying west of a line running south from the Oklahoma border along U.S. Highway 287 to U.S. Highway 87 at Dumas, along U.S. Highway 87 and including all of Howard and Lynn Counties to U.S. Highway 277 at San Angelo, and along U.S. Highway 277 to the International Toll Bridge in Del Rio.

(c) 58 consecutive days on or after November 29, 1975, in that portion of Oklahoma lying west of U.S. Highway 81, and in that portion of Texas lying east of a line running south from the Oklahoma border along U.S. Highway 287 to U.S. Highway 87 at Dumas, then along U.S. Highway 87 to San Angelo, and lying west of a line running north from San Angelo along U.S. Highway 277 to Abilene, along State Highway 351 to Albany, along U.S. Highway 283 to Vernon, and then along U.S. Highway 183 east to the Oklahoma border.

(d) 37 consecutive days to open with the goose season in Phillips County, Montana.

(e) 30 consecutive days on or after October 11, 1975, in Platte and Goshen Counties, Wyoming.

The States of North Dakota and South Dakota may select a sandhill crane season of: 30 consecutive days between November 8 and December 7, 1975, in the North Dakota Counties of Kidder, Stutsman, Benson, Emmons, Pierce, McLean, Sheridan, and Burleigh; and in part of South Dakota described as follows: from the North Dakota border, south on U.S. Highway 83 to U.S. Highway 212, west on U.S. Highway 212 to the Promise Road, north on the Promise Road to State Highway 20, north on State Highway 20 to U.S. Highway 12, northwest on U.S. Highway 12 to State Highway 63, north on State Highway 63 to the North Dakota border.

(Note: Proposed additions to the lesser sandhill (little brown) crane section regarding daily bag and possession limits in North and South Dakota, plus the requirement for a Federal sandhill crane hunting permit, were published in the FEDERAL REGISTER dated August 21, 1975 (40 FR 36572).)

#### PACIFIC FLYWAY

Between October 4, 1975, and January 18, 1976, States or portions of States in this Flyway, except the Columbia Basin Area, may hold concurrent open seasons on ducks, mergansers, coots, and gallinules of 93 days with basic bag limits on ducks of 7 daily and 14 in possession.

No more than 2 redheads or 2 canvasbacks or 1 of each daily may be taken and no more than 4 singly or in the aggregate may be possessed.

Exception: the limit on canvasbacks is 1 daily and 1 in possession in the following area:

California—San Francisco Bay—San Jose area—beginning at Golden Gate Bridge, north on U.S. Highway 101 to State Highway 37; then east on State Highway 37 to U.S. Highway 80; then north on U.S. Highway 80 to State Highway 12 at Fairfield; then east on State Highway 12 to Rio Vista at State Highway 84 (160); then south on State Highway 84 (160) to State Highway 4; then west on State Highway 4 to U.S. Highway 80; then south on U.S. Highway 80 to State Highway 17; then south on State Highway 17 to U.S. Highway 101 at San Jose; then north on U.S. Highway 101 to point of beginning.

The season is closed on the Mexican duck.

The bag limit on mergansers is 5 daily and 10 in possession of which not more than 1 daily and 2 in possession may be hooded mergansers.

The daily bag and possession limit on coots and gallinules is 25 singly or in the aggregate of these species.

For that portion of California lying south of the Tehachapi Mountains and west of the Colorado River Area (as described in Title 14 California Fish and Game Code, Section 502), the State may designate season dates differing from those in the rest of the State.

Clark and Lincoln Counties in Nevada and the Colorado River area of California have the season dates selected by Arizona for waterfowl; and the Tule Lake area of California has the season dates selected by Oregon for waterfowl.

In the Columbia Basin Areas of Washington, Oregon and Idaho, between October 4, 1975, and January 18, 1976, the season lengths for ducks, mergansers, coots, and gallinules may be 100 days with all seasons running concurrently. The daily bag is 7 ducks with a possession limit of 14 ducks with no more than 2 redheads or 2 canvasbacks or 1 of each daily and no more than 4 singly or in the aggregate in possession. The bag limit on mergansers is 5 daily and 10 in possession of which not more than 1 daily and 2 in possession may be hooded mergansers. The daily bag and possession limit on coots and gallinules is 25.

Between October 4, 1975, and January 18, 1976, States or portions of States in this Flyway, except the Columbia Basin Area, may hold an open season on geese of 93 days with a basic daily bag and possession limit of 6, provided, that the daily bag limit does not include more than 3 snow geese and 3 geese of the dark species (Canada and white-fronted); the daily bag and possession limits are proportionately reduced in those areas where special restrictions apply to Canada geese. In the States of Washington and Idaho, the daily bag limit is 3 and the possession limit is 6 geese.

In three areas in California restrictions on the hunting of Canada geese are as follows:

(1) In the Counties of Del Norte, Humboldt and Mendocino, there will be a complete closure on Canada geese during the 1975-76 waterfowl hunting season.

(2) In the Sacramento Valley in the area described as follows: beginning at the town of Willows in Glenn County, proceeding south on Interstate Highway 5 to the junction of State Highway 20 near the town of Williams in Colusa County; thence easterly on State Highway 20 to the junction of State Highway 45 in the town of Colusa; thence northerly on State Highway 45 to its junction with State Highway 162; thence continuing northerly on State Highways 45-162 to the town of Glenn; thence westerly on State Highway 162 to the point of beginning; the hunting season here for taking Canada geese will not open until December 15, 1975. It will then continue to the end of the 1975-76 waterfowl hunting season.

(3) In the San Joaquin Valley in the area described as follows: beginning at the city of Modesto in Stanislaus County and proceeding west on State Highway 132 to the junction of Interstate 5; thence southerly on Interstate 5 to the junction of State Highway 152 in Merced County; thence easterly on State Highway 152 to the junction of State Highway 59; thence northerly on State Highway 59 to the junction of State Highway 99 at the city of Merced; thence northerly and westerly to the point of beginning; the hunting season here for taking Canada geese will close on December 15, 1975.

In the Washington Counties of Adams, Franklin, Grant, Walla Walla, Lincoln, Douglas, Yakima, Benton, Klickitat, and Kittitas, and in the Oregon Counties of Morrow, Wasco, Sherman, Gilliam, Umatilla, Union and Wallowa, the goose season must be concurrent with the Columbia Basin duck season and the bag limits for geese are to be the same as in the general goose season in their respective States.

In the State of Arizona; in that portion of New Mexico placed in the Pacific Flyway; in Clark and Lincoln Counties, Nevada; in Washington County, Utah; and in the Tehachapi waterfowl area of California except Fish and Game District 22, the season on Canada geese may be no more than 65 days. The daily bag and possession limits are 2 Canada geese and the season on Canada geese may not extend beyond January 4, 1976.

In that portion of California Fish and Game District 22 for which California selects the open season (that portion of District 22 lying outside the Colorado River area), the daily bag and possession limits may not include more than 1 Canada goose and the season on Canada geese may be no more than 65 days and may not extend beyond January 4, 1976.

In that portion of Colorado placed in the Pacific Flyway, in the State of Utah except Washington County; in that portion of the State of Idaho lying east of U.S. Highway 93; and in that portion of the State of Montana placed in the Pacific Flyway but lying east of the Continental Divide the season on Canada geese may be no more than 65 days. The daily bag and possession limits are 2

Canada geese and the season on Canada geese may not extend beyond December 14, 1975.

In that portion of the State of Idaho lying west of U.S. Highway 93 (except Boundary, Bonner, Kootenai, Benewah, Shoshone, Latah, Nez Perce, Lewis, Clearwater, and Idaho Counties); in the Oregon Counties of Baker and Malheur; and in that portion of Montana lying west of the Continental Divide, the daily bag and possession limits are 2 Canada geese, and the season on Canada geese may be concurrent with ducks but may not extend beyond December 28, 1975.

In that portion of Wyoming place in the Pacific Flyway, the daily bag and possession limits are 2 Canada geese and the season on Canada geese may be no more than 75 days and the season may not extend beyond December 28, 1975.

In all States in the Flyway, the daily bag and possession limits may not include more than 1 Ross' goose.

Between October 25, 1975, and February 22, 1976, States in this Flyway may select an open season on black brant of 93 days with a daily bag limit of 4 and possession limit of 8.

In the States of Utah, Nevada, and Montana, an open season for taking a limited number of whistling swans may be selected subject to the following conditions: (a) the season must run concurrently with the season for ducks; (b) in the State of Utah, no more than 2,500 permits may be issued authorizing each permittee to take 1 whistling swan; (c) in the State of Nevada, no more than 500 permits may be issued authorizing each permittee to take 1 whistling swan in the County of Churchill; (d) in the State of Montana, no more than 500 permits may be issued authorizing each permittee to take 1 whistling swan in the County of Teton; (e) permit forms and correspondingly numbered metal locking seals furnished by the Service must be issued by the appropriate Department of Game and Fish on an equitable basis without charge.

States (or portions of States) in this Flyway may select open seasons on common snipe (Wilson's) with a daily bag limit of 8 and a possession limit of 16. The snipe season dates shall coincide with the duck season locally in effect.

[FR Doc.75-23683 Filed 9-4-75; 8:45 am]

#### PART 28—PUBLIC ACCESS, USE, AND RECREATION

##### Bosque del Apache National Wildlife Refuge, N. Mex.

The following special regulation is issued and is effective on September 5, 1975.

§ 28.28 Special regulations: public access, use, and recreation: for individual wildlife refuge areas.

#### NEW MEXICO

##### BOSQUE DEL APACHE NATIONAL WILDLIFE REFUGE

Bosque del Apache National Wildlife Refuge, San Antonio, New Mexico, is open to public access, use, and recreation, subject to the provisions of Title 50, Code of Federal Regulations, all applicable Federal and State laws and regulations, and the following special conditions:

(1) Vehicular access to existing roads on the Bosque del Apache National Wildlife Refuge will be through the headquarters entrance during daylight hours only. Refuge headquarters is located on U.S. Highway 85, eight miles south of San Antonio, New Mexico.

Portions of the Bosque del Apache National Wildlife Refuge have been included in the National Wilderness System under the "Wilderness Act" of 1964. Boundaries of these areas are appropriately posted with "Wilderness Area" signs. The following special conditions apply to the wilderness:

(1) Fires will be limited to camp stoves.

(2) Entry will be by foot only.

(3) Only backpack-type camping is permitted.

(4) Hunting dogs may be used in the taking of quail and doves.

The provisions of this special regulation supplement the regulations which govern public access, use and recreation of wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1975.

ROBERT F. STEPHENS,  
Acting Regional Director,  
Albuquerque, N. Mex.

AUGUST 29, 1975.

#### PART 32—HUNTING

##### Browns Park National Wildlife Refuge, Colo.

The following special regulation is issued and is effective on September 5, 1975.

§ 32.12 Special regulations: migratory game birds; for individual wildlife refuge areas.

#### COLORADO

##### BROWNS PARK NATIONAL WILDLIFE REFUGE

Public hunting of ducks, geese, coots and mergansers on the Browns Park National Wildlife Refuge, Colorado, is permitted for the 1975-76 season in accordance with State regulations; except in those areas designated by signs as closed to hunting. This open area, comprising 1,775 acres, is delineated on maps available at refuge headquarters, Grey-stone, Colorado, and from the Area Supervisor, U.S. Fish and Wildlife Service, Federal Building, Room 2215, 125 South State Street, Salt Lake City, Utah 84111. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of waterfowl, subject to the following special regulations:

(1) Vehicle travel within the refuge will be restricted to designated routes and parking areas.

The provisions of this special regulation supplement the regulations which

#### PART 32—HUNTING

govern hunting on wildlife refuge areas

permitted only on the area designated

govern hunting on wildlife refuge areas

key Island area designated by signs as

tional Wildlife Refuge is permitted over

govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 10, 1976.

#### PART 32—HUNTING

##### Flint Hills National Wildlife Refuge, Kans.

The following special regulation is issued and is effective on September 5, 1975.

§ 32.12 Special regulations: migratory game birds; for individual wildlife refuge areas.

#### KANSAS

##### FLINT HILLS NATIONAL WILDLIFE REFUGE

Public hunting of ducks, geese, coots, and mergansers on the Flint Hills National Wildlife Refuge, Kansas, is permitted, but only on the area designated by signs as open to hunting. This open area is delineated on maps available at refuge headquarters, Burlington, Kansas, and from the Area Manager, U.S. Fish and Wildlife Service, Federal Building, Room 1748, 601 East 12th Street, Kansas City, Missouri 64106. All applicable opening and closing hunting dates as issued by State and Federal Laws apply, as well as all other State and Federal regulations. Refuge hunting shall be subject to the following special conditions:

(1) Vehicle access shall be restricted to designated parking areas and to existing roads.

(2) Blind construction by the public is permitted but limited to temporary above ground construction. Constructed blinds become the property of the government. Blind construction does not constitute a reservation of hunting space. Daily occupancy of blinds erected on refuge hunting units will be determined on a first-come-first-serve basis.

(3) The transportation or possession of firearms is not permitted on the Neosho River from the northern refuge boundary to the point where the river empties into John Redmond Reservoir.

The provisions of the special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32.

MICHAEL J. LONG,  
Refuge Manager, Flint Hills Na-  
tional Wildlife Refuge, Bur-  
lington, Kans.

#### PART 32—HUNTING

##### Pathfinder National Wildlife Refuge, Wyo.

The following special regulation is issued and is effective on September 5, 1975.

§ 32.12 Special regulations: migratory game birds; for individual wildlife refuge areas.

#### WYOMING

##### PATHFINDER NATIONAL WILDLIFE REFUGE

Public hunting of ducks, geese, coots, and mergansers on the Pathfinder National Wildlife Refuge, Wyo., is permitted within regular 1975 waterfowl season dates established by Wyoming Game and Fish Commission, but only on areas designated by signs as open to hunting. This open area, comprising 3,760 acres, is delineated on maps available at refuge headquarters in Walden, Colorado and from the office of the Area Manager, U.S. Fish and Wildlife Service, 2215 Federal Building, Salt Lake City, Utah 84111. Hunting shall be in accordance with all applicable State and Federal regulations covering the hunting of ducks, geese, coots, and mergansers subject to the following special condition:

(1) Blinds—The construction of permanent blinds or pits is not permitted. Portable blinds may be used but not left on the refuge.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through open season dates established on these species by Wyoming Game and Fish Commission.

V. CARROL DONNER,  
Refuge Manager, Pathfinder  
National Wildlife Refuge,  
Walden, Colo.

[FR Doc.75-23558 Filed 9-4-75; 8:45 am]

#### PART 32—HUNTING

##### Havasu National Wildlife Refuge, Ariz. & Calif.

The following special regulation is issued and is effective on September 5, 1975. The limited time ensuing from the date of establishment of seasons on upland game by the States of Arizona and California makes it impracticable to give public notice of rule making.

§ 32.22 Special regulations: upland game; for individual wildlife refuge areas.

#### ARIZONA AND CALIFORNIA

##### HAVASU NATIONAL WILDLIFE REFUGE

Public hunting of quail, cottontail, and jackrabbits on the Havasu National Wildlife Refuge, Arizona and California, is

permitted only on the area designated by signs as open to hunting. This open area, comprising 29,150 acres, is delineated on maps available at refuge headquarters, Needles, California, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103. Hunting seasons are as follows: Arizona—Quail, from October 1, 1975 through January 31, 1976, inclusive; cottontail and jackrabbits, from September 1, 1975 through January 31, 1976, inclusive. California—Quail, from October 25, 1975 through January 31, 1976, inclusive; cottontail and jackrabbits, from September 1, 1975 through January 31, 1976, inclusive. Hunting shall be in accordance with all applicable State regulations covering the hunting of quail, cottontail and jackrabbits subject to the following special conditions:

(1) Hunting is prohibited within one-fourth mile of any occupied dwelling or concession operation.

(2) Weapons—Shotguns only, not larger than 10 gauge and incapable of holding more than three shells.

(3) Shooting hours are from one-half hour before sunrise to sunset.

(4) Up to two (2) dogs per hunter may be used for the purpose of hunting and retrieving.

(5) Hunters must enter the hunting area known as Topock Marsh by way of the parking lots only.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through January 31, 1976.

#### IMPERIAL NATIONAL WILDLIFE REFUGE

The public hunting of quail and cottontail rabbits on the Imperial National Wildlife Refuge, Arizona and California, is permitted only on the area designated by signs as open to hunting. This open area, comprising 16,500 acres, is delineated on maps available at refuge headquarters, Martinez Lake, Arizona, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103. Hunting seasons are as follows: Arizona—quail and cottontail rabbits, from October 1, 1975 through February 1, 1976, inclusive; California—quail, from October 25, 1975 through February 1, 1976, inclusive; and cottontail rabbits, from October 1, 1975 through February 1, 1976, inclusive. Hunting shall be in accordance with all applicable State regulations covering the hunting of quail and rabbits subject to the following special conditions:

(1) Quail and rabbits may be taken with shotguns only. Possession of .22 caliber rimfire firearms is prohibited.

(2) Up to two (2) dogs per hunter may be used for the purpose of hunting and retrieving.

The provisions of this special regulation supplement the regulations which

govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through February 1, 1976.

ROBERT F. STEPHENS,  
Acting Regional Director,  
Albuquerque, N.Mex.

## PART 32—HUNTING

## Ouray National Wildlife Refuge, Utah

The following special regulation is issued and is effective on September 5, 1975.

§ 32.22 Special regulations: upland game; for individual wildlife refuge areas.

## UTAH

## OURAY NATIONAL WILDLIFE REFUGE

Public hunting of pheasants on the Ouray National Wildlife Refuge, Utah, is permitted on the area designated by signs as open to hunting. This open area, comprising 7,500 acres is delineated on maps available at refuge headquarters, Vernal, Utah, and from the Area Supervisor, U.S. Fish and Wildlife Service, Federal Building, Room 2215, 125 South State Street, Salt Lake City, Utah 84111. Hunting shall be in accordance with all applicable State regulations covering the hunting of pheasants.

The provisions of this special regulation supplement the regulations which govern hunting on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 32, and are effective through December 15, 1975.

H. J. JOHNSON,  
Refuge Manager, Ouray National Wildlife Refuge, Vernal, Utah.

AUGUST 29, 1975.

## PART 32—HUNTING

## Seedskaade National Wildlife Refuge, Wyo.

The following special regulation is issued and is effective on September 5, 1975.

§ 32.12 Special regulations: migratory game birds; for individual wildlife refuge areas.

## WYOMING

## SEEDSKADEE NATIONAL WILDLIFE REFUGE

Public hunting of geese, ducks, coots, mergansers and snipe on the Seedskaade National Wildlife Refuge, Wyoming is permitted as follows: Geese from October 4 through November 17, 1975, inclusive, and November 29 through December 28, 1975, inclusive; Ducks, coots, mergansers and snipe from October 4, 1975 through January 4, 1976, inclusive. All of the refuge area, comprising 14,284 acres, and so designated by signs, is open to hunting. Maps of the area are available at the refuge office, Room 118, Courthouse, Green River, Wyoming, and from the Area Manager, U.S. Fish and Wildlife Service, 2215 Federal Building, Salt Lake City, Utah 84138. Hunting shall be in accordance with all applicable State and Federal regulations governing the hunting of geese, coots, ducks, mergansers and snipe.

The provisions of this special regulation supplement the regulations which govern hunting in wildlife refuge areas generally which are set forth in Title 50 Code of Federal Regulations Part 32 and are effective through December 31, 1975.

HAROLD H. BURGESS,  
Refuge Manager, Lacreek National Wildlife Refuge, Martin, S. Dak.

AUGUST 28, 1975.

## Title 24—Housing and Urban Development

## CHAPTER X—FEDERAL INSURANCE ADMINISTRATION

## SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-539]

## PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

## Final Flood Elevations for the City of El Dorado, Butler County, Kans.

The Federal Insurance Administrator, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of his final determinations of flood elevations for the City of El Dorado under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated his statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at 2011 West Sixth Street, El Dorado, Kansas 67042.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

§ 1917.10 Notice of final determination.

## RULES AND REGULATIONS

[Docket No. FI-512]

## PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

## Final Flood Elevations for the City of St. Matthews, Jefferson County, Ky.

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of his final determinations of flood elevations for the City of St. Matthews under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated his statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, 201 Thierman Lane, St. Matthews, Kentucky 40207.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

§ 1917.10 Notice of final determination.

Source of flooding	Location	Elevation (feet above mean sea level)	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Walnut River	U.S. Highway 54 and 77	1,278	N/A	N/A
	U.S. Highway 54	1,286	N/A	N/A
	Confluence with West Branch	1,286	N/A	N/A
West Branch	Confluence with Walnut River	1,286	N/A	N/A
	A.T. and S.F. RR	1,287	450	1,575
	U.S. Highway 77	1,287	750	1,500
	9th Avenue	1,289		1,575
	A.T. and S.F. RR	1,283	1,825	

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: August 15, 1975.

J. ROBERT HUNTER,  
Acting Federal Insurance Administrator.

[Docket No. FI 535]

## PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

## Final Flood Elevations for the City of Jeffersonton, Jefferson County, Ky.

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of his final determinations of flood elevations for the City of Jeffersonton under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated his statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, 10416 Watterson Trail, Jeffersonton, Kentucky 40299.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

§ 1917.10 Notice of final determination.

Source of flooding	Location	Elevation (feet above mean sea level)	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
Chenoweth Run	Plantside Dr.	643	100	300
	Bunsen Way	652	200	150
	1-64	674	350	300

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: August 15, 1975.

J. ROBERT HUNTER,  
Acting Federal Insurance Administrator.

[Docket No. FI-514]

**PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW**

**Final Flood Elevations for the City of Kansas City, Clay County, Mo.**

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10), hereby gives notice of his final determinations of flood elevations for the city of North Kansas City under § 1917.8 of Title

24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated his statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, 1828 Swift Street, North Kansas City, Missouri.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

§ 1917.10 Notice of final determination.

Source of flooding	Location	Elevation (feet above mean sea level)	Width from shoreline or bank of stream (facing down- stream) to 100-yr flood boundary (feet)	
			Right	Left
North Hillside drainage ditch	Route 210	752	0	0

[Docket No. 518]

**PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW**

**Final Flood Elevations for the City of Hermann, Gasconade County, Mo.**

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10), hereby gives notice of his final determinations of flood elevations for the City of Hermann under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated his statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at 312 Schiller, Herman, Missouri 65041.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

§ 1917.10 Notice of final determination.

Source of flooding	Location	Elevation (feet above mean sea level)	Width from shoreline or bank of stream (facing down- stream) to 100-yr flood boundary (feet)	
			Right	Left
Frene Creek (backwater flooding from Missouri River)	Highway 100 (1st St.)	518	500	650

**PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW**

**Final Flood Elevations for the City of Paris, Monroe County, Mo.**

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10), hereby gives notice of his final determinations of flood elevations for the City of Paris under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated his statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, 124 W. Caldwell Street, Paris, Missouri 65275.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

§ 1917.10 Notice of final determination.

Source of flooding	Location	Elevation (feet above mean sea level)	Width from shoreline or bank of stream (facing down- stream) to 100-yr flood boundary (feet)	
			Right	Left
Middle Fork River	Wabash R.R.	652	50	(1)

**PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW**

**Final Flood Elevations for the Borough of Deal, Monmouth County, N.J.**

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10), hereby gives notice of his final determinations of flood elevations for the Borough of Deal under § 1917.8 of Title 24 of the Code of Federal Regulations.

The administrator, to whom the Secretary has delegated his statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the Borough must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at Borough Hall, Durant Square, Deal, New Jersey 07723.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

§ 1917.10 Notice of final determination.

#### PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

##### Final Flood Elevations for the City of Absecon, Atlantic County, N.J.

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of his final determinations of flood elevations for the City of Absecon under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated his statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the City must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at City Hall, Absecon, New Jersey 08201.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

§ 1917.10 Notice of final determination.

Source of flooding	Location	Elevation (feet above mean sea level)	Width from shoreline or bank of stream (facing down- stream) to 100-yr flood boundary (feet)	
			Right	Left
Ingersolls Branch, Absecon Creek, and Absecon Bay.	Pleasant Ave.	10	From Madison Sq. to Mill Rd.	
	Summit Ave.	10	To 100 ft southwest of Mill Rd.

## RULES AND REGULATIONS

[Docket No. FI-531]

#### PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

##### Final Flood Elevations for the Borough of Sea Girt, Monmouth County, N.J.

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10)), hereby gives notice of his final determinations of flood elevations for the Borough of Sea Girt under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated his statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the Borough must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at Borough Hall, Sea Girt, New Jersey 08750.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

§ 1917.10 Notice of final determination.

Source of flooding	Location	Elevation (feet above mean sea level)	Width from shoreline or bank of stream (facing down- stream) to 100-yr flood boundary (feet)

#### PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevations for the Borough of Spring Lake, Monmouth County, N.J.

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood In-

surance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10), hereby gives notice for his final determinations of flood elevations for the borough of Spring Lake under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated his statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the Borough must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at 334 Pitney Avenue, Spring Lake, New Jersey 07762.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

§ 1917.10 Notice of final determination.

Source of flooding	Location	Elevation (feet above mean sea level)	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)

#### PART 1917—APPEALS FROM FLOOD ELEVATION DETERMINATION AND JUDICIAL REVIEW

Final Flood Elevations for the Borough of Jersey Shore, Lymington County, Pa.

The Federal Insurance Administrator, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 24 CFR Part 1917 (§ 1917.10), hereby gives notice of his final determinations of flood elevations for the Borough of Jersey Shore under § 1917.8 of Title 24 of the Code of Federal Regulations.

The Administrator, to whom the Secretary has delegated his statutory authority, has developed criteria for flood plain management in flood-prone areas. In order to continue participation in the National Flood Insurance Program, the Borough must adopt flood plain management measures that are consistent with these criteria and reflect the base flood elevations determined by the Secretary in accordance with 24 CFR Part 1910.

In accordance with Part 1917, an opportunity for the community or individuals to appeal this determination to or through the community for a period of ninety (90) days has been provided. Pursuant to § 1917.8, no appeals were received from the community or from individuals within the community. Therefore, publication of this notice is in compliance with § 1917.10.

Final flood elevations (100-year flood) are listed below for selected locations. Maps and other information showing the detailed outlines of the flood-prone areas and the final elevations are available for review at 425 Allegheny Street, Jersey Shore, Pennsylvania 17740.

Accordingly, the Administrator has determined the 100-year (i.e., flood with one-percent chance of annual occurrence) flood elevations as set forth below:

#### § 1917.10 Notice of final determination.

Source of flooding	Location	Elevation (feet above mean sea level)	Width from shoreline or bank of stream (facing downstream) to 100-yr flood boundary (feet)	
			Right	Left
West Branch, Susquehanna River	Allegheny St. (Route 44 bridge)	551.5	Corporate limits	to culvert.
	South of new R.R. spur, Penn-Central R.R.	578.3	80	100
	North of new R.R. spur, Penn-Central R.R.	576.3	300	450
	Penn-Central R.R. bridge	582.0	450	300
	High St.	588.0	(1)	100

To corporate limits.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

#### PART 1920—PROCEDURE FOR MAP CORRECTION

Letter of Map Amendment for the City of Longmont, Colo.

On October 23, 1973, in 38 FR 29228, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard Boundary Maps were available for public inspection. This list included the Village of Lindenhurst, Illinois, as an eligible community and included Map No. H 170379 01 which indicates that Lot 15, Block 202, Unit 27, Seven Hills Subdivision, being 306 High Point Drive, Lindenhurst, Illinois, and recorded in Book 44 of Plats, Page 48, as Document No. 1368554 in the office of the Recorder of Lake County, Illinois, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Accordingly, effective April 5, 1974, Map No. H 170379 01 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: August 21, 1975.

**PART 1920—PROCEDURE FOR MAP CORRECTION**

Letter of Map Amendment for the Village of Mundelein, Ill.

On August 6, 1974, in 39 FR 28253, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard Boundary Maps were available for public inspection. This list included the Village of Mundelein, Illinois, as an eligible community and included Map No. H 170382 61 which indicates that Lot 10, Block 3, Loch Lomond Subdivision Unit One, being 503 Kilmarney Pass, Mundelein, Illinois, as recorded in Book 32, Pages 98, 99, and 100 of Document 820686 in the office of the Recorder of Deeds of Lake County, Illinois, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the structure on the above property is not within the Special Flood Hazard Area. Accordingly, effective June 28, 1974, Map No. H 170382 01 is hereby corrected to reflect that the structure on the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

**PART 1920—PROCEDURE FOR MAP CORRECTION**

Letter of Map Amendment for the City of Kansas City, Mo.

On November 19, 1974, in 39 FR 40571, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard Boundary Maps were available for public inspection. This list included the City of Kansas City, Missouri, as an eligible community and included Map No. H 290173 34 which indicates that the subdivision known as Mission Lake, First Plat, Kansas City, Missouri, as recorded in Plat Book 34, Page 7, in the office of the Recorder of Deeds of Jackson County, Missouri, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the existing structures Nos. 1-16 and the Club House, as shown on the Site Grading Plan S-4, are not within the Special Flood Hazard Area. Accordingly, effective November 8, 1974, Map No. H 290173 34 is hereby corrected to reflect that the above mentioned structures are not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

**PART 1920—PROCEDURE FOR MAP CORRECTION**

Letter of Map Amendment for the Town of Cairo, N.Y.

On January 3, 1975, in 40 FR 779, the Federal Insurance Administrator pub-

lished a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard Boundary Maps were available for public inspection. This list included the Town of Cairo, New York, as an eligible community and included Map Nos. H 360286 02 and 05 which indicate that several lots in Half Moon Acres, Cairo, New York, as recorded in Drawer 168 in the office of the Clerk of Greene County, New York, are in their entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that Lots 1, 3, 5, 7, 9, 11, 13, 15 through 33, 38, and 41 through 46 of the above property are not within the Special Flood Hazard Area. Accordingly, effective December 20, 1974, Map Nos. H 360286 02 and 05 are hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

**Title 17—Commodity and Securities Exchange****CHAPTER I—COMMODITY FUTURES TRADING COMMISSION****PART 17—REPORTS BY FUTURES COMMISSION MERCHANTS AND FOREIGN BROKERS****PART 18—REPORTS BY TRADERS****Amendment of Large-Trader Reporting Requirements for Foreign Traders**

On July 3 the Commodity Futures Trading Commission (the "Commission") announced that it would delay, for a period of up to 60 days, the application of Parts 17 and 18 of the Regulations under the Commodity Exchange Act, as amended (the "Act"), to foreign traders and foreign brokers for the commodities newly regulated under the Commodity Futures Trading Commission Act of 1974 ("CFTCA"), and to require, for a similar period, futures commission merchants to report on a gross basis the positions in these commodities carried for omnibus accounts of foreign brokers. This action was taken after concern was expressed within the Commission about the effect of the new reporting requirements when applied to foreign-based traders and brokers. The provisions delaying application of large trader reporting requirements for foreign traders and foreign brokers are due to expire on September 4, 1975.

The Commission now intends on September 4, 1975 to implement an in-

\* See 40 FR 23994-6 (June 4, 1975) for the extension of large trader reporting requirements to newly regulated commodities and see 40 FR 29795 (July 16, 1975) for the delayed application of such large trader reporting requirements to foreign traders and foreign brokers.

term step toward conforming the reporting requirements for foreign brokers and foreign traders for commodities newly regulated under the CFTCA substantially to the reporting requirements which are presently in effect for foreign brokers and traders for all other commodities regulated prior to April 21, 1975. Reporting requirements currently in existence for commodities regulated prior to April 21, 1975, shall apply to all foreign traders and foreign brokers, with the sole exception that foreign traders with reportable positions in newly regulated commodities will not now be required to file series '03 reports. Such traders, however, will be required to file CFTC Form 40, "Statement of Reporting Trader."

The Commission fully intends, at a date in the near future, to require foreign traders to file CFTC series '03 reports for the newly regulated commodities. This requirement is being delayed, however, until after the Commission meets with representatives of the European trading community to discuss, among other important subjects, the objectives and mechanics of the CFTC large-trader reporting system, and the steps which the Commission takes to insure the confidentiality of individual trader information.

The Commission is fully aware that the definition of bona fide hedging transactions or positions which is contained in section 1.3(2) of the Regulations under the Act may not be appropriate for the classification of positions (speculative or hedging) on the required reports. However, the Commission has recently announced its intention to define bona fide hedging transaction or positions by October 18, 1975 and in requesting public comment on this matter expressed particular interest in the definition of hedging as it applies to the so-called "world" commodities.

These amendments, of course, do not affect reports required of foreign traders and foreign brokers for trades and positions in commodities regulated prior to

\* See 40 FR 34627 (August 18, 1975).

the CFTCA, nor do they affect the reporting requirements for futures commission merchants and domestic traders in the newly regulated commodities.

**STATUTORY AUTHORITY**

Because the effect of this amendment is to relieve foreign traders of the obligation of filing CFTC series '03 reports which would take effect on September 4, 1975 the Commission finds that the notice and public procedure specified in 5 U.S.C. 553(b), and the publication thirty days before the effective date, specified in 5 U.S.C. 553(d), are impractical and unnecessary and would be contrary to the public interest.

In consideration of the foregoing, § 18.07 of Part 18 in Chapter I of Title 17 of the Code of Federal Regulations has been amended, effective September 4, 1975, as follows:

**§ 18.07 Reports by Foreign Traders.**

Any trader located outside of the United States or its territories shall not be required, until such date as the Commission upon 20 days notice provides, to file the reports required by § 18.00 of this Part 18 of these regulations for any commodity regulated under the Act but not specifically set forth in section 2(a) of the Act prior to the enactment of the Commodity Futures Trading Commission Act of 1974, except that any such trader is required to file such reports within one business day after a special call upon such trader by the Commission. (7 U.S.C. 61, 12a(5))

**§ 17.04 and 17.05 [Expired]**

[The provisions of Sections 17.04 and 17.05 of Part 17 in Chapter I of Title 17 of the Code of Federal Regulations by their terms have ended.]

Issued in Washington, D.C., on September 4, 1975.

WILLIAM T. BAGLEY,  
Chairman, Commodity Futures  
Trading Commission.

## proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

### DEPARTMENT OF THE TREASURY

Customs Service

[19 CFR Part 12]

#### SPECIAL CLASSES OF MERCHANDISE

##### Proposed Requirements for Entry and Release of Electronic Products

Notice is hereby given that under the authority of 5 U.S.C. 301, R.S. 251, as amended (19 U.S.C. 66), and section 624, 46 Stat. 759 (19 U.S.C. 1624), it is proposed to amend § 12.91 of the Customs Regulations (19 CFR 12.91) with respect to the declarations required to be made by the importer or consignee for the entry and release of electronic products subject to the performance standards in effect under section 358 of the Public Health Service Act, as amended (42 U.S.C. 263f). It is also proposed to amend § 12.90 of the Customs Regulations (19 CFR 12.90) to provide that "the Act", as referred to in § 12.91, refers to the Public Health Service Act, as amended (42 U.S.C. 201 *et seq.*), and not to the Radiation Control for Health and Safety Act of 1968 (42 U.S.C. 263b-263n).

The present regulations require a declaration by the importer or consignee of such electronic products that the products either (1) conform to the standards of section 358 of the Public Health Service Act, as amended (42 U.S.C. 263f), or (2) will be brought into compliance with these standards. The proposed amendment to § 12.91(b) adds two additional alternative declarations, whereby the importer or consignee may affirm that the products either (1) were manufactured prior to the date the standards became effective, or (2) are being imported for the purpose of research, investigations, studies, demonstrations or training. The proposed amendment to section 12.91(b) also modifies the language of the two alternative declarations presently contained in that section to bring them into conformity with current procedures.

In addition, the cross-references in § 12.91 to the provisions of the Code of Federal Regulations pertaining to the administration and enforcement of the provisions of the Public Health Service Act added by the Radiation Control for Health and Safety Act of 1968 (42 U.S.C. 263b-263n), are changed in order to reflect their current numerical designations (as set forth in 38 FR 28624). The proposed amendment also sets forth the current citation of authority for § 12.91.

Accordingly, it is proposed to amend §§ 12.90 and 12.91 of the Customs Regulations (19 CFR 12.90, 12.91) to read as follows:

#### § 12.90 Definitions.

As used in § 12.90 and 12.91, the term "the Act" shall mean the Public Health Service Act (42 U.S.C. 201 *et seq.*), as amended by the Radiation Control for Health and Safety Act of 1968 (42 U.S.C. 263b *et seq.*), and as further amended from time to time.

#### § 12.91 Electronic products offered for importation under the Act.

(a) *Standards prescribed by the Department of Health, Education, and Welfare.* Electronic products offered for importation into the Customs territory of the United States are subject to standards prescribed under section 358 of the Act (42 U.S.C. 263f). (See 21 CFR Parts 1000-1030.)

(b) *Requirements for entry and release.* Electronic products subject to standards in effect under section 358 of the Act (42 U.S.C. 263f), when offered for importation into the Customs territory of the United States shall be refused entry unless there is filed with the entry, in duplicate, a declaration verified by the importer or consignee which identifies the product and affirms:

(1) That the electronic products were manufactured prior to the date of any applicable electronic product performance standard (the date of manufacture shall be specified); or

(2) That the electronic products comply with all standards in effect under section 358 of the Act (42 U.S.C. 263f), and Parts 1000-1030 of title 21 of the Code of Federal Regulations (21 CFR Parts 1000-1030), and that the certification required by section 360 of the Act (42 U.S.C. 263h) in the form of a label or tag is attached thereto; or

(3) (i) That the electronic products do not comply with all standards in effect under section 358 of the Act (42 U.S.C. 263f), and Parts 1000-1030 of title 21 of the Code of Federal Regulations (21 CFR Parts 1000-1030), but are being imported for the purpose of research, investigations, studies, demonstrations or training, (ii) that the products will not be introduced into commerce and when their mission is completed they will be destroyed or exported under Customs supervision, and (iii) that an exemption for these products has been or will be requested from the Director of the Bureau of Radiological Health in accordance with section 360B of the Act (42 U.S.C. 263j); or

(4) That the electronic products do not comply with all standards in effect under section 358 of the Act (42 U.S.C. 263f) and Parts 1000-1030 of title 21 of the Code of Federal Regulations (21

CFR Parts 1000-1030), but that a timely and adequate petition for permission to bring the product into compliance with applicable standards has been or will be filed with the Secretary of Health, Education, and Welfare in accordance with 21 CFR 1005.21.

#### § 12.91 [Amended]

Paragraph (c) of section 12.91 is amended by substituting "21 CFR 1005.10" for "42 CFR 78.604". Paragraph (d) of section 12.91 is amended by substituting "21 CFR 1005.23" for "42 CFR 78.604".

The citation of authority at the end of § 12.91 is amended to read as follows:

(Sec. 2(3), 82 Stat. 1177, as amended, 1181; 42 U.S.C. 263f, 263h)

Data, views, or arguments with respect to the foregoing may be addressed to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229. To ensure their consideration, they must be received not later than October 7, 1975.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8(b)), at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

G. R. DICKERSON,

Acting Commissioner of Customs.

Approved: August 26, 1975.

DAVID R. MACDONALD,

Assistant Secretary

of the Treasury.

#### Internal Revenue Service

[26 CFR Part 1]

#### INCOME TAX

##### Fringe Benefits; Notice of Publication of Discussion Draft of Regulations

Notice is hereby given that the Department of the Treasury is currently considering proposed amended regulations prescribing standards for determining whether incidental facilities, goods and services benefitting employees, commonly referred to as fringe benefits, result in compensation includible in gross income. The proposed regulations are set forth below in discussion draft form.

The Internal Revenue Code does not provide specific rules for determining which economic benefits provided to employees by their employers are required to be included in gross income. Adminis-

trative practice over the years has permitted certain items to be excluded from the employees' income. The need to provide guidance for all taxpayers has been apparent for some time. Before publishing a notice of proposed rulemaking, the Department of the Treasury is publishing the attached discussion draft to provide an opportunity for review and comment by all interested parties, including the tax writing committees of Congress.

Consideration will be given to any comments or suggestions with respect to the provisions contained in the discussion draft. Such comments or suggestions should be submitted in writing (preferably in duplicate) to the Office of the Assistant Secretary of the Treasury for Tax Policy, Washington, D.C. 20220, with copies (preferably four) sent to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, on or before November 4, 1975.

Designations of material as confidential or not to be disclosed, contained in such comments, will not be accepted. Thus, a person submitting written comments should not include therein material that he considers to be confidential or inappropriate for disclosure to the public. It will be presumed that every written comment submitted in response to this notice is intended by the person submitting it to be subject in its entirety to public inspection and copying in accordance with the same procedures as are prescribed in 26 CFR 601.702(d) (9) for public inspection and copying of written comments received in response to a notice of proposed rulemaking.

FREDERIC W. HICKMAN,  
Assistant Secretary  
for Tax Policy.

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) prescribing rules to determine whether or not incidental facilities, goods, and services benefitting employees result in compensation includible in gross income. These benefits commonly are referred to as fringe benefits.

Some fringe benefits, such as the provision of health insurance by an employer for his employees, are excluded expressly from gross income by statute. The status of most other fringe benefits is not answered expressly by statute. The amendments to the regulations prescribe rules to determine whether or not these fringe benefits constitute compensation includible in gross income.

The general rule of the proposed amendments permits an employer to share with its employees benefits arising from its business where the employer incurs no additional cost. To prevent abuse, the general rule does not apply to fringe benefits that are available only to the most highly compensated employees. An example covered by the general rule is the stand-by travel privileges accorded to flight attendants by commercial airlines.

Failure of a benefit to qualify under the general rule does not automatically mean that the benefit results in taxable

income. In all cases where the requirement of the general rule is not met the fringe benefits must be examined more closely to determine whether or not the benefit derived is taxable as compensation. Under the proposed amendments where the benefit provided by an item is so small as to make accounting for it unreasonable or administratively impractical, there is no taxable compensation. This de minimis exception applies, for example, to an employee having his secretary type a personal letter.

Where a fringe benefit does not meet all of the tests of the general rule and it is too significant to be ignored under the de minimis exception, whether or not the benefit conferred constitutes compensation includible in gross income is determined on the basis of all the relevant facts and circumstances. The proposed amendments set out nine of the factors to be taken into consideration. Among these factors are: (i) Whether or not the employer incurs a substantial and identifiable additional cost, (ii) whether or not the benefit is reimbursement of an unusually large expense of the employee incurred on account of his employment, (iii) whether or not the benefit is provided to employees in a way that does not discriminate in favor of the most highly compensated employees, and (iv) the relationship of the expense to the employers' business.

Where a fringe benefit is determined to result in compensation includible in gross income, the amount of compensation is the fair market value of the benefit. This is the amount that the employee would have to pay on an arm's-length basis for the benefit or its equivalent.

Among the examples included in the proposed amendments applying the facts and circumstances test is an executive who has a company jet make a special trip to enable him and his wife to shop and attend a play in another city. The executive is held taxable on an amount equal to the cost of chartering an equivalent plane to make the trip. Another example states that an employee does not have gross income where his employer provides him with protection in response to threats made by terrorists alleging that the employer has exploited the terrorists' country.

A number of examples deal with the use of an automobile furnished by the employer. One example holds that a fire chief does not have compensation from the use of a car to enable him to go on short notice to the scene of major fires. Another example holds that the use of a government automobile by a United States ambassador to travel to and from work, as permitted by Federal statutes regulating the use of official vehicles, does not result in gross income. There also is an example holding that providing a chauffeur-driven car to take a top executive of a corporation to and from work results in compensation, but that use of the car to take the executive from his office to business appointments does not result in compensation.

### PROPOSED RULES

41119

#### PROPOSED AMENDMENTS TO THE REGULATION

In order to provide rules relating to whether or not incidental facilities, goods, and services benefitting employees result in gross income to the employees, the Income Tax Regulations (26 CFR PART 1) are amended as follows:

PARAGRAPH 1. Immediately after § 1.61-15 there is added the following new section:

§ 1.61-16 Incidental facilities, goods, and services benefitting employees.

(a) *In general.* Where an employer makes available to its employees generally facilities, goods, or services that exist incidentally to its trade or business, the resulting benefits to employees, their immediate families, or guests accompanying the employees shall not be treated as compensation includible in gross income under the following circumstances:

(1) The facilities, goods, or services are owned by or under the control of the employer for purposes proper to the conduct of the trade or business involved and are primarily unrelated to the personal use or consumption of such items by employees of the employer.

(2) The facilities, goods, or services are made available to employees under terms and conditions such that the employer incurs no substantial additional cost in making them so available, and

(3) The facilities, goods, or services are made available to employees generally or to reasonable classifications of employees determined, for example, on the basis of the nature of their work, seniority, or similar factors (but not including classifications primarily including only the most highly compensated employees).

The extension under like circumstances of similar privileges by an employer to individuals who are employees of another employer in the same or a related trade or business shall not be included in the income of such individuals or their employer.

(b) *Other benefits.* Where facilities, goods, or services are made available under circumstances that do not meet the requirements of paragraph (a) of this section, whether or not the benefit conferred constitutes compensation includible in gross income will be determined on the basis of all the facts and circumstances. The following factors, among others, shall be considered where present. The presence of one or more of them will not necessarily be controlling, but will be a fact tending to indicate that the benefit does not constitute compensation includible in gross income.

(1) The cost incurred by the employer in providing the benefit is not identifiable or is not significant in relation to the fair market value of the benefit received by the employee.

(2) The personal use occurs during, immediately before, or immediately after working hours at or near the business premises of the employer and has a

proximate relation to work performed by the employee.

(3) The benefit is provided to employees generally or to reasonable classifications of employees determined, for example, on the basis of the nature of their work, seniority, or similar factors (but not including classifications primarily including only the most highly compensated employees).

(4) The benefit is similar to a service or other benefit which is commonly provided by state or local governments in the United States, but which is not readily available to the employees because of the location of their employment.

(5) The benefit accommodates an important requirement of the employer or relieves the employer of significant expense or inconvenience.

(6) The benefit is reimbursement of a greater than usual item of expense which was incurred by the employee for a purpose normally thought primarily personal but which was incurred because a business requirement of the employer prevented the employee from obtaining the item in the ordinary manner.

(7) The benefit is provided primarily to insure the employee's safety by protecting against significant risk arising from the employment relation.

(8) The benefit is not a substantial amount absolutely or in comparison to the employee's stated compensation.

(9) The item generally is not thought of as constituting compensation includible in gross income.

The failure of a benefit to qualify under one or more of the above factors, in appropriate cases, may be a fact tending to indicate that it does constitute compensation includible in gross income.

(c) *De minimis exception.* The provision of facilities, goods, or services shall not be deemed to give rise to compensation includible in gross income when the amount of such item is so small as to make accounting for it unreasonable or administratively impractical.

(d) *Amount of income.* If it is determined that an item is compensation includible in an employee's gross income, then the amount included in gross income is the fair market value of the item, which is the amount that the employee would have had to pay, on an arm's-length basis, to obtain use or possession of equivalent facilities, goods, or services.

(e) *Definition.* For purposes of this section the term "employee" includes self-employed individuals, independent contractors, and officers of a corporation, but does not include shareholders of a corporation as such.

(f) *Examples.* The principles of this section are illustrated by the following examples.

*Example (1).* Flight attendants for a commercial airline are permitted to make a specified number of trips each year at no cost. The number of trips allowed each flight attendant depends upon the length of time each flight attendant has been an employee of the airline. A flight attendant must have been an employee for at least six months before being eligible to take any such flight. Flight attendants may travel to any destination served by the employer airline or by any airlines with which the employer has reciprocal arrangements. Trips are permitted only on a space available basis and do not result in loss of revenue to the airline. The trips taken by a flight attendant on the employer airline, or on another airline with which the employer has a reciprocal arrangement, qualify under paragraph (a) and are not compensation includible in gross income because the flights on which the flight attendant travels are a part of the airline's regular business and are primarily unrelated to personal use by employees, the employer incurs no substantial additional cost, and the classification of employees by their function as flight attendants and sub-classification by seniority is a reasonable method of classification.

*Example (2).* A commercial airline encourages bona fide travel agents to take a reasonable number of trips each year on a stand-by basis at a nominal price. The purpose of making the travel privileges available to the travel agents is to familiarize them with the airline's services and with the attractions at destinations served by the airline, and thus to increase the likelihood that they will arrange for their customers' travel using services provided by the airline. The business of travel agents is related to that of the airline. The extension of transportation to a travel agent for a nominal price qualifies under paragraph (a) for the reasons given in Example (1) regarding the similar benefit made available to a flight attendant.

*Example (3).* A retail store allows its employees with at least six months' service a discount on purchases made at the store. The price of merchandise net of the discount to the employees is not less than the wholesale price of the merchandise. The benefits received by an employee may qualify under the de minimis exception of paragraph (c). Even if they do not so qualify, the merchandise discounts do not qualify under paragraph (a) because the merchandise is from normal inventory, the employer merely forgoes additional income and does not incur any significant additional costs, and the discount is generally available to all employees. An employee does not realize compensation includible in gross income by reason of the discount.

*Example (4).* An interior decorator purchases furniture for her own home at the wholesale price generally charged interior decorators by the manufacturer. The business of the interior decorator is related to that of the furniture manufacturer. The lower price to the interior decorator does not result in compensation includible in gross income under paragraph (a) for the reasons given in Example (3) regarding similar benefits to employees of a retail store.

*Example (5).* (a) An executive of a company and his wife travel in a company-owned plane to City A to shop and attend the theater. The plane otherwise would not have made the flights. The executive works during the flights to and from City A. Company policy allows top executives to use its planes for such personal trips. The use of the company plane does not qualify under paragraph (a) because the employer incurred substantial additional cost and because such use of company planes is restricted to top executives. Under paragraph (b) the most important relevant factors are the large identifiable costs incurred by the employer, the absence of a proximate relationship of the trip to the executive's employment, and the limitation of the use of the company planes to top executives. The executive has compensation includible in gross income. Since the company plane made the trip solely for

the benefit of the executive and his wife, the amount of gross income is the cost of chartering the same or an equivalent plane for the round trip to City A.

(b) The executive's secretary accompanied him on the trip to City A to take dictation and perform other secretarial duties during the flight. Since the secretary's primary purpose of traveling to City A was to be available to the executive, the incidental personal pleasure which she derives from the travel qualifies under the de minimis exception of paragraph (c). The secretary's travel also qualifies under paragraph (a) because the use of the plane to transport the secretary to City A was proper to the secretary's employment as the executive's personal secretary, the employer incurred no substantial additional cost in her traveling, and the availability of such travel to the secretary under such circumstances constitutes a reasonable classification because of the nature of her duties. The Secretary has no compensation includible in gross income as a result of traveling to City A.

(c) The secretary's mother also accompanied her on the trip at no additional cost to the company. Since the travel did not constitute compensation includible in gross income to the secretary under paragraph (a), the same benefit extended to her mother, as a member of her immediate family, did not constitute compensation includible in income to anyone.

*Example (6).* A company executive travels to City B on a company-owned plane to attend a two-day trade convention important to the business of the company. At his invitation he is accompanied by his wife and daughter and the president of a college located in the same community as the company. The wife, daughter, and college president occupy seats on the plane that otherwise would have gone unused. The wife, daughter, and the college president do not attend the trade convention. Under paragraph (a) transportation furnished to the wife, daughter, and college president does not constitute compensation includible in gross income to anyone because under paragraph (a) the flight to City B was primarily for a business purpose and was primarily unrelated to the personal enjoyment of the executive, the furnishing of transportation to additional persons did not entail any substantial additional expense to the company, and the extension of the privilege of inviting guests to those classes of employees who are themselves traveling for a proper purpose of the employer is a reasonable classification. The furnishing of transportation to the wife, daughter, and college president does not constitute compensation includible in gross income.

*Example (7).* A company's plant is located in an area which is unsafe at night and in which there is not suitable public transportation available to employees leaving work between midnight and 6 a.m. An employee finishing work at 2 a.m. is reimbursed exactly for taxi fare home under a general policy extending taxi service or reimbursement to all employees finishing work between midnight and 6 a.m. Employees who drive their own automobiles may park in a protected area, but are not paid for taxi service not used. The furnishing of taxi fare at night does not qualify under paragraph (a) because the employer incurs substantial additional cost in furnishing it. Under paragraph (b) the most important relevant factors are the exact reimbursement of a greater than usual expense incurred by an employee who would ride mass public transportation if it were available, the safety factor, and the general availability of the taxi fare to similarly situated employees. The taxi fare reimbursement does not constitute compensation includible in gross income.

*Example (8).* An accounting firm reimburses an employee the exact amount the employee spends on dinner and on taxi fare home where the employee works several hours beyond his normal quitting time because of the press of the employer's business. The reimbursement does not qualify under paragraph (a) because the employer incurs substantial additional expense. Under paragraph (b) the most important relevant factors are the exact reimbursement of a greater than usual expense incurred by the employee, the accommodation of an important business requirement of the employer, and the proximate relation of the reimbursement to the overtime period. The reimbursement does not constitute compensation includible in gross income to the employee.

*Example (9).* A company provides a chauffeur-driven automobile to and from work for each of its top executives. The cars also are available to the executives for trips to and from business appointments. The furnishing of such service to the executives does not qualify under paragraph (a) because the cars and chauffeurs are not primarily unrelated to the personal use by the executives, the employer incurs substantial additional cost, and the service is limited to the highest paid executives. Under paragraph (b) the most important relevant factors are the limitation of the chauffeur service to the top executives, the proximate relation of the transportation to the executive's work, and the accommodation of the needs of the employer. In this case a distinction must be made between providing transportation to and from work, which is a personal commuting expense, and transportation to and from business appointments, which is a business expense. The former constitutes compensation includible in gross income while the latter does not. The amount of compensation realized by the executives is the cost of obtaining the same or equivalent chauffeur service to and from work on an arm's-length basis.

*Example (10).* A company's headquarters are in an office building which it owns in the downtown area of a large city. The building has garage space in the basement that is used for deliveries and guest parking. A limited number of spaces also are available for parking by the company's employees. In allotting those spaces among its employees, the company gives preference to those employees whose duties require them to work irregular hours, who frequently use their cars for business purposes during the day, and, other things being equal, to employees with seniority. These criteria, in fact, result in most of the spaces being allotted to executives, but spaces also are provided to others who meet the criteria and are not available to executives who do not meet the criteria. The employer incurred a substantial additional cost in acquiring the parking facility and incurring continuing substantial additional costs in maintaining and operating the facility. Because the parking spaces are assigned to employees on a guaranteed basis, the use by the employees preempts other potential uses. Accordingly, the use of a parking space does not qualify under paragraph (a) because the employer incurs substantial additional cost. Under paragraph (b) the most important relevant factors are the availability of the parking in the employer's building during working hours, the reasonableness of the employer's important requirement that the employees using the parking facilities be readily available. The employees using the parking facility do not have compensation includible in gross income.

*Example (11).* United States ambassadors are furnished an official vehicle and driver. An ambassador uses his car on official business and for commuting from his residence to the embassy. Federal laws governing the use of funds appropriated for Executive departments and agencies prohibit the use of appropriated funds to operate and maintain any Government-owned automobile that is not used exclusively for official purposes. Under these provisions, official purposes does not, with limited exceptions, include transporting a government employee to and from work. An employee who willfully uses, or authorizes the use of, a government vehicle for such transportation may be suspended from employment or, if the circumstances warrant, summarily removed from office. However, these prohibitory provisions do not apply to vehicles for official use of the President, the heads of certain enumerated executive departments, ambassadors, minister, charges d'affaires, and other principal diplomatic and consular officials. The providing of an official vehicle and driver to ambassadors does not qualify under paragraph (a) because the vehicles and drivers are not primarily unrelated to the personal use by the executive, the employer incurs substantial additional cost, and the benefit is limited to the most highly compensated officials. Under paragraph (b) the most important relevant factor is the finding by Congress, implicit in the provisions regulating use of appropriated funds, that the official duties of certain federal employees require that they be on call at all times and have the use of an official vehicle for transportation to and from work. Depending on the circumstances provision of an official vehicle and driver also may protect the ambassador from a danger arising from the employment relationship. See examples (7) and (13). The use of the official vehicle and driver by the ambassador does not constitute compensation includible in gross income.

*Example (12).* The fire chief of City C is required to be available by telephone at all times and to be able to go on short notice to the scene of major fires. The city provides a car and driver which is available at all times. The fire chief occasionally uses the car for nonbusiness purposes. The providing of the car and driver to the fire chief does not qualify under paragraph (a) because it requires substantial additional expenses by the employer. Under paragraph (b) the most important relevant factors are the proximate relation of the car and driver to the fire chief's duty to supervise personally fighting of all major fires and the accommodation of the employer's requirement that the fire chief be readily available for this duty. The use of the car and driver by the fire chief to go to fires does not constitute compensation includible in gross income. The occasional personal use of the car and driver by the fire chief qualifies under the de minimis exception of paragraph (c) and does not constitute compensation includible in gross income.

*Example (13).* The president of a multinational corporation is threatened by an organization of political extremists in a foreign country who allege that the corporation has exploited their country. The corporation provides bodyguards for the president and his immediate family. The protection does not qualify under paragraph (a) because it requires substantial additional expense by the employer. The most important relevant factor under paragraph (b) is providing for protection of the executive and his family from a danger arising from the employment relationship. The protection does not result in compensation includible in gross income.

*Example (14).* An automobile agency furnishes cars to its employees as "demonstrators" without charge. The employees use the automobiles primarily for personal use. Because of such use the employer receives a reduced price when the demonstrators are sold. The furnishing of the automobiles does not qualify under paragraph (a) because the employer incurs substantial additional cost. Under paragraph (b) the most important

relevant factors are the significant cost incurred by the employer and the absence of a proximate relation of the furnishing of the automobiles to the employees' employment. The employees each have compensation includible in gross income in an amount equal to the cost of leasing the same model automobile in an arm's-length transaction. *Example (15).* An employer furnishes automobiles to all 30 of its outside traveling salesmen who are away from home an average of four days a week. The company permits the employees to keep the cars over weekends and to use them for personal purposes, provided that they pay for all gasoline they consume for personal use. The employer does not incur any substantial and identifiable cost to maintain and operate the cars because of the personal use of them by the employees. When the employer trades in the fleet of automobiles used by the salesmen, personal use of the cars does not materially affect the price it is able to obtain. The furnishing of the automobiles qualifies under paragraph (a) because the use of the automobiles is proximately related to the employer's business and the personal use by the employees is not the primary purpose for their acquisition, the employer incurs no substantial additional cost, and providing the benefit for a class consisting of all the outside traveling salesmen is a reasonable classification. The use of the automobiles by the salesmen does not result in compensation includible in gross income.

*Example (16).* An employee occasionally has his secretary type a personal letter and make a copy of it for his records on his employer's electric copying machine. The personal use of the secretary and the copying machine qualifies under the de minimis exception of paragraph (c) and does not result in compensation includible in gross income.

*Example (17).* A law firm pays bar association dues of lawyers employed by it. The firm also has a monthly cocktail party for all attorneys and paralegal personnel and has an annual golf, tennis, and swimming outing at a country club.

(a) The payment of bar association dues may qualify under the de minimis exception of paragraph (c). If the amount paid by the employer on behalf of each attorney is a substantial additional cost, then paragraphs (a) and (c) will not apply. For purposes of paragraph (b) the most important relevant factors are the proximate relation of the bar association dues to the practice of law, the general availability of the dues reimbursement to all employed attorneys, and the employer's interest in having its attorneys participate in local bar associations. No compensation includible in gross income results from the payment of the dues.

(b) The monthly cocktail party and the annual outing may qualify under the de minimis rule of paragraph (c). If the costs incurred by the employer are substantial, then paragraphs (a) and (c) will not apply. For purposes of paragraph (b) the most important relevant factors are the general availability of the cocktail party to all attorneys and paralegal personnel and the employer's interest in having all of the legal staff become acquainted with each other and the on-going work in the firm. Permitting only attorneys and paralegal personnel to attend the cocktail parties and outings is a reasonable classification of employees. No compensation includible in gross income results from the cocktail parties and outings.

*Example (18).* A corporation maintains American-style schools for the children of its employees at overseas locations where local schools either are not available or are not comparable to American schools. No tuition is charged. Paragraph (a) does not apply because the employer incurs substantial additional expenses. Under paragraph (b) the most important relevant factor is that the

school provides benefits similar in nature to services provided in the United States by local governments. The employees have no compensation includible in gross income as a result of their children attending the employer-sponsored school without paying tuition.

*Example (19).* An employer maintains a day care center on its premises for pre-school children of its employees who desire to use the facility. Paragraph (a) does not apply because the employer incurred substantial additional costs. Under paragraph (b) the most important relevant factor in this case is that section 214 of the Internal Revenue Code provides special rules regarding the deduction of day care and certain other expenses. It would frustrate the policy of section 214 if the fair market value of the services of the day care center were not included in gross income of the employees utilizing them and then deducted only to the extent provided in section 214. The employees whose pre-school children use the day care center have compensation includible in gross income. They may have an offsetting deduction under section 214.

(g) *Effective Date.* (1) No employee of the United States shall be treated as having compensation includible in gross income by reason of the use of any official vehicle owned or operated by or on behalf of the United States on or before September 5, 1975.

(2) No employer of an automobile agency or related business shall be treated as having compensation includible in gross income by reason of the use of a car furnished by his employer as a "demonstrator" without charge (see example (14) of paragraph (f)) on or before (insert date this Notice is published in the FEDERAL REGISTER).

PAR. 2. Paragraph 1.61-2(d) is amended by adding at the end thereof the following new subparagraph:

§ 1.61-2 Compensation for services, including fees, commissions, and similar items.

(d) Compensation paid other than in cash.

(6) For special rules relating to certain incidental facilities, goods, and services benefiting employees, see § 1.61-16.

[FR Doc. 75-23865 Filed 9-2-75; 4:20 pm]

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

#### Geological Survey

[43 CFR Parts 23, 3040]

[30 CFR Parts 211, 216]

### COAL MINING OPERATING REGULATIONS

#### Notice of Proposed Rulemaking

Notice is hereby given that pursuant to the authority vested in the Secretary of the Interior under the Mineral Leasing Act of February 25, 1920, as amended and supplemented (30 U.S.C. 181-287), the Mineral Leasing Act for Acquired Lands (30 U.S.C. 351-359), (5 U.S.C. 301), the National Environmental Policy Act of 1969 (42 U.S.C. 4321-4347), and various statutes relating to mining on Indian lands, is now proposed to revise

30 CFR Part 211, and 43 CFR 23, and to promulgate a new subpart 3041 of 43 CFR, as set forth below. It is also proposed that 30 CFR Part 216, applicable to coal mining operations under leases in the State of Alaska which were issued pursuant to the Alaska Coal Leasing Act of October 20, 1914 (38 Stat. 741), prior to its repeal by P.L. 86-252, September 9, 1959 (73 Stat. 490), be revoked and that operations under those leases also be governed by the regulations in 30 CFR Part 211 as set forth below.

On January 30, 1975, and on April 30, 1975, notices and texts of proposed revisions to the coal mining operating regulations of the U.S. Geological Survey were published in the FEDERAL REGISTER (38 FR 10686; 40 FR 4428). Those regulations govern operations conducted under coal permits, leases, and licenses on public and acquired lands of the United States and Indian lands administered by the Department of the Interior. The previously proposed regulations would also govern the mining of coal in Alaska and, therefore, were proposed to revoke 30 CFR Part 216, which contains such regulations.

Prior to the publication of the 211 regulations proposed on January 30, 1975, the President had withheld signature from S. 425, the surface mining legislation passed by the 93rd Congress.

On February 6, 1975, new proposed Federal surface mining legislation was submitted by the Administration along with a detailed analysis of the unacceptable adverse effects which S. 425 would have had. Thereafter, the Congress passed H.R. 25, which failed to meet the objections which had led to the President's disapproval of S. 425, and would have resulted in greater adverse impacts than that bill. The President vetoed H.R. 25 on May 20, 1975, and that veto was sustained by the House of Representatives on June 10, 1975.

As the President noted in his veto message, recent revisions of State laws regarding surface mining have improved the environmental controls imposed upon lands subject to their jurisdiction. This situation may be expected to continue, as States update, amend, and revise their controls.

A major portion of the Nation's coal resources lies in Federal ownership. Timely and orderly development of this domestic energy resource is a matter of high priority to the Nation as a whole and to the Federal Government, as the custodian of these resources on behalf of all of the people.

At the same time, it is imperative to insure that in developing such resources appropriate consideration is given to the serious environmental concerns associated with mining. Development must be balanced against these concerns, and allowed to take place only when and under such circumstances as will assure such balancing protection.

The proposed regulations 43 CFR 3041 were formerly covered by 43 CFR 23, and relate to the leasing, permitting, and licensing of coal and reclamation regulations by the BLM. The proposed regu-

lations 30 CFR 211 again relate to coal exploration and mining operations, and reclamation of affected lands.

The purpose of the proposed set of regulations is to delete obsolete provisions, update existing regulations so as to impose reclamation and performance standards upon operations relating to Federal coal, and clarify the responsibility of lessees, permittees, and licensees for the protection of the surface, natural resources, environment, and existing improvements during all such operations.

Together, the proposed regulations govern pre- and post-leasing operations conducted under coal permits, leases, and licenses on public and acquired lands of the United States, regardless of surface ownership. In addition, the new proposed 30 CFR 211 would govern operation on Indian lands administered by the Department of the Interior, and 30 CFR Part 216 is again accordingly proposed to be revoked.

Finally, conforming amendments to 43 CFR Part 23 to reflect the new proposed 43 CFR Part 3041 are also proposed.

The proposed regulations provide specific language to clarify responsibilities of lessees, permittees, and licensees for all phases of coal mining operations on public and acquired lands of the United States and Indian lands administered by the Department of the Interior. The scope of the regulations addresses not only the "orderly and efficient development" phase of the operations, but also the total spectrum of events beginning with the pre-lease land-use planning and environmental analyses into prospecting, exploration, and testing activities and extending through the development, mining, production, and coal processing practices, as well as the abandonment and reclamation measures.

Under the proposed regulations, leases, permits, and licenses for coal would be issued, and plans of operation approved only where reclamation of the affected lands, pursuant to the standards set forth, is attainable and assured, and reclamation programs will be required to be undertaken as contemporaneously as practicable with mineral development.

The new regulations set forth environmental standards that will be used in conducting pre-lease, permitting, and licensing examinations, from which the terms and conditions of the lease, permit, or license will be developed.

Performance and reclamation standards that would automatically apply to all operations subject to these regulations are provided and set forth in identical terms in each proposed regulation so that performance and reclamation requirements will be consistent throughout the pre-leasing, exploration mining, reclamation, and abandonment phases of coal operations.

The new regulations further require that exploration and/or mining plans, describing in detail the operations to be undertaken, be prepared and submitted in advance of that operation.

These two revisions are complementary, and designed to create a coordinated mechanism for coal development.

Under the proposed 43 CFR Part 3041, a decision mechanism is outlined whereby decisions as to whether coal leasing should occur, and what specific conditions might be applied to a lease, will be made after appropriate environmental review. Under the proposed 30 CFR Part 211, the Geological Survey will monitor coal operations, and enforce lease terms and conditions and general performance standards which are included in identical language in both regulations.

The Department of the Interior is currently completing an environmental review of its entire coal leasing program. This review will be published shortly, and will contain a formal mechanism defining with greater specificity the Department's coal leasing policy. With the proposed regulations, it will constitute a unified program to direct future development of our resources. Several elements of the proposed regulations should be specifically noted and public comment is specifically requested thereon.

First, the relationship between Federal and State jurisdiction to impose reclamation standards has arisen in the recent proposed legislation. On the one hand, it is clear that the States have a direct public policy interest in coal development within their geographical boundaries. In addition, the historical development of coal resources has, in many areas, resulted in patterns of intermingled tracts of Federal and private ownership with respect to which coordinated regulatory mechanisms would be desirable.

On the other hand, it is also clear that Federal coal resources belong not to one or more of the several States, but to the Nation as a whole. The Federal interest in assuring the timely and orderly development of such resources must be implemented with that end in mind.

A mechanism is, therefore, proposed in these regulations which would satisfy both Federal and State interests. This mechanism would allow the Secretary of the Interior to direct that some or all of the existing State laws, regulations, practices, and procedures of a State relating to reclamation be applied by Federal officers within that State as a matter of Federal law. Such discretion may be exercised at the request of the Governor, if the Secretary, upon review of that State's regulations, determines that such application would:

(a) Effectuate the purpose of the proposed regulations;

(b) Afford protection of the environmental values which would be at least as stringent as would occur under otherwise applicable Federal standards; and

(c) Would be consistent with the interest of the United States in the timely and orderly development of its coal resources.

Such an order would remain in effect until rescinded or amended, and would enable Federal and State concerns to be appropriately balanced.

It has been and is the current practice of the Department to include in coal leases a provision requiring compliance in State and local laws. It is also the

practice of the Mining Supervisors of the Geological Survey to follow this practice in the implementation of their responsibilities with respect to ongoing operations. The proposed mechanism would allow continuation of this existing practice, while reserving the power to insure that the National interest in resource development is accommodated.

It is hoped that this mechanism will have the effect of encouraging those States without comprehensive, reasonable regulatory mechanisms to enact such control, with the assurance that the development of Federal coal within their boundaries may take place on similar terms.

Second, the method of applying the proposed regulatory mechanism to existing operations, and the timing of such application, is not specifically addressed. The notice of proposed rulemaking for the proposed 211 regulations published on January 30, 1975, provided: "Operators holding existing permits, leases, or licenses will be required to comply with the requirements of this part no later than 180 days following the date of republication of these regulations in the FEDERAL REGISTER with respect to lands from which overburden and the coal seam being mined have not been removed."

Public comment is expressly requested upon the question of whether separate provision should be made within the proposed regulations to cover existing regulations, or whether separate effective dates for the regulations should be provided for new and existing operations, and in either event what time period for compliance is appropriate.

#### SPECIFIC PROVISIONS OF THE REGULATIONS

##### DEFINITIONS

No attempt has been made comprehensively to define terms of general applicability which have accepted scientific definitions. In the event that additional terms are suggested for specific definition, they will be included in the final regulations.

The following specific provisions are common to both proposed regulations:

*Approximate Original Contour.* The definition has been changed from the earlier proposed 211 regulations so as to eliminate operative portions of the previous definition, which are more properly included in the main body of the regulations.

*Logical Mining Unit.* This term is defined for the first time in the proposed regulations and represents an approach to coordination of development planning between public and private lands.

*Maximum Extent Practicable.* Also defined for the first time, this concept is intended to express a qualification applicable to given performance standards or levels of control which would incorporate a cost benefit balancing of technological feasibility, economic cost, and tangible and intangible environmental benefits attributable to various levels of such standard or control. It is not intended to imply that economic considerations will automatically prevail in determining the level of controls which

must be utilized. On the other hand, it is intended that cost benefit balancing will reduce the possibility that disproportionately expensive technology might be required to be employed where only incremental, minimal environmental advantage would result therefrom.

*Reclamation.* This term has been restated so as to eliminate operative language setting forth degrees of reclamation, which is more properly set forth in the body of the regulations. The phrase "consistent with" is intended to express the concept that post-mining rehabilitation efforts should be addressed in the first instance with reference to the prevailing condition, but that actual reclamation measures and post-mining conditions and uses are properly considered, approved, and executed pursuant to the operative provisions of the regulations and the approved plan of operations.

*Significant Valley Floor Vegetation.* The term is used as a qualifying note in determining certain areas of valley floors subject to hydrological protection in the body of the regulations.

#### GENERAL OPERATION AND RECLAMATION REQUIREMENTS

(References are to the proposed 30 CFR Part 211 regulations.)

*Section 211.4(a)* requires that all operations conform to the provisions of applicable laws and regulations, including effluent and emission limitations.

*Section 211.4(c)* imposes a general obligation to avoid to the maximum extent practicable specific elements of environmental concern. It is not intended that this general obligation substitute for the more precise requirements which may be imposed by these regulations or provisions of other applicable laws or regulations.

*Section 211.4(d)* has been simplified from the earlier proposed revisions of this part, and clarified to provide that water quality be monitored so as to establish such data as may be necessary to determine procedures or measures required to comply with the proposed regulations.

*Section 211.5(b)* has been expanded to insure actual "public notice of proposed mining plans."

*Section 211.10(a)* now provides that a proposed mining plan shall, where possible, include all operations in an approved logical mining unit. It should be noted that it is not intended that resulting inclusion of portions of an operation involving non-federal coal in such a plan would expand federal jurisdiction beyond appropriate limits, by either requiring a federal bond on such non-federal operations or by imposing the requirements of the operating or performance standards or enforcement mechanisms of the regulations to such operations.

*Section 211.10(d)* authorizes the mining supervisor to require reasonable revisions or supplements to approved plans where changed conditions or unforeseen circumstances exist, or approve changes at the request of an operator. Where any such revision would be major, the public notice provisions of § 211.5(b)

will apply. In the event of disagreement as to the propriety of any such change, an appeal from the mining supervisors decision will lie under Part 290 pursuant to § 211.73.

#### RECLAMATION AND PERFORMANCE STANDARDS

(References are to the proposed 30 CFR 211 texts, but identical language is included in the proposed 43 CFR 3041.)

Section 211.40(a)(2) requires the operator to reclaim affected lands pursuant to his approved plan and as contemporaneously as practicable with operations, to a condition at least fully capable of supporting previous practicable uses or equal or better uses that can reasonably be attained. It is intended that this provision would authorize the Department to require reclamation, where appropriate, to a use that was practicable prior to mining but not necessarily in effect. To require exact parity between post-mining and pre-mining land condition would impose an impossible burden. Requiring reclamation to a condition capable of supporting equal or better uses that can reasonably be achieved affords adequate assurance that post-mining land condition will be acceptable.

Section 211.40(a)(3) requires restoration to the approximate original contour to the maximum extent practicable. Variances from that requirement based upon equal or better post-mining land uses or unusual conditions may be granted only by the Director of the Geological Survey, with the concurrence of the Director of the Bureau of Land Management. Any such variance will, of course, be included in an approved plan of operations, and thus subject to appropriate public consideration.

Section 211.40(a)(8) sets forth the requirement that disturbances to prevailing hydrologic conditions be minimized, and in subparagraph (iv) specifically requires protection of the surface and ground water resources of valley floors which provide water sources that support significant vegetation or existing uses.

Subparagraph 211.40(a)(16) imposes the obligation to revegetate affected lands and authorizes the use of introduced species where quick cover is desirable.

Section 211.40(a)(17) sets forth the time limitations within which liability upon the operator's bond for revegetation will apply. A maximum period of liability of 10 years from the first planting date is provided. After substantial review of this question, it is felt that this period is appropriate. Failure of successful revegetation after 10 years of effort is felt to be determinative of the question of whether the additional efforts represented by expending the retained portion of the bond would be successful. On the other hand, in some circumstances it will be apparent from the conditions at the site of operations that successful revegetation is likely to occur within the 5 year minimum time period. Where this is the case, authority is provided to waive the automatic application of this minimum period at the time of lease issuance.

It should be noted that operation of this waiver would not in any way diminish the burden upon the operator to establish that revegetation has in fact successfully been accomplished within that period.

#### SPECIFICATION PROVISIONS OF 43 CFR 3041

Section 3041.0-4 spells out the specific areas of responsibility of the BLM and the Geological Survey with respect to surface management and operations for coal development, consistent with internal Departmental orders.

Section 3041.0-6 sets forth the procedures whereby the environmental impact on both an area-wide and specific tract basis will be assessed prior to making a determination as to whether leasing, permitting, or licensing will be allowed. This procedure provides for obtaining the views and recommendations of the Geological Survey and other appropriate Federal agencies, for holding public hearings, where necessary, and for consultation with State and local governments and interested parties, including surface owners where applicable.

Section 3041.0-7(c) allows the authorized officer of the Federal surface management agency, in consultation with the Mining Supervisor, to establish additional and more stringent requirements than required by the performance standards set forth in Section 3041.0-7(b), to meet exceptional and special circumstances such as the degree of slope and soil conditions.

Section 3041.0-7(d) allows the authorized officer to propose to the Mining Supervisor that an approved exploration or mining plan be revised or supplemented to adjust to changed conditions or to correct oversights. This is consistent with and complementary to the authority in 30 CFR 211.10(d) to require such changes.

Section 3041.0-8 permits an operator to use only so much of the surface of the lands as is deemed necessary, and has been designated in an approved plan. It is expressly provided that use of Federal lands for a power generation plant or commercial or industrial facility requires a special permit. This is not intended to imply that other facilities which might require permits under other laws would be relieved of any such obligations under the regulations proposed here. Facilities directly related to the mining, processing, and preparation of the coal resource would not require a separate permit.

Section 3041.1, the requirement for submission of a preliminary plan by an applicant for a coal lease, permit, or license, is an expansion of the requirements of 43 CFR Part 23. The purpose of the preliminary plan is to provide operational and environmental information which will assist the authorized officer in evaluating the proposed operation, and in the preparation of necessary impact statements and the terms and conditions to be included in a lease, permit, or license, if issued.

Section 3041.5 is different from Part 23 in that it requires a notice of availability of the application and its proposed terms, conditions, and special stipulations, for inspection and comment

thereon. No action may be taken on any application until interested parties have had 30 days to comment. The application and proposed terms and conditions will remain available for inspection thereafter in the proper BLM office.

Section 3041.7(b) is different from Part 23 in that it allows the authorized officer, in emergency situations where activities threaten immediate, serious, or irreparable damage to the environment, resources, health and safety of the employees and the public, to order the immediate cessation of such activities. Although exercise of this authority would normally be the responsibility of the USGS, it is felt that where such extraordinary circumstances exist any authorized representative of responsible agencies of the United States should be able to take the limited immediate action set forth, to prevent the adverse environmental effect described.

A detailed environmental impact statement on the proposed regulation has been prepared in compliance with Section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)). The statement is being printed and will be available in approximately three weeks. A notice of availability will be published in the FEDERAL REGISTER.

In accordance with the Department's policy on public participation in rule-making, interested parties may submit written comments, suggestions, or objections with respect to the proposed regulations to the Director, Bureau of Land Management, Department of the Interior, Washington, D.C. 20240 and the Director, U.S. Geological Survey, Reston, Virginia 22092, on or before November 4, 1975.

After the expiration of such period for comment, and the expiration of the appropriate comment period upon the above mentioned environmental impact statement, the proposed regulations will be revised, if appropriate, and republished in the FEDERAL REGISTER in final form.

A new subpart 3041 is proposed to be added to 43 CFR, to read as follows:

#### PART 3040—ENVIRONMENT AND SAFETY

Subpart 3041—Surface Management—Federal Coal Resources	
Sec.	
3041.0-1	Purpose.
3041.0-3	Authorities.
3041.0-4	Responsibilities.
3041.0-5	Definitions.
3041.0-6	Coal leasing, permitting, and licensing planning procedures.
3041.0-7	Performance standards.
3041.0-8	Use of surface.
3041.1	Applications.
3041.1-1	Preliminary plan.
3041.2	Technical examination / environmental analysis report.
3041.3	Basis for denial of a lease, permit, or license based on past forfeiture.
3041.4	Compliance or performance bond.
3041.5	Public notice and inspection of records.
3041.6	Reports.
3041.7	Notice of noncompliance: Revocation.

Sec. 3041.8 Application of State laws, regulations, practices, and procedures as Federal law by Federal officers.

#### Subpart 3041—Surface Management—Federal Coal Resources

##### § 3041.0-1 Purpose.

(a) The purpose of these regulations is to establish rules to be followed in the management of the Federally-owned coal estate consistent with the policies, goals, and objectives established by the Acts cited in § 3041.0-3 of this Subpart, regardless of surface ownership or method of operation.

(b) It is the policy of the Department to encourage the development of Federally-owned coal, where such development is authorized, through a program that will provide for the protection, orderly development and conservation of Federal mineral and nonmineral resources in a manner that will minimize adverse effects to society and the environment resulting from coal development. It is also the policy of the Department to authorize leases, permits, and licenses for coal only where reclamation of the affected lands to the standards set forth herein is attainable and assured and a reclamation program will be undertaken as contemporaneously as practicable with mineral development. Departmental policy regarding privately owned surface where the mineral estate is Federally owned is that any mineral activity on the private surface should be conducted to result in protection of environmental values which is at least as stringent as would apply to Federally owned surface.

##### § 3041.0-3 Authorities.

These regulations are issued pursuant to: The Mineral Leasing Act of February 25, 1920, as amended (30 U.S.C. 181-287), and the Mineral Leasing Act For Acquired Lands (30 U.S.C. 351-359). Additional regulations governing the issuance of Federal coal leases, permits, and licenses are found in 43 CFR 3500 of this Chapter, including the specific requirement in § 3501.2-6 that the consent of the Department of Agriculture or other administering agency be obtained with respect to leases, permits, and licenses covering acquired lands subject to the jurisdiction of such other Federal surface managing agency. Regulations governing lease or permit operations are found in 30 CFR 211. Regulations setting forth the general and basic policies for disposal and management of the public lands are found in 43 CFR 1725 of this Chapter.

##### § 3041.0-4 Responsibilities.

(a) The Bureau of Land Management (BLM) exercises at the Bureau level the Secretary's discretionary authority to determine whether or not leases, permits, and licenses are to be issued. The Bureau of Land Management is responsible for issuing mineral leases, permits, and licenses, and is the office of record in mineral leasing matters.

(b) The Geological Survey (GS) exercises the Secretary's delegated authority

regarding operations conducted within the area of operation by permittees, lessees, and licensees and determines the action to be taken by them from the standpoint of the development, conservation, and management of mineral resources under the jurisdiction of the Department. The Geological Survey is responsible for all geologic, engineering, and economic value determinations for the Department's mineral leasing program. These determinations include: the mineral characteristics of lease and permit areas; parcelling; amounts of bonds; royalties; unit values; rentals; mineral resource evaluations; reserves; investments, diligent development, and minimum production requirements; and all other terms and conditions relating to mineral operations under leases and permits.

(c) The Bureau of Land Management or other Federal surface management agency, in cooperation with the Geological Survey, and, in the case of non-Federal surface, the surface owner, formulates the requirements to be incorporated in leases, permits, and licenses for the protection of the surface and non-mineral resources and for reclamation, using the surface operating and reclamation performance standards contained in § 3041.0-7 of these regulations and in 30 CFR Part 211.

(d) The Geological Survey, before approving exploration and mining plans, or the abandonment of operations, consults with the Bureau of Land Management or other Federal surface management agency on the adequacy of the surface use, environmental protection, and reclamation aspects of such plans and will not grant approval if inconsistent with the BLM's or other Federal surface management agency's recommendations without further discussions.

(e) As to the lands outside of the area of operations the authorized officer of the BLM or other Federal surface management agency is responsible for conducting compliance examinations and for assuring compliance by the lessee, permittee, or licensee, with the requirements of this Subpart, and the terms and conditions of a lease, permit, or license and for reporting infractions to the GS for discussion with, or orders to, the lessee, permittee, or licensee. As to the lands inside the area of operations the GS examines operations to ensure compliance with environmental protection and rehabilitation requirements. GS refers to BLM any instance of noncompliance with lease terms which may require cancellation action, and BLM may initiate such action. With respect to approval of access roads, pipelines, utility routes and other surface uses outside the operating areas, the Bureau of Land Management, or other Federal surface management agency, has the primary responsibility but obtains the recommendations of the Geological Survey before taking final action. Orders to operators for any remedial action are the responsibility of the Geological Survey.

(f) Subject to the Supervisory authority of the Secretary, the regulations

in this Subpart shall be administered by the Director, Bureau of Land Management through the authorized officer having jurisdiction over the lands subject to these regulations and authorized to perform the duties described. Prior to the issuance of any coal lease, permit, or license, the authorized officer will consult with and receive and consider recommendations from the Mining Supervisor, the Federal surface management agency when other than the BLM, or the surface owner, as to the terms and conditions required to achieve the purpose of these regulations.

##### § 3041.0-5 Definitions.

As used in this subpart, the following terms shall have the following meanings:

(a) "Acid and toxic producing effluents" means natural or reworked earth materials having chemical and physical characteristics that under mining or post-mining conditions of drainage, exposure, or other processes may produce effluents that contain chemical constituents, such as acids, bases, or metallic compounds, in sufficient concentrations to adversely affect the environment.

(b) "Affected lands" means any lands affected or to be affected by exploration, development, and mining operations, and by the construction of facilities necessary and related to such operations.

(c) "Approximate original contour" means the surface configuration achieved by backfilling and grading of the mined area so that it closely resembles the surface configuration of the land prior to mining (although not necessarily the original elevation) and blends into and complements the drainage pattern and topography of the surrounding terrain.

(d) "Area of operations" means that area of the leased, permitted, or licensed lands which is required for exploration, development, producing and processing operations, including all related surface structures and facilities, which is delineated on a map or plat which is made a part of the approved plan.

(e) "Authorized officer" means that officer designated by any Federal surface managing agency to exercise its authority in matters relating to coal leases, licenses, and permits and these regulations.

(f) "Coal" means coal of all ranks, from lignite to anthracite.

(g) "Exploration plan" means a detailed plan submitted to the Mining Supervisor for approval before exploration operations commence, showing the location and type of exploration work to be conducted, environmental protection procedures, roads, and reclamation procedures to be followed upon completion of such operations.

(h) "Lease Lands, leased premises, or leased tract" means lands embraced within a Federal coal lease and subject to the regulations in this Subpart.

(i) "Lessee" means any person or persons, partnership, association, corporation, or municipality to whom a coal lease is issued subject to the regulations in this Subpart, or an assignee of such lease under an approved assignment.

(j) "Licensee" means any individual,

meadows with significant recreational,

cial terms and conditions as may be

(4) The operator shall stabilize and

(A) Contributions of suspended solids

(i) Provide adequate advance written

(j) "Licensee" means any individual, association of individuals, or municipality to whom a coal license is issued subject to the regulations in this Subpart.

(k) "Maximum extent practicable" means, with respect to a performance standard or level of control, that degree of compliance which can be achieved with commercially available technology, taking into account the costs of such compliance and all tangible and intangible environmental and other benefits which would be derived therefrom.

(l) "Method of Operation" means the method and manner by which any activities are performed by the operator, as described in the Preliminary plan.

(m) "Mine" means an underground or surface excavation, and the surface or underground support facilities that contribute directly or indirectly to coal mining, preparation, and handling.

(n) "Mining plan" means a detailed plan submitted to the Mining Supervisor for approval before mining operations commence showing the location, method and extent of mining and all related activities necessary and incident to such operations, including the steps to be taken to protect the environment during operations, reclamation, and abandonment.

(o) "Mining Supervisor" means the Area Mining Supervisor, Conservation Division, Geological Survey, or District Mining Supervisor, or other subordinate acting under his direction.

(p) "Operator" means a lessee, permittee, or licensee, or one conducting operations on lands under the authority of the lessee, permittee, or licensee.

(q) "Overburden" means all the earth and other materials which lie above a natural deposit of minerals.

(r) "Permanent impoundment" means an artificially built, dammed or excavated place for retention of water or sediment that is intended to remain after abandonment of the operation.

(s) "Permit lands" means lands embraced within a coal prospecting permit and subject to the regulations in this Subpart.

(t) "Permitter" means any person or persons, partnership, association, corporation, or municipality to whom a coal prospecting permit subject to the regulations in this Subpart is issued, or an assignee of such permit under an approved assignment.

(u) "Preliminary plan" means a plan submitted by an applicant to the authorized officer, with an application for a lease, permit, or license, which describes the applicant's proposal in the detail necessary to assist the authorized officer in conducting a pre-lease, permit, or license technical evaluation and environmental analyses as described in 3041.1-1.

(v) "Reclamation" means the process of returning affected lands to a stable condition and form consistent with their pre-mining productivity and use.

(w) "Secretary" means the Secretary of the Interior.

(x) "Significant valley floor vegetation" means farm crops, including hay, that are integral parts of agricultural or ranching operations, and forests or

meadows with significant recreational, watershed, or wildlife habitat value.

(y) "Topsoil" means natural earth materials at or adjacent to the land surface with physical and chemical characteristics necessary to support vegetation.

(z) "Valley floors" means the channels, floodplains, and adjacent low terraces of perennial, intermittent, or ephemeral streams that are flooded during periods of high flow and that are underlain by unconsolidated stream-laid deposits. Excluded are higher terraces and slopes underlain by colluvial and other surficial deposits normally occurring along valley margins.

§ 3041.0-6 Coal leasing, permitting, and licensing planning procedures.

(a) When an area is initially considered for coal development the authorized officer shall make an environmental impact assessment of the potential effect of such development upon the resources of the area and its environment.

(b) Prior to the selection of tracts for coal leases, permits, or licenses the authorized officer of the BLM or, if other than the BLM, the authorized officer of the agency charged with administration of the surface, shall evaluate the potential effects of all phases of such coal development on the environment, including fish and other aquatic resources, wildlife habitats and populations, aesthetics, recreation, cultural, and other resources in the affected area. This evaluation shall take into account alternative uses of the land and its other natural resources, the need for the proposed coal development, and the socioeconomic considerations relevant to multiple-use management principles. To aid him in this evaluation and selection of coal lease, permit, or license tracts the authorized officer shall request and consider the views and recommendations of the Geological Survey and other appropriate Federal agencies, may hold public hearings after appropriate notice, and shall, as appropriate, consult with applicants, State and applicable local agencies, organizations, industries, and, where only the mineral estate is in Federal ownership, surface owners.

(c) If the Director determines that a decision made pursuant to paragraphs (a) or (b) of this section would be a major Federal action significantly affecting the quality of the human environment, and that an environmental impact statement as required by the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq) has not been prepared with respect thereto, such a statement will be prepared.

(d) If National Register or eligible National Register cultural resources might be affected by the issuance of coal leases, permits, or licenses, none will be authorized until compliance with Section 106 of the Historic Preservation Act and section 2(b) of E.O. 11593 has been accomplished.

(e) If a decision is made to offer tracts for coal leases, permits, or licenses, the authorized officer may, following the procedures in § 3041.2-1 of this Chapter, develop and include in such offer such special terms and conditions as may be required by specific local conditions to protect the environment, to permit use of the land for other purposes, to allow new postmining land uses, and to protect other resources.

(f) The following general performance standards shall be applicable to all coal exploration, development, mining, drilling, preparation, processing and reclamation operations on the surface of the land subject to these regulations:

(1) The operator shall conduct surface coal mining operations so as to maximize the extraction of the coal resource so that future disturbance through the resumption of mining will be minimized.

(2) The operator shall reclaim the land affected, as contemporaneously as practicable with operations, to a condition at least fully capable of supporting all actual or practicable uses which it was capable of supporting prior to any exploration or mining, or equal or better uses that can reasonably be attained.

(3) The operator shall replace overburden and waste materials in the mined area by backfilling (compacting where advisable, to insure stability or to prevent leaching of toxic materials), grading or other means so as, to the maximum extent practicable, to restore the approximate original contour and to eliminate high walls and spoil piles. Where the thickness of the coal deposits relative to the volume of overburden is large or where the overburden and other spoil waste materials are either insufficient or more than sufficient to restore the approximate original contour, the operator shall backfill, grade, and compact, using all available overburden or spoil material to obtain the lowest practicable grade, but not more than the angle of repose, in order to provide adequate drainage and to cover all acid-forming or other toxic materials. Excess overburden or other spoil material, after restoring the approximate original contour, shall be graded, compacted (where advisable), stabilized, and shaped in a way to protect against slides, erosion, subsidence and water pollution in accordance with the requirements of this Subpart. Restoration to approximate original contour may not be required if the Director of the Geological Survey, with the concurrence of the Director of the Bureau of Land Management or the appropriate officer of the Federal surface management agency, determines:

(i) That an equal or better proposed postmining land use is practicable and attainable and that a modification of this requirement is the best method of achieving the postmining use, or (ii) that unusual conditions, such as steeply dipping coal beds or multiple seam mining, exist which make backfilling pursuant to this paragraph impractical.

(4) Controlling acid or other toxic mine drainage and the adverse consequences thereof by such measures as, but not limited to, restricting the flow of water through acid or other toxic-producing materials; treating drainage to reduce acid or other toxic content which adversely affects downstream water upon being released to water courses; and casing, sealing, or otherwise treating drill holes, shafts and wells to keep acid or other toxic drainage from entering ground and surface waters.

(5) Conducting surface mining operations so as to prevent, to the maximum extent practicable,

(A) Contributions of suspended solids to streamflow or runoff outside the mining site above natural levels under seasonal flow conditions as measured for a period and at sites determined by the Mining Supervisor, in consultation with the authorized officer of the Federal surface management agency, and

(B) Deepening or enlargement of stream channels where operations require the discharge of water from mines.

(6) Removing or modifying siltation structures after disturbed areas are revegetated and stabilized, unless otherwise directed by the Mining Supervisor after consultation with the authorized officer of the surface management agency.

(7) Protecting to the maximum extent practicable throughout the mining and reclamation process, the quality and quantity of both upstream and downstream surface and ground water resources of these valley floors which provide water sources that support significant valley floor vegetation, or supply water for other purposes by such measures as, but not limited to, relocating and maintaining the gradient of streams.

(8) The operator shall, with respect to disposal of mine wastes, coal processing wastes and other wastes in areas other than the mine workings or other excavations, place all waste piles in area designated in the approved mining plan and stabilize them through construction in compacted layers, including, if necessary the use of incombustible and impervious materials; shape the waste pile to be compatible with natural surroundings and terrain, cover with topsoil, or other suitable material in accordance with paragraph (b)(4) of this section and revegetate in accordance with paragraph (b)(16) of this section.

(9) The operator shall refrain from surface coal mining within 200 feet of active and abandoned underground mines except as authorized in an approved mining plan.

(10) The operator shall incorporate sound engineering standards and practices for the design, construction, and use of impoundments for the disposal of coal mine wastes, coal processing wastes, or other liquid or solid wastes to insure that structures and impoundments will have necessary stability with an adequate margin of safety. No mine or processing waste shall be used in the construction of water impoundments, water retention facilities, dams, or settling ponds unless authorized in an approved mining plan.

(11) The operator shall:

(i) Treat or dispose of all rubbish and noxious substances in a manner designed to prevent air and water pollution and fire hazards.

(ii) Dispose of all solid waste resulting from the mining and preparation of coal in a manner designed to prevent to the maximum extent practicable air and water pollution and spontaneous ignition.

(12) The operator shall use explosives only in accordance with existing Federal and State laws and the conditions specified by the Mining Supervisor, who may require the operator to:

(i) Provide adequate advance written notice by publication and/or posting of the planned blasting schedule to local governments and to residents who might be affected by the use of such explosives, and maintain a log of the magnitudes and times of blasts for a period of at least two years.

(ii) Limit the size, timing, and frequency of blasts as determined by the physical conditions of the site, to prevent personal injury or damage to public and private property.

(13) The operator shall construct, maintain, and, when they are no longer necessary, remove roads, pipelines, powerlines, and similar utility access facilities into and across the area of operations in a manner that will prevent to the maximum extent practicable erosion and siltation, pollution of water, damage to fish or wildlife or their habitats, or public or private property, except that the Mining Supervisor with the concurrence of the authorized officer of the surface management agency, may approve the retention, after mining of specific roads where consistent with the proposed postmining use of the affected lands.

(14) The operator shall refrain from constructing roads or other access ways in or near stream beds or drainage channels that would seriously alter the normal flow of water therein.

(15) The operator shall, except where other reclamation is expressly provided for in an approved mining plan, establish on the regraded areas and all other affected lands a diverse vegetative cover, native to the area if capable of self-regeneration, at least equal in density and permanence to the natural vegetation. The Mining Supervisor, with the concurrence of the authorized officer of the surface management agency, may allow the use of introduced species as an interim measure where desirable to achieve quick cover.

(16) The operator shall assume responsibility for successful revegetation, as herein provided. The operator's responsibility and liability for revegetation of each planting area shall extend until such time as the authorized officer of the surface management agency, in consultation with the Mining Supervisor, determines that successful revegetation in compliance with paragraph (b)(16) of this section has occurred; provided that, this period shall extend for a minimum of five full years after the first year of planting and for a total period of liability not to exceed ten years from the original planting, and further provided that, where the authorized officer of the surface management agency determines that natural conditions, such as annual precipitation, soil characteristics and native vegetation, are stable and favor rapid revegetation, and that revegetation pursuant to paragraph (b)(16) of this section is likely to occur before the expiration of such minimum period, he may specify in the lease, permit, or license that such minimum period will not apply with respect to some or all of the lands included in the lease, permit, or license.

(1) An examination of the technical records, including the mining plan and § 3041.5 Public notice and inspection of records.

(2) The Mining Supervisor and the authorized officer of the surface management agency shall:

(i) Provide adequate advance written notice by publication and/or posting of the planned blasting schedule to local governments and to residents who might be affected by the use of such explosives, and maintain a log of the magnitudes and times of blasts for a period of at least two years.

(ii) Limit the size, timing, and frequency of blasts as determined by the physical conditions of the site, to prevent personal injury or damage to public and private property.

(13) The operator shall construct, maintain, and, when they are no longer necessary, remove roads, pipelines, powerlines, and similar utility access facilities into and across the area of operations in a manner that will prevent to the maximum extent practicable erosion and siltation, pollution of water, damage to fish or wildlife or their habitats, or public or private property, except that the Mining Supervisor with the concurrence of the authorized officer of the surface management agency, may approve the retention, after mining of specific roads where consistent with the proposed postmining use of the affected lands.

(14) The operator shall refrain from constructing roads or other access ways in or near stream beds or drainage channels that would seriously alter the normal flow of water therein.

(15) The operator shall, except where other reclamation is expressly provided for in an approved mining plan, establish on the regraded areas and all other affected lands a diverse vegetative cover, native to the area if capable of self-regeneration, at least equal in density and permanence to the natural vegetation. The Mining Supervisor, with the concurrence of the authorized officer of the surface management agency, may allow the use of introduced species as an interim measure where desirable to achieve quick cover.

(16) The operator shall assume responsibility for successful revegetation, as herein provided. The operator's responsibility and liability for revegetation of each planting area shall extend until such time as the authorized officer of the surface management agency, in consultation with the Mining Supervisor, determines that successful revegetation in compliance with paragraph (b)(16) of this section has occurred; provided that, this period shall extend for a minimum of five full years after the first year of planting and for a total period of liability not to exceed ten years from the original planting, and further provided that, where the authorized officer of the surface management agency determines that natural conditions, such as annual precipitation, soil characteristics and native vegetation, are stable and favor rapid revegetation, and that revegetation pursuant to paragraph (b)(16) of this section is likely to occur before the expiration of such minimum period, he may specify in the lease, permit, or license that such minimum period will not apply with respect to some or all of the lands included in the lease, permit, or license.

(17) The operator shall incorporate sound engineering standards and practices for the design, construction, and use of impoundments for the disposal of coal mine wastes, coal processing wastes, or other liquid or solid wastes to insure that structures and impoundments will have necessary stability with an adequate margin of safety. No mine or processing waste shall be used in the construction of water impoundments, water retention facilities, dams, or settling ponds unless authorized in an approved mining plan.

(18) The operator shall:

(i) Treat or dispose of all rubbish and noxious substances in a manner designed to prevent air and water pollution and fire hazards.

(ii) Dispose of all solid waste resulting from the mining and preparation of coal in a manner designed to prevent to the maximum extent practicable air and water pollution and spontaneous ignition.

(13) The operator shall use explosives only in accordance with existing Federal and State laws and the conditions specified by the Mining Supervisor, who may require the operator to:

(i) Provide adequate advance written notice by publication and/or posting of the planned blasting schedule to local governments and to residents who might be affected by the use of such explosives, and maintain a log of the magnitudes and times of blasts for a period of at least two years.

(ii) Limit the size, timing, and frequency of blasts as determined by the physical conditions of the site, to prevent personal injury or damage to public and private property.

(13) The operator shall construct, maintain, and, when they are no longer necessary, remove roads, pipelines, powerlines, and similar utility access facilities into and across the area of operations in a manner that will prevent to the maximum extent practicable erosion and siltation, pollution of water, damage to fish or wildlife or their habitats, or public or private property, except that the Mining Supervisor with the concurrence of the authorized officer of the surface management agency, may approve the retention, after mining of specific roads where consistent with the proposed postmining use of the affected lands.

(14) The operator shall refrain from constructing roads or other access ways in or near stream beds or drainage channels that would seriously alter the normal flow of water therein.

(15) The operator shall, except where other reclamation is expressly provided for in an approved mining plan, establish on the regraded areas and all other affected lands a diverse vegetative cover, native to the area if capable of self-regeneration, at least equal in density and permanence to the natural vegetation. The Mining Supervisor, with the concurrence of the authorized officer of the surface management agency, may allow the use of introduced species as an interim measure where desirable to achieve quick cover.

(16) The operator shall assume responsibility for successful revegetation, as herein provided. The operator's responsibility and liability for revegetation of each planting area shall extend until such time as the authorized officer of the surface management agency, in consultation with the Mining Supervisor, determines that successful revegetation in compliance with paragraph (b)(16) of this section has occurred; provided that, this period shall extend for a minimum of five full years after the first year of planting and for a total period of liability not to exceed ten years from the original planting, and further provided that, where the authorized officer of the surface management agency determines that natural conditions, such as annual precipitation, soil characteristics and native vegetation, are stable and favor rapid revegetation, and that revegetation pursuant to paragraph (b)(16) of this section is likely to occur before the expiration of such minimum period, he may specify in the lease, permit, or license that such minimum period will not apply with respect to some or all of the lands included in the lease, permit, or license.

(17) The operator shall incorporate sound engineering standards and practices for the design, construction, and use of impoundments for the disposal of coal mine wastes, coal processing wastes, or other liquid or solid wastes to insure that structures and impoundments will have necessary stability with an adequate margin of safety. No mine or processing waste shall be used in the construction of water impoundments, water retention facilities, dams, or settling ponds unless authorized in an approved mining plan.

(18) The operator shall:

(i) Treat or dispose of all rubbish and noxious substances in a manner designed to prevent air and water pollution and fire hazards.

(ii) Dispose of all solid waste resulting from the mining and preparation of coal in a manner designed to prevent to the maximum extent practicable air and water pollution and spontaneous ignition.

(13) The operator shall use explosives only in accordance with existing Federal and State laws and the conditions specified by the Mining Supervisor, who may require the operator to:

(i) Provide adequate advance written notice by publication and/or posting of the planned blasting schedule to local governments and to residents who might be affected by the use of such explosives, and maintain a log of the magnitudes and times of blasts for a period of at least two years.

(ii) Limit the size, timing, and frequency of blasts as determined by the physical conditions of the site, to prevent personal injury or damage to public and private property.

(13) The operator shall construct, maintain, and, when they are no longer necessary, remove roads, pipelines, powerlines, and similar utility access facilities into and across the area of operations in a manner that will prevent to the maximum extent practicable erosion and siltation, pollution of water, damage to fish or wildlife or their habitats, or public or private property, except that the Mining Supervisor with the concurrence of the authorized officer of the surface management agency, may approve the retention, after mining of specific roads where consistent with the proposed postmining use of the affected lands.

(14) The operator shall refrain from constructing roads or other access ways in or near stream beds or drainage channels that would seriously alter the normal flow of water therein.

(15) The operator shall, except where other reclamation is expressly provided for in an approved mining plan, establish on the regraded areas and all other affected lands a diverse vegetative cover, native to the area if capable of self-regeneration, at least equal in density and permanence to the natural vegetation. The Mining Supervisor, with the concurrence of the authorized officer of the surface management agency, may allow the use of introduced species as an interim measure where desirable to achieve quick cover.

(16) The operator shall assume responsibility for successful revegetation, as herein provided. The operator's responsibility and liability for revegetation of each planting area shall extend until such time as the authorized officer of the surface management agency, in consultation with the Mining Supervisor, determines that successful revegetation in compliance with paragraph (b)(16) of this section has occurred; provided that, this period shall extend for a minimum of five full years after the first year of planting and for a total period of liability not to exceed ten years from the original planting, and further provided that, where the authorized officer of the surface management agency determines that natural conditions, such as annual precipitation, soil characteristics and native vegetation, are stable and favor rapid revegetation, and that revegetation pursuant to paragraph (b)(16) of this section is likely to occur before the expiration of such minimum period, he may specify in the lease, permit, or license that such minimum period will not apply with respect to some or all of the lands included in the lease, permit, or license.

(17) The operator shall incorporate sound engineering standards and practices for the design, construction, and use of impoundments for the disposal of coal mine wastes, coal processing wastes, or other liquid or solid wastes to insure that structures and impoundments will have necessary stability with an adequate margin of safety. No mine or processing waste shall be used in the construction of water impoundments, water retention facilities, dams, or settling ponds unless authorized in an approved mining plan.

(18) The operator shall:

(i) Treat or dispose of all rubbish and noxious substances in a manner designed to prevent air and water pollution and fire hazards.

(ii) Dispose of all solid waste resulting from the mining and preparation of coal in a manner designed to prevent to the maximum extent practicable air and water pollution and spontaneous ignition.

(13) The operator shall use explosives only in accordance with existing Federal and State laws and the conditions specified by the Mining Supervisor, who may require the operator to:

(i) Provide adequate advance written notice by publication and/or posting of the planned blasting schedule to local governments and to residents who might be affected by the use of such explosives, and maintain a log of the magnitudes and times of blasts for a period of at least two years.

(ii) Limit the size, timing, and frequency of blasts as determined by the physical conditions of the site, to prevent personal injury or damage to public and private property.

(13) The operator shall construct, maintain, and, when they are no longer necessary, remove roads, pipelines, powerlines, and similar utility access facilities into and across the area of operations in a manner that will prevent to the maximum extent practicable erosion and siltation, pollution of water, damage to fish or wildlife or their habitats, or public or private property, except that the Mining Supervisor with the concurrence of the authorized officer of the surface management agency, may approve the retention, after mining of specific roads where consistent with the proposed postmining use of the affected lands.

(14) The operator shall refrain from constructing roads or other access ways in or near stream beds or drainage channels that would seriously alter the normal flow of water therein.

(4) The operator shall stabilize and protect all surface areas, including spoil piles, affected by the coal mining and reclamation operation, to effectively control slides, erosion, subsidence and attendant air and water pollution.

(5) The operator shall remove the topsoil separately, replace it on the backfill area or, if not utilized immediately, segregate it in a separate pile from other spoil. When the topsoil is not replaced on a backfill area within a time short enough to avoid deterioration of the topsoil, establish and maintain a cover by quick-growing plants or other means thereafter so that the topsoil is preserved from wind and water erosion and is in a condition for sustaining vegetation when used during reclamation. If topsoil is of insufficient quantity or of poor quality for sustaining vegetation, and if other strata can be shown to be more suitable for vegetation requirements, then the operator shall remove, segregate, and preserve in a like manner such other strata which are best able to support vegetation.

(6) Where permanent impoundments of water on mining sites are to be created, the operator shall insure that:

(i) The impoundment is adequate for its intended purposes.

(ii) The impoundment will be designed and built in accordance with sound engineering standards and practices and applicable Federal and State laws and regulations.

(iii) The quality of impounded water will be suitable for its intended use and discharges from the impoundment will not unreasonably degrade the water quality in the receiving stream.

(iv) Final grading will provide adequate safety and access for proposed water users.

(v) Such water impoundments will not adversely affect the water resources utilized by adjacent or surrounding landowners for agricultural, industrial, recreational, or domestic uses.

(7) The operator shall cover or plug all auger mine holes with noncombustible material in order to minimize or prevent harmful drainage.

(8) The operator shall minimize disturbances to the prevailing quality and quantity of water in surface and ground water systems, and of the prevailing erosion and deposition conditions at the mine site and in adjacent offsite areas, both during and after coal mining operations and during reclamation by:

(i) Controlling acid or other toxic mine drainage and the adverse consequences thereof by such measures as, but not limited to, restricting the flow of water through acid or other toxic-producing materials; treating drainage to reduce acid or other toxic content which adversely affects downstream water upon being released to water courses; and casing, sealing, or otherwise treating drill holes, shafts and wells to keep acid or other toxic drainage from entering ground and surface waters.

(ii) Conducting surface mining operations so as to prevent, to the maximum extent practicable,

(A) Contributions of suspended solids to streamflow or runoff outside the mining site above natural levels under seasonal flow conditions as measured for a period and at sites determined by the Mining Supervisor, in consultation with the authorized officer of the Federal surface management agency, and

(B) Deepening or enlargement of stream channels where operations require the discharge of water from mines.

(6) Removing or modifying siltation structures after disturbed areas are revegetated and stabilized, unless otherwise directed by the Mining Supervisor after consultation with the authorized officer of the surface management agency.

(7) Protecting to the maximum extent practicable throughout the mining and reclamation process, the quality and quantity of both upstream and downstream surface and ground water resources of these valley floors which provide water sources that support significant valley floor vegetation, or supply water for other purposes by such measures as, but not limited to, relocating and maintaining the gradient of streams.

(8) The operator shall, with respect to disposal of mine wastes, coal processing wastes and other wastes in areas other than the mine workings or other excavations, place all waste piles in area designated in the approved mining plan and stabilize them through construction in compacted layers, including, if necessary the use of incombustible and impervious materials; shape the waste pile to be compatible with natural surroundings and terrain, cover with topsoil, or other suitable material in accordance with paragraph (b)(4) of this section and revegetate in accordance with paragraph (b)(16) of this section.

(9) The operator shall refrain from surface coal mining within 200 feet of active and abandoned underground mines except as authorized in an approved mining plan.

(10) The operator shall incorporate sound engineering standards and practices for the design, construction, and use of impoundments for the disposal of coal mine wastes, coal processing wastes, or other liquid or solid wastes to insure that structures and impoundments will have necessary stability with an adequate margin of safety. No mine or processing waste shall be used in the construction of water impoundments, water retention facilities, dams, or settling ponds unless authorized in an approved mining plan.

(11) The operator shall:

(i) Treat or dispose of all rubbish and noxious substances in a manner designed to prevent air and water pollution and fire hazards.

(ii) Dispose of all solid waste resulting from the mining and preparation of coal in a manner designed to prevent to the maximum extent practicable air and water pollution and spontaneous ignition.

(13) The operator shall use explosives only in accordance with existing Federal and State laws and the conditions specified by the Mining Supervisor, who may require the operator to:

(i) Provide adequate advance written notice by publication and/or posting of the planned blasting schedule to local governments and to residents who might be affected by the use of such explosives, and maintain a log of the magnitudes and times of blasts for a period of at least two years.

(ii) Limit the size, timing, and frequency of blasts as determined by the physical conditions of the site, to prevent personal injury or damage to public and private property.

(13) The operator shall construct, maintain, and, when they are no longer necessary, remove roads, pipelines, powerlines, and similar utility access facilities into and across the area of operations in a manner that will prevent to the maximum extent practicable erosion and siltation, pollution of water, damage to fish or wildlife or their habitats, or public or private property, except that the Mining Supervisor with the concurrence of the authorized officer of the surface management agency, may approve the retention, after mining of specific roads where consistent with the proposed postmining use of the affected lands.

(14) The operator shall refrain from constructing roads or other access ways in or near stream beds or drainage channels that would seriously alter the normal flow of water therein.

(15) The operator shall, except where other reclamation is expressly provided for in an approved mining plan, establish on the regraded areas and all other affected lands a diverse vegetative cover, native to the area if capable of self-regeneration, at least equal in density and permanence to the natural vegetation. The Mining Supervisor, with the concurrence of the authorized officer of the surface management agency, may allow the use of introduced species as an interim measure where desirable to achieve quick cover.

(16) The operator shall assume responsibility for successful revegetation, as herein provided. The operator's responsibility and liability for revegetation of each planting area shall extend until such time as the authorized officer of the surface management agency, in consultation with the Mining Supervisor, determines that successful revegetation in compliance with paragraph (b)(16) of this section has occurred; provided that, this period shall extend for a minimum of five full years after the first year of planting and for a total period of liability not to exceed ten years from the original planting, and further provided that, where the authorized officer of the surface management agency determines that natural conditions, such as annual precipitation, soil characteristics and native vegetation, are stable and favor rapid revegetation, and that revegetation pursuant to paragraph (b)(16) of this section is likely to occur before the expiration of such minimum period, he may specify in the lease, permit, or license that such minimum period will not apply with respect to some or all of the lands included in the lease, permit, or license.

(17) The operator shall incorporate sound engineering standards and practices for the design, construction, and use of impoundments for the disposal of coal mine wastes, coal processing wastes, or other liquid or solid wastes to insure that structures and impoundments will have necessary stability with an adequate margin of safety. No mine or processing waste shall be used in the construction of water impoundments, water retention facilities, dams, or settling ponds unless authorized in an approved mining plan.

(18) The operator shall:

(i) Treat or dispose of all rubbish and noxious substances in a manner designed to prevent air and water pollution and fire hazards.

(ii) Dispose of all solid waste resulting from the mining and preparation of coal in a manner designed to prevent to the maximum extent practicable air and water pollution and spontaneous ignition.

(13) The operator shall use explosives only in accordance with existing Federal and State laws and the conditions specified by the Mining Supervisor, who may require the operator to:

(i) Provide adequate advance written notice by publication and/or posting of the planned blasting schedule to local governments and to residents who might be affected by the use of such explosives, and maintain a log of the magnitudes and times of blasts for a period of at least two years.

(ii) Limit the size, timing, and frequency of blasts as determined by the physical conditions of the site, to prevent personal injury or damage to public and private property.

(13) The operator shall construct, maintain, and, when they are no longer necessary, remove roads, pipelines, powerlines, and similar utility access facilities into and across the area of operations in a manner that will prevent to the maximum extent practicable erosion and siltation, pollution of water, damage to fish or wildlife or their habitats, or public or private property, except that the Mining Supervisor with the concurrence of the authorized officer of the surface management agency, may approve the retention, after mining of specific roads where consistent with the proposed postmining use of the affected lands.

(14) The operator shall refrain from constructing roads or other access ways in or near stream beds or drainage channels that would seriously alter the normal flow of water therein.

(A) Contributions of suspended solids to streamflow or runoff outside the mining site above natural levels under seasonal flow conditions as measured for a period and at sites determined by the Mining Supervisor, in consultation with the authorized officer of the Federal surface management agency, and

(B) Deepening or enlargement of stream channels where operations require the discharge of water from mines.

(6) Removing or modifying siltation structures after disturbed areas are revegetated and stabilized, unless otherwise directed by the Mining Supervisor after consultation with the authorized officer of the surface management agency.

(7) Protecting to the maximum extent practicable throughout the mining and reclamation process, the quality and quantity of both upstream and downstream surface and ground water resources of these valley floors which provide water sources that support significant valley floor vegetation, or supply water for other purposes by

## PROPOSED RULES

(18) The operator shall allow access to and upon the affected Federal land subject to lease, permit, or license for all lawful and proper purposes except where such access would unduly interfere with the authorized use or would constitute a hazard to public health and safety.

(19) The operator shall in all areas of active operations including lands undergoing reclamation, regulate public access, vehicular traffic, and wildlife or livestock grazing to protect the public, wildlife, and livestock from hazards associated with the operations and to protect the revegetated areas from unplanned and uncontrolled grazing. For this purpose the operator shall provide warnings, fencing, flag men, barricades, and other safety and protective measures as appropriate.

(20) In areas in which there are no current operations, the operator shall substantially backfill, fence, protect, or otherwise effectively close all surface openings, auger holes, subsidence holes, surface excavations or workings which are a hazard to people or animals. Openings at all underground mines which are temporarily closed shall be adequately fenced or equipped with a substantial incombustible gate or door which shall remain locked when not in use. Conspicuous signs shall be posted prohibiting entrance of unauthorized persons. All such protective measures shall be maintained in a secure condition during the term of the lease, permit, or license. Before permanent abandonment of operations, the operator shall:

(i) Close or backfill all openings and excavations, including water discharge points, or otherwise permanently deal therewith in accordance with sound engineering practices and according to the approved mining plan.

(ii) Promptly complete final reclamation and clean-up of surface areas around and near permanently abandoned operations including, except where otherwise expressly provided in the approved mining plan, removal of equipment and structures following cessation of mining operations.

(c) Prior to the issuance of a permit, lease, or license, the authorized officer may, in consultation with the Mining Supervisor, and the authorized officer of the surface management agency if other than the BLM, establish additional and more stringent requirements to meet exceptional and special circumstances, such as the degree of slope, soil conditions, and other site characteristics, and, if he does so, such additional and more stringent requirements shall be included in the permit, lease, or license.

(d) If the authorized officer of the surface management agency determines, after the issuance of the lease, permit, or license, that an approved exploration or mining plan should be required to be revised or supplemented to adjust to changed conditions or to correct oversights, he may propose such revision or supplement to the Mining Supervisor. Upon approval of the Mining Supervisor, such plan may be revised or supplemented pursuant to § 211.10(d) of 30 CFR Part 211.

(e) The following special provisions shall be applicable to the surface effects of underground mining.

(1) Each operator of an underground coal mine shall adopt measures consistent with feasible known technology in order to prevent or control subsidence, maximize mine stability, and maintain the value and use of surface lands, except in those instances where the mining method used requires planned subsidence in a predictable and controlled manner.

(2) Where pillars or panels are not removed and controlled subsidence is not part of the mining plan, pillars or panels of adequate dimensions shall be left to assure surface stability giving due consideration of the thickness and strength characteristics of the coal beds and of the strata above and immediately below the coal bed.

(3) The Mining Supervisor may require the operator to install a subsidence monitoring system consisting of elevation stations and tiltmeters in a number sufficient to determine the extent of area that may be affected. All records of such surveys shall be accessible for review by the Mining Supervisor.

(f) Visual resources. The operator shall take visual resources into account in the planning, design, and construction of facilities on the affected lands in accordance with lease terms and the approved plan.

(g) Fish and wildlife. The operator shall employ such measures as are deemed necessary to protect fish and wildlife and their habitat in accordance with lease terms and the approved plan.

(h) Cultural and scientific resources. The operator shall conduct operations that might have an effect on known or suspected archeological, paleontological, historical, or other cultural and scientific values in accordance with lease terms and the approved plan.

## § 3041.0-3 Use of surface.

(a) The operator shall be entitled to use only so much of the surface of the lands within the affected lands as is deemed necessary and has been designated in an approved plan. Any use of the Federal lands for a power generation plant or a commercial or industrial facility will be authorized only under a separate permit issued by the appropriate agency for that specific use and subject to all terms and conditions which it may include in that permit. The uses of the lands within the area of operation are subject to the supervision of the Mining Supervisor, and the uses of the remaining lands are subject to the supervision of the appropriate surface management agency. The operator shall not be entitled to use any mineral materials subject to the Materials Act except as provided by Part 3600 of this Chapter.

(b) Operations under other authorized uses on the same lands shall not unreasonably interfere with or endanger operations under uses authorized under the regulations in this chapter nor shall operations under the regulations in this Chapter unreasonably interfere with or endanger operations under any lease, license, permit, or other authorized use

pursuant to the provisions of any other Act.

## § 3041.1 Applications.

(a) Any person desiring a lease, permit, or license for coal development shall file an application in the proper BLM office, in accordance with the regulations in this Chapter.

(b) The application shall contain a preliminary plan of operation as described in § 3041.1-1 of this Subpart.

## § 3041.1-1 Preliminary plan.

(a) The preliminary plan required by these regulations shall include the following information:

(1) A map, or maps, available from State or Federal sources, showing the topography of the land applied for, on which the applicant shall show physical features, drainage patterns, present road and trail locations, present utility systems, proposed road and trail location, proposed location of surface and subsurface exploration sites, such as pits, seismic lines, drill holes, trenches, surface or underground mine workings; the proposed location of development or extraction facilities; and the proposed location and aerial extent of the areas to be used for pits, overburden, and tailings; and the location of water sources or other resources which may be used in the proposed operation or facilities incidental thereto.

(2) A narrative statement setting forth his proposed plan, methods, and schedule for diligent operations.

(b) The narrative statement shall also describe the measures proposed to be taken to prevent or control fire, soil erosion, pollution of surface and ground water, damage to fish and wildlife or other natural resources, air and noise pollution and hazards to public health and safety during lease activities, including measures for monitoring the effects of operations on air and water. Such measures shall also include the actions to be taken and the methods to be utilized to meet the performance standards set forth in § 3041.0-7 of these regulations. The applicant shall not enter upon the land for any operational purpose, except for casual use, until he has received a lease, permit, or license and submitted to the Mining Supervisor an exploration or mining plan and received approval thereof. Casual use, as used in this section means activities which do not cause significant surface disturbance, or damage lands, resources and improvements, such as activities which do not include use of heavy equipment, or explosives or vehicular movement off established roads and trails which cause such disturbance.

## § 3041.2 Technical examination/environmental analysis.

In connection with an application for a coal lease, permit or license, or on BLM motion, the authorized officer, with the assistance of the Mining Supervisor, shall make a technical examination and environmental analysis (TEEA).

(a) The technical examination shall include:

(1) An examination of the technical feasibility of the preliminary plan and;

(2) An evaluation of the effect of the preliminary plan on other land uses, resources, or programs on or adjacent to the area.

(b) The environmental analysis shall include: An analysis of the impact of the preliminary plan and alternatives on the living and non-living components of the environment.

## § 3041.2-1 Technical examination/environmental analysis report.

(a) The TEEA report shall contain a summary which, using information from the TEEA, sets forth recommended bonding requirements and stipulations formulated to: (1) Require conformance with the performance standards found in § 3041.0-7 of this Chapter, (2) Identify specific reclamation requirements, (3) Identify tracts requiring special environmental consideration, and (4) minimize adverse impacts on the environment and other resources, land uses or programs.

(b) If it is recommended that a specific area within the applied for lands should be excluded from a lease, permit, or license, or modification thereof, or if it is recommended that an environmental impact statement is required, the TEEA report shall substantiate these findings.

## § 3041.3 Basis for denial of lease, permit, or license based upon past forfeiture.

(a) An application for a lease, permit, or license to conduct coal exploratory or extractive operations may be denied any applicant or offeror who has forfeited a bond because of failure to comply with an approved exploration or mining plan. However, a lease, permit, or license may not be denied an applicant or offeror because of the forfeiture of a bond if the affected lands under his previous lease, permit, or license have subsequently been reclaimed without cost to the Federal Government.

## § 3041.4 Compliance or performance bond.

(a) The provisions of the regulations in Subpart 3504 of this Chapter are hereby made applicable to these regulations. In addition each compliance bond will be conditioned upon faithful compliance with the regulations in this Subpart and any additional terms and conditions of the lease, permit, or license. In determining the amount of the compliance bond to be required, the authorized officer of the surface management agency and the Mining Supervisor shall consider the cost of complying with the performance and reclamation standards in § 3041.0-7, and with the terms and conditions of the lease, permit, or license.

(b) The authorized officer shall set the amount of a bond and take the necessary action for an increase or for a complete or partial release of a bond. He shall take such actions only after consultation with the Mining Supervisor.

## PROPOSED RULES

## § 3041.5 Public notice and inspection of records.

Any application for a lease, permit, or license, together with proposed terms, conditions, and special stipulations shall be made available in the proper BLM office. A notice that such material is available shall be posted in the proper BLM office, sent to the County Clerk for the County in which the affected lands are located for posting, and mailed to the surface owner of record if other than the United States. Except as otherwise provided in Part 3520 of this Chapter, the applicant shall, at no expense to the Federal Government, have published a copy of such notice in a newspaper of general circulation in the county in which the lands are situated once a week for four consecutive weeks, or for such other period as may be deemed advisable. Interested parties shall have a period of 30 days after publication of notice that such material is available for public inspection and comment thereon.

## § 3041.6 Reports.

(a) Operations. An operator, under a coal lease, permit or license, shall file with the Mining Supervisor, within 30 days after the end of each calendar year or within 30 days after the cessation of operations, a report, in duplicate, containing the following:

(1) Serial number of the lease, permit or license and a description of the lands affected by operations.

(2) The number of acres disturbed and the number of acres reclaimed, including revegetation.

(3) A description of the reclamation work remaining to be done.

(b) Grading and backfilling. Upon completion of backfilling and grading required by the operating plan, the operator shall submit a report thereon, in duplicate, to the Mining Supervisor and request inspection for approval. Whenever it is determined by such inspection that the backfilling and grading, which may proceed in appropriate stages, has met the requirements of the approved plan, the Mining Supervisor shall recommend to the authorized officer of the Bureau of Land Management, and/or other Federal surface management agency the release of an appropriate amount of the bond for the area satisfactorily backfilled and graded.

(c) Revegetation. (1) The operator shall file a report, in duplicate, with the Mining Supervisor within 30 days after each planting is completed. The report shall:

(i) Identify the lease, permit, or license.

(ii) Show the type of planting or seeding, including mixtures and amounts.

(iii) Show the date of planting or seeding.

(iv) Identify or describe the planted or seeded lands.

(v) Describe fertilization and irrigation procedures, if any, and contain such other information as may be considered relevant.

(2) The Mining Supervisor and the authorized officer of the surface management agency shall, as soon as possible after each full growing season, inspect and evaluate the revegetated areas to determine whether satisfactory vegetative growth has been established, or whether additional revegetation efforts may be required.

(d) Cessation or abandonment of operations. (1) Not less than 30 days prior to cessation or abandonment of operations, the operator shall submit to the Mining Supervisor, in duplicate, a report of his intention to cease or abandon operations, together with a statement of the exact number of acres affected by his operations, the extent and kind of reclamation accomplished, and a statement as to the structures and other facilities that are to be removed from or remain on the leased, permitted, or licensed lands.

(2) Upon receipt of such report, the Mining Supervisor and the authorized officer of the surface management agency shall make a joint inspection to determine whether operations have been completed in accordance with the approved operating plan. When the operator has complied with all requirements of the lease, permit, or license and the regulations of this Subpart, the Mining Supervisor shall recommend to the authorized officer of the Bureau of Land Management and/or the other Federal surface management agency that the period of bonded liability be terminated.

(3) When the surface of lands in a lease, permit or license is not owned by the United States, the Mining Supervisor shall consult the surface owner and obtain his recommendation as to whether the operation has been completed in accordance with the approved operating plan before recommending to the appropriate authorized officer that the period of liability of the bond be terminated.

## § 3041.7 Notice of noncompliance: Revocation.

(a) The authorized officer and the Mining Supervisor shall have the right to enter upon the lands under lease, permit, or license, at any reasonable time.

(b) If the authorized officer of the Federal surface management agency determines that an operator is conducting activities which are not in compliance with the requirements of a lease, permit, or license, applicable regulations, or the approved plan and such activities threaten immediate, serious, or irreparable damage to the environment, resources, health and safety of the employees and the public, the authorized officer may order the immediate cessation of such activities and shall promptly notify the Mining Supervisor. Upon such notification, the Mining Supervisor shall orally order immediate remedial action and issue a written notice of noncompliance, where appropriate.

(c) If the authorized officer determines that an operator is in noncompliance with the requirements of a lease, permit, or license, applicable regulations,

## PROPOSED RULES

or the approved plan and such noncompliance does not threaten immediate

thereof which shall be binding upon such officers. Any such order shall remain in

handling of coal in tribal and allotted Indian lands under leases and permits.

(e) "Authorized officer" means that officer designated by any Federal surface

for approval before mining operations commence showing the location, method and extent of mining and all related

testing, development, mining, preparation, handling, reclamation, and abandonment operations under the regu-

or the approved plan and such noncompliance does not threaten immediate, serious, or irreparable damage to the environment, resources, health and safety of the employees and the public, the authorized officer shall refer the matter to the Mining Supervisor for remedial action.

(d) Failure of the operator to take action in accordance with a written notice of noncompliance issued by the Mining Supervisor in accordance with the provisions of 30 CFR 211.72 shall be grounds for suspension of the operation and for possible cancellation of the lease, permit, or license in accordance with the regulations in 43 CFR 3500 of this Chapter.

#### § 3041.8 Application of State laws, regulations, practices, and procedures as Federal law by Federal officers.

(a) Upon request of the Governor of any State, the Secretary shall promptly review the laws, regulations, administrative practices and procedures in effect or due to come into effect with respect to reclamation of lands disturbed by surface mining of coal subject to the jurisdiction of that State, to determine whether such controls may appropriately be applied as Federal law to operations relating to coal owned by or subject to the jurisdiction of the United States. In such review the Secretary may hold such public hearings within the State as he may deem necessary and appropriate, and may receive evidence of mining or enforcement practices submitted in writing under oath by any person. He will take into account all relevant constructions and applications of such controls by competent State and local judicial and regulatory authorities, the desirability and practicability of uniformity between Federal and State controls, and the public policy of the State regarding the development of coal resources located therein.

(b) After such review, the Secretary may, by order, direct that all or part of such State laws, regulations, practices and procedures shall be applied as Federal law by the authorized officers of the Department with respect to coal within that State owned by or subject to the jurisdiction of the United States, if he determines that such application would

(1) effectuate the purposes of this Subpart;

(2) result in protection of environmental values which is at least as stringent as would otherwise occur under exclusive application of Federal controls; and

(3) would be consistent with the interest of the United States in the timely and orderly development of its coal resources.

(c) Pending issuance of an order under paragraph (b) of this section, nothing in this section shall be deemed or construed to stay or suspend any otherwise applicable Federal law, regulation, practice or procedure. Any such order under paragraph (b) of this section shall specifically set forth the controls to be applied by Federal officers, and may include specific findings of fact or interpretations

thereof which shall be binding upon such officers. Any such order shall remain in effect until rescinded or modified by subsequent order of the Secretary, upon his own motion or at the request of a Governor.

As proposed Part 211 of Title 30 of the Code of Federal Regulations is revised to read as follows:

#### PART 211—COAL MINING OPERATING REGULATIONS

Sec.	Scope and purpose.
211.1	Definitions.
211.2	Responsibilities.
211.3	General obligations of lessees, permittees, and licensees (including designated operators or agents).
211.4	Public inspection of records.

##### MAPS AND PLANS

211.10	Exploration and mining plans.
211.11	Approaching oil, gas, or water wells.
211.12	Mine maps.
211.13	Failure of lessees to furnish maps.

##### PROSPECTING AND EXPLORATION OPERATIONS

211.20	Information required to be submitted.
211.21	Core and test holes.

##### MINING METHODS AND MINE ABANDONMENT

211.30	Maximum recovery—underground mines.
211.31	Subsidence.
211.32	Multiple seam mining—underground mining.
211.33	Advance workings; underground mines.
211.35	Pillars left for support.
211.36	Development of leased tract through adjoining mines.

##### RECLAMATION AND PERFORMANCE STANDARDS

211.40	Operating and reclamation standards.
211.41	Abandonment; surface openings.
211.42	Disposal of mine waste or rejects.

##### MISCELLANEOUS PROVISIONS

211.60	Production records, royalty and audit; maintenance of and access to records.
211.61	Basis for royalty computation.
211.62	Reports.
211.63	Audits.

##### INSPECTION, ISSUANCE OF ORDERS, ENFORCEMENT OF ORDERS AND APPEALS

211.70	Inspection of underground and surface conditions.
211.71	Notices, instructions and orders.
211.72	Enforcement of orders.
211.73	Appeals.
211.74	Application of State laws, regulations, practices, and procedures as Federal law by Federal officers.

#### § 211.1 Scope and purpose.

(a) The regulations in this Part shall govern operations for the discovery, testing, development, mining, preparation, and handling of coal under coal leases, licenses, and permits issued for federally-owned coal, regardless of surface ownership, pursuant to the regulations in 43 CFR Group 3500 and the Alaska Coal Leasing Act of October 20, 1914 (38 Stat. 741), and for the reclamation of lands disturbed by such operations. These regulations shall also apply to operations for the discovery, testing, development, mining, preparation, and

handling of coal in tribal and allotted Indian lands under leases and permits, regardless of ownership of the surface, issued under the regulations in 25 CFR Parts 171, 172, and 174, and for the reclamation of lands disturbed by such operations.

(b) The purpose of the regulations in this Part is to assure orderly and efficient prospecting, exploration, testing, development, mining, preparation and handling operations, and production practices, without avoidable waste or loss of coal or other mineral resources or damage to coal-bearing or other mineral-bearing formations; to encourage maximum recovery and use of coal resources; to ensure operating practices which will avoid, minimize, or correct resulting damage to the environment—land, water, and air—and to public health and safety; to require effective reclamation of lands; and to require a proper record and accounting of all coal produced.

(c) When the regulations in this Part relate to matters included in the regulations in 25 CFR Part 177—Surface Exploration, Mining, and Reclamation of Lands—pertaining to Indian lands, the regulations in that Part shall govern to the extent of any inconsistencies. In any event, the operating and reclamation standards of § 211.40 of this Part shall apply.

(d) The responsibility for enforcement of the Federal Coal Mine Health and Safety Act of 1969 (83 Stat. 742; 30 U.S.C. 801) and the coal mine health and safety regulations contained in Chapter I of this Title is vested in the Mining Enforcement and Safety Administration, Department of the Interior.

#### § 211.2 Definitions.

As used in this Part, the following terms shall have the following meanings:

(a) *Acid and toxic producing deposits* means natural or reworked earth materials having chemical and physical characteristics that, under mining or postmining conditions of drainage, exposure, or other processes, may produce effluents that contain chemical constituents, such as acids, bases, or metallic compounds, in sufficient concentrations to adversely affect the environment.

(b) *Affected lands* means any lands affected or to be affected by exploration, development, and mining operations and the construction of facilities necessary and related to such operations.

(c) *Approximate original contour* means the surface configuration achieved by backfilling and grading of the mined area so that it closely resembles the surface configuration of the land prior to mining (although not necessarily the original elevation) and blends into and complements the drainage pattern and topography of the surrounding terrain.

(d) *"Area of operations"* means that area of the leased, permitted or licensed lands which is required for exploration, development, producing, and processing operations, including all related surface structures and facilities, and which is delineated on a map or plat that is made a part of the approved plan.

(e) *"Authorized officer"* means that officer designated by any Federal surface managing agency to exercise its authority in matters relating to coal leases, licenses, and permits and these regulations.

(f) *"Coal"* means coal of all ranks, from lignite to anthracite.

(g) *"Conservation Manager"* means a Conservation Manager, Conservation Division, Geological Survey.

(h) *"Director"* means the Director of the Geological Survey, U.S. Department of the Interior.

(i) *"Division Chief"* means the Chief of the Conservation Division, Geological Survey.

(j) *"Exploration plan"* means a detailed plan submitted to the Mining Supervisor for approval before exploration operations commence showing the location and type of exploration work to be conducted, environmental protection procedures, roads, and reclamation procedures to be followed upon completion of such operations.

(k) *"General Coal Mining Order"* means a formal numbered order issued by the Mining Supervisor, with the prior approval of the Division Chief, which implements the regulations in this Part and applies to operations in a specified geographic area.

(l) *"Lease lands, leased premises, or leased tract"* means lands embraced within a coal lease and subject to the regulations in this Part.

(m) *"Lessee"* means any person or persons, partnership, association, corporation, or municipality to whom a coal lease is issued, subject to the regulations in this Part, or an assignee of such lease under an approved assignment.

(n) *"Licensee"* means any individual, association of individuals, or municipality to whom a coal license is issued, subject to the regulations in this Part.

(o) *"Logical mining unit"* means an area of coal land that can be developed and mined in an efficient, economical, and orderly manner, with due regard to conservation of coal reserves and other resources. A unit may consist of one or more Federal leaseholds and may include intervening or adjacent non-Federal lands, insofar as all lands are under the effective control of a single operator.

(p) *"Maximum extent practicable"* means, with respect to a performance standard or a level of control, that degree of compliance which can be achieved with commercially available technology, taking into account the costs of such compliance and all tangible and intangible environmental and other benefits which would be derived therefrom.

(q) *"Method of Operation"* means the method and manner by which any activities are performed by the operator, as described in a preliminary plan or an exploration or mining plan.

(r) *"Mine"* means an underground or surface excavation and the surface or underground support facilities that contribute directly or indirectly to coal mining, preparation, and handling.

(s) *"Mining plan"* means a detailed plan submitted to the Mining Supervisor

for approval before mining operations commence showing the location, method and extent of mining and all related activities necessary and incident to such operations, including the steps to be taken to protect the environment during operations, reclamation, and abandonment.

(t) *"Mining Supervisor"* means the Area Mining Supervisor, Conservation Division, Geological Survey, or District Mining Supervisor or other subordinate acting under his direction.

(u) *"Operator"* means a lessee, permittee, or licensee, or one conducting operations on lands under the authority of the lessee, permittee, or licensee.

(v) *"Permanent impoundment"* means an artificially built, dammed, or excavated place for retention of water or sediment that is intended to remain after abandonment of the operation.

(w) *"Permit lands"* means lands embraced within a coal prospecting permit and subject to the regulations in this Part.

(x) *"Permittee"* means any person or persons, partnership, association, corporation, or municipality to whom a coal prospecting permit subject to the regulations in this Part is issued, or an assignee of such permit under an approved assignment.

(y) *"Preparation"* means the crushing, sizing, cleaning, drying, mixing, and other processing of coal to prepare it for market.

(z) *"Reclamation"* means the process of returning affected lands to a stable condition and form consistent with their premining productivity and use.

(aa) *"Secretary"* means the Secretary of the Interior.

(bb) *"Significant valley floor vegetation"* means farm crops, including hay, that are integral parts of agricultural or ranching operations and forests or meadows with significant recreational, watershed, or wildlife habitat value.

(cc) *"Topsoil"* means natural earth materials at or adjacent to the land surface with physical and chemical characteristics necessary to support vegetation.

(dd) *"Valley floors"* means the channels, floodplains, and adjacent low terraces of perennial, intermittent, or ephemeral streams that are flooded during periods of high flow and that are underlain by unconsolidated stream-laid deposits. Excluded are higher terraces and slopes underlain by colluvial and other surficial deposits normally occurring along valley margins.

#### § 211.3 Responsibilities.

(a) Subject to the supervisory authority of the Secretary, the regulations in this Part shall be administered by the Director, through the Division Chief, the Conservation Manager, and the Mining Supervisor.

(b) The Mining Supervisor is empowered to approve, disapprove, or require modification of exploration and mining plans pursuant to this Part.

(c) The Mining Supervisor is empowered to oversee prospecting, exploration,

testing, development, mining, preparation, handling, reclamation, and abandonment operations under the regulations in this Part. The Mining Supervisor, in the performance of his duties shall:

(1) *Inspection of operations.* Examine, as frequently as necessary but at least quarterly, the lease, permit, or license lands where operations for the discovery, testing, development, mining, preparation, and handling of coal and reclamation of affected lands are conducted, or are to be conducted; inspect such operations, for the purpose of determining whether waste or degradation of mineral substances or damage to formations and deposits or non-mineral resources affected by the operations is being minimized, and whether all provisions of applicable laws, regulations and orders, all terms and conditions of leases, permits, or licenses, and all requirements of approved exploration or mining plans are being complied with.

(2) *Compliance.* Require operators to conduct operations subject to this Part in compliance with all provisions of applicable laws, regulations, and orders, all terms and conditions of leases, permits, or licenses, and all requirements of approved exploration or mining plans.

(3) *Reports and recommendations.* Make reports to the Division Chief, through the Conservation Manager, as to the general conditions of lands under permit, lease, or license, and the manner in which operations are being conducted and orders or instructions are being complied with; and submit information and recommendations for protecting the coal, the coal-bearing formations, other mineral resources, and the non-mineral resources.

(4) *Manner and form of records, reports, and notices.* Prescribe, subject to the approval of the Division Chief, the manner and form in which records of operations, reports, and notices shall be made.

(5) *Records of production; rentals and royalties.* Obtain and check coal production and sales records; determine rental and royalty liability of lessees and permittees; collect and deposit rental and royalty payments; maintain rental and royalty accounts.

(6) *Waiver, suspension, or reduction of rental or minimum royalty.* Act on applications for waiver, suspension, or reduction of rental or minimum royalty filed pursuant to 43 CFR 3503.3-2(d); and transmit to the Bureau of Indian Affairs for appropriate action, applications for waiver, suspension, or reduction of rental or minimum royalty under leases on Indian lands.

(7) *Suspension of operations and production.* Act on applications for suspension of operations or production, or both, filed pursuant to 43 CFR 3503.3-2(e), and terminate, when appropriate, suspensions which have been granted; and transmit to the Bureau of Indian Affairs for appropriate action, applications for suspension of operations or production, or both, under leases on Indian lands.

(8) *Cessation and abandonment of operations.* Upon receipt of notice of pro-

cessing shall conform to the provisions of applicable laws and regulations, including

vegetation. The number of holes and analyses will be specified by the Mining

the lands affected by the operations. The

velocity of prevailing winds; and the

tary into which mine waters will be discharged, if applicable.

(8) *Cessation and abandonment of operations.* Upon receipt of notice of proposed cessation or abandonment of operations, or relinquishment of a lease, permit, or license, inspect and determine whether the operator has complied with the terms and conditions of the permit, lease, or license, and the approved exploration or mining plans; whether all rentals and royalties due the lessor have been paid; and determine and report to the Federal agency having administrative jurisdiction over the lands when the lands have been properly conditioned for abandonment. Before approving any such proposed action, the Mining Supervisor will consult with, or obtain the concurrence of, the authorized officer of the Federal agency having administrative jurisdiction over the lands with respect to compliance by the operator with the surface protection and reclamation requirements of the lease, permit, or license, and the exploration or mining plan.

(9) *Wells or prospect holes.* Prescribe or approve the methods for protecting coal-bearing formations from damage or contamination that might be incurred as a result of any wells or prospect holes drilled to, or through, the coal-bearing formations, for any purpose, on lands embraced within a coal lease, permit, or license.

(10) *Trespass.* Report to the Federal agency having administrative jurisdiction over the lands any trespass that involves exploration activities or removal of coal.

(11) *Water and air quality.* Inspect operations to determine compliance with water management and pollution control measures for the protection and control of the quality of surface and ground water resources and compliance with emission control measures for the protection and control of air quality, as required by the approved plans.

(12) *Implementation of regulations.* Issue General Coal Mining Orders and other orders and instructions, and grant consents and approvals, when necessary, to implement or assure compliance with the regulations in this Part. Oral orders, instructions, approvals, and consents shall be confirmed in writing.

(13) *Reclamation bonds.* Determine whether the amounts of bonds or other equally appropriate financial arrangements are at all times adequate to satisfy the estimated costs of completion of remaining reclamation requirements of the approved exploration or mining plan.

(14) *Consultation.* Consult with the authorized officer of the Federal surface managing agency before taking any final action to approve an exploration or mining plan or modification thereof and to determine the amount of a bond for reclamation purposes.

#### § 211.4 General obligations of lessees, permittees, and licensees (including designated operators or agents).

(a) *Operations involving the discovery, testing, development, mining, preparation, and handling of coal, and reclamation and abandonment of lands*

shall conform to the provisions of applicable laws and regulations, including applicable effluent and emission limitations; the terms and conditions of the lease, permit, or license; the requirements of an approved exploration or mining plan; and the orders and instructions issued by the Mining Supervisor.

(b) The operator shall take all actions necessary to minimize waste and damage to coal-bearing formations or other mineral resources.

(c) The operator shall take such action as may be needed to minimize, control, and to the maximum extent practicable, avoid (1) soil erosion; (2) pollution of air; (3) pollution of surface or ground water; (4) serious diminution of the normal flow of water; (5) permanent damage to vegetative growth, crops, or timber; (6) injury or destruction of fish and wildlife and their habitat; (7) creation of unsafe or hazardous conditions; (8) damage to improvements, whether owned by the United States, its permittees, licensees, or lessees, or by others; and (9) damage to recreational, scenic, historical, and archaeological values of the land. The surface of leased or permit lands shall be reclaimed as contemporaneously as practicable with the mining operations and in accordance with the terms and conditions prescribed in the lease, permit, or license and the provisions of the approved mining or exploration plan. Good housekeeping practices shall be observed at all times. Where any question arises as to the necessity for, or the adequacy of, an action to meet the requirements of this paragraph, the determination of the Mining Supervisor shall be final, subject to the right of appeal as provided in Part 290 of this Chapter.

(d) The operator shall, when and as required by the Mining Supervisor, monitor water quality to establish data necessary to determine procedures which may be required to minimize, control, or avoid water pollution pursuant to the regulations in this Part.

(e) Accidents threatening damage to the mine, the lands or other resources, or accidents which could cause air or water pollution, along with corrective actions initiated, shall be reported promptly to the Mining Supervisor by telephone. Within 30 days after an accident the operator shall submit to the Mining Supervisor a detailed report of damages caused by the accident and the corrective actions taken.

(f) In areas where surface mining is anticipated, the operator shall drill an adequate number of holes in the overburden overlying the coal, and the stratum immediately below the coal to be mined. The operator shall sample and log each stratum penetrated and analyze each stratum for at least the following: nitrogen, phosphorus, potassium, and pH, and conduct any other tests which the Mining Supervisor may specify. The analyses will be used to determine which materials must be buried during the stripping operations and to determine suitable material that will be placed near the surface for favorable propagation of

vegetation. The number of holes and analyses will be specified by the Mining Supervisor.

(g) The operator shall submit the reports required by 25 CFR Part 177, Part 200 of this Chapter, this Part, and any other reports required by the Mining Supervisor.

#### § 211.5 Public inspection of records.

(a) Geological and geophysical information and data, including maps, concerning wells and trade secrets, and commercial or financial information obtained from a person under this Part and identified as privileged or confidential shall not be available for public inspection without the consent of the permittee or lessee, so long as the permittee or lessee furnishing such data, or his successors or assignees, continues to hold a permit or lease of the lands involved.

(b) Mining plans submitted under § 211.10 of this Part will be made available for public inspection in the office of the appropriate Mining Supervisor. For new mine plans, for major modifications in existing surface mine plans, or for surface related changes in existing underground plans submitted for approval, interested parties will have a 30-day period after publication of notice to inspect such plans in the office of the District or Area Mining Supervisor and to comment thereon before any action with respect to such approval shall be taken by the Mining Supervisor. A notice of the availability of the plan shall be prepared by the Mining Supervisor, posted at the appropriate office on the day the plan is received, and mailed to the surface owner of record, if other than the United States, and to the appropriate county clerk for posting or publication. A copy of such notice shall be published by the operator in a local newspaper of general circulation in the locality of the proposed operation at least once a week for four consecutive weeks.

#### MAPS AND PLANS

#### § 211.10 Exploration and mining plans.

(a) *General.* Before conducting any operation other than casual use, the operator shall submit to the Mining Supervisor, and obtain his approval of, an exploration or mining plan. Casual use, as used in this section, means activities which do not cause significant surface disturbance or damage to lands, resources and improvements, such as activities which do not include heavy equipment, explosives, or vehicular movement off established roads and trails which causes such disturbance. All such plans shall be submitted in quintuplicate, and shall show in detail the proposed prospecting, exploration, testing, development, mining, preparation, reclamation, and abandonment operations to be conducted. Exploration and mining plans shall be consistent with and responsive to the requirements of the lease, permit, or license for maximizing recovery of the resources, for the protection of non-mineral resources, and for the reclamation of the surface of

the lands affected by the operations. The exploration and mining plans shall show that reclamation is an integral part of the plan and will progress as contemporaneously as practicable with the operations, and shall provide sufficient information to substantiate the effectiveness of the proposed reclamation method. Except as provided in paragraph (e) of this section as to partial plans, where a logical mining unit has been approved by the Mining Supervisor, the mining plan shall cover all operations in the unit. The Mining Supervisor, after considering all comments received pursuant to § 211.5(b), shall, in writing, promptly approve or disapprove the plan or indicate what modifications are necessary to conform to the provisions of the applicable laws and regulations and the terms and conditions of the permit or lease.

(b) *Exploration plans.* The Mining Supervisor shall require that an exploration plan include all of the following:

(1) A brief description of geologic, water, vegetation, fish, wildlife, and other physical factors that may be affected by the proposed operation within the area where exploration is to be conducted.

(2) A description of the present land use within and adjacent to the area.

(3) A narrative description including:

(i) Method of exploration and types of equipment to be used.

(ii) Measures to be taken to prevent or control fire, soil erosion, pollution of surface and ground water, pollution of air, damage to fish and wildlife or their habitat and other natural resources, and hazards to public health and safety.

(iii) Method for plugging drill holes.

(iv) Measures to be taken for surface reclamation which shall take into account the impact of the proposed operation on adjacent land uses and shall include, as appropriate:

(A) A reclamation schedule.

(B) Method of grading, backfilling, and contouring.

(C) Method of soil preparation and fertilizer application.

(D) Type and mixture of shrubs, trees, grasses, or legumes to be planted.

(E) Method of planting, including quantity and spacing.

(4) Estimated timetable for each phase of the work and for final completion of the program.

(5) Suitable maps or aerial photographs showing existing topographic, cultural, and drainage features, the proposed location of drill holes, trenches, access roads, and other items, as required by the Mining Supervisor.

(c) *Mining plans.* The Mining Supervisor shall require that a mining plan include all of the following:

(1) A description of the environment within the area where mining is to be conducted. Such description shall include, as a minimum, geologic conditions, including potential geologic hazards; types, depths, and distribution of soils; types, density, and distribution of vegetation; a monthly range of temperature, precipitation and average direction and

velocity of prevailing winds; and the dominant fish and wildlife species.

(2) The conditions of the land covered by the mining plan prior to any mining, including:

(i) The uses existing at the time the mining plan is submitted for approval.

(ii) The capability of the land prior to any mining to support alternative uses, giving consideration to soil characteristics, topography, annual precipitation, and vegetative cover.

(3) The use which is proposed to be made of the land following reclamation, including any consideration which has been given to making the surface mining and reclamation operations consistent with applicable State and local land use plans and programs.

(4) A description of how the proposed postmining land use is to be achieved, including any necessary support activities and facilities.

(5) A narrative description, including:

(i) Nature and extent of the coal deposit, including estimated recoverable reserves.

(ii) Method of mining, including mining sequence and proposed production rate.

(iii) The engineering techniques proposed to be used in mining and reclamation and a description of the major equipment; the plan for the control of water drainage and accumulation; the plan, where appropriate, for backfilling, soil stabilization, and compacting, grading, and revegetation; and an estimate of the cost per acre of the reclamation, including a statement as to how the operator plans to comply with the requirements set out in Section 211.40(a) of this Part and any special terms and conditions of the lease, permit or license.

(iv) The anticipated starting and termination dates of each phase of the mining operation and number of acres of land to be affected.

(v) The steps to be taken to comply with applicable air and water quality laws and regulations.

(vi) Proposed measures for insuring the maximum practicable recovery of the mineral resource.

(vii) An estimated timetable for the accomplishment of each major step of reclamation.

(viii) The method of abandoning mine openings.

(ix) The logs and analyses of overburden samples and the method of depositing the spoils based on these samples.

(x) The hydrology of the area, including quantity and quality of water in surface and ground water systems, water levels and water table measurements, data regarding dissolved and suspended solids under seasonal flow conditions, and an assessment of the probable impacts of the anticipated mining operation upon the hydrology of the area.

(6) Suitable maps or aerial photographs showing:

(i) Topographic, cultural, archaeological, and natural drainage features, roads, and vehicular trails.

(ii) The name of the watershed and location of the surface stream or tribu-

tary into which mine waters will be discharged, if applicable.

(iii) Cross sections and plan views of the land to be affected, including the actual area to be mined, showing elevation and location of drill holes and depicting the following information: the nature and depth of the various strata of overburden; the information on subsurface water, if encountered, and its quality; the nature and thickness of any coal or rider seam above the coal seam to be mined; the nature of the stratum immediately beneath the coal seam to be mined; all mineral crop lines and the strike and dip of the coal to be mined within the area of land to be affected; existing surface mining limits, if any; the location and extent of known workings of any underground mines, including mine openings; the location of aquifers; the estimated elevation of the water table; the location of spoil, waste, or refuse areas and topsoil preservation area; the location of all impoundments or other water treatment facilities; constructed or natural drainways and the location of any discharges to any surface body of water on the area of land to be affected or adjacent thereto; and cross sections of the anticipated final surface configuration that will be achieved pursuant to the operator's proposed reclamation activities.

(iv) Locations of surface structures and facilities.

(v) For an underground mine, the planned mine layout, including location and dimensions of shafts, slopes, drifts, crosscuts, rooms, haulageways, air-courses, entries, and barrier pillars.

(d) *Changes in plans.* Exploration and mining plans may be required to be reasonably revised or supplemented at any time by the Mining Supervisor, after consultation with the authorized officer of the Federal surface managing agency, to adjust to changed conditions or to correct oversights. If the operator seeks to change an approved plan, he shall submit a written statement of the proposed revision and the justification therefore to the Mining Supervisor. If any such revision or supplement would constitute a major modification of an approved mining plan, the Mining Supervisor shall follow the procedures provided in § 211.5(b) of this Part. The Mining Supervisor, after considering any comments received, shall, in writing, approve any such revision or specify the modifications thereto under which the proposed revision would be acceptable.

(e) *Partial plan.* If the circumstances warrant, or if development of an exploration or mining plan for the entire operation is dependent upon unknown factors which cannot, or will not, be determined except during the progress of the operations, a partial plan may be approved and supplemented from time to time. A partial plan shall include all information required by paragraph (c) of this section to the extent that such information is available.

§ 211.11 Approaching oil, gas, or water wells.

When mining operations approach wells or bore holes that may liberate oil,

ing vegetation when used during reclamation. If the soil is of insufficient quantity, the operator shall, in writing, notify the Mining Supervisor of the need for additional vegetation.

When mining operations approach wells or bore holes that may liberate oil,

ing vegetation when used during reclamation. If the soil is of insufficient quantity, the operator shall, in writing, notify the Mining Supervisor of the need for additional vegetation.

When mining operations approach wells or bore holes that may liberate oil,

ing vegetation when used during reclamation. If the soil is of insufficient quantity, the operator shall, in writing, notify the Mining Supervisor of the need for additional vegetation.

When mining operations approach wells or bore holes that may liberate oil,

ing vegetation when used during reclamation. If the soil is of insufficient quantity, the operator shall, in writing, notify the Mining Supervisor of the need for additional vegetation.

When mining operations approach wells or bore holes that may liberate oil,

ing vegetation when used during reclamation. If the soil is of insufficient quantity, the operator shall, in writing, notify the Mining Supervisor of the need for additional vegetation.

When mining operations approach wells or bore holes that may liberate oil,

ing vegetation when used during reclamation. If the soil is of insufficient quantity, the operator shall, in writing, notify the Mining Supervisor of the need for additional vegetation.

When mining operations approach wells or bore holes that may liberate oil,

ing vegetation when used during reclamation. If the soil is of insufficient quantity, the operator shall, in writing, notify the Mining Supervisor of the need for additional vegetation.

When mining operations approach wells or bore holes that may liberate oil,

ing vegetation when used during reclamation. If the soil is of insufficient quantity, the operator shall, in writing, notify the Mining Supervisor of the need for additional vegetation.

When mining operations approach wells or bore holes that may liberate oil,

ing vegetation when used during reclamation. If the soil is of insufficient quantity, the operator shall, in writing, notify the Mining Supervisor of the need for additional vegetation.

When mining operations approach wells or bore holes that may liberate oil,

ing vegetation when used during reclamation. If the soil is of insufficient quantity, the operator shall, in writing, notify the Mining Supervisor of the need for additional vegetation.

When mining operations approach wells or bore holes that may liberate oil,

ing vegetation when used during reclamation. If the soil is of insufficient quantity, the operator shall, in writing, notify the Mining Supervisor of the need for additional vegetation.

When mining operations approach wells or bore holes that may liberate oil,

ing vegetation when used during reclamation. If the soil is of insufficient quantity, the operator shall, in writing, notify the Mining Supervisor of the need for additional vegetation.

water, or other fluid substances, the

(a) *Other maps.* The operator shall

on the surface of the land subject to

ing vegetation when used during reclamation. If the soil is of insufficient quantity, the operator shall, in writing, notify the Mining Supervisor of the need for additional vegetation.

gas, water, or other fluid substances, the lessee shall present his plans for mining the coal, protecting the wells or bore holes, and for obtaining maximum recovery, so far as practicable, in the vicinity of such holes, and must obtain the approval of the Mining Supervisor before proceeding with mining.

#### § 211.12 Mine maps.

(a) *General requirements.* The operator shall maintain an accurate and up-to-date map of the mine, drawn to a scale acceptable to the Mining Supervisor. All maps shall be appropriately marked with reference to government landmarks or lines and elevations with reference to sea level. Before any mine, or section of a mine, is abandoned, closed, or made inaccessible, a survey of such mine or section shall be made and recorded on the maps. All excavations in each separate bed shall be shown in such a manner that the production of coal for any royalty period can be accurately ascertained. Additionally, the map shall show the name of the mine; the name of the lessee; the lease, permit, or license serial number, or Bureau of Indian Affairs lease or permit contract number, tribal name of tribal land, allotment number, if allotted land, and name of the Indian reservation; the lease boundary lines; surface buildings; dip of the bed; true north; map scale and explanatory legend; and such other information as the Mining Supervisor shall request. Copies of such maps shall be properly posted to date and furnished, in duplicate, to the Mining Supervisor annually, or at such other times as he deems necessary.

(b) *Underground mine maps.* Underground mine maps shall, in addition to the general requirements of paragraph (a) of this section, show all mine workings; the date of extension of the mine workings and a coal section at each entry face; the location of all surface mine fans; the position of all fire walls, dams, main pumps, fire pipelines, permanent ventilation stoppings, doors, overcasts, undercasts, permanent seals, and regulators; the direction of the ventilating current in the various parts of the mine at the time of making the latest surveys; sealed areas, known bodies of standing water, either in or above the workings of the mine; areas affected by squeezes; the elevations of surface and underground levels of all shafts, slopes or drifts; and the elevation of the floor, or bottom of the mine workings, at regular intervals in main entries, panels or sections, and sump areas.

(c) *Surface mine maps.* Surface mine maps shall, in addition to the general requirements of paragraph (a) of this section, include date of extension of the mine workings and a coal section at not less than 100-foot intervals along the highwall; all worked out areas; the uncovered, but unmined, coal beds; and the elevation of the top of the coal beds.

(d) *Vertical projections and cross sections of mine workings.* When required by the Mining Supervisor, vertical projections and cross sections shall accompany plan views.

(e) *Other maps.* The operator shall prepare such other maps of the leased lands as, in the judgment of the Mining Supervisor, are necessary to show the surface boundaries; location, surface elevation, depth and thickness of the coal, and total depth of each bore hole; improvements; reclamation completed; topography, including subsidence resulting from mining; and the geological and hydrologic conditions as determined from outcrops, drill holes, exploration or mining; and water monitoring stations.

(f) *Accuracy of maps.* The accuracy of maps furnished shall be certified by a professional engineer, professional land surveyor, or other professionally qualified person.

#### § 211.13 Failure of lessee to furnish maps.

(a) *Liability of lessee for expense of survey.* If the operator fails to furnish a required map, the Mining Supervisor shall employ a qualified mine surveyor to make a survey and a map of the mine, the cost of which shall be charged to, and promptly paid by, the operator.

(b) *Incorrect maps.* If any map submitted by an operator is believed to be incorrect, the Mining Supervisor may cause a survey to be made. If the survey shows the maps submitted by the lessee to be substantially incorrect, in whole or in part, the cost of making the survey and preparing the maps shall be charged to, and promptly paid by, the operator.

#### PROSPECTING AND EXPLORATION OPERATIONS

#### § 211.20 Information required to be submitted.

The operator shall submit promptly to the Mining Supervisor, upon request, upon completion or suspension of prospecting or exploration operations, or as provided in the leases, permits, and licenses, duplicate signed copies of records and geologic interpretations of all prospecting and exploration operations performed on the lease or permit lands, including recoverable reserve calculations, along with vertical cross sections through the land and a map showing the exact location of coal outcrops, all drill holes, trenches and other prospecting activities. The records shall include a log of all strata penetrated and conditions encountered, such as water, quicksand, gas, or any unusual conditions; copies of all other in-hole surveys, such as electric logs, gamma ray-neutron logs, sonic logs, or any other logs produced; and copies of coal analyses and results of other tests conducted on the land. All drill holes, trenches, and excavations will be logged under the supervision of a qualified geologist or engineer. Unless otherwise authorized by the Mining Supervisor, representative samples of all drill cores or cuttings shall be retained by the operator for one year and shall be available for inspection or analysis at the convenience of the Mining Supervisor.

#### § 211.21 Core and test holes.

(a) *Surveillance wells.* With the approval of the Mining Supervisor, drill

holes may be utilized as surveillance wells for the purpose of monitoring the effect of subsequent operations upon the quantity, quality, or pressure of ground water or mine gases.

(b) *Blowout control devices.* When drilling on lands valuable or potentially valuable for oil and gas or geothermal resources, the operator shall, when required by the Mining Supervisor, set and cement casing in the hole and install suitable blowout prevention equipment.

(c) *Use of wells by others.* Upon receipt of a written request from the surface owner or Federal surface administering agency, the Mining Supervisor may approve the transfer of an exploratory well for further use as a water well. Approval of such well transfer will be accompanied by a corresponding transfer of responsibility for any liability for damage and eventual plugging.

#### MINING METHODS AND MINE ABANDONMENT

#### § 211.30 Maximum recovery—underground mines.

Mining operations shall be conducted in a manner to yield the maximum recovery of the coal deposits consistent with the protection and use of other natural resources, sound economic practice, and the protection of the environment—land, water, and air. No entry, level, or panel workings in which the pillars have not been completely extracted within safe limits shall be permanently abandoned and rendered inaccessible, except with the written approval of the Mining Supervisor.

#### § 211.31 Subsidence.

(a) Each operator of an underground coal mine shall adopt measures consistent with feasible known technology in order to prevent or control subsidence, maximize mine stability, and maintain the value and use of surface lands, except in those instances where the mining method used requires planned subsidence in a predictable and controlled manner.

(b) Where pillars or panels are not removed and controlled subsidence is not part of the mining plan, pillars or panels of adequate dimensions shall be left to assure surface stability, giving due consideration to the thickness and strength characteristics of the coal beds and of the strata above and immediately below the coal bed.

(c) The Mining Supervisor may require the operator to install a subsidence monitoring system consisting of elevation stations and tiltmeters in a number sufficient to determine the extent of area that may be affected. All records of such surveys shall be accessible for review by the Mining Supervisor.

#### § 211.32 Multiple seam mining: underground mining.

(a) *Sequence of mining.* In general, the available coal in the upper beds shall be worked out before the coal in the lower beds is mined, and simultaneous workings in an upper coal bed shall be kept in advance of the workings in each lower bed. The Mining Supervisor may authorize mining of any lower beds be-

fore mining the available coal in each known upper bed.

(b) *Protective barrier pillars in multiple seam mining.* In areas subject to multiple seam extraction, the protective barrier pillars for all main and secondary slope entries, main haulageways, primary aircourses, bleeder entries, and manways in each seam shall be superimposed, regardless of vertical separation or rock competency; however, modifications, exceptions, or variations of this requirement may be approved in advance by the Mining Supervisor.

#### § 211.33 Advance workings: underground mines.

Where the room and pillar or other system of mining requires advance workings in solid coal, including entries, rooms or crosscuts, the lessee shall leave sufficient pillars to ensure the maximum practicable recovery of the coal deposits.

#### § 211.35 Pillars left for support.

(a) *Barrier pillars.* The operator shall not, without the prior consent of the Mining Supervisor, mine any coal, drive any underground workings, or drill any lateral bore holes within 50 feet of any of the outside boundary lines of the leased lands, or within such greater distance of said boundary lines as the Mining Supervisor may prescribe. Payment up to and including the full value of the coal mined may be required for coal mined within such designated distances of the boundary without the written consent of the Mining Supervisor.

(b) *Lessee may be required to mine barrier pillars on adjacent lands.* If the coal beyond any barrier pillar has been worked out and the water level beyond the pillar is below the lessee's adjacent operations, the lessee shall, on the written order of the Mining Supervisor, mine out and remove all available Federal coal in such barrier, both in the lands covered by the lease and in the adjoining premises, if it can be mined without hardship to the lessee.

(c) *Privately or tribally owned coal on adjoining premises.* If the coal mining rights in adjoining premises are privately or tribally owned and this coal has been worked out, an agreement may be made with the coal owner for the extraction of the coal remaining in the boundary pillars which otherwise may be lost.

#### § 211.36 Development of leased tract through adjoining mines.

An operator may, with the approval of the Mining Supervisor, mine leased land from an adjoining underground mine on land privately owned or controlled or from adjacent leased lands, subject to the right of free access to the Federal premises by the Mining Supervisor.

#### RECLAMATION AND PERFORMANCE STANDARDS

#### § 211.40 Operating and reclamation standards.

(a) *Performance standards.* The following performance standards shall be applicable to all coal exploration, development, mining, drilling, preparation, processing, and reclamation operations

on the surface of the land subject to these regulations.

(1) The operator shall conduct surface coal mining operations so as to maximize the extraction of the coal resource so that future disturbance through the resumption of mining will be minimized.

(2) The operator shall reclaim the land affected pursuant to his approved plan, as contemporaneously as practicable with operations, to a condition at least fully capable of supporting all practicable uses which it was capable of supporting prior to any exploration or mining, or equal or better uses that can reasonably be attained.

(3) The operator shall replace overburden and waste materials in the mined area by backfilling (compacting, where advisable, to insure stability or to prevent leaching of toxic materials), grading, or other means so as, to the maximum extent practicable, to eliminate highwalls and spoil piles and to restore the original contour. Where the thickness of the coal deposits relative to the volume of overburden is large or where the overburden and other spoil and waste materials are either insufficient or more than sufficient to restore the approximate original contour, the operator shall backfill, grade, and compact, using all available overburden or spoil material, to obtain the lowest practicable grade, but not more than the angle of repose, in order to provide adequate drainage and to cover all acid-forming or other toxic materials.

Excess overburden or other spoil material, after restoring the approximate original contour, shall be graded, compacted (where advisable), stabilized, and shaped in a way to protect against slides, subsidence, erosion, and water pollution, in accordance with the requirements of this Part. Restoration to approximate original contour may not be required if the Director of the Geological Survey, with the concurrence of the Director of the Bureau of Land Management or the appropriate officer of the Federal surface management agency, determines: (i) That an equal or better proposed postmining land use is practicable and attainable and that a modification of this requirement is the best method of achieving that postmining use, or (ii) that unusual conditions, such as steeply dipping coal beds or multiple seam mining, exist which make backfilling pursuant to this paragraph impractical.

(4) The operator shall stabilize and protect all surface areas, including spoil piles, affected by the coal mining and reclamation operation, to effectively control slides, erosion, subsidence and attendant air and water pollution.

(5) The operator shall remove the topsoil separately, replace it on the backfill area or, if not utilized immediately, segregate it in a separate pile from other spoil. When the topsoil is not replaced on a backfill area within a time short enough to avoid deterioration of the topsoil, the operator shall establish and maintain a cover by quickgrowing plants or other means thereafter so that the topsoil is preserved from wind and water erosion and is in a condition for sustain-

ing vegetation when used during reclamation. If topsoil is of insufficient quantity or of poor quality for sustaining vegetation, and if other strata can be shown to be more suitable for vegetation requirements, then the operator shall remove, segregate, and preserve in a like manner such other strata which are best able to support vegetation.

(b) The operator shall, where permanent impoundments of water on mining sites are to be created, insure that:

(i) The impoundment is adequate for its intended purposes.

(ii) The impoundment will be designed and built in accordance with sound engineering standards and practices and applicable Federal and State laws and regulations.

(iii) The quality of impounded water will be suitable for its intended use and discharges from the impoundment will not unreasonably degrade the water quality in the receiving stream.

(iv) Final grading will provide adequate safety and access for proposed water users.

(v) Such water impoundments will not adversely affect the water resources utilized by adjacent or surrounding landowners for agricultural, industrial, recreational, or domestic uses.

(7) The operator shall cover or plug all auger mine holes with noncombustible material in order to minimize or prevent harmful drainage.

(8) The operator shall minimize disturbances to the prevailing quality and quantity of water in surface and ground water systems, and of the prevailing erosion and deposition conditions at the mine site and in adjacent offsite areas, both during and after coal mining operations and during reclamation by:

(i) Controlling acid or other toxic drainage and the adverse consequences thereof by such measures as, but not limited to, restricting the flow of water through acid or other toxic-producing materials, treating drainage to reduce acid or other toxic content which adversely affects downstream water upon being released to water courses; and casing, sealing, or otherwise treating drill holes, shafts and wells to keep acid or other toxic drainage from entering ground and surface waters.

(ii) Conducting surface mining operations so as, to the maximum extent practicable, to prevent (A) contributions of suspended solids to streamflow or runoff outside the mining site above natural levels under seasonal flow conditions as measured for a period and at sites determined by the Mining Supervisor, in consultation with the authorized officer of the Federal surface managing agency, and (B) deepening or enlargement of stream channels where operations require the discharge of water from mines.

(iii) Removing or modifying siltation structures after disturbed areas are revegetated and stabilized unless otherwise directed by the Mining Supervisor after consultation with the authorized officer of the Federal surface managing agency.

(iv) Protecting, to the maximum extent practicable throughout the mining

and reclamation process, the quality and

tions in a manner that will control or

fencing, flagmen, barricades, and other

§ 211.42 Disposal of mine waste or re-

and other impurities of final weighing of

port of his intention to cease or abandon

and reclamation process, the quality and quantity of both upstream and downstream surface and ground water resources of those valley floors which provide water sources that support significant valley floor vegetation or supply water for other purposes, by such measures as, but not limited to, relocating and maintaining the gradients of streams.

(9) The operator shall, with respect to surface disposal of mine wastes, coal processing wastes, and other wastes in areas other than the mine workings or other excavations, place all waste piles in areas designated in the approved mining plan and stabilize them through construction in compacted layers, including, if necessary, the use of incombustible and impervious materials; shape waste piles to be compatible with the natural surroundings and terrain; cover with topsoil or other suitable material in accordance with paragraph (a) (5) of this section; and revegetate in accordance with paragraph (a) (16) of this section.

(10) The operator shall refrain from surface coal mining within 200 feet of active and abandoned underground mines, except as may be authorized in the approved mining plan.

(11) The operator shall incorporate sound engineering standards and practices for the design, construction, and use of impoundments for the disposal of coal mine wastes, coal processing wastes, or other liquid or solid wastes to insure that structures and impoundments will have necessary stability with an adequate margin of safety. No mine or processing waste shall be used in the construction of water impoundments, water retention facilities, dams, or settling ponds unless authorized in the approved mining plan.

(12) The operator shall:

(i) Treat or dispose of all rubbish and noxious substances in a manner designed to prevent air and water pollution and fire hazards;

(ii) Dispose of all solid waste resulting from the mining and preparation of coal in a manner designed to prevent, to the maximum extent practicable, air and water pollution and spontaneous ignition.

(13) The operator shall use explosives only in accordance with existing Federal and State laws and the conditions specified by the Mining Supervisor, who may require the operator to:

(i) Provide adequate advance written notice by publication and/or posting of the planned blasting schedule to local governments and to residents who might be affected by the use of such explosives, and maintain a log of the magnitudes and times of blasts for a period of at least two years.

(ii) Limit the size, timing, and frequency of blasts, as determined by the physical conditions of the site, to prevent personal injury or damage to public and private property.

(14) The operator shall construct, maintain and, when they are no longer necessary, remove roads, pipelines, powerlines and similar utility access facilities into and across the site of opera-

tions in a manner that will control or prevent erosion and siltation, pollution of water, damage to fish or wildlife or their habitat, or public or private property, except that the Mining Supervisor, with the concurrence of the authorized officer of the Federal surface managing agency, may approve the retention, after mining, of specific access roads where consistent with the proposed postmining use of the affected lands.

(15) The operator shall refrain from constructing roads or other access ways in or near stream beds or drainage channels that would seriously alter the normal flow of water therein.

(16) The operator shall, except where other reclamation is expressly provided for in an approved mining plan, establish on the regraded areas and all other affected lands a diverse vegetative cover, native to the area and capable of self-regeneration, at least equal in density and permanence to the natural vegetation. The Mining Supervisor, with the concurrence of the authorized officer of the Federal surface managing agency, may allow the use of introduced species as an interim measure, where desirable, to achieve quick cover.

(17) The operator shall assume responsibility for successful revegetation, as herein provided. The operator's responsibility and liability for revegetation of each planting area shall extend until such time as the authorized officer of the Federal surface managing agency, in consultation with the Mining Supervisor, determines that successful revegetation, in compliance with paragraph (a) (16) of this section, has occurred; provided that, this period shall extend for a minimum of five full years after the first year of planting, and for a total period of liability not to exceed 10 years from the original planting; and further provided that, where the authorized officer of the Federal surface managing agency determines that natural conditions, such as annual precipitation, soil characteristics and native vegetation, are stable and favor rapid revegetation, and that revegetation pursuant to paragraph (a) (16) of this section is likely to occur before the expiration of such minimum period, he may specify in the lease, permit, or license that such minimum period will not apply with respect to some or all of the lands included in such lease, permit, or license.

(18) The operator shall allow access to and upon the affected Federal lands subject to lease, permit, or license for all lawful and proper purposes, except where such access would unduly interfere with the authorized use or would constitute a hazard to public health and safety.

(19) The operator shall, in all areas of active operations, including lands undergoing reclamation, regulate public access, vehicular traffic, and wildlife or livestock grazing to protect the public, wildlife, and livestock from hazards associated with the coal mining and exploration operations and to protect the revegetated areas from unplanned and uncontrolled grazing. For this purpose, the operator shall provide warning signs,

fencing, flagmen, barricades, and other safety and protective measures as appropriate.

(b) *Fire prevention.* Accumulations of slack coal or combustible waste shall be stored in a location and manner so as not to be a fire hazard. If a coal seam exposed by surface mining or an accumulation of slack coal or combustible waste becomes ignited during the term of a lease, the operator will immediately extinguish the fire.

(c) *Coal face to be covered in strip pits.* Upon completion or indefinite suspension of mining operations in all or any part of a strip pit, the face of the coal shall be covered with non-combustible material that will effectively protect the coal bed from becoming ignited.

(d) *Underground workings from any strip pit.* The driving of any underground openings by auger or other methods from any strip pit shall not be undertaken without prior written approval of the Mining Supervisor.

§ 211.41 Abandonment; surface openings.

(a) *Prospecting and development.* Drill holes, trenches, and other excavations for development or prospecting shall be abandoned in a manner to protect the surface and not to endanger any present or future underground operations or any deposit of oil, gas, other mineral resources, or ground water. Methods of abandonment shall be approved in advance by the Mining Supervisor and may include backfilling, cementing, capped casing, or combinations of these, or other methods.

(b) *Temporary abandonment.* In areas in which there are no current operations, the operator shall substantially backfill, fence, protect, or otherwise effectively close all surface openings, auger holes, subsidence holes, surface excavations or workings which are a hazard to people or animals. Openings at all underground mines which are temporarily closed shall be adequately fenced or equipped with a substantial incombustible gate or door which shall remain locked when not in use. Conspicuous signs shall be posted prohibiting entrance of unauthorized persons. All such protective measures shall be maintained in a secure condition during the term of the lease, permit, or license.

(c) *Mining—permanent abandonment.* Before permanent abandonment of operations, all openings and excavations, including water discharge points, shall be closed or backfilled, or otherwise permanently dealt with in accordance with sound engineering practices and according to the approved mining plan.

(d) *Reclamation and clean-up.* Reclamation and clean-up of surface areas around and near permanently abandoned underground and strip mines, including, except where otherwise expressly provided in the approved mining plan, removal of equipment and structures related to the mining operation, shall commence without delay following cessation of mining operations.

§ 211.42 Disposal of mine waste or rejects.

(a) All waste or rejects containing practically no coal shall be deposited separately and apart from sized coal for which no immediate market exists. Waste piles shall be shaped to blend into the surrounding area, covered with topsoil or other suitable material in accordance with § 211.40(a) (5) and revegetated in accordance with § 211.40(a) (16).

(b) Waste containing coal in such quantity that it may be later separated from the waste by washing or other means shall also be stored separately.

#### MISCELLANEOUS PROVISIONS

§ 211.60 Production records, royalty, and audits; maintenance of and access to records.

(a) Lessee shall maintain current and accurate records showing: (1) The type, quality or grade, and weight of all coal mined, sold, used on the premises, or otherwise disposed of, and all coal in storage (remaining in inventory); (2) The prices received for all coal sold and to whom sold, by type and by quality or grade.

(b) All records maintained in accordance with paragraph (a) of this section, and all other records which are pertinent to or related to lessee's operation, shall be available for examination, upon request, by the Mining Supervisor or other authorized officer of the Secretary of the Interior.

(c) Licensees must maintain a correct record of all coal mined and removed.

§ 211.61 Basis for royalty computation.

(a) *Value Basis.* The value of production for the purpose of computing royalty shall be the product of (1) the sale or contract price of the coal prepared for shipment f.o.b. the mine and (2) the weight of coal delivered at the usual and customary place of shipment. However, if there is no sale or contract price, as in the case of coal used or stored by the operator, or if the Mining Supervisor determines that the sale or contract price has not been arrived at in an arms-length transaction, the Mining Supervisor shall determine the estimated reasonable value of the product, giving due consideration to the price of coal being sold in any current arms-length transactions in the same area, and such other relevant factors as may be appropriate to establish the comparability of such transactions.

(b) *Bone or other impurities.* All bone coal, rock, and other impurities may be removed from the raw coal prior to determination of coal weights for royalty purposes.

(c) *Discretion of Mining Supervisor.* (1) The right is reserved to the Mining Supervisor to determine and declare the value, either before or after receipt of royalty payments, if it is deemed necessary by him to do so for protection of the interests of the lessor.

(2) If royalties become due and payable prior to removal of bone coal, rock,

and other impurities of final weighing of coal, the Mining Supervisor may determine, by estimate, the weight of the coal for royalty purposes. In addition, the Mining Supervisor may, after the removal of bone coal, rock, and other impurities and final weighing of the coal, require the payment of such additional royalties, or allow such credits or refunds as may be necessary, to adjust the royalty payments to reflect the true weight of the coal.

§ 211.62 Reports.

(a) *Operations.* An operator under a coal lease, permit, or license shall file with the Mining Supervisor, within 30 days after the end of each calendar year or within 30 days after the cessation of operations, a report, in duplicate, containing the following:

(1) Serial number of the lease, permit, or license and a description of the lands affected by operations.

(2) The number of acres disturbed and the number of acres reclaimed, including revegetation.

(3) A description of the reclamation work remaining to be done.

(b) *Grading and backfilling; bond.* Upon completion of backfilling and grading required by the operating plan, the operator shall submit a report thereon, in duplicate, to the Mining Supervisor and request inspection for approval. Whenever it is determined by such inspection that the backfilling and grading, which may proceed in appropriate stages, has met the requirements of the operating plan, the Mining Supervisor shall recommend to the authorized officer of the Bureau of Land Management and/or other Federal surface managing agency release of an appropriate amount of the compliance bond for the area satisfactorily backfilled and graded.

(c) *Revegetation.* (1) The operator shall file a report, in duplicate, with the Mining Supervisor within 30 days after each planting is completed. The report shall:

(i) Identify the lease, permit, or license.

(ii) Show the type of planting or seeding, including mixtures and amounts.

(iii) Show the date of planting or seeding.

(iv) Identify or describe the planted or seeded lands.

(v) Describe fertilization and irrigation procedures, if any, and contain such other information as may be considered relevant.

(2) The Mining Supervisor and the authorized officer of the Federal surface managing agency shall, as soon as possible after each full growing season, inspect and evaluate the revegetated areas to determine whether satisfactory vegetative growth has been established, or whether additional revegetation efforts may be required.

(d) *Cessation or abandonment of operations.* (1) Not less than 30 days prior to cessation or abandonment of operations, the operator shall submit to the Mining Supervisor, in duplicate, a re-

port of his intention to cease or abandon operations, together with a statement of the exact number of acres affected by his operations, the extent and kind of reclamation accomplished, and a statement as to the structures and other facilities that are to be removed from or remain on the leased, permitted, or licensed lands.

(2) Upon receipt of such report, the Mining Supervisor and the authorized officer of the Federal surface managing agency shall make a joint inspection to determine whether operations have been completed in accordance with the approved operating plan. Where the operator has complied with all requirements of the lease, permit, or license and the regulations of this Part, the Mining Supervisor shall recommend to the authorized officer of the Bureau of Land Management and/or the Federal surface managing agency that the period of bonded liability be terminated.

(3) When the surface of lands in a lease, permit, or license is not owned by the United States, the Mining Supervisor shall consult the surface owner and obtain his recommendation as to whether the operation has been completed in accordance with the approved operating plan before recommending to the appropriate authorized officer that the period of liability of the bond be terminated.

(e) *Production and payments.* (1) *Lessees.* Lessees shall report, on the report form provided, within 30 days after expiration of the period covered by the report, all coal mined during each calendar quarter and the value basis on which royalty has been paid or will be paid. Except as provided by leases and permits issued under the regulations in 25 CFR Parts 171, 172, 173, and 174, the royalty for coal mined shall be paid prior to the end of the third month succeeding the extraction of the coal from the mine.

(2) *Licensees.* Licensees shall report all coal mined on a semi-annual basis on the report form provided.

(3) *Penalty.* If a lessee or permittee records or reports less than the true weight or value of coal mined, the Secretary may impose a penalty equal to double the amount of royalty due on the shortage, or the full value of the shortage. If, after warning, a lessee or permittee maintains false records or files false reports, a suit to cancel the lease may be instituted in addition to the imposition of penalties.

§ 211.63 Audits.

An audit of the lessee's accounts and books may be required annually, or at other such times as may be directed by the Mining Supervisor, by a qualified independent certified public accountant and at the expense of the lessee. The lessee shall furnish, free of cost, duplicate copies of such annual or other audits to the Mining Supervisor within 30 days after the completion of each auditing. Where such audits are required, the Mining Supervisor will specify the purpose and scope of the audit and the information which is to be verified or obtained.

# INSPECTION, ISSUANCE OF ORDERS, ENFORCEMENT OF ORDERS AND APPEALS § 211.70 Inspection of underground and surface conditions.

The operator shall provide access and means at all reasonable times for the Mining Supervisor to inspect or investigate the operation to determine whether it is in compliance with applicable laws, regulations, and orders; the terms and conditions of the lease, permit, or license; and the requirements of the exploration or mining plan.

## § 211.71 Notices, instructions, and orders.

(a) *Address of responsible party.* Before beginning operations, the operator shall inform the Mining Supervisor, in writing, of the operator's temporary and permanent post office address and the name and post office address of the superintendent, or designated agent, who will be in charge of the operations and who will act as the local representative of the operator. Thereafter, the Mining Supervisor shall be informed of each change of address.

(b) *Receipt of notices, instructions, and orders.* The operator shall be construed to have received all notices, instructions, and orders that are mailed to or posted at the mine or mine office, or mailed or handed to the superintendent, the mine foreman, the mine clerk, or higher officials connected with the mine or exploration site for transmittal to the operator or his local representative.

## § 211.72 Enforcement of orders.

(a) If the Mining Supervisor determines that an operator has failed to comply with the regulations in this Part, other applicable Departmental regulations, the terms and conditions of the lease, permit, or license, the requirements of an approved exploration or mining plan, or with the Mining Supervisor's orders or instructions, and such non-compliance does not threaten immediate, serious, and irreparable damage to the environment, the mine or the deposit being mined, or other valuable mineral deposits or other resources, the Mining Supervisor shall serve a notice of non-compliance upon the operator by delivery in person to him or his agent or by certified or registered mail addressed to the operator at his last known address. Failure of the operator to take action in accordance with the notice of non-compliance or to appeal to the Director pursuant to Part 290 of this Chapter shall be grounds for suspension of operations by the Mining Supervisor or his recommendation for the initiation of action for cancellation of the lease, permit, or license and forfeiture of the required bonds.

(b) The notice shall specify in what respect the operator has failed to comply with the provisions of applicable regulations, the terms and conditions of the lease, permit, or license, the requirements of an approved exploration or mining plan, or the orders and instructions of the Mining Supervisor, and shall specify the action which must be taken to cor-

rect the non-compliance and the time limits within which such action must be taken. A written report shall be submitted by the operator when a non-compliance has been corrected.

(c) If, in the judgment of the Mining Supervisor, an operator is conducting activities which fail to comply with the regulations, the terms and conditions of the lease, permit, or license, the requirements of approved exploration or mining plans or the Mining Supervisor's orders or instructions and which threaten immediate, serious, or irreparable damage to the environment, the mine or the deposit being mined, or other valuable ore-bearing mineral deposits or other resources, the Mining Supervisor shall order the immediate cessation of such activities, without prior notice of non-compliance, either in writing or orally with written confirmation. Such order may be appealed as provided in Part 290 of this Chapter. Compliance with such order shall not be suspended by reason of an appeal having been taken unless such suspension is authorized in writing by the Director or the Interior Board of Land Appeals (depending upon the official before whom the appeal is pending), and then only upon a determination that such suspension will not be detrimental to the lessor or adversely affect the public interest, or upon submission of a bond deemed adequate to indemnify the lessor from loss or damage.

## § 211.73 Appeals.

Orders or decisions issued under the regulations in this Part may be appealed as provided in Part 290 of this Chapter.

## § 211.74 Application of State laws, regulations, practices, and procedures as Federal law by Federal officers.

(a) Upon request of the Governor of any State, the Secretary shall promptly review the laws, regulations, administrative practices and procedures in effect, or due to come into effect, with respect to reclamation of lands disturbed by surface mining of coal, subject to the jurisdiction of that State, to determine whether such controls may appropriately be applied as Federal law to operations relating to coal owned by or subject to the jurisdiction of the United States. He shall take into account all relevant constructions and applications of such controls by competent State and local judicial and regulatory authorities, the desirability and practicability of uniformity between Federal and State controls, and the public policy of the State regarding the development of coal resources located therein.

(b) After such review, the Secretary may, by order, direct that all or part of such State laws, regulations, practices, and procedures shall be applied as Federal law by the authorized officers of the Department with respect to coal within that State owned by or subject to the jurisdiction of the United States, if he determines that such application would

(1) effectuate the purposes of this Part; (2) result in protection of environmental values which is at least as stringent as would otherwise occur under exclusive

application of Federal controls; and (3) would be consistent with the interest of the United States in the timely and orderly development of its coal resources.

(c) Pending issuance of an order under subsection (b) hereof, nothing in this Section shall be deemed or construed to stay or suspend any otherwise applicable Federal law, regulation, practice, or procedure. Any such order under subparagraph (b) shall specifically set forth the controls to be applied by Federal officers and may include specific finds of fact, or interpretations thereof, which shall be binding upon such officers. Any such order shall remain in effect until rescinded or modified by subsequent order of the Secretary, upon his own motion or at the request of a Governor.

## PART 216—OPERATING REGULATIONS GOVERNING THE MINING OF COAL IN ALASKA

Part 216 of Chapter II of this Title 30 of the Code of Federal Regulations is revoked.

## PART 23—SURFACE EXPLORATION, MINING AND RECLAMATION OF LANDS

### § 23.2 [Amended].

Section 23.2(b) of Part 23 of Title 43 of the Code of Federal Regulations is amended by the deletion of the period and the addition at the end thereof of the following language: "; nor minerals or operations subject to the provisions of 43 CFR Subpart 3041."

Dated: August 29, 1975.

KENT FRIZZELL,  
Acting Secretary.

### BLUE RIDGE PARKWAY, NORTH CAROLINA-VIRGINIA

#### Parking and Crossing Permits for Hunters

Notice is hereby given that pursuant to the authority contained in Section 3 of the Act of August 25, 1916 (39 Stat. 555; 16 U.S.C. 3); the Act of June 30, 1936 (49 Stat. 2041; 16 U.S.C. 460a-2 as amended); 245 DMI (27 F.R. 6395); National Park Service Order No. 66 (36 F.R. 21218), as amended; and Regional Director, Southeast Region Order No. 5 (37 F.R. 7721), it is proposed to amend § 7.34 of Title 36 of the Code of Federal Regulations as is set forth below.

The purpose of the amendment is to conform hunter parking and crossing permits issued by the Superintendent, Blue Ridge Parkway, with the applica-

ble hunting seasons of the States of Virginia and North Carolina.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed amendment to the Superintendent, Blue Ridge Parkway, Post Office Box 7606, Asheville, N.C. 28807 on or before October 7, 1975.

Section 7.34(d) is revised as set forth below:

## § 7.34 Blue Ridge Parkway.

(d) *Parking and crossing permits for hunters.* During the hunting seasons for game birds and game animals prescribed by the States of North Carolina and Virginia, hunters may, under permits issued by the Superintendent, park vehicles in designated parking areas, cross Parkway lands from and to their vehicles with dogs on leash, firearms unloaded with breach or chamber open, bows unstrung, and wildlife lawfully killed on lands adjacent to the Parkway. The loading or unloading of any hunter, dog, or game from any point within the Parkway boundaries other than at previously designated parking areas is prohibited.

GRANVILLE B. LILES,  
Superintendent,  
Blue Ridge Parkway.

## DEPARTMENT OF AGRICULTURE

### Animal and Plant Health Inspection Service

#### [9 CFR Part 113]

### VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS

#### Notice of Extension of Time To Submit Written Data, Views, or Arguments

Notice is hereby given in accordance with the provisions contained in section 553 of Title 5, United States Code, that the time for filing data, views, and arguments with respect to the proposed amendments to the regulations relating to viruses, serums, toxins, and analogous products in 9 CFR Part 113, as published in the FEDERAL REGISTER on June 17, 1975, (40 FR 15754) is extended to October 17, 1975. (37 Stat. 832-833; 21 U.S.C. 151-158).

Because of the newness of the requirements contained in the proposal, unexpected variations in the test results have occurred and additional time has been requested by industry to conduct more of the tests before making their comments.

Interested parties are invited to submit written data, views, or arguments regarding the proposed regulations to Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 828-A, Federal Building, Hyattsville, Maryland 20782. All comments re-

ceived on or before October 17, 1975, will be considered.

All written submissions made pursuant to this notice will be made available for public inspection at the above address, during regular hours of business (8 a.m. to 4:30 p.m., Monday to Friday, except holidays) in a manner convenient to the public business (7 CFR 1.27 (b)).

Done at Washington, D.C., this 2nd day of September, 1975.

PIERRE A. CHALOUX,  
Acting Deputy Administrator,  
Veterinary Services, Animal  
and Plant Health Inspection  
Service.

[FR Doc.75-23653 Filed 9-4-75; 8:45 am]

## [9 CFR Parts 317, 319]

### "COUNTRY," "COUNTRY STYLE," OR "DRY CURED" HAMS AND PORK SHOULDERS

#### Notice of Proposed Rulemaking

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that the Department of Agriculture, pursuant to the authority conferred by sections 7 and 21 of the Federal Meat Inspection Act, as amended (21 U.S.C. 607, 621), proposes to amend the Federal meat inspection regulations (9 CFR, Chapter III, Subchapter A) to establish a standard for products labeled "Country Ham," "Country Style Ham," "Country Pork Shoulder," "Country Style Pork Shoulder," "Dry Cured Ham," and "Dry Cured Pork Shoulder."

*Statement of Considerations:* On July 17, 1971, there appeared in the FEDERAL REGISTER (36 FR 13273) a notice of proposed rule making, pursuant to a request by a group of meat processors in North Carolina, to provide a standard for hams and pork shoulders labeled with the term "Country" or "Country Style."

A total of 145 comments were received. General agreement was indicated on the following points:

1. A standard should be established for hams and pork shoulders labeled as "Country" or "Country Style."
2. "Country" or "Country Style" hams and pork shoulders must be free of live trichinae and capable of being distributed without refrigeration.
3. The products should be dry cured; have a salt content of at least 4 percent throughout, and shrink a minimum of 18 percent from the weight of the raw uncured meat.

4. The term "Country" should be considered as generic when used in the labeling of hams and pork shoulders, referring to product characteristics rather than the geographic location where the product is produced.

A significant number of the comments recommended that the standard be flexible enough to permit processors to prepare products with variable characteristics of flavor and texture or other unique properties that were familiar to

and expected by their customers. This included provisions to permit product preparation under natural atmospheric conditions. There was a lack of unanimity, as shown by the numerous recommendations made, on the time period necessary for curing, salt equalization, and drying or "aging."

The majority of comments suggested that allowing an internal temperature in excess of 95° F. during the drying or "aging" period would not be consistent with the processing practices traditionally associated with hams and pork shoulders merchandised as "Country."

Based on the information, views, and arguments submitted on the proposal, as well as other information available to the Department on July 13, 1972, the Department published in the FEDERAL REGISTER (37 FR 13717-18) a second proposal.

Forty seven comments were received in response to the second proposed standard. The response was generally favorable except, again for the time period necessary for curing, salt equalization and aging; and the maximum temperature to which such products should be subjected during drying or aging.

In an effort to establish appropriate requirements, the Department has reviewed the development of these products. The Department's information indicates that years ago it became common practice for people, especially in the rural areas, to prepare meat during the colder months of the winter so that it would not spoil when the warmer months of spring and summer arrived. This preparation, or preserving procedure, involved the application of salt, and in some cases other things such as saltpeter, and the natural removal of moisture. The salt had time to penetrate and equalize in the meat during these colder months. With the warming temperatures of spring and summer the drying process continued and completed the preservation; killed any possible live trichinae; and contributed to the development of flavor, odor, texture, and visual characteristics which became associated with products prepared in this manner.

With the advent of mechanical refrigeration and other technological advances, the preservation of these types of products were no longer dependent on climatic conditions. However, the Department is interested in establishing minimum requirements that will produce a product having properties which will approximate those traditionally associated with country cured products. In so doing, the Department is neither attempting to forestall technological advances, nor trying to contribute to a rapid evolution in the methods used in preparing country cured products.

A review of 230 processing procedures for country cured products revealed that the majority of plants are using procedures which do not raise the product's temperature above 95° F., and require at least 70 days for hams, and 50 days for pork shoulders, for curing, salt equalization and drying (or aging). A shorter

time period can be used for pork shoulders because of the difference in shape and smaller size of the pork shoulders. These procedures, coupled with the usual applications of salt and cure and an 18 percent shrink from fresh weight, seem to produce a product which has characteristics approximating those traditionally expected, and which has gained wide recognition and acceptance as being country cured. Adopting such procedures, however, will not prohibit the production of products under natural climatic conditions and which are held for aging for much longer periods provided such preparation procedures assure a safe and wholesome finished product.

Some hams and pork shoulders are prepared using procedures that are very similar to those proposed herein for country cured products, but differ primarily in drying (aging time). Since such products could not be called "country" or "country style," the Department proposed that they could properly and accurately be called "dry cured hams" or "dry cured pork shoulders," as the case may be.

The proposed standard provides for the use of mixtures of salt and sodium (or potassium) nitrate and/or nitrite, and of salt alone. In curing mixtures containing nitrate or nitrite and salt, the usual application is 4 pounds of salt per 100 pounds of meat.

When salt is used alone, the Department believes the amount used should be based on obtaining a brine concentration of at least 10 percent or a water activity of not more than 0.92. Such a brine concentration can usually be attained by using 7 pounds of salt for each 100 pounds of meat. However, because of the effects of time and temperature during drying, 7 pounds may not be needed in each process. The brine concentration is determined in the finished product by analyzing for salt and moisture, and dividing the salt content by the total salt plus moisture content. Water activity (usually abbreviated as *A<sub>w</sub>*) refers to available water in product which microorganisms depend on for growth, since their nutrients must be in solution. The *A<sub>w</sub>* for fresh meat is 0.99 or above, as compared to an *A<sub>w</sub>* of 1.0 for pure water. The *A<sub>w</sub>* of 0.99 for meat is at or near the optimum for many varieties of microorganisms, although many can grow at a lower *A<sub>w</sub>*. As the *A<sub>w</sub>* decreases the conditions become less favorable for microbial growth.

Therefore, based on the comments, views, data and other information considered, the Department is proposing to amend the federal meat inspection regulations to provide standards of composition for country cured and dry cured products as set forth herein.

1. Subpart D of Part 319 would be amended by adding thereto a new § 319.106 to read:

§ 319.106 "Country ham," "country style ham," "dry cured ham," "country pork shoulder," "country style pork shoulder," and "dry cured pork shoulder."

(a) "Country Ham," "Country Style Ham," or "Dry Cured Ham" and "Country

Style Pork Shoulder," "Country Style Pork Shoulder," or "Dry Cured Pork Shoulder" are the uncooked, cured, dried, smoked or unsmoked meat food products made respectively from a single piece of meat conforming to the definition of "ham," as specified in § 317.8(b) (13) of this subchapter, or from a single piece of meat from a pork shoulder. They are prepared in accordance with paragraph (b) of this section by the dry application of salt (NaCl), or by the dry application of salt (NaCl) and one or more of the optional ingredients as specified in paragraph (c) of this section. They may not be injected with nor placed in curing solutions.

(b) (1) The entire exterior of the ham or pork shoulder shall be coated by the dry application of salt or by the dry application of salt combined with other ingredients as permitted in paragraph (c) of this section. Additional salt or salt mixed with other permitted ingredients, may be reapplied to the product as necessary to insure complete penetration of cure.

(2) When sodium (or potassium) nitrate or nitrite, or both, is used, the application of salt shall be in sufficient quantity to insure that the finished product has an internal salt content of at least 4 percent.

(3) When sodium (or potassium) nitrate or nitrite is not used, the application of salt shall be in sufficient quantity to insure that the finished product has a brine concentration of not less than 10 percent or a water activity of not more than 0.92.

(4) For hams or pork shoulders labeled "country" or "country style," the combined period for curing and salt equalization shall not be less than 45 days for hams, and shall not be less than 25 days for pork shoulders; and the total time for curing, salt equalization, and drying shall not be less than 70 days for hams, and shall not be less than 50 days for pork shoulders. If the product is dried under controlled atmospheric conditions during the drying period, the internal temperature of the product must not exceed 95° F.

(5) For hams or pork shoulders labeled "dry cured," the combined period for curing and salt equalization shall not be less than 45 days for hams, and shall not be less than 25 days for pork shoulders; and the total time for curing, salt equalization, and drying shall not be less than 55 days for hams, and shall not be less than 40 days for pork shoulders.

(6) The weight of the finished hams and pork shoulders covered in this section shall be at least 18 percent less than the fresh weight.

(c) The optional ingredients for products covered in this section are:

(1) Sucrose, dextrose, corn syrup solids, honey, pepper, spices, flavorings and other ingredients as approved by the Administrator in specific cases.

(2) Sodium or potassium nitrate and sodium or potassium nitrite used as prescribed in this section and in accordance with § 318.7(c) (4) of this subchapter.

(d) The product must be treated for the destruction of possible live trichinae in accordance with section 318.10 of the regulations in this subchapter.

(e) The method of preparation must result in product capable of being distributed without refrigeration.

#### § 317.8 [Amended]

2. In § 317.8(b), the following provision would be added at the end of the first sentence in subparagraph (2): "And Provided further, That the provisions of this subparagraph shall not apply to products prepared in accordance with § 319.106 of this subchapter."

Any person wishing to submit written data, views, or arguments concerning the proposed amendment may do so by filing them, in duplicate, with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, or if the material is deemed to be confidential, with the Product Standards Staff, Technical Services, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, by November 4, 1975.

Any person desiring an opportunity for oral presentation of views should address such request to the Staff identified in the preceding paragraph, so that arrangements may be made for such views to be presented prior to the date specified in the preceding paragraph. A record will be made of all views presented orally.

All written submissions and records of oral views made pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk during regular hours of business, unless the person makes the submission to the Staff identified in the preceding paragraph and requests that it be held confidential. A determination will be made whether a proper showing in support of the request has been made on grounds that its disclosure could adversely affect any person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., on: August 28, 1975.

F. J. MULHERN,  
Administrator, Animal and Plant  
Health Inspection Service.

[FR Doc. 75-23589 Filed 9-4-75; 8:45 am]

### DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

#### Office of the Secretary

[45 CFR 5b]

#### PRIVACY ACT

#### Notice of Proposed Exemptions

Notice is hereby given that the Secretary proposes exemptions as provided

under subsections (j) and (k) of the Privacy Act, Public Law 93-579, 5 U.S.C. 552a. These exemptions are proposed in addition to those exemptions proposed in § 5b.9(b) of the Secretary's proposed regulations, implementing the Privacy Act, published in the FEDERAL REGISTER on August 14, 1975 (40 FR 34129).

The "Maryland Psychiatric Case Register" (hereinafter "Register") is a system of records maintained by the National Institute of Mental Health (hereinafter NIMH) proposed to be exempted, as provided in subsection (k) (4) of the Act, from subsections (c) (3), (d), (e) (1), (e) (4) (G), (H) and (I), and (f) of the Act.

The "Register" was established in 1961 as a part of a collaborative and ongoing effort between NIMH and the Maryland Department of Mental Hygiene for the purpose of research and study in the area of mental health. Included in this effort is a survey, initiated by NIMH, relating to emotionally disturbed or mentally retarded Maryland residents who received services in Maryland or elsewhere from psychiatrists, psychiatric facilities, and vocational rehabilitation and other agencies. NIMH engaged in this joint effort under the authority of section 301 of the Public Health Service Act (42 U.S.C. 241 as amended).

To assure the full cooperation of the Maryland authorities who would be the voluntary sources of information included in the "Register" and in anticipation of the enactment of a new section to Article 35 of the Annotated Code of Maryland, NIMH entered into an agreement under the authority of 42 CFR 1.103(a) with the Maryland Department of Mental Hygiene in July 1962. This agreement provided an assurance to every person or agency furnishing information for "Register" purposes that all individually identifiable information supplied would be held confidential; would be used solely by personnel engaged in and only for the purposes of the research project, and would not be disclosed to persons not participating in that project. The new section (§ 101) to Article 35 of the Annotated Code of Maryland was enacted into law in June 1963. It requires the State Board of Health and Mental Hygiene and its authorized agents to use individually identifiable records within its control only for the purposes of research and study for which assembled or procured. The section also includes criminal penalties should any person give away or otherwise disclose any individually identifiable information to persons not engaged in research and study for the Board.

It is on the basis of Article 35, § 101, Annotated Code of Maryland (1957 Edition and 1962 Supplement as amended) and in light of the agreement between NIMH and the Maryland Department of Mental Hygiene, that the Secretary now proposes a (k) (4) exemption for the "Maryland Psychiatric Case Register." The "Investigatory Material compiled for Law Enforcement Purposes System, HEW," is a system of records proposed to be exempted, as provided in subsection

(j) (2) of the Act, from all subsections of the Act except subsections (b), (c) (1) and (2), (e) (4) (A) through (F), (e) (6), (7), (9), (10), and (11), and (I). This system is maintained for criminal investigation purposes by the Division of Investigations in the Agency's Office of Investigations and Security. Records maintained in the system pertain to employees, former employees, grantees, subgrantees, contractors, subcontractors, and others doing business with the Department who have or allegedly have violated Federal and/or State criminal laws.

The Division of Investigations performs as its principal function criminal investigations for the purpose of enforcement of criminal laws. Information which it compiles and maintains for this purpose includes reports of informants and investigators associated with an identifiable individual.

The "General Criminal Investigations File HEW SSA," the "Criminal Investigations File HEW SSA," and the "Program Integrity Case Files HEW SSA," maintained by various offices and bureaus in the Social Security Administration, are systems of records proposed to be exempted as provided in (k) (2) of the Act from subsections (c) (3), (d), (e) (1), (e) (4) (G), (H), and (I), and (f) of the Act. Information contained in these systems includes investigatory materials on alleged violators of Federal and State criminal laws on Social Security Administration property and on alleged violators of the criminal provisions of the Social Security and Federal Coal Mine Health and Safety Acts.

The (j) (2) and (k) (2) exemptions are proposed for these systems to assure the orderly and unbiased conduct of law enforcement investigations. Investigatory efforts for law enforcement purposes would be severely impaired if the subjects of these investigations were aware that their activities were being observed. If these subjects were given access to the investigatory materials in these systems of records, they may have ample opportunity to attempt to thwart the investigation or escape prosecution.

Also proposed to be exempted from subsections (c) (3), (d), (e) (1), (e) (4) (G), (H) and (I), and (f) of the Act are the "Investigatory Material Compiled for Security and Suitability Purposes System, HEW," maintained by the Division of Security of the Agency's Office of Investigations and Security, and the "Suitability for Employment Records, HEW," a system maintained by the Agency's Personnel Offices. As provided in subsection (k) (5) of the Act these systems are proposed to be exempted from these subsections to the extent that access to its records or portions of its records would reveal a confidential source or to the extent that disclosure of its records or a portion of its records is otherwise prohibited by law. Information contained in these systems includes information pertaining to the suitability, eligibility, or qualifications of Agency applicants, employees, former employees, and others doing business with the Agency.

The (k) (5) exemption is proposed for these systems to assure that efforts to obtain accurate and objective information relating to a person's suitability and eligibility for Agency employment or business will not be frustrated. Many sources of this type of information will be reluctant to provide a full and objective appraisal of a person's suitability or eligibility unless they can be assured that their identity will not be revealed. Additionally much of the information presently contained in these systems of records was obtained under an implied promise that the identity of the source would be held in confidence. No useful public purpose would be served if these past confidences were violated or if the Agency was not in a position to expressly guarantee that the identity of future sources would be treated confidentially if the giving of such appraisals were conditioned upon a promise that the identity of its source would not be revealed.

As provided in subsections (j) (2), (k) (2) and (5) of the Act, the "Clinical Investigator Records, HEW/FDA," the "Regulated Industry Employee Enforcement Records, HEW/FDA," and the "employee, consultant, contractor security and investigative records," systems of records maintained by the Food and Drug Administration, are proposed to be exempted from subsections (c) (3), (d) (1) through (4) and (f), (e) (4) (G) and (H), and (e) (3) of the Act. The Commissioner of Food and Drugs is proposing regulations to implement the Privacy Act as it will affect systems of records maintained by the Food and Drug Administration. Also included in these proposed regulations are those systems of records maintained by the Food and Drug Administration proposed to be exempted in this notice. The proposed Food and Drug Administration regulations should be consulted for a full statement of the rationale and justification for the exemptions.

Interested persons and organizations are invited to submit written comments on these proposed exemptions to the Director, Fair Information Practices Staff, Department of Health, Education, and Welfare, 330 Independence Avenue, S.W., Washington, D.C. 20201.

All comments received on or before September 17, 1975 will be considered by the Secretary before taking action on the proposed exemptions, and will be available for public inspection in Room 4513, at the above address.

These exemptions are proposed under the authority of subsections (j) and (k) of 5 U.S.C. § 552a and 5 U.S.C. § 301.

In consideration of the foregoing, it is proposed to amend Part 5b of 45 CFR Subtitle A (40 FR 34129) as follows:

#### PART 5b—PRIVACY ACT REGULATION

1. By adding paragraphs (b) (2) (iv), (3), (4), (5), (6) and (c) as follows:

## PROPOSED RULES

(iv) The "Maryland Psychiatric Case Register," a system of records which includes the "Social Security Earnings Study," the "Washington County (Maryland) Census Project," the "Division of Special Services of the Baltimore City Public School System," and the "Family Services (Agencies) of Prince Georges and Montgomery Counties, Maryland," authorized under section 301 of the Public Health Service Act (42 U.S.C. 241 as amended), and required under Article 35, § 101, Annotated Code of Maryland (1957 Edition and 1962 Supplement as amended) to be maintained and used by the National Institute of Mental Health solely as statistical records.

(3) As provided in subsection (j) (2) of the Act, the "Investigatory Material Compiled for Law Enforcement Purposes System, HEW," a system of records, maintained by the Division of Investigation of the Agency's Office of Investigations and Security is exempt from all subsections of the Act except subsections (b), (c) (1) and (2), (e) (4) (A) through (F), (e) (6), (7), (9), (10), and (11), and (i) which govern conditions of disclosing records contained in a system of records and criminal penalties for the willful and knowing disclosure of records which are prohibited from disclosure under 552a; and which require each agency, with respect to each system of records under its control, to: make and keep an accounting for all disclosures except for disclosures made under subsections (b) (1), (2), and (7) of the Act; annually published the existence and character of the systems of records; assure that records are accurate and relevant for agency purposes prior to disseminating any record about an individual; maintain no record describing how an individual exercises First Amendment rights unless expressly authorized by statute or by the individual about whom the record is maintained or unless pertinent to and within the scope of an authorized law enforcement activity; establish rules of conduct for persons maintaining systems of records and administrative, technical and physical safeguards to insure the security and confidentiality of records; and, publish in the FEDERAL REGISTER notice of new or intended uses of information in a system at least 30 days prior to publication of a routine use for public comment. This system of records is maintained for the purpose of criminal investigation and includes reports of informants and investigators associated with an identifiable individual under the authority of section 535(b) of title 28, United States Code and title 18, United States Code.

(4) As provided in subsection (k) (2) of the Act and except where access is required under that subsection, and paragraph (c) (2) of this section, the following systems of records are exempt from subsections (c) (3), (d), (e) (1), (e) (4) (G), (H) and (I), and (f) of the Act which require each agency, with respect to systems of records, under its control, to: make accountings of disclosures available to individuals named in records at their request; provide ac-

cess to records; maintain in its records only such information about an individual which is relevant and necessary to accomplish an agency purpose; annually publish access procedures and categories of sources of records in the system, and the agency procedures whereby an individual can be notified at his request if the system of records contains a record pertaining to him; and to promulgate rules establishing procedures whereby individuals can be notified of information in systems of records pertaining to the individual, requirements for verification of the identity of individuals requesting access to records, for reviewing requests for amending an individual's record, and procedures for establishing fees.

(i) The "General Criminal Investigation Files HEW SSA," a system of records, maintained by the Office of Management and Administration, SSA containing information on alleged violators of Federal and State criminal laws on Social Security Administration property maintained under the authority of § 535 of title 28, United States Code, to the extent that the records are investigatory material compiled for law enforcement in anticipation of criminal proceedings.

(ii) The "Criminal Investigations File HEW SSA," a system of records maintained by the Office of Management and Administration, SSA maintained under the authority of §§ 206, 208, 221, 222, 1106, 1107, 1631, 1632, 1633, 1816, 1842, 1872, 1874, 1876, and 1877 of the Social Security Act (42 U.S.C. 406, 408, 421, 422, 1306, 1307, 1383, 1383a, 1395h, 1395u, 1395kk, 1395mm, 1395nn), and §§ 413 and 427 of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 923 and 937) containing information on alleged violators of the criminal provisions of the Social Security Act and the Federal Coal Mine Health and Safety Act to the extent that the records are investigatory materials compiled for law enforcement purposes or investigatory materials compiled in anticipation of criminal law enforcement proceedings.

(iii) The "Program Integrity Case Files HEW SSA," a system of records maintained by the Bureau of Retirement and Survivors Insurance, Bureau of Disability Insurance, Bureau of Health Insurance, Health Insurance Regional offices, and the Office of Management and Administration, SSA containing information on alleged violators of the criminal provisions of the Social Security Act and the Federal Coal Mine Health and Safety Act and maintained for the purpose of determining whether investigation of alleged violators of the criminal provisions of the Social Security Act and the Federal Coal Mine Health and Safety Act is warranted. This system of records is maintained under the authority of §§ 206, 208, 221, 222, 1106, 1107, 1631, 1632, 1633, 1816, 1842, 1872, 1874, 1876, and 1877 of the Social Security Act (42 U.S.C. 406, 408, 421, 422, 1306, 1307, 1383, 1383a, 1395h, 1395u, 1395kk, 1395mm, 1395nn), and §§ 413 and 427 of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. 923 and 937).

(5) As provided in subsection (k) (5) of the Act and except to the extent that

access is required under that subsection and paragraph (c) (2) of this section, the following systems of records are exempt from subsections (c) (3), (d), (e) (1), (e) (4) (G), (H) and (I), and (f) of the Act which require each agency, with respect to each system of records under its control, to: make accountings of disclosures available to individuals named in records at their request; provide access to records; maintain in its records only such information about an individual which is relevant and necessary to accomplish an agency purpose; annually publish access procedures and categories of sources of records in the system, and the agency procedures whereby an individual can be notified at his request if the system of records contains a record pertaining to him; and to promulgate rules establishing procedures whereby individuals can be notified of information in systems of records pertaining to the individual, requirements for verification of the identity of individuals requesting access to records, for reviewing requests for amending an individual's records, and procedures for establishing fees.

(i) The "Investigatory Material Compiled for Security and Suitability Purposes System, HEW," a system of records, maintained by the Division of Security of the Agency's Office of Investigations and Security under the authority of § 7302 of title 5, United States Code and Executive Orders 10450 and 11652 containing investigatory material compiled for the purpose of determining the suitability, eligibility, or qualifications of Agency applicants, employees, former employees, and others doing business with the Agency.

(ii) The "Suitability for Employment Records, HEW," a system of records, maintained by the Agency's Personnel Offices under the authority of §§ 3301, 3302, 7301 of title 5, United States Code and Executive Orders 10577 and 11222 containing information pertaining to an agency employee's suitability for employment. This system includes information relating to an employee's character, reputation, and fitness, and includes letters of reference, responses to pre-employment inquiries, National Agency Checks and Inquiries material received from the Civil Service Commission relating to non-sensitive positions, qualifications and character investigations.

(6) As provided in subsections (j) (2), (k) (2), and (5) of the Act, the "Clinical Investigator Records, HEW/FDA," the "Regulated Industry Employee Enforcement Records, HEW/FDA," and the "employee, consultant, and contractor security and investigative records," systems of records maintained by the Food and Drug Administration, are exempt from the following provisions of the Act:

(i) 552a(c) (3) requiring that an individual be provided with the accounting of disclosures of records about himself; and,

(ii) 552a(d) (1) through (4) and (f) requiring procedures for individuals to be given notification of and access to records about themselves, and to be allowed to challenge the accuracy, relevance, timeliness, and completeness of

such records except where access is required under subsection (k) (2) of the Act and to the extent that access is required under subsection (k) (5) of the Act, and paragraph (c) (2) of this section; and,

(iii) 552(e) (4) (G) and (H) regarding the inclusion in the notice for the system of information about agency procedures for notification, access, and contest; and,

(iv) 552a(e) (3) requiring that individuals asked to supply information be provided a form outlining the authority for the request, the purposes for which the information will be used, the routine uses in the notice of a Food and Drug Administration record system notice, and the consequences to the individual of not providing the information, but only with respect to information compiled by the Food and Drug Administration in a criminal law enforcement investigation where the conduct of the investigation would be prejudiced by such procedures.

(c) Access to Exempted Systems. (1) Where a system of records is exempt under paragraph (b) of this section, an individual may request notification of whether a system of records about him exists and may request access to any record about himself in that system.

(2) Except as provided in paragraph (c) (3) of this section, an individual making a request in accordance with paragraph (c) (1) of this section shall be given access to any record if:

(i) The record is in a system of records which is exempt under subsection (k) (2) of the Act and the individual has been denied any right, privilege, or benefit to which he would otherwise be entitled by Federal law, or for which he would otherwise be eligible, as a result of the maintenance of that record; or,

(ii) The record is in a system of records which is exempt under subsection (k) (5) of the Act.

(3) An individual shall not be given access to any record or any portion of a record, as provided in paragraph (c) (2) of this section:

(i) When disclosure would reveal the identity of a source who furnished information contained in the record to the agency under an express promise, and prior to September 27, 1975 an implied promise, that his identity would be held in confidence; or,

(ii) Where public disclosure of the record or a portion of the record is otherwise prohibited by law. Individuals requesting records that would reveal a confidential source shall be informed in a general way that an item of information exists in the record which would reveal the identity of that source.

Dated: August 29, 1975.

DAVID MATHEWS,  
Secretary.

## PROPOSED RULES

**Social and Rehabilitation Service**  
[45 CFR Part 233]  
**DEFINITION OF UNEMPLOYED FATHERS**

**Extension of Comment Period**

This notice extends the period for comments provided in the notice published August 8, 1975 (40 FR 33461) proposing requirements for States to have a definition of "unemployed father" that includes fathers who are unemployed because of conduct or circumstances that disqualify them for unemployment compensation under State law and exclude those who are disqualified for unemployment compensation under State law because of the nature of their involvement in a labor dispute. The time for comment is hereby extended from September 8, 1975 to October 8, 1975.

Prior to the adoption of the proposed amended regulation, consideration will be given to any comments, suggestions, or objections thereto which are received in writing by the Acting Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, P.O. Box 2372, Washington, D.C. 20013, on or before October 8, 1975. Comments will be available for public inspection in Room 5225 of the Department's offices at 330 C Street SW., Washington, D.C., beginning approximately two weeks after date of publication, on Monday thru Friday of each week from 8:30 to 5 p.m. (area code 202-245-0950).

**DEPARTMENT OF  
TRANSPORTATION**

**Federal Aviation Administration**

**[14 CFR Part 39]**

[Docket No. 75-EA-51]

**MARTIN 404**

**Proposed Airworthiness Directive**

The Federal Aviation Administration proposes to amend § 39.13 of Part 39 of the Federal Aviation Regulations to include a new airworthiness directive applicable to Martin 404 aircraft.

Copies of these aircraft now in operation have accumulated from 22,000 to 55,000 hours, and Maintenance and De-

ficiency files reflect that many of them have developed corrosion in various areas. This condition caused the Federal Aviation Administration to issue AC 20-7L which recommends periodic inspection to detect corrosion. On at least 15% of the Martin 404 fleet some degree of corrosion has been found in wing spar splices at station 187.

Since this indicates that a like condition may exist or develop in other aircraft of the Martin 404 fleet, it is proposed to issue an airworthiness directive which will require periodic inspections for corrosion of wing spar splice joints at wing station 187, and appropriate corrective action.

Interested parties are invited to participate in the making of the proposed rule by submitting written data or views. Communications should identify the docket number and be submitted in duplicate to the Office of Regional Counsel, FAA, Federal Bldg., John F. Kennedy International Airport, Jamaica, New York 11430.

All communications received on or before October 7, 1975 will be considered before taking action upon the proposed rule. The proposals contained in this Notice may be changed in the light of comments received. All comments will be available in the Office of Regional Counsel for examination by interested parties.

In consideration of the foregoing, it is proposed to issue a new airworthiness directive as hereinafter set forth:

**MARTIN.** Applies to all Martin 404 Aircraft Certified in all categories.

Compliance required as indicated.

1. Affects the wing spar chord splice joints at wing station 187.

a. Within the next three months after the effective date of this AD, unless accomplished within five years preceding the effective date, remove the left and right outer wings and visually inspect the wing spar splice joints at wing station 187 for corrosion.

b. Repeat the inspection specified in paragraph (a) at intervals not to exceed 10,000 hours' time in service or five years, whichever comes first, for left wings, and 12,000 hours' time in service or six years, whichever comes first, for right wings.

c. For airplanes that have an FAA approved alteration installed at the wing spar chord splice joints at WS 187 for corrosion control, in lieu of the foregoing accomplish the following:

1. Externally inspect the left and right wing panels at wing station 187 within the next 10,000 hours' time in service or five years, whichever comes first, by:

(i) Stripping all sealant from the joint and performing a complete dye-check of the alteration and spars.

(ii) Removing two bolts from each splice and inspecting the bolts visually and the holes by borescope for corrosion. If corrosion is evident, remove both wing panels and inspect the wing structure.

1. After another 10,000 hours' time in service or five years, whichever comes first, remove both wings at wing station 187 and accomplish complete corrosion inspection of the wing structure.

## FEDERAL TRADE COMMISSION

### [16 CFR Part 454]

#### ADVERTISING AND LABELING OF PROTEIN SUPPLEMENTS

##### Proposed Trade Regulation

Notice is hereby given that the Federal Trade Commission, pursuant to the Federal Trade Commission Act, as amended, 15 U.S.C. 41, *et seq.*, the provisions of Part I, Subpart B of the Commission's procedures and rules of practice, 16 CFR 1.7, *et seq.*, and Section 553 of Subchapter II, Chapter 5, Title 5, U.S. Code (Administrative Procedure) has initiated a proceeding for the promulgation of a Trade Regulation Rule concerning the Advertising and Labeling of Protein Supplements.

Accordingly, the Commission has proposed the following Trade Regulation Rule and would amend Subchapter D, Trade Regulation Rules, Chapter 1 of 16 CFR by adding a new Part 454 as follows:

#### PART 454—ADVERTISING AND LABELING OF PROTEIN SUPPLEMENTS

- Sec.
- 454.1 Preamble.
- Subpart I—General
- 454.2 Definitions.
- 454.3 Methods of calculation.
- 454.4 Form, content and method of making disclosures.
- 454.5 Inconsistent or derogating representations.
- 454.6 Interpretation and conformity with related regulations.
- Subpart II—Affirmative Disclosures
- 454.7 Protein content disclosure.
- 454.8 Health hazard disclosures.
- 454.9 Protein need disclosure.
- Subpart III—Voluntary Claims
- 454.10 Use of protein supplements by infants or young children.
- 454.11 Quick energy representations.
- 454.12 Energy and calorie representations.
- 454.13 Athletic or physical activity representations.
- 454.14 Aging, senility or therapeutic representations.
- 454.15 Weight reduction representations.

- Sec.
- 454.16 Emphatic nutrition representations.
- 454.17 Protein comparison representations.
- 454.18 Protein need representations.

Authority: 38 Stat. 717, as amended, 16 U.S.C. 41, *et seq.*

#### § 454.1 Preamble.

In connection with the advertising and labeling of protein supplements in or affecting commerce, as "commerce" is defined in the Federal Trade Commission Act, for the purpose of inducing or which is likely to induce, directly or indirectly, the purchase of such products, it is an unfair method of competition and an unfair or deceptive act or practice within the meaning of Section 5 and 12 of that Act to fail to comply with the following provisions of the Trade Regulation Rule in this part.

#### Subpart I—General

##### § 454.2 Definitions.

For the purposes of this part, the following definitions shall apply:

(a) "Advertisement" or "advertising". (1) Any written or verbal statement, illustration, or depiction, which is designed to effect the sale of any protein supplement, or create interest in the purchase of such product, whether the same appears in a newspaper, magazine, leaflet, circular, mailer, book insert, catalog, sales promotional material, other periodical literature, billboard, public transit card, or in a radio or television broadcast or in any other medium.

(2) For purposes of this part, the terms "advertisement" or "advertising" do not include: (i) Labeling or (ii) point-of-purchase advertising or any promotional material developed and/or disseminated by manufacturers or distributors of protein supplements, the content of which refers solely to the price of the advertised protein supplement and which does not contain representations regarding nutrition, nourishment, or other nutrition claims relative to the product.

(b) "Label" and "labeling". (1) "Label" means a display of written, printed, or graphic matter upon the immediate container of any article, or any such matter affixed to or appearing upon a package containing any consumer commodity.

(2) "Labeling" includes all written, printed, or graphic matter accompanying an article, and specifically includes, although it is not limited to, labels.

(c) "Food". Any article used for food or drink by humans, including chewing gum. However, it does not include: (1) Foods represented for use solely under medical supervision to meet nutritional requirements under specific medical conditions and which, if advertised, are advertised only in professional medical journals or publications.

(2) Alcoholic beverages subject to the provisions of the Federal Alcohol Administration Act of 1935 (27 U.S.C. § 201, *et seq.*).

(d) "Protein supplement". For purposes of this part protein supplement is

any food represented, marketed or intended for use as a protein supplement.

(e) "Clearly and conspicuously disclose". (1) Disclosing in a manner which can be easily understood (in the case of television and print advertising, also easily seen and read) by the casual observer, listener, or reader, among members of the public, and which, for advertising in any medium, conforms in all relevant respects (except where otherwise provided in this part) to the Commission's Statement of Enforcement Policy of October 21, 1970. (See Vol. 2, CCH Trade Regulation Reporter § 7569:09.)

(2) Each disclosure shall be printed in the same language principally employed in the advertising or labeling. (See Commission's Statement of Policy of July 24, 1973, as amended, 38 FR 21494-95.) Such disclosures in any medium must in no way be obscured by background contrast, obscuring designs or vignettes, or crowding with any other written, printed, or graphic or audio-visual matter.

(f) "Representation" or "represent"; guarantees as representations. Any direct or indirect statement, suggestion, or implication in advertising or labeling, including but not limited to one which is made orally, in writing, pictorially, or by any other audio or visual means, or by any combination thereof. Any statement in the form of a guarantee of the attributes or effects of any protein supplement is a representation that the product possesses those attributes or will produce those effects.

(g) "Calorie". One kilocalorie.

(h) "United States Recommended Daily Allowance" (U.S. RDA). The U.S. RDA of the protein in a protein supplement is 45 grams if the protein efficiency ratio (PER) of the total protein in the product is equal to or greater than that of casein, and 65 grams if the PER of the total protein in the product is less than that of casein.

##### § 454.3 Methods of calculation.

(a) "Protein Efficiency Ratio" (PER). A measure of protein quality, as determined by the method prescribed in § 43.183 of the *Official Methods of Analysis of the Association of Analytical Chemists*, 12th edition, 1975.

(b) *Percentage of protein*. The percentage of protein by weight in the protein supplement in the form sold for consumer use.

(c) *Measurement of "protein" or "protein content"*. For purposes of this part, protein or protein content may be calculated on the basis of the product of the factor 6.25 times the nitrogen content of the food as determined by the appropriate method of analysis prescribed in the *Official Methods of Analysis of the Association of Analytical Chemists*, 12th edition, 1975, unless otherwise specified by the AOAC or when the official Food and Drug Administration procedure for a specific food requires another factor.

##### § 454.4 Form, content and method of making disclosures.

(a) *Advertising disclosures*. Any disclosure required or described by any pro-

vision of this part which is applied to advertising as defined in this part shall be made (1) clearly and conspicuously; (2) in accordance with the provisions of 16 CFR 437.2; and (3) as may be specifically prescribed in a section of this part dealing with that particular disclosure.

(b) *Labeling disclosures*. Any disclosure required or described by any provision of this part to be made in labeling shall be made (1) clearly and conspicuously; and (2) as may be specifically prescribed in the section of this part dealing with that particular disclosure; but in no event shall the smallest letter of such a disclosure be smaller than one-sixteenth of an inch in height except as may be otherwise permitted under § 454.4(c).

(c) *Alternative forms of disclosure*. For unusual advertising or labeling materials or material too small to reasonably comply with the requirements of this section, the Commission may establish acceptable alternative forms of making the required disclosures. A petition formally requesting permission to utilize an alternative form of disclosure may be submitted to the Secretary for due consideration by the Commission.

##### § 454.5 Inconsistent or derogating representations.

No representation shall be made which, directly or by implication, contradicts, negates or is inconsistent with any disclosure required or described by any provision of this part, or in any way obscures, mitigates or derogates from the intent or meaning of such disclosure.

##### § 454.6 Interpretation and conformity with related regulations.

(a) The advertising of all products covered by this part shall comply with the requirements of 16 CFR Part 437. No provision in this part shall be construed or interpreted to exempt any advertisement or advertising from the provisions of 16 CFR Part 437.

(b) The labeling of all products covered by this part shall comply with the requirements of 21 CFR 1.17 and any other applicable FDA regulations. No provision in this part shall be construed or interpreted to exempt any labeling from the provisions of 21 CFR 1.17.

(c) This part shall not be interpreted to contradict or conflict with the provisions of 16 CFR Part 437 or of 21 CFR 1.17.

(d) If any provision of this part cannot be interpreted consistently with the provisions of 16 CFR Part 437 or 21 CFR 1.17, then this part shall govern, but only the conflicting portion of 16 CFR Part 437 or 21 CFR 1.17 shall be inapplicable.

#### Subpart II—Affirmative Disclosures

##### § 454.7 Protein content disclosure.

The advertising and labeling of any protein supplement shall disclose clearly and conspicuously, in immediate conjunction with or within the principal display of the product name, the percentage of protein in the product and the major source(s) of protein in the product.

##### § 454.8 Health hazard disclosures.

The following disclosure shall be included verbatim clearly and conspicuously both on the label and in labeling for any protein supplement which derives 50 percent or more of its calories from the protein content of the food in the form in which it is sold for consumer use:

#### WARNING

Serious illness can result from improper use of this product: Not to be used for feeding of infants (birth to 1 year of age) or by persons with chronic or acute liver or kidney disease, except under medical supervision. Use of this product by children 1 to 3 years of age increases their need for liquids other than milk.

##### § 454.9 Protein need disclosure.

The following disclosure shall be included verbatim clearly and conspicuously in advertising, on the label and in labeling for any protein supplement:

Protein supplements are unnecessary for most Americans. The U.S. Public Health Service has determined that the daily diet of most Americans provides adequate protein.

#### Subpart III—Voluntary Claims

##### § 454.10 Use of protein supplements by infants or young children.

(a) No representation shall be made, directly or by implication, that:

(1) any protein supplement is to be used, without medical supervision or authorization, as any part of the diet of infants from birth to one year of age, or

(2) any protein supplement is to be used by children one to three years of age unless the following disclosure is included verbatim clearly and conspicuously in immediate conjunction with each such representation:

Use of this product by children 1-3 years of age increases their need for liquids other than milk.

(b) This section, however, shall not apply to any protein supplement which derives less than 50 percent of its calories from the protein content of the food in the form in which it is sold for consumer use.

##### § 454.11 Quick energy representations.

No representation shall be made, directly or by implication, that protein produces or provides quick energy or promptly remedies fatigue or lassitude.

##### § 454.12 Energy and calorie representations.

No representation shall be made, directly or by implication, that:

(a) Any protein supplement or protein itself contains, produces, provides, enhances, or is a source of "energy" or "food energy," unless it is clearly and conspicuously disclosed in immediate conjunction with each such representation, that "energy" or "food energy" is supplied by calories, as well as the number of calories contained in a stated serving of the protein supplement;

(b) Consumption of any protein supplement or protein, by itself, will produce or provide health, general vigor, sustained energy or alertness, or that the

energy from calories, by itself, will produce or provide strength, endurance, intellectual performance, or the prevention or relief of fatigue, or

(c) Consumption of any protein supplement or protein itself in any way enhances or contributes to a person's vigor, energy, alertness, strength or endurance, unless it is clearly and conspicuously disclosed, in immediate conjunction with each such representation:

(1) That such vigor, energy, alertness, strength or endurance is enhanced by and depends, in part, upon the calories in the protein supplement or in protein itself, and

(2) The number of calories contained in a stated serving of the protein supplement.

##### § 454.13 Athletic or physical activity representations.

No representation shall be made, directly or by implication, that:

(a) Protein is used or depleted in greater than normal amounts by strenuous physical activity or that physical activity of any kind, particularly by athletes, children or busy individuals, significantly increases the body's need for protein; or

(b) Use of a protein supplement can improve or increase the level of performance of athletics or strenuous physical labor by increasing strength, endurance, vitality, vigor or muscle tissue unless the following disclosure is included verbatim, clearly and conspicuously in immediate conjunction with each such representation:

Consumption of protein beyond the Recommended Daily Allowance (55 grams or about 2 ounces for a 154-pound man) does not improve or increase the level of performance of athletic or strenuous physical labor.

##### § 454.14 Aging, senility or therapeutic representations.

No representation shall be made, directly or by implication, that any protein supplement: (a) Can counteract or delay the effects or signs of aging or senility including but not limited to baldness, thinning hair, aging skin and decreased mental and physical capacities;

(b) Is to be used for the cure, diagnosis, treatment, mitigation or prevention of disease or of subclinical disorders or can serve a specific medical purpose; or

(c) Is to be used by the elderly unless the following disclosure is included verbatim clearly and conspicuously in immediate conjunction with each such representation:

Not to be used by persons with chronic or acute liver or kidney disease except under medical supervision.

Provided, however, that this disclosure may be omitted if the protein supplement so represented does not derive 50 percent or more of its calories from the protein content of the food in the form in which it is sold for consumer use.

<sup>1</sup>For purposes of this section, the reference is not to U.S. RDA, but to RDA as defined in *Recommended Dietary Allowances*, Food and Nutrition Board, National Research Council, National Academy of Sciences, Washington, D.C. 8th edition, 1974, p. 47.

#### § 454.15 Weight reduction representations.

No representation shall be made, directly or by implication, that:

(a) Protein burns or eliminates body fat;

(b) A protein supplement or a serving thereof constitutes a nutritionally adequate meal, unless the protein supplement or a serving thereof complies with an applicable Federal regulation prescribed in the Code of Federal Regulations; or

(c) Consumption of any protein supplement or protein itself is useful for, or contributes in any way to, or is useful in regulating or maintaining caloric intake or body weight by the use of any demonstration or depiction, or any word or phrase such as "diet", "dietetic", "low calorie", "low in calories", "fewer calories", "calorie reduced", "contains artificial sweeteners", "artificially sweetened", or any other demonstration, depiction or term of similar import, unless it is clearly and conspicuously disclosed in immediate conjunction with each such representation:

(1) That protein has approximately the same caloric content by weight as carbohydrate, and ingestion of protein in excess of the body's daily caloric and protein needs contributes calories which can cause weight gain;

(2) That weight reduction can occur only if the body uses more calories than it ingests from all sources, including protein;

(3) The protein supplement so represented complies with the provisions of 21 CFR 125.6;<sup>2</sup> and

(4) The number of calories contained in a stated serving of the protein supplement is clearly and conspicuously disclosed in immediate conjunction with each such representation.

#### § 454.16 Emphatic nutrition representations.

(a) No representation shall be made, directly or by implication, in the product name (e.g., "Protein Plus" or "Hi-Pro"), or otherwise that any protein supplement is exclusively or totally protein or nearly so unless: (1) The percentage of protein is clearly and conspicuously disclosed in immediate conjunction with such representations, and (2) the percentage of protein is no less than 90 percent.

(b) No representation shall be made, directly or by implication, that any protein supplement is of good nutritional quality, unless the protein is of at least as high a quality as that of casein, as shown by a Protein Efficiency Ratio (PER) equal to or greater than 100 percent of casein.

For purposes of this part, any of the following representations among others shall constitute a representation that the protein supplement is of good nutritional quality: The product

<sup>2</sup> Section 125.6, "Label Statements Relating to Food Which Purports to Be or Is Represented for Use as a Means of Regulating Caloric Intake or Body Weight" has not yet been adopted by FDA in final form.

(1) Contains all of the essential amino acids;

(2) Is of good biological value, or

(3) Is biologically complete.

#### § 454.17 Protein comparison representations.

(a) No representation shall be made, directly or by implication, that any protein supplement is a more economical source of protein than any other food unless:

(1) The cost per gram of protein in the protein supplement is less than the cost per gram of protein in the compared food; and

(2) The representation is in compliance with the requirements of 16 CFR 437.4.

(b) No representation shall be made, directly or by implication, that any protein supplement is higher, richer or more concentrated in protein than another food unless the comparison is one which measures the protein concentration of the protein supplement and a compared food in the same form, for example, liquid milk to a protein supplement drink or powdered milk to a protein supplement in powdered form. If the protein supplement is not (generally) recommended for consumption in the form in which it is sold to consumers, no comparison shall be made between the protein concentration of the product and the protein concentration of any food which is in a form in which it is generally consumed or recommended for consumption.

#### § 454.18 Protein need representations.

No representation shall be made, directly or by implication, that:

(a) The adult daily protein need is greater than the Recommended Daily Allowance (RDA) established by the Food and Nutrition Board, National Research Council, or the U.S. RDA; or

(b) The adult RDA for protein is other than .8 grams per kilogram body weight plus the additional increment recommended for pregnant and lactating women, provided, however, that within six months after establishment of a different adult RDA for protein by the National Research Council, the new adult RDA for protein shall be used.

#### STATEMENT OF REASONS FOR THE PROPOSED RULE

It is the Commission's purpose, in issuing this statement, to set forth its reasons for proposing this Trade Regulation Rule with sufficient particularity to allow informed comment. The precise format of such statements may vary from rule to rule depending on the complexity of the issues involved. In this proceeding, the Commission has determined that meaningful comment by the public will be facilitated by presenting (1) a statement describing the basic factual and legal premises underlying the Commission's determination to propose the Rule, and (2) a series of questions designed to draw to the public's attention matters which the Commission deems particularly pertinent and on which comment is especially solicited.

The Commission's objective in these proceedings is to develop a Rule which will: (1) Require advertisers and sellers of protein supplements to disclose possible health hazards from improper use of protein supplements and to prevent the unsafe marketing of these products, if such would be the case, for the use of certain groups of persons, such as infants; (2) require advertisers and sellers of protein supplements to disclose material facts concerning the need for and the utility of protein supplements, if any, for American consumers; and (3) prevent advertisers and sellers of protein supplements from misrepresenting the nutritive characteristics and health benefits of these products or failing to disclose material facts concerning claimed nutritional and health benefits from the use of these products, without restricting the amount of useful information an advertiser may present in marketing these products.

The Commission emphasizes that neither the statement of factual and legal premises nor the questions set out in the materials accompanying the proposed Rule should be interpreted as a designation of disputed issues of fact. Such designations shall be made by the Commission or its duly authorized presiding officer pursuant to the Commission's Procedures and Rules of Practice.

#### STATEMENT

In connection with the marketing of protein supplements in and among the United States, the Commission has reason to believe that:

(1) Industry members commonly misrepresent or fail to disclose in both labeling and advertising (a) the amount or percentage of protein in the product and (b) the product's protein source;

(2) Industry members represent that concentrated protein supplements are safe and beneficial for all persons when, in fact, they are not and, further, fail to disclose, in either advertising or labeling, the health hazards associated with improper use of certain protein supplements by infants, young children and persons with liver or kidney disorders;

(3) Industry members commonly represent, often directly and almost invariably by implication, that, contrary to fact, protein deficiency is a common and significant health problem among Americans generally and among various subgroups of Americans;

(4) Industry members commonly advertise, contrary to fact, that protein supplements are sources of "quick energy," likening the metabolic effect of protein foods to sugar and carbohydrates;

(5) Industry members commonly represent or imply, contrary to fact, that (a) protein is a source of food "energy" apart from its caloric value; (b) consumption of protein will itself produce general good health, vigor, sustained energy and alertness; and (c) consumption of protein itself enhances strength and endurance apart from the caloric value of the protein food;

(6) Industry members commonly represent, without an adequate basis in fact and contrary to the clear weight of scientific evidence, that protein is used or depleted in greater than normal amounts by strenuous physical activity;

(7) Industry members commonly represent, contrary to fact, that use of protein supplements can improve or increase the level of the user's athletic performance or other strenuous physical activity regardless of whether the user's diet contains the amounts of protein sufficient to meet daily requirements;

(8) Industry members commonly represent, contrary to fact, that (a) consumption of protein supplements can effectively combat or delay various effects and signs of aging (such as balding or decreased mental and physical vigor), and (b) protein supplements can be used for the cure, treatment, mitigation or prevention of disease and subclinical disorders;

(9) Industry members often promote their products for use by the elderly without disclosing that persons with liver and kidney disorders (the elderly are, as a group, most susceptible to such ailments) may be injured by high protein intake and ought to have their protein intake medically supervised;

(10) Industry members commonly promote the use of protein supplements as weight reduction aids, in part by misrepresenting the metabolic effects and characteristics of protein; and in part by deceptively failing to disclose in connection with voluntary weight reduction claims: (a) That protein has the same caloric content by weight as carbohydrate, (b) that ingestion of protein in excess of the body's daily needs contributes calories which can cause weight gain, and (c) that weight reduction can occur only if the body uses more calories than it ingests from all sources, including protein;

(11) Industry members represent, directly and by implication, through the use of product names and otherwise, that their protein supplements are exclusively or totally protein or nearly so, when in fact they are not;

(12) Industry members commonly represent, contrary to fact, directly and by implication, that the protein component of their protein supplements is of good nutritional quality;

(13) Industry members commonly represent, often falsely, that their protein supplements are more economical sources of protein than specified ordinary protein-rich foods (e.g., steak or eggs) without disclosing the inferiority of the protein supplement in overall nutritional value;

(14) Industry members commonly make deceptive comparisons between their protein supplements and ordinary protein-rich foods with regard to the concentration of protein in the compared foods, e.g., comparison of a powder not intended for consumption except as it would be used in liquid form with a liquid such as milk;

(15) Industry members commonly represent, directly and by implication

and contrary to fact, that daily adult protein need is greater than the Recommended Daily Allowance (RDA) established by the Food and Nutrition Board of the National Research Council, or the U.S. RDA;

(16) Industry members commonly delay for unreasonable periods of time, with resultant deception, alterations in advertising and labeling to reflect changes in established protein RDA's for adults.

The Commission is of the view that it is an unfair or deceptive act or practice under Section 5 and Section 12 of the Federal Trade Commission Act for advertisers of protein supplements to fail to disclose affirmatively certain information concerning the health hazards and nutritive characteristics of protein supplements and the extent of protein deficiency in the United States. The Commission's authority to require the disclosure of health and safety hazards from products is unquestionable.<sup>3</sup> Further, even where no danger to consumers exists, the Commission's authority to require the disclosure of other material facts is well established.<sup>4</sup> The pattern of protein supplement misrepresentations concerning the extent of protein deficiency and the percentage of protein in protein supplements has established a need for accurate consumer information. However, beyond these past practices, disclosures of the nutritive characteristics of protein supplements and the extent of protein deficiency in the United States are required in order to give consumers adequate information to make product comparisons and rational marketplace purchasing decisions.

The Commission has determined that it has reason to believe the above statements on the basis of information compiled by Commission staff during a comprehensive industrywide investigation of protein supplement advertising and labeling which was aimed at: identifying common protein supplement messages; analyzing the nutritional health information they provide; and identifying patterns of misleading nutrition, health, and other benefit claims. In the course of the investigation the Commission staff has received extensive documentary evidence bearing upon the issues raised in this proposed Rule. The staff investigation included consultations with experts from a variety of disciplines whose expertise bears upon the issues raised in this proposal and examination of the findings of many studies related to these issues. The Commission has not adopted any findings or conclusions of the staff. All findings in this proceeding shall be based solely on matter in the rulemaking record.

<sup>3</sup> See, e.g., *American Medicinal Products, Inc. v. FTC*, 136 F.2d 426 (9th Cir. 1943).

<sup>4</sup> See, e.g., *J. B. Williams Company, Inc. v. FTC*, 381 F.2d 884 (6th Cir. 1966); *Theodore Kagen Corp. v. FTC*, 283 F.2d 371 (D. C. Cir. 1960); *Keele Hair and Scalp Specialists, Inc. v. FTC*, 275 F.2d 18 (5th Cir. 1960); *Mohawk Refining Corp. v. FTC*, 263 F.2d 818 (3d Cir. 1959); and *Segal v. FTC*, 142 F.2d 255 (2d Cir. 1944).

The Proposed Trade Regulation Rule concerning the Advertising and Labeling of Protein Supplements is designed to eliminate deception and unfairness which may result from the making of certain affirmative claims with respect to the nutritive, health and other benefits of protein supplements. This proposed Rule prohibits outright certain other claims, the making of which would be deceptive. Additionally, this proposed Rule requires the advertising and labeling of protein supplements to disclose affirmatively certain information concerning the health hazards and nutritive characteristics of protein supplements, and the extent of protein deficiency in the United States.

Furthermore, the Commission has recently accepted a consent order requiring a protein supplement advertiser to cease and desist from the dissemination of certain misleading claims. The Commission, having reason to believe that adjudication alone is inadequate to establish well-defined legal standards for the guidance of consumers and protein supplement manufacturers and distributors, undertakes herewith to define with specificity some acts or practices which may be unfair or deceptive and to prescribe requirements for affirmative disclosures to further avoid unfairness or deception to consumers.

#### QUESTIONS

Interested persons are urged to consider carefully these questions. Although certain proposals were drafted in specific language, the Commission retains its authority to promulgate a final Rule which differs in ways suggested by the following questions.

#### (CONSUMER BENEFITS)

1. What is the nature and extent, if any, of possible hazards from improper use of protein supplements? Are consumers currently sufficiently aware of these possible health hazards?

2. What is the need, if any, for protein supplementation of the ordinary or usual diets of (a) American consumers in general; (b) infants; (c) young children; (d) teenagers; (e) adults; (f) pregnant women; (g) the elderly; (in all income groups), in particular. Is protein deficiency a significant health problem for any significant group or number of persons in the U.S.?

3. Are consumers currently sufficiently aware of the protein content of protein supplements to make informed product comparisons?

4. Are consumers currently sufficiently aware of the health and nutrition effects of protein supplements to evaluate advertising and labeling claims and shop wisely? To what extent do considerations of expected health and nutrition benefits play a role in the purchasing decisions made by consumers for protein supplements?

5. Would the additional information required to be disclosed by §§ 454.7, 454.8 and 454.9 help consumers to make more prudent purchase decisions for protein supplements? If not, are there any additions, modifications or deletions to these

disclosures which would so aid consumers?

protein? Can use of a protein supplement improve or increase the level of performance?

sions hereunder, identify any such issues in a Notice which will be published in the

decision and describing the plan (38 FR

Commission as contained in 29 CFR Part

disclosures which would so aid consumers?

6. What is the prevalence in the protein supplement industry of the acts and practices addressed by this Rule? In what manner and to what extent are the acts and practices addressed by this Rule potentially or currently unfair or deceptive?

(RULE COVERAGE)

7. Is the definition of "protein supplement" adequate to indicate to the protein supplement industry the products which are intended to be covered by the Rule? If not, what alternative definition(s) would be appropriate and adequate for purposes of this Rule?

8. Is the definition of "protein supplement" adequate to indicate that ordinary foods are not intended to be subject to this Rule? If not, what would be an adequate alternative definition to convey this intent?

(AFFIRMATIVE REQUIREMENTS)

9. Is the information required to be disclosed by § 454.7, Protein content disclosure, necessary and sufficient to advise consumers of the protein content of protein supplements? If not, what should be deleted, modified or added.

10. Is the information required to be disclosed by § 454.8, Health hazard disclosures, necessary and sufficient to inform consumers of possible adverse effects of concentrated protein supplements? Is the class of protein supplement subject to the Health hazard disclosure appropriately defined? If not, what alternative definition would cover all of the appropriate products but not any inappropriate products? What is the extent and severity of the health hazard to infants, children 1-3 years of age, and persons with chronic or acute liver or kidney disease from protein supplements with different protein concentration levels? Are any other groups of persons exposed to significant health risks from the improper use of protein supplements?

11. Is the information required to be disclosed by § 454.9, Protein need disclosure, necessary and sufficient to inform consumers of their need for protein supplementation of their usual diet? If not, what should be deleted, modified or added? Do most Americans get all the protein they need from their usual diet? If a consumer doubts that he gets enough protein, what is the best way for the consumer to determine that fact?

12. Is the length of the disclosures required in any labeling by §§ 454.7, 454.8 and 454.9 and in any advertising by §§ 454.7 and 454.9 unduly burdensome? If so, what should be deleted or modified for what size, manner and type of advertising or labeling? Should required disclosures be tailored to different sizes or lengths of advertising and labeling messages?

(HEALTH AND NUTRITION CLAIMS)

13. Does protein produce or provide quick energy or promptly remedy fatigue or lassitude?

14. Does physical activity of any kind significantly increase the body's need for

protein? Can use of a protein supplement improve or increase the level of performance of athletics or strenuous physical activity?

15. Can use of a protein supplement counteract or delay the effects or signs of aging or senility?

16. What is the extent and severity of health hazards to the elderly due to liver or kidney disease? Are there any other diseases which afflict the elderly which create health risks from the improper use of a concentrated protein supplement? Is the class of protein supplements which derive 50 percent or more of their calories from their protein content the necessary and sufficient class of products for which the health disclosure required by §§ 454.8 and 454.14(c) is appropriate?

17. What is the utility of protein supplements for weight reduction? Is the information required to be disclosed by § 454.15(c) when a voluntary weight reduction or maintenance claim is made necessary and sufficient for consumers to evaluate such claims and shop wisely? If not, what should be deleted, modified or added?

18. Is comparison to the Protein Efficiency Ratio of casein the appropriate standard and test for protein supplement representations of good nutritional quality?

19. Is six months after the establishment of a new Recommended Daily Allowance (RDA) for protein an adequate period for the protein supplement industry to update voluntary advertising and labeling representations concerning the RDA for protein?

(POSSIBLE RESTRICTIONS ON RULE PROVISIONS)

20. To what extent would any Public health, safety, welfare or economic problems be created or exacerbated by the proposed Rule? Are there any available alternatives that would protect the public interest with fewer adverse effects?

21. What costs or other impact to health food stores, pharmacies and other wholesale or retail distributors, especially those which are small businesses, would result from implementation of the proposed Rule? How could such costs and adverse impacts be minimized?

(LEGAL AND POLICY CONSIDERATIONS)

22. Would implementation of the proposed Rule go beyond the statutory authority of the Federal Trade Commission? Please be specific.

23. Can well-defined legal standards for the guidance of consumers and protein supplement manufacturers and distributors most efficiently be established by promulgation of a Trade Regulation Rule? If not, are there any available alternatives which could accomplish this goal?

INVITATION TO PROPOSE ISSUES OF FACT FOR CONSIDERATION IN PUBLIC HEARINGS

All interested persons are hereby given notice of opportunity to propose any disputed issues of fact which are material and necessary to resolve. The Commission, or its duly authorized presiding official, shall, after reviewing submis-

sions hereunder, identify any such issues in a Notice which will be published in the FEDERAL REGISTER. Such issues shall be considered in accordance with Section 18(c) of the Federal Trade Commission Act as amended by Public Law 93-637, and rules promulgated thereunder. Proposals shall be accepted until not later than November 7, 1975, by the Special Assistant Director for Rulemaking, Federal Trade Commission, Washington, D.C. 20580. A proposal should be identified as "Proposal Identifying Issues of Fact—Advertising and Labeling of Protein Supplements," and furnished, when feasible and not burdensome, in five copies. The times and places of public hearings will be set forth in a later Notice which will be published in the FEDERAL REGISTER.

INVITATION TO COMMENT ON THE PROPOSED RULE

All interested persons are hereby notified that they may also submit to the Special Assistant Director for Rulemaking, Federal Trade Commission, Washington, D.C. 20580, data, views or arguments on any issue of fact, law or policy which may have some bearing upon the proposed Rule. The Commission also especially and specifically solicits comment on the need for the appropriateness of the provisions of § 454.9 of the proposed Rule. The Commission also seeks comments evaluating the economic impact of the Rule on small business and consumers. Written comments, other than proposals identifying issues of fact, will be accepted until forty-five (45) days before commencement of public hearings, but at least until November 7, 1975. To assure prompt consideration of a comment, it should be identified as a "Advertising and Labeling of Protein Supplements Comment," and furnished, when feasible and not burdensome, in five copies.

Issued: September 5, 1975.

By direction of the Commission.

CHARLES A. TOBIN,  
Secretary.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1952]

TENNESSEE

Proposed Supplements to Approved Plan

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for review of changes and progress in the development and implementation of State plans which have been approved in accordance with section 18 (c) of the Act and 29 CFR Part 1902. On July 5, 1973, a notice was published in the Federal Register of the approval of the Tennessee plan and the adoption of Subpart P of Part 1952 containing the

decision and describing the plan (38 FR 17838). In March 1974, and on June 21, 1974, the State of Tennessee submitted supplements to its plan involving developmental changes (see Subpart B of 29 CFR Part 1953). The supplements consist of the Tennessee "Occupational Safety and Health Public Sector Plan" and procedures of the Tennessee Occupational Safety and Health Review Commission. Following Regional review the supplements have been forwarded to the Assistant Secretary for Occupational Safety and Health (hereinafter referred to as Assistant Secretary) for his determination as to whether they should be approved.

2. *Issues.* (a) The Tennessee Occupational Safety and Health Act of 1972 provides for coverage of State and local government employees in a manner designed to be at least as effective as that in the private sector. The plan supplement provides detail on how the program will be administered. State agencies are required to maintain an effective and comprehensive occupational safety and health program consistent with the standards promulgated under the Tennessee Occupational Safety and Health Act including a program of self-inspection and internal sanctions subject to monitoring by the Tennessee Commissioners of Labor and Public Health. This public sector plan supplement contains details on the establishment of a Tennessee Occupational Safety and Health Council to assist State agencies in achieving compliance; the individual State agency obligation to comply with standards, regulations, and submission of annual reports; and the designees' intended monitoring actions including but not limited to investigation of fatalities, catastrophes, and complaints, and work-site inspections of at least 100 State agency sites per year.

State agency programs found defective may be cited and may contest the citation before the Tennessee Occupational Safety and Health Review Commission which will in turn submit its findings of fact and recommendations to the Governor. County, municipal and other local governments have the option of being treated as a private employer or developing their own program of compliance. Guidelines on intended State compliance action for local governments choosing to be treated as private employers are provided. For local governments choosing a self-compliance approach details on the components of an adequate program including a model ordinance for enactment by the local governing body are discussed. Each such political subdivision must submit a plan of action for approval by the Commissioner of Labor.

(b) Rules of Procedure adopted by the Tennessee Occupational Safety and Health Review Commission are largely parallel to those of the Federal Review

Commission as contained in 29 CFR Part 2200. However, it appears that in cases where a hearing examiner presides, his decision may be the final decision which is then appealable through the courts. Two additional rules allow the Commissioners of Labor and Public Health to administratively amend contested citations during the 20 day contest period (rule 132) and to rule on Petitions for Modification of Abatement subject to employee appeal to the Review Commission (rule 34).

The Assistant Secretary has reviewed the above described supplements and hereby gives notice that their approval is in issue before him.

3. *Location of the supplement for inspection and copying.* A copy of the plan and its supplements may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Room N-3112, 200 Constitution Avenue, NW., Washington, D.C. 20210; Office of the Assistant Regional Director Occupational Safety and Health Administration, 1375 Peachtree Street, NE., Suite 587, Atlanta, Georgia 30309; and Office of the Tennessee Commissioner of Labor, Room C-1-100, Cordell Hull Building, 5th Avenue North, Nashville, Tennessee 37219; Office of the Commissioner of Public Health, Cordell Hull Building, 5th Avenue North, Nashville, Tennessee 37219.

4. *Public participation.* Interested persons are hereby given until October 6, 1975, in which to submit written data, views and arguments concerning whether the supplements should be approved. Such submissions are to be addressed to the Associate Assistant Secretary for Regional Programs at his address as set forth above where they will be available for inspection and copying.

Any interested person may request an informal hearing concerning the proposed supplements by filing particularized written objections with respect thereto within the time allowed for comments with the Associate Assistant Secretary for Regional Programs. If, in the opinion of the Assistant Secretary, substantial objections are filed which warrant further public discussions, a formal or informal hearing on the subjects and issues involved may be held.

The Assistant Secretary shall consider all relevant comments, arguments, and requests submitted in accordance with this notice and shall thereafter issue his decision as to approval or disapproval of the supplements, make appropriate amendments to Subpart P of Part 1952, and initiate further proceedings, if necessary.

Signed at Washington, D.C. this 28th day of August 1975.

JOHN T. DUNLOP,  
Secretary of Labor.

Office of Federal Contract Compliance  
[41 CFR Part 60-5]

AFFIRMATIVE ACTION PLAN FOR FEDERALLY INVOLVED CONSTRUCTION CONTRACTORS IN THE WASHINGTON, D.C. AREA

Notice of Proposed Rulemaking

This notice of proposed rulemaking is issued under the authority of sections 201, 205, 207, 301, and 303 of Executive Order 11246 (30 FR 12319), as amended.

Section 201 of Executive Order 11246, as amended, provides that the Secretary of Labor shall adopt rules and regulations necessary and appropriate to achieve the purposes of the Order. One of the purposes of Executive Order 11246, as amended, is to require Federal and Federally assisted construction contractors and subcontractors to "take affirmative action to ensure that applicants are employed, and that employees are treated, during employment, without regard to their race, color, religion, sex or national origin." (section 202(1)).

Notice is hereby given that the Secretary proposes to adopt a Revised Washington Plan in order to further implement the affirmative action mandate of Executive Order 11246, as amended. If adopted it is proposed to make the Revised Washington Plan effective thirty days from the date of its republication in the FEDERAL REGISTER.

BACKGROUND

In April 1970, public hearings were conducted by the Department of Labor to determine what action should be taken to ensure equal employment opportunity in the construction industry in the Washington, D.C. area. These hearings were convened after efforts to formulate a hometown plan failed.

As a result of the material presented at the public hearing and other investigations the Washington Plan was issued by the Secretary of Labor (41 CFR 60-5.35 FR 19352, December 22, 1970). The Washington Plan applies to eleven trades and covers the Washington Standard Metropolitan Statistical Area which includes portions of Maryland and Virginia as well as the District of Columbia. The Washington Plan was scheduled to expire on May 31, 1974, but has since been extended a number of times, the most recent extension being effective through July 9, 1975. The purpose of these extensions was to provide the Department of Labor with ample time to explore the possibility of replacing the Washington Plan with a voluntary hometown plan. The principle support for a voluntary hometown plan originated from a group of construction contractors, building trades representatives and minority community leaders known as the Washington Plan Review Committee. The Committee held public hearings on September 23-25, 1973 to evaluate the Washington Plan and develop recommendations for

future action in support of the affirmative

position which they would have enjoyed

sults from dividing the total of minority

during normal business hours at the foregoing address.

§ 60-5.3 Goals for minority utilization.

(a) The following goals for minority

## PROPOSED RULES

future action in support of the affirmative action mandate of Executive Order 11246, as amended. Following the public hearings, the Washington Plan Review Committee developed a proposed hometown plan the emphasis of which was upon the recruitment and training of minorities through apprenticeship programs. For various reasons this proposal was unacceptable to the Office of Federal Contract Compliance. Subsequent efforts by the Washington Plan Review Committee and the OFCC have failed to produce an acceptable affirmative action plan for the Washington, D.C. area construction industry. As a result of these efforts it is the determination of the Office of Federal Contract Compliance that a viable hometown plan is not forthcoming despite the best efforts of the Department of Labor and the Washington Plan Review Committee.

Therefore, it is the recommendation of OFCC that a Revised Washington Plan be promulgated which includes 23 construction crafts rather than the current eleven.

## GENERAL FINDINGS

Executive Order 11246, as amended, is designed to make equal employment opportunity a reality for present and potential employees of Federal and Federally assisted construction contractors and subcontractors. The contract compliance program is premised on the right and the responsibility of the Federal Government to determine the terms and conditions upon which it will contract with private parties for the procurement of supplies and services, including construction, essential to the functioning of Government. Under Executive Order 11246, as amended, Federal and Federally assisted construction contractors are obliged to forbear from employment discrimination based on race, color, religion, sex, or national origin, and to take affirmative action to ensure that employees and applicants for employment are treated without regard to these non-merit factors. This obligation is embodied in Section 202 of Executive Order 11246, as amended, and is commonly referred to as the Equal Employment Opportunity Clause. The Executive Order's affirmative action requirement is intended to ensure prompt achievement of full and equal employment opportunity through the establishment of specific and results-oriented procedures.

## COMPUTATION OF GOALS FOR MINORITY UTILIZATION

In order to give form and content to the affirmative action obligation of Executive Order 11246, as amended, the Department of Labor developed the concept of goals and timetables. In computing goals for minority manpower utilization, the Department has attempted to rely upon the most precise standards and statistics available. In assessing whether a goal for minority manpower utilization is reasonable, the Department of Labor is guided by the principle that the objective of a goal is to place eligible minority members in the

position which they would have enjoyed if not for underutilization in the past. The Department believes that statistics reported in the 1970 Census are a reasonable measure of the relevant minority labor force which, but for underutilization, would be equally represented in the Washington, D.C. area construction industry. Even though the labor force statistics in the 1970 Census reflect persons who were 16 years of age and over in 1970, such persons are now at least 18 years of age and are eligible for consideration for employment in the construction industry. Data is available on the black, Oriental, American Indian, and Spanish language civilian labor force in the Washington, D.C. area but there are no labor force statistics collected by the Bureau of the Census on Spanish surnamed individuals in the area. Therefore, absolute precision is not possible. However, statistics on Spanish surnamed individuals in the labor force can be estimated from data compiled for the Spanish language<sup>1</sup> population of the area.

It is also necessary to consider the percentage of persons of Spanish origin in the labor force in the Washington, D.C. area who regard themselves as being black rather than white. Otherwise, certain individuals will be counted twice, once as black and once as a member of the Spanish origin group, resulting in an artificially inflated statistic. This statistic varies depending upon the jurisdiction in which the person of Spanish origin resides. In the District of Columbia 37.3 percent of the persons reported as being of Spanish origin regard themselves as being black. However, in Maryland and Virginia persons of Spanish origin regard themselves as black to a lesser degree, 12.2 percent and 13.7 percent respectively. Therefore, it was necessary to break out the Spanish language labor force by local jurisdictions in order to calculate an accurate overcount.

Taking into account these basic factors, the number of minorities in the labor force in the Washington, D.C. area may be derived by adding the black (307,795), Oriental (3,439) and American Indian (1,317) labor forces, together with the number of Spanish language persons in the labor force (28,439). This result is then reduced by the percentage of Spanish language individuals in the area who count themselves as black rather than white. Based upon these calculations, the adjusted Spanish language labor force of the Washington, D.C. area is estimated to be 22,965. The percentage of minorities in the total labor force re-

sults from dividing the total of minority labor force (335,516) by the number of persons in the labor force in the Washington, D.C. area (1,227,597).

Accordingly, the resulting relevant minority labor force statistic is 27.33 percent.

The Department of Labor also considers the availability of qualified minorities for work in the construction industry. Assessments of current availability are speculative at best. However, it is reasonable to consider the educational achievement of construction workers. It is significant that as of 1970, 92 percent of the construction workers reported by the Bureau of the Census had completed four years of high school or less. Thus, it is deemed appropriate to compare the minority labor force in the Washington, D.C. area who have a high school education or less with the total labor force with similar educational achievement. After considering the educational achievement of the minority labor force with that of the total labor force it appears that a greater portion of the minority labor force is available for employment in the construction industry. As a result of adjustment for this educational factor, the relevant minority labor force becomes 34.7 percent.

One other factor in the analysis of the proper goal for minority utilization in the Washington, D.C. area is the population "undercount", defined as omission in coverage of the decennial Census. The undercount is computed by the Bureau of the Census and is used by the Bureau to update the decennial Census findings in intermediate years. The Bureau of Census reports that the national minority undercount is approximately 7.7 percent while that of non-minorities is 1.9 percent. Inclusion of this factor in the computation of the relevant labor force raises the goal to 38.5 percent.

**Conclusion of Findings.** Taking into account the factors recited herein, as well as considering the availability of qualified and qualifiable minorities for employment in the construction industry and allowing for possible over inclusiveness of the Spanish language data as a substitute for statistics for Spanish surnamed individuals, the Department of Labor finds that the goal for minority utilization for each construction trade covered by the Revised Washington Plan should be 36 percent.

In adopting this goal, the Department believes that it is less important that a particular percentage goal might be slightly optimistic, given current availability of qualified and qualifiable minorities, provided the Revised Washington Plan contains fair procedures for contractors to make such a showing. Accordingly, the Revised Washington Plan includes provisions for notice to contractors and a meaningful opportunity to challenge any allegations of noncompliance and prove that they have made the good faith efforts required of them to comply with the requirements of the Plan.

<sup>1</sup> United States Department of Commerce, Bureau of the Census, *1970 Census of the Population, Current Social and Economic Characteristics—District of Columbia PC (1)-C10, Appendix B*, indicates that persons of Spanish heritage are identified in various ways. In 42 states and the District of Columbia, this population is identified as "Persons of Spanish language;" in five Southwestern States as "Persons of Spanish language or Spanish Surname;" and in three middle Atlantic States as "Persons of Puerto Rican birth or parentage."

## PROPOSED RULES

41151

## TIMETABLES

In an effort to ensure equal employment opportunity and provide practical intermediate goals for the annual increase in minority participation in the Washington D.C. area construction industry, the Department has determined that the proposed Revised Washington Plan should cover a three-year period. Those trades currently covered by the Washington Plan shall be deemed to be committed to the goals of the last year of the Washington Plan with subsequent increases to meet the 36 percent figure by 1978. As to those trades not covered by the Washington Plan, intermediate goals are established which recognize that efforts in support of affirmative action have been in effect in Washington since 1970. Therefore, the first year goals are set at a level which reflects the Department's confidence that effort toward equal employment opportunity has occurred.

## COVERAGE

It is determined that the Revised Washington Plan is necessary to provide for minority participation in the following trades:

Asbestos Workers	Operating Engineers
Boiler Makers	Millwrights
Brick Layers	Painters &
Carpenters	Paperhangers
Cement Masons	Pile Drivers
Electricians	Plasterers
Elevator	Plumbers
Constructors	Roofers
Glaziers	Sheet Metal Workers
Pipefitters &	Sprinkler Fitters
Steamfitters	Stone & Marble
Iron Workers	Masons
Laborers	Tile & Terrazzo
Lathers	Workers

## EVALUATION AND ADVISORY RECOMMENDATION

The Department recognizes that the contractors, unions, and the minority community, who must operate on a day-to-day basis under the Revised Washington Plan are in the best position to evaluate the effectiveness of the Plan. Therefore, the Department of Labor has encouraged the development of a voluntary committee representing these three groups, which shall periodically review the effectiveness of the Plan and make advisory recommendations to the Department in this regard. Accordingly, the Washington Plan Review Committee was formed and is encouraged to continue its activities.

## OPPORTUNITY FOR COMMENTS

Inquiries may be addressed, and data, views, and arguments concerning the proposed Revised Washington Plan may be submitted to Mr. Phillip J. Davis, Director, Office of Federal Contract Compliance, U.S. Department of Labor, 200 Constitution Avenue, NW, Washington, D.C. 20210. All material received on or before October 7, 1975, will be considered. All comments in response to this proposal will be available for public inspection

during normal business hours at the foregoing address.

It is therefore proposed to issue 41 CFR Part 60-5 in the manner set forth below:

## PART 60-5—REVISED WASHINGTON PLAN

Sec.	Purpose and scope of the revised Washington Plan.
60-5.1	Notice.
60-5.2	Goals for minority utilization.
60-5.3	Good faith efforts.
60-5.4	Administrative procedure for enforcement.
60-5.5	Contractor obligations.
60-5.6	Obligations of the Federal Government.
60-5.7	

AUTHORITY: Secs. 201, 202, 205, 211, 301, 302, and 303 of Executive Order 11246 (30 FR 12319, 3 CFR 1964-65 Comp., P. 406) and 41 CFR §§ 60-1.1 and 60-1.40.

## § 60-5.1 Purpose and scope of the revised Washington Plan.

The purpose of this regulation is to implement the provisions of Executive Order 11246, and the rules and regulations issued pursuant thereto, requiring a program of equal employment opportunity by Federal contractors and subcontractors and Federally assisted construction contractors and subcontractors in the Washington, D.C. area, including the District of Columbia, the Virginia cities of Alexandria, Fairfax, Loudon, and Prince William and the Maryland counties of Montgomery, Prince Georges and Charles. All construction activity, including non-Federally involved work of any contractor or subcontractor performing on a non-exempt Federal and Federally assisted construction contract in the Washington, D.C. area shall be subject to the requirements of this regulation. Accordingly, the Revised Washington Plan must be included in all invitations and other solicitations for bids for a Federally involved construction contract or subcontract in the Washington, D.C. area when its estimated cost exceeds \$10,000.

## § 60-5.2 Notice.

The following Notice shall be included in all invitations and other solicitations for bids on non-exempt Federally involved construction contracts in the Revised Washington Plan area.

## NOTICE OF REQUIREMENT—SUBMISSION OF AFFIRMATIVE ACTION PLAN TO ENSURE EQUAL EMPLOYMENT OPPORTUNITY

Each bidder, contractor or subcontractor (hereafter the Contractor) must fully comply with the requirements, terms and conditions of the Revised Washington Plan including the goals for minority manpower utilization as to each construction trade it intends to use on this construction contract and all other construction work (both Federal and non-Federal) in the Washington, D.C. area during the performance of this contract or subcontract. The Contractor commits itself to the goals for minority manpower utilization contained herein and all other requirements, terms and conditions of the Revised Washington Plan by submitting a properly signed bid.

## § 60-5.3 Goals for minority utilization.

(a) The following goals for minority manpower utilization shall express the contractor's commitment to the percentage of minority workhours to be worked in each specified craft on all work performed by the contractor in the Washington, D.C. area during the performance of this contract. "Minority" is defined as including blacks, Spanish surnamed Americans, Orientals and American Indians and includes both minority men and minority women.

## GOALS FOR MINORITY GROUP EMPLOYMENT UNTIL SEPTEMBER 30, 1976

Plumbers	36
Roofers	36
Sheet Metal Workers	36
Sprinkler Fitters	36
Stone & Marble Masons	36
Tile & Terrazzo Workers	36
Trade covered by current Washington Plan	

(b) The goals for minority manpower utilization above are expressed in terms of workhours of training and employment as a proportion of the total workhours to be worked by the contractor's aggregate work force in that trade on all projects (both Federal and non-Federal) in the Washington, D.C. area during the performance of its contract or subcontract (i.e. the period beginning with the first day of work on the Federal or Federally assisted construction contract and ending with the last day of work).

(c) The workhours of minority employment must be substantially uniform throughout the length of the contract in each trade, and minorities should be employed evenly on each of a contractor's projects. Nevertheless, failure of a contractor to employ minorities evenly on each of its projects shall not constitute noncompliance provided the percentage of minority manhours employed by the contractor in its aggregate work force in the Washington, D.C. area meets or exceeds its commitment to the goals for minority manpower utilization in the Revised Washington Plan and the contractor has not violated the Equal Opportunity Clause of the contract in the assignment of minorities to its projects. The transfer of minority employees from employer-to-employer or from project-to-project for the purpose of meeting the contractor's goal shall be a violation of the Revised Washington Plan. Otherwise, the contractor shall be deemed to be in compliance with the requirements, terms, and conditions of the Revised Washington Plan if:

(1) The minority manpower utilization rate of the contractor meets or exceeds its commitment to the goals for minority manpower utilization in its aggregate work force, both Federally involved and non-Federal, within the Washington, D.C. area provided, that if the contractor has denied equal employment opportunity in violation of the Equal Opportunity Clause of this contract, it shall not be in compliance with the Revised Washington Plan or

(2) The contractor can establish that it is a member of a contractor's association or other employer organization which has as one of its purposes the expanded utilization of minority manpower and the total minority manpower utilization rate of all the member contractors on all projects in which they are involved within the Washington, D.C. area meets the contractor's minority manpower utilization commitment in the Revised Washington Plan provided, that if the contractor has denied equal employ-

ment opportunity in violation of the Equal Opportunity Clause of this contract it shall not be in compliance with the Revised Washington Plan or

(3) The contractor can establish that it has a collective bargaining agreement with a labor organization, that it utilizes such organization as its source for over 80 percent of its manpower needs and, that the percentage of minority membership of such organization and the total percentage of minorities referred for employment on all projects within the Washington, D.C. area meets the contractor's commitment in the Revised Washington Plan provided, that if the contractor has denied equal employment opportunity in violation of the Equal Opportunity Clause of this contract it shall not be in compliance with the Revised Washington Plan.

(d) In the event that work is performed after the expiration date of the Revised Washington Plan on a construction contract awarded pursuant to the requirements, terms and conditions of the Plan the goals for minority manpower utilization for 1978 shall be applicable to such work.

(e) The contractor's commitment to goals of minority manpower utilization is intended to meet its affirmative action obligations under Executive Order 11246, as amended, and is not intended and shall not be used to discriminate against any qualified applicant or employee. Whenever it comes to the contractor's attention that the goals are being used in a discriminatory manner, it shall immediately report that fact to the Office of Federal Contract Compliance so that appropriate proceedings may be instituted.

## § 60-5.4 Good faith efforts.

The contractor shall be deemed to be in compliance with the requirements, terms, and conditions of the Revised Washington Plan if it meets or exceeds its commitment to the goals for minority manpower utilization in its aggregate work force in the Washington, D.C. area for each trade for which it is committed to a goal under the Revised Washington Plan. The contractor's commitment to the goals for minority manpower utilization as required by the Revised Washington Plan constitutes a commitment that it will make every good faith effort to meet such goals. No contractor shall be found in noncompliance solely on account of its failure to meet its goals, but shall be given the opportunity to demonstrate that it has instituted all the affirmative action steps specified in the Revised Washington Plan and has made every good faith effort to make these steps work toward the attainment of its goals within the timetables, all to the purpose of expanding minority manpower utilization in its aggregate work force in the Washington, D.C. area. Contractors who fail to achieve their commitments to the goals for minority manpower utilization must have engaged in affirmative action directed at increasing minority manpower utilization, which is at least as extensive as the following steps:

(a) Notification to the minority community organizations when the contractor or union has employment opportunities available and maintenance of records regarding the organizations' response.

(b) Maintenance of a file of the names and addresses of each minority worker referred by the union to the contractor and what action was taken with respect to each such referred worker. If a worker was sent to the union hiring hall for referral and such worker was not referred back by the union or, if referred, not employed by the contractor, the file should document this and the reasons therefor.

(c) The contractor shall promptly notify the Office of Federal Contract Compliance when the union or unions with which the contractor has collective bargaining agreements has not referred to the contractor a minority worker sent by the contractor, or the contractor has other information that the union referral process has impeded efforts to meet its goals.

(d) Participation in training programs in the area, especially those funded by the Department of Labor.

(e) Dissemination of the contractor's or union's EEO policy within the respective organizations as applicable by including it in any policy manual; by publicizing it in company or union newspaper, annual report, etc.; by posting of the policy; and by specific review of the policy with minority employees or members.

(f) Dissemination of its EEO policy externally by informing and discussing it with all recruitment sources; by advertising in news media, specifically including minority news media; and by notifying and discussing it with all contractors, and subcontractors.

(g) Specific and constant written and oral recruitment efforts directed at all minority organizations, schools with minority students, minority recruitment organizations and minority training organizations within the contractor's or union's recruitment area.

(h) Specific efforts to encourage present minority employees or members to recruit their friends and relatives.

(i) The contractor shall validate all tests and other selection requirements as required by the Testing and Selection Order (41 CFR Part 60-3).

(j) Making every effort to provide after school, summer and vacation employment to minority youths.

(k) Where reasonable, the development of on-the-job training opportunities and participation and assistance in any association or group training programs relevant to the contractor's or union's needs.

(l) Continuing inventory and evaluation of all minority personnel or members for promotional opportunities and encouragement of minority employees or members to seek such opportunities.

(m) Assuring that seniority practices, job classifications, etc., do not have a discriminatory effect.

## PROPOSED RULES

(n) Assuring that all facilities and activities are non-segregated.

(o) Continual monitoring of all personnel activities to ensure that its EEO policy is being carried out.

(p) The contractor shall solicit bids for subcontracts from available minority subcontractors with the trades covered by the Revised Washington Plan to the maximum extent practicable including circulation of minority contractor associations.

## § 60-5.5 Administrative procedure for enforcement.

(a) Each agency shall review the contractor's employment practices during the performance of the contract. If the contractor meets its goals or can demonstrate that it has made every good faith effort to meet the goals and is not otherwise violating the Equal Opportunity Clause of this contract or any other Federal equal employment opportunity laws or regulations, the contractor shall be presumed to be in compliance with Executive Order 11246, as amended, and the Revised Washington Plan. In that event, no formal sanctions or proceedings leading toward sanctions shall be instituted unless the agency otherwise determines that the contractor is not providing equal employment opportunities.

(b) Where the agency (see 41 CFR § 60-1.3 (a) and (b)) finds that the contractor has failed to comply with the requirements of Executive Order 11246, the implementing regulations and the Revised Washington Plan, the agency shall take such action and impose such sanctions as may be appropriate under the Executive Order and its regulations. When the agency proceeds with such formal action it has the burden of proving that the contractor has not met the requirements of the Revised Washington Plan. The contractor's failure to meet its goals shall, however, shift to it the requirement to come forward with evidence to show that it has made every "good faith" effort (as described in § 60-5.4) to meet such goals. The pendency of such formal proceedings shall be taken into consideration by Federal agencies in determining whether such contractor can comply with the requirements of Executive Order 11246, as amended, and is therefore a "responsible prospective contractor" within the meaning of Federal procurement law.

(c) It shall be no excuse that the union with which the contractor has a collective bargaining agreement providing for exclusive referral failed to refer minority employees. Discrimination in referral for employment, even if pursuant to provisions of a collective bargaining agreement, is prohibited by the National Labor Relations Act, as amended, and Title VII of the Civil Rights Act of 1964. It is the policy of the Office of Federal Contract Compliance that contractors have a responsibility to provide equal employment opportunity if they wish to participate in Federally-involved con-

tracts. To the extent they have delegated the responsibility for some of their employment practices to a labor organization and, as a result, are prevented from meeting their obligations pursuant to Executive Order 11246, as amended, such contractors cannot be considered to be in compliance with Executive Order 11246, as amended, its implementing rules, and regulations.

## § 60-5.6 Contractor obligations.

(a) All contractors shall include the Revised Washington Plan in all bid invitations or other prebid communications, written or otherwise, with their prospective subcontractors. Whenever a contractor subcontracts a portion of the work in any trade covered by the Revised Washington Plan it shall include the Plan in such subcontracts and each subcontractor shall be bound by the Revised Washington Plan to the full extent as if it were the prime contractor. The contractor shall not be accountable for the failure of its subcontractor to fulfill its affirmative action commitments. However, the prime contractor shall give notice to the Office of Federal Contract Compliance and the contracting agency of any refusal or failure of any subcontractor to fulfill its obligations under the Revised Washington Plan. Noncompliance with these requirements by a subcontractor will be treated in the same manner as such failure by the prime contractor.

(b) Contractors must keep such records and file such reports relating to the provisions of the Revised Washington Plan as shall be required by the contracting or administering agency.

## § 60-5.7 Obligations of the Federal Government.

(a) Nothing in the Revised Washington Plan shall be interpreted to diminish the responsibilities of the contracting and administering agencies nor the obligations of contractors pursuant to Executive Order 11246 as amended, for those trades and those contracts not covered by the Plan.

(b) The procedures set forth in the Revised Washington Plan shall not apply to any contract when the head of the agency (see 41 CFR 60-1.3 (a) and (b)) determines that such contract is essential to the national security and that its award without following such procedure is necessary to the national security. Upon making such a determination, the agency head will notify, in writing, the Director of the Office of Federal Contract Compliance within 30 days.

(c) Nothing in the Revised Washington Plan shall be interpreted to diminish the present contract compliance review and complaint programs.

(d) Requests for exemptions from the Revised Washington Plan must be made in writing, with justification, to the Director, Office of Federal Contract Compliance, U.S. Department of Labor,

Washington, D.C. 20210, and shall be forwarded through and with the endorsement of the agency head.

Signed at Washington, D.C. this 2nd day of September, 1975.

JOHN T. DUNLOP,  
Secretary of Labor.

BERNARD E. DELURY,  
Assistant Secretary for  
Employment Standards.

PHILLIP J. DAVIS,  
Director, Office of Federal  
Contract Compliance.

## Notice of Oral Argument

August 26, 1975.

The Interstate Commerce Commission, will hold oral argument in the above entitled proceeding in order to provide the parties with a further opportunity to make their views known to the Commission. Oral argument is scheduled to commence at the office of the Commission in Washington, D.C. at 9:30 a.m. on Wednesday, October 1, 1975.

The October 1st date has been selected to afford the parties an advance opportunity to consider the views expressed by the other parties to this proceeding and based on that review to determine whether there is a possibility of consolidating their presentation at oral argument with other parties expressing the same or similar views. Further, the October 1, 1975, date will enable the parties to evaluate the Commission's statement delivered by Chairman Stafford on July 16, 1975. This statement attached as Appendix I hereto entitled "Statement of George M. Stafford, Chairman of the Interstate Commerce Commission, Before the Subcommittee on Transportation and Commerce of the House Committee on Interstate and Foreign Commerce on H.R. 6351 and H.R. 7681, 'together with a summary, places the proposed special procedures in context and provides the parties to this proceeding with an insight as to why the Commission prefers to consider changes through the administrative process.

In response to the notice of proposed rulemaking entered in this proceeding on June 10, 1975, served June 12, 1975 (40 FR 25603), 75 parties submitted written statements of verified facts, views, and arguments regarding the proposed procedures. Attached hereto as Appendix II

<sup>1</sup> Service list and statement of the Chairman with covering letter, are filed as part of original.

## PROPOSED RULES

is a service list of the parties submitting Procedures for Recovery of Fuel Costs, special procedures be limited to increases

is a service list of the parties submitting representations. Ten days from date of service of this notice the parties listed on Appendix II are to serve the other parties on the list with copies of their statements previously filed with the Commission. Ten days prior to oral argument the parties desiring to participate therein shall by letter advise the Commission (1) that they have complied with the service requirement; (2) the name of their representative who will appear at the oral argument on their behalf and/or representing other parties having similar positions; and (3) the approximate amount of time needed to present their position at oral argument.

Although the Commission has made no determination on the merits on whether or not to adopt the proposed regulations with or without modification, it would be helpful to the Commission if the parties at oral argument would address the following issues, which are not to be construed as all inclusive, but rather as focal points for informed discussion:

1. Is there a need for special procedures of the type contemplated by the notice of proposed rulemaking for all modes or for any one mode?

2. Has the entry of the Commission's decision in Ex Parte No. 311, Expedited

Procedures for Recovery of Fuel Costs, 350 I.C.C. 563, rendered unnecessary or undesirable the promulgation of another expedited procedure?

3. If the procedures set forth in the notice of proposed rulemaking were to be adopted on an experimental basis for one mode, several modes or all modes, should the increases be based solely on increased labor cost as was originally contemplated in Ex Parte No. 296, Procedures for Partial Recoupment of Increased Carrier Labor Costs?

4. If it were possible to fashion an expedited procedure that would clearly spell out that the Commission retains the right to suspend a general revenue proposal (or portion thereof, i.e., increases pertaining to individual commodities or weight brackets) filed under the special procedure for potential undue preference, prejudice or discrimination, would this be acceptable to the carriers and shippers alike? How do you view this proposal as compared with the rate provisions set forth in the Rail Revitalization Act of 1975 and discussed in Appendix I hereto?

5. If the special procedures were to be adopted, should the carriers utilizing the procedures be limited to one other general increase per year and should the

special procedures be limited to increases timed to become effective on a specified date as for example January 1 of each calendar year?

6. If special procedures are adopted on an experimental basis, what are your views as to the reasonableness of the proposed 5-percent figure? Would some other figure be more appropriate?

7. Does the Commission's practice of allowing interim increases pending formal investigation of rail general increases offer a viable alternative to the special procedures set forth in the notice of proposed rulemaking and should such a procedure be available to other modes absent a statutory refund provision?

Notice of oral argument shall be given to the general public by depositing a copy of this notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection and by delivering a copy of the notice, without attachments, to the Director, Office of the Federal Register for publication therein as notice to interested persons.

[SEAL] ROBERT L. OSWALD,  
Secretary.

##### CERTAIN NON-POWERED HAND TOOLS FROM JAPAN

###### Determination of Sales at Less Than Fair Value and Discontinuance of Antidumping Investigation

Information was received on August 5, 1974, that certain non-powered hand tools from Japan were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act").

For purposes of this notice, the term "certain non-powered hand tools" means chisels, punches, hammers and sledges (with or without handles), vises, c-clamps, battery service tools, micrometers, vernier calipers and dial indicators. Battery service tools include battery terminal lifters, battery post and terminal cleaning brushes, battery terminal spreaders, angle-nose pliers, booster cables and battery service kits (terminal puller, cleaning brush and two terminals).

A notice of "Withholding of Appraisal and Notice of Tentative Discontinuance of Antidumping Investigation" was published in the FEDERAL REGISTER of June 5, 1975 (40 FR 24218).

**Determination of Sales at Less than Fair Value.** I hereby determine that, for reasons stated below, punches, chisels, hammers and sledges (with or without handles), vises, c-clamps and battery

service tools from Japan, are being, or are likely to be sold at less than fair value within the meaning of section 201(a) of the Act (19 U.S.C. 160(a)).

###### Statement of Reasons on Which This Determination is Based:

Analysis of information from all sources reveals that the proper basis of comparison for fair value purposes is between purchase price of the merchandise and its adjusted home market price, adjusted third country price, or constructed value, as applicable to individual manufacturers.

Purchase price was calculated on the basis of a c.i.f. or f.o.b. price, as appropriate, with deductions for inland freight, Customs clearance charges, and a commission, as applicable.

The adjusted home market price was based on a weighted-average delivered price with deductions for inland freight, interest, advertising, catalogs, direct selling expenses, and discounts, as appropriate. Adjustments were made for difference in packing, and differences in the merchandise, as appropriate.

The adjusted third country price was calculated on the basis of the f.o.b. or c.i.f. price with deductions for inland freight, ocean freight, shipping charges and insurance, as appropriate. An adjustment was made for differences in packing, as appropriate.

The constructed value was calculated on the basis of the cost of materials and labor, the statutory minimum or actual general expenses and profit, and the cost of packing, as appropriate.

Using the above criteria, purchase price was found to be lower than the applicable adjusted home market price, adjusted third country price, or constructed value of such or similar merchandise.

Hammers from Imoto Hamono Co., Ltd., Kyoto Tool Co., Ltd., sledges from Hiroto Tekko K.K., angle nose pliers and terminal spreaders from Tashiro Seisakusho, and battery post and terminal cleaning brushes, from Japan Export Brush Co., Ltd., are excluded from this determination since 100 percent or virtually 100 percent of their export sales of these articles during the period under consideration were examined as appropriate, and the foreign market value or constructed value, as applicable, was found to be lower than the purchase price of identical merchandise in every instance.

The United States International Trade Commission is being advised of this determination.

**Discontinuance of Antidumping Investigation.** With regard to non-powered

precision measuring instruments consisting of micrometers, vernier calipers, and dial indicators, a statement of reasons for the tentative action was published in the notice of tentative discontinuance referred to above, and interested parties were afforded an opportunity to make written submissions and to present oral views in connection with the tentative discontinuance.

After consideration of all views and arguments, and for the reasons stated in the notice of "Withholding of Appraisal and Notice of Tentative Discontinuance of Antidumping Investigation", I hereby discontinue the antidumping investigation on micrometers, vernier calipers, and dial indicators from Japan.

This "Determination of Sales at Less Than Fair Value and Discontinuance of Antidumping Investigation" is published pursuant to section 201(c) of the Act (19 U.S.C. 160(c)) and section 153.15(d) of the Customs Regulations (19 CFR 153.15(d)).

DAVID R. MACDONALD,  
Assistant Secretary  
of the Treasury.

##### DEFENSE INTELLIGENCE AGENCY SCIENTIFIC ADVISORY COMMITTEE

###### Notice of Closed Meetings

Pursuant to the provisions of Section 10 of Public Law 92-463, effective January 5, 1973, notice is hereby given that closed meetings of a Panel of the DIA Scientific Advisory Committee will be held as follows:

26 September 1975—Pomponio Plaza, Rosslyn, Va.

27 September 1975—Naval Intelligence Support Center, Suitland, Md.

The entire meetings commencing at 0900 hours are devoted to the discussion of classified information as defined in Section 552(b)(1), Title 5 of the U.S. Code and therefore will be closed to the public. Subject matter is to work on a study of specialized intelligence data requirements.

MAURICE W. ROCHE,  
Director, Correspondence and  
Directives, OASD (Comptroller).

Office of the Secretary  
DEFENSE SCIENCE BOARD TASK FORCE  
ON "SYSTEMS VULNERABILITY"

Notice of Advisory Committee Meeting

The Defense Science Board Task Force on "Systems Vulnerability" will meet in closed session on 29-30 September 1975 at Lawrence Livermore Laboratory, Livermore, California.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The DSB Systems Vulnerability Task Force will review the Air Force Weapons Laboratory report on KC-135 hardness and provide an assessment of the validity and completeness of this effort. The Task Force will also review the hardness parameters used for other strategic aircraft. In accordance with section 10(d) of Appendix I, Title 5, United States Code, it has been determined that this Task Force meeting concerns matters listed in section 552(b) of Title 5 of the United States Code, specifically subparagraph (1) thereof, and that accordingly this meeting will be closed to the public.

MAURICE W. ROCHE,  
Director, Correspondence and  
Directives OASD (Comptroller).

SEPTEMBER 2, 1975.

[FR Doc.75-23648 Filed 9-4-75;8:45 am]

DEFENSE SCIENCE BOARD TASK FORCE  
ON "ELECTRONIC TEST EQUIPMENT"

Notice of Advisory Committee Meeting

Pursuant to the provisions of Public Law 92-463, notice is hereby given that the Defense Science Board Task Force on "Electronic Test Equipment" will meet in open session on 23 and 24 October 1975 in Room 9W67, National Center Building #1, 2511 Jefferson Davis Highway, Arlington, Virginia.

The session will commence at 9 a.m. each day.

The mission of the Defense Science Board is to advise the Secretary of Defense and Director of Defense Research and Engineering on overall research and engineering and to provide long-range guidance in these areas to the Department of Defense.

The primary responsibility of the Task Force is to examine the greater use of the Department of Defense of privately-developed, commercially-available, off-the-shelf electronic test equipment, including modifications thereof, with the goal of achieving economy and reliability benefits for the several Armed Services and to recommend policies and procedures which will maximize these benefits.

This will be the seventh meeting of the Task Force. The planned agenda will cover three general areas:

1. Procurement.
2. Logistics.
3. Applications Requirements and Equipment.

The detailed discussions and investigations into these general areas will be conducted by working groups made up of designated Task Force members or their designated representatives and selected Task Force Observers. Each working group will formulate proposals related to its general area of responsibility corresponding to one of the three specified above. The working group proposals as approved by the Task Force will form the basis for the ultimate Task Force recommendations.

Persons wishing to attend are advised that a reasonable quantity of seating for observers will be available on a first-come, first-seated basis. No specific arrangements or notification of desire to attend is necessary.

The Executive Secretary for the Task Force is Mr. Rudolph J. Sgro, OASD (I&L) WS, Room 2A318, Pentagon, Washington, D.C. 20301.

MAURICE W. ROCHE,  
Director, Correspondence and  
Directives OASD (Comptroller).

Bureau of Land Management  
BOISE DISTRICT ADVISORY BOARD  
Meeting

Notice is hereby given that the Advisory Board of the Boise District of the Bureau of Land Management will meet in the Boise District Office at 9:00 a.m., September 18, 1975. This will be a one day meeting.

The agenda for the meeting is as follows:

1. Orientation of Board to District programs and Advisory Board operations.
2. Election of Advisory Board officers.
3. Consideration of work plan for Board range improvement funds.

The meeting will be open to the public. Time will be made available for brief statements by members of the public. Such statements should be limited to matters set forth in the agenda. Those wishing to make an oral statement on an agenda topic should notify the District Manager, Bureau of Land Management, 230 Collins Road, Boise, Idaho 83702. Any interested person or organization may file a written statement with the Board for its consideration. Such statements may be submitted at the meeting or mailed to the District Manager. Further information concerning the meeting may be obtained from D. Dean Bibles, District Manager, 230 Collins Road, Boise, Idaho 83702. His telephone number is (208) 342-2711, Ext. 2582.

[Colorado 22923]

NORTHWEST PIPELINE CORP.  
Notice of Pipeline Application

AUGUST 28, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act

of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), Northwest Pipeline Corporation, P.O. Box 1526, Salt Lake City, Utah 84110, has applied for a right of way for a natural gas pipeline across the following lands:

SIXTH PRINCIPAL MERIDIAN, COLORADO

T. 3 S., R. 102 W.,  
Section 34: SW $\frac{1}{4}$  SE $\frac{1}{4}$ ,  
Section 35: SW $\frac{1}{4}$  SW $\frac{1}{4}$ , SE $\frac{1}{4}$  SW $\frac{1}{4}$ ,  
T. 4 S., R. 102 W.,  
Section 1: Lots 7 and 8,  
Section 2: Lot 5, SE $\frac{1}{4}$  NE $\frac{1}{4}$ , SW $\frac{1}{4}$  NE $\frac{1}{4}$ ,  
SE $\frac{1}{4}$  NW $\frac{1}{4}$ , NE $\frac{1}{4}$  SW $\frac{1}{4}$ , NW $\frac{1}{4}$  SW $\frac{1}{4}$ ,  
Section 3: Lots 5, 6, and 7, NE $\frac{1}{4}$  SE $\frac{1}{4}$ ,  
SE $\frac{1}{4}$  NE $\frac{1}{4}$ , SE $\frac{1}{4}$  NW $\frac{1}{4}$ .

The pipeline is an addition to Northwest Pipeline Corporation's natural gas gathering system in Rio Blanco County, Colorado. The purpose of this project is to enable the applicant to meet the increasing demands for natural gas.

The purposes of this notice are: to inform the public that the Bureau of Land Management will be proceeding with the preparation of Environmental and other analyses necessary for determining whether the application should be approved; and if so, under what terms and conditions; to allow interested parties to comment on the application; and to allow any persons asserting a claim to the lands or having bona fide objections to the proposed pipeline right of way to file their objections in this office. Any person asserting a claim to the lands or filing an objection must include evidence that a copy thereof has been served on the applicant. Any comment, claim, or objections must be filed with the Chief, Branch of Land Operations, Bureau of Land Management, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, within 30 days from the date of this notice.

RODNEY A. ROBERTS,  
Acting Chief,  
Branch of Land Operations.

[NM 26441]

NEW MEXICO  
Notice of Application

AUGUST 28, 1975.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for one  $\frac{1}{2}$  inch natural gas pipeline right-of-way across the following land:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 21 S., R. 28 E.,  
Sec. 30, lots 1 and 2.

This pipeline will convey natural gas across .207 miles of national resource land in Eddy County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their

name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, NM 88201.

FRED E. PADILLA,  
Chief, Branch of Lands and  
Minerals Operations.

[Wyoming 52113]

WYOMING

Notice of Application

AUGUST 27, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Stauffer Chemical Company has applied for a natural gas pipeline right-of-way across the following lands:

SIXTH PRINCIPAL MERIDIAN, WYOMING

T. 21 N., R. 103 W., sec. 6,  
T. 22 N., R. 103 W., sec. 28; sec. 32; sec. 34,  
T. 21 N., R. 104 W., sec. 12.

The pipeline will convey natural gas from wells in the NW $\frac{1}{4}$  of sec. 34, T. 22 N., R. 103 W., and the NE $\frac{1}{4}$  of sec. 5, T. 21 N., R. 103 W., to a gas gathering line in the SW $\frac{1}{4}$  of sec. 12, T. 21 N., R. 104 W., Sweetwater County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions. Interested persons desiring to express their views should send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1869, Rock Springs, Wyoming 82901.

PHILIP C. HAMILTON,  
Chief, Branch of Lands and  
Minerals Operations.

[FR Doc.75-23549 Filed 9-4-75;8:45 am]

(1) Starlings, Rothschild's Wren, and (2) We believe that the Calgary Zoological

Office of the Secretary

and locally administered components. environmental impact involved, for Single copies are available upon re-

(1) Starlings, Rothschild's Mynah (*Leucopsar rothschildi*) 1.2 animals 3 1974 2's 1973. The Woodland Park Zoological Gardens at 5500 Phinney Ave N. Seattle, WA, wishes to export these animals to the Calgary Zoological Society, Calgary, Alberta, Canada for a breeding program which has been in progress since 1972.

(2) These animals were born at the Woodland Park Zoological Gardens in 1973-1974.

(3) Calgary Zoological Society is attempting to obtain captive raised animals from a professional zoological garden rather than attempt capture of wild birds.

(4) Wildlife sought was born and raised by professional staff at the Woodland Park Zoological Gardens (a municipal zoo), 5500 Phinney Ave. N. Seattle, Washington 98107.

(5) Calgary Zoological Society, St. George Island, Calgary, Alberta, Canada T2G 3H4; Phone (403) 265-9310.

(6) Live wildlife requested by permit.

(i) The area where these birds will be housed is: flight cage off of main aviary which is 8' wide x 25' long by 8' high. It has a small pool on the ground with a continuous fresh water feed, a large number of both exotic and native plants, nest boxes and nesting materials, two feeding stations, glass on 3 sides to permit natural lighting. See Attachment A.

(ii) The present person in charge of the Aviary and waterfowl started working at Calgary in 1966. He resigned his position in 1971 to work in an Australian Zoo for two years and then rejoined the Calgary Zoo in 1973. He is an extremely knowledgeable and capable person with birds as is witnessed by the fact that over 80% of the Calgary waterfowl collection is successfully breeding with remarkable success with a large number of Passeriformes.

(iii) The Calgary Zoological Society as applicant is willing to participate in a cooperative breeding program and to contribute data to a studbook on a regular basis.

(iv) Birds will be shipped in individual compartmented cage, 10"x12"x12" (each compartment) with perch near bottom. Screened vents, bedding material, water and feed containers adequate for sustenance for 48 hours. The shipment could leave on Hughes Airwest Flight #772, from Seattle, at 9:00 AM any day, arriving Spokane, Washington at 9:50 AM, transfer to Hughes Airwest Flight #8, arriving at Calgary at 2:00 PM the same day. A total of 5 hours flight time. The Calgary Zoo will meet flight.

(v) Rothschild's Mynah—Calgary Zoological Society record for last five years.

Oct. 31, 1960....	None in collection.
Oct. 31, 1970....	Do.
Oct. 31, 1971....	Do.
Oct. 31, 1972....	Do.
Dec. 28, 1972....	1/1 bought from Mich Ken Breeding Farm, 01212 Carlevoix St., Montreal, Canada.
Aug. 18, 1973....	0/1 found dead in pen.
Oct. 31, 1973....	1/0 in collection.
Oct. 31, 1974....	Do.

The 2 that died August 18, 1973, appeared to have flown into the glass window in June; as a consequence she developed central nervous system problems and died August 18, 1973. The exhibit was immediately modified to include more branches and plants in front of window areas. Have had no problems since.

(7) See Attachment B.

(8) We believe that the Calgary Zoological Society can provide the necessary housing facility and environment conducive to propagating Rothschild's Mynahs (an endangered species.)

We therefore wish to export 1.2 Rothschild's Mynahs from Woodland Park Zoo to Calgary, in order to establish their breeding colony. Upon receipt of a valid permit, the birds would then be shipped to the Calgary Zoo via Hughes Airwest as follows:

Flight #722 departing Seattle, at 9:00 AM, arriving Spokane 9:50 AM, transfer to Flight #8 arriving in Calgary at 2:00 PM, the same day. Flight time: 5 (five) hours.

Two of the primary functions of zoological parks today are conservation and education. These birds would be placed in a breeding program which will, if successful, help to prevent the extinction of another species and at the same time add valuable information which will help in captive management and husbandry practices.

These birds will remain at the Calgary Zoological Park the remainder of their natural life.

JAMES W. POSTER, D.V.M.,  
Interim Director, Woodland Park  
Zoological Gardens, Seattle, Wash.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, N.W., Washington, D.C.

#### MARINE MAMMALS Issuance of Permit

On April 9, 1975, a notice was published in the FEDERAL REGISTER (40 FR 16105-6-7) that an application had been filed with the Fish and Wildlife Service by the Louisville Zoological Garden, Louisville, Kentucky (Robert B. Bean, Director) for a permit for the importation of two POLAR BEAR cubs from the Calgary Zoo, Calgary, Alberta, Canada.

Notice is hereby given that on August 27, 1975, as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the Fish and Wildlife Service issued a permit to the Louisville Zoological Garden, Louisville, Kentucky, subject to certain conditions set forth therein. The permit is available for public inspection during normal business hours at the Fish and Wildlife Service's office in Suite 600, 1612 K Street, N.W., Washington, D.C.

Dated: August 29, 1975.

LOREN K. PARCHER,  
Acting Chief, Division of Law  
Enforcement, U.S. Fish and  
Wildlife Service.

#### PROPOSED DESERT WILDERNESS AREA Availability of Final Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, Public Law 91-190, the Department of the Interior has prepared a final environmental statement for the Proposed Desert Wilderness Area, Clark and Lincoln Counties, Nevada.

The proposal recommends that approximately 1,322,900 acres of the Desert National Wildlife Range, in Clark and Lincoln Counties, Nevada, be designated wilderness within the National Wilderness Preservation System. It is further recommended that 76,000 acres of adjoining public domain lands administered by the Bureau of Land Management be designated wilderness at such time as they become part of the Desert National Wildlife Range.

Copies of the final statement are available for inspection at the following locations:

Regional Director, U. S. Fish and Wildlife Service, 730 N. E. Pacific Street, P. O. Box 3737, Portland, Oregon 97208.  
Refuge Manager, Desert National Wildlife Range, 1500 North Decatur Boulevard, Las Vegas, Nevada 89108.  
U.S. Fish and Wildlife Service, Division of Wildlife Refuges, Room 2280, 18th & C Streets, N.W., Washington, D.C. 20240.

Single copies may be obtained by writing the Environmental Impact Statement Coordinator, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240.

Dated: August 29, 1975.

ROYSTON C. HUGHES,  
Assistant Secretary of the Interior.

[INT DES 75-50]

#### PROPOSED LEWIS AND CLARK NATIONAL HISTORIC TRAIL Availability of Draft Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement for the proposed authorization and designation of the Lewis and Clark National Historic Trail as a component of the national trails system and invites written comment on or before October 20, 1975. Comments should be addressed to Regional Director, Mid-Continent Region, Bureau of Outdoor Recreation, Denver Federal Center, Building 41, P.O. Box 25387, Denver, Colorado 80225.

The environmental statement considers the designation of the entire 3,700-mile route between Wood River, Illinois, and the Pacific Ocean in Oregon as a national historic trail. The trail borders or passes through the States of Illinois, Missouri, Iowa, Kansas, Nebraska, South Dakota, North Dakota, Montana, Idaho, Washington, and Oregon. Development would be confined to 21 Federal, State,

and locally administered components. This action would provide 2,010 miles of land- and water-based trail (135 miles of land, 1,875 miles of water).

Copies are available for inspection at the following locations:

Office of Communications, Office of the Secretary, Department of the Interior, Washington, D.C. 20240.

Office of Information, Bureau of Outdoor Recreation, Room 4024, Department of the Interior, Washington, D.C. 20240, Telephone: (202) 343-5726.

State Clearinghouses at the following addresses:

Division of Budget, Policy Planning and Coordination, Room 122, Statehouse, Boise, Idaho 83720.

Office of Planning and Programming, State Capitol, Des Moines, Iowa 50319.

State Clearinghouse, Bureau of Budget, 103 State House, Springfield, Illinois 62706.

Office of Administration, Division of State Planning and Analysis, P.O. Box 809, State Capitol, Jefferson City, Missouri 65101.

Office of Budget and Program Planning, Office of the Governor, Helena, Montana 59601.

State Office of Planning and Programming, State Capitol, Box 94601, Lincoln, Nebraska 68509.

North Dakota State Planning Agency, State Capitol, Bismarck, North Dakota 58501.

Intergovernmental Relations Division, State of Oregon, Executive Department, 240 Cottage Street, S.E., Salem, Oregon 97310.

State Planning Agency and the Office of the Budget, State Capitol, Pierre, South Dakota 57501.

Office of Program Planning and Fiscal Management, Second Floor, House Office Building, Olympia, Washington 98504.

Budget Division, Department of Administration, 1st Floor, State House, Topeka, Kansas 66612.

Regional Offices of the Bureau of Outdoor Recreation located at the following addresses:

#### DEPARTMENT OF AGRICULTURE

##### Animal and Plant Health Inspection Service FLEMING KEY ANIMAL IMPORT CENTER

##### Notice of Meeting and Extension of Comment Period

On July 3, 1975, a Notice of Availability of Draft Environmental Statement relating to the construction of the proposed Fleming Key Animal Import Center, Key West, Florida was published in the FEDERAL REGISTER (40 FR 28111).

Comments to be received by September 2, 1975, were invited from the public, from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any

environmental impact involved, for which comments had not been requested specifically.

Among comments received to date are requests that a public meeting be held in order to provide certain individuals and interested groups an opportunity to express ideas and views concerning the proposal.

Since the Department is interested in receiving all meaningful views and comments, a public meeting will be held September 18, 1975, in the Key West High School Auditorium, 2100 Flagler Avenue, Key West, Florida at 8:00 p.m., to receive further comments concerning the Draft Environmental Statement relating to the proposed Fleming Key Animal Import Center. The meeting will be open to the public. Persons wishing to present oral views or comments will be given an opportunity to do so. Under these circumstances, it is also deemed proper to extend the original comment period from September 2, 1975 to September 18, 1975.

Therefore, written comments and other material relating to this matter may be submitted to the meeting in Key West or may be submitted to Mr. O. V. Cummings, Jr., Director, Administrative Services Division, Animal and Plant Health Inspection Service, United States Department of Agriculture, Room 5148-S, 14th and Independence Ave., S.W., Washington, D.C. 20250, on or before September 18, 1975.

Dated: August 29, 1975.

PIERRE A. CHALOUX,  
Acting Deputy Administrator,  
Veterinary Services, Animal  
and Plant Health Inspection  
Service.

#### Forest Service

##### AQUATIC WEED CONTROL Availability of Addendum to Final Environmental Statement

Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared an addendum to the final environmental statement for Aquatic Weed Control, Apache-Sitgreaves National Forests, USDA-FS-FES (Adm) R3-74-01.

The addendum to the environmental statement includes copies of internal communication from the Arizona State Clearing House and the Forest Service response.

The addendum to the final statement was transmitted to CEQ on August 28, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, So. Agriculture Bldg., Room 3028, 12th & Independence Ave., S.W., Washington, D.C. 20250.

USDA, Forest Service, Southwestern Region, 517 Gold Avenue, S.W., Albuquerque, New Mexico 87102.

Apache-Sitgreaves National Forests, Federal Building, Springerville, Arizona 85938.

Single copies are available upon request to the Forest Supervisor, Apache-Sitgreaves National Forests, Federal Building, Springerville, Arizona 85938; Regional Forester Southwestern Region, 517 Gold Avenue, SW, Albuquerque, New Mexico 87102; and the Colorado Plateau Environmental Advisory Council, P.O. Box 1389, Flagstaff, Arizona 86001. Please refer to name and number of environmental statement addendum when ordering.

Copies of the addendum to the final environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

M. J. HASSELL,  
Deputy Regional Forester, R3.

#### DEPARTMENT OF COMMERCE

##### Bureau of the Census

##### CENSUS ADVISORY COMMITTEE ON THE BLACK POPULATION FOR THE 1980 CENSUS

##### Public Meeting

The Census Advisory Committee on the Black Population for the 1980 Census will convene on October 10, 1975, at 9:30 a.m. in Room 2424, Federal Building 3 at the Bureau of the Census in Suitland, Maryland.

The Committee was established in October 1974 to advise the Director, Bureau of the Census, on such 1980 census planning elements as improving the accuracy of the population count, recommending subject content and tabulations of special use to the black population, and expanding the dissemination of census results among present and potential users of census data in the black population.

The Committee is composed of 21 members appointed by the Secretary of Commerce.

The agenda for the meeting is: (1) Developments at the Census Bureau since the last meeting, (2) 1980 census subject content plans, (3) coverage and content research, and (4) update on Minority Statistics Programs with emphasis on Community Services program.

The meeting will be open to the public, and a brief period will be set aside for public comment and questions. Extensive questions or statements must be submitted in writing to the Committee Control Officer at least 3 days prior to the meeting.

Persons planning to attend and wishing additional information concerning this meeting should contact the Committee Control Officer, Mr. Clifton S. Jordan, Demographic Census Staff, Bureau of the Census, Room 3779, Federal Building 3, Suitland, Maryland. (Mailing address: Washington, D.C. 20233). Telephone: (301) 763-5169.

Dated: August 28, 1975.

VINCENT P. BARABEA,  
Director, Bureau of the Census.

Domestic and International Business  
Administration  
[Order No. 43-2; Amdt. 2]  
**BUREAU OF INTERNATIONAL COMMERCE**  
Organization and Functions

August 6, 1975.

This order, effective August 6, 1975, amends the material appearing at 39 FR 20622 of June 12, 1974 and 39 FR 35694 of October 3, 1974.

DIBA Organization and Function Order 43-2, dated March 25, 1974, as amended, is hereby further amended, as follows:

1. Section 5. Office of Export Development

In order to reflect transfer from the Office of Market Planning of the staff support for the President's Interagency Committee on Export Expansion (PICEE), the following sentence should be added to Subsection .04 Domestic Export Programs Division: "The Division shall provide coordination and support services for the President's Interagency Committee on Export Expansion (PICEE)."

2. Pen and ink Deletion to Amendment 1:  
Amend Section 4.01, Office of Market Planning by deleting the following:

"The Office of the Director shall coordinate all Bureau publications and communications programs and information systems and shall provide coordination and support services for the President's Interagency Committee on Export Expansion."

3. SECTION 6. OFFICE OF INTERNATIONAL MARKETING is amended to read, as follows:

SECTION 6. OFFICE OF INTERNATIONAL MARKETING

.01 The Office of the Director includes: the Director who shall plan and direct the execution of the policies and programs of the Office; and the Deputy Director who shall provide principal direction to overseas operations and perform the functions of the Director in his absence. The Director shall have responsibility for any activities resulting from the participation of the United States in the International Exposition on the Environment which was held in Spokane, Washington, in 1974, and shall supervise and direct the following:

.02 The Assistant Director for Program Development shall coordinate country programs, collect foreign market data and develop the mechanism for securing the necessary approvals for country commercial programs within DIBA.

a. The Program Coordination Division shall coordinate the development of individual country commercial programs with the country marketing managers, other elements of DIBA, the State Department, Foreign Service Posts, and assure concurrence with Government policy and program documents such as Policy Analysis and Resource Allocation (PARA) and the Country Analysis and Strategy Paper (CASP).

b. The Market Research Division shall design and coordinate the program to

produce marketing information about countries, regions and markets which will identify U.S. export problems and opportunities; and shall collect specific product/industry information to assist U.S. industry in solving problems of advertising, pricing and product development in the marketing of specific products.

.03 The Assistant Director for Emergent Markets shall have responsibility for the following areas:

Northern Europe (Scandinavia, United Kingdom, Canada, Benelux).  
Western Europe (France, Germany, Austria).  
Southern Europe (Italy, Greece, Yugoslavia, Switzerland, Portugal, Spain).  
Japan, Australia, New Zealand.

.04 The Assistant Director for Emergent Markets shall have responsibility for the following areas:

Far East (including South Asia).  
Latin America.  
Africa (exclusive of Egypt, Morocco, Tunisia, Algeria, and Libya).

.05 The Developed Markets and Emergent Markets areas shall each be responsible for the content and management of country marketing programs for its assigned territory within global export priorities and targets established by the Office of Market Planning; shall serve as the focal point in DIBA for the development of the Country Commercial Program; provide overseas marketing information and counseling services to the U.S. business community and to other U.S. Government agencies; identify key economic, trade, financial, and marketing problems in overseas country or country groupings; provide to the U.S. business community a regular review of the prospects for increased U.S. exports in significant overseas markets; provide for development in detail of the annual country commercial programs; plan and direct trade promotional activities within the country, including Trade Centers and commercial fairs; within the framework of Bureau-approved country programs, provide guidance and direction to overseas personnel engaged in commercial activities; i.e., the Commercial Foreign Service, Trade Center staffs, commercial fair staffs, and other trade promotion personnel; maintain contact with foreign government representatives in the United States on matters concerning the marketing programs developed for their countries.

In addition to the functions set forth in paragraph .05, the Office of the Assistant Director for Emergent Markets shall administer the Department's responsibilities pursuant to the China Trade Act of 1922, as amended.

.06 The Assistant Director for Resources shall plan, develop and manage the fiscal and physical resources supporting and complementing the various programs of the Office; specifically it shall provide logistical support for overseas promotional activities; shall provide for exhibition design; prepare specifications and provide technical administration of contracts with private design firms; provide for the leasing, construction, operation, and promotional support of over-

seas exhibitions and seminars; provide for leasing, design, and construction of U.S. Trade Center facilities; and coordinate the shipment of exhibition products and support material. It shall also provide for program allocation of resources; coordinate the development of operational budgets and fiscal plans; shall plan and develop promotional techniques and activities as required by the Emergent Markets and Developed Markets areas to meet special export marketing needs of U.S. industry such as catalogue fairs, trade missions, in-store consumer products promotions, and seminars.

4. The attached Organization Chart supersedes the chart dated August, 1974. A copy of the chart is on file with the original of this document in the Office of the Federal Register.

CHARLES W. HOSTLER,  
Deputy Assistant Secretary for  
International Commerce.

Approved:

DONALD E. JOHNSON,  
Deputy Assistant Secretary for  
Domestic and International  
Business.

**DEPARTMENT OF HEALTH,  
EDUCATION, AND WELFARE**

Food and Drug Administration  
UPJOHN CO.

Repromix; Notice of Withdrawal of  
Approval of New Animal Drug Application

Under the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-351 (21 U.S.C. 360b)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), the following notice is issued: The Commissioner is withdrawing the new animal drug application (NADA) No. 13-578V held by The Upjohn Co., Kalamazoo, MI 49001, which provides for Repromix (medroxyprogesterone acetate premix containing 15 grams of the drug per pound), and which is intended for use for the synchronization of estrus and ovulation in breeding cattle and ewes.

The applicant has requested that approval of the application be withdrawn on the basis that the drug is not being manufactured and none has been sold since 1972.

Therefore, in accordance with paragraph (d) of § 514.115 withdrawal of approval of applications (21 CFR 514.115 (d)), notice is given that the approval of NADA No. 13-578V and all supplements and amendments thereto is hereby withdrawn, effective September 5, 1975.

A regulation published elsewhere in this issue of the FEDERAL REGISTER revokes the corresponding new animal regulations that provide for the use of the drug.

Dated: August 28, 1975.

SAM D. FINE,  
Associate Commissioner for  
Compliance.

Office of the Secretary  
**OFFICE OF THE REGIONAL DIRECTOR,  
REGION IV**  
Statement of Organization, Functions, and  
Delegations of Authority

Part 1 of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare, Office of the Secretary, (40 FR 1543-48 1/8/75) is amended to add under Section 1E84.20, Functions, the functions of the Office of the Assistant Regional Director for Planning and Evaluation and the Office of the Assistant Regional Director for Intergovernmental Affairs. The amended statement reads as follows:

Section 1E84.20H Assistant Regional Director for Planning and Evaluation.

1. Serves as a principal advisor to the Regional Director in identifying and directing activities to meet the needs and requirements for the planning and evaluation of HEW and related Federal, State, local, and private human resources programs within the Region.

2. Identifies needs, opportunities, and mechanisms for Regional Office inter-agency coordination in planning and evaluation activities, in order to better accomplish Regional Office goals and objectives.

3. Establishes and maintains an inter-governmental issues identification and a resolution process, in coordination with the Assistant Regional Director, Intergovernmental Affairs (ARD/IGA), and with this process:

a. coordinates identification and analysis of HEW-related issues needing policy clarification, and facilitates resolution of such issues; and

b. identifies on a geographic basis needs and problems in the Region with a special emphasis on target and special concern groups, and descriptions of available resources.

4. Establishes with the ARD/IGA an intergovernmental review and comment process in order to:

a. disseminate proposed National policies, legislation, and regulations within the Region.

b. analyze these proposals for Regional implications, especially in light of regional observations of needs; and

c. participate in Master Planning Calendar activities, including the forward planning process, development of preliminary budgets and model State legislation.

5. Coordinates an evaluation planning and management process which:

a. provides an interface with central office evaluation planning process;

b. identifies programs directly operated by the RD, information needed to describe programs progress and then develops instrument and techniques for measuring progress in reaching program goals; and

c. ensures for all DHEW programs dissemination of evaluation results within the Region.

6. Coordinates and monitors a Regional policy implementation planning process.

7. Develops and monitors implementation of a Regional capacity-building plan, in coordination with ARD/IGA and POCs. Identifies and assesses the constraints which impede current and/or potential participants from preparing effective program designs. Develops strategies for eliminating constraints and improving capacities. In coordination with Assistant Regional Director for Administration and Management, plans for and monitors the provisions of technical or financial assistance to general purpose governments in the development of integrated services and management systems.

8. Establishes in coordination with the Assistant Regional Director, Administration and Management and ARD/IGA, procedural and substantive criteria for the management review of those project grants covered by the RDRS system, all developmental assistance programs, and all programs serving cross-agency target groups.

9. Assists the ARD/IGA in the accomplishment of Regional manpower responsibilities by the Regional Manpower Coordination Units.

10. OPS functions are included in the model statement under K Office of the Assistant Regional Director for Administration and Management, Item 2.

11. Administers the Regional OPS program including the CO tracked objectives plus prioritized regional objectives (primarily composed of broad cross cutting issues).

Section 1E8 4.20I Assistant Regional Director for Intergovernmental Affairs.

1. Serves as a principal representative to the Regional Director and supervises a staff unit to help accomplish the Department's intergovernmental technical assistance and program coordination mission in the Region.

2. Serves as the Regional Director's representative in establishing and maintaining systematic contacts with the office of governors, Congressmen, State legislators, county executives and mayors. Recommends alternative methods for achieving goals and objectives, exercising priorities and implementing policies pertaining to relationships with State and local general purpose governments.

3. As a result of establishing a system for intergovernmental contacts, establishes and maintains a process for the identification of intergovernmental issues; refers these issues to the Regional Director, Assistant Regional Director, Planning and Evaluation (ARD/P&E), and the Regional POCs for proper analysis and resolution; and coordinates the dissemination of information on problems that have been resolved to State and local governments and representatives of private interest groups.

4. In cooperation with the ARD/P&E and POCs, coordinates and monitors procedures for securing timely State and local GPG review and comment on appropriate policies, legislation and regulations, keeps Regional Office and Headquarters Staff informed about major current developments concerning sig-

nificant new human resource legislation and policies at the State and local levels.

5. Identifies, and brings to the attention of the ARD/P&E problems and issues in the States that may be amenable to DHEW evaluation efforts; facilitates, in coordination with the ARD/P&E, the dissemination of significant human resource evaluation, and monitoring findings to and from State and local governments.

6. Ensures that the Regional Office role in the implementation of DHEW policies, through such systems as OPS, is clearly spelled out to State and local general purpose governments. In cooperation with the ARD/P&E develops a process for disseminating information on operational objectives to State and local governments and special concerns groups. In cooperation with the ARD/P&E and the POCs, attempts to ensure that State and local governments institute adequate mechanisms for implementing major common operational objectives. Provides for an exchange of information and interface with other Departments where interdepartmental efforts are required to implement policies.

7. Coordinates the planning and delivery of technical assistance to assist States and local general purpose government in the accomplishment of common program objectives.

8. Maintains liaison with ARD/P&E and POCs regarding implementation of a capacity building plan. Participates in the identification and assessment of the constraints which impede current and/or potential participants from developing effective delivery systems.

9. Participates from time to time in interagency or interdepartmental studies with responsibility for fact-finding, analysis, and making recommendations to top level policy making officials about National and intergovernmental program planning.

10. Provides guidance and staff support to the Federal Regional Council, in connection with operations and activities that require coordination with Federal, State and local governments. This includes responsibility for maximizing the Federal Regional Council's potential for improving the quality and effectiveness of intergovernmental operations. Coordinates Regional participation on the Federal Executive Board, its committees and task forces.

11. Has leadership responsibility for carrying out the Regional Office responsibilities for the CETA program. Administers and assures that the Regional Office manpower work plan is being accomplished. Participates actively in the implementation of Departmental policy for CETA through the Regional Office Manpower Coordinator and Regional Agency program-related staff. Assures and identifies the inter-relationships of DHEW CETA activities with related Departmental initiatives such as capacity building and services integration.

12. Assures that DHEW resources are provided to special concerns groups, including Indian Reservations. Develops and maintains systematic contact with

FEDERAL REGISTER, VOL. 40, NO. 173—FRIDAY, SEPTEMBER 5, 1975

eral Counsel; on all other matters he is and granting waivers, under specified

9. Reviews complaints received by the

Indian reservation tribal leaders, and the principal representatives of special concerns groups.

Dated: August 25, 1975.

JOHN OTTINA,  
Assistant Secretary for  
Administration and Management.

# OFFICE OF THE REGIONAL DIRECTOR, REGION X

## Statement of Organization, Functions, and Delegations of Authority

Part 1 of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare, Office of the Secretary is amended to delete Sections 1E (35 FR 13546), 8/25/70, and 1E8109 (39 FR 20713) 6/13/74. Section 1E80, Assistant Regional Director for Human Development (38 FR 17262) 6/29/73, is retained and redesignated 1E95. New Sections are added for the several regions. Section 1E91 reflects the official organization of the Office of the Regional Director, Region X, whose headquarters is Seattle, Washington. The new Chapter reads as follows.

**Section 1E91.00 Mission.** The Regional Director represents the Secretary in his Region. Under his direction, the Office of the Regional Director provides leadership and coordination in various Department programs and activities within the Region and represents the Department in direct official dealings with State and other governmental units, representatives of the Congress, and the general public.

**Section 1E91.10 Organization.** The Office of the Regional Director, Region X, is under the direction and control of the Regional Director, who reports directly to the Secretary and Under Secretary, and consists of the following:

Regional Director (1E9101)  
Deputy Regional Director (1E9102)  
Staff Assistant to the Regional Director (1E9103)  
Office of the Regional Attorney (1E9104)  
Regional Office of Audit (1W1391)  
Regional Office for Civil Rights (1D91)  
Regional Office of Long Term Care Standards Enforcement (1E9171)  
Assistant Regional Director, Administration and Management (1E9111)/Director of OEO (1E9104):  
Division of Personnel (1E9112)  
Division of Regional Operations for Facilities Engineering and Construction (1E9113)  
Division of Material Management (1E9114)  
Division of Management Planning and Review (1E9115)  
Assistant Regional Director, Financial Management (1E9121):  
Division of Accounting and Reporting (1E9122)  
Division of Budget (1E9123)  
Division of Grantee Liaison and Assistance (1E9124)  
Assistant Regional Director, Human Development (1E9131):  
Administration on Aging (1E9132)  
Division of Child Development (1E9133)  
Division of Youth Development (1E9134)  
Division of Native American Programs (1E9135)

## NOTICES

Rehabilitation Services Administration (1E9136)  
Assistant Regional Director, Intergovernmental Affairs (1E9141)  
Assistant Regional Director, Planning and Evaluation (1E9151)  
Assistant Regional Director, Public Affairs (1E9161)  
Office of Federal Property Assistance (1E9105)

**Section 1E91.20 Functions.** A. Regional Director (1E9101). The Regional Director:

1. Serves as the Secretary's representative in direct official dealings with State and other governmental units, and evaluates Regional, State, and local activities related to the Department's programs.
2. Develops regional priorities which emphasize the Department goals and highlight areas of particular needs or opportunities in the region so that efforts and resources may be brought to bear on them. Formulates regional plans for each priority and assures that regional agency heads achieve all their objectives in accordance with their plans. Conducts formalized planning conferences with regional representatives to assure a complete exchange of significant management information.
3. Exercises general coordination and supervision of personnel and activities in the region to ensure proper execution of policies, regulations, and instructions applicable to the Department as a whole. Recognizes interprogram disparities, exercises leadership to keep these disparities within constructive limits to assure effective, efficient, and responsive actions in the interest of total service to the public.
4. Assures that staff offices provide full support to agency operating programs.
5. Provides coordination of the activities of the principal representatives of the principal operating components who are stationed in or detailed to the region, including determination of regional program priorities and official communications with representatives of State or other Federal agencies.
6. Through coordination and supervision, exercises leadership in bringing about necessary awareness of the status of other programs of the Regional Office, and fosters cooperative relationships among program and staff representatives in seeing that plans are effectively made, operations are smoothly carried out, and performance is adequately evaluated.
7. Promotes general public understanding of the programs, policies, and objectives of the Department, and participates in the development and carrying out of a Regionwide information and public information program.
8. Establishes and maintains working relationships with Governors and key State and local officials; furnishes advice and assistance and strives to develop a mutually beneficial Federal-State-local partnership. Provides guidance to regional staff members on the priorities, emphases, and merits of various requirements based on expressions of need and analyses by governors, mayors, and other key officials.

9. Maintains working relationships with private agencies and institutions; develops ways in which their plans and programs and those of the Department can actively complement each other.

10. Develops continuing cooperative relationships with officials of the Federal agencies in the Region; through the medium of Regional Councils seeks ways in which interdepartmental delivery of program services can be made more effective.

11. In accordance with regulations and guidelines established at headquarters, administers the child development programs in the region, including the Head Start program. Makes certain Head Start grants and takes other grants actions as required.

12. Through liaison, periodic conferences, and other means, takes action to coordinate and integrate activities which are not directly associated with the regional office with regional office activities.

13. Develops plans for emergency preparedness and directs all Department activities necessary to ensure continuity of essential functions within the Region in case of an emergency due to enemy action; maintains a written plan for regional emergency operations; maintains liaison with all Federal authorities engaged in mobilization planning; acts in cooperation with them in an emergency situation; directs on behalf of the Secretary all Department activities in the Region if communications with national headquarters are cut off.

14. Directs regional activities for assistance and alleviation of distress within the region resulting from natural disasters, including major disasters under Public Law 93-288.

15. Administers, through the Office of Long Term Care Standards Enforcement, activities as herein described relating to the approval and termination of agreements with skilled nursing facilities for the purpose of participation in either the Medicare (Title XVIII) or in both the Medicare and Medicaid (Title XIX) programs.

B. Deputy Regional Director (1E9102). Serves as Acting Regional Director in the absence or disability of the Regional Director or in the event of a vacancy in the Office of Regional Director. The Deputy Regional Director performs other duties and functions at the request of the Regional Director.

C. Staff Assistant to the Regional Director (1E9103). Serves as a Staff Assistant to the Regional Director to provide direct assistance in relation to the Regional Director's personal responsibilities for program coordination in the Region and to provide staff support for the Regional Executive Council.

D. Office of the Regional Attorney (1E9104). The functions of the Office of the Regional Attorney are as follows:

1. Advises and counsels the Regional Director and operating program personnel on legal issues relating to their responsibilities within the region; on all matters within the competence of the legal profession, the Regional Attorney is subject to the supervision of the General Counsel;

on all other matters he is subject to the supervision of the Regional Director.

2. As requested by the Regional Director, assists in legal aspects of program development and of policy problem solution;

3. Provides professional legal services, such as preparation of legal instruments, memoranda, reports, and interpretive analyses;

4. Represents or counsels the Regional Director in negotiations to resolve actual and potential problems of a legal nature;

5. Provides appropriate legal assistance to state agencies and officials in connection with DHEW programs, as requested by the Regional Director;

6. As requested by the General Counsel, prepares for and conducts administrative hearings, aids the U.S. attorney in preparation for and conduct of litigation, and performs such other duties as may be requested by the General Counsel;

7. Seeks to so order his time and workload priorities as to meet the needs of the Regional Office as determined by the Regional Director;

8. Subject to final approval by the Regional Director, selects, promotes, and takes all personnel actions with respect to his professional and clerical staff, in accordance with the personnel policies of the Office of the General Counsel.

E. Regional Office of Audit (1W1391). The functional statement for the Regional Office of Audit is to be found with the statement of its parent organization.

F. Regional Office for Civil Rights (1091). The functional statement for the Regional Office for Civil Rights is to be found with the statement of its parent organization.

G. Office of Long Term Care Standards Enforcement (1E9171). Performs these functions as follows:

1. Provides recommendations to the Regional Director on administrative actions necessary to carry out those portions of Titles XVIII and XIX of the Social Security Act related to the certification by State agencies of skilled nursing facilities (SNFs) for participation in the Medicare and Medicaid programs. Those activities, within the region, which pertain to Title XVIII and the Title XIX certification include: the issuance of Title XVIII time limited agreements; for homes participating under Title XVIII or under both Titles XVIII and XIX, the approval of corrective plans of action for deficiencies in SNFs which participate either as components of larger institutions or as free standing units; granting waivers of provisions of the Life Safety Code of the National Fire Protection Association (21st edition, 1967) or provisions of Standard No. A117.1 of the American National Standards Institute, and waivers of certain other provisions of physical environment standards as they pertain to SNFs; public disclosure of State agency reports of deficiencies in SNF compliance with standards in accordance with section 1864(a) of the Social Security Act; approval of State fire codes in lieu of the Life Safety Code;

2. Establishes and maintains close working relationships with administrators of State health, welfare, and other departments involved under established agreements in the certification of an assistance to SNFs and ICFs. Performs evaluations of: State agency performance with respect to enforcing health and safety standards for SNFs and ICFs; and the state agencies' recommendations for waivers of provisions of the 1967 Life Safety Code with respect to SNFs and ICFs. Monitors States' implementation of the ICF regulations.

3. Participates in the negotiations of budgets with State survey agencies for their services and reviews those portions of the State agency budget relative to SNF/ICF certification and the provision of state consultative services to SNFs and ICFs and recommends to the Social Security Administration (SSA) Regional Commissioner and to the Social and Rehabilitation Service (SRS) Regional Commissioner amounts that should be approved for SNF and ICF certification and certification-related activities.

4. Participates with other appropriate Federal programs in evaluations of State agency certification operations which are designed to assess State survey agency performance in program management, in applying established health, safety, and Life Safety Code standards and in evaluating quality of care (e.g., participates in SSA's comprehensive program reviews of State survey agency performance and in SRS's program reviews of the Title XIX single state agency.)

5. Develops and implements procedures to assure the timely and effective conduct of the following: (a) State surveys of individual SNFs and ICFs, (b) Federal review and processing of State agency certifications and documentation pertaining to SNF compliance, (c) Federal decisions approving agreements, terminations or the granting of waivers to SNFs and (d) Federal direct validation surveys of selected SNF and ICF facilities.

6. Provides technical assistance for the professional training of State agency personnel on their duties in survey/certification and evaluation of the functional performance of SNFs and ICFs with respect to the quality of health care delivered.

7. Assists State agencies to develop their capabilities for the provision of specialized technical assistance to SNFs and ICFs of highly complex aspects of the survey requirements and on the development of acceptable plans of corrective action for overcoming deficiencies.

8. Assists States, provider organizations, and educational institutions in the stimulation, development, and implementation of training opportunities for SNF and ICF personnel in order to correct deficiencies and upgrade the quality of care offered, including mental health aspects of long term care.

9. Reviews complaints received by the Regional Directors concerning State agency and SNF/ICF activities and initiates appropriate action for investigation and resolution.

10. With SSA, SRS and the Public Health Service (PHS), as appropriate, provides information and interpretations concerning standards for the delivery of SNF and ICF services to media, consumer and provider groups, professional health associations, and other health and welfare groups.

11. Based on regional conditions and trends related to SNFs and ICFs, makes recommendations to the Office of Nursing Home Affairs (ONHA) or through ONHA, to the headquarters components of SSA, PHS and SRS, as appropriate, on revisions to present program policies criteria, standards or procedures.

12. Provides data and reports to ONHA on SNF/ICF survey/certification activities on SNF and ICF health service utilization and on the impact of certification and assessment procedures on the delivery of SNF and ICF health services. Provides reports to SSA, SRS, and PHS on the status of SNF and ICF facility compliance in the region.

13. Works with and provides information as requested to the Social Security Administration, on the following SNF related activities:

- a. Utilization review processes of SNFs;
- b. Change to provider status in the Medicare program (e.g., change of ownership, termination because of failure to provide proper financial information or because of requests for payment substantially in excess of costs or for improper or unnecessary services; or withdrawal from program);
- c. Certification of SNFs as a "distinct part" of another facility; and
- d. Requests for hearings on terminated SNFs participating in Medicare.

14. Works with and provides information as requested to the Social and Rehabilitation Service, on the following SNF and ICF related activities:

- a. Utilization and periodic medical review procedures for SNFs;
- b. Utilization and independent professional review procedures for ICFs;
- c. Level of care determinations;
- d. Recipient eligibility issues; and
- e. Cost-sharing requirements.

15. Works with, and provides information as requested to, the Public Health Service on the following SNF and ICF related activities:

- a. Health care standards development efforts of the Bureau of Quality Assurance;
- b. Utilization review determinations under Professional Standards Review Organizations;
- c. Provider improvement program initiatives of the Health Resources Administration;
- d. Comprehensive health planning determinations under section 1122 of the Social Security Act; and
- e. Other relevant SNF and ICF program activities conducted by the Health

office policy and develops procedures to

16. Coordinates with the Office of Human Development in the areas of their delegated responsibilities for, and concern with, the mentally retarded and aging.

17. Coordinates under the Office for Civil Rights in monitoring the implementation of Title VI of the Civil Rights Act of 1964 with respect to SNFs and ICFs.

18. Coordinates under the direction of the Regional Director, with regional personnel of the Office of Facilities Engineering and Property Management on matters relating to the interpretation and enforcement of provisions of the Life Safety Code.

19. Coordinates with the Department of Housing and Urban Development in implementation of Public Law 93-204.

H. Office of the Assistant Regional Director for Administration and Management (1E9111).

1. Acts as the Director, Office of Equal Employment Opportunity. Serves as the Regional Director's staff for the establishment and maintenance of a positive program of non-discrimination in Departmental employment in the Region. Has responsibility for the Regional HEW Federal Women's Program and the Regional Spanish-Surnamed Program. Monitors the Regional Equal Employment Opportunity Complaint System and issues proposed dispositions on all Office of the Secretary formal complaints. Prepares the Regional Annual Affirmative Action Plan.

2. Serves as the principal adviser to the Regional Director on, and directs or participates actively in, all aspects of administrative management, including organization, procedures, management systems, delegations of authority, management surveys and studies, and paper-work management.

3. Oversees the negotiation, procurement and administration of Regional Office contracts of a continuing nature which involve substantial expenditures.

4. Directs and coordinates the regional activities related to the operation of the Operational Planning System. Assumes the effective inter-phasing of the OPS with related program and budgetary operations.

5. Serves as the principal adviser to the Regional Director on all aspects of personnel management. Administers the regional program, including the classification of positions, the processing of appointments, and selected on-the-job training activities.

6. Provides the leadership in the establishment, maintenance, and effective use of management information and the system related thereto.

7. Establishes a system of effective property management, including the maintenance of item and financial property accounts.

8. Conducts periodic inspections of regional space and facilities to assure

the application of optimum standards and practices related to physical and personnel safety and security.

9. Insures the provision of office services to all activities in and near the regional headquarters location, including mail pick-up and delivery; procurement, stocking, and distribution of common supplies; maintenance of the official regional files; printing and reproduction services, moving and storage services.

10. Assures the delivery of the total architectural/engineering services in support of HEW grant and loan and direct Federal construction programs and of HEW owned and utilized facilities.

11. Reviews grants and contract proposals for general adherence to program goals and management soundness and exercises Regional sign-off authority as appropriate.

I. Office of the Assistant Regional Director for Financial Management (1E9121).

1. Provides financial management support to the Regional Director and Regional Agency Heads for decentralized programs and activities. Under policies and procedures established by the Office of the Assistant Secretary, Comptroller, supervises the performance of the following financial management functions: accounting and financial reporting, budget formulation and execution, and works with State and local government and HEW grantees to include indirect cost negotiation, single letter of credit implementation, technical assistance, and audit follow-up.

2. On behalf of the Regional Director, provides coordination and liaison with the HEW Audit Agency, the Treasury Department, the General Services Administration, and the General Accounting Office on financial management matters.

3. Is responsible for the financial administration and management of allotments or allowances which are issued to the Regional Director.

4. Performs Regional accounting and reporting activities: accounting, controlling, fiscal services, and reporting for all HEW activities for which the Regional Director is delegated the authority to provide such services.

5. Performs budget activities as follows: Prepares the Regional budget for activities for which the Regional Director has delegated authority and assists other Regional staffs in developing their budgets; prepares consolidated Regional budget estimates and justifications and assists the Regional Director and Regional Agency Heads in advocating program budget priorities for centralizing and decentralizing programs based on Regional needs and characteristics; supervises budget execution in the Region including the recording and distribution of budget resources based on allocations, allotments and allowances for Regional activities; prepares recommended allowances and manpower allocations for activities delegated directly to the Regional Director; oversees the development of financial operating plans for other Regional activities, reviews these plans, and provides comments to the Regional Director and other Regional personnel; develops and implements a budget data system capable of monitoring financial operating plans and maintaining current information of fund availability for Regional programs; and receives Regional personnel ceiling allowances and monitors recruitment and employment against these allowances.

6. Carries on cost allocation and payment systems activities as follows: Pursuant to delegations of authority from the Regional Director is responsible for indirect cost rate negotiations (including State and local cost allocation plans) based on cost policies and procedures established by the Division of Financial Management Standards and Procedures; provides financial management technical assistance to State and local governments and to other HEW grantees and contractors; assists the Office of the Assistant Secretary, Comptroller, to develop the single letter of credit system within the Region; and assists the Regional Director and Regional Agency Heads in assuring effective follow-up of audit findings of major managerial significance as disclosed by reviews of grantees' management systems.

J. The Assistant Regional Director for Human Development (1E9131).

1. Serves under the direct line of authority of the Regional Director.

2. Serves as the representative of the Assistant Secretary for Human Development and the Regional Director in direct official dealings with other Federal agencies, State and local activities related to Human Development Programs, and reports progress and status to the Regional Director and the Assistant Secretary for Human Development.

3. Recommends program priorities and policy or procedural changes to the Assistant Secretary for Human Development through the Regional Director.

4. Works with other elements of the Regional Office to ensure that all areas of OHD program operations in the Region receive necessary assistance, including programmatic and administrative management assistance to perform their mission effectively and efficiently.

5. Maintains working relationships with other Federal agencies, State and local governments and institutions, and develops ways in which their plans and programs and those of the Department can actively complement each other.

6. Directs, implements and administers the human development programs delegated to the Regional Office.

7. Ensures intra-departmental coordination between the Office of Human Development, other elements of the Office of the Regional Director, and the operating agencies of the Department on Human Development matters; serves as the advocate for those interests represented in the Office of Human Development with the other elements of the Department.

K. Office of the Assistant Regional Director for Intergovernmental Affairs (1E9141).

1. Serves as chief advisor to the Regional Director in all matters concerning Regional relations with State and local

governments, Congressional and Legislative offices, and other Federal departments, and to design Regional plans and strategies for improving communications and the delivery of resources among the various levels of government.

2. Serves as the Regional Director's representative in establishing and maintaining working relationships with the offices of governors, county executives, mayors, State agency officials, and consumers of HEW services. Represents the Regional Director on the Federal Regional Council staff and insures that the HEW perspective is adequately represented in FRC decisions.

3. Independently initiates beneficial relationships with principal members of government, as well as other Federal department officials. Provides the Regional Director with advice and communication to and from the legislatures of the four States of the Region, as their activity affects or is affected by HEW programs or policies. Manages Regional Office relations with members of Congress, which includes periodic briefings to Congressional delegations and staff on Regional operations, and the monitoring and approval of Congressional correspondence prior to RD sign-off.

4. Provides innovative leadership and guidance to Regional managers and program officials in developing and improving ways of assisting States to improve their capacity to respond to the needs of their localities. Conveys to Regional agency heads and program managers information concerning the political, economic and social conditions and postures of the States on current program issues. Provides technical assistance in its broadest sense to States and localities to enable them to plan for the accomplishment of common program objectives, considering changes and trends foreseen by the Department. In consultations with other ORD units, identifies recipients of and recommends appropriate expenditures for the RD's discretionary funds. Performs research, demonstration, and evaluation project management responsibilities as delegated by the RD.

5. Assists the agencies in getting the RD's backing and active support in their initiatives and problem-solving work, including his intercession with OS where needed.

6. Approves in advance all HEW Regional contacts initiated with the Governors' Offices, Congressional offices, and HEW Regional contacts with State legislators or their staffs.

7. Acts as a general HEW contact point for other elected officials, public interest groups and Federal, State, or local agencies which lack counterpart agencies in HEW. This responsibility includes relationships with minority and other special concerns groups and organizations. Coordinates such Regional activities with the OS Special Assistant for External Affairs.

8. Insures regional office compliance with the National Environmental Policy Act, National Historic Preservation Act, National Archeological Preservation Act, relates laws, executive orders, regulations and guidelines. Recommends regional

improvements located outside his jurisdiction and intended for removal to and of compliance with the terms and conditions of disposal of:

(3) To take the actions set forth in (1) (b), (c), and (e) above in connection

and agency representatives on public in-

Secretary or Under Secretary will design-

skilled nursing facilities have been af-

office policy and develops procedures to insure a coordinated and interdisciplinary approach to assist programs in the conduct of environmental analysis and preparation of documents for activities subject to the above-mentioned requirements in accordance with Departmental procedures. Identifies and advises the Regional Director as to a recommended course of action with respect to emerging environmental issues of concern to the Department and coordinates environmental reviews by regional program staff in response to other Federal agency requests for input. Appraises general purpose government, Federal Regional Councils, Clearinghouses and other concerned organizations with respect to HEW NEPA requirements and proposed actions impacting on the community. Serves as the principal regional contact point with the Department's Chief Environmental Officer and notifies him of key issues and emerging problems on which the Secretary should be advised. Participates in and coordinates regional input to environmentally related interagency studies and task forces.

L. Office of the Assistant Regional Director for Planning and Evaluation (1E9151).

1. Provides the Regional Director advice and staff services on policy development, planning and evaluation, including analysis of issues of national and/or Regional significance, long range planning, and advice and information on significant agency developments.

2. Coordinates Regional participation in the Department's long range planning process, including preparation of the Regional Memorandum and analysis of Departmental issues, such as the Planning Guidance Memorandum, Forward Plans, and Program Memoranda. Promotes the use of these planning documents in budget formulation by the Assistant Regional Director for Financial Management. Among principal activities involved in maintaining a Regional intergovernmental planning process are these:

a. Facilitating the identification of issues needing policy clarification.

b. Exploring the implications of implementing policies in the Region to determine needed Regional deviations from a national norm.

c. Identifying Regional needs by means of a bottom-up planning process.

3. Develops and maintains a system to monitor and coordinate various Regional Office activities, such as:

a. Preparation and implementation of an annual Regional Office Evaluation Plan, including design and management of evaluation projects.

b. Coordination of Regional Office input to Departmental Central Office evaluation systems.

c. Coordination of Regional evaluation system with Regional OPS and Forward Planning systems.

d. Provision of technical assistance to further develop the evaluation capability of the Regional Office and to maintain a liaison function between the various Regional agencies.

and agency representatives on public information, public reporting, and related aspects of program matters.

5. Serves as a central point of communication with the press, radio, and TV news media, issuing all news materials originating within the Regional Office and amplifying, clarifying or explaining the impact and effect within the Region of national news issued by Departmental headquarters.

6. Is responsible for overall program supervision of the Regional Office's total public information program. Coordinates and exercises functional supervision over information services and all other activities of the Regional Office related to publications, public reports, and other informational and public affairs matters. Is responsible for the clearance of all information for public distribution before its release and certification as to the necessity for all illustrations and related materials.

7. Prescribes procedures for planning, production, clearance, release, and distribution of all material prepared with the Region for release through Government channels.

8. Issues policies, standards, and procedures as may be necessary to carry out the public affairs functions and responsibilities of the Regional Office.

9. Serves as the initial denial authority for all regional documents requested under the Freedom of Information Act.

N. Office of Federal Property Assistance (1E9105).

1. Serves as principal advisor in the Region on all matters relating to Federal surplus property, real and personal.

2. Allocates Federal surplus personal property to State agencies for distribution to eligible institutions and organizations.

3. Transfers Federal surplus real property to eligible education and health organizations.

4. Exercises compliance responsibility of the donee for both personal and real property transfers.

5. Provides technical assistance and direction to State agencies under the Federal Property Assistance Program, including the approval of State plans of operation.

**Section 1E9140 Relationship to Agency Regional Staffs and Regional Audit and Regional Civil Rights Staff.** POC regional staffs and Regional Civil Rights and Regional Audit staffs are under the line direction and control of their parent headquarters organizations. The regional staffs are subject to the general leadership and coordination of the Regional Director and receive administrative, financial, and other support services from the latter's staff. The functional statements for these offices are to be found with the statements of their parent organizations.

**Section 1E9140 Order of Succession.** In the absence or disability of the Regional Director, the Deputy Regional Director serves as acting Regional Director. In the event of the absence or disability of both the Regional Director and Deputy Regional Director and where there is a vacancy in both positions, the

Secretary or Under Secretary will designate the acting Regional Director.

**Section 1E9150 Delegation of Authority.** The delegations of authority to the Regional Director to operate programs are:

A. Long Term Care Standards Enforcement.

1. Regional Directors have been delegated the following authorities under Title XVIII of the Social Security Act, as amended, which pertain to skilled nursing facility standards enforcement and which may be redelegated only to the Director, Office of Long Term Care Standards Enforcement:

a. To approve or disapprove certifications made by State agencies under the provisions of Section 1864(a), that a health care institution is or is not a skilled nursing facility as defined in Section 1861(j);

b. To enter into agreements with skilled nursing facilities as provided in Section 1866(a), including authority to determine the term of such agreements;

c. To terminate agreements, under the provisions of Section 1866(b) (2) (B), with skilled nursing facilities where such facilities no longer substantially meet the requirements of Section 1861(j);

d. To waive, for such periods as are deemed appropriate, specific provisions of the Life Safety Code of the National Fire Protection Association (21st edition, 1967) as provided in Section 1861(j) (13);

e. To determine, in accordance with Section 1861(j) (13), that the Life Safety Code of the National Fire Protection Association (21st edition, 1967) is not applicable in a State because a fire and safety code, imposed by State law, adequately protects patients in skilled nursing facilities;

f. To waive the requirement that a skilled nursing facility engage the services of a registered professional nurse for more than 40 hours a week as provided in Section 1861(j) (15);

g. To waive in accordance with 20 CFR 405.1134(c), for such periods as are deemed appropriate, specific provisions of American National Standards Institute Standard No. A117.1, American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped;

h. To waive, based on regulations, 20 CFR 405.1134(e), requirements relating to the number of beds per room and the minimum size for rooms in skilled nursing facilities; and

i. To determine, under the provisions of Section 1864(a), that State agency survey reports (including reports of follow-up reviews), and statements of deficiencies based upon official survey reports, relating to the certification of skilled nursing facilities for compliance with the applicable provisions of Section 1861 are final and official. This includes the authority to: (1) Assume that references to internal tolerance rules and practices are excluded from such reports or deficiency statements; (2) determine that such reports and deficiency statements have not identified individual patients, physicians, other practitioners, or individuals; (3) determine that involved

skilled nursing facilities have been afforded a reasonable opportunity to offer comments; and (4) make final and official reports and deficiency statements available to the public in readily accessible form and place, along with any pertinent written statements submitted by skilled nursing facilities.

2. Regional Directors have been delegated the following authorities under Title XIX of the Social Security Act, as amended, which pertain to nursing facility standards enforcement and which may be redelegated only to the Director, Office of Long Term Care Standards Enforcement:

a. Authority under the provisions of Section 1910(b) to notify the State agency administering the Title XIX State plan of the approval or disapproval of any institution which has applied for certification under Title XVIII, and the term of such approval.

b. Authority to waive, for Title XIX skilled nursing facilities for such periods as are deemed appropriate, specific provisions of the Life Safety Code of the National Fire Protection Association (21st edition, 1967) as provided in Section 1861(j) (13) of the Social Security Act.

c. Authority to waive for Title XIX skilled nursing facilities the requirement that a skilled nursing facility engage the services of a registered professional nurse for more than 40 hours a week as provided in Section 1861(j) (15) of the Social Security Act.

d. Authority vested in the Secretary under Section 1905(c) of the Social Security Act to certify intermediate care facilities located on Indian reservations.

e. Authority vested in the Secretary under Section 1905(h) of the Social Security Act to certify skilled nursing facilities located on Indian reservations.

B. Office of Federal Property Assistance.

1. Regional Directors have been delegated certain authority which may not be redelegated as follows:

a. Real property. This delegation relates to the conveyance and utilization of surplus real property and related personal property for educational and public health purposes, pursuant to section 203(k) of the Federal Property and Administrative Services Act of 1949, as amended. Each Regional Director, consistent with policies and procedures set forth in applicable regulations of the Department, is authorized:

(1) To execute deeds, contracts of sale, and all instruments incident or corollary to the transfer of land and improvements thereon, or in modification of previous transfers with respect to land and improvement cost of property where less than \$1 million;

(2) To execute all instruments of conveyance or in modification of previous transfers with respect to land and improvements thereon where the acquisition and improvement cost was \$1 million or more and the Office of Federal Property Assistance specifically authorizes closing the transaction by the Regional Office; and

(3) To execute all instruments of conveyance relating to the transfer of

improvements located outside his jurisdiction and intended for removal to and use within his jurisdiction.

b. Personal property. To act or designate a member of his staff (other than the Director, Office of Federal Property Assistance) to act as reviewing officer to approve or disapprove determinations by the Director, Office of Federal Property Assistance authorizing State Agencies to abandon or destroy surplus personal property having a line item acquisition cost of \$1,000 or more.

2. Regional Directors have been delegated certain authority related to real property which they may redelegate in writing to the Director, Office of Federal Property Assistance as follows:

a. Consistent with policies and procedures set forth in applicable regulations of the Department, to perform or take the actions stated below, with respect to disposal and utilization of surplus real and related personal property.

(1) To request and accept assignments from Federal agencies of:

(a) Improvements for removal and use away from the site;

(b) Improvements for removal to and use in another regional jurisdiction; and

(c) Land and improvements thereon where the acquisition and improvement cost of the property was less than \$1 million.

(2) To make determinations incident to the disposal of assigned property described in a(1) (a) and a(1) (c) above;

(3) To issue and execute licenses and interim permits affecting assigned property described in a(1) (a) and a(1) (c) above;

(4) To execute instruments of transfer relative to property described in a(1) (a) above; except in those cases provided for in A 1a(3).

(5) Except for execution of instruments of conveyance or in modification of previous transfers, to take all action with respect to land and improvements thereon where the acquisition and improvement cost was \$1 million or more and the Office of Federal Property Assistance specifically authorizes closing of the transaction by the Regional Director; and

(6) Incident to the exercise of the authority hereinbefore provided to receive remittances and performance guarantee deposits and bonds, to request forfeiture or release of performance bonds.

b. Consistent with the policies and procedures set forth in applicable regulations of the Department, with respect to the disposal of educational and public health purposes of surplus real property improvements and related personal property located outside his jurisdiction, but intended for removal to and use within his jurisdiction, to take actions set forth in a(2), a(3), and a(6) above.

c. Consistent with the policies and procedures set forth in applicable regulations of the Department, with respect to property within his jurisdiction previously conveyed for educational and public health purposes:

(1) To make determinations concerning the utilization and the enforcement

of compliance with the terms and conditions of disposal of:

(a) Improvements for removal and use away from the site; and

(b) Land and any improvements thereon regardless of the acquisition and improvement cost;

(2) To accept voluntary reconveyances and to effect reverter of title to land and improvements located thereon, without regard to acquisition cost;

(3) To report to the General Services Administration vested properties excess to program requirements in accordance with applicable regulations;

(4) To execute instruments necessary to carry out, or incident to the exercise of, the authority delegated in this paragraph; and

(5) Incident to the exercise of the authority delegated in this paragraph, to receive remittances and performance guarantee deposits and bonds, to request refunds or payments, and to request forfeiture or release of performance bonds.

d. With respect to the States within the jurisdiction of his region, consistent with the policies and procedures of the Department, to enter into cooperative agreements, under section 203(n) of the Act, with State Agencies for Surplus Property.

3. Regional Directors may redelegate in writing the following authority related to personal property to the Director, Office of Federal Property Assistance: the latter may likewise redelegate in writing the authority to the Deputy Director, OFPA. The Director, OFPA, may also redelegate in writing to his allocator(s) the authority stipulated in a(1) (a), a(1) (b), and a(1) (e), insofar as a(1) (e) pertains to a(1) (a) and a(1) (b):

a. Consistent with policies set forth in applicable regulations and procedures of the Department.

(1) To perform or take the actions stated below with respect to the allocation for donation of surplus personal property located within his jurisdiction for educational, health, or civil defense purposes.

(a) To make determinations concerning the usability of and need for surplus personal property by educational or health institutions and civil defense organizations;

(b) To allocate surplus personal property and to take all actions necessary to accomplish donation, or transfer of property so allocated;

(c) To make determinations of eligibility of educational and public health donees to acquire donable property;

(d) To designate individuals recommended by State agencies as State representatives for the purpose of inspecting and screening surplus personal property; and

(e) To execute all instruments, documents, and forms necessary to carry out, or incident to the exercise of, the foregoing authority.

(2) To allocate property within his jurisdiction to any other regional jurisdiction and to take the actions set forth in (1) (b) above in connection with such out-of-region allocation.

(3) To take the actions set forth in (1) (b), (c), and (e) above in connection with any property that is available for transfer to his jurisdiction from another region.

(4) With respect to personal property located within his jurisdiction and in possession of State agencies for subsequent donation for educational, public health, and civil defense purposes:

(a) To effect redistribution of usable and needed property to other State agencies;

(b) To authorize and execute instruments necessary to carry out cannibalization, secondary utilization, and revision of acquisition cost of property;

(c) To recommend to GSA for disposal, property excess to the needs of State agencies; and

(5) With respect to personal property located within his jurisdiction previously donated for educational and public health purposes:

(a) To make determinations and take actions appropriate thereto concerning the utilization of such property, including retransfer and the enforcement of compliance with terms and conditions which may have been imposed on and which are currently applicable to such property;

(b) To execute instruments necessary to carry out, or incident to the exercise of, the authority delegated in (a) above;

(c) To recommend to GSA for disposal, property excess to the needs of donees, except boats over 50 feet in length and aircraft;

(d) Incident to the exercise of the authority delegated in this paragraph, to request refunds or payments; and

(e) To authorize and execute instruments necessary to carry out sales, abrogations, revision of the period of restriction, secondary utilization or cannibalization, revision of acquisition cost, trade-in of an item on a similar replacement, and destruction or abandonment of property in the custody of donees.

(6) With respect to the States within the jurisdiction of his region, to approve State plans of operation and amendments thereto submitted by State agencies for surplus property: Provided, however, That disapproval of a State plan in whole or in part is concurred in by the Director, Office of Federal Property Assistance.

(7) With respect to the States within the jurisdiction of his region, to enter into cooperative agreements, under section 203(n) of the Act, with State agencies for surplus property of such States, either individually or collectively.

4. The Director, Office of Federal Property Assistance has been delegated certain authority related to personal property directly by the Director of the Office of Federal Property Assistance, DHEW. The authority may be redelegated in writing to the Deputy Director, OFPA.

a. Consistent with policies set forth in applicable regulations and procedures of the Department.

(1) To authorize destruction or abandonment by a determination in writing that the property has no commercial

value, subject, however, to approval of such determination in the case of property having a line item acquisition cost of \$1,000 or more, by a reviewing officer before authorization to destroy or abandon is given to the State agency.

C. *Office of Human Development.* 1. Regional Directors have been delegated the certain authorities by the Assistant Secretary for Human Development as follows:

a. Under the general policies and in such form as prescribed by the Director, Office of Child Development (and approved by the Assistant Secretary for Human Development) and in conformity to the allocations and financial guidelines of the Director, Office of Child Development to make grants under section 511 of the Community Services Act of 1974 (Project Head Start), except insofar as such grants are for programs which primarily serve migrants or Indians living on Federal reservations. This authority may be redelegated.

b. Under the general policies and in such form as prescribed by the Assistant Secretary for Human Development and in conformance with the allocations and financial guidelines issued by him, Regional Directors are authorized to make grants or contracts under the authority of Title I of the Juvenile Delinquency Prevention Act. The Regional Director is authorized to redelegate this authority only to the Assistant Regional Director for Human Development without the concurrence of the Assistant Secretary for Human Development.

c. To make grants and contracts for Urban Indian Projects under the authority of section 893 of the Community Services Act of 1974.

d. To make, amend, suspend, and cancel the grants and contracts authorized in "a", "b" and "c" above and to issued audit disallowances as well as to receive appeals on and make final decisions on such disallowances.

Dated: August 25, 1975.

JOHN OTTINA,  
Assistant Secretary for  
Administration and Management.

#### Office of the Assistant Secretary INCIDENT AND NATURE OF RUNAWAY BEHAVIOR

##### Notice of Program Results

Pursuant to Section 606 of the Community Services Act of 1974, (Pub. L. 93-644) 42 USC 2946, this agency announces the results, findings, data and recommendations reported as a result of activities associated with HEW project entitled, "The Incidence and Nature of Runaway Behavior."

This final report presents a feasibility study in estimating the incidence of runaway youth, through a survey technique. The estimate was derived from incidence observed in a selected subset of households in the Denver and North East Colorado area, representing both a urban and rural setting. The sample in-

cluded data from 2500 households with known runaways.

The report discusses issues of feasibility and recommends that a national probability sample be used in estimating the incidence of runaway youths. The episodic, social-psychological and human service information collected by the survey are the basis for discussions of the incidence and explanation of runaways.

General findings report satisfaction by a majority of users with agencies providing services to runaways and their families. The most frequently utilized sources of assistance are social service agencies, friends and relatives, police, and schools. Many users also expressed satisfaction with advertised runaway shelters.

Finally, seven types of runaways are characterized by the analysis. In addition, five generalized models or typical episodes are described in the report.

A copy of the report will be filed and available as soon as possible from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151.

Dated: September 2, 1975.

WILLIAM A. MORRILL,  
Assistant Secretary for  
Planning and Evaluation.

#### EXCLUSIVE PATENT LICENSE Notice of Proposed Issuance

Pursuant to § 6.3, 45 CFR, Part 6, notice is hereby given of intent to issue a limited-term, revocable, exclusive patent license in and to an invention of Theodor Kolobow entitled, "Method of Making Thin Defect-Free Silicone Rubber Films and Membranes."

Any objection thereto together with request for opportunity to be heard, if desired, should be directed to the Assistant Secretary for Health, Department of Health, Education, and Welfare, 330 Independence Avenue, S.W., Washington, D.C. 20201, on or before October 7, 1975. Interested parties may obtain a copy of the patent directed to this invention upon request in writing to the party hereinabove named.

45 CFR 6.3

Dated: August 27, 1975.

RUPERT MOORE,  
Acting Assistant Secretary  
for Health.

#### DEPARTMENT OF TRANSPORTATION

Coast Guard  
[CGD 75-169]  
COAST GUARD ACADEMY ADVISORY  
COMMITTEE

##### Notice of Open Meeting

In accordance with § 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that the

Coast Guard Academy Advisory Committee will conduct an open meeting on October 9 and 10, 1975, at the United States Coast Guard Academy, New London, Connecticut. The meeting will begin at 1:00 p.m. on October 9, and adjourn at 9:30 p.m. On October 10 the meeting will begin at 8:00 a.m. and adjourn at 3:15 p.m.

Members of the committee and their positions are:

RADM William A. Brockett, USN (Ret).

Dean Lindsey Cowen—Chairman, The Franklin Thomas Backus School of Law, Case Western Reserve University.

Mr. James J. Henry, President, J. J. Henry Company, Inc.

Dr. Melvin R. Lohmann, Dean, College of Engineering, Oklahoma State University.

Dr. Luna I. Mishoe, President, Delaware State College.

Dr. James D. Palmer, President, Metropolitan State College.

RADM W. A. Jenkins, USCG—Executive Director, Superintendent, U.S. Coast Guard Academy.

Items to be discussed include:

a. Review of Spring 1975 Advisory Committee recommendations.

b. Academic program.

c. New England Association of Schools and Colleges accreditation and conditions.

d. Review of Engineers' Council for Professional Development accreditation and conditions.

e. Faculty (balance; quality; professional growth).

f. Rehabilitation and growth of McAllister Hall.

g. Communications.

h. General discussion with the Academic Council.

i. Programs, personnel and physical plant.

The Coast Guard Academy Advisory Committee was authorized by Congress on April 16, 1937. Its mission and objective is to advise the Commandant, United States Coast Guard, on the status of the curriculum and faculty of the United States Coast Guard Academy and to make recommendations for maintenance and improvement of their high quality. By notice published in the January 6, 1975, FEDERAL REGISTER (40 FR 1115), the Coast Guard Academy Advisory Committee was renewed by the Secretary of Transportation for a two year period beginning on January 16, 1975, and terminating on January 16, 1977.

Public members of the committee serve voluntarily and without compensation, except for reimbursement of actual travel and lodging expenses, plus a subsistence allowance.

Interested persons may seek additional information by writing to Commandant (G-PTE), U.S. Coast Guard, Washington, D.C. 20590 or by calling 202-426-1381.

Dated: August 15, 1975.

R. W. DUFFEY,  
Rear Admiral, U.S. Coast Guard,  
Chief, Office of Personnel.  
[FR Doc.75-23376 Filed 9-4-75; 8:45 am]

#### Federal Aviation Administration AIRPORT NOISE POLICY Public Hearings

The Federal Aviation Administration will hold a series of public hearings on its airport noise policy. These hearings will afford interested persons the opportunity to present views, data, and arguments regarding the subjects and issues stated in a general notice published in the FEDERAL REGISTER on July 9, 1975 (40 FR 28844). Additional hearings at other locations will be announced at later dates.

The first of the series of hearings will be conducted at the following times and locations:

Sept. 16-17, 1975—Los Angeles, California: Convening at 9:00 a.m. in the Golden State Room, Los Angeles Hilton Hotel, 930 Wilshire Boulevard, Los Angeles, California.

Sept. 17, 1975—San Diego, California: Convening at 1:00 p.m. in the Copper Room, San Diego Convention and Performing Arts Center, 202 "C" Street, San Diego, California.

Sept. 18-19, 1975—San Francisco, California: Convening at 1:00 p.m. on Sept. 18, and 9:00 a.m. on Sept. 19, 1975 in the Fine Arts Room, Hall of Flowers Auditorium, San Mateo County Fairgrounds, 2495 South Delaware Street, San Mateo, California.

Sept. 22—Missoula, Montana: Convening at 1:00 p.m. at the Village Motor Inn, 100 Madison, Missoula, Montana.

The hearings will be informal in nature and will be conducted by a designated representative of the Administrator.

Since the hearings will not be evidentiary or judicial in nature, there will be no cross-examination or other adjudicatory procedure applied to the presentations. However, interested persons wishing to make rebuttal statements will be given the opportunity to do so at the conclusion of the presentations in the same order in which initial statements are made.

Interested persons are invited to attend the hearings and to participate by making oral or written statements concerning the respective topics, their substance and issues. Written statements should be submitted in duplicate and will be made a part of the record of proceedings. Persons wishing to make oral statements at the hearings must notify the FAA that they desire to be heard, and indicate the amount of time requested for their initial statements. Presentations will be scheduled on a first-come-first-served basis, as time may permit. Requests to be heard or to receive additional information should be made as follows:

For the hearings at Los Angeles, San Diego, and San Francisco, California—write or call:

Public Affairs Officer, Western Region (AWE-5), Federal Aviation Administration, 18000 Aviation Boulevard, Lawndale, California, 90260; or Telephone: (213) 536-6431.

For the hearings at Missoula, Montana—write or call:

Public Affairs Officer, Rocky Mountain Region (ARM-5), Federal Aviation Administration, 10455 East 25th Avenue, Aurora, Colorado 80010; or Telephone: (303) 837-4992.

In addition to materials presented at the hearing, persons not participating in the hearings are invited to submit written comments on the airport noise policy in accordance with the notice published in the FEDERAL REGISTER on July 9, 1975. Such communications should be addressed to:

Federal Aviation Administration: Associate Administrator for Policy Development and Review, 800 Independence Avenue, S.W., Washington, D.C. 20591, Attention: Airport Noise Policy Proceedings.

The closing date for submitting written comments is January 1, 1976. All comments will be available for examination both before and after the closing date for comments.

The general notice (40 FR 28844, July 9, 1975) regarding the FAA's airport noise policy identifies a number of possible airport use-restriction options which may be considered for inclusion in an airport noise relief program. In addition, the FAA identified four potential policy options and their implications. Those policy options are as follows:

1. Airport proprietor actions unconstrained by the FAA.

2. Airport proprietor completely constrained by the FAA with a correlated development of a Federal airport noise abatement plan.

3. Airport proprietor to establish a noise abatement plan.

4. Continue the present policy.

The notice presents analysis of the respective options and contains the material that is the subject of these public hearings. While all comments are of interest, the FAA specifically invites statements or comments regarding the policy options in terms of the specific questions stated in the notice.

Before taking final action regarding its airport noise policy, the FAA will consider the statements presented at the hearings and all written comments submitted.

Transcripts of each hearing will be made and anyone may purchase copies from the reporter. A transcript of each hearing will be available for examination in the office of the Associate Administrator for Policy Development and Review, Room 1000W, 800 Independence Avenue, S.W., Washington D.C.

Since the hearings contained in this notice have been previously announced in their respective localities in which they will be held, it is determined that publication of the notice of public hearing in the FEDERAL REGISTER less than 15 days before the first hearing is reasonable under 44 U.S.C. 1508.

Issued in Washington D.C. on September 3, 1975.

FREDERICK A. MEISTER,  
Associate Administrator for Policy  
Development and Review (Acting).  
[FR Doc.75-23734 Filed 9-4-75; 8:45 am]

#### TERMINAL INSTRUMENT PROCEDURES (TERPS) ADVISORY COMMITTEE; HELICOPTER WORKING GROUP

##### Meeting

Notice is hereby given, pursuant to the Federal Advisory Committee Act of 1972 (86 Stat. 770), that the Helicopter Working Group of the U.S. Terminal Instrument Procedures (TERPs) Advisory Committee will hold a meeting September 17 and 18 convening at 9 a.m. in Room 5A, Federal Aviation Administration, 800 Independence Avenue, S.W., Washington, D.C. This meeting of the Helicopter Working Group is conducted with approval and under the auspices of the TERPs Advisory Committee.

The agenda item for this meeting is a discussion and review of the obstacle clearance requirements applicable to helicopter instrument approach procedures presently specified in Chapter 11 of the TERPs Handbook.

This meeting is open to the public. Persons interested in attending the meeting should contact Juan K. Croft, Chairman, TERPs Helicopter Working Group, Federal Aviation Administration, AFS-824, 800 Independence Avenue, S.W., Washington, D.C. 20591, telephone 202 426-8194.

Issued in Washington, D.C., on September 2, 1975.

JAMES A. FORGAS,  
Chairman, U.S. Terminal Instrument Procedures (TERPs) Advisory Committee.

#### National Highway Traffic Safety Administration

[Docket No. EX75-8; Notice 3]

##### KOEHRING CO.

#### Petition for Exemption From Federal Motor Vehicle Safety Standard

Koehring Company has petitioned the National Highway Traffic Safety Administration for an extension until December 1, 1976, of its exemption from Federal Motor Vehicle Safety Standard No. 121, Air Brake Systems, on the basis that compliance would cause it substantial economic hardship.

Notice of Koehring's original petition was published on February 13, 1975 (40 FR 6702), and an opportunity afforded for comment. The notice that the petition was granted was published on April 22, 1975 (40 FR 17775).

Koehring requests an extension based upon the reasons set forth in both its original and current petitions. The vehicles concerned are trucks, primarily hydraulic excavators and crane carriers manufactured by its Bantam Division. They are six-wheel units with front driving steerable axles. The smaller models are the T-644 excavator and T-350 crane using steering driving axles rated at 11,000 pounds GAWR. The larger models are the T-744 excavator and the T-588 crane using steering driving axles rated at 18,000 pounds GAWR. Koehring states that it has been unable to find a supplier

other than Rockwell Standard to build Highway Safety Act Sanctions Hearing. Judge at time of the prehearing confer-

hold products containing vinyl chloride

caused by exposure to the substance. The

presents the possibility that cans will

other than Rockwell Standard to build front driving axles for its lighter vehicles, but "Because of previous order commitments Rockwell Standard will not be able to deliver complying axles to Koehring [until approximately July 1976]." Although Oshkosh Truck Corporation had commented that it could supply Koehring with axles for its heavier vehicles, Koehring, after investigation, believes that Oshkosh is not a realistic source of supply. The axle ratings differ, and, in Koehring's words, "The Oshkosh Truck axles use air over hydraulic brakes whereas Bantam Division uses full air brakes; the gear ratios available from Oshkosh Truck would require redesign of the gears currently in use by Bantam Division whereas the Rockwell Standard axles would not; the price quoted by Oshkosh Truck is approximately \$4,300 to \$4,500 per axle as compared to Rockwell Standard's quote of \$2,700 per axle." Koehring also argues that to turn to Oshkosh "would require Bantam to . . . start afresh with new designs . . . which might further delay . . . the date on which Bantam Division would comply with FMVSS-121 . . ."

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on the subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition of Koehring Company described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, SW., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent possible. Notice of action upon the petition will be published in the FEDERAL REGISTER.

Comment closing date: October 6, 1975. (Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.)

Issued on August 29, 1975.

ROBERT L. CARTER,  
Associate Administrator,  
Motor Vehicle Programs.

The applicant requests that its application be processed under the expedited procedures set forth in Subpart M of Part 302 (14 CFR Part 302).

[SEAL] EDWIN Z. HOLLAND,  
Secretary.  
[FR Doc. 75-23631 Filed 9-4-75; 8:45 am]

#### CONSUMER PRODUCT SAFETY COMMISSION

##### SELF-PRESSURIZED HOUSEHOLD SUBSTANCES CONTAINING VINYL CHLORIDE

##### Notice of Environmental Assessment and Reconsideration

On August 21, 1974 the Commission published in the FEDERAL REGISTER, 39 FR 30112-30114 a regulation promulgated pursuant to section 2(q)(1)(B) of the Federal Hazardous Substances Act (FHSA), 15 U.S.C. 1261(q)(1)(B), declaring any self-pressurized products intended or suitable for household use that contain vinyl chloride monomer as an ingredient or in the propellant to be "banned hazardous substances". In the same notice the Commission declined to exercise any discretion which it might have had under the FHSA, to make its banning order prospective only, thus requiring repurchase under the provisions of section 15, FHSA, 15 U.S.C. 1274, and regulations promulgated thereunder, 16 CFR 1500.202. The banning order as well as the repurchase requirements became effective on October 7, 1974.

On October 8, 1974 a petition for review of the Commission's order insofar as it affected goods introduced into interstate commerce prior to the effective date of the order was filed in the United States Court of Appeals for the Ninth Circuit. Pactra Industries, Inc. v. Consumer Product Safety Commission, No. 74-2902. Petitioner filed a motion for partial summary reversal with the Court alleging that the Commission erred in failing to comply with the requirements of the National Environmental Policy Act (NEPA), 42 U.S.C. 4321 et seq. On December 13, 1974 the Court stayed that portion of the Commission order requiring repurchase and disposal of all house-

hold products containing vinyl chloride monomer pending compliance by the Commission with the requirements of NEPA.

Thereafter, the Commission's Bureau of Economic Analysis was instructed to take any necessary steps to comply with the requirements of NEPA. Numerous draft environmental assessments were prepared. Comments were received from members of the Commission's staff and from counsel for Pactra Industries, Inc. with respect to one draft assessment. Under the Commission's "openness policy" draft assessments and comments were available to the public as the work progressed.

On June 30, 1975, the staff's final assessment on the environmental effects of the repurchase requirement was submitted to the Commission for its review. The assessment concluded that the repurchase requirement would produce no significant adverse effects on the human environment. On the basis of the assessment, the Commission in accordance with the guidelines of the Council on Environmental Quality (CEQ), 40 CFR 1500.11(f), on July 11, 1975, preliminarily decided that no formal environmental impact statement was necessary and reaffirmed its decision regarding repurchase. Thereafter, the Commission's General Counsel forwarded the assessment to CEQ for its evaluation as to whether the assessment and the procedures utilized in preparing the assessment were in compliance with NEPA and the policies and guidelines of CEQ. On August 4, 1975, CEQ responded advising that "the assessment procedures . . . followed are consistent with those recommended in the Council on Environmental Quality Guidelines . . . and that the assessment is sufficient and considers the relevant environmental effects of the repurchase requirement." CEQ further advised that "the assessment provides the Commission with sufficient information on which to base its negative declaration as required by [NEPA] and the CEQ Guidelines."

Based on the information provided in the assessment, the opinion of CEQ, and other information available, the Commission concludes that the repurchase requirement is necessary for the safety of the public and will not have any significant adverse environmental effect. It therefore reaffirms its decision requiring repurchase as set forth in its regulation published August 21, 1974, 39 FR 30112-30114.

At the time of its initial consideration of the ban of vinyl chloride monomer, the Commission through notice and comment was advised that the substance was no longer utilized in the manufacture of products subject to the Commission's jurisdiction. Discontinuation of manufacture occurred in early 1974. The Commission was advised, however, that stocks of products containing the substance were in the channels of commerce and in the hands of consumers. The Commission decided that repurchase was the only feasible manner to eliminate any danger to the public

caused by exposure to the substance. The environmental assessment together with all of the other information before the Commission demonstrates that repurchase will not produce any significant adverse effects on the human environment and further convinces the Commission that its initial decision regarding repurchase was necessary and proper.

At the time of its initial decision, the Commission was faced with only two options: to reverse the flow of vinyl chloride away from the consumer, or to allow the products to remain in use until available stocks were exhausted. The Commission opted for immediate reversal of the flow rather than allowing the supply of the products to be exhausted. The Commission was of the belief that the potential cancer producing effects were so dangerous that this was the only manner in which to insure the protection of the public. The evidence before the Commission demonstrated that the substance had caused numerous deaths and in at least two cases where the victims had only been exposed to relatively small doses. Moreover, the record was devoid of any mention of a known safe level of exposure to vinyl chloride monomer. Finally, the record demonstrated that the latency period between exposure and symptoms to be so long that present testing could not conclusively demonstrate a safe exposure level. On the basis of this evidence, the Commission, in fulfilling its mandate under the FHSA concluded that the risk of injury to the public was so great that a ban and repurchase of products containing the substance was required. Without the repurchase requirement there would be little or no incentive for consumers to get the products out of the household or for the retailers and others in the distribution chain to remove the products from the shelves and out of the channels of commerce. Although the danger posed by vinyl chloride monomer has been publicized, the consumer in many instances is unable to determine which products contain the substance and which do not. Prior to the Commission's action herein, vinyl chloride was not considered to be a hazardous substance and thus no labeling requirement was in existence and in fact many of the products involved do not designate ingredients. Apart from labeling is the fact that many consumers may still be unaware of the dangers of vinyl chloride, even if the ingredients of the products are labeled. On balance, the dangers posed by use of the substance far outweigh the financial burden of repurchase.

Adding the current environmental assessment into the equation, the balance tips decidedly in favor of the Commission's earlier determination. The assessment demonstrates that absent any repurchase requirement, the products already in commerce containing vinyl chloride monomer will be sold and used thus exposing the user to the dangers of the substance. Disposal of the containers would be accomplished in a conventional manner by normal incineration or by dumping in common landfills. This

presents the possibility that cans will explode or otherwise release the vinyl chloride gas during the disposal process and poses an additional danger to persons exposed to the substance during disposal.

The only potential environmental hazard posed by the repurchase requirement appears to be the disposal of large concentrations of cans containing the substance. The Environmental Protection Agency (EPA) Office of Solid Waste Management has issued guidelines for the safe disposal of aerosol cans containing vinyl chloride. EPA recommends incineration in special facilities equipped with "scrubbing" devices as the preferred method of disposing of aerosols containing vinyl chloride. Use of this method eliminates both the vinyl chloride gas and any dangerous metallic residues remaining from the active ingredient in the products. EPA has also advised that burial of the aerosols in certain designated landfills set aside for hazardous industrial wastes is acceptable if suggested procedures are followed. Both of these methods of disposal are available and no additional facilities or other resources such as land are necessary.

The number of aerosol cans in existence which are affected by the repurchase requirement is small in comparison to the total number of aerosols generally. The assessment estimates that approximately 3.3 million cans of vinyl chloride aerosols are in existence. Of these, approximately 1 million are in the hands of manufacturers, wholesalers and retailers. The remaining 2.3 million cans are in the possession of the consumer public. The estimates were determined through a survey of manufacturers and the use of recognized market survey techniques, and appear to provide an accurate evaluation. At the present time, approximately four large concentrations (35,000-500,000 cans) of products containing vinyl chloride monomer exist but adequate techniques exist for their disposal. The repurchase requirement is not expected to produce any other large concentrations.

Given the health hazards posed and the fact that disposal of concentrations of vinyl chloride aerosols can be accomplished without any significant environmental danger by following the EPA guidelines, the Commission believes that the repurchase requirement will not have a significant adverse effect on the human environment. The Commission is aware of the possibility that disposal of all of the products may not be accomplished in accordance with EPA guidelines. This most likely could occur in the case of small lots of the products. The Commission does not believe that this poses any greater environmental problem than that which would occur through use and conventional disposal of the containers. To the extent that this raises any problem, the Commission believes that the environmental effects of improper disposal will be de minimis and certainly will not outweigh the safety hazard of continued use.

The Commission requests appropriate comment on draft environmental impact

XUM

The Commission requests appropriate industry officials to conduct their repurchase and disposal guidelines suggested by EPA. The Commission expects that industry will act responsibly in arranging safe and orderly repurchase and disposal in the fashion recommended. The Commission notes that many states and municipalities have adopted codes for the disposal of hazardous wastes. In many instances these regulations are in conformity with EPA guidelines and will insure the proper disposal of the products involved. To date the Commission has not initiated any seizure actions against the products in question. However, if at any time it deems it necessary to initiate such action, the Commission, in the event it is successful in such actions will recommend to the Courts disposal methods consistent with the EPA guidelines.

Dated: August 29, 1975.

SADYE E. DUNN,  
Secretary, Consumer Product  
Safety Commission.

[FR Doc. 75-23623 Filed 9-4-75; 8:45 am]

#### SPACE HEATERS

##### Partial Denial of Petition

Section 10 of the Consumer Product Safety Act (15 U.S.C. 2059) provides that any interested person may petition the Consumer Product Safety Commission to commence a proceeding for the issuance of a consumer product safety rule. Section 10 also provides that if the Commission denies such a petition, it shall publish its reasons for denial.

On January 10, 1974, the Missouri Public Interest Group (MoPIRG) petitioned the Commission to develop mandatory standards and labeling requirements addressed to safety problems associated with space heaters. Section 7 of the Consumer Product Safety Act (15 U.S.C. 2056) provides that a proceeding for development of a consumer product safety standard is begun by publishing a Notice in the FEDERAL REGISTER. This Notice of Proceeding invites any person or group to either submit an existing standard or offer to develop a new standard which could eliminate or reduce unreasonable risks of injury associated with a consumer product.

On October 31, 1974, the Commission concluded that the MoPIRG petition should be granted "in substance" and requested that the staff present it with information from which the Commission could preliminarily determine whether an unreasonable risk of injury existed with regard to space heaters. Upon review of further information from the staff, the Commission concluded, on January 9, 1975, that the notice to commence proceedings, (Notice of Proceeding) for issuance of a consumer product safety standard, should apply only to gas space heaters. Therefore, the Commission decision denied the petition as to other types of space heaters.

The Commission's decision to proceed with development of a mandatory standard addressed only to gas space heaters

was made after study and evaluation of data available at this time on all space heaters which indicated that only gas space heaters presented an unreasonable risk of injury to consumers.

Specifically, gas space heaters are associated with serious hazards that are not present in electric space heaters, such as carbon monoxide poisoning, anoxia and explosion. Death and injury information available to the Commission indicates a high rate of injurious or fatal incidents involving gas.

The Commission expects to publish, in the near future, a Notice of Proceeding to commence development of a consumer product safety rule which will apply only to gas space heaters. The Commission believes that the decision to develop a standard for gas space heaters is needed to reduce the unreasonable risk of injury associated with gas space heaters.

Accordingly, this notice confirms that MoPIRG's petition to develop a standard for space heaters has been granted as to gas space heaters and denied at this time as to space heaters fueled by other energy sources.

Dated: August 29, 1975.

SADYE E. DUNN,  
Secretary, Consumer  
Product Safety Commission.

#### COMMISSION ON THE REVIEW OF THE NATIONAL POLICY TOWARD GAMBLING

##### HEARINGS

Pursuant to the Provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat., 770), notice is hereby given that the Commission on the Review of the National Policy Toward Gambling, established under authority of Section Pub. L. 91-452, Part D, Sec. 804-808 of the Organized Crime Control Act of 1970, will hold hearings on September 23-25, 1975, in the Everett Dirksen Conference Room, U.S. Federal Building and Court House, 219 South Dearborn Street, Chicago, Illinois.

The purpose of the above-described hearings is to elicit testimony from Federal, State, and local Government officials, law enforcement representatives and such others who might have knowledge as to the existence and character of gambling and gambling-related activities in Chicago and other areas, both legal and illegal, and as to the effectiveness of gambling enforcement toward the element of organized crime in the United States.

The hearings of the Commission will be open to the public, and interested persons are invited to attend. The Rules of Procedure for person or persons presenting matters to the Commission are subject to the following conditions:

(a) Any such interested person or persons must receive authorization to present such matters from the Chairman of the Commission. Not later than seven (7) days preceding such Executive or Public Hearings, a request for such authorization

must be received in writing at the offices of the Commission. Such a request shall be accompanied by a concise description of the material which such person or persons desire to present to the Commission or Subcommittee.

(b) The Chairman of the Commission shall, within three (3) days from the receipt of such a request make a determination that the subject matter presented by such interested person or persons is timely and appropriate for such Executive or Public Hearings of the Commission or Subcommittee thereof, and shall notify such interested person or persons by Certified Mail of the decision.

(c) In the event such interested person or persons is allowed to present matters to the Commission or Subcommittee thereof in Executive or Public Hearings, then a prepared written statement of expected presentation shall be filed in the office of the Commission, not later than 48 hours in advance of the Hearings at which the statement is to be presented.

(d) After the receipt of the statement of expected presentation, the Chairman shall then make a determination of the extent that time is available for such interested person or persons to present oral statements in addition thereto. In the event that the Chairman determines that time is not available for such oral statements, the interested person or persons' statement shall be recorded and made a part of the subject proceedings.

(e) Provided further that any such interested person or persons who feels aggrieved by or takes exception to any of the determinations made by the Chairman of the Commission shall have the opportunity to present in writing to each member of the Commission the basis for such grievance or exception taken to such ruling by the Chairman and thereafter the decision of the Chairman shall be reconsidered by each member of the Commission at its next regular meeting or hearing. Notice by Certified Mail to such interested person or persons shall include the final decision of the full Commission on its reconsideration and shall constitute notification of the action taken by the Commission.

(f) Any deviation from the preceding requirements, shall constitute on the part of such interested person or persons, a withdrawal of any request previously made.

JAMES E. RITCHIE,  
Executive Director.

SEPTEMBER 2, 1975.

[FR Doc. 75-23529 Filed 9-4-75; 8:45 am]

#### COUNCIL ON ENVIRONMENTAL QUALITY

##### ENVIRONMENTAL IMPACT STATEMENTS

###### List of Statements Received

Environmental impact statements received by the Council on Environmental Quality from August 25 through August 29, 1975. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and

comment on draft environmental impact statements is forty-five (45) days from this FEDERAL REGISTER notice of availability. (October 20, 1975) The thirty (30) day period for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies will also be available at cost from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

##### DEPARTMENT OF AGRICULTURE

Contact: Dr. Fowden G. Maxwell, Coordinator of Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 359-A, Washington, D.C. 20250, (202) 447-3965.

##### FOREST SERVICE

###### Draft

Horse Creek Administrative-Research, Nezperce National Forest, Idaho County, Idaho, August 25: The proposed Horse Creek Administrative Research Project, Nezperce National Forest will attempt to assess the impact of land management activities on the soil and water resources in the Western Rocky Mountain physiographic province. Procedures involve utilization of an instrument network to monitor hydrometeorological parameters before, during, and after a controlled sequence of timber harvest and road construction activities. Adverse impacts include the disturbance of the roadless portions of the Meadow Creek drainage, the effects of the yearly installation and removal of sediment catch basins, and 2 timber sales. (ELR Order No. 51286.)

Conroe Unit, Sam Houston National Forest, Montgomery and Walker Counties, Tex., August 25: The statement concerns the proposed 10-year management plan for the Conroe Unit of the Sam Houston National Forest. Management goals for the 75,574-acre unit will be directed toward meeting the local and regional needs of the public while respecting the production and carrying capacities of the forest resources. Environmental impacts will be on water quality, soils, vegetation, wildlife and forest aesthetics due to timber harvesting, road and trail construction, and developed recreation facilities. Air quality will be affected by burning of forest floor fuels. (ELR Order No. 51274.)

Monticello Land Use Plan, Manti-LaSal National Forest, San Juan County, Utah, August 25: The statement concerns a land use plan for the 368,000 acre Monticello Unit of Manti-LaSal National Forest. The plan allocates sections of the unit to activities such as timber harvest, revegetation treatments, mining, road construction, livestock grazing and recreation use. The plan also provides for the protection and preservation of natural, scenic, archeologic, and wildlife values within the planning unit. (ELR Order No. 51268.)

Dixie National Forest Timber Management Plan, several counties in Utah, August 25: The statement concerns a timber management plan for the 609,557 acres of productive forest land in Dixie National Forest. The management direction provides for a programmed harvest of 19.4 million board feet of sawtimber per year. Temporary adverse effects will be on air, natural beauty, outdoor recreation, range wildlife, fire control, insect and disease control, and soil and water conditions because of the dust and noise from harvesting operations, slash created by harvesting, and increased activity in the forest. (ELR Order No. 51283.)

###### Final

Timber Management, Gunnison National Forest, Colorado, August 25: The statement refers to the 10 year (1975-1984) timber management plan for the Gunnison National Forest. Under management activities would be applied on from 5,360 to 8,270 acres annually. There will be impacts to air, water, units of wood products, including 170 million board feet of sawtimber. Also included is the construction of 209 miles of roads and the reforestation of 4,000 acres of "understocked" forest lands. The Gunnison National Forest contains 128,465 acres of unroaded land which will undergo road construction and timber harvest. Comments made by: DOI, USDA, EPA, State and local agencies, and concerned citizens. (ELR Order No. 51270.)

Shafer Butte Planning Unit, Boise National Forest, Ada and Boise Counties, Idaho, August 27: The statement refers to the land use plan for the 98,500-acre Shafer Butte Planning Unit of Boise National Forest. Balanced resource use is given emphasis in the plan. Watershed, visual quality, and recreation as noncommodity items or nonconsumptive resource activities are complemented. Wildlife habitat improvement or maintenance is stressed. Consumptive demands are mixed to the extent the land base can meet and support. Comments made by: DOI, EPA, DOC, HEW, AHP, USDA, FEA, COE, State and local agencies, and concerned citizens. (ELR Order No. 51296.)

South Fork Salmon River Planning Unit, Boise, Payette National Forest, Valley County, Idaho, August 28: The statement concerns a planning unit containing 349,328 acres, approximately 246,000 of which are within Payette National Forest, 102,328 of which are within Boise National Forest, and 855 acres are in private ownership. The plan sets forth the allocation of lands to resource uses and activities. Minor adverse effects such as temporary air pollution due to burning of residual material after timber harvests are expected. Comments made by: EPA, DOI, DOC, COE, AHP, USDA, DOT, FEA, HEW, HUD, State and local agencies, and concerned citizens. (ELR Order No. 51303.)

North Evangeline Unit, Kisatchie National Forest, Rapides County, La., August 25: The statement concerns the 10-year management plan for the 34,837-acre Evangeline Unit, Kisatchie National Forest. The plan includes wildlife improvements, concentration of recreationists around Valentine and Kincaid Lakes, intensive range management and timber management. Timber harvests will result in degradation of scenery and road construction. Comments made by: USDA, DOD, DOI, EPA, and State and local agencies. (ELR Order No. 51288.)

Multiple Use, Camp-Tolan Unit, Bitterroot National Forest, Ravalli County, Mont., August 25: Proposed is the implementation of a revised multiple use plan for the Camp-Tolan Planning Unit, Sula Ranger District, Bitterroot National Forest. The 39,848 acre unit has been divided into seven management units, for such values as big game winter range, timber production, recreation and scenic values, and wildlife cover. There are 13,100 acres of inventoried roadless area lying within the planning unit, of which 8,428 will remain roadless under the plan (110 pages). Comments made by: EPA, DOI, USDA, State and local agencies, and concerned citizens. (ELR Order No. 51284.)

##### SOIL CONSERVATION SERVICE

###### Final

Browning Watershed Project, Glacier County, Mont., August 25: The statement refers to the city of Browning's watershed protection and flood prevention in Glacier County, Montana. Adverse impacts include

the loss of agricultural production on 20 acres of land, prevention of interchange of fish populations along upper Willow Creek, temporary inundation of land, and increased air and water pollution during construction. Comments made by: COE, HEW, DOI, DOT, EPA, AHP, State agencies, and concerned citizens. (ELR Order No. 51281.)

Mission Hill Watershed, Yankton County, S. Dak., August 27: The statement refers to the proposed construction of the Mission Hill Watershed in Yankton County. The project is for watershed protection and flood prevention in agricultural lands and to homes in the town of Mission Hill. The planned project measures to be installed include conservation land treatment, one floodwater retarding structure, one grade stabilization structure, and 3.8 miles of channel work. There will be a periodic inundation by floodwater of up to 34 acres of cropland and 59 acres of pasture. There will also be a temporary loss of 124 acres of pasture, cropland, herbaceous habitat, and woody habitat during construction, and increased levels of noise and dust (39 pages). Comments made by: COE, HEW, DOI, EPA, AHP, and State agencies. (ELR Order No. 51297.)

Nibbs Creek Watershed, Amelia County, Va., August 25: The statement refers to the proposed Nibbs Creek Watershed protection, flood prevention, and municipal and industrial water storage project in Amelia County, Virginia. Adverse impacts are the inundation of land, and increased turbidity during construction. Comments made by: COE, DOI, DOT, EPA, AHP, and State agencies. (ELR Order No. 51285.)

##### DEPARTMENT OF DEFENSE

###### ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW, Washington, D.C. 20314, (202) 693-6861.

###### Draft

Fisherman's Wharf, San Francisco Harbor, San Francisco County, Calif., August 26: Proposed is the construction of a 700-foot concrete pile baffle breakwater extending from the solid portion of the Hyde Street Pier, a 1,200 foot concrete sheet pile breakwater extending from the buffed breakwater, with a 10-foot wide concrete walkway and a 370-foot concrete pile and baffle breakwater extending along the bayward end of Pier 45. Adverse impacts include the commitment of 5,400 square feet of natural benthos, relocation of two vessels in State Historic Maritime Park during construction, and displacement of fishing vessels from other nearby harbors. (San Francisco District.) (ELR Order No. 51280.)

Little Calumet River Basin (2). Indiana, August 25: The recommended plan will provide protection from flooding along the Little Calumet River, Indiana and provide recreation for the area. The flood protection will be provided through main stem channel alterations (widening and deepening) and levees. Limited destruction of wetlands will occur in the path of the widened river and corridor. (ELR Order No. 51275.)

St. Clair River, Maintenance Dredging, Mich., August 25: Proposed is the maintenance dredging of the Federal Navigation channels in the St. Clair River to remove 130,000 cubic yards annually consisting primarily of sand and silt. The material removed will be disposed of in deep water or placed ashore on upland sites. The action will temporarily adversely affect water quality and disrupt benthic habitat and fish populations. (ELR Order No. 51270.)

Grand Haven Harbor, Grand River Dredging, Ottawa County, Mich., August 25: Proposed is the periodic maintenance dredging of the navigation channels in Grand Haven Harbor and the Grand River, Michigan. Unpolluted materials dredged from the 14.5 mile long upstream channel will be placed primarily on shoreline reaches, particularly those that have been subject to erosion. Polluted materials dredged from the harbor proper will be contained in a confined disposal site. Disruption of benthic habitat will occur due to construction. (Detroit District.) (ELR Order No. 51271.)

Saginaw River and Saginaw Bay, Mich., August 25: The proposed project is to perform maintenance dredging of the Saginaw River and Saginaw Bay Federal Navigation channels. Approximately 140,000 cubic yards of polluted material dredged from the river are placed on the confined disposal area on Middle Ground Island. The polluted channel section from the D&M R.R. bridge to the river mouth and the section throughout the inner bay will not be dredged until a confined disposal site is constructed to contain the material. Adverse environmental impacts will result from the resuspension of polluted sediments. (Detroit District.) (ELR Order No. 51283.)

St. Mary's River and Straits of Mackinac, Mich., August 27: Proposed is the maintenance dredging of those portions of the St. Mary's River and the Straits of Mackinac which require the removal of shoals and obstructions. Some materials dredged by derrickboat will be disposed of on land in designated disposal areas. All other dredgings will be deposited in deep water outside and adjacent to the channels from which it was removed, or in other designated open water disposal areas. Construction disruption will result. (Detroit District.) (ELR Order No. 51294.)

Colleton R. Dredging & Pier Construction (Supplement), Beaufort County, S.C., August 25: The purpose of the supplement is to document the environmental impacts of two changes in plans of Chicago Bridge and Iron Company for proposed use of land at Victoria Bluff. The changes are a less restrictive definition of the products to be manufactured so as to include manufacture of LNG containers, and a deletion of 308 acres from the buffer area indicated in the original permit application. (Charleston District.) (ELR Order No. 51267.)

#### Final

So. Dade Conveyance Canals, East Coast Backpumping, Florida, August 28: The proposals consist of deepening, modifying, and realigning existing canal stretches, construction of new canals, and provisions of new inlet and water control structures and pumping stations in the West Palm Beach and South Dade County areas. The construction and modifications will provide flood control in the backpumped areas and will provide water for secondary water supply, salinity intrusions control, and Everglades N.P. Adverse impacts include: temporarily increased turbidity; possible displacement of people and businesses; possible disruption of archaeological sites; loss of wildlife habitat; and increased noise and dust during construction. (Jacksonville District.) Comments made by: USDA, DOC, EPA, DOI, and State agencies. (ELR Order No. 51292.)

Neuse River, Craven County, N.C., August 28: The statement considers the dredging of a commercial navigation channel 12' deep and 120' wide for 9 miles on the Neuse River. Aquatic life will be disturbed by dredging and 34 acres of wildlife habitat will be lost to spoil deposit (49 pages). Comments made by: AEC, DOC, EPA, OEO, DOI, and State agencies. (ELR Order No. 51305.)

#### ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Meyers, Director, Office of Federal Activities, Room 3630, Waterside Mall, Washington, D.C. 20460, (202) 755-0940.

#### Draft

Central Kitsap Co. Wastewater Facilities, Kitsap County, Wash., August 25: The statement concerns the awarding of grant funds to Kitsap County for the construction of interceptor sewer lines, wastewater treatment facility, and wastewater disposal facility to service drainage sub-basin 9 and 10 and the Trident Support Site. Construction of a wastewater treatment facility would have significant adverse aesthetic impacts for half of the alternatives, due to high visibility on a desirable shoreline or the residential character of the neighborhood. Significant increases in property taxes will result from the construction and operation of the system. (ELR Order No. 51291.)

#### DEPARTMENT OF HUD

Contact: Mr. Richard H. Brown, Director, Office of Environmental Quality, Room 7258, 451 7th Street SW., Washington, D.C. 20410, (202) 755-6308.

#### Draft

Second Waterfront Urban Renewal, Gloucester, Mass., August 28: The statement concerns an urban renewal project for 43 acres of land located at the head of the North Channel of the City of Gloucester, Massachusetts. The project includes demolition of some existing structures and the construction of new wharves and piers, commercial buildings, a fish processing plant, a cold storage area, retail stores, and some office space. The program will also result in the filling in the area at the terminus of Inner Harbor at the North Channel, the disposal of dredge, relocation and disruption of businesses, and the demolition of existing buildings. (ELR Order No. 51304.)

The following are Community Development Block Grant statements prepared and circulated directly by applicants pursuant to section 104(h) of the 1974 Housing and Community Development Act. Copies may be obtained from the office of the appropriate local chief executive. (Copies are not available from HUD.)

#### SECTION 104(h)

#### Draft

Arcadia Industrial Park, Newark, Wayne County, N.Y., August 28: The statement concerns the allocation of Community Development Block Grant funds for the construction of a road access and sewer and water lines up to the property line of the proposed Arcadia Industrial Park. The park is located north of the Brage Canal in the western sector of the Village of Newark. Construction of Edgett Street will require the placement of fill north of the Brage Canal. Increased noise levels, truck traffic, and commuter traffic will be inevitable. (ELR Order No. 51307.)

#### DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, (202) 343-3891.

#### Draft

Rio Grande-Valarde to Caballo Dam, several counties in New Mexico, August 27: The statement concerns a program for operations and maintenance of a 300 mile stretch of the Rio Grande from Velarde, New Mexico to Caballo Dam. The project includes continuation of O&M activities, which the statement indicates will have little or no environmental

effect, and the construction of new facilities which will result in a decrease in wetland habitat, an annual conservation of 6,600 acre-feet of water, a replacement of 125 acres of vegetation by new facilities, and an increase of 600 to 1,000 acres of desirable woody vegetation. (ELR Order No. 51302.)

#### NATIONAL PARK SERVICE

#### Final

Proposed Buffalo National River Master Plan, several counties in Arkansas, August 25: The statement refers to the proposed master plan for the Buffalo National River. The plan includes the acquisition of 95,730 acres of land. The action will result in increased visitation to the river; approximately 350 area residents will be displaced due to the acquisition. Comments made by: DOI, USDA, COE, HUD, FPC, AHP, EPA, State and local agencies, and concerned citizens. (ELR Order No. 51279.)

Proposed Master Plan, Rocky Mountain National Park, Colo., August 25: The statement refers to a proposed master plan for the management and use of the Rocky Mountain National Park. The plan is intended to increase public enjoyment of park experiences with reduced impact on park resources. Large sections of the park are proposed for wilderness. Effects of the plan will include the reduction or elimination of concession operations; high cost pollution abatement; and restriction of visitor use (110 pages). Comments made by: USDA, DOI, DOC, EPA, DOT, FPC, AHP, and State agencies. (ELR Order No. 51278.)

Pecos National Monument, Proposed Master Plan, San Miguel County, N. Mex., August 25: The statement concerns the proposed master plan and development concept plan for Pecos National Monument. The plan includes introduction of a major visitor facility structure, employee housing, archaeological workshop housing, materials and equipment yard, water and sewerage systems and attendant roads and parking. Legislation is proposed to authorize addition of two adjoining parcels of land to be donated, totaling 23.5 acres and to increase the ceiling of development (94 pages). Comments made by: AHP, DOI, USDA, EPA, and State and regional agencies. (ELR Order No. 51269.)

#### INTERNATIONAL-BOUNDARY AND WATER COMM.

Contact: Mr. T. R. Martin, ARA/Mex., State Department, Room 3906A, Washington, D.C. 20520, (202) 632-1317.

#### Final

Rio Grande Canal Project Improvements, Texas and New Mexico, August 27: Proposed Phase I Improvements will provide flood protection to developed portions of Canutillo, Texas and Anapra, New Mexico, to 13,200 acres of farms and to transportation and irrigation facilities. Phase II entails the completion of SCS dams to provide protection for 135,000 acres of urban and highly developed agricultural lands against the highest possible flood. Adverse impacts include the modification of 24 acres of grassland (which will change the habitat of small wildlife) with negligible effect and temporary construction noise and interference with transportation at three crossings. Comments made by: USDA, COE, EPA, DOI, AHP, and State and local agencies. (ELR Order No. 51293.)

#### DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, 400 7th Street SW., Washington, D.C. 20590, (202) 426-4357.

#### ENVIRONMENTAL PROTECTION AGENCY

[FRL 426-6]

#### PESTICIDE ENFORCEMENT POLICY STATEMENT NO. 2

Use of Registered Pesticides For the Control of Unnamed Target Pests In Structural Pest Control

#### I. General Background.

On May 5, 1975, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER a document entitled "Institution of Enforcement Policy Statements" (40 FR 19526). It was the Agency's purpose in instituting this series of Pesticide Enforcement Policy Statements (PEPS) to inform the general public and persons engaged in the formulation, distribution, sale, application, or other use of pesticides, of the policies adopted by the Agency in the enforcement of the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended [Pub. L. 92-516; 86 Stat 973; 7 U.S.C. 136 et seq.; hereinafter referred to as FIFRA]. PEPS are prepared and published by EPA's Office of Enforcement. A detailed explanation of the purpose and scope of PEPS was set forth in the May 5, 1975, FEDERAL REGISTER notice.

Federal regulation of the use of pesticides was established for the first time with the enactment of the 1972 amendments, specifically through the provisions of FIFRA section 12(a) (2) (G). Any person who uses a registered pesticide in a manner inconsistent with its labeling is in violation of the Act and may be subject to civil or criminal sanctions. However, as set forth in the legislative history, Congress intended that EPA enforce the prohibition of section 12(a) (2) (G) in a "common sense manner" and not prohibit the use of registered pesticides which are in no way harmful and which have demonstrated beneficial effects. [House Committee on Agriculture, H.R. REP. No. 92-511, 92d Cong., 1st Sess. 16 (1971), and Senate Committee on Agriculture and Forestry, S. Rep. No. 92-838, 92d Cong., 2d Sess. 16 (1972)].

As the Senate Committee on Agriculture and Forestry stated:

"... it is the belief of the Committee that the use of the word 'inconsistent' should be read and administered in a way so as to visit penalties only upon those individuals who have disregarded instructions on a label that would indicate to a man of ordinary intelligence that use not in accordance with such instructions might endanger the safety of others or the environment. Senate Report, *Id.*

In view of the legislative history concerning the use of registered pesticides for the control of unnamed target pests, this PEPS touches upon matters which may appear to be jurisdictional in nature. It does not, however, presume to define the Agency's regulatory jurisdiction. If the Administrator subsequently promulgates regulations, which interpret the scope of the Agency's regulatory jurisdiction, the Office of Enforcement will revoke or amend this PEPS to conform with such regulations.

to be relocated and one business will have to be acquired. (ELR Order No. 51290.)

U.S. 14, Evansville to Madison, Dane County, Wis., August 27: The proposed project consists of reconstructing Highway 14, from Highway 92 near the south Dane County line, northerly to the intersection with County Highway "MM" located 0.64 mile north of the village of Oregon. The recommended project provides for an ultimate expressway facility south of Oregon and a freeway facility bypassing the village to connect with the freeway section of relocated Highway 14 between Oregon and Madison. The project will require 280 acres of land currently used for agricultural purposes and 46 acres of unutilized wildlife habitat. Two families were affected by the project; acquisition of the land has already been partially accomplished. (ELR Order No. 51301.)

#### Final

U.S.-54, Pratt and Kingman Counties, Kans., August 27: The project involves the improvement of 48 miles of U.S. 54 from Cullison in Pratt County to a point north-east of Kingman in Kingman County. The project includes grading, surfacing, bridge construction, and right-of-way acquisition. Adverse impacts are loss of some cropland, severance of some properties, and increased air, noise, and surface water pollution due to construction. A 4(f) determination may be necessary on the Kingman County Game Reserve depending on what alternative is selected. Comments made by: USDA, HEW, EPA, HUD, DOI, COE, and State and local agencies. (ELR Order No. 51299.)

Rogue River, Rockford, Kent County, Mich., August 27: The project involves the construction or reconstruction of a bridge and approaches spanning the Rogue River in the city of Rockford, Kent County. The facility will have four twelve foot lanes. Adverse impacts include, increased air, noise, and dust pollution during construction, possible erosion, sedimentation and pollution in and near the Rogue River, displacement of wildlife, and the displacement of families and businesses (100 pages). Comments made by: DOT, HUD, DOI, COE, USDA, EPA, State, regional, and local agencies. (ELR Order No. 51298.)

State Highway 37, Garrison, McLean County, N. Dak., August 27: Proposed is the improvement of State Highway 37 from Garrison to U.S. 83, a distance of 6 miles. The project consists of acquiring additional agricultural land for right of way and constructing a two lane hard surfaced roadway along the alignment of existing State Highway 37. One business and one residence will be displaced (61 pages). Comments made by: DOI, HUD, EPA, DOT, USDA, and State and local agencies. (ELR Order No. 51300.)

I-275, Hamilton County, Ohio, August 25: The project involves the improvement of I-275 in Hamilton County, Ohio. Improvement will consist of constructing 1.55 miles of a six-lane facility. Included in the project will be 3 bridge structures, a full interchange with Kellogg Avenue, landscaping and installation of fencing in the vicinity of the California Golf Course and improvement of the drainage system. Adverse impacts are loss of open space and wooded areas, some localized increase in water, air, and noise pollution, some erosion and sedimentation during construction, and demolition of 63 dwellings and 3 businesses. A 4(f) determination is necessary concerning the California Golf Course (100 pages). Comments made by: DOI, EPA, HUD, USDA, COE, and State agencies. (ELR Order No. 51273.)

GARY L. WIDMAN,  
General Counsel.

[FR Doc.75-23569 Filed 9-4-75; 8:45 am]

#### FEDERAL AVIATION ADMINISTRATION

#### Draft

Air Route Surveillance Radar, Eugene, Lane County, Oreg., August 25: The project consists of the construction of an Air Route Surveillance Radar Facility as part of a 21-facility system that would control flight traffic between airport terminals. The proposed site is one acre of land on Table Top Mountain, located in the southwest portion of the Willamette Valley, 17 miles northwest of Eugene, Oregon. There will be possible minor adverse environmental effects with respect to surface and subsurface waters, ecology, fossil fuel emissions, and electromagnetic radiation. (ELR Order No. 51272.)

#### FEDERAL HIGHWAY ADMINISTRATION

#### Draft

Florence Avenue, Bloomfield Ave. to Telegraph Rd., Los Angeles County, Calif., August 25: Proposed is the construction of a 1.30 mile segment of Florence Avenue from Bloomfield Avenue to Telegraph Road on new alignment. The project will include full width construction to major highway standards including a raised median with turning lanes, sidewalks, and drainage facilities. Approximately 8.7 acres will be acquired for the project displacing eight residential structures and five residential garages. Thirty-five trees will be removed and there will be an increase in vehicular noise experienced by occupants nearby. (ELR Order No. 51289.)

Poplar Level Road (Ky. 864), Louisville, Jefferson County, Ky., August 29: The statement concerns a 0.5 mile segment of the Poplar Level Road project beginning at Waterson Expressway (I-264) and ending 1275' east of the Southern Railway. An at-grade crossing of Poplar Level Road by the Southern Railway will be eliminated by bridging. The project will require the acquisition of approximately 5.10 acres of land and displacement of 2 residents and 13 businesses for right-of-way. Fifteen businesses would lose direct access to Poplar Level Road due to the construction of the grade separation structure. (ELR Order No. 51306.)

S.H. 641, U.S. 61 to I-10, St. James Parish, St. James County, La., August 25: The proposed action involves the construction of a 3.06 mile extension of State Highway 641 from U.S. 61 (Airline Highway) approximately one mile east of the town of Gramercy, northward on new location to I-10. The action includes the construction of a diamond interchange with I-10 with access only to the south. The project will irreversibly replace 95 acres of cypress-tupelo swamp, and temporarily change 130 acres of swamp to drier forest. There will be some temporary increase in air, water, and noise pollution. (ELR Order No. 51277.)

L.R. 1061, Blair County, Pa., August 27: The proposed highway improvement consists of a 14.5 mile portion of L.R. 1060 (T.R. 220), located in Logan and Antis Townships, Pennsylvania as part of the Appalachian Development Highway System. The project will displace a number of people and will result in increased noise and erosion. A 4(f) statement is included concerning a public park. (ELR Order No. 51295.)

Onelda St. Bridge and Approaches, Appleton, Outagamie County, Wis., August 25: The proposed project involves the construction of a new bridge across the Fox River and a Government Lock Canal and its approaches in the City of Appleton. The bridge, located 600' west of the present Onelda Street crossing, would be four lanes wide and .67 mile long. The construction of the north approach roadways will require the acquisition of a portion of Jones Park (a 4(f) statement is included) and the south approach will sever the practice area of Riverview Country Club's golf course. Five to eight residences will have

[OPP-33000/312; FRL 425-1]  
NOTICE OF RECEIPT OF APPLICATIONS

This policy statement concerns the use of a registered pesticide in structural pest control for the control of pests which are not named on the product's label. It neither addresses nor in any way affects the requirement of compliance with affirmative provisions of an approved label.

EPA has long been aware of the fact that there exist a host of structural pests which are limited in number and sporadic in their occurrence. These pests are not sufficiently important to justify or in some cases even to permit the collection of sufficient data to meet EPA standards for revision of registration and labeling to include them. Another class of pest problems involves pests which are unpredictable or unprecedented in their occurrence. In the past, pest control operators have commonly used registered pesticides successfully to control pests which, for the reasons described above, were not specifically listed on the pesticide's approved labeling. These pesticide applications against unnamed target pests are conducted with application rates and intervals, and at use sites which conform to those appearing on the approved labeling. However, such a use constitutes a technical violation of section 12(a)(2)(G), in that the target pest differs from that listed on the approved label.

Recently, many interested people have sought permission from EPA to use registered pesticides to control minor or infrequently encountered pests which appear in, on, or adjacent to any structure when such pests are not named on the approved label of the pesticide. Consistent with the legislative history of section 12(a)(2)(G), EPA has determined that under the specified conditions and limitations set forth below, use of a registered pesticide against unnamed pests does not warrant prosecution for a violation of section 12(a)(2)(G).

## II. Use of a Registered Pesticide for the Control of Unnamed Target Pests in Structural Pest Control.

The Agency has determined that the use of a registered pesticide at use sites approved on the label for the control of unnamed target pests in, on, or adjacent to any structure is permitted, provided that:

(A) The pesticide selected is registered for use at the type of site which is to be treated;

(B) Either (1) the user is a knowledgeable expert in structural pest control who has himself recommended the use of a registered pesticide against the unnamed target pest; or (2) the use is recommended in writing by a knowledgeable expert in structural pest control;

(C) No pesticide registered for use against the target pest in, on, or adjacent to any structure is reasonably available in the geographic area in which the pesticide is to be used;

(D) The user complies with all other instructions, warnings, precautions, and prohibitions which appear on the label and labeling of the product which is used; and

(E) The use is efficacious, in that it has beneficial effects, and is not harmful to man or the environment.

## NOTICES

All of the limiting and defining provisions contained in the paragraphs which follow are an integral part of this PEPS. Whether the user has reasonably met the criteria set forth in this PEPS will be determined by the Agency on a case-by-case basis. The burden of showing that the criteria set forth herein has been met rests with the person applying or otherwise using a registered pesticide for the control of unnamed target pests in structural pest control.

### III. Applicability of the Pesticide Enforcement Policy Statement Regarding Use of Registered Pesticides for the Control of Unnamed Target Pests.

#### A. Use at the Specific Type of Site Which is to be Treated.

The policy set forth in this statement allows the use of a registered pesticide against unnamed target pests only when the application is made at the specific type of use site for which the product is registered. This policy applies to the use of registered pesticides in, on, or adjacent to enclosed man-made structures such as human dwellings, institutions (including schools and hospitals), industrial establishments, non-commercial greenhouses and other structures used for the protection of stored, processed, or manufactured products. This PEPS does not, for example, allow any person to use a pesticide which is registered for use in, on, or adjacent to structures to perform any agricultural or other outdoor application or use which is not related to structural pest control. No pesticide registered solely for agricultural use may be used for the control of unnamed target pests in, on, or adjacent to any structure.

#### B. Recommendation by a Knowledgeable Expert in Structural Pest Control.

##### 1. Definition of the Term "Knowledgeable Expert in Structural Pest Control."

The term "knowledgeable expert in structural pest control" refers to any person who (1) holds a college or higher level degree in entomology or other science related to pest control; or (2) has five (5) or more years of practical experience in professional pest control; or (3) is the supervisory official of the firm, organization or Agency making the application who is responsible for making technical judgments regarding pest control practice; or (4) is certified by a State pursuant to FIFRA Section 4 to use restricted use pesticides in industrial, institutional, structural or health-related pest control (40 CFR 171.3(b)(7)).

Knowledgeable experts in the field of structural pest control may also include qualified persons employed by organizations such as State Cooperative Extension Services, Federal, State, or local departments or agencies, or public health services.

##### 2. Use by a Knowledgeable Expert in Structural Pest Control.

A registered pesticide may be applied or otherwise used for the control of unnamed target pests by a "knowledgeable expert in structural pest control" if that expert himself makes the judgment that such use is efficacious against the unnamed target pest, and that such use is

not or will not be harmful to man or the environment.

### 3. Recommendation of Knowledgeable Expert in Structural Pest Control.

A registered pesticide may be applied or otherwise used for the control of unnamed target pests by a person who is not himself a knowledgeable expert in structural pest control only if the application or use has been recommended in writing by a knowledgeable expert.

These recommendations will be made part of the records of pest control activities. Sufficient records must be kept to describe accurately the circumstances of the pest infestation, the pesticide recommended for control of the problem, the results of the treatment, and the name and address of the knowledgeable expert. These records shall be maintained by the person who applies or otherwise uses the pesticide for a period of six (6) months from the date of application or use. Recommendations of a knowledgeable expert in structural pest control may be in the form of articles published in current scientific journals, manuals, or other technical bulletins or specific instructions. The applicator or user must have obtained the written recommendation prior to the time of the application. He must make such recommendations available to an official representative of the Agency upon request.

#### 4. Enforcement Liability.

The responsibility for the safe and efficacious use of the pesticide and for full compliance with the terms of this PEPS may rest with either the applicator or the knowledgeable expert in structural pest control or both, as the equities and the circumstances may require.

A knowledgeable expert in structural pest control who personally uses or supervises the use of a registered pesticide against unnamed target pests is responsible for the proper use of the pesticide and for the efficacy of the product against the unnamed target pest. The expert in this position is therefore also subject to enforcement liability for any misuse of the pesticide. In all applications performed by persons other than a knowledgeable expert, the primary responsibility for compliance rests with the person who performs the actual application. Enforcement action will be considered on a case-by-case basis for violations involving significant harm to man or the environment or deviations from the provisions of section II (A) through (E) above.

#### C. Reasonable Availability of a Pesticide Registered for Use Against the Target Pest.

Any registered pesticide currently in the channels of commerce in the geographic area where the user resides or does business is presumed, for purposes of enforcement, to be reasonably available for the control of pests. In determining whether a registered pesticide is reasonably available in the geographic area in which the pesticide is to be used the Agency will consider whether (a) the user had made a reasonable effort to ascertain whether any pesticide had been registered for the control of the target

## PESTICIDE PETITIONS

### Notice of Filing

Petitions proposing the establishment of pesticide tolerances in or on certain raw agricultural commodities have been filed with the Environmental Protection Agency (EPA). Notice is given pursuant to the provisions of section 408(d)(1) of the Federal Food, Drug, and Cosmetic Act. The petitions and proposals are:

PP6F1657. American Cyanamid Co., Agricultural Div., PO Box 400, Princeton NJ 08540. Proposes that 40 CFR 180.352 be amended to establish a tolerance for the combined residues of the insecticide terbufos (S-[[1,1 - dimethylethyl]thio]methyl] 0,0-diethyl phosphorothioate) and its cholinesterase-inhibiting metabolites in or on the raw agricultural commodities corn forage and fodder (field corn, popcorn, and sweet corn) at 0.5 part per million (ppm); and corn grain (popcorn) and sweet corn (kernels plus cob with husks removed) at 0.05 ppm. The proposed analytical method for determining residues is a gas chromatographic procedure using a phosphorus-sensitive alkali flame ionization detector. PM16

PP6F1655. Chemagro Agricultural Div., Mobay Chemical Corp., PO Box 4913, Kansas City MO 64120. Proposes that 40 CFR 180.234 be amended to establish a tolerance for residues of the insecticide 0,0-diethyl 0-[4-(methylsulfinyl) phenyl] phosphorothioate in or on the raw agricultural commodities sorghum grain at 0.05 ppm and sorghum forage and fodder at 1.0 ppm. The proposed analytical method for determining residues is by the termionic emission gas chromatographic procedure. PM15

Interested persons are invited to submit written comments on any petitions referred to in this notice to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, Room 401, East Tower, 401 M St. SW, Washington DC 20460. Three copies of the comments should be submitted to facilitate the work of the Agency and others interested in inspecting them. The comments should be submitted as soon as possible and should bear a notation indicating the number of the petition to which the comments pertain. Comments may be made at any time while a petition is pending before the Agency. All written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: August 27, 1975.

JOHN B. RITCH, Jr.,  
Director,  
Registration Division.

## NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of Section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW, Washington, D.C. 20460.

On or before November 4, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under Section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW, Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received on or before November 4, 1975.

Dated: August 27, 1975.

JOHN B. RITCH, Jr.,  
Director, Registration Division.

## FCC PBX TECHNICAL STANDARDS SUBCOMMITTEE

### Notice of Meeting

SEPTEMBER 2, 1975.

In accordance with Public Law 92-463, announcement is made of a public meeting of the FCC PBX Technical Standards Subcommittee to be held October 1-2, 1975 in Washington, D.C. The meeting will commence at 10 a.m. on October 1 for the Interface Criteria Task Group, and 9 a.m. on October 2 for the On Site Test Standards Task Group. Both meetings will be held in Room 752, 1919 M Street NW.

1. *Purpose:* The purpose of this Subcommittee is to prepare recommended standards and procedures to permit the interconnection of customer-provided and maintained PBX equipment to the switched telecommunications network without the need for carrier-provided connecting arrangements.

2. *Activities:* As at prior meetings, the Subcommittee members and observers present their suggestions and recommendations regarding the various technical criteria and standards that should be considered with respect to the interconnection of PBX equipment to the public network.

3. *Agenda:* The agenda for the October 1st meeting is as follows:

(1) Review and revise draft chapters of Interface Criteria covering message registration and automatic identification for outward dialing.

(2) Initiate work on new Interface Criteria drafts covering Key Telephone Systems and customer-provided connecting arrangements.

The agenda for the October 2nd meeting is to revise the latest draft of the On Site Test Standards to assure compatibility with the Revision B of the Interface Criteria Document, T97.

4. *Public Participation:* The public is invited to attend this meeting. Any member of the public wishing to file a written statement with the Subcommittee may do so before or after the meeting.

For more information, contact the Common Carrier Bureau on (202) 632-6917.

FEDERAL COMMUNICATIONS COMMISSION,  
[SEAL] VINCENT J. MULLINS,  
Secretary.

[FR Doc 75-23609 Filed 9-4-75; 8:45 am]

[Docket Nos. 20277, File No. BP-19564, etc.]

## NORMAN BROADCASTING CO. (WGNU), ET AL.

Applications for Construction Permits and Renewal of License; Commission Consent to Assignment

In re applications of Norman Broadcasting Co. (WGNU), Granite City, Illinois, Docket No. 20277, File No. BP-19564; Curtis L. Mann, trustee in bankruptcy (KWK), St. Louis, Missouri, Docket No. 20278, File No. BP-19648; for construction permits, Curtis L. Mann, trustee in bankruptcy (KWK), St. Louis, Missouri, Docket No. 20279, File No. BR-4884; for renewal of license, Curtis L. Mann, trustee in bankruptcy (assignor) and Doubleday Broadcasting Company, Inc. (Assignee), Docket No. 20280, File No. BAL-8127; for Commission consent to assignment of license for Radio Station KWK, St. Louis, Missouri.

1. This proceeding involves the application of Norman Broadcasting Company (WGNU) for a construction permit to make changes in its facilities at Granite City, Illinois; the applications of Curtis L. Mann, Trustee in Bankruptcy (KWK), for modification of the facilities of Station KWK at St. Louis, Missouri, and for renewal of the license of Station KWK; and an application for assignment of license to Doubleday Broadcasting Company, Inc. (Doubleday), by Memorandum Opinion and Order, 50 FCC 2d 529, 32 RR 2d 213 (1974), the Commission designated these applications for consolidated hearings on various issues. Now before the Review Board are a petition to enlarge issues, filed January 6, 1975, by WGNU, requesting the addition of Rules 73.37 and 73.188 issues against KWK; a motion to strike, filed February 26, 1975, by Doubleday; and a petition to enlarge issues, filed March 4, 1975, by Doubleday, requesting Rule 73.37 and sham pleading issues

\* Vic-Way Broadcasting, Inc., licensee of Station KWK, ceased operations on September 21, 1973. On October 10, 1973, Curtis L. Mann was appointed Receiver to take over the assets of Vic-Way, including the facilities of Station KWK. For a further history of this proceeding, see the designation Order, *Bronco Broadcasting Co., Inc.*, 50 FCC 2d 529, 32 RR 2d 213 (1974).

\* The Commission stated that the comparison in this proceeding will be "between the WGNU proposal and the application for renewal taken in conjunction with the applications for assignment and modification of KWK" and that "[t]he applications for renewal, modification, and assignment must stand or fall together." Doubleday was made a party to the proceeding. The operation proposed by Mann and by Doubleday will hereinafter be referred to as KWK.

against WGNU. Because the requests WGNU's allegation of incomplete city path traversed by the measured radial.

operations was intended to foreclose whether Doubleday's proposed nighttime form of the test transmitter measure-

against WGNU.<sup>1</sup> Because the requests before us are interrelated, the Board has chosen to treat them in a single opinion.

#### WGNU'S PETITION TO ENLARGE AND DOUBLEDAY'S MOTION TO STRIKE

2. In support of its request to enlarge issues, WGNU alleges that Doubleday erred in using FCC Figure M-3 conductivities in determining the extent of its proposed nighttime contours,<sup>2</sup> and that "far more accurate" data are on file with the Commission in the form of measurement data taken on existing stations. Specifically, in using the addition of Rules 73.37 and 73.188 issues,<sup>3</sup> WGNU submits an affidavit of its consulting engineer asserting that Doubleday's proposed nighttime 2 mV/m contour will overlap the nighttime 25 mV/m contour of Station KJCF, Festus, Missouri,<sup>4</sup> and that the proposed 5 mV/m city-grade contour will not cover all of the city of St. Louis, Missouri. WGNU's allegation of a 2 and 25 mV/m overlap is based on its contention that measurements made on Station WIL at 204 degrees indicate a conductivity between the proposed KWK nighttime site and Station KJCF higher than that indicated by FCC Figure M-3.<sup>5</sup>

<sup>1</sup> The Board also has before it the following related pleadings: (a) opposition to WGNU petition to enlarge, filed January 30, 1975, by Doubleday; (b) comments on WGNU petition to enlarge, filed January 30, 1975, by the Broadcast Bureau; (c) reply to (a) and (b), filed February 18, 1975, by WGNU; (d) petition for leave to file supplement, filed February 19, 1975, by WGNU; (e) supplement to (c), filed February 19, 1975, by WGNU; (f) opposition to motion to strike, filed March 14, 1975, by WGNU; (g) comments on motion to strike, filed March 14, 1975, by the Broadcast Bureau; (h) opposition to Doubleday petition to enlarge, filed March 17, 1975, by WGNU; (i) opposition to Doubleday petition to enlarge, filed March 19, 1975, by the Broadcast Bureau; (j) reply to (h) and (i), filed April 4, 1975, by Doubleday; (k) request to file an additional pleading, filed April 11, 1975, by Doubleday; (l) supplement to (j), filed April 11, 1975, by Doubleday; (m) response to (c) and (e), filed June 9, 1975, by Doubleday; (n) petition for leave to file responsive pleading, filed June 20, 1975, by WGNU; (o) comments on (m), filed June 20, 1975, by WGNU; and (p) opposition to (n), filed June 27, 1975, by Doubleday.

<sup>2</sup> No change is proposed in daytime operation from that previously authorized for Station KWK. The proposed KWK nighttime operation, according to WGNU, would be located at East Carondelet, Illinois, at a site 16 miles from the KWK daytime site.

<sup>3</sup> The pertinent parts of the Rules are the following: Rule 73.37(a) prohibits, *inter alia*, acceptance of an application for a change in facilities of an existing station involving an overlap of the proposed 2 mV/m contour with the 25 mV/m contour of any existing station on a second adjacent frequency, where there is not already such overlap between the stations involved. Rule 73.188(b) (2) requires a minimum field intensity of 5 to 10 mV/m over the most distant residential section of the city of license.

<sup>4</sup> Station KJCF operates on 1400 kHz, 20 kHz removed from the proposed operation.

<sup>5</sup> According to WGNU, the conductivity is 30 mmhos/m, not 15 as shown on Figure M-3, and the WIL site is 2.7 miles east of the KWK site.

WGNU's allegation of incomplete city coverage is grounded on its contentions that measurements made in the St. Louis area, particularly those on file with the Commission for Stations KATZ and WIL, show the conductivity in the area to be "extremely low,"<sup>6</sup> and that the proposed KWK 5 mV/m contour is based on the standard radiation pattern, which may not be achieved in practice.

3. In opposition to the request for a Rule 73.37 issue, Doubleday asserts that measurements along the WIL 160 and 244 degree radials show that the conductivity in the area is not uniform, that the WIL 204 degree radial relied upon by WGNU passes two miles from the proposed Doubleday site, and hence that Doubleday was required to use the conductivity of 15 shown on Figure M-3 to determine its 2 mV/m contour. Doubleday further asserts that, earlier in this proceeding, measurements were taken by WGNU's engineer on a radial passing within  $\frac{1}{10}$  of a mile of the proposed KWK site indicating a conductivity of 6, in contrast to the value of 30 determined from the WIL measurements.<sup>7</sup> With respect to the city coverage issue (Rule 73.188), Doubleday submits that even if WGNU's allegation of incomplete coverage were true, only 3.3 percent of the city would be excluded and that this would constitute "substantial compliance" with Rule 73.188. However, Doubleday contends, the measurements relied upon by WGNU are too far from the proposed site to be valid, and thus the Figure M-3 value of 15 must be used.<sup>8</sup>

The Broadcast Bureau opposes addition of the requested overlap issue, contending that the WIL 204 degree radial cannot be relied upon because the radial runs close to railroad tracks, because it "misses the proposed site by  $2\frac{1}{2}$  miles at its closest point," and because it lies along "radically different" terrain from the path in question. Similarly, the Bureau asserts that WGNU's allegation of incomplete city coverage is based on measurements of stations too far removed from the proposed site and on measurements along radials which do not run in pertinent directions. In reply, WGNU submits new measurements taken on a test transmitter located at the proposed KWK nighttime site.<sup>9</sup>

These measurements WGNU argues, show definite overlap of the proposed 2 mV/m contour with the 25 mV/m contour of Station KJCF at night and establish the lack of coverage of the entire city of St. Louis with a 5 mV/m signal. Also, WGNU disputes Doubleday's argument that measurements made on Station WGNU itself should apply in the direction of Station KJCF, contending that WGNU is located 16.2 miles north of the KWK proposed site and several cities are located along portions of the

<sup>6</sup> According to WGNU, the measurements along the KATZ 240 and 270 degree radials show a conductivity of 4 mmhos/m over the city of St. Louis, and the measurements along the WIL 305 and 340 degree radials "indicate that the soil conductivity can drop as low as 4."

path traversed by the measured radial.

4. Doubleday's motion to strike is directed against the WGNU reply and the supplement thereto, which Doubleday alleges, rely entirely on new measurement data, and therefore violate Rule 1.45.<sup>10</sup> Moreover, in Doubleday's view, good cause has not been shown by WGNU for delaying the taking of these measurements until nine months after the filing of Doubleday's application to change nighttime facilities. In opposition to the motion to strike, WGNU contends that the new data must be considered, regardless of the time they were presented to the Commission, since a grant to Doubleday would effectively modify the license of Station KJCF without affording it a hearing. The Broadcast Bureau, in its comments on the motion to strike, submits that WGNU's reply and supplement are not authorized, but that the public interest requires consideration of the information contained therein. The Bureau indicates in its comments that it now supports addition of a Rule 73.37 overlap issue against Doubleday, based on the new measurements taken by WGNU's engineer along the 196 degree radial at the proposed KWK nighttime site, from which he determined the conductivity to be 40 mmhos/m.

5. In its response to WGNU's reply and supplement,<sup>11</sup> Doubleday argues that WGNU's test transmitter measurements should be rejected because of alleged inadequacies in the manner of transmitter installation and nonconformity with the requirements of Rule 73.186.<sup>12</sup> Doubleday also asserts that WGNU's timing of the disclosure of the commencement of test

<sup>10</sup> These measurements, according to Doubleday, were made in order to establish that no 2 and 25 mV/m overlap would occur between WGNU's proposal and Station KJCF.

<sup>11</sup> Doubleday indicates that the transmitter sites of Stations WIL and KATZ, whose data are relied upon by WGNU, are 3 and 10 miles distant, respectively, from the proposed KWK site, and that the measured radials are too far removed from the paths in question to be of significance. Nevertheless, Doubleday alleges that consideration of all pertinent WIL measurements, properly analyzed, indicates values of 6 and 16 mmhos/m rather than 4, and that either of these values supports its contention that its 5 mV/m contour will encompass the entire city.

<sup>12</sup> Measurements were taken along three radials: 196 degrees for 21.1 miles, 0 degrees for 15.8 miles, and 315 degrees for 18 miles.

<sup>13</sup> Rule 1.45 provides, in pertinent part, that a reply "shall be limited to matters raised in the oppositions. . . ."

<sup>14</sup> Doubleday's motion to strike contained, *inter alia*, a request for additional time to respond to the allegedly new allegations in WGNU's reply and supplement. The Board, by Order, FCC 75R-210, released May 28, 1975, afforded Doubleday an opportunity to file comments. It was not our intention to provoke, thereby, an endless stream of pleadings. WGNU has had ample opportunity to state its position on the matters considered herein, and its petition for leave to file responsive pleading, filed June 20, 1975, will be denied and its comments, filed the same day, will be dismissed.

<sup>15</sup> Rule 73.186 sets forth requirements governing the taking and submission of data on field intensity.

operations was intended to foreclose observation by Doubleday of the taking of the measurements. Moreover, according to Doubleday, even if the measurements were accepted, there would be no violation of Rule 73.37 because the alleged overlap "would occur in areas already under overlap from KWK's existing operation. . . ." Finally, Doubleday submits that any possibility of prohibited overlap can be eliminated by adjustment of the proposed radiation pattern.

6. The Review Board agrees with the position of the Broadcast Bureau expressed in its comments on Doubleday's motion to strike, and will add a prohibited overlap (Rule 73.37) issue, but not a city coverage (Rule 73.188) issue against Doubleday. Although we do not condone the submission of new data in a reply pleading, in view of the substantial public interest question raised by WGNU's test transmitter measurements and the fact that Doubleday has had an opportunity to respond, we shall accept these data for consideration and deny Doubleday's motion to strike.<sup>16</sup> Cf. *Columbia Broadcasting System, Inc.*, 46 FCC 2d 903, 30 RR 2d 133 (1974). Although, as Doubleday alleges, WGNU's measurements do not conform precisely to the requirements of Rule 73.186(a) (1), we nevertheless are satisfied, because of the apparent inaccessibility of certain parts of the terrain, that they come within the range of flexibility afforded by Rule 73.181(d), and, in our view, raise a substantial question of prohibited 2 mV/m and 25 mV/m overlap with Station KJCF. Cf. *Radio Eden*, 21 FCC 2d 464, 18 RR 2d 354 (1970); *St. Lucie Broadcasting Co.*, 7 FCC 2d 71, 9 RR 2d 671 (1967). Since Doubleday was not entitled, as a matter of legal right, to advance notice of the test or the opportunity to observe or participate in it, Doubleday's objection to the timing of the disclosure of the test operations is rejected. Moreover, in our view, Doubleday could have conducted its own tests, had it chosen to do so. See *Voice of Middlebury*, 3 FCC 2d 512, 7 RR 2d 347, *recon. denied*, FCC 66-666, *aff'd sub nom. TI Broadcasting, Inc. v. FCC*, 126 U.S. App. D.C. 54, 374 F. 2d 268 (1966).<sup>17</sup> We are not persuaded, however, that a city coverage issue against Doubleday is warranted. As noted by the Broadcast Bureau, petitioner has not shown the boundary of the "most distant residential section" of St. Louis, and absent such a showing, WGNU has not raised a substantial question of

<sup>16</sup> WGNU's petition for leave to file supplement, filed February 19, 1975, will be granted and the supplement, filed the same day, will be accepted in view of the fact that the reply pleading indicated that the engineer's affidavit which constitutes the supplement would be filed upon receipt and because of the lapse of only one day in filing. Cf. *United Broadcast Industries, Inc.*, 49 FCC 2d 313, 31 RR 2d 958 (1974).

<sup>17</sup> With respect to Doubleday's argument that any alleged overlap "would occur in areas already under overlap from KWK's existing operation," we believe the evidence before us is not sufficient to make this determination. This is a matter to be determined in the evidentiary hearing.

whether Doubleday's proposed nighttime contour complies with the requirements of Rule 73.188(b) (2). Cf. *Broadcasting, Inc.*, 20 FCC 2d 713, 17 RR 2d 1117 (1969).

#### DOUBLEDAY'S PETITION TO ENLARGE

7. In support of its request for a Rule 73.37 issue, Doubleday alleges that WGNU has submitted to the Commission "two sets of measurements indicating widely varying conductivities over that portion of the path between WGNU and KJCF beginning at the proposed KWK site."<sup>18</sup> Doubleday contends that the two sets of measurements "must be either accepted and averaged, or rejected and figure M-3 used." According to Doubleday, both alternatives result in a conductivity of 15 mmhos/m for the portion of the path in question, and a consequent 2 and 25 mV/m overlap between WGNU and Station KJCF. Doubleday also alleges that the petition to enlarge issues filed by WGNU on January 6, 1975, considered *supra*, is a sham pleading, and was filed in order to have the Commission consider "measurements which, because of an extreme lack of diligence, could not have been considered otherwise." In opposition, WGNU asserts that the Commission disposed of Doubleday's allegations of 2 and 25 mV/m overlap in its designation Order herein, and that the method of averaging proposed by Doubleday is not good engineering practice. The Broadcast Bureau also opposes Doubleday's petition.

8. The Review Board will deny Doubleday's petition to enlarge.<sup>19</sup> First, with respect to the request for a Rule 73.37 issue, we point out that in the designation Order herein, the Commission held that "WGNU has met those parts of Section 73.37 which . . . it was required to meet. . . ." The Commission further stated therein that, except for a difference in site of approximately 2.4 miles, WGNU's requested facilities are virtually identical to the KWK facilities proposed in the application for renewal, and that there is no requirement that a timely filed application specifying the same facilities as those proposed by an existing licensee make any of the showings required by Rule 73.37. In light of the Commission's reasoned analysis of this matter, we may not hold otherwise in the absence of additional information unknown to the Commission at the time of designation. See *Atlantic Broadcasting Co. (WUST)*, 5 FCC 2d 717, 8 RR 2d 991 (1966). Although new information, in the

<sup>18</sup> Doubleday refers to the measurements taken in January and February 1975 and submitted by WGNU with its reply (see paragraph 3, *supra*), and an earlier set of measurements taken in February 1974 and allegedly submitted by WGNU to establish that no 2 and 25 mV/m overlap would occur between WGNU's proposal and Station KJCF (see note 9, *supra*).

<sup>19</sup> We have accepted Doubleday's petition, even though late-filed, because petitioner has made a showing of good cause. Similarly, we will grant Doubleday's request to file an additional pleading and accept the supplement which contains an apparently unintentionally omitted engineering statement.

form of the test transmitter measurements taken by WGNU's engineer in January and February 1975 at the proposed KWK site, is now before us, we believe petitioner's allegations are speculative since there is no showing of similarity between the terrain surrounding the proposed KWK site and the WGNU site 17 miles away. Moreover, in the circumstances of this case, the method of averaging proposed by Doubleday is not appropriate. Next, Doubleday's allegations of sham on WGNU's part are unsupported by affidavits of persons having personal knowledge, as required by Rule 1.229(c). Furthermore, they appear to be merely conjecture and surmise, and therefore do not warrant addition of an issue.

9. Accordingly, it is ordered, That the petition for leave to file supplement, filed February 19, 1975, by Norman Broadcasting Company (WGNU), and the request to file an additional pleading, filed April 11, 1975, by Doubleday Broadcasting Company, Inc., are granted; and the supplements, filed February 19, 1975 and April 11, 1975, by Norman Broadcasting Company (WGNU), and Doubleday Broadcasting Company, Inc., respectively, are accepted; and

10. It is further ordered, That the motion to strike, filed February 26, 1975, by Doubleday Broadcasting Company, Inc.; and the petition for leave to file responsive pleading, filed June 20, 1975, by Norman Broadcasting Company (WGNU), are denied; and the comments, filed June 20, 1975, by Norman Broadcasting Company (WGNU), are dismissed; and

11. It is further ordered, That the petition to enlarge issues, filed January 6, 1975, by Norman Broadcasting Company (WGNU), is granted to the extent indicated herein, and is denied in all other respects, and that the issues are enlarged to include the following:

To determine whether the proposal contained in the applications of Curtis L. Mann, Trustee in Bankruptcy (KWK), for renewal, modification, and assignment to Doubleday Broadcasting Company, Inc., will involve 2mV/m and 25 mV/m overlap with Station KJCF, Festus, Missouri, in contravention of Section 73.37(a) of the Commission's Rules and, if so, whether the applications should be dismissed.

12. And, it is further ordered, That the burden of proceeding with the introduction of evidence on the above issue and the burden of proof thereon shall be on Curtis L. Mann, Trustee in Bankruptcy (KWK); and

13. It is further ordered, That the petition to enlarge issues, filed March 4, 1975, by Doubleday Broadcasting Company, Inc., is denied.

Adopted: August 19, 1975.

Released: August 22, 1975.

# RCC-TELEPHONE CO. Notice of Meetings

August 25, 1975.

The Commission's Common Carrier Bureau has revised the previously announced schedule of meetings concerning interconnection between the wireline telephone companies and the Radio Common Carriers (RCCs), which furnish two-way radiotelephone and one-way signaling service to the public. The schedule changes were made in response to requests from both the Bell System and the National Association of Radiotelephone Systems, to which many of the RCCs belong.

The previously scheduled meetings for August 23-26 and September 2-3 have been cancelled. The schedule of meetings now is as follows:

Thursday, September 18  
Friday, September 19  
Tuesday, September 30  
Wednesday, October 1  
Monday, October 5  
Tuesday, October 6  
Wednesday, October 8

The meetings will be held in Room 8210, 2025 M Street, N.W., Washington, D.C. The September 18 meeting will begin at 9:30 a.m. The starting time for each of the other meetings will be determined at the close of the preceding meeting.

[FCC 75-980]

# TELEVISION RENEWAL APPLICATIONS Use of Terrain Roughness Correction Procedures Temporarily Suspended for FM Applicants

On July 22, 1975 the Commission released a Public Notice (52986) announcing that the date for submission of revised predicted (service) contours utilizing the new television field intensity charts and the terrain roughness correction procedure had been extended insofar as those applications for renewal of television licenses due August 1, 1975 were concerned. The announcement provided that television renewal applications due on August 1, 1975 would be accepted and reviewed without regard to the outstanding requirement for submission of new predicted service contours.

Since August 1, 1975 was not only the effective date of the amended rules but also a date on which many applications for renewal of television licenses were due it has been suggested that television renewal applicants filing on August 1, 1975 may actually have until August 1, 1978 to submit revised predicted service contours. This was not the intention of the Commission. Accordingly, August 1, 1975 television renewal applicants should submit this data prior to December 1, 1975. The October 1, 1975 television renewal applicants have been advised to provide the revised service contours with

# NOTICES

their applications. However, in view of the relief given the August 1, 1975 applicants it seems appropriate to provide similar relief to the October 1, 1975 applicants. Accordingly, they need not submit revised service contours until December 1, 1975.

With regard to service contours for FM stations or applicants, either commercial or non-commercial educational, many questions have arisen with respect to the use of the terrain roughness corrections. These questions are valid and deserve clarification. Therefore, to permit full consideration of such questions by the Commission, it seems appropriate that FM applicants should be temporarily relieved of meeting the requirements for terrain roughness computations. Accordingly, FM applicants (commercial and non-commercial educational) for new facilities or for changes in existing facilities which alter service contours need not include terrain roughness correction factors until further notice. The new curves, however, must be used. (FM stations were not required by the Report and Order in Docket 16004/18052 to file revised service contours at the time of renewal.)

At a later date the Commission will issue a clarification statement on these matters and establish a date beyond which such terrain roughness information must be included with FM applications involving new stations or major changes in existing stations.

Action by the Commission August 28, 1975.

Adopted: August 28, 1975.

Released: August 28, 1975.

# TV TRANSLATOR APPLICATIONS

## Ready and Available for Processing

Notice is hereby given, pursuant to section 1.572(c) of the Commission's rules, that on October 23, 1975, the TV translator applications listed in the attached Appendix will be considered as ready and available for processing. Pursuant to section 1.227(b) (1) and section 1.591(b) of the Commission's rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on October 22, 1975, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and submitted for filing at the offices of the Commission in Washington, D.C., by the close of business on October 22, 1975.

The attention of any party in interest desiring to file pleadings concerning any

\* Those licensees filing December 1, 1975 and after will be expected to submit the new terrain corrected service contours with their renewal applications.

\* Commissioners Wiley (Chairman), Lee and Robinson acting as a Board.

pending TV translator applications, pursuant to section 309(d) (1) of the Communications Act of 1934, as amended, is directed to section 1.580(i) of the Commission's rules for provisions concerning the time for filing and other requirements relating to such pleadings.

Adopted: August 27, 1975.

Released: September 3, 1975.

# FEDERAL MARITIME COMMISSION CANADIAN-AMERICAN WORKING ARRANGEMENT Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before September 25, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

## Notice of agreement filed by:

Howard A. Levy, Esq., Suite 727, 17 Battery Place, New York, New York 10004.

Agreement No. 10090-3, among the member conferences of the above-named arrangement, would extend the term of the original agreement pending the disposition of Agreement No. 10090-2 now before the Commission or for a period of six months, whichever occurs first.

By Order of the Federal Maritime Commission.

Dated: September 2, 1975.

JOSEPH C. POLKING,  
Assistant Secretary.

**Agreement Filed**

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before September 25, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

**Notice of agreement filed by:**

Mr. Dwight Green, Traffic Consultant, Port of Palm Beach, P.O. Box 9935, Riviera Beach, Florida 33404.

Agreement No. T-3149, among the Port of Palm Beach District (Palm Beach), the Canaveral Port Authority (Canaveral) and the Port Everglades Authority (Everglades), provides for the creation of a conference to be known as the Southeast Florida Port Association (SEFPA) to govern the parties' operations at their respective ports. The agreement provides for the parties to: (1) assess and collect all terminal rates and/or charges for or in connection with traffic handled by them; (2) establish, maintain, publish and file tariffs; and (3) file with the Commission all tariffs, rates, charges,

**NOTICES**

classifications, rules, regulations, and changes thereto adopted pursuant to the agreement. Changes in the SFPA tariff will not become effective until after 30 days' notice to the public, unless good cause exists for a change on shorter notice. Admission to the SFPA is open to any responsible port terminal operator at said Southeast Florida Ports upon a majority vote of the members of the SFPA.

By Order of the Federal Maritime Commission.

Dated: August 29, 1975.

JOSEPH C. POLKING,  
Assistant Secretary.

**Agreement Filed**

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., San Juan, Puerto Rico and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before September 15, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

**Notice of agreement filed by:**

Mr. Neal M. Mayer, Coles & Goertner, 1000 Connecticut Avenue, NW., Washington, D.C. 20036.

Agreement No. 10177, between the above named carriers which operate regular services in the trades between United States ports and port of Seatrain in Europe and ports of Italian Line

on the Mediterranean and North Africa coasts, provides for the interchange of cargo containers and/or related equipment in accordance with the terms and conditions set forth therein.

By Order of the Federal Maritime Commission.

Dated: August 29, 1975.

**ALGONQUIN GAS TRANSMISSION CO.**

**Notice of Rate Change Pursuant to  
Purchased Gas Cost Adjustment Provision**

AUGUST 27, 1975.

Take notice that Algonquin Gas Transmission Company (Algonquin Gas), on August 12, 1975, tendered for filing Fifth Substitute Sixth Revised Sheet No. 10 to its FPC Gas Tariff, First Revised Volume No. 1.

This sheet is being filed pursuant to Algonquin Gas' Purchased Gas Cost Adjustment Provision set forth in Section 17 of the General Terms and Conditions of its FPC Gas Tariff, First Revised Volume No. 1. The rate change is being filed to reflect an increase in purchased gas costs to be paid by Algonquin Gas to its supplier, Texas Eastern Transmission Corporation (Texas Eastern), scheduled to be effective October 1, 1975, as a result of a general rate increase filed by Texas Eastern on March 14, 1975, in Docket No. RP75-73.

The proposed effective date of the revised tariff sheet is October 1, 1975, the scheduled effective date of Texas Eastern's rate increase.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 8, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. CP76-60]

**ARKANSAS LOUISIANA GAS CO., COM-  
PLAINANT V. McCULLOCH OIL CORP.  
OF TEXAS, DEFENDANT**

**Notice of Complaint**

August 27, 1975.

Take notice that on August 18, 1975, Arkansas Louisiana Gas Company (Complainant), P.O. Box 1734, Shreveport, Louisiana 71151 filed in Docket No. CP 76-60 a complaint pursuant to Section 1.6 of the Commission's Rules of Practice and Procedure (18 CFR 1.6) against McCulloch Oil Corporation of Texas (Defendant) alleging a violation of the Natural Gas Act, as more fully set forth in the complaint on file with the Commission and open to public inspection.

Complainant alleges that gas from leases in Hemphill County, Texas, is dedicated to it for resale in interstate commerce pursuant to a gas sales contract between itself and Amarex, Inc. (Amarex), dated June 6, 1970. Complainant further alleges that Defendant is the assignee of certain of the subject leases, subject to the terms and provisions of the aforementioned gas sales contract and that in violation of the contract and the Natural Gas Act Defendant is delivering natural gas from the acreage covered by the contract to Pioneer Natural Gas Company (Pioneer), an intrastate gas company.

It is stated that a gas purchase contract dated June 6, 1970, was entered into by and between Amarex as seller, and Complainant, as buyer, covering a large block of oil, gas and mineral leases owned by Amarex in Texas. The gas purchase contract is said to have been filed with the Commission in support of Complainant's application pursuant to § 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing its Anadarko pipeline in Docket No. CP70-267.<sup>1</sup> Complainant alleges that subsequent to the execution of the gas purchase contract, Amarex assigned certain oil, gas and mineral leases that are stated to be covered by the contract to Defendant and further alleges that Defendant, as assignee of the leases, is subject to the terms and provisions of the gas purchase contract.

Complainant states that on November 24, 1971, that it began taking deliveries of gas into interstate commerce from certain of the oil, gas and mineral leases covered by the gas purchase contract which were retained by Amarex. Complainant alleges that the deliveries to Pioneer are being made in violation of the Natural Gas Act and the Rules and Regulations promulgated thereunder and are also in violation of the gas purchase contract. Complainant states that it has demanded that Defendant deliver to it such gas under the terms of the contract, but that Defendant has failed and refused, and fails and refused to deliver the gas to Complainant.

Complainant requests that the Com-

<sup>1</sup> Order of the Commission granting certificate of public convenience and necessity issued February 18, 1972 (47 FPC 585).

**NOTICES**

mission order that Defendant cease and desist from delivering the subject gas to Pioneer, that Defendant commence the delivery of such gas to Complainant and that Defendant repay to Complainant those volumes of natural gas which Defendant is alleged to have wrongfully delivered to Pioneer.

Any person desiring to be heard or to make any protest with reference to said complaint should on or before September 26, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RI76-19]

**WILLIAM C. BLANKS**

**Notice of Petition for Special Relief**

August 27, 1975.

Take notice that on August 13, 1975, William C. Blanks, Petitioner, 302 Southwest Bldg., Midland, Texas 79701, filed a petition for special relief in Docket No. RI76-19, seeking a rate above the applicable area ceiling under Opinion No. 662. Petitioner seeks the current nationwide rate of 51 cents plus Btu adjustment and taxes for the sale of gas to El Paso Natural Gas Company from the Stites Lease, North Branch Field, Sutton County, Texas. The petition is based upon the installation and operation of a gas compressor for the delivery of the additional gas reserves to the gas purchaser. Petitioner also states that if relief is not granted it will have no other recourse than to file for abandonment since it will be uneconomical to produce at the present rate of 35 cents per Mcf.

Any person desiring to be heard or to make any protest with reference to said petition should on or before September 15, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 75-23495 Filed 9-4-75; 8:45 am]

[Docket Nos. RP73-65 PGA76-1]

**COLUMBIA GAS TRANSMISSION CORP.**

**Order Accepting for Filing and Suspending Proposed PGA Rate Change Subject to Conditions**

August 29, 1975.

On July 17, 1975, Columbia Gas Transmission Corporation (Columbia) tendered for filing a proposed PGA rate adjustment<sup>1</sup> to become effective September 1, 1975, to reflect (1) an increase of 0.9¢ per Mcf or \$10.8 million annually in the cost of gas purchased from pipeline and producer suppliers and (2) changes in PGA surcharges to recoup \$23.6 million in its deferred purchased gas cost account.<sup>2</sup> Columbia, anticipating a one-day suspension, also submitted alternate rates<sup>3</sup> which are lower than the above rates and eliminate the effect of small producer and Ohio "intrastate" rates in excess of the rate levels established by Opinion 699-H.

The filing was noticed on July 21, 1975, with responses due on or before August 6, 1975. No responses have been received.

We note that this filing contains producer purchases by Columbia in Ohio which are alleged to be intrastate. By order issued February 28, 1975, in Docket Nos. RP73-65 and PGA75-5, we ordered an investigation to determine the propriety of including such purchases in Columbia's PGA rate adjustments. Accordingly, we shall make the determination of that issue in this proceeding subject to the outcome of that issue in Docket Nos. RP73-65 and PGA75-5.

We note further that Columbia's rates are based, in fact, upon small independent producer purchases at rates in excess of the rate levels established in Opinion No. 699-H.<sup>4</sup> In light of this fact, and in light of the inclusion in Columbia's rates of the Ohio purchases referred to above, we find that the proposed rates and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, or otherwise unlawful. Accordingly, we shall accept Columbia's proposed PGA change for filing and suspend it for one day until August 2, 1975, to become effective, subject to refund.

With regard to the question of small producer rates, we note that the Supreme Court has remanded the small independent producer rulemaking in order for the Commission to enunciate the standards in determining the justness and reasonableness for small producer purchases.<sup>5</sup> Accordingly, we believe it premature to set this matter for hearing at this time.

Our review of Columbia's proposed tariff sheet indicates that the claimed increased purchased gas costs, other than

<sup>1</sup> Twenty-fourth Revised Sheet No. 16 and Ninth Revised Sheet No. 64A to FPC Gas Tariff, Original Volume No. 1.

<sup>2</sup> Rates for Zones 1, 2, 3, 6, and 7 are reduced; rates for Zones 4 and 5 are increased.

<sup>3</sup> Alternate Twenty-fourth Revised Sheet No. 16 and Alternate Ninth Revised Sheet No. 64A to FPC Gas Tariff, Original Volume No. 1.

<sup>4</sup> Issued June 21, 1974, in Docket No. R-389-B.

<sup>5</sup> F.P.C. v. Texaco, Inc., 417 U.S. 380 (1974).

**NOTICES**

(1) those costs associated with that portion of small producer purchases in excess of the rate levels prescribed in Opinion 699-H and (2) those costs associated with the Ohio "intrastate" purchases indicated that such costs are fully justified and comply with the standards set forth in Docket No. R-406. Accordingly, we shall permit Columbia to file substitute tariff sheets to become effective September 1, 1975, reflecting increased purchased gas costs, other than (1) those claimed increased costs associated with that portion of small producer purchases in excess of the rate levels prescribed by Opinion 699-H and (2) those costs associated with Ohio "intrastate" purchases. In light of this, we shall not accept for filing the tariff sheets containing the lower rates which are listed in footnote 3 above.

**The Commission finds:**

(1) It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that Columbia's proposed PGA adjustment be suspended for one day to become effective September 2, 1975, subject to refund as hereinafter ordered and conditioned.

(2) The claimed increased costs, other than (1) those costs associated with that portion of small producer purchases in excess of the rate levels prescribed in Opinion No. 699-H and (2) those costs associated with Ohio intrastate purchases, have been reviewed and found to be in compliance with the standards set forth in Docket No. R-406.

**The Commission orders:**

(A) Columbia's proposed PGA rate change filed on July 17, 1975, is accepted for filing and suspended for one day to become effective September 2, 1975.

(B) Within 15 days of the date of issuance of this order, Columbia may file revised tariff sheets to become effective as of September 1, 1975, reflecting those claimed increased costs other than (1) those costs associated with that portion of small producer purchases in excess of the rate levels prescribed in Opinion 699-H and (2) those costs associated with Ohio "intrastate" purchases.

(C) The issue of the propriety of including costs associated with Ohio "intrastate" purchases in the instant PGA filing is hereby made subject to the determination of that issue in Docket Nos. RP73-65 and PGA75-5.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

TRIBES OF THE FLATHEAD RESERVA-  
TION, MONTANA AND THE MONTANA  
POWER CO.**

**Notice of Extension of Time**

August 28, 1975.

On August 6, 1975, The Confederated Salish and Kootenai Tribes of the Flathead Reservation, Montana filed a motion to extend the time within which to respond to the Motion of Commission Staff Counsel to Dismiss Application for License, filed on July 1, 1975, in the above-designated matter.

Upon consideration, notice is hereby given that the date within which to respond to Staff Counsel's motion is extended to and including October 16, 1975.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 75-23497 Filed 9-4-75; 8:45 am]

[Docket No. RI76-21]

**EXXON CORP.**

**Notice of Petition for Special Relief**

August 27, 1975.

Take notice that on August 18, 1975, Exxon Corporation (Petitioner), P.O. Box 2180, Houston, Texas 77001, filed a petition for special relief in Docket No. RI76-21, seeking a rate above the applicable area ceiling under Opinion No. 607. Petitioner seeks a price of 32 cents per Mcf for the sale of gas to Arkansas Louisiana Gas Company under its FPC Gas Rate Schedule No. 420 from the Federal King Well No. 1, Kinta Field, Haskell County, Oklahoma. The petition is based on remedial work and for purchasing, installing, equipping and maintaining compressor facilities for gas sold to Arkla from this well.

Any person desiring to be heard or to make any protest with reference to said petition should on or before September 16, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to par-

ticipate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 75-23498 Filed 9-4-75; 8:45 am]

[Docket No. RP74-26; AP76-1]

**LOUISIANA-NEVADA TRANSIT CO.**

**Order Accepting for Filing and Suspending Proposed Advance Payments Adjustment**

August 29, 1975.

On August 1, 1975 Louisiana-Nevada Transit Company (LNT) tendered for filing an increase in its rates<sup>1</sup> to reflect the inclusion in rate base of additional advance payments in the sum of \$487,292. Notice of LNT's filing was issued August 8, 1975 with protests and petitions to intervene due on or before August 21, 1975. None have been received.

LNT has not filed information concerning the expenditure by producers of these advance payments received from LNT. Therefore, the proposed changes have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, or otherwise illegal. Accordingly, we shall suspend the use of the new rates for one day to become effective September 3, 1975 and order a hearing thereon.

**The Commission finds:**

It is necessary and proper in the public interest and to aid in the enforcement of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of LNT's proposed rate adjustment as identified above, and that the tendered tariff sheets be accepted for filing and suspended as hereinafter provided.

**The Commission orders:**

(A) LNT's Fourth Revised Sheet No. PGA-1 to its FPC Gas Tariff, Original Volume No. 1 is hereby accepted for filing and suspended for one day to become effective September 3, 1975, subject to refund.

(B) Pursuant to the authority of the Natural Gas Act, particularly §§ 4 and 5 thereof, the Commission's Rules of Practice and Procedure, and the Regulations under the Natural Gas Act, a public hearing concerning the lawfulness of LNT's proposed change shall be held on January 27, 1976 at 10 a.m. at the offices of the Federal Power Commission, 825 North Capitol Street, Washington, D.C. 20426.

(C) On or before January 2, 1976 the Staff shall serve its prepared testimony and exhibits. On or before January 16, 1976 LNT shall serve any rebuttal testimony and exhibits.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose, (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the rules of procedure.

<sup>1</sup> Fourth Revised Sheet No. PGA-1 to its FPC Gas Tariff, Original Volume No. 1.

Secretary.  
[FR Doc. 75-235 5 Filed 9-4-75; 8:45 am]

[Docket No. RP73-91; PGA 76-1]

**MCCULLOCH INTERSTATE GAS CORP.**  
Notice of Purchased Gas Adjustment Clause

AUGUST 28, 1975.

Take notice that on August 15, 1975, McCulloch Interstate Gas Corporation (McCulloch) tendered for filing, copies of two Sixth Revised Sheets No. 32 to McCulloch Interstate Gas Corporation's FPC Gas Tariff Original Volume No. 1, as required under the Commission's Regulations under the Natural Gas Act.

McCulloch Interstate's Sixth Revised Sheets No. 32 provide in the alternative for Purchased Gas Adjustment rate reductions of:

- (1) 2.03¢ per Mcf effective October 1, 1975, and
- (2) 14.62¢ per Mcf effective October 1, 1975.

McCulloch states that its filings are made in order to provide for a current Gas Cost Adjustment in order to bring its Purchased Gas Cost in line with the cost of gas purchases which it is currently incurring. McCulloch states that in this first alternative filing McCulloch is proposing no adjustment to account for the one-time temporary reduction of 12.59¢ per Mcf in McCulloch's Unrecovered Purchased Gas Cost Account as of June 30, 1975.

McCulloch states further that its second alternative filing provides for a reduction of 14.62¢ per Mcf effective October 1, 1975 takes into account both the reduction in the Gas Cost Adjustment of 2.03¢ per Mcf and the reduction of 12.59¢ per Mcf in the Surcharge Adjustment, covering the one-time temporary reduction in its Unrecovered Purchased Gas Cost Account as of June 30, 1975.

McCulloch asks that the first alternative Sixth Revised Sheet No. 32, providing for a reduction of 2.03¢ per Mcf be permitted to go into effect on October 1, 1975 and that the second alternative Sixth Revised Sheet No. 32 providing for a reduction of 14.62¢ per Mcf effective October 1, 1975 be rejected.

McCulloch explains that it asks for this alternative treatment in order to avoid a "yo-yo" effect in the present level of its jurisdictional natural gas rates requiring a substantial reduction to be made effective at the present time, coupled with a new substantial rate increase which would become effective on April 1, 1976, the effective date of McCulloch's

next required Purchase Gas Adjustment clause rate filing.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 12, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 75-23500 Filed 9-4-75; 8:45 am]

[Docket No. RP72-149; PGA75-12]

**MISSISSIPPI RIVER TRANSMISSION CORP.**

Notice of Proposed Change in Rates

AUGUST 27, 1975.

Take notice that Mississippi River Transmission Corporation ("Mississippi") on August 20, 1975, submitted for filing Thirty-Third Revised Sheet No. 3A to its FPC Gas Tariff, First Revised Volume No. 1, to become effective October 1, 1975.

The instant filing is being made pursuant to the provisions of Mississippi's purchased gas cost adjustment clause to its tariff to reflect a change in Mississippi's deferred gas cost adjustment.

Mississippi submitted schedules containing computations supporting the rate changes to be effective October 1, 1975. Mississippi states that copies of its filing were served on Mississippi's jurisdictional customers and the State Commissions of Arkansas, Illinois and Missouri.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 12, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene unless such petition has previously been filed. Copies of the filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. ER76-83]

**OHIO POWER CO.**

Notice of Tariff Change

AUGUST 28, 1975.

Take notice that Ohio Power Company, on August 22, 1975, tendered for filing proposed changes in its FPC Electric Tariff MRS For Municipal Resale Electric Service, Original Volume No. 1. The proposed changes would increase revenues from jurisdictional sales and service by \$907,694, based on the 12-month period ending December 31, 1975.

Ohio Power Company states that the proposed rate increase is occasioned by increases in the cost of providing electric service, increased costs of capital and increased construction requirements.

Copies of the filing were served upon the affected municipal customers and the Public Utilities Commission of Ohio.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 12, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. ER76-74]

**OKLAHOMA GAS AND ELECTRIC CORP.**

Notice of Filing of Notice of Termination

AUGUST 28, 1975.

Take notice that Oklahoma Gas and Electric Company, on August 15, 1975, tendered for filing a Notice of Termination of its Rate Schedule FPC No. 92 with Arkansas Valley Electric Cooperative. That rate schedule terminated under its own terms on July 8, 1975.

The filing indicates that a copy of the notice of termination was served upon Arkansas Valley Electric Cooperative.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20002, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 9, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not

serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 75-23503 Filed 9-4-75; 8:45 am]

[Docket No. CP76-50]

**PACIFIC GAS TRANSMISSION CO.**

Notice of Application

AUGUST 25, 1975.

Take notice that on August 11, 1975, Pacific Gas Transmission Company (Applicant), 245 Market Street, San Francisco, California 94105, filed in Docket No. CP76-50 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation and delivery of natural gas to Northwest Pipeline Corporation (Northwest), on an emergency basis, by revision of deliveries of gas to Pacific Gas and Electric Company (PG&E) all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that it has been represented to it that for Northwest to maintain continuity of service to firm priority 1 and 2 requirements customers during the period commencing November 1, 1975, through April 30, 1976 (winter season), additional volumes of natural gas will be required. Applicant states that it has therefore entered into an emergency agreement with Northwest, to which PG&E is also a party, for the temporary revision of the deliveries of natural gas that Applicant would have to make to PG&E. It is stated that under the terms of the agreement, during the winter season Applicant would make exchange deliveries up to 150,000 Mcf of gas per day and 1,200,000 Mcf of gas over the term of the agreement to Northwest, to the extent agreed to by PG&E from day to day. The deliveries are proposed to be made at the Stanfield, Oregon, interconnection and at the Spokane, Washington, delivery point.

It is stated that Northwest would pay Applicant on a monthly basis, an amount equal to \$1.68 per Mcf multiplied by the volume of gas delivered as emergency exchanges in the month. Applicant states that such amount would then be credited to PG&E's monthly cost of service charge rendered to PG&E to reimburse it for the additional burden placed upon its system due to the revisions so made. Applicant states further that the cost of service charge would be allocated as though the deliveries so made were to be made at PG&E at Oregon-California border.

Applicant states that Northwest would, in exchange for the volumes of gas received from Applicant, deliver to Applicant between May 1, 1976, and September 30, 1976 such volumes of gas as Northwest has available and Applicant and PG&E can accept until the quantity of gas so delivered equals the quantity of exchange gas theretofore received by

Northwest. If the total quantity of gas so delivered by Northwest were not to equal the total quantity delivered to Northwest, Northwest would pay to Applicant an additional sum based on the purchase price of gas then existing, plus an average transportation charge, for credit to PG&E's bill.

The application indicates that no new facilities are required to institute the proposed emergency exchange.

Any person desiring to be heard or to make any protest with reference to said application should on or before September 16, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by §§ 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[Docket No. ER76-80]

**PACIFIC POWER & LIGHT CO.**

Notice of Filing of Amended Rate Schedule

AUGUST 28, 1975.

Take Notice that Pacific Power & Light Company (Pacific) on August 20, 1975, tendered for filing, in accordance with Section 35.13 of the Commission's Regulations, an amended rate schedule for electric power and energy sales and transmission service to Black Hills Power and Light Company (Black Hills).

The amended rate schedule provides for changes in rates, equipment supplied and Black Hills' peak and energy forecast. There is no change in rates by these amendments.

Pacific requests waiver of the Commission's notice requirements to permit the

rate schedule to become effective June 11, 1975, which it claims is the date of commencement of power sales under the rate schedule.

A copy of this filing has been supplied to the Wyoming Public Service Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 12, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. E-9212]

**PACIFIC POWER & LIGHT CO.**

Notice of Initial Tariff Filing

AUGUST 28, 1975.

Take notice that Pacific Power & Light Company, by letter dated January 8, 1975, and supplemented thereafter on August 1, 1975, tendered for filing what it claims to be a new rate schedule RR-2 to become part of its FPC Electric Service Tariff.

The company states that the proposed rate schedule covers nonfirm, thermal-generated electric energy at transmission interconnections to any electric public utility in amounts and at times when available at the rate agreed to prior to delivery but not more than 12 mills per kilowatt-hour.

Copies of the filing were supplied to the regulatory commissions in the States of Oregon, Washington, California and Wyoming.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 12, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

**PUBLIC SERVICE CO. OF  
NEW HAMPSHIRE****Notice of Filing of Agreement**

August 28, 1975.

Take notice that Public Service Company of New Hampshire (PSNH) on August 15, 1975, tendered for filing as an initial rate schedule a Transmission Contract with the Connecticut Light and Power Company, The Hartford Electric Light Company and Western Massachusetts Electric Company (the Buyers).

Under the Contract, PSNH will transmit through its system an entitlement of power which the Buyers will be purchasing from Vermont Electric Power Company, Inc.

PSNH requests that the Commission waive the normal 30-day notice requirement and permit the rate schedule to be effective as of May 1, 1975.

According to PSNH, a copy of the filing was served upon each of the Buyers and the New Hampshire Public Utilities Commission.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20002, in accordance with Section 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). [Docket No. RP78-92, PGA76-1]

**RATON NATURAL GAS CO.****Notice of Change in Rates**

August 28, 1975.

Take notice that Raton Natural Gas Company (Raton) on August 21, 1975, tendered for filing, proposed changes in its FPC Gas Tariff, Volume No. 1, consisting of Eighth Revised Sheet No. 3a. The change in rates is for Jurisdictional Gas Service.

Raton states that the instant notice of change in rates is occasioned solely by, and will compensate Raton only for, increases in the cost of gas purchased from Colorado Interstate Gas Company (CIG). The tracking of CIG gas cost increase of \$0.11 per MCF of demand results in increased rate from \$1.23 to \$1.34 per MCF and increase of \$0.06 cents per MCF of Commodity results in increased rate from 56.23 cents to 56.29 cents per MCF. The annual revenue increase by reason of the tracking increased rate amounts to \$8,850.

Any person desiring to be heard or to protest said filing should file a petition

to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 15, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RI75-122]

**ROBINSON BROTHERS DRILLING CO.****Order Granting Special Relief**

August 14, 1975.

On April 4, 1975, Robinson Brothers Drilling Company (Robinson) filed in Docket No. RI75-122 a petition for special relief pursuant to Section 2.76 of the Commission's General Policy and Interpretations (18 CFR § 2.76) for sales of natural gas to El Paso Natural Gas Company (El Paso) from the Manry Elliott No. 1 Well located in Chaves County, New Mexico. Robinson is a small producer and was granted a small producer certificate in Docket No. CS75-350 effective as of March 3, 1975. Robinson is successor in interest to Robinson Brothers Oil Producers, which previously sold the subject gas to El Paso under a small producer certificate issued in Docket No. CS71-972 on October 21, 1971.

Robinson is currently collecting a rate of 25.3 cents per Mcf for the sales to El Paso pursuant to a contract dated December 9, 1960. Robinson states that in November 1974 it installed a two-stage compression facility which was necessary in order to produce the remaining well reserves against existing pipeline pressure. Without the installation of the compression facility, Robinson asserts that the well would be incapable of production and would have to be plugged and abandoned. Robinson leases the compression facility at a cost of \$50 per day.

By letter dated January 28, 1975, Robinson informed El Paso that continued operation of the well with the compression facility was uneconomical, and that a substantial price increase would be necessary to prevent abandonment of the well. Subsequently, on February 18, 1975, the parties executed an amendatory agreement to their gas sales contract of December 9, 1960. The amendment provides for a base contract rate of 51.0 cents per Mcf at 14.73 psia, plus 1.0 cent per Mcf annual escalations, plus tax and proportionate Btu adjustments.

The rate sought by Robinson does not take into account any effect on Robinson's tax liability resulting from the repeal of the percentage depletion allowance by the Tax Reduction Act of 1975.

**NOTICES**

Notice of the petition for special relief was issued on April 14, 1975, and appeared in the Federal Register on April 18, 1975, at 40 FR 17336. No petitions to intervene have been filed.

Staff has reviewed the cost data submitted by Robinson and has made an extensive field audit of Robinson's books and records. Based thereon Staff has estimated that 205,000 Mcf of reserves remain to be produced over a period of three years, and Staff has determined that the proposed rate is cost justified. After a careful review of the costs to be incurred and the reserves to be recovered, we conclude that it is in the public interest to grant Robinson's petition.

**The Commission finds:**

The petition for special relief filed by Robinson meets the criteria set forth in § 2.76 of the Commission's General Policy and Interpretations.

**The Commission orders:**

(A) The petition for special relief of Robinson is hereby granted.

(B) The contract amendment dated February 18, 1975 between Robinson and El Paso is accepted for filing effective as of the date of issuance of this order.

(C) Robinson is authorized to collect a base rate of 51.0 cents per Mcf at 14.73 psia plus tax and Btu adjustments, as provided in the February 18, 1975 contract amendment, effective as of the date of issuance of this order.

(D) During the one year period commencing January 1, 1976, and during each succeeding one year period thereafter, Robinson may increase the base rate authorized herein by 1.0 cent per Mcf as provided in the February 18, 1975 contract amendment; *Provided, however*, that prior to any such change in the rate to be collected by Robinson, Robinson must file a notice of change in rate in accordance with § 154.94 of the Commission's Regulations under the Natural Gas Act (18 CFR § 154.94).

By the Commission.

[Docket No. ER76-87]

**SIERRA PACIFIC POWER CO.****Notice of Proposed Changes in Rates and  
Charges**

August 28, 1975.

Take notice that on August 25, 1975, Sierra Pacific Power Company (Sierra Pacific) tendered for filing a notice of change in rates and charges in its Rate Schedule FPC No. 11 and a notice of change in rates and charges in Rate Schedule R; Fuel Adjustment; Terms and Conditions; and associated changes in its FPC Electric Tariff, Volume No. 1. Based upon the test period of twelve months ending June 1976, Sierra Pacific estimates that the total effect of the changes in rates and charges would increase annual revenues from jurisdictional sales and services by approximately \$716,132, or 14.7%.

Sierra Pacific requested a waiver of the thirty (30) day rule pursuant to § 35.11 of the Commission's Rules and Regulations under the Federal Power Act to cancel Supplement No. 2 to Rate Schedule FPC No. 11 to transfer Mt. Wheeler Power, Inc. (Mt. Wheeler) to the existing Rate Schedule R of its FPC Electric Tariff (Supplement No. 3) as the type of service rendered Mt. Wheeler was changed with completion of the Sierra Pacific-Utah Power and Light Company interconnection on August 8, 1975. Sierra Pacific estimates that this change would increase jurisdictional revenues during the test period by \$595,172.

Sierra Pacific proposed that the effective date of the changes in rates and charges of its FPC Electric Tariff be September 21, 1975, and stated that these changes would effect an increase in test period jurisdictional revenues of \$121,679.

In addition, Sierra Pacific requested permission to initiate deferred fuel and purchased power cost accounting on its books and records, and interest charges on delayed payment of service billings.

Copies of the filing were served upon Sierra Pacific's jurisdictional customers, the California Public Utilities Commission, and the Public Service Commission of Nevada.

Any person desiring to be heard or to protest said filing should file a petition

to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 15, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER76-76]

**SOUTH CAROLINA ELECTRIC & GAS CO.****Notice of Filing of Interconnection  
Agreement**

August 28, 1975.

Take notice that on August 15, 1975, South Carolina Electric & Gas Company (Company), pursuant to Part 35 of the Commission's Regulations under the Federal Power Act, tendered for filing an interconnection agreement dated January 1, 1975 between the Company and South Carolina Public Service Authority (Authority).

The agreement, which supersedes a prior interconnection agreement on file with the Commission and designated as the Company's Rate Schedule FPC No. 15, provides for the establishment of two new points of interconnection between the Company and the Authority. The interconnection arrangement, according to the Company, is to provide means with which to coordinate the operation of the respective generation, transmission and subsection facilities to the mutual advantage of both parties.

In order to effectuate the new agreement of January 1, 1975, the Company requests waiver of the 30-day notice provision of the Commission's Regulations.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington D.C., 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before September 9, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party to the proceeding must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

#### Investigation of Revised Curtailment Level on System, Notice of Extension of Time

August 27, 1975.

On August 25, 1975, General American Oil Company of Texas filed a motion to extend the date for filing the report required by paragraph (A) of order issued August 8, 1975, in the above-designated matter.

Notice is hereby given that the date for filing the report required by paragraph (a) of the order issued August 8, 1975, in the above matter is extended to September 4, 1975 for all parties.

By direction of the Commission.

KENNETH F. PLUMB,  
Secretary.

[Docket Nos. RP71-29, et al.]

#### UNITED GAS PIPE LINE CO.

#### Notice of Proposed Settlement

August 25, 1975.

Take notice that on August 14, 1975, the Administrative Law Judge in the

#### NOTICES

proceeding in Docket Nos. RP71-29, et al., certified a proposed settlement to the Commission for action. The said proceeding is being conducted for the purpose of developing a plan to curtail the service rendered by United Gas Pipe Line Company (United) to its customers. The proposed settlement was submitted by United and it constitutes a scheme of allocation of United's services during the period of November 1, 1975 through October 31, 1976. The scheme of allocation is a departure from United's service obligations under the currently effective interim agreement, which departure is necessitated by a foreseeable decrease in the supply of natural gas that will be available to United during the period mentioned.

#### PROCEEDINGS

The proposed settlement resulted from proceedings held pursuant to a Federal Power Commission order issued on March 7, 1975 under Docket No. RP71-29. The March 7 order denied a motion for immediate modification of the existing curtailment plan and directed that further hearings in these proceedings be conducted in two phases. Phase I was to be convened immediately for the purpose of determining, in advance of the 1975-76 winter heating season, whether United's currently-effective interim curtailment program should either (1) remain in effect pending formulation of a permanent plan, or (2) be modified by the Commission pursuant to Section 5 (a) of the Natural Gas Act. The March 7 order also provided for a later Phase II hearing for the purpose of formulating a permanent curtailment plan for implementation on United's System. By an "Order on Rehearing" issued May 2, 1975, the Commission ordered that a Phase III be added to the proceedings to consider matters pertaining to § 12.3 of United's proposed tariff dealing with United's contractual liability filed on March 3, 1975 in Docket No. RP75-71.<sup>1</sup>

The Phase I hearing was convened on May 20, 1975 and recessed upon application of the combined parties for settlement conferences. Informal on May 30, 1975 that unanimous agreement upon a settlement in connection with an interim curtailment plan appeared unlikely but that further negotiations conducted simultaneously with the taking of testimony in connection therewith might eventually prove fruitful, the hearing on Phase I, as previously directed by the Presiding Administrative Law Judge, commenced on June 2, 1975 and continued with short interim recesses through June 24, 1975. A further settlement conference was convened on June 30, 1975 and on July 1, 1975 the Presiding Administrative Law Judge was advised by counsel for United that the majority of the parties had reached agreement on modifications to the three-category program as a settlement of the issues in Phase I.

<sup>1</sup> Docket No. RP75-71 was consolidated with RP71-29 by Commission order dated April 2, 1975.

Further hearing in connection with Phase I was thereupon suspended and the Presiding Administrative Law Judge, on request of the parties, directed that a hearing be convened on July 22, 1975 at which time testimony would be presented in support of, and in opposition to, United's proposed settlement, together with proposed variations thereto and any alternate proposals which any of the dissenting parties might wish to present. The hearing on the proposed settlement and variations thereto proceeded as scheduled and was concluded on August 4, 1975.<sup>2</sup>

The settlement proposal and the transcript of the hearing in connection with Phase I were certified to the Commission by the Administrative Law Judge on August 14, 1975 pursuant to § 1.18(e) of the Rules of Practice and Procedure. The Judge's certification stated that "United's settlement proposal, concurred in by a substantial majority of the parties, constitutes the 'ameliorating' plan for the coming winter heating season."

#### HIGHLIGHTS OF SETTLEMENT PLAN

Under the proposed settlement plan, the currently-effective interim three-category curtailment program would continue in effect subject to the following modifications:

(1) The curtailment allocations of United's customers shall be determined using the new end-use data which has been collected pursuant to the directives of the Commission in Opinion Nos. 647 and 647-A. Appendix A of the proposed plan contains an impact study showing estimated curtailments and deliveries under the proposed plan.

(2) The 3,000 Mcf per day Category III cut-off will be continued for the protection of industrial customers. However, any curtailments below that level shall be effectuated on a pro rata basis in three successive steps, to 1,500, 300, and 0 Mcf per day.

(3) Industrial feedstock requirements of United's city gate customers shall be reclassified from Category III to Category II. Only two city gate customers have reported such requirements.

(4) United's pro rata share of the industrial feedstock requirements reported by its seven pipeline customers shall also be reclassified from Category III to Category II except that no such deliveries shall be made when United must curtail below the 300 Mcf Category III step mentioned in paragraph 2 above.

(5) Industrial process gas requirements shall be protected to the extent of 3,000 Mcf per day which shall not be curtailed until all other Category III requirements have been curtailed to the

<sup>2</sup> An alternate settlement proposal presented by Allied Chemical Corporation, et al., through the prepared testimony of Mr. R. A. Ransom based on the issue of "new and enlarged service" was stricken from the record by the Presiding Administrative Law Judge on motion by United inasmuch as the issue of "new and enlarged service" had previously been stated by the Commission to be more appropriate for consideration in Phase II.

#### NOTICES

[Project No. 2716—Virginia]

#### VIRGINIA ELECTRIC AND POWER CO. Notice of Availability of Environmental Impact Statement for Inspection

Notice is hereby given that on September 15, 1975, as required by the Commission Rules and Regulations under Order 415-C, issued December 18, 1972, a final environmental impact statement prepared by the Commission's staff pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969 (Public Law 91-100) was placed in the public files of the Federal Power Commission. This statement deals with the environmental impact of an application for license filed pursuant to the Federal Power Act by Virginia Electric and Power Company for proposed Bath County Pumped Storage Project No. 2716 to be located on Back Creek and Little Back Creek in Bath, Highland, Augusta, and Rockbridge Counties, Virginia and partially within the George Washington National Forest. This statement is available for public inspection in the Commission's Office of Public Information, Room 1000, 825 North Capitol Street, N.E., Washington, D.C. 20426 and its Atlanta Regional Office located at 730 Peachtree Building, Room 500, Atlanta, Georgia 30308. Copies may be ordered from the Commission's Office of Public Information, Washington, D.C. 20426.

The project would consist of a 265-acre upper reservoir (full power pool elevation 3320 feet m.s.l.), a 555-acre lower reservoir (full power pool elevation 2118 feet m.s.l.), three tunnels connected to six penstocks, and an indoor-type powerhouse which would contain six 350 MW pump-turbine generating units. Also associated with the project would be two 500 kV transmission lines, one extending 50 miles to Burketown, Virginia, and one extending 35 miles to Lexington, Virginia. Recreation facilities include streamside fishing, 2 recreation ponds (total of 85 acres), camping facilities, and a visitors center.

KENNETH F. PLUMB,  
Secretary.

**NATIONAL SCIENCE FOUNDATION  
AD HOC TASK GROUP 10 OF THE  
ADVISORY COMMITTEE FOR RESEARCH  
Notice of Open Meeting**

Ad hoc Task Group 10 of the Advisory Committee for Research will hold a meeting in Rm. 543 on September 24, and in Rm. 540 on September 25, 1975, beginning at 9 a.m. each day at the National Science Foundation, 1800 G St., NW., Washington, D.C.

The purpose of the ad hoc task groups of the Advisory Committee for Research is to provide the Committee with a mechanism to consider numerous issues of interest to the full Committee. The task groups are composed of members of the Advisory Committee for Research and function in accordance with the Federal Advisory Committee Act, Pub. L. 92-463. The agenda for this meeting will be to work on draft material for the task group's report on the Social Sciences which will be submitted to the full Committee in November 1975.

The meeting is open to the public. Anyone who plans to attend or would like more information about the ad hoc task group should contact Mr. Leonard Gardner, Executive Secretary, Advisory Committee for Research, Rm. 320, National Science Foundation, Washington, D.C. 20550, telephone 202/632-4278.

Summary minutes of this meeting

may be obtained from the Committee Management Coordination Staff, Management Analysis Office, National Science Foundation, Rm. 248, Washington, D.C. 20550.

Notice of Systems of Records;  
Amendment  
Correction

In FR Doc. 75-22885 appearing on page 40137 of the issue for Friday, August 29, 1975, make the following changes:

1. In the third line of the first paragraph and the third line of the second paragraph, the date "1985" should read "1975";
2. The signature, now reading "Fritz L. Puls", should read "Fritz L. Puls";
3. The text of the systems of records was printed out of order and should read as follows:

**NTSB—5**

**System name:** Reports of Employee's Financial Interests and Outside Employment.

**System location:** National Transportation Safety Board, 800 Independence Avenue, S.W., Washington, D.C. 20594

**Categories of individuals covered by the system:** NTSB employees.

**Categories of records in the system:** Confidential statements of financial interests and outside employment required of certain employees. The statements set forth the financial interests of the employees and members of their immediate families and specify the employment of the members of the immediate family or any other employment of the NTSB employees involved.

**Authority for maintenance of the system:** 5 CFR Part 735 (Federal Personnel Manual), implemented by 49 CFR Part 805.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** These records are used by authorized personnel for ascertaining conflicts or apparent conflicts of interest and for recommending appropriate action to NTSB employees. In the event of a violation or potential violation of law, whether civil, criminal, or regulatory, the records may be referred to the appropriate agency. Routine use includes, but is not limited to, referral to law enforcement agencies of violations of the law and for discovery purposes ordered by a court, referral to potential employers, and for security clearance.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** Records are maintained on 8-1/2 inch by 10-1/2 inch forms kept in a manila folder.

**Retrievability:** Indexed alphabetically by name.

**Safeguards:** Records are stored in a locked safe.

**Retention and disposal:** Records are manually kept during employment of the individual and then destroyed.

**System manager(s) and address:** Director of Administration, Office of the General Manager, National Transportation Safety Board, 800 Independence Avenue, S.W., Washington, D.C. 20594.

**Notification procedure:** Address inquiries to System Manager.

**Record access procedures:** Same as above.

**Contesting record procedures:** Same as above.

**Record source categories:** NTSB employees.

**NTSB—6**

**System name:** Employee Payroll, Leave, and Attendance Records—NTSB

**System location:** National Transportation Safety Board, 800 Independence Avenue, S.W., Washington, D.C. 20594.

**Categories of individuals covered by the system:** NTSB employees.

**Categories of records in the system:** Manual files and computer-retrievable data containing payroll-related information covering NTSB employees. Payroll, leave and attendance records include many records or information also maintained in the employees' Personnel Nonpermanent Records and related files which are main-

**NUCLEAR REGULATORY  
COMMISSION**

[Docket No. 50-254]

**COMMONWEALTH EDISON CO. AND  
IOWA-ILLINOIS GAS AND ELECTRIC CO.**

**Notice of Proposed Issuance of Amend-  
ment to Facility Operating License**

The Nuclear Regulatory Commission (the Commission) is considering the issuance of an amendment to Facility Operating License No. DPR-29 issued to the Commonwealth Edison Company (the licensee, acting for itself and on behalf of the Iowa-Illinois Gas and Electric Company) for operation of Quad-Cities Unit 1 (the facility), a boiling water reactor located in Rock Island County, Illinois, and currently authorized for operation at power levels up to 2511 MWt.

In accordance with the licensee's application for a license amendment dated July 1, 1975, the amendment would modify operating limits in the Technical

Specifications based upon an evaluation of ECCS performance calculated in accordance with an acceptable evaluation model that conforms to the requirements of the Commission's regulations in 10 CFR Section 50.46. The amendment would modify various limits established in accordance with the Commission's Interim Acceptance Criteria, and would, with respect to Quad-Cities Unit 1, terminate the further restrictions imposed by the Commission's December 27, 1974 Order for Modification of License, and would impose instead, limitations established in accordance with the Commission's Acceptance Criteria for Emergency Core Cooling Systems for Light Water Nuclear Power Reactors, 10 CFR 50.46.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

tained in accordance with Civil Service Commission regulations and noticed by the Commission in its Governmentwide systems of personnel records. Payroll and related information consists of various forms and computer-retrievable data which discloses on a biweekly, year-to-date, and/or annual basis, payroll and leave data for each NTSB employee. This data relates to the rate and amount of pay, leave, hours worked, and leave balances. It also includes tax and retirement deductions, life insurance and health deductions, savings allotments, savings bond and charity deductions, mailing addresses, and home addresses.

**Authority for maintenance of the system:** Federal Personnel Manual and Treasury Fiscal Requirements Manual; and Pub. L. 93-633, 88 Stat. 2168 (sec. 303(c)(3) of the Independent Safety Board Act of 1974, 49 U.S.C. 1902).

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** For preparation of payroll, to fulfill Government payroll recordkeeping and reporting requirements; and to retrieve and supply payroll and leave information as required for NTSB needs. Other routine uses for certain records are specified in the Civil Service Commission notice: "C.S.C.—General Personnel Records (Official Personnel Folder and records related thereto)." Routine use includes, but is not limited to, referral to law enforcement agencies of violations of the law and for discovery purposes ordered by a court, referral to potential employees, and for security clearance.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:**

**Storage:** Storage for NTSB is maintained by the Federal Highway Administration (FHWA), 400 7th Street, S.W., Washington, D.C. 20590.

**Retrievability:** Time cards are machine-printed, 7-1/2 inch by 3-1/2 inch cards (FHWA Form 320A); tapes are standard 2, 400-foot IBM tapes.

**Safeguards:** There are no safeguards for the time cards. The tapes, however, are maintained in the computer center and access is permitted only to certain specified FHWA employees or appropriate employees of contractor agencies.

**Retention and disposal:** The time cards are maintained in the office for the current and prior year and are thereafter sent to the Federal Records Center in St. Louis. The tapes are retained, based on the cycle of the particular system. The disposal occurs when the cycle ends. The tapes are kept by employee number, which is a number assigned to the employee on hiring.

**System manager(s) and address:** Director of Administration, Office of the General Manager, National Transportation Safety Board, 800 Independence Avenue, S.W., Washington, D.C. 20594.

**Notification procedure:** Address inquiries to System Manager.

**Record access procedures:** Same as above.

**Contesting record procedures:** Same as above.

**Record source categories:** NTSB employees.

By October 6, 1975, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER Notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date.

A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regu-

sequently an amendment to Facility Operating License No. R-110 to Idaho State University (the licensee). The

REGISTER Notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commis-

quired in the public interest and for the protection of investors;

Therefore, pursuant to Section 12(k)

recommending the purchase or sale of the common stock of Bausch & Lomb, Inc., in violation of Section 10(b) of the

securities analysts when such recommenda- tion and information is allegedly formulated in part on the basis of material non-public information with respect to which no prec-

A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and to John W. Rowe, Esquire of Isham, Lincoln & Beale, One First National Plaza, Chicago, Illinois 60670, the attorney for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceedings as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see (1) the application for amendment dated July 1, 1975, and (2) the Commission's Order for Modification of License and the documents referred to in the Order dated December 27, 1974, published in the FEDERAL REGISTER on January 9, 1975 (40 FR 1783), which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., 20555 and at the Moline Public Library, 504—17th Street, Moline, Illinois 61265. The license amendment and the Safety Evaluation, when issued, may be inspected at the above locations, and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 26th day of August, 1975.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,  
Chief, Operating Reactors  
Branch No. 2, Division of Reactor Licensing.

[Docket No. 50-284]

#### IDAHO STATE UNIVERSITY

#### Notice of Proposed Issuance of Construction Permit and Amendment to Facility Operating License

The Nuclear Regulatory Commission (the Commission) is considering the issuance of a construction permit and sub-

sequently an amendment to Facility Operating License No. R-110 to Idaho State University (the licensee). The licensee is currently authorized by the Commission to possess and operate an AGN-201 research reactor (the facility) at 100 milliwatts on its campus in Pocatello, Idaho, for teaching and training purposes.

The proposed permit would authorize the licensee to move the reactor from the Physical Science Building to the Lillibridge Engineering Laboratory Building (a distance of approximately 110 yards) and to reconstruct it at the new location. The proposed amendment to the license subsequently would authorize operation of the facility in the new location at the previously approved power level. The amendment would also extend the expiration date of the license from July 11, 1987 to the fall of 1995.

Prior to issuance of the proposed construction permit, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

Upon completion of the relocation of the facility in compliance with the terms and conditions of the construction permit and the application, and in the absence of good cause to the contrary, the Commission will issue to Idaho State University (without prior notice) an amendment to the existing facility license authorizing operation of the reactor in the new location for the extended period of time specified above since the application is complete enough to permit evaluation of the safety considerations associated with the operation of the facility in the new location and for the additional period of time. Prior to the issuance of the license amendment, the facility will be inspected by a representative of the Commission to determine whether it has been satisfactorily relocated in accordance with the application and the provisions of the construction permit. The amendment to the operating license will not be issued until the Commission makes the findings required by the Act and the Commission's rules and regulations, and concludes that the issuance of the license amendment will not be inimical to the common defense and security or to the health and safety of the public.

By October 6, 1975, the licensee may file a request for a hearing and any person whose interest may be affected by this proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the construction permit and the amendment to the license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing actions. Such petitions must be filed in accordance with the provisions of this FEDERAL

REGISTER Notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section, by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board, designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to these actions, see (1) the application for amendment filed by the Idaho State University dated June 17, 1975 and letter dated July 21, 1975, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. The license amendment and the Safety Evaluation, when issued, may be inspected at the above location, and a copy may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 26th day of August, 1975.

For the Nuclear Regulatory Commission.

DENNIS L. ZIEMANN,  
Chief, Operating Reactors  
Branch No. 2, Division of Reactor Licensing.

#### SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

#### CONTINENTAL VENDING MACHINE CORP.

##### Suspension of Trading

August 27, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of Continental Vending Machine Corporation being traded otherwise than on a national securities exchange is re-

quired in the public interest and for the protection of investors;

Therefore, pursuant to Section 12(k) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from August 28, 1975 through September 6, 1975.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

[FR Doc. 75-23638 Filed 9-4-75; 8:45 am]

[Release No. 8909; 812-3815]

DOUGLAS CAMPBELL, JR., ET AL.

#### Application for Exemption

August 28, 1975.

Notice is hereby given that Douglas Campbell, Jr. ("Campbell"), 522 Fifth Avenue, New York, New York 10036, Campbell Asset Management Company ("Campbell Asset") and Campbell Advisors, Inc. ("Campbell Advisors") ("Applicants"), have filed an application and amendment thereto pursuant to Section 9(c) of the Investment Company Act of 1940 ("Act"), for an order of the Commission exempting Applicants from the provisions of Section 9(a) of the Act insofar as any ineligibility to serve or act in the capacities enumerated in Section 9(a) of the Act arises out of an injunction entered in connection with an action entitled *Securities and Exchange Commission v. Bausch & Lomb, Inc., et al.* (United States District Court for the Southern District of New York) (the "Action"). All interested persons are referred to the application and amendment on file with the Commission for a statement of the representations therein.

Campbell is the majority stockholder, President and Chief Executive Officer and a director of Campbell Advisors, a registered investment adviser pursuant to Section 203(c) of the Investment Advisers Act of 1940, and formerly conducted a business as an unregistered private investment adviser by means of a sole proprietorship under the assumed name of Campbell Asset.

The Action arose out of the sale by Campbell and Campbell Asset of common stock of Bausch & Lomb, Inc. The complaint in the Action alleges the improper use by Campbell and Campbell Asset of material non-public information in connection with transactions in the securities of Bausch & Lomb, Inc., in violation of Section 10(b) of the Securities Exchange Act of 1934 and Rule 10b-5 thereunder.

On March 7, 1975, a final judgment of permanent injunction against Campbell and Campbell Asset was entered upon the consent of the Securities and Exchange Commission and Campbell and Campbell Asset. The judgment enjoined Campbell and Campbell Asset, directly or indirectly by use of any means or instruments of transportation or communication in interstate commerce or of the mails, from purchasing or selling or

recommending the purchase or sale of the common stock of Bausch & Lomb, Inc., in violation of Section 10(b) of the Securities Exchange Act of 1934 and Rule 10b-5 thereunder. The judgment further ordered Campbell and Campbell Asset to adopt and implement a written statement of procedures concerning the receipt of material inside, non-public corporate information with respect to Bausch & Lomb, Inc. or any other securities.

Section 9(a) (2) of the Act makes it unlawful for any person who, by reason of any misconduct, is permanently or temporarily enjoined by order, judgment, or decree or any court of competent jurisdiction from engaging in or continuing any conduct or practice in connection with the purchase or sale of any security, to serve or act in the capacity of officer, director, member of an advisory board, investment adviser, or depositor of any registered investment company, or principal underwriter for any registered open-end company. Section 9(a) (3) makes it unlawful for a company any affiliated person of which is ineligible by reason of Section 9(a) (2) to serve or act in the foregoing capacities.

Campbell represents that he was formerly a director of Smith Barney Equity Fund, Inc. and Smith Barney Income and Growth Fund, Inc., which are registered investment companies and it is anticipated that he will rejoin the board of directors of these companies upon the Commission entering an order exempting Campbell from the provisions of Section 9(a) of the Investment Company Act of 1940.

Section 9(c) of the Act provides that any person who is ineligible by reason of subsection (a) to serve or act in the capacities enumerated therein may file with the Commission an application for an exemption from the provisions of that subsection and further provides that the Commission shall by order grant such application, either unconditionally or on an appropriate temporary or other conditional basis, if it is established that the prohibitions of subsection (a), as applied to such person, are unduly or disproportionately severe or that the conduct of such person has been such as not to make it against the public interest or protection of investors to grant such application.

Except for the action which resulted in the Consent Decree of March 7, 1975, Campbell and Campbell Asset have never previously been the subject of an injunctive action initiated by the Commission (Campbell Advisors, has never been the subject of any such injunctive action).

Applicants submit that for the following reasons:

(1) the limited nature of the matters covered by Consent Decree in relation to the matters specified in Section 9(a) (2) of the Act and the purposes of Section 9(a) of the Act;

(2) the fact that the allegations of the Commission's complaint in the Action involved novel questions of law concerning the receipt and use of investment recommendations and other information disseminated by

securities analysts when such recommendations and information is allegedly formulated in part on the basis of material non-public information with respect to which no precedent existed;

(3) the fact that the Consent Decree was entered with the consent of Campbell and Campbell Asset for the purposes of the Action only, without admitting or denying the material allegations of the complaint and without consenting to the adjudication of any wrongdoing or liability; and

(4) the fact that Campbell and Campbell Asset have participated with the Commission in formulating a written statement of procedures with respect to their activities and the activities of Campbell Advisors as an investment adviser concerning the receipt of material non-public corporate information with respect to the securities of Bausch & Lomb, Inc. or any other securities which is in the form annexed to a document filed with the Court and that Campbell through Campbell Advisors has agreed to implement such statement of procedures;

the prohibitions of Section 9(a) of the Act, if applicable by reason of the above-mentioned final judgment, would be unduly and disproportionately severe if applied to Applicants and asserts that it is consistent with the public interest and the protection of investors and the purposes fairly intended by the policy and provisions of Section 9 of the Act for the Commission to enter an order granting this application for an exemption from the provisions of Section 9(a) of the Act.

Notice is further given that any interested person may, not later than September 22, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

**GULF POWER CO.****Proposal To Amend Articles of Incorporation and Solicit Proxies**

August 29, 1975.

Notice is hereby given that Gulf Power Company ("Gulf"), 75 North Pace Boulevard, Pensacola, Florida 32505, an electric utility subsidiary of The Southern Company, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(a) and 7 of the Act and Rule 62 promulgated thereunder as applicable to the proposed transactions. All interested parties are referred to said declaration, which is summarized below, for a complete statement of the proposed transactions.

Gulf proposes to amend its Articles of Incorporation to increase the authorized number of shares of preferred stock, par value \$100 per share, from 401,626 shares, of which 301,626 shares are currently outstanding, to 801,626 shares.

Gulf's Articles of Incorporation presently empower the Board of Directors to establish various series of preferred stock, and to fix and determine the relative rights and preferences, as to which there may be variations between different series. Gulf proposes to authorize, by amendment to the Articles of Incorporation, the Board of Directors to fix and determine the sinking fund provisions, if any, for the redemption or purchase of shares of any series.

Gulf further proposes to amend its Articles of Incorporation so as to limit the issuance or assumption of securities representing unsecured debt without consent of preferred stockholders only if after such issuance or assumption (1) the total outstanding amount of securities representing unsecured debt would exceed 20% of the aggregate of capital, surplus and secured debt or (2) the total amount of securities representing unsecured debt having maturities of less than 10 years would exceed 10% of such aggregate.

Gulf further proposes that, if the proposed amendment to its Articles of Incorporation relating to limitations on the issuance or assumption of securities representing unsecured debt is adopted, it be authorized by vote of the holders of its preferred stock to issue or assume, until July 1, 1982, securities representing unsecured debt having maturities of less than ten years in excess of 10% of capital, surplus and secured debt, provided that (a) the amount of securities representing unsecured debt having maturities of less than ten years outstanding on January 1, 1983, shall not exceed said 10% limitation, and (b) Gulf's total indebtedness represented by unsecured securities shall at no time exceed 20% of capital, surplus and secured debt. If the proposed amendment relating to limitations on the issuance or assumption of securities representing unsecured debt is not adopted Gulf proposes to issue or assume, until July 1, 1982, securities representing unsecured debt in excess of

**NOTICES**

10% of capital, surplus and secured debt provided that (a) the amount of securities representing unsecured debt outstanding on January 1, 1983 shall not exceed said 10% limitation and (b) Gulf's total unsecured indebtedness shall at no time exceed 20% of capital, surplus and secured debt.

The fees and expenses to be incurred in connection with the proposed transactions are estimated at \$30,000, including fee for solicitation of proxies of \$10,000 and legal fees of \$8,400. It is stated that no State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than September 23, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from its rules under the Act as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] **GEORGE A. FITZSIMMONS,**  
Secretary.

[Rel. No. 19140; 70-5727]

**HARTFORD ELECTRIC LIGHT CO.****Proposal To Issue and Sell First Mortgage Bonds and Preferred Stock at Competitive Bidding**

August 29, 1975.

Notice is hereby given that The Hartford Electric Light Company ("HELCO"), 176 Cumberland Avenue, Wethersfield, Connecticut 06109, an electric utility subsidiary company of Northeast Utilities, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Section 6(b) of the

Act and Rule 50 promulgated thereunder as applicable to the following proposed transactions. All interested parties are referred to said application, which is summarized below, for a complete statement of the proposed transactions.

HELCO proposes to issue and sell, at competitive bidding, up to \$30 million principal amount of its —% First Mortgage Bonds, 1975 Second Series ("bonds"). The maturity date of the bonds will be not less than five nor more than thirty years from October 1, 1975. The interest rate, which shall be a multiple of  $\frac{1}{8}$  of 1%, and the price, which will be not less than 99% nor more than 102.75% of the principal amount thereof, will be determined by competitive bidding. The bonds will be issued under the First Mortgage Indenture and Deed of Trust dated as of January 1, 1958 ("Indenture") between HELCO and The First National Bank of Boston, Successor Trustee, as supplemented and amended from time to time, and as further supplemented by a fifteenth supplemental indenture to be dated October 1, 1975 ("supplemental indenture"). The supplemental indenture provides, among other things, that bonds shall not be redeemed at the applicable general redemption price prior to October 1, 1980, from the proceeds of borrowings secured by HELCO at an effective interest cost to HELCO of less than the effective interest cost of the bonds. The supplemental indenture further provides for a mandatory cash sinking fund, so long as any bonds are outstanding, in the annual amount of \$1,875,000 commencing October 1, 1980, continuing to and including October 1, 1994. HELCO will also have the noncumulative option to increase any such sinking fund payment by an amount not exceeding \$1,875,000, provided that no bonds may be redeemed prior to October 1, 1980, by operation of the sinking fund provision.

HELCO also proposes to issue and sell, at competitive bidding, 200,000 shares of its Preferred Stock, 1975 Series ("preferred stock"), par value \$50 per share. The dividend rate, which shall be a multiple of \$0.08 and the price to be paid to CL&P, which will be not less than \$50 nor more than \$51.375 per share, will be determined by the competitive bidding. The terms of the preferred stock include a prohibition, until October 1, 1980, against redeeming the preferred stock through the use, directly or indirectly, of borrowings or the proceeds of the issuance of stock ranking prior to or on a parity with the preferred stock as to dividends or assets, if such borrowings or stock have an effective interest or dividend cost to HELCO of less than the effective dividend cost of the preferred stock. The terms of the preferred stock also provide for a cumulative sinking fund commencing October 1, 1980, to the extent any funds of HELCO are legally available therefor, for the annual redemption or purchase of 10,000 shares of the preferred stock. HELCO has the noncumulative option to purchase or redeem for said sinking fund up to an additional 10,000 shares of the preferred

stock in any such year. The redemption price will equal the initial public offering price plus accrued dividends to the date of redemption.

The application states that HELCO will use the net proceeds from the sale of the bonds and preferred stock, together with a capital contribution of \$20 million which Northeast Utilities will make no later than December 1, 1975, to repay short-term borrowings incurred for the purpose of financing HELCO's 1974-1975 construction program. Such short-term borrowings will aggregate an estimated \$60 million at the time of the aforementioned sales. The balance of the proceeds of the sales will be used to finance, in part, HELCO's 1975-1976 construction program.

A statement of the fees, commissions, and expenses incurred or to be incurred in connection with the proposed transactions will be supplied by amendment. The approval of the Connecticut Public Utilities Commission is required for the issuance of the bonds and preferred stock. It is stated that no other State commission, and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than September 22, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[Rel. No. 8908; 812-3826]

**LIBERTY FUND, INC. AND THE KNICKERBOCKER FUND**  
**Application for an Order Exempting a Proposed Transaction**

August 28, 1975.

Notice is hereby given that Liberty Fund, Inc. ("Liberty") 245 Park Avenue, New York, New York, 10017, and The Knickerbocker Fund ("Knickerbocker") (collectively referred to as "Applicants") (open-end, diversified management investment companies registered under the Investment Company Act of 1940 ("Act"), filed an application on June 30, 1975, and an amendment thereto on August 20, 1975 pursuant to Section 17 (b) of the Act for an order of the Commission exempting from the provisions of Section 17(a) of the Act the proposed sale by Knickerbocker of substantially all of its assets to Liberty. All interested persons are referred to the application on file with the Commission for a statement of the matters contained therein, which are summarized below.

Liberty was incorporated in Maryland on January 11, 1956 and is authorized to issue one class of shares. It had 1,978,002 shares of common stock outstanding and total assets of \$7,679,682 as of May 30, 1975. Knickerbocker was organized as a common law trust under the laws of the State of New York on August 17, 1938 and all of its shares are of the same class. On June 1, 1975 Knickerbocker had 1,521,900 shares outstanding and total assets of \$8,165,750. Since CNA Management Corporation ("Management") is the investment adviser and distributor of the shares of both applicants and certain members of the Board of Managers of Knickerbocker are also directors of Liberty, each applicant might be deemed to be an "affiliated person" of the other within the meaning of the definition set forth in Section 2(a)(3) of the Act.

The application states that the Funds have entered into an agreement and plan of reorganization ("Plan") under which substantially all of the assets and liabilities of Knickerbocker are to be purchased by Liberty in exchange for shares of Liberty at net asset value as of the "closing date" as defined in the Plan. Thereupon, the Liberty shares will be distributed pro-rata to Knickerbocker's shareholders in liquidation of Knickerbocker. Following such distribution and the payment of any remaining obligations of Knickerbocker, Knickerbocker will be dissolved. Liberty has covenanted to call a shareholders meeting to consider, among other matters, an amendment to Liberty's Articles of Incorporation changing its name to "The Knickerbocker Fund, Inc."

The adoption of the Plan requires the affirmative vote of at least a majority of the outstanding voting securities of each of the Applicants. Since the shareowners of Liberty will be asked to vote on certain important matters concerning Liberty—namely the adoption of a new in-

vestment advisory agreement, and election to Liberty's Board of Directors of three members of Knickerbocker's Board of Managers—at the same time they will be asked to vote on the plan of reorganization, and since proxies will be solicited from shareowners of Knickerbocker in connection with the Plan prior to the vote by the shareowners of Liberty, the merger will be conditioned on the shareowners of Liberty adopting these proposed changes.

The proposed merger is also contingent upon the receipt of a ruling from the Internal Revenue Service, or in lieu thereof, an opinion of counsel, to the effect that the Plan will constitute a tax free reorganization.

Each fund, immediately preceding the merger, will distribute all of its net realized capital gains in excess of any applicable loss carryforwards and substantially all of its net investment income realized since the close of its last fiscal year.

As of March 31, 1975 Liberty had capital loss carryforwards of approximately \$603,000, expiring \$930,000 in 1976, \$2,832,000 in 1979 and \$2,271,000 in 1980. Knickerbocker, at March 31, 1975 had no such capital loss carryforwards. No adjustments in the aggregate net asset values of Liberty or Knickerbocker will be made to compensate shareholders for any potential Federal income tax impact which may result from the differences between Liberty and Knickerbocker in their capital loss carryforwards. Applicants assert that there is no assurance that capital gains will be realized against which the capital loss carryforwards may be offset or that the unrealized depreciation or unrealized appreciation appearing on the books of the Applicants will ultimately be realized. In addition, it is asserted that no adjustment is being made because the advantage or disadvantage to a shareholder resulting from the reorganization is dependent on a variety of factors peculiar to the particular shareholder such as the individual's capital gains tax rate, cost basis, the time shares were purchased and redeemed and other factors.

Applicants assert that the proposed transaction is consistent with the investment policies of each of the funds. The primary investment objective of Liberty is obtaining liberal income consistent with reasonable safety of capital. As a secondary objective, Liberty also selects investments with a view to capital growth. The investment objective of Knickerbocker is to provide shareholders with an opportunity to participate in a professionally managed portfolio selected for long term growth with current income an important consideration. The investment policies through which Applicants seek to implement their respective objectives, although differing in some regards, are basically consistent. Further, both Applicants have similar restrictions which cannot be changed without the approval of a majority of the outstanding

**NOTICES**

voting securities of each of the Applicants.

ordered, will receive any notices and orders issued in this matter, including

SFI's obligations under the Loan Agreement.

[Rel. No. 8906; 811-2101]

**MUTUAL BENEFIT GROWTH FUND**

the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission

December 31, 1976. Shareholders who elect to participate in the Plan may invest regular cash dividends and/or op-

voting securities of each of the Applicants.

Section 17(a) of the Act, in pertinent part, provides that it shall be unlawful for any affiliated person of a registered investment company knowingly to sell to or purchase from such registered investment company any security or other property. Section 17(b) of the Act provides that the Commission, upon application, may exempt a proposed transaction from the provisions of Section 17(a) if evidence establishes that the terms of the proposed transaction, including the consideration to be paid and received, are reasonable and fair and do not involve overreaching on the part of any person concerned and the proposed transaction is consistent with the policy of each registered investment company concerned and with the general purposes of the Act.

Applicants assert that the terms of the proposed transaction are reasonable and fair and do not involve overreaching on the part of any person concerned. Applicants believe that the consummation of the proposed reorganization will result in certain economies of operation through the reduction of certain expenses, such as auditing fees, filing fees, custodial fees and the expenses of preparation of proxy statements and shareholder reports. The aggregate expenses of consummating the reorganization of Liberty and Knickerbocker are estimated to be \$30,000. Under the agreement, such expenses are the obligation of Liberty and Knickerbocker in proportion to their respective net asset values as of June 30, 1975 whether or not the reorganization is carried out. Finally, as a registered investment company, Liberty will be required to continue to comply with all applicable provisions of the Act.

Notice is further given that any interested person may, not later than September 22, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed to: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is

ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

[FR Doc.75-23642 Filed 9-4-75; 8:45 am]

[Rel. No. 19149; 70-5729]

#### MIDDLE SOUTH UTILITIES, INC. AND SYSTEM FUELS, INC.

Proposed Loan Agreement With Bank by System Fuel Supply Subsidiary and Guaranty of Obligations Thereunder by Holding Company

August 29, 1975.

Notice is hereby given that Middle South Utilities, Inc. ("Middle South"), 225 Baronne Street, New Orleans, Louisiana 70112, a registered holding company, and System Fuels, Inc. ("SFI"), a fuel supply subsidiary of Middle South's operating electric utility subsidiaries, have filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(a), 7, 12(b), and 12(f) of the Act and Rules 45 and 50(a) (2) thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

SFI proposes to enter into a loan agreement ("Loan Agreement") with a consortium of 50 banks headed by First National Bank of Commerce, New Orleans, Louisiana ("Bank"), under which SFI will borrow up to \$25 million between the date thereof and March 31, 1976. It is intended that the Bank will loan SFI 11% of the borrowings outstanding at any one time and that other banks, participating in the loan pursuant to agreements with the Bank, will loan the balance.

Each loan by the Bank will be evidenced by a note dated the date of such loan and stated to mature on March 31, 1976. Each note will bear interest from its date at the rate of one percent (1%) in excess of the interest rate in effect at the Bank for prime commercial loans of 90-day maturities. The loans may be repaid at any time without penalty and reborrowed through March 31, 1976.

To compensate the Bank for costs associated with coordinating the consortium of participating banks, SFI will pay the Bank a facility servicing fee equal to one eighth of one percent ( $\frac{1}{8}$  of 1%) of the total amount to be loaned under the Loan Agreement, or \$31,250. There are no compensating balance arrangements between SFI or MSU and the Bank or any participating bank as a result of the proposed transaction. Middle South proposes to unconditionally guarantee

SFI's obligations under the Loan Agreement.

SFI will apply the proceeds of the loan to (i) repay loans made to SFI by its parent operating companies under authority heretofore given (HCAR No. 18221, December 17, 1973) which, at July 31, 1975, totalled \$16,550,585, and (ii) complete construction on oil storage tanks and related equipment located at Mississippi Power & Light Company's Baxter Wilson Steam Electric Generating Station near Vicksburg, Mississippi. It is anticipated that once the facilities are completed, SFI will enter into a long-term sale-leaseback with certain investors, and that the proceeds therefrom will be used to retire all of the loans referred to above. Any such sale-leaseback arrangement would be the subject of a future application-declaration.

It is stated that no special or separable fees, commissions or expenses will be paid in connection with the proposed transactions other than incidental expenses all at cost by Middle South Services, Inc., and estimated not to exceed \$500. It is further stated that no state or federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than September 23, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices or orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

#### MUTUAL BENEFIT GROWTH FUND Application for an Order Declaring That Applicant Has Ceased To Be an Invest- ment Company

August 28, 1975.

Notice is hereby given that Mutual Benefit Growth Fund ("Applicant"), 520 Broad Street, Newark, New Jersey, 07101, registered under the Investment Company Act of 1940 ("Act") as an open-end, diversified management investment company, filed an application on July 22, 1975 pursuant to Section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act and that its registration as an investment company has ceased to be in effect. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

Applicant was incorporated under the laws of the State of Delaware on August 4, 1970 and registered under the Act on August 14, 1970.

Applicant entered into an Agreement and Plan of Reorganization with Mutual Benefit Fund ("Benefit"), a registered open-end diversified management investment company, pursuant to which Applicant transferred to Benefit substantially all of its assets in exchange for shares of Benefit common stock to be credited to the shareholders of Applicant. These transactions were approved by the shareholders of Applicant and of Benefit and were consummated on April 18, 1975. Applicant has filed a Certificate of Dissolution with the Secretary of State of Delaware and has applied to terminate the registration of its shares with the appropriate state securities departments. Applicant no longer conducts the business of an investment company for which it was organized but rather intends that its existence shall be terminated subject to final settlement of its affairs pursuant to the General Corporation Law of Delaware.

Applicant transferred to Benefit all of its assets except the sum of \$9,860, representing a reserve established for the payment of expenses in carrying out its obligations under the Agreement and Plan of Reorganization. After the payment of these expenses, \$1,046 remained, which amount was transferred to Benefit.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than September 25, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and

the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following September 25, 1975, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

[Rel. No. 19150; 70-5539]

#### NORTHEAST UTILITIES

Notice of Proposal To Issue and Sell Common Stock Through Dividend Reinvestment and Common Share Purchase Plan

August 29, 1975.

Notice is hereby given that Northeast Utilities ("Northeast"), 174 Brush Hill Avenue, West Springfield, Massachusetts 01089, a registered holding company, has filed a post-effective amendment to its previously amended declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6 and 7 thereof as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

By order dated October 23, 1974 (HCAR No. 18617), Northeast was authorized to issue and sell from time to time through November 15, 1975, 500,000 shares of its common stock, par value \$5.00 per share, under a voluntary dividend reinvestment and common share purchase plan ("Plan"). At August 1, 1975, 362,159 of such shares had been issued and sold under the Plan for \$2,786,608. The proceeds have been applied to the continuing construction program of the Northeast system companies.

In order to meet the anticipated requirements for its common stock under the Plan over the next year, Northeast proposes to issue and sell an additional 1,000,000 shares, together with the balance of those which remain unsold under its current authorization, through

December 31, 1976. Shareholders who elect to participate in the Plan may invest regular cash dividends and/or optional cash payments of between \$500 to \$1,000 per quarter in such stock. It is stated that the purchase price will be the average of the closing sales price for Northeast's common stock on the New York Stock Exchange during the first fifteen trading days of the twenty trading days preceding the dividend payment. The net proceeds from the sale of shares pursuant to the Plan, estimated at \$10,240,569, will be applied to Northeast's construction program.

The Plan will be administered by The First National Bank of Boston ("Agent"), and all shares purchased will be held for the exclusive benefit of the Plan participants. All record holders of Northeast's outstanding common stock are eligible to participate in the Plan and may join by executing an authorization form and returning it to the Agent. A participant may withdraw from the Plan at any time upon giving written notice to the Agent. Upon withdrawal, certificates for whole shares credited to a participant's account will be issued and a cash payment will be made for any fractional shares so credited. The Plan provides that a participant may also request that certificates for any number of full shares credited to his account be issued to him even though he wishes to remain in the Plan.

It is stated that all costs for administering the Plan will be paid by Northeast and that there will be no brokerage fees when shares are purchased under the Plan. However, if a participant withdrawing from the Plan requests the Agent to sell his shares, there will be brokerage commissions.

The Agent will not vote any shares held by it under the Plan. Participants will receive a single proxy with respect to full shares which they own of record or which are credited to their accounts under the Plan.

A statement of the fees, commissions, and expenses incurred or to be incurred in connection with the proposed transaction will be supplied by amendment. It is stated that no State commission and no Federal commission other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than September 24, 1975, request in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an at-

torney at law, by certificate) should be filed with the request. At any time after

amount. The application states that One Hundred will be reimbursed by the Ad-

tive shareholders substantially all undistributed net investment income and

shareholder reports, franchise taxes and possible brokerage commissions.

Notice is further given that any in-

shares outstanding and net assets of \$11,102,903 as of June 2, 1975. Knickerbocker was incorporated on May 22, 1953

As of March 31, 1975, Schuster had a capital loss carryforward of approximately \$7,972,000, expiring \$1,191,000 in

torney at law, by certificate) should be filed with the request. At any time after said date, the post-effective amendment, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from its rules under the Act as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

[Rel. No. 8907; 812-3832]

**ONE HUNDRED FUND, INC. AND  
FLEMING BERGER FUND, INC.**

Application for an Order Exempting a  
Proposed Transaction

August 28, 1975.

Notice is hereby given that The One Hundred Fund, Inc., 899 Logan Street, Denver, Colorado 80203, ("One Hundred") and Fleming Berger Fund, Inc. ("Fleming Berger") (collectively referred to as "Applicants"), registered under the Investment Company Act of 1940 ("Act") as open-end management investment companies of the diversified and non-diversified type, respectively, filed an application on July 7, 1975 and an amendment thereto on August 21, 1975, pursuant to Section 17(b) of the Act for an order of the Commission exempting from the provisions of Section 17(a) of the Act the proposed sale by Fleming Berger of substantially all its assets to One Hundred pursuant to an Agreement and Plan of Reorganization ("Agreement"). All interested persons are referred to the application on file with the Commission for a statement of matters contained therein, which are summarized below.

On March 31, 1975, total net assets of One Hundred amounted to \$13,770,507, or \$6.60 per share outstanding. Fleming Berger, as of April 30, 1975, had total net assets of \$2,280,097 and a net asset value of \$7.11 per share. The investment objective of One Hundred is long-term capital growth through investment, primarily, in common stocks of established companies. The investment objective of Fleming Berger is to seek capital appreciation. Fleming Berger does not currently offer its shares to the public, while One Hundred offers its shares at net asset value without sales charge.

Berger Associates, Inc. ("Adviser") is the investment adviser of One Hundred. The investment advisory fee payable by One Hundred is at the annual rate of  $\frac{3}{4}$  of 1% of the first \$50,000,000 of the average daily net asset value. The fee is reduced for assets exceeding such

amount. The application states that One Hundred will be reimbursed by the Adviser in any fiscal year when the total cost of normal operating expenses exceeds 2% of the first \$10,000,000, 1½% of the next \$20,000,000 and 1% of the balance of the average net asset value of One Hundred for that year.

Effective March 27, 1975, the sale of in excess of 40% of the outstanding voting securities of the Adviser to Mr. William M. B. Berger effected an assignment of the Adviser's contract with Fleming Berger, and consequently, its termination. The application states that on April 1, 1975, Fleming Berger entered into an agreement with the Adviser pursuant to which the Adviser agreed to provide Fleming Berger with investment advisory services without a fee upon terms otherwise essentially identical to the previous contract. Under this interim arrangement the Adviser must reimburse Fleming Berger for its expenses in any fiscal year which are in excess of 1½% of the first \$30,000,000 and 1% of any excess over \$30,000,000 of the average of the daily net asset value of Fleming Berger. This interim arrangement will terminate if the proposed sale of assets is approved by the Fleming Berger shareholders at their September 1975 Special Meeting and such sale is consummated.

Due to common officers and the common Adviser, Applicants may be deemed to be under common control and, thus, affiliated persons of each other within the meaning of Section 2(a)(3) of the Act. Section 17(a) of the Act, in pertinent part, provides that it shall be unlawful for an affiliated person of a registered investment company knowingly to sell to or purchase from such registered investment company any security or other property. Section 17(b) of the Act provides that the Commission, upon application, may exempt a proposed transaction from the provisions of Section 17(a) if evidence establishes that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair, do not involve overreaching on the part of any person concerned with the proposed transaction and are consistent with the policy of each registered investment company concerned and with the general purposes of the Act.

Under the terms of the Agreement the sale in the form of an exchange will be based upon the net asset value of Fleming Berger and the net asset value per share of One Hundred as of the closing date provided in the Agreement. The number of shares of common stock of One Hundred to be transferred to Fleming Berger will be computed by dividing the net asset value of Fleming Berger by the net asset value per share of One Hundred, in each case as of the close of trading on the New York Stock Exchange on the closing date. Following the closing date Fleming Berger will liquidate and distribute pro-rata to its stockholders of record the shares of One Hundred's common stock received by Fleming Berger. Each Applicant will, to the extent earned or realized in material amounts prior to the closing date, distribute to its respec-

tive shareholders substantially all undistributed net investment income and net capital gains realized since the close of their fiscal years in excess of any applicable loss carryforwards.

In the computation of each Applicant's net asset value, no adjustment will be made to compensate for any potential tax impact on their respective shareholders which may result from differences between the Applicants in the percentage of each Applicant's realized or unrealized capital gains or losses to its net asset value and in the amount of each Applicant's tax loss carryforward. As of September 30, 1974, One Hundred had a Federal capital loss carryforward of approximately \$22,213,000 and, as of April 30, 1975, Fleming Berger had a Federal capital loss carryforward of approximately \$4,162,000. As of August 11, 1975 One Hundred had Federal net unrealized appreciation of approximately \$250,000, and Fleming Berger had Federal net unrealized appreciation of approximately \$45,000. Applicant's assert that it is not appropriate to implement a tax adjustment formula with respect to the foregoing differences because there is no assurance that capital gains will be realized against which the capital loss carryforwards may be offset or that the unrealized appreciation will ultimately be realized. Furthermore, the amount of any advantage or disadvantage to a particular shareholder receiving shares in a reorganization is dependent upon a variety of factors peculiar to the shareholder, among which are his individual capital gains rate, his individual cost basis, the time at which his shares are ultimately repurchased or redeemed, and the investment company's pattern of realization and distribution of capital gains between the date of the reorganization and the date of the ultimate repurchase or redemption of his shares.

The aggregate expenses of the Applicants in effecting the reorganization are estimated at \$22,000. One Hundred and Fleming Berger will each bear that portion of such expenses incurred by it, except that One Hundred and Fleming Berger shall each pay one-half of the printing expenses in excess of an amount equal to the printing expenses of Fleming Berger for its 1973 meeting of shareholders, which amount shall be paid by Fleming Berger. This arrangement applies whether or not the Agreement is consummated. Adviser has, however, agreed to pay certain of Fleming Berger's reorganization expenses, as set forth in the application.

Applicants submit that the terms of the proposed transaction are reasonable and fair to all parties, do not involve overreaching and that the transaction is consistent with the investment policies of each Applicant and with the policies of the Act. No brokerage commission or other fees will result from the proposed transaction and in the opinion of the management of both Applicants, their combination will result in certain economies, particularly with regard to expenses of director and shareholder meetings, fees of attorneys, auditors and custodians, expenses of preparation of

shareholder reports, franchise taxes and possible brokerage commissions.

Notice is further given that any interested person may, not later than September 22, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered), and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

[Rel. No. 8910; 812-3836]

**SCHUSTER FUND, INC. AND  
KNICKERBOCKER GROWTH FUND, INC.**

Application for an Order Exempting a  
Proposed Transaction

August 28, 1975.

Notice is hereby given that Schuster Fund, Inc., 245 Park Avenue, New York, New York 10017, ("Schuster") and Knickerbocker Growth Fund, Inc. ("Knickerbocker") (sometimes collectively referred to as "Applicants"), open-end, diversified management investment companies registered under the Investment Company Act of 1940 (the "Act"), filed an application on July 3, 1975, and an amendment thereto on August 20, 1975, pursuant to Section 17(b) of the Act for an order of the Commission exempting from the provisions of Section 17(a) of the Act the proposed sale by Knickerbocker of substantially all of its assets to Schuster. All interested persons are referred to the application on file with the Commission for a statement of the matters contained therein, which are summarized below.

Schuster was incorporated in Maryland in April 1967 and is authorized to issue one class of shares. It had 1,664,838

shares outstanding and net assets of \$11,102,903 as of June 2, 1975. Knickerbocker was incorporated on May 22, 1953 under the laws of the State of Delaware and is authorized to issue 4,999,000 shares of Special stock and 1,000 shares of common stock. On June 2, 1975, Knickerbocker had outstanding 955,336 shares of Special stock and total net assets of \$5,423,339. There are no shares of common stock outstanding. Since CNA Management Corporation ("Management") is the investment adviser and distributor of the shares of both Applicants and certain members of the Board of Directors of Schuster are also directors of Knickerbocker, each applicant might be deemed to be an "affiliated person" of the other within the meaning of the definition set forth in Section 2(a)(3) of the Act.

The application states that the Funds have entered into an agreement and Plan of Reorganization ("Plan") under which substantially all of the assets and liabilities of Knickerbocker are to be transferred to Schuster in exchange for shares of Schuster Capital stock. The number of shares of Capital stock of Schuster to be transferred to Knickerbocker will be computed by dividing the net asset value of Knickerbocker by the net asset value per share of Schuster, in each case as of the close of trading on the New York Stock Exchange on the Closing Date as defined in the Agreement. Thereupon, the Schuster shares will be distributed pro rata to Knickerbocker's shareholders in liquidation of Knickerbocker. Following such distribution and the payment of any remaining obligations of Knickerbocker, Knickerbocker will be dissolved. Schuster has covenanted to call a shareholders meeting to consider, among other matters, an amendment to Schuster's Articles of Incorporation changing its name to CNA Growth Fund, Inc.

The adoption of the Plan requires the affirmative vote of at least a majority of the outstanding voting securities of each of the Applicants. Since the shareowners of Schuster will be asked to vote on certain important matters concerning Schuster—namely the adoption of a new investment advisory agreement, and election to Schuster's Board of Directors of several of Knickerbocker's directors—at the same time they will be asked to vote on the plan of reorganization, and since proxies will be solicited from shareowners of Knickerbocker in connection with the plan prior to the vote by the shareowners of Schuster, the merger will be conditioned on the shareowners of Schuster adopting these proposed changes.

The proposed merger is also contingent upon the receipt of a ruling from the Internal Revenue Service, or in lieu thereof, an opinion of counsel, to the effect that the plan will constitute a tax free reorganization.

Each fund, immediately preceding the merger, will distribute all of its net realized capital gains in excess of any applicable loss carryforwards and substantially all of its net investment income realized since the close of its last fiscal year.

As of March 31, 1975, Schuster had a capital loss carryforward of approximately \$7,972,000, expiring \$1,191,000 in 1976, \$65,000 in 1978, \$4,014,000 in 1979, and \$2,702,000 in 1980. At March 31, 1975 Knickerbocker had a capital loss carryforward of approximately \$1,822,724, expiring \$1,531,474 in 1978 and \$291,250 in 1979. No adjustments in the aggregate net asset values of Schuster or Knickerbocker will be made to corporate shareholders for any potential Federal income tax impact which may result from the differences between Schuster and Knickerbocker in their capital loss carryforwards. Applicants assert that there is no assurance that capital gains will be realized against which the capital loss carryforwards may be offset or that the unrealized depreciation or unrealized appreciation appearing on the books of the Applicants will ultimately be realized. In addition, it is asserted that no adjustment is being made because the advantage or disadvantage to a shareholder resulting from the reorganization is dependent on a variety of factors peculiar to the particular shareholder such as the individual's capital gains tax rate, cost basis, the time shares were purchased or redeemed and other factors.

Applicants assert that the proposed transaction is consistent with the investment policies of each of the funds. The primary investment objective of Schuster is to seek appreciation of capital through professional management, with some short term trading. The investment objective of Knickerbocker is long-term appreciation of investors' capital. The investment policies through which the Applicants seek to implement their respective objectives, though differing in some regards, are basically consistent. Further, both Applicants have similar investment restrictions which cannot be changed without the approval of a majority of the outstanding voting securities of each of the Applicants.

Section 17(a) of the Act, in pertinent part, provides that it shall be unlawful for any affiliated person of a registered investment company knowingly to sell to or purchase from such registered investment company security or other property. Section 17(b) of the Act provides that the Commission, upon application, may exempt a proposed transaction from the provisions of Section 17(a) if evidence establishes that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned and the proposed transaction is consistent with the policy of each registered investment company concerned and with the general purposes of the Act.

Applicants assert that the terms of the proposed transaction are reasonable and fair and do not involve overreaching on the part of any person concerned. Applicants believe that the consummation of the proposed reorganization will result in certain economies of operation through the reduction of certain expenses, such as auditing fees, filing fees, custodial fees and the expenses of preparation of proxy statements and share-

holder reports. The aggregate expenses of consummating the reorganization of Schuster and Knickerbocker are estimated to be \$25,000. Under the agreement, such expenses are the obligation of Schuster and Knickerbocker in proportion to their respective net asset values as of June 30, 1975, whether or not the reorganization is carried out. Finally, as a registered investment company, Schuster will be required to continue to comply with all applicable provisions of the Act.

Notice is further given that any interested person may, not later than September 22, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed to: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Applicants at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,  
Secretary.

By direction of the Administrator.

Dated: August 26, 1975.

[SEAL] A. J. SCHULTZ, Jr.,  
Associate Deputy Administrator.

#### DEPARTMENT OF LABOR

##### Office of Federal Contract Compliance

##### EQUAL EMPLOYMENT OPPORTUNITY IN BALTIMORE, MD., AREA CONSTRUCTION INDUSTRY AND GENERAL QUESTIONS REGARDING THE CONTRACT COMPLIANCE PROGRAM

##### Request for Information and Notice of Factfinding Hearing

Notice is hereby given that the Department of Labor is requesting information concerning equal employment opportunity in the Baltimore, Maryland area construction industry in order to determine the scope and extent of any existing problems of minority group and female underutilization in the various trades (both union and non-union) and to assist the Department in formulating further actions and approaches. If appropriate, to provide full and equal employment opportunity in the Baltimore area construction industry consistent with the nondiscrimination and affirmative action mandate of Executive Order 11246 (30 FR 12319), as amended by Executive Order 11375 (32 FR 14303).

Relevant information on the Baltimore area construction industry would include, but not be limited to:

(1) The current extent of minority group and female participation in the construction trades as journeymen, apprentices, trainees, helpers, and other classifications as compared with the full employee complement of each trade by classification;

(2) A description and evaluation of present employee recruitment methods, including the assistance and effectiveness of any employer, union, and community programs to increase minority and female participation in the trades;

(3) The availability of qualified and trainable minority group and female persons for employment in each construction trade, indicating the sources

[AB 1; sub-No. 39]

CHICAGO AND NORTH WESTERN

#### NOTICES

for such persons and how they may be brought into the trades;

(4) Descriptions and evaluations of existing training programs, including apprenticeship and special training programs in the area, indicating the numbers of minorities, women, and all others recruited into the programs, the attrition rates in each program by race and sex, and the proportion of persons by race and sex who achieve journeyman status and union membership, if appropriate;

(5) Apprenticeship and special training program standards and their effect on minority and female participation in each trade, employer experience with apprentices and trainees, and the need for additional or expanded training programs;

(6) An analysis of the number of workhours performed by minorities and women in comparison to other workers.

(7) An analysis of the growth and attrition in each trade or craft and their effect on minority group and female participation over the past five years.

(8) An analysis of the number of additional workers that could be absorbed into each trade without displacing present employees, including consideration of present employee shortages or surpluses, projected growth and attrition in each trade, and any technological changes which may affect employee demand.

(9) The desirability, extent, and content of possible federal action, initiatives, and approaches to insure nondiscrimination and affirmative action for minorities and women in the construction trades, including considerations of geographical scope, the need and parameters of employment goals and timetables for various trades, including goals for women as well as for minorities, and various other equal employment mechanisms;

(10) The viability and content of supplementary or alternative, privately developed affirmative action approaches which may be negotiated and implemented by contractors and their associations (both union and non-union), labor organizations, community organizations and others in lieu of further federally developed equal employment specifications under Executive Order 11246, as amended;

(11) Recommendations of federal, state and local governmental equal employment agencies involved in the Baltimore area.

In addition, the Department is interested in soliciting information concerning the broader questions of discharging its duties pursuant to the affirmative action mandate of Executive Order 11246, as amended, with regard to the construction industry. Accordingly, the Department is also requesting relevant information concerning its construction contract compliance program including, but not limited to:

(1) The appropriateness of the formula proposed in the New Philadelphia Plan (40 FR 28477, July 7, 1975) and the Revised New York Plan (40 FR 28472, July 7, 1975), as a method of computing ultimate goals for minority utilization in other areas;

(2) Methods for establishing intermediate goals and timetables;

(3) Establishment of meaningful good faith efforts compliance with which is acceptable in lieu of achievement of the goals for minority and female utilization;

(4) The creation of effective record keeping and/or reporting systems which enable agencies to determine compliance with a minimum of paperwork;

(5) The role of private groups in the development, monitoring, and enforcement of affirmative action requirements;

(6) The proper geographical scope of affirmative action requirements, i.e., union jurisdiction, Standard Metropolitan Statistical Area, counties or some combination of one or more geographical references;

(7) Methods of computing goals and timetables for women in construction trades.

Such information may be submitted either in writing or at an informal fact-finding hearing to be held pursuant to Section 208 of E.O. 11246, as amended, and commencing on October 15, 1975, at Room 108, Federal Building, 31 Hopkins Plaza, Baltimore, Maryland. Beginning at 9:30 a.m. on October 15, 1975, the presiding Administrative Law Judge will hold a pre-hearing conference in order to settle matters relating to the proceedings. The public hearing will immediately follow the pre-hearing conference. Participants in the hearing will include representatives of the Office of Federal Contract Compliance and the Office of the Solicitor of Labor.

Persons desiring to appear at the hearing must file a written notice of intention to appear along with four duplicate copies including enclosures, if any, with Philip J. Davis, Director, Office of Federal Contract Compliance, New U.S. Department of Labor Building, Room N-3402, 200 Constitution Avenue, NW., Washington, D.C. 20210. If possible, notices should be filed before October 6, 1975, in order to facilitate scheduling the appearances.

The notice should state the name, address, and phone number (business and home) of the person wishing to appear, the capacity in which he or she will appear, and the approximate amount of time required for the presentation. The notice should also include, or be accompanied by, a brief statement of the presentation to be made.

The oral proceedings shall be reported verbatim. The use of prepared statements by witnesses is encouraged. An original and four copies of all documents to be used should be submitted at the hearing.

Persons who wish to submit information but who do not wish to attend the hearing may mail such written information, along with four duplicate copies to Mr. Davis at the above address by October 6, 1975. Such information will be submitted to the Administrative Law Judge for inclusion in the hearing record.

The Administrative Law Judge shall have all the powers necessary or appropriate to conduct a fair and full informal hearing, including the powers:

(a) To regulate the course of the hearing;

(b) To dispose of procedural requests, objections, and comparable matters;

(c) To confine the presentations to matters pertinent to the requested information;

(d) To regulate the conduct of those present at the hearing by appropriate means;

(e) In his discretion, to question and permit questioning of any witness; and

(f) In his discretion, to keep the record open for a reasonable stated time to receive written information from any person who has participated in the oral proceeding.

Following the close of the hearing, the presiding Administrative Law Judge shall certify the record thereof to the Secretary of Labor.

Signed at Washington, D.C., this 30th day of August 1975.

JOHN T. DUNLOP,  
Secretary of Labor.

ROBERT C. CHASE,  
Acting Assistant Secretary for  
Employment Standards.

PHILIP J. DAVIS,  
Director, Office of Federal  
Contract Compliance.

##### DORSEY TRAILERS, INC.

##### Investigation Regarding Certification of Eligibility To Apply for Worker Adjustment Assistance

On August 12, 1975, the Department of Labor received a petition filed under Section 221(a) of the Trade Act of 1974 ("the Act") on behalf of the workers and former workers of Dorsey Trailers, Inc., Elba, Alabama (TA-W-126). Accordingly, the Acting Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted an investigation as provided in Section 221(a) of the Act and 29 CFR 90.12.

The purpose of the investigation is to determine whether absolute or relative increases of imports of articles like or directly competitive with seagoing containers produced by Dorsey Trailers, Inc., or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision. The investigation will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved. A group meeting the eligibility requirements of section 222 of the Act will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90.

Pursuant to 29 CFR 90.13, the petitioner or any other person showing a sub-

### INTERSTATE COMMERCE COMMISSION

[Notice No. 847]

#### ASSIGNMENT OF HEARINGS

SEPTEMBER 2, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 119619 Sub 74, Distributors Service Co., now assigned September 9, 1975, at Columbus, Ohio, has been postponed to September 18, 1975 (2 days), at Columbus, Ohio.

No. MC 97270 Subs 5 & 6, Reyco Motor Express, Inc., applications dismissed.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[AB 1; Sub-No. 27]

### CHICAGO AND NORTH WESTERN TRANSPORTATION CO.

#### Abandonment of Service

Present: Virginia Mae Brown, Commissioner, to whom the matter which is the subject of this order has been assigned for action thereon.

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available to the public upon request, and

*It appearing*, That no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. §§ 4321, et seq.; and good cause appearing therefor:

*It is ordered*, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Calhoun and Carroll Counties, Iowa, on or before September 17, 1975, and certify to the Commission that this has been accomplished.

*And it is further ordered*, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the Federal Register.

Dated Washington, D.C., this 25th day of August, 1975.

By the Commission, Commissioner  
Brown.

[SEAL] ROBERT L. OSWALD,  
Secretary.

The Interstate Commerce Commission hereby gives notice that by order dated August 25, 1975, it has been determined that the proposed abandonment by the Chicago and North Western Transportation Company of its line between Milepost 389.1 near Somers and Milepost 420 near Carroll, a distance of approximately 31 miles, in Carroll and Calhoun Counties, Iowa, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. §§ 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because (1) the volume of traffic handled on the line has been low and is declining, (2) any resultant diversion of traffic from rail to truck will not have a significant impact on air and water quality, (3) Somers, Lohrville, and Carroll will continue to have rail service and, (4) there are no development plans or land use policies in the tributary territory which are dependent on the availability of rail service. Furthermore, governmental units have expressed an interest in utilizing this right-of-way for recreational purposes should the abandonment be authorized.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before September 22, 1975.

This negative environmental determination shall become final unless good and sufficient reason demonstrating why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[FR Doc. 75-23675 Filed 9-4-75; 8:45 am]

FEDERAL REGISTER, VOL. 40, NO. 173—FRIDAY, SEPTEMBER 5, 1975

[AB 1; sub-No. 39]

### CHICAGO AND NORTH WESTERN TRANSPORTATION CO.

#### Abandonment of Service

Present: Virginia Mae Brown, Commissioner, to whom the matter which is the subject of this order has been assigned for action thereon.

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available to the public upon request; and

*It appearing*, That no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. §§ 4321, et seq.; and good cause appearing therefor:

*It is ordered*, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Bureau County, Ill., on or before September 11, 1975, and certify to the Commission that this has been accomplished.

*And it is further ordered*, That notice of this finding shall be given to the general public by depositing a copy of this order and the attached notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy of the notice to the Director, Office of the Federal Register, for publication in the Federal Register as notice to interested persons.

Dated at Washington, D.C., this 18th day of August, 1975.

By the Commission, Commissioner  
Brown.

[SEAL] ROBERT L. OSWALD,  
Secretary.

The Interstate Commerce Commission hereby gives notice that by order dated August 18, 1975, it has been determined that the proposed abandonment of the Chicago and North Western Transportation Company of its line between Milepost 72.0 near La Salle and Milepost 77.0 near Spring Valley, a distance of 5.0 miles, all in Bureau County, Ill., if approved by the Commission, does not constitute a major Federal action significantly affecting human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. §§ 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because (1) several washouts have occurred on the subject line, and no traffic has moved since May 1974, (2) overhead traffic is presently handled via other interchange points, (3) the applicant's shippers in Spring Valley are presently served by the Chicago, Rock Island and Pacific Railroad Company, and (4) the degradation of the affected area's air and

water quality will be minimal. In addition, the State Department of Transportation has expressed an interest in obtaining a part of the right-of-way property for public use.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Washington, D.C. 20423, on

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before September 16, 1975.

This negative environmental determination shall become final unless good and sufficient reason demonstrating why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[SEAL] ROBERT L. OSWALD,  
Secretary.

### IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY ELIMINATION OF GATEWAY LETTER NOTICES

SEPTEMBER 2, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination Rules* (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before September 15, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 113843 (Sub-No. E510), filed May 19, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Shells (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting:

*Frozen prune juice*, from those points in Pennsylvania on and west of U.S. Highway 15, and, on, north, and east of a line beginning at the Pennsylvania-New York State line and extending along Pennsylvania Highway 249 to junction Pennsylvania Highway 287, thence along Pennsylvania Highway 287 to junction Pennsylvania Highway 414, thence along Pennsylvania Highway 414 to junction Pennsylvania Highway 664, thence along Pennsylvania Highway 664 to junction

U.S. Highway 220, thence along U.S. Highway 220 to junction Pennsylvania Highway 120, thence along Pennsylvania Highway 120 to junction Pennsylvania Highway 477, thence along Pennsylvania Highway 477 to junction Pennsylvania Highway 192, thence along Pennsylvania Highway 192 to junction U.S. Highway 15, thence along U.S. Highway 15 to points in South Dakota. The purpose of this filing is to eliminate the gateway of the plant sites and storage facilities of Duffy-Mott Co., Inc., at or near Hamlin, Holley, or Williamson, N.Y.

No. MC 114604 (Sub-No. E4), filed June 4, 1974. Applicant: CAUDELL TRANSPORT, INC., State Farmer Market No. 33, Forest Park, Ga. 30050. Applicant's representative: Guy Postell, Suite 713, 3384 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, dairy products, and articles distributed by meat packinghouses*, as described in Sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, and foodstuffs, from points in Fayette, Henry, Jasper, Putnam, Pike, Spalding, Butts, Monroe, Jones, Lamar, Baldwin, and Bibb Counties, Ga., to points in and north of Lamar, Fayette, Walker, Jefferson, St. Clair, Calhoun, and Cleburne Counties, Ala. The purpose of this filing is to eliminate the gateway of Atlanta, Ga.

No. MC 114604 (Sub-No. E8), filed June 4, 1974. Applicant: CAUDELL TRANSPORT, INC., State Farmer Market No. 33, Forest Park, Ga. 30050. Applicant's representative: Guy Postell, Suite 713, 3384 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, dairy products, and articles distributed by meat packinghouses*, as described in Sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, and foodstuffs, from points in Walker, Floyd, Polk, Chattanooga, Gordon, Bartow, Cobb, Haralson, Paulding, De Kalb, Carroll, Clayton, Dade, Catoosa Counties, Ga., to points in and east of Lancaster, Chester, Fairfield, Richland, Calhoun, Orangeburg, Bamberg, Colleton, and Jasper, S.C. The purpose of this filing is to eliminate the gateway of Atlanta, Ga.

No. MC 114604 (Sub-No. E11), filed June 4, 1974. Applicant: CAUDELL TRANSPORT, INC., State Farmer Market No. 33, Forest Park, Ga. 30050. Applicant's representative: Guy Postell, Suite 713, 3384 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, dairy products, and articles distributed by meat packinghouses*, as described in Sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, and foodstuffs, from points in Muscogee, Harris, and Talbot Counties, Ga., to points in, north, and east of Greenville, Spartanburg, Union, Newberry, Fairfield, Kershaw, Lee, Florence, Clarendon, and Berkeley Counties, S.C. The purpose of this filing is to eliminate the gateway of Atlanta, Ga.

No. MC 114604 (Sub-No. E19), filed June 4, 1974. Applicant: CAUDELL TRANSPORT, INC., State Farmer Market No. 33, Forest Park, Ga. 30050. Applicant's representative: Guy Postell, Suite 713, 3384 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, dairy products, and articles distributed by meat packinghouses*, as described in Sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, and foodstuffs, from points in Cherokee, Paulding, Bartow, Douglas Counties, Ga., to Coffee, Dale, Henry, Geneva, and Houston Counties, Ala. The purpose of this filing is to eliminate the gateway of Atlanta, Ga.

No. MC 114897 (Sub-No. E1), filed May 15, 1974. Applicant: WHITFIELD TANK LINES, INC., P.O. Drawer 9897, El Paso, Tex. 79989. Applicant's representative: J. E. Gallegos, 215 Lincoln Ave., Santa Fe, N. Mex. 87501. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Petroleum and petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles; (a) from El Paso, Tex., to points in Texas on, north, and west of a line beginning at the New Mexico-Texas State line and extending along U.S. Highway 380 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction U.S. Highway 180, thence along U.S. Highway 180 to junction U.S. Highway 277, thence along U.S. Highway 277 to the Texas-Oklahoma State line; and (b) from points in Colorado located on and west of a line beginning at the New Mexico-Colorado State line and extending along U.S. Highway 285 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Colorado Highway 789, thence along Colorado Highway 789 to the Colorado-Wyoming State line, to points in Texas on and bounded by a line beginning at the New Mexico-Texas State line extending along Texas Highway 54 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 277, thence along U.S. Highway 277 to junction Interstate Highway 20, thence along Interstate Highway 20 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Texas Highway 116, thence along Texas Highway 116 to junction Texas Highway 125, thence along Texas Highway 125 to the New Mexico-Texas State line. The purpose of this filing is to eliminate the gateway of Milesand, N. Mex.

(2) *Petroleum and petroleum products*, in bulk, in tank vehicles, from points in that part of Texas in and west

FEDERAL REGISTER, VOL. 40, NO. 173—FRIDAY, SEPTEMBER 5, 1975

of Coke, Tom Green, Schleicher, Sutton, and Kendrick, Conn.

ning at the Iowa-Minnesota State line, thence along Interstate Highway 35 to

north of a line beginning at the Ohio-Pennsylvania State line near Sharon, Pa.,

of Coke, Tom Green, Schleicher, Sutton, Edwards, Kinney and Maverick Counties, Tex., and those in and south of El Paso, Hudspeth, Culberson, Reeves, Loving, Winkler, Ector, Midland, Glasscock, and Sterling Counties, Tex., to points in Colorado. The purpose of this filing is to eliminate the gateway of points in New Mexico.

(3) *Petroleum and petroleum products*, in bulk, in tank vehicles; (a) from points in Andrews, Martin, Howard, Mitchell, Scurry, Borden, Dawson, Gaines, Yoakum, Terry, Lynn, Lubbock, Hookley, Cochran, Lamb, Bailey, and Farmer Counties, Tex., to points in Colorado; (b) from points in Deaf Smith, Castro, Swisher, and Hale Counties, Tex., to points in Colorado (except points in Baca and Prowers Counties, Colo.); (c) from points in Hutchinson County, Tex., to points in Colorado in and west of Conejos, Rio Grande, Mineral, Hinsdale, Gunnison, Chaffee, Park, Clear Creek, Gilpin, Grand, and Jackson Counties, Colo. (except points in Archuleta, La Plata, and Montezuma Counties, Colo.); (d) from points in Moore County, Tex., to points in Colorado in, west, and north of Dolores, San Juan, Ouray, Gunnison, Mesa, Garfield, and Routt Counties, Colo.; (e) from points in Potter and Randall Counties, Tex., to points in Colorado on and west of a line beginning at the New Mexico-Colorado State line and extending along Interstate Highway 25 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Colorado-Nebraska State line; and (f) from points in Gray and Carson Counties, Tex., to points in Colorado (except Walsenberg, Colo.), on and west of a line beginning at the New Mexico-Colorado State line and extending along Colorado Highway 159 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction Interstate Highway 25, thence along Interstate Highway 25 to the Colorado-Wyoming State line. The purpose of this filing is to eliminate the gateway of points in New Mexico south of U.S. Highway 66.

(4) *Petroleum products*, in bulk, in tank vehicles; (a) from Fruita, Colo., to points in Arizona; and (b) from points in Colorado to points in Arizona. The purpose of this filing is to eliminate the gateway of points in New Mexico.

No. MC 115544 (Sub-No. E13), filed June 4, 1974. Applicant: SCOTTS TRANSPORTATION SERVICE, INC., P.O. Box 1634, Des Moines, Iowa 50306. Applicant's representative: James R. Madler, 1255 North Sandburg Terrace, Chicago, Ill. 60610. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Refrigerators, refrigeration, cooling, heating and electrical equipment, appliances, and parts, materials, and supplies* used in the manufacture, repair, and distribution of such commodities; (1) between points in Minnesota on and east of U.S. Highway 63, beginning at the Minnesota-Iowa State line and ending at Lake City, Minn., and Duluth, Minn., on the one hand, and, on the other, points in Wyoming south of Interstate Highway 80; (2) between points in Minnesota on, east, and south of a line begin-

ning at the Iowa-Minnesota State line, thence along Interstate Highway 35 to junction Minnesota Highway 48, thence along Minnesota Highway 48 to the Minnesota-Wisconsin State line, on the one hand, and, on the other, points in Colorado on and west of Interstate Highway 25; (3) between points in Minnesota on, south, and east of a line beginning at the Minnesota State line, thence along Interstate Highway 35 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Minnesota-Wisconsin State line, on the one hand, and, on the other, points in Oregon; (4) between Minneapolis, Minn., on the one hand, and, on the other, points in Oregon on and south of a line beginning at the Oregon-Idaho State line, thence along U.S. Highway 20 to junction Oregon Highway 126, thence along Oregon Highway 126 to the Pacific Ocean; (5) between points in Minnesota on, south, and east of a line beginning at the Iowa-Minnesota State line, thence along Interstate Highway 35 to junction U.S. Highway 16, thence along U.S. Highway 16 to the Minnesota-Wisconsin State line, on the one hand, and, on the other, points in Washington on and west of U.S. Highway 97; and (6) between points in Minnesota on, north, and east of a line beginning at the Minnesota-Iowa State line, thence along Interstate Highway 35 to junction U.S. Highway 8, thence along U.S. Highway 8 to the Wisconsin-Minnesota State line, on the one hand, and, on the other, Boise, Idaho. The purpose of this filing is to eliminate the gateway of Amana, Iowa.

No. MC 115840 (Sub-No. E70) (Correction), filed December 30, 1974, published in the FEDERAL REGISTER July 28, 1975. Applicant: COLONIAL FAST FREIGHT, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: Roger M. Shaner (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Valves, hydrants, fittings, components, parts, and accessories which are materials and supplies (except in bulk), used in the operation, production, processing, or transportation of iron and steel articles, cranes, sand hoppers, elevators, conveyors, dust collectors, and meter boxes; (1) from points in Florida to points in Arizona, California, Colorado, Idaho, those points in Illinois on and bounded by a line beginning at the Illinois-Indiana State line and extending along U.S. Highway 36 to Springfield, Ill., thence along Illinois Highway 29 to Peoria, Ill., thence along Illinois Highway 116 to Metamora, Ill., thence along Illinois Highway 89 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Illinois Highway 31, thence along Illinois Highway 31 to unnumbered highway (referred to as Aurora Avenue), thence along unnumbered highway to junction U.S. Highway 34 to Chicago, Ill., thence along Lake Michigan to the Illinois-Indiana State line to the point of beginning, points in Iowa, Kansas, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, South Dakota, Utah, Washington, Wyoming, and Ohio (except those points in that part of Ohio on, west, and

north of a line beginning at the Ohio-Pennsylvania State line near Sharon, Pa., and extending along U.S. Highway 62 to Columbus, Ohio, thence along U.S. Highway 23 to Circleville, Ohio, and thence along U.S. Highway 22 to Cincinnati, Ohio);

(2) From points in Florida east of U.S. Highway 231 to points in Texas; (3) from points in Florida on and south of Interstate Highway 4 to points in West Virginia; (4) from points in Georgia to points in Arizona, California, Colorado, Idaho, Illinois on and bounded by a line beginning at the Illinois-Indiana State line and extending along U.S. Highway 36 to Springfield, Ill., thence along Illinois Highway 29 to Peoria, Ill., thence along Illinois Highway 116 to Metamora, Ill., thence along Illinois Highway 89 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Illinois Highway 31, thence along Illinois Highway 31 to junction unnumbered highway (referred to as Aurora Avenue), thence along unnumbered highway to U.S. Highway 34 to Chicago, Ill., thence along Lake Michigan to the Illinois-Indiana State line to the point of beginning, points in Iowa, Kansas, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Ohio (except those points in that part of Ohio on, west, and north of a line beginning at a point on the Ohio-Pennsylvania State line near Sharon, Pa., and extending along U.S. Highway 62 to Columbus, Ohio, thence along U.S. Highway 23 to Circleville, Ohio, and thence along U.S. Highway 22 to Cincinnati, Ohio), Oregon, South Dakota, Texas, Utah, Washington, West Virginia, Wisconsin, and Wyoming. The purpose of this filing is to eliminate the gateway of Anniston, Ala. The purpose of this partial correction is to include (2), (3), and (4) above. The remainder of this letter-notice remains as previously published.

No. MC 115841 (Sub-No. E53), filed June 4, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E. Stephen Helsley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Candy*, in vehicles equipped with mechanical refrigeration, (A) from Birmingham, Ala., to points in North Carolina, Virginia, and West Virginia, (B) from Brundidge, Ala., to points in Virginia, West Virginia, and to points in North Carolina on and north of a line beginning at the Atlantic Ocean and extending along U.S. Highway 64 to junction North Carolina Highway 98, thence along North Carolina Highway 98 to junction Interstate Highway 85, thence along Interstate Highway 85 to junction Interstate Highway 40, thence along Interstate Highway 40 to the North Carolina-Tennessee State line. The purpose of this filing is to eliminate the gateway of Chattanooga, Tenn.

No. MC 115841 (Sub-No. E90), filed June 4, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala.

35202. Applicant's representative: E. Stephen Helsley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Edible meats, edible meats products, edible meat by-products, edible dairy products, and edible articles distributed by meat packinghouses*, unfrozen, as defined by the Commission, and frozen foods, in vehicles equipped with mechanical refrigeration (except liquid commodities, in bulk), from Nashville, Tenn., (A) to points in California, Oregon, and Washington (Chattanooga, Tenn. and Birmingham, Ala.); (B) to points in Virginia, North Carolina, South Carolina, Georgia, and points in Alabama on and south of a line beginning at the Alabama-Georgia State line and extending along Interstate Highway 20 (including Anniston), to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Alabama Highway 25, thence along Alabama Highway 25 to junction U.S. Highway 82, thence along U.S. Highway 82 to the Alabama-Mississippi State line (including Tuscaloosa, Northport, Cottondale, and Holt), and New Orleans, La. (Chattanooga, Tenn.). The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 115841 (Sub-No. E97), filed June 4, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E. Stephen Helsley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Edible meats, edible meat products, and edible meat by-products*, as defined by the Commission (except liquid commodities, in bulk, in tank vehicles), in vehicles equipped with mechanical refrigeration, from Chattanooga, Tenn., to points in Texas and points in Oklahoma on and west of U.S. Highway 281. The purpose of this filing is to eliminate the gateway of Montgomery, Ala.

No. MC 115841 (Sub-No. E101), filed June 4, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E. Stephen Helsley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Unfrozen edible meats* (except canned meats) and *unfrozen edible dairy products*, as defined by the Commission, and *unfrozen edible bakery products*, when moving in mixed loads therewith (except liquid commodities in bulk, in tank vehicles), in vehicles equipped with mechanical refrigeration, from Nashville, Tenn., to points in Texas on and south of a line beginning at the Texas-Louisiana State line and extending along Interstate Highway 10 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction Interstate Highway 10, thence along Interstate Highway 10 to the United States-Mexico International Boundary line. The purpose of this filing is to eliminate the

gateways of Chattanooga, Tenn., and Birmingham, Ala.

No. MC 115841 (Sub-No. E143), filed June 4, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E. Stephen Helsley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen edible fruits, frozen edible berries, and frozen edible vegetables*, in vehicles equipped with mechanical refrigeration, (1) from points in Tennessee on and east of Interstate Highway 65 (including Nashville and Davidson Counties), to points in California, Oregon, and Washington; (2) from points in Tennessee on and west of Interstate Highway 65 to points in Indiana to points in Louisiana, Mississippi, and Texas; (3) from points in Tennessee on and west of U.S. Highway 51 (including Memphis and Shelby Counties), to points in Georgia and South Carolina; and (4) from points in Tennessee on and north of a line beginning at the Tennessee-North Carolina State line and extending along Interstate Highway 40 to junction Interstate Highway 65 (including Nashville and Davidson Counties), to the Tennessee-Kentucky State line, to Bainbridge, Ga. The purpose of this filing is to eliminate the gateway of Birmingham, Ala.

No. MC 115841 (Sub-No. E352), filed May 22, 1975. Applicant: COLONIAL REFRIGERATED TRANSPORTATION INCORPORATED, P.O. Box 10327, Birmingham, Ala. 35201. Applicant's representative: Roger M. Shaner (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen edible meats, frozen edible meat products, frozen edible meat by-products, frozen edible dairy products, and frozen edible articles distributed by meat packinghouses*, as defined by the Commission (except in bulk), in vehicles equipped with mechanical refrigeration, from points in that part of the New York, N.Y., Commercial Zone, as defined by the Commission, within which local operations may be conducted under the exemption provided in Section 203(b) (8) of the Act (the exempt zone), to points in Texas on and south of Interstate Highway 40 and points in Oklahoma on and south of U.S. Highway 70. The purpose of this filing is to eliminate the gateway of Springfield, N.J., Chattanooga, Tenn., Atlanta, Ga., and Montgomery, Ala., or Birmingham, Ala., and points in Tennessee west of the Tennessee River.

No. MC 119777 (Sub-No. E42), filed April 9, 1974. Applicant: LIGON SPECIALIZED HAULER, INC., P.O. Drawer L, Madisonville, Ky. 42431. Applicant's representative: Jean Holmes (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such metallic grindings, and shavings, residue, dross, slag, concentrates, oxides, and*

*spent nickel catalyst*, which are embraced within ferro-chrome, ferrochrome silicon, ferro-silicon, silicon-manganese, ferro-manganese, silicon metal, and scrap iron for remelting purposes only (except liquid chemicals, in bulk, in tank vehicles); (1) from points in California to points in Connecticut, Delaware, Georgia, Indiana, Kentucky, Maryland, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, Tennessee (except Woodstock, Nashville, and Memphis), and Owen, Columbia, East Greenville, and Charleston, S.C.; (2) from points in Florida to points in Illinois, Iowa, Kansas, Missouri, and Wisconsin; (4) from points in Illinois to points in Alabama, Florida, and Georgia; (5) from points in Indiana to points in Louisiana, Mississippi, and Texas; (6) from points in Kansas to points in Connecticut, Delaware, Florida, Georgia, Maryland, New Jersey, Virginia, and Owen, Columbia, East Greenville, and Charleston, S.C.; (7) from points in Louisiana to points in Connecticut, Delaware, Indiana, Michigan, New Jersey, New York, Ohio, Pennsylvania, and Wisconsin; (8) from points in Maryland to points in Arkansas, Kansas, Oklahoma, and Texas; (9) from points in Michigan to points in Florida, Louisiana, and Mississippi; (10) from points in Missouri to points in Georgia, and Owen, Columbia, East Greenville, and Charleston, S.C.;

(11) From points in Nebraska to points in Alabama, Florida, Georgia, and Owen, Columbia, East Greenville, and Charleston, S.C.; (12) from points in New Jersey to points in Arkansas, Kansas, Louisiana, Mississippi, Oklahoma, and Texas; (13) from points in New York to points in Arkansas, Louisiana, Mississippi, Oklahoma, and Texas; (14) from points in Ohio to points in Arkansas, Louisiana, Mississippi, Oklahoma, and Texas; (15) from points in Pennsylvania to points in Arkansas, Louisiana, Mississippi, Oklahoma, and Texas; (16) from points in South Carolina to points in Iowa, Kansas, Missouri, Oklahoma, and Wisconsin; (17) from points in Texas to points in Connecticut, Delaware, Indiana, Maryland, New Jersey, New York, Ohio, Pennsylvania, Virginia, and West Virginia; (18) from points in Virginia to points in Arkansas, Kansas, Oklahoma, and Texas; (19) from points in West Virginia to points in Arkansas, Oklahoma, and Texas; (20) from points in California to points in Alabama on, north, and east of a line beginning at the Florida-Alabama State line extending along U.S. Highway 331 to junction Alabama Highway 55, thence along Alabama Highway 55 to junction U.S. Highway 31, thence along U.S. Highway 31 to Montgomery, Ala., thence along U.S. Highway 82 to the Alabama-Mississippi State line; (21) from points in California on, north, and west of a line beginning at the California-Nevada State line extending along U.S. Highway 6 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction California Highway 14, thence along California Highway 14 to junction Interstate Highway 5, thence along In-

Interstate Highway 5 to junction California Highway 11, thence along California

thence along Michigan Highway 72 to a terminus at Traverse City, Mich.; (27)

Montague, N.J.; (37) from points in Florida on and west of U.S. Highway

along Florida Highway 520 to its terminus at the Atlantic Ocean to points in Tennessee on, north, and west of a line

Savannah Beach, Ga., to points in Indiana on and west of a line beginning at the Michigan-Indiana State line extend-

nesses Highway 104, thence along Tennessee Highway 104 to junction Tennessee Highway 20, thence along Ten-

terstate Highway 5 to junction California Highway 11, thence along California Highway 11 to a terminus at Fort MacArthur, Calif., to points in Arkansas on, north, and east of a line beginning at the Arkansas-Missouri State line extending along U.S. Highway 63 to junction Arkansas Highway 1, thence along Arkansas Highway 1 to junction U.S. Highway 70, thence along U.S. Highway 70 to the Arkansas-Tennessee State line; (22) from points in California on, north, and west of a line beginning at San Diego, Calif., thence along U.S. Highway 395 to junction Interstate Highway 10, thence along Interstate Highway 10 to the California-Arizona State line to points in Florida;

(23) From points in California on, south, and west of a line beginning at the California-Oregon State line extending along U.S. Highway 101 to junction California Highway 128, thence along California Highway 128 to junction Interstate Highway 80, thence along Interstate Highway 80 to Sacramento, Calif., thence along California Highway 99 to Bakersfield, Calif., thence along California Highway 58 to Barstow, Calif., thence along U.S. Highway 66 to the California-Nevada State line to points in Illinois on, south, and east of a line beginning at Alton, Ill., thence along U.S. Highway 67 to junction Illinois Highway 108, thence along Illinois Highway 108 to junction Illinois Highway 4, thence along Illinois Highway 4 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Illinois Highway 54, thence along Illinois Highway 54 to junction Interstate Highway 57, thence along Interstate Highway 57 to junction Illinois Highway 50, thence along Illinois Highway 50 to junction U.S. Highway 66, thence along U.S. Highway 66 to its terminus at Chicago, Ill.; (24) from points in California on, south, and west of a line beginning at the United States-Mexico International Boundary line extending along California Highway 111 to junction Interstate Highway 8, thence along Interstate Highway 8 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction U.S. Highway 101, thence along U.S. Highway 101 to a terminus at Santa Barbara, Calif., to Davenport, Iowa; (25) from points in California on and north of a line beginning at the California-Iowa State line extending along Interstate Highway 80 to junction California Highway 20, thence along California Highway 20 to a terminus at Noyo, Calif., to points in Louisiana on and east of a line beginning at the Louisiana-Arkansas State line extending along U.S. Highway 65 to junction Louisiana Highway 15, thence along Louisiana Highway 15 to junction Louisiana Highway 1, thence along Louisiana Highway 1 to junction Louisiana Highway 20, thence along Louisiana Highway 20 to junction Louisiana Highway 24, thence along Louisiana Highway 24 to Houma, La.;

(26) From points in California to points in Michigan on and south of a line beginning at Alpena, Mich., thence along Michigan Highway 32 to junction U.S. Highway 131, thence along U.S. Highway 131 to junction Michigan Highway 72,

thence along Michigan Highway 72 to a terminus at Traverse City, Mich.; (27) from points in California to points in Mississippi on, east, and north of a line beginning at the Mississippi-Tennessee State line extending along U.S. Highway 61 to Clarksdale, Miss., thence along U.S. Highway 61 to junction Mississippi Highway 6, thence along Mississippi Highway 6 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction U.S. Highway 82, thence along U.S. Highway 82 to the Alabama-Mississippi State line; (28) from points in California to points in Missouri on and east of a line beginning at the Arkansas-Missouri State line extending along U.S. Highway 67 to a terminus at St. Louis, Mo.; (29) from Merced, Calif., and points in California on, south, and west of a line beginning at the Arizona-California State line extending along U.S. Highway 66 to junction California Highway 58, thence along California Highway 58 to junction U.S. Highway 99, thence along U.S. Highway 99 to junction California Highway 152, thence along California Highway 152 to junction U.S. Highway 101, thence along U.S. Highway 101 to junction California Highway 68, thence along California Highway 68 to its terminus at Monterey, Calif., to points in Wisconsin on and east of a line beginning at the Illinois-Wisconsin State line extending along U.S. Highway 51 to junction Wisconsin Highway 26, thence along Wisconsin Highway 26 to junction U.S. Highway 41, thence along U.S. Highway 41 to a terminus at Marinette, Wis.;

(30) From points in Florida on and east of a line beginning at Jacksonville, Fla., thence along U.S. Highway 17 to junction U.S. Highway 41, thence along U.S. Highway 41 to a terminus at Fort Myers, Fla., to points in Arkansas on and north of a line beginning at Fort Smith, Ark., thence along U.S. Highway 64 to junction U.S. Highway 65, thence along U.S. Highway 65 to Little Rock, Ark., thence along U.S. Highway 67 to junction Arkansas Highway 78, thence along Arkansas Highway 78 to its terminus at the Arkansas-Tennessee State line on the Mississippi River; (31) from Pensacola, Fla., to Canaan, Conn.; (32) from points in Florida to points in Indiana on, north, and west of Indiana Highway 37; (33) from points in Florida to points in Kentucky on and west of a line beginning at Owensboro, Ky., thence along Kentucky Highway 81 to junction Kentucky Highway 85, thence along Kentucky Highway 85 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Kentucky-Tennessee State line; (34) from points in Florida on and east of a line beginning at Cocoa, Fla., thence along U.S. Highway 1 to its terminus at West Key, Fla., to Walls, Miss.; (35) from points in Florida to Springfield, Mo., and points in Missouri on and north of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 60 to junction Missouri Highway 17, thence along Missouri Highway 17 to junction Missouri Highway 38, thence along Missouri Highway 38 to junction Interstate Highway 44, thence along Interstate Highway 44 to the Missouri-Oklahoma State line; (36) from Pensacola, Fla., to

Montague, N.J.; (37) from points in Florida on and west of U.S. Highway 231 to points in New York on, north, and west of a line beginning at the New York-Pennsylvania State line extending along Interstate Highway 90 to Utica, N.Y., thence along New York Highway 8 to junction New York Highway 30, thence along New York Highway 30 to junction New York Highway 3, thence along New York Highway 3 to the terminus at Plattsburgh, N.Y.;

(38) From points in Florida on and west of a line beginning at the Florida-Georgia State line extending along U.S. Highway 27 to junction U.S. Highway 319, thence along U.S. Highway 319 to junction Florida Highway 363, thence along Florida Highway 363 to a terminus at St. Marks, Fla., and points in Florida on and south of a line beginning at Cedar Key, Fla., thence along Florida Highway 345 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction Florida Highway 26, thence along Florida Highway 26 to junction Florida Highway 20, thence along Florida Highway 20 to junction Florida Highway 207, thence along Florida Highway 207 to St. Augustine, Fla., to Findley, Ohio, and points in Ohio on and north of a line beginning at Toledo, Ohio, thence along Interstate Highway 75 to junction U.S. Highway 224, thence along U.S. Highway 224 to junction Ohio Highway 15, thence along Ohio Highway 15 to junction Ohio Highway 34, thence along Ohio Highway 34 to junction Ohio Highway 49, thence along Ohio Highway 49 to the Michigan-Ohio State line; (39) from points in Florida on and east of a line beginning at the Georgia-Florida State line extending along U.S. Highway 17 to its terminus at Punta Gorda, Fla., to points in Oklahoma on, north, and west of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 183 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction Oklahoma Highway 7, thence along Oklahoma Highway 7 to junction Oklahoma Highway 1, thence along Oklahoma Highway 1 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction U.S. Highway 226, thence along U.S. Highway 226 to junction U.S. Highway 64, thence along U.S. Highway 64 to the Oklahoma-Arkansas State line;

(40) From points in Florida on and west of U.S. Highway 231 to points in Pennsylvania on, north, and west of a line beginning at the Pennsylvania-Ohio State line extending along Pennsylvania Highway 68 to junction Pennsylvania Highway 8, thence along Pennsylvania Highway 8 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 219, thence along U.S. Highway 219 to the New York-Pennsylvania State line; (41) from points in Florida on and south of a line beginning at St. Petersburg, Fla., thence along U.S. Highway 92 to junction Interstate Highway 4, thence along Interstate Highway 4 to junction Florida Highway 50, thence along Florida Highway 50 to junction Interstate Highway 95, thence along Interstate Highway 95 to junction Florida Highway 520, thence

along Florida Highway 520 to its terminus at the Atlantic Ocean to points in Tennessee on, north, and west of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 79 to junction Tennessee Highway 22, thence along Tennessee Highway 22 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Tennessee Highway 54, thence along Tennessee Highway 54 to junction Tennessee Highway 59, thence along Tennessee Highway 59 to the terminus at Richland, Tenn.; (42) from points in Florida on, south, and east of a line beginning at the Florida-Georgia State line extending along U.S. Highway 221 to junction U.S. Highway 641 to junction U.S. Highway 68, thence along U.S. Highway 68 to Hopkinsville, Ky., thence along U.S. Highway 41 to junction U.S. Highway 60, thence along U.S. Highway 60 to a terminus at Owensboro, Ky.; (47) from Rossville, Ga., to Blairsville, Ga., to Ida, La.; (48) from points in Georgia on, south, and west of a line beginning at Savannah, Ga., thence along U.S. Highway 80 to junction U.S. Highway 280, thence along U.S. Highway 280 to junction U.S. Highway 23, thence along U.S. Highway 23 to Atlanta, Ga., thence along U.S. Highway 41 to the Georgia-Tennessee State line to points in Michigan on, north, and west of a line beginning at St. Joseph, Mich., thence along U.S. Highway 33 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Michigan Highway 21, thence along Michigan Highway 21 to junction U.S. Highway 131, thence along U.S. Highway 131 to junction Michigan Highway 32, thence along Michigan Highway 32 to its terminus at Alpena, Mich.; (49) from points in Georgia on and west of U.S. Highway 27 to points in New York on and north of a line beginning at Ogdensburg, N.Y., thence along New York Highway 37 to junction U.S. Highway 11, thence along U.S. Highway 11 to its terminus at Rouses Point, N.Y.; (50) from Faceville, Ga., to points in Ohio on, north, and west of a line beginning at Union City, Ohio, thence along Ohio Highway 47 to junction Interstate Highway 75, thence along Interstate Highway 75 to a terminus at Toledo, Ohio; (51) from points in Georgia to points in Oklahoma on and north of a line beginning at the Oklahoma-Texas State line extending along Oklahoma Highway 51 to junction Interstate Highway 44, thence along Interstate Highway 44 to the Oklahoma-Missouri State line; (52) from Faceville, Ga., to Erie and Cherry Hill, Pa.;

(53) From points in Georgia on, south, and east of a line beginning at the Georgia-Florida State line extending along U.S. Highway 41 to junction U.S. Highway 221, thence along U.S. Highway 221 to junction U.S. Highway 441, thence along U.S. Highway 441 to junction U.S. Highway 230, thence along U.S. Highway 230 to junction U.S. Highway 1, thence along U.S. Highway 1 to a terminus at Augusta, Ga., to points in Tennessee on, north, and west of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 641 to junction Tennessee Highway 54, thence along Tennessee Highway 54 to junction Tennessee Highway 104, thence along Tennessee Highway 104 to junction Tennessee Highway 20, thence along Tennessee Highway 20 to its terminus at Heloise, Tenn.; (54) from points in Georgia on, north, and east of a line beginning at the Alabama-Georgia State line extending along U.S. Highway 278 to Atlanta, Ga., thence along U.S. Highway 23 to the Florida-Georgia State line to points in Texas on, north, and west of a line beginning at Presidio, Tex., thence along U.S. Highway 67 to junction Texas Highway 17, thence along Texas Highway 17 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Texas Highway 115, thence along Texas Highway 115 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Oklahoma-Texas State line; (55) from points in Illinois on, north, and east of a line beginning at East Dubuque, Ill., thence along U.S. Highway 20 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction Illinois Highway 130, thence along Illinois Highway 130 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Illinois-Indiana State line to points in Arkansas on, south, and east of a line beginning at the Arkansas-Oklahoma State line extending along U.S. Highway 70 to junction U.S. Highway 61, thence along U.S. Highway 61 to the Arkansas-Missouri State line;

(56) From points in Illinois on, south, and west of a line beginning at Alton, Ill., thence along Illinois Highway 143 to junction Illinois Highway 3, thence along Illinois Highway 3 to junction U.S. Highway 460, thence along U.S. Highway 460 to the Illinois-Indiana State line to points in Connecticut; (57) from points in Illinois on and south of a line beginning at the Illinois-Indiana State line extending along Illinois Highway 141 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 13, thence along Illinois Highway 13 to junction Illinois Highway 149, thence along Illinois Highway 149 to junction Illinois Highway 3, thence along Illinois Highway 3 to a terminus at Chester, Ill., to points in Delaware; (58) from Cairo and Brookport, Ill., to points in Illinois on, north, and east of a line beginning at the Illinois-Iowa State line extending along U.S. Highway 6 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Illinois-Indiana State line; (59) from points in Illinois on, north, and east of a line beginning at the Illinois-Iowa State line extending along U.S. Highway 6 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Illinois-Indiana State line to Cairo and Brookport, Ill.; (60) from Cairo and

Savannah Beach, Ga., to points in Indiana on and west of a line beginning at the Michigan-Indiana State line extending along Indiana Highway 19, thence along Indiana Highway 19 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 31, thence along U.S. Highway 31 to Indianapolis, Ind., thence along Indiana Highway 67 to junction U.S. Highway 231, thence along U.S. Highway 231 to the Indiana-Kentucky State line;

(46) From points in Georgia on, south, and east of U.S. Highway 17 to points in Kentucky on, north, and west of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 641 to junction U.S. Highway 68, thence along U.S. Highway 68 to Hopkinsville, Ky., thence along U.S. Highway 41 to junction U.S. Highway 60, thence along U.S. Highway 60 to a terminus at Owensboro, Ky.; (47) from Rossville, Ga., to Blairsville, Ga., to Ida, La.; (48) from points in Georgia on, south, and west of a line beginning at Savannah, Ga., thence along U.S. Highway 80 to junction U.S. Highway 280, thence along U.S. Highway 280 to junction U.S. Highway 23, thence along U.S. Highway 23 to Atlanta, Ga., thence along U.S. Highway 41 to the Georgia-Tennessee State line to points in Michigan on, north, and west of a line beginning at St. Joseph, Mich., thence along U.S. Highway 33 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Michigan Highway 21, thence along Michigan Highway 21 to junction U.S. Highway 131, thence along U.S. Highway 131 to junction Michigan Highway 32, thence along Michigan Highway 32 to its terminus at Alpena, Mich.; (49) from points in Georgia on and west of U.S. Highway 27 to points in New York on and north of a line beginning at Ogdensburg, N.Y., thence along New York Highway 37 to junction U.S. Highway 11, thence along U.S. Highway 11 to its terminus at Rouses Point, N.Y.; (50) from Faceville, Ga., to points in Ohio on, north, and west of a line beginning at Union City, Ohio, thence along Ohio Highway 47 to junction Interstate Highway 75, thence along Interstate Highway 75 to a terminus at Toledo, Ohio; (51) from points in Georgia to points in Oklahoma on and north of a line beginning at the Oklahoma-Texas State line extending along Oklahoma Highway 51 to junction Interstate Highway 44, thence along Interstate Highway 44 to the Oklahoma-Missouri State line; (52) from Faceville, Ga., to Erie and Cherry Hill, Pa.;

(53) From points in Georgia on, south, and east of a line beginning at the Georgia-Florida State line extending along U.S. Highway 41 to junction U.S. Highway 221, thence along U.S. Highway 221 to junction U.S. Highway 441, thence along U.S. Highway 441 to junction U.S. Highway 230, thence along U.S. Highway 230 to junction U.S. Highway 1, thence along U.S. Highway 1 to a terminus at Augusta, Ga., to points in Tennessee on, north, and west of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 641 to junction Tennessee Highway 54, thence along Tennessee Highway 54 to junction Tennessee Highway 104, thence along Tennessee Highway 104 to junction Tennessee Highway 20, thence along Tennessee Highway 20 to its terminus at Heloise, Tenn.; (54) from points in Georgia on, north, and east of a line beginning at the Alabama-Georgia State line extending along U.S. Highway 278 to Atlanta, Ga., thence along U.S. Highway 23 to the Florida-Georgia State line to points in Texas on, north, and west of a line beginning at Presidio, Tex., thence along U.S. Highway 67 to junction Texas Highway 17, thence along Texas Highway 17 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Texas Highway 115, thence along Texas Highway 115 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Oklahoma-Texas State line; (55) from points in Illinois on, north, and east of a line beginning at East Dubuque, Ill., thence along U.S. Highway 20 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction Illinois Highway 130, thence along Illinois Highway 130 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Illinois-Indiana State line to points in Arkansas on, south, and east of a line beginning at the Arkansas-Oklahoma State line extending along U.S. Highway 70 to junction U.S. Highway 61, thence along U.S. Highway 61 to the Arkansas-Missouri State line;

Brookport, Ill., to points in Indiana on and east of a line beginning at the Indiana-Kentucky State line extending along U.S. Highway 64 to junction U.S. Highway 23, thence along U.S. Highway 23 to McRae, Ga., thence along U.S. Highway 280 to junction U.S. Highway 80, thence along U.S. Highway 80 to its terminus at

Highway 45, thence along U.S. Highway 45 to the Kentucky-Illinois State line north of a line beginning at the Illinois-

(75) From points in Illinois on and north of a line beginning at the Illinois-

Arkansas on and south of a line beginning at Fort Smith, Ark., thence along U.S. Highway 64 to junction U.S. Highway 23, thence along U.S. Highway 23 to McRae, Ga., thence along U.S. Highway 280 to junction U.S. Highway 80, thence along U.S. Highway 80 to its terminus at

(89) from points in Indiana to Wickliffe and Paducah, Ky.; (90) from Evansville, Ind., to points in Maryland on, south,

Wisconsin-Minnesota State line extending along U.S. Highway 8 to junction U.S. Highway 63, thence along U.S. Highway

Brookport, Ill., to points in Indiana on and east of a line beginning at the Indiana-Kentucky State line extending along U.S. Highway 41 to junction Indiana Highway 441, thence along Indiana Highway 441 to the terminus at Vincennes, Ind.;

(61) From Cairo and Brookport, Ill., to points in Iowa on and north of a line beginning at the Iowa-Nebraska State line extending along Iowa Highway 2 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Iowa-Illinois State line; (62) from points in Illinois on and south of a line beginning at the Illinois-Kentucky State line extending along U.S. Highway 45 to junction Illinois Highway 169, thence along Illinois Highway 169 to junction Illinois Highway 37, thence along Illinois Highway 37 to the terminus at Cairo, Ill., to points in Kansas on, north, and west of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 77 to junction Kansas Highway 15, thence along Kansas Highway 15 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Kansas Highway 15W, thence along Kansas Highway 15W to the Kansas-Nebraska State line; (63) from points in Illinois on and north of U.S. Highway 40 to Paducah, Ky.; (64) from points in Illinois to points in Louisiana on, south, and east of a line beginning at the Louisiana-Texas State line extending along Louisiana Highway 6 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Louisiana Highway 34, thence along Louisiana Highway 34 to junction U.S. Highway 165, thence along U.S. Highway 165 to junction Louisiana Highway 2, thence along Louisiana Highway 2 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Louisiana-Arkansas State line; (65) from points in Illinois on and south of a line beginning at Chester, Ill., thence along Illinois Highway 3 to junction Illinois Highway 149, thence along Illinois Highway 149 to junction Illinois Highway 13, thence along Illinois Highway 13 to junction Illinois Highway 37, thence along Illinois Highway 37 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction Illinois Highway 141, thence along Illinois Highway 141 to the Illinois-Indiana State line to points in Maryland; (66) from Cairo and Brookport, Ill., to points in Michigan;

(67) From points in Illinois on, north, and east of a line beginning at Quincy, Ill., thence along U.S. Highway 24 to junction Illinois Highway 125, thence along Illinois Highway 125 to Springfield, Ill., thence along Illinois Highway 29 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Illinois Highway 37, thence along Illinois Highway 37 to junction Illinois Highway 146, thence along Illinois Highway 146 to junction U.S.

Highway 45, thence along U.S. Highway 45 to the Kentucky-Illinois State line to points in Mississippi; (68) from points in Illinois on and east of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 136 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction U.S. Highway 45, thence along U.S. Highway 45 to the Illinois-Wisconsin State line to points in Missouri on and south of a line beginning at the Missouri-Kentucky State line extending along U.S. Highway 60 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction Missouri Highway 21, thence along Missouri Highway 21 to the Missouri-Arkansas State line; (69) from points in Illinois on and south of a line beginning at the Illinois-Indiana State line extending along Illinois Highway 141 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction U.S. Highway 460, thence along U.S. Highway 460 to the terminus at East St. Louis, Ill., to points in New Jersey; (70) from points in Illinois on and south of a line beginning at Chester, Ill., thence along Illinois Highway 3 to junction Illinois Highway 149, thence along Illinois Highway 149 to junction Illinois Highway 13, thence along Illinois Highway 13 to the Illinois-Kentucky State line to points in New York;

(71) From Cairo and Brookport, Ill., to points in Ohio; (72) from points in Illinois on and east of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 136 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Illinois Highway 130, thence along Illinois Highway 130 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 15, thence along Illinois Highway 15 to junction Illinois Highway 37, thence along Illinois Highway 37 to junction Illinois Highway 146, thence along Illinois Highway 146 to junction U.S. Highway 51, thence along U.S. Highway 51 to the terminus at Cairo, Ill., to points in Oklahoma on and west of a line beginning at the Oklahoma-Kansas State line extending along U.S. Highway 183 to junction U.S. Highway 270, thence along U.S. Highway 270 to junction Interstate Highway 40 to junction U.S. Highway 177, thence along U.S. Highway 177 to junction Oklahoma Highway 19, thence along Oklahoma Highway 19 to junction Oklahoma Highway 3, thence along Oklahoma Highway 3 to the Oklahoma-Arkansas State line; (73) from points in Illinois on and south of a line beginning at the Illinois-Kentucky State line extending along Illinois Highway 13 to junction Illinois Highway 4, thence along Illinois Highway 4 to junction Illinois Highway 150, thence along Illinois Highway 150 to its terminus at Chester, Ill., to points in Pennsylvania; (74) from points in Illinois to Columbia, Charleston, and Owen, S.C.;

(75) From points in Illinois on and north of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 24 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Illinois-Missouri State line to points in Tennessee on and west of a line beginning at the Tennessee-Kentucky State line extending along U.S. Highway 41A to junction U.S. Highway 51, thence along U.S. Highway 51 to the Tennessee-Alabama State line (except Nashville, Memphis, and Woodstock); (76) from points in Illinois on, east, and south of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 136 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 146, thence along Illinois Highway 146 to junction Illinois Highway 37, thence along Illinois Highway 37 to junction U.S. Highway 51, thence along U.S. Highway 51 to a terminus at Cairo, Ill., to points in Texas; (77) from points in Illinois on, south, and west of a line beginning at East St. Louis, Ill., thence along Illinois Highway 149, thence along Illinois Highway 149 to junction Illinois Highway 13, thence along Illinois Highway 13 to the Illinois-Kentucky State line to points in Virginia; (78) from points in Illinois on, south, and west of a line beginning at East St. Louis, Ill., thence along Illinois Highway 3 to junction Illinois Highway 146, thence along Illinois Highway 146 to junction U.S. Highway 45, thence along U.S. Highway 45 to the Illinois-Kentucky State line to points in West Virginia on and south of U.S. Highway 33; (79) from Cairo and Brookport, Ill., to points in Wisconsin;

(80) From Ray, Ind., and points in Indiana on, north, and west of a line beginning at the Michigan-Indiana State line extending along Interstate Highway 69 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction Interstate Highway 465, thence along Interstate Highway 465 to junction Indiana Highway 67, thence along Indiana Highway 67 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Indiana-Kentucky State line to points in Alabama on, south, and west of a line beginning at the Tennessee-Alabama State line extending along Alabama Highway 17 to junction Alabama Highway 243, thence along Alabama Highway 243 to junction Alabama Secondary Highway 93, thence along Alabama Secondary Highway 93 to junction Alabama Highway 195, thence along Alabama Highway 195 to junction U.S. Highway 78, thence along U.S. Highway 78 to junction U.S. Highway 31, thence along U.S. Highway 31 to Montgomery, Ala., thence along U.S. Highway 80 to the Alabama-Georgia State line; (81) from points in Indiana to points in

Arkansas on and south of a line beginning at Fort Smith, Ark., thence along U.S. Highway 64 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Arkansas Highway 25, thence along Arkansas Highway 25 to the Arkansas-Missouri State line; (82) from Evansville, Ind., to points in Connecticut; (83) from Evansville, Ind., to points in Delaware; (84) from points in Indiana on and west of Indiana Highway 37 to points in Florida; (85) from points in Indiana on and west of a line beginning at the Indiana-Kentucky State line extending along U.S. Highway 41 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Indiana Highway 53, thence along Indiana Highway 53 to the terminus at Gary, Ind., to points in Georgia on, south, and east of a line beginning at the Georgia-Alabama State line extending along U.S. Highway 278 to junction Georgia Highway 113, thence along Georgia Highway 113 to junction Georgia Highway 61, thence along Georgia Highway 61 to junction Georgia Highway 20, thence along Georgia Highway 20 to junction U.S. Highway 19, thence along U.S. Highway 19 to the Georgia-North Carolina State line;

(86) From points in Indiana on and east of a line beginning at Evansville, Ind., thence along U.S. Highway 41 to a terminus at Vincennes, Ind., to Cairo and Brookport, Ill.; (87) from Jeffersonville, Ind., and points in Indiana on and south of a line beginning at Evansville, Ind., thence along U.S. Highway 460 to the Kentucky-Indiana State line to points in Iowa on and west of a line beginning at the Iowa-Missouri State line extending along U.S. Highway 59 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Iowa Highway 9, thence along Iowa Highway 9 to junction Iowa Highway 4, thence along Iowa Highway 4 to the Iowa-Minnesota State line; (88) from points in Indiana on, south, and east of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 50 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Indiana Highway 67, thence along Indiana Highway 67 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction Indiana Highway 18, thence along Indiana Highway 18 to junction Indiana Highway 3, thence along Indiana Highway 3 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Indiana-Michigan State line to points in Kansas on, south, and west of a line beginning at the Colorado-Kansas State line extending along Kansas Highway 96 to junction Kansas Highway 27, thence along Kansas Highway 27 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 154, thence along U.S. Highway 154 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 166, thence along U.S. Highway 166 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line;

(89) from points in Indiana to Wickliffe and Paducah, Ky.; (90) from Evansville, Ind., to points in Maryland on, south, and east of U.S. Highway 1;

(91) From points in Indiana to points in Missouri on and south of a line beginning at the Arkansas-Missouri State line extending along Missouri Highway 17 to U.S. Highway 160, thence along U.S. Highway 160 to junction Missouri Highway 19, thence along Missouri Highway 19 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Illinois-Missouri State line; (92) from Evansville, Ind., to points in New Jersey; (93) from Evansville, Ind., to points in New York on and east of a line beginning at Hale Eddy, N.Y., thence along New York Highway 17 to junction New York Highway 10, thence along New York Highway 10 to junction New York Highway 8, thence along New York Highway 8 to Utica, N.Y., thence along New York Highway 12 to Watertown, N.Y., thence along New York Highway 12E to a terminus at Cape Vincent, N.Y.; (94) from points in Indiana on, south, and east of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 24 to junction U.S. Highway 421, thence along U.S. Highway 421 to its terminus at Michigan City, Ind., to points in Oklahoma on and south of Interstate Highway 40; (95) from Evansville, Ind., to points in Pennsylvania on and east of a line beginning at Philadelphia, Pa., thence along Pennsylvania Highway 611 to a terminus at Stroudsburg, Pa.; (96) from points in Indiana on, north, and west of a line beginning at Michigan City, Ind., thence along U.S. Highway 12 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Indiana-Kentucky State line to Charleston, S.C.;

(97) From points in Indiana on, north, and west of a line beginning at the Illinois-Iowa State line extending along U.S. Highway 24 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Indiana Highway 10 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 421, thence along U.S. Highway 421 to its terminus at Michigan City, Ind., to points in Tennessee on, south, and west of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway Alternate 41, thence along U.S. Highway 41, thence along U.S. Highway 41 to the Georgia-Tennessee State line; (98) from Evansville, Ind., to points in Virginia on, east, and south of a line beginning at Reedville, Va., thence along U.S. Highway 360 to junction Virginia Highway 307, thence along Virginia Highway 307 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction U.S. Highway 221, thence along U.S. Highway 221 to junction U.S. Highway 52, thence along U.S. Highway 52 to the Virginia-North Carolina State line; (99) from Evansville, Ind., to points in Wisconsin on and north of a line beginning at the

Wisconsin-Minnesota State line extending along U.S. Highway 8 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Wisconsin Highway 77, thence along Wisconsin Highway 77 to a terminus at Hurley, Wis.; (100) from points in Kansas on, north, and east of a line beginning at the Kansas-Colorado State line extending along U.S. Highway 50 to junction U.S. Highway 154, thence along U.S. Highway 154 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line to points in Alabama; (101) from Narka, Kans., and points in Kansas on and north of a line beginning at the Colorado-Kansas State line extending along U.S. Highway 36 to junction U.S. Highway 183, thence along U.S. Highway 183 to the Kansas-Nebraska State line to Blytheville, Ark.;

(102) From points in Kansas on and west on U.S. Highway 81 to Cairo and Brookport, Ill.; (103) from points in Kansas on, south, and west of a line beginning at the Kansas-Colorado State line extending along Kansas Highway 96 to Tribune, Kans., thence along Kansas Highway 27 to junction U.S. Highway 50, thence along U.S. Highway 50 to Dodge City, Kans., thence along U.S. Highway 154 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line to points in Indiana on, south, and east of a line beginning at the Indiana-Ohio State line extending along Indiana Highway 37 to Indianapolis, Ind., thence along Indiana Highway 67 to junction U.S. Highway 41, thence along U.S. Highway 41 to a terminus at Vincennes, Ind.; (104) from Narka, Kans., and points in Kansas on, south, and west of a line beginning at the Nebraska-Kansas State line extending along U.S. Highway 81 to Wichita, Kans., thence along U.S. Highway 54 to junction Kansas Highway 96, thence along U.S. Highway 96 to the Kansas-Missouri State line to points in Kentucky on and east of U.S. Highway 45; (105) from points in Kansas on and north on Interstate Highway 70 to Bogalusa, La.; (106) from Liberal and Arkansas City, Kans., to points in the Upper Peninsula of Michigan on and east of Interstate Highway 75, and points in the Lower Peninsula of Michigan on, north, and east of a line beginning at St. Joseph, Mich., thence along U.S. Highway 33 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Michigan Highway 66, thence along Michigan Highway 66 to the Indiana-Michigan State line; (107) from points in Kansas on and north of a line beginning at the Kansas-Colorado State line extending along Kansas Highway 96 to Wichita, Kans., thence along U.S. Highway 81 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Kansas-Missouri State line to points in Mississippi on and east of a line beginning at Gulfport, Miss., thence along U.S. Highway 90 to junction Mississippi Highway 63, thence along Mississippi Highway 63 to junction U.S. Highway 45, thence along U.S. Highway

45 to the Mississippi-Tennessee State line;

18 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Iowa Highway 5, thence along Iowa Highway

Highway 333 to Intracoastal, La., to points in Virginia; (124) from New Orleans, La., to Reynolds Store, Monterey,

along Mississippi Highway 6 to junction U.S. Highway 45, thence along U.S. Highway 45 to the Mississippi-Tennessee

along Kansas Highway 96 to junction Kansas Highway 27, thence along Kansas Highway 27 to junction U.S. Highway

of Interstate Highway 75 to points in Texas; (146) from points in the Upper Peninsula of Michigan on and north of a

45 to the Mississippi-Tennessee State line;

(108) From points in Kansas on and west of Kansas Highway 27 to Cape Girardeau and Sikeston, Mo.; (109) from points in Kansas on, south, and west of a line beginning at Kansas City, Kans., thence along U.S. Highway 40 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Kansas-Nebraska State line to points in New York; (110) from points in Kansas on, south, and west of a line beginning at the Kansas-Colorado State line extending along U.S. Highway 36 to junction Kansas Highway 27, thence along Kansas Highway 27 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 166, thence along U.S. Highway 166 to the Kansas-Missouri State line to points in Ohio on, south, and east of a line beginning at Cleveland, Ohio, thence along Ohio Highway 21 to junction Interstate Highway 77, thence along Interstate Highway 77 to junction U.S. Highway 22, thence along U.S. Highway 22 to its terminus at Cincinnati, Ohio; (111) from points in Kansas to points in Pennsylvania on and east of a line beginning at the Pennsylvania-West Virginia State line extending along U.S. Highway 119 to junction U.S. Highway 219, thence along U.S. Highway 219 to the New York-Pennsylvania State line; (112) from points in Kansas to points in Tennessee on and east of a line beginning at the Alabama-Tennessee State line extending along Tennessee Highway 13 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Tennessee Highway 69, thence along Tennessee Highway 69 to the Tennessee-Kentucky State line; (113) from points in Kansas to points in West Virginia on, south, and east of a line beginning at Parkersburg, W. Va., thence along U.S. Highway 50 to junction U.S. Highway 19, thence along U.S. Highway 19 to the West Virginia-Pennsylvania State line; (114) from Ida, La., to Rossville and Blairsville, Ga.; (115) from points in Louisiana on, south, and east of a line beginning at the Arkansas-Louisiana State line extending along U.S. Highway 165 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Louisiana Highway 6, thence along Louisiana Highway 6 to the Louisiana-Texas State line to points in Illinois;

(116) From Delta and Vidalia, La., and points in Louisiana on, south, and east of a line beginning at the Louisiana-Mississippi State line extending along U.S. Highway 61 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction Louisiana Highway 82, thence along Louisiana Highway 82 to junction Louisiana Highway 333, thence along Louisiana Highway 333 to its terminus at Intracoastal, La., to points in Iowa on, north, and east of a line beginning at the Iowa-Minnesota State line extending along Iowa Highway 4 to junction U.S. Highway 18, thence along U.S. Highway

18 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Iowa Highway 5, thence along Iowa Highway 5 to the Iowa-Missouri State line; (117) from Bogalusa, La., to points in Kansas on, north, and east of a line beginning at the Colorado-Kansas State line extending along U.S. Highway 36 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 40, thence along U.S. Highway 40 to a terminus at Kansas City, Kans.; (118) from New Orleans, La., to points in Kentucky on, north, and west of a line beginning at Jenkins, Ky., thence along U.S. Highway 119 to junction Kentucky Highway 15, thence along Kentucky Highway 15 to junction Kentucky Highway 80, thence along Kentucky Highway 80 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Kentucky-Tennessee State line; (119) from points in Louisiana to Annapolis, Md., and points in Maryland on, north, and east of a line beginning at the Maryland-West Virginia State line extending along U.S. Highway 340 to junction U.S. Highway 40, thence along U.S. Highway 40 to Baltimore, Md., thence along Maryland Highway 2 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Maryland Highway 404, thence along Maryland Highway 404 to the Delaware-Maryland State line;

(120) From points in Louisiana on, east, and south of a line beginning at the Louisiana-Mississippi State line extending along Louisiana Highway 131 to junction Louisiana Highway 15, thence along Louisiana Highway 15 to junction Louisiana Highway 1, thence along Louisiana Highway 1 to junction Louisiana Highway 20, thence along Louisiana Highway 20 to junction U.S. Highway 90, thence along U.S. Highway 90 to junction Louisiana Highway 14 at or near Lake Charles, La., thence along Louisiana Highway 14 to junction Louisiana Highway 27, thence along Louisiana Highway 27 to the terminus at Creole, La., to points in Missouri on, north, and east of a line beginning at the Missouri-Iowa State line extending along U.S. Highway 63 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction Interstate Highway 55, thence along Interstate Highway 55 to junction U.S. Highway 61, thence along U.S. Highway 61 to a terminus at or near Cape Girardeau, Mo.; (121) from Ida, La., to East Greenville, Columbia, and Charleston, S.C.; (122) from points in Louisiana to Clarksville, Tenn.; (123) from Millikin, La., and points in Louisiana on and west of a line beginning at the Louisiana-Arkansas State line extending along Louisiana Highway 17 to junction Louisiana Highway 2, thence along Louisiana Highway 2 to junction U.S. Highway 165, thence along U.S. Highway 165 to Alexandria, La., thence along U.S. Highway 167 to junction Louisiana Highway 13, thence along Louisiana Highway 13 to junction Louisiana Highway 14, thence along Louisiana Highway 14 to Abbeville, La., thence along Louisiana Highway 82 to Esther, La., thence along Louisiana

Highway 333 to Intracoastal, La., to points in Virginia; (124) from New Orleans, La., to Reynolds Store, Monterey, and Winchester, Va.; (125) from points in Louisiana to points in West Virginia on and north of a line beginning at the Ohio-West Virginia State line extending along U.S. Highway 119 to junction West Virginia Highway 10, thence along West Virginia Highway 16, thence along West Virginia Highway 16 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction West Virginia Highway 39, thence along West Virginia Highway 39 to the West Virginia-Virginia State line;

(126) From points in Maryland to points in Illinois on and south of a line beginning at Chester, Ill., thence along Illinois Highway 150 to junction Illinois Highway 154, thence along Illinois Highway 154 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction Illinois Highway 141, thence along Illinois Highway 141 to the Illinois-Indiana State line; (127) from Annapolis, Md., and points in Maryland bounded on the north by a line beginning at the Delaware-Maryland State line extending along Maryland Highway 404 to junction U.S. Highway 50, thence along U.S. Highway 50 to a terminus at Chesapeake Bay and bounded on the west by the Chesapeake Bay and bounded on the south by Virginia, and bounded on the east by Delaware and the Atlantic Ocean to Evansville, Ind.; (128) from Newburg, Md., to points in Iowa on, south, and west of a line beginning at Sioux City, Iowa, thence along U.S. Highway 71, thence along U.S. Highway 71 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Iowa Highway 5, thence along Iowa Highway 5 to the Iowa-Missouri State line; (129) from points in Maryland to points in Kentucky on, south, and west of a line beginning at Paducah, Ky., thence along U.S. Highway 62 to junction U.S. Highway 68, thence along U.S. Highway 68 to Hopkinsville, Ky., thence along U.S. Highway 41A to the Kentucky-Tennessee State line; (130) from Annapolis, Md., and points in Maryland on, north, and east of a line beginning at or near Washington, D.C., on U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 13, thence along U.S. Highway 13 to the Maryland-Delaware State line to points in Louisiana;

(131) From points in Maryland to points in Mississippi on, north, and west of a line beginning at Natchez, Miss., thence along U.S. Highway 61 to junction Mississippi Highway 18, thence along Mississippi Highway 18 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Natchez Trace National Parkway, thence along the Natchez Trace National Parkway to junction Mississippi Highway 6, thence

along Mississippi Highway 6 to junction U.S. Highway 45, thence along U.S. Highway 45 to the Mississippi-Tennessee State line; (132) from points in Maryland on and east of Interstate Highway 81 to points in Missouri on, south, and west of a line beginning at Cape Girardeau, Mo., thence along Missouri Highway 72 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Missouri-Iowa State line; (133) from points in Maryland to points in Tennessee on and west of a line beginning at the Tennessee-Mississippi State line extending along Tennessee Highway 18 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction U.S. Highway 45E, thence along U.S. Highway 45E to junction U.S. Highway 79, thence along U.S. Highway 79 to junction U.S. Highway 641, thence along U.S. Highway 641 to the Tennessee-Kentucky State line (except Memphis and Woodstock, Tenn.); (134) from points in Michigan to points in Alabama on, south, and west of a line beginning at the Alabama-Tennessee State line extending along Alabama Highway 17 to junction Alabama Highway 20, thence along Alabama Highway 20 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction U.S. Highway 84, thence along U.S. Highway 84 to the Alabama-Georgia State line;

(135) from points in Michigan to points in Arkansas on, south, and east of a line beginning at the Arkansas-Oklahoma State line extending along Interstate Highway 40 to junction Arkansas Highway 7, thence along Arkansas Highway 7 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction Arkansas Highway 201, thence along Arkansas Highway 201 to the Arkansas-Missouri State line; (136) from points in the Upper Peninsula of Michigan to points in Georgia, (137) from points in Michigan to Brookport and Cairo, Ill.; (138) from Ironwood, Mich., to Evansville, Ind.; (139) from Traverse City, Mich., and points in Michigan on and east of a line beginning at Alpena, Mich., thence along Michigan Highway 32 to junction Interstate Highway 75, thence along Interstate Highway 75 to junction Business Route Interstate Highway 75, thence along Business Route Interstate Highway 75 to junction Michigan Highway 72, thence along Michigan Highway 72 to junction Michigan Highway 33, thence along Michigan Highway 33 to junction Michigan Highway 76, thence along Michigan Highway 76 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Michigan Highway 66, thence along Michigan Highway 66 to the Indiana-Michigan State line to points in Kansas on and south of a line beginning at the Colorado-Kansas State line extending

along Kansas Highway 96 to junction Kansas Highway 27, thence along Kansas Highway 27 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 154, thence along U.S. Highway 154 to junction U.S. Highway 54, thence along U.S. Highway 54 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 166, thence along U.S. Highway 166 to the Kansas-Missouri State line;

(140) From points in Michigan to points in Kentucky on and west of a line beginning at Calvert City, Ky., thence along Kentucky Highway 282 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction U.S. Highway 641, thence along U.S. Highway 641 to the Kentucky-Tennessee State line; (141) from points in Michigan to points in Missouri on and south of a line beginning at Cape Girardeau, Mo., thence along U.S. Highway 61 to Sikeston, Mo., thence along U.S. Highway 60 to Poplar Bluff, Mo., thence along U.S. Highway 160 to West Plains, Mo., thence along Missouri Highway 17 to the Missouri-Arkansas State line; (142) from Grand Rapids, Mich., and points in the Upper Peninsula of Michigan on and east of Interstate Highway 75, and points in the Lower Peninsula of Michigan on, north, and east of a line beginning at the Michigan-Indiana State line extending along Michigan Highway 66 to junction Michigan Highway 21, thence along Michigan Highway 21 to junction Interstate Highway 96, thence along Interstate Highway 96 to junction Michigan Highway 104, thence along Michigan Highway 104 to its terminus at Ferrysburg, Mich., to points in Oklahoma; (143) from points in the Upper Michigan on, north, and west of a line beginning at Menominee, Mich., thence along Michigan Highway 35 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction Michigan Highway 171, thence along Michigan Highway 171 to junction Michigan Highway 28, thence along Michigan Highway 28 to junction Interstate Highway 75, thence along Interstate Highway 75 to the terminus at Sault Ste. Marie to Charleston, S.C.; (144) from points in Michigan on, north, and west of a line beginning at St. Joseph, Mich., thence along U.S. Highway 33 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Michigan Highway 21, thence along Michigan Highway 21 to junction U.S. Highway 131, thence along U.S. Highway 131 to junction Michigan Highway 55, thence along Michigan Highway 55 to its terminus at Tawas City, Mich., to points in Tennessee, on and west of a line beginning at the Georgia-Tennessee State line extending along U.S. Highway 41 to junction U.S. Highway 41A, thence along U.S. Highway 41A to the Tennessee-Kentucky State line (except Woodstock, Nashville, and Memphis, Tenn.);

(145) From points in the Lower Peninsula of Michigan and points in the Upper Peninsula of Michigan on and east

of Interstate Highway 75 to points in Texas; (146) from points in the Upper Peninsula of Michigan on and north of a line beginning at Marquette, Mich., thence along Michigan Highway 28 to junction U.S. Highway 2, thence along U.S. Highway 2 to the Michigan-Wisconsin State line to Bristol, Va.; (147) from Springfield, Mo., and points in Missouri on and north of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 60 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction Missouri Highway 72, thence along Missouri Highway 72 to junction Missouri Highway 32, thence along Missouri Highway 32 to junction Interstate Highway 44, thence along Interstate Highway 44 to the Missouri-Oklahoma State line to points in Alabama on and east of U.S. Highway 43; (148) from Anson, Hannibal, and St. Louis, Mo., to Readland, Ark.; (149) from points in Missouri on, south, and west of a line beginning at the Iowa-Missouri State line extending along U.S. Highway 63 to junction Missouri Highway 22, thence along Missouri Highway 22 to junction Missouri Highway 19, thence along Missouri Highway 19 to junction U.S. Highway 54, thence along U.S. Highway 54 to a terminus at Louisiana, Mo., to points in Connecticut; (150) from St. Joseph, Mo., and points in Missouri on and south of U.S. Highway 40 to points in Delaware; (151) from points in Missouri to points in Florida on and east of U.S. Highway 231; (152) from points in Missouri on, south, and east of a line beginning at the Missouri-Arkansas State line extending along U.S. Highway 67 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Missouri-Illinois State line to the point of Waukegan, Ill., and points in Illinois on and east of a line beginning at the Illinois-Indiana State line extending along Interstate Highway 74 to junction Illinois Highway 1, thence along Illinois Highway 1 to and including Chicago, Ill.;

(153) From Sikeston, Mo., and points in Missouri on, south, and east of a line beginning at the Arkansas-Missouri State line extending along Missouri Highway 17 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Illinois-Missouri State line to points in Indiana on and east of a line beginning at Evansville, Ind., thence along U.S. Highway 41 to junction Indiana Highway 441, thence along Indiana Highway 441 to its terminus at Vincennes, Ind.; (154) from Sikeston, Mo., to points in Iowa on, north, and west of a line beginning at the Iowa-Minnesota State line extending along Iowa Highway 4 to junction Iowa Highway 9, thence along Iowa Highway 9 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 73, thence along U.S. Highway 73 to a terminus at Council Bluffs, Iowa; (155) from points in Missouri on and east of a line beginning at Cape Girardeau, Mo., thence along

U.S. Highway 61 to a terminus at New

23 to junction U.S. Highway 10, thence

Bethel, Tenn., and points in Tennessee

Nebraska-Iowa State line to points in

thence along U.S. Highway 60 to junction

a line beginning at the Maryland-Penn-

U.S. Highway 61 to a terminus at New Madrid, Mo., to points in Kansas on and west of a line beginning at the Oklahoma-Kansas State line extending along U.S. Highway 270 to Syracuse, Kans., thence along Kansas Highway 27 to the Kansas-Nebraska State line; (156) from points in Missouri on, south, and west of a line beginning at the Kansas-Missouri State line extending along U.S. Highway 66 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 63, thence along U.S. Highway 63 to the Arkansas-Missouri State line to points in Kentucky on, north, and east of a line beginning at Paducah, Ky., thence along U.S. Highway 62 to junction U.S. Highway 68, thence along U.S. Highway 68 to junction U.S. Highway 41A, thence along U.S. Highway 41A to the Kentucky-Tennessee State line.

(157) From points in Missouri on, north, and east of a line beginning at the Missouri-Kansas State line extending along U.S. Highway 36 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 72, thence along Missouri Highway 72 to junction Missouri Highway 25, thence along Missouri Highway 25 to junction Missouri Highway 77, thence along Missouri Highway 77 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Missouri-Kentucky State line to points in Louisiana on and southeast of a line beginning at the Louisiana-Mississippi State line extending along Louisiana Highway 10 to junction Louisiana Highway 21, thence along Louisiana Highway 21 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction Lake Pontchartrain Causeway, thence along Lake Pontchartrain Causeway to junction Interstate Highway 10, thence along Interstate Highway 10 to junction U.S. Highway 90, thence along U.S. Highway 90 to a terminus at Houma, La.; (158) from points in Missouri on, south, and west of a line beginning at Kansas City, Mo., thence along U.S. Highway 40 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 68, thence along Missouri Highway 68 to junction Missouri Highway 8, thence along Missouri Highway 8 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Missouri Highway 32, thence along Missouri Highway 32 to Ste. Genevieve, Mo., to points in Maryland;

(159) From points in Missouri on and south of a line beginning at the Missouri-Kansas State line extending along U.S. Highway 66 to Springfield, Mo., thence along U.S. Highway 60 to junction Missouri Highway 34, thence along Missouri Highway 34 to junction Missouri Highway 72, thence along Missouri Highway 72 to junction U.S. Highway 61, thence along U.S. Highway 61 to Cape Girardeau, Mo., to points in the Lower Peninsula of Michigan on, east, and north of a line beginning at the Michigan-Ohio State line extending along U.S. Highway

23 to junction U.S. Highway 10, thence along U.S. Highway 10 to a terminus at Ludington, Mich., and points in the Upper Peninsula of Michigan on, north, and east of a line beginning at Marquette, Mich., thence along Michigan Highway 28 to junction Interstate Highway 75, thence along Interstate Highway 75 to the Mackinaw City-St. Ignace Bridge; (160) from Anson and Hannibal, Mo., to points in Mississippi; (161) from St. Joseph, Mo., and points in Missouri on and south of U.S. Highway 40 to points in New Jersey; (162) from points in Missouri on and south of U.S. Highway 40 to points in New York on, north, and east of a line beginning at Cape Vincent, N.Y., thence along New York Highway 12E to junction New York Highway 12, thence along New York Highway 12 to Utica, N.Y., thence along New York Highway 8 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 79, thence along New York Highway 79 to the Pennsylvania-New York State line; (163) from points in Missouri on and south of a line beginning at the Kansas-Missouri State line extending along Missouri Highway 18 to junction Missouri Highway 7, thence along Missouri Highway 7 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Missouri Highway 8, thence along Missouri Highway 8 to junction Missouri Highway 32, thence along Missouri Highway 32 to a terminus at Ste. Genevieve, Mo., to points in Ohio on, south, and east of a line beginning at Cincinnati, Ohio, thence along U.S. Highway 22 to junction Interstate Highway 77, thence along Interstate Highway 77 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Ohio-Pennsylvania State line;

(164) From points in Missouri on, north, and east of a line beginning at Cape Girardeau, Mo., thence along U.S. Highway 61 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Illinois-Missouri State line to points in Oklahoma on, south, and west of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 54 to the Kansas-Oklahoma State line; (165) from points in Missouri on, south, and west of a line beginning at the Kansas-Missouri State line extending along Interstate Highway 70 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 72, thence along Missouri Highway 72 to junction U.S. Highway 61, thence along U.S. Highway 61 to a terminus at Cape Girardeau, Mo., to points in Pennsylvania on and east of a line beginning at the Maryland-Pennsylvania State line extending along U.S. Highway 11 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 15 to the New York-Pennsylvania State line; (166) from points in Missouri on, north, and west of a line beginning at the Arkansas-Missouri State line extending along U.S. Highway 67 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Missouri-Kentucky State line to

Bethel, Tenn., and points in Tennessee on and east of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 41A to junction U.S. Highway 31, thence along U.S. Highway 31 to the Tennessee-Alabama State line (except Memphis); (167) from Sikeston, Mo., and points in Missouri on and east of a line beginning at St. Louis, Mo., thence along Interstate Highway 55 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Missouri-Illinois State line to points in Texas on, south, and west of a line beginning at the Texas-New Mexico State line extending along Texas Highway 18 to Kermit, Tex., thence along Texas Highway 302 to Odessa, Tex., thence along U.S. Highway 385 to junction U.S. Highway 67, thence along U.S. Highway 67 to San Angelo, Tex., thence along U.S. Highway 87 to Brady, Tex., thence along U.S. Highway 190 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Texas Highway 7, thence along Texas Highway 7 to junction Texas Highway 103, thence along Texas Highway 103 to junction Texas Highway 21, thence along Texas Highway 21 to the Louisiana-Texas State line;

(168) From points in Missouri on and south of U.S. Highway 40 to points in Virginia; (169) from points in Missouri on and south of a line beginning at the Kansas-Missouri State line extending along U.S. Highway 66 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction Missouri Highway 34, thence along Missouri Highway 34 to junction Missouri Highway 72, thence along Missouri Highway 72 to junction U.S. Highway 61, thence along U.S. Highway 61 to Cape Girardeau, Mo., to points in West Virginia; (170) from Sikeston, Mo., and points in Missouri on, south, and west of a line beginning at the Missouri-Arkansas State line extending along Missouri Highway 17 to West Plains, Mo., thence along U.S. Highway 160 to Poplar Bluff, Mo., thence along U.S. Highway 60 to the Illinois-Missouri State line to points in Wisconsin on and east of a line beginning at Red Cliff, Wis., thence along Wisconsin Highway 13 to junction U.S. Highway 8, thence along U.S. Highway 8 to junction U.S. Highway 51, thence along U.S. Highway 51 to Wausau, Wis., thence along Wisconsin Highway 29 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Wisconsin Highway 57, thence along Wisconsin Highway 57 to Milwaukee, Wis., thence along Wisconsin Highway 32 to a terminus at Kenosha, Wis.; (171) from points in Nebraska on, west, and north of a line beginning at Omaha, Nebr., thence along Nebraska Highway 92 to junction Nebraska Highway 14, thence along Nebraska Highway 14 to the Nebraska-Kansas State line to points in Blytheville, Ark.; (172) from points in Nebraska on, south, and east of a line beginning at the Nebraska-South Dakota State line extending along U.S. Highway 385 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to the

Nebraska-Iowa State line to points in Delaware; (174) from points in Nebraska to Brookport and Cairo, Ill.; (175) from points in Nebraska to Jeffersonville, Ind., and point in Indiana on and south of a line beginning at Evansville, Ind., thence along U.S. Highway 460 to the Indiana-Kentucky State line;

(176) From points in Nebraska to Ashland, Ky., and points in Kentucky on and south of Interstate Highway 64; (177) from points in Nebraska on, north, and west of a line beginning at the Nebraska-Wyoming State line extending along U.S. Highway 30 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Nebraska-South Dakota State line to Delta, La., and points in Louisiana on and east of a line beginning at the Louisiana-Mississippi State line extending along U.S. Highway 61 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction Louisiana Highway 1, thence along Louisiana Highway 1 to junction Louisiana Highway 20, thence along Louisiana Highway 20 to junction Louisiana Highway 24, thence along Louisiana Highway 24 to a terminus at Houma, La.; (178) from points in Nebraska on, south, and west of a line beginning at the Nebraska-Wyoming State line extending along U.S. Highway 26 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Nebraska Highway 70, thence along Nebraska Highway 70 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction U.S. Highway 183, thence along U.S. Highway 183 to the Nebraska-Kansas State line to points in Maryland; (179) from points in Nebraska on, north, and west of a line beginning at the Nebraska-Wyoming State line extending along Nebraska Highway 92 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Nebraska-South Dakota State line to points in Mississippi.

(180) From points in Nebraska on, north, and west of a line beginning at the Nebraska-South Dakota State line extending along U.S. Highway 83 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction Nebraska Highway 71, thence along Nebraska Highway 71 to junction U.S. Highway 26, thence along U.S. Highway 26 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction Nebraska Highway 19, thence along Nebraska Highway 19 to the Nebraska-Colorado State line to points in Missouri on and south of a line beginning at Cape Girardeau, thence along Missouri Highway 74 to junction Missouri Highway 25, thence along Missouri Highway 25 to junction U.S. Highway 60,

thence along U.S. Highway 60 to junction U.S. Highway 67, thence along U.S. Highway 67 to the Missouri-Arkansas State line; (181) from Ansley, Nebr., and points in Nebraska on, south, and west of a line beginning at the Nebraska-Wyoming State line extending along Nebraska Highway 92 to junction Nebraska Highway 71, thence along Nebraska Highway 71 to junction U.S. Highway 26, thence along U.S. Highway 26 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Nebraska Highway 14, thence along Nebraska Highway 14 to the Kansas-Nebraska State line to points in New Jersey; (182) from points in Nebraska on, south, and west of a line beginning at the Colorado-Nebraska State line extending along Nebraska Highway 19 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Nebraska Highway 71, thence along Nebraska Highway 71 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to the Nebraska-Wyoming State line to points in New York on and east of a line beginning at Oswego, N.Y., thence along New York Highway 69, thence along New York Highway 69 to junction Interstate Highway 90, thence along Interstate Highway 90 to Utica, N.Y., thence along New York Highway 8 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 79, thence along New York Highway 79 to the New York-Pennsylvania State line;

(183) From points in Nebraska on and south of a line beginning at the Nebraska-Wyoming State line extending along U.S. Highway 26 to junction Nebraska Highway 61, thence along Nebraska Highway 61 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Nebraska Highway 14, thence along Nebraska Highway 14 to the Nebraska-Kansas State line to points in Ohio on and south of a line beginning at Cincinnati, Ohio, thence along U.S. Highway 50 to junction Ohio Highway 159, thence along Ohio Highway 159 to junction U.S. Highway 22, thence along U.S. Highway 22 to a terminus at Steubenville, Ohio; (184) from points in Nebraska on, south, and west of a line beginning at the Colorado-Nebraska State line extending along Nebraska Highway 19 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Nebraska Highway 71, thence along Nebraska Highway 71 to junction U.S. Highway 26, thence along U.S. Highway 26 to the Wyoming-Nebraska State line, and points in Nebraska on and south of a line beginning at the Colorado-Nebraska State line extending along U.S. Highway 34 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Nebraska Highway 14, thence along Nebraska Highway 14 to the Kansas-Nebraska State line to points in Pennsylvania on and east of

a line beginning at the Maryland-Pennsylvania State line extending along U.S. Highway 11 to junction U.S. Highway 15, thence along U.S. Highway 15 to the New York-Pennsylvania State line; (185) from points in Nebraska to points in Tennessee on, north, and east of a line beginning at the Mississippi-Tennessee State line extending along U.S. Highway 45 to junction Tennessee Highway 20, thence along Tennessee Highway 20 to its terminus at the Mississippi River (except Memphis);

(186) From points in Nebraska to points in Virginia on and south of a line beginning at the West Virginia-Virginia State line extending along U.S. Highway 250 to junction Virginia Highway 20, thence along Virginia Highway 20 to junction Virginia Highway 3, thence along Virginia Highway 3 to junction U.S. Highway 301, thence along U.S. Highway 301 to the Virginia-Maryland State line; (187) from points in Nebraska to points in West Virginia on and south of a line beginning at the Kentucky-West Virginia State line extending along U.S. Highway 60 to junction West Virginia Highway 16, thence along West Virginia Highway 16 to junction West Virginia Highway 39, thence along West Virginia Highway 39 to the West Virginia-Virginia State line; (188) from points in Nebraska on, south, and west of a line beginning at the South Dakota-Nebraska State line extending along U.S. Highway 83 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 275, thence along U.S. Highway 275 to junction Nebraska Highway 14, thence along Nebraska Highway 14 to junction Nebraska Highway 39, thence along Nebraska Highway 39 to junction Nebraska Highway 22, thence along Nebraska Highway 22 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction Nebraska Highway 15, thence along Nebraska Highway 15 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to the Nebraska-Iowa State line to Graham, W. Va.; (189) from points in New Jersey on and north of a line beginning at the New Jersey-Pennsylvania State line extending along U.S. Highway Alternate 22 to junction Interstate Highway 78, thence along Interstate Highway 78 to junction Interstate Highway 287, thence along Interstate Highway 287 to junction U.S. Highway 9, thence along U.S. Highway 9 to a terminus at South Amboy, N.J., to points in Alabama on and west of a line beginning at the Tennessee-Alabama State line extending along U.S. Highway 43 to a terminus at Mobile, Ala.;

(190) From Montague, N.J., to Pensacola Fla.; (191) from points in New Jersey to points in Illinois on and south of a line beginning at Chester, Ill., thence along Illinois Highway 3 to junction Illinois Highway 149, thence along Illinois Highway 149 to junction Illinois

Highway 13, thence along Illinois Highway 13 to junction U.S. Highway 45,

Highway 149, thence along Illinois Highway 149 to junction Illinois Highway 13,

Highway Alternate 41 to junction U.S. Highway 31, thence along U.S. Highway

Kansas-Missouri State line; (213) from points in Ohio to points in Kentucky on

to junction U.S. Highway 119, thence along U.S. Highway 119 to junction

kansas Highway 14, thence along Arkansas Highway 14 to junction Arkansas

Highway 13, thence along Illinois Highway 13 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 141, thence along Illinois Highway 141 to the Illinois-Indiana State line; (192) from points in New Jersey to Evansville, Ind.; (193) from points in New Jersey to Payne, Iowa; (194) from points in New Jersey to points in Kentucky on and west of a line beginning at the Kentucky-Illinois State line extending along Kentucky Highway 91 to junction U.S. Highway 68, thence along U.S. Highway 68 to junction U.S. Alternate Highway 41, thence along U.S. Alternate Highway 41 to the Kentucky-Tennessee State line; (195) from points in New Jersey to points in Missouri on, south, and west of a line beginning at St. Joseph, Mo., thence along Interstate Highway 29 to Kansas City, Mo., thence along Interstate Highway 70 to St. Louis, Mo.; (196) from points in New Jersey on and north of a line beginning at South Amboy, N.J., thence along New Jersey Highway 35 to junction Interstate Highway 287, thence along Interstate Highway 287 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction Interstate Highway 78, thence along Interstate Highway 78 to the New Jersey-Pennsylvania State line to points in Tennessee on and west of a line beginning at the Alabama-Tennessee State line extending along U.S. Highway 31 to junction U.S. Highway 41, thence along U.S. Highway 41 to the Tennessee-Kentucky State line (except Woodstock, Nashville, and Memphis); (197) from points in New York to points in Alabama on and west of a line beginning at the Alabama-Tennessee State line extending along Alabama Highway 17 to the terminus at Mobile Ala.; (198) from points in New York on, north, and west of a line beginning at the New York-Pennsylvania State line extending along U.S. Highway 62 to junction U.S. Highway Alternate 20, thence along U.S. Highway Alternate 20 to junction New York Highway 98, thence along New York Highway 98 to junction New York Highway 33, thence along New York Highway 33 to junction Interstate Highway 490, thence along Interstate Highway 490 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction New York Highway 12, thence along New York Highway 12 to junction New York Highway 28, thence along New York Highway 28 to junction New York Highway 30, thence along New York Highway 30 to junction New York Highway 3, thence along New York Highway 3 to the terminus at Plattsburgh, N.Y., to points in Florida on and west of a line beginning at Panama City, Fla., thence along U.S. Highway 231 to the Florida-Alabama State line; (199) from points in New York on and north of a line beginning at Buffalo, N.Y., thence along New York Highway 33 to its terminus at Rochester, N.Y., to Columbus, Ga.; (200) from points in New York to points in Illinois on and south of a line beginning at Chester, Ill., thence along Illinois Highway 3 to junction Illinois

Highway 149, thence along Illinois Highway 149 to junction Illinois Highway 13, thence along Illinois Highway 13 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 141, thence along Illinois Highway 141 to its terminus at the Illinois-Indiana State line; (201) from points in New York on, east, and south of a line beginning at Ogdensburg, N.Y., thence along New York Highway 68 to junction New York Highway 56, thence along New York Highway 56 to junction New York Highway 3, thence along New York Highway 3 to junction New York Highway 30, thence along New York Highway 30 to junction New York Highway 8, thence along New York Highway 8 to junction New York Highway 17, thence along New York Highway 17 to a terminus at Hale Eddy, N.Y., to Evansville, Ind.; (202) from points in New York on and south of a line beginning at the New York-New Jersey State line extending along U.S. Highway 9W to junction Interstate Highway 287, thence along Interstate Highway 287 to junction Interstate Highway 95, thence along Interstate Highway 95 to a terminus at Port Chester, N.Y., to points in Iowa on, south, and west of a line beginning at the Iowa-Nebraska State line extending along Iowa Highway 2 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Iowa-Missouri State line; (203) from points in New York to points in Kansas on, south, and west of a line beginning at the Kansas-Nebraska State line extending along U.S. Highway 287 to junction Kansas Highway 9, thence along Kansas Highway 9 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Interstate Highway 70, thence along Interstate Highway 70 to the Kansas-Missouri State line; (204) from points in New York to points in Kentucky on and west of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 41A, to Hopkinsville, Ky., thence along Kentucky Highway 91 to its terminus at the Kentucky-Illinois State line; (205) from points in New York to points in Missouri on, south, and west of a line beginning at Kansas City, Mo., thence along U.S. Highway 71 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 68, thence along Missouri Highway 68 to junction Missouri Highway 8, thence along Missouri Highway 8 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Missouri Highway 32, thence along Missouri Highway 32 to a terminus at Ste. Genevieve, Mo.; (206) from points in New York on, north, and east of a line beginning at Buffalo, N.Y., thence along New York Highway 33 to Rochester, N.Y., thence along Interstate Highway 490 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction Interstate Highway 81, thence along Interstate Highway 81 to the New York-Pennsylvania State line to points in Tennessee on and west of a line beginning at the Tennessee-Kentucky State line extending along U.S.

Highway Alternate 41 to junction U.S. Highway 31, thence along U.S. Highway 31 to the Tennessee-Alabama State line (except Woodstock, Nashville, and Memphis, Tenn.);

(207) From points in Ohio on and north of a line beginning at Union City, Ohio, thence along Ohio Highway 47 to junction Ohio Highway 4, thence along Ohio Highway 4 to junction U.S. Highway 30S, thence along U.S. Highway 30S to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Ohio Highway 43, thence along Ohio Highway 43 to junction U.S. Highway 22, thence along U.S. Highway 22 to the Ohio-West Virginia State line to points in Alabama-Tennessee State line extending along U.S. Highway 43 to junction U.S. Highway 78, thence along U.S. Highway 78 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction U.S. Highway 82, thence along U.S. Highway 82 to Montgomery, Ala., thence along U.S. Highway 331 to the Alabama-Florida State line; (208) from points in Ohio on and north of U.S. Highway 40 to points in Florida on and west of U.S. Highway 231; (209) from Van Wert, Ohio, and points in Ohio on and north of a line beginning at the Ohio-Indiana State line extending along U.S. Highway 224 to junction Ohio Highway 18, thence along Ohio Highway 18 to junction Interstate Highway 76, thence along Interstate Highway 76 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Interstate Highway 605, thence along Interstate Highway 605 to junction U.S. Highway 422, thence along U.S. Highway 422 to the Ohio-Pennsylvania State line to Faceville, Ga.; (210) from points in Ohio on and southwest of a line beginning at Cincinnati, Ohio, thence along U.S. Highway 42 to junction U.S. Highway 68, thence along U.S. Highway 68 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Ohio Highway 3, thence along Ohio Highway 3 to a terminus at Cleveland, Ohio, to points in Illinois on and west of a line beginning at the Illinois-Kentucky State line extending along U.S. Highway 45 to junction Illinois Highway 146, thence along Illinois Highway 146 to junction Illinois Highway 3, thence along Illinois Highway 3 to a terminus at Chester, Ill.;

(211) From Chesapeake, Ohio, to points in Iowa on, south, and west of a line beginning at Sioux City, Iowa, thence along Interstate Highway 29 to Council Bluffs, Iowa, thence along U.S. Highway 275 to junction Iowa Highway 2, thence along Iowa Highway 2 to Centerville, Iowa, thence along Iowa Highway 5 to the Iowa-Missouri State line; (212) from points in Ohio on, south, and east of a line beginning at Cincinnati, Ohio, thence along U.S. Highway 22 to the Ohio-West Virginia State line to points in Kansas on, south, and west of a line beginning at the Nebraska-Kansas State line extending along U.S. Highway 283 to junction Kansas Highway 9, thence along Kansas Highway 9 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Interstate Highway 70, thence along Interstate Highway 70 to the

Kansas-Missouri State line; (213) from points in Ohio to points in Kentucky on and west of a line beginning at the Illinois-Kentucky State line extending along Kentucky Highway 91 to junction Kentucky Highway 139, thence along Kentucky Highway 139 to the Kentucky-Tennessee State line; (214) from points in Ohio on, south, and east of a line beginning at the Ohio-Michigan State line extending along U.S. Highway 25 to junction Ohio Highway 15, thence along Ohio Highway 15 to junction U.S. Highway 68, thence along U.S. Highway 68 to junction Ohio Highway 72, thence along Ohio Highway 72 to junction Ohio Highway 28, thence along Ohio Highway 28 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Ohio-Indiana State line to points in Missouri on and south of a line beginning at the Missouri-Kansas State line extending along U.S. Highway 66 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction Missouri Highway 34, thence along Missouri Highway 34 to junction Missouri Highway 72, thence along Missouri Highway 72 to junction U.S. Highway 61, thence along U.S. Highway 61 to a terminus at Cape Girardeau, Mo.;

(215) From points in Tennessee on and west of a line beginning at the Mississippi-Tennessee State line extending along U.S. Highway 45 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Tennessee Highway 22, thence along Tennessee Highway 22 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction U.S. Highway 641, thence along U.S. Highway 641 to the Tennessee-Kentucky State line to points in Ohio; (216) from points in Pennsylvania on, north, and west of a line beginning at the Pennsylvania-New York State line extending along U.S. Highway 219 to junction U.S. Highway 119, thence along U.S. Highway 119 to junction Pennsylvania Highway 36, thence along Pennsylvania Highway 36 to junction Pennsylvania Highway 536, thence along Pennsylvania Highway 536 to junction Pennsylvania Highway 28, thence along Pennsylvania Highway 28 to junction Pennsylvania Highway 8, thence along Pennsylvania Highway 8 to junction Pennsylvania Highway 50, thence along Pennsylvania Highway 50 to junction U.S. Highway 22, thence along U.S. Highway 22 to the Pennsylvania-Ohio State line to points in Alabama on and west of a line beginning at the Alabama-Tennessee State line extending along U.S. Highway 43 to junction Alabama Highway 5, thence along Alabama Highway 5 to junction U.S. Highway 78, thence along U.S. Highway 78 to Birmingham, Ala., thence along U.S. Highway 31 to Montgomery, Ala., thence along U.S. Highway 331 to the Alabama-Florida State line; (217) from points in Pennsylvania on, north, and west of a line beginning at the Pennsylvania-West Virginia State line extending along U.S. Highway 119 to junction Pennsylvania Highway 982, thence along Pennsylvania Highway 982

to junction U.S. Highway 119, thence along U.S. Highway 119 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction Pennsylvania Highway 118, thence along Pennsylvania Highway 118 to junction Pennsylvania Highway 309, thence along Pennsylvania Highway 309 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Pennsylvania-New York State line to Pensacola, Fla.;

(218) From Cherry Hill, Pa., and points in Pennsylvania on and north of U.S. Highway 20 to points in Georgia on, south, and west of a line beginning at the Florida-Georgia State line extending along Georgia Highway 309 to Bainbridge, Ga., thence along Georgia Highway 253 to the Florida-Georgia State line; (219) from points in Pennsylvania to points in Illinois on and south of a line beginning at Chester, Ill., thence along Illinois Highway 3 to junction Illinois Highway 149, thence along Illinois Highway 149 to junction Illinois Highway 13, thence along Illinois Highway 13 to junction Illinois Highway 37, thence along Illinois Highway 37 to junction Illinois Highway 146, thence along Illinois Highway 146 to junction U.S. Highway 45, thence along U.S. Highway 45 to the Illinois-Kentucky State line; (220) from points in Pennsylvania on and east of a line beginning at the Pennsylvania-New York State line extending along U.S. Highway 209 to junction Pennsylvania Highway 611, thence along Pennsylvania Highway 611 to a terminus at or near Philadelphia, Mo., thence along Interstate Highway 70 to Columbia, Mo., thence along U.S. Highway 63 to junction Missouri Highway 68, thence along Missouri Highway 68 to junction Missouri Highway 8, thence along Missouri Highway 8 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Missouri Highway 32, thence along Missouri Highway 32 to the Missouri-Illinois State line; (225) from points in Pennsylvania to points in Tennessee on and west of a line beginning at the Mississippi-Tennessee State line extending along U.S. Highway 45 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Tennessee Highway 22, thence along Tennessee Highway 22 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction U.S. Highway 641, thence along U.S. Highway 641 to the Tennessee-Kentucky State line (except Memphis and Woodstock, Tenn.); (226) from points in South Carolina to points in Arkansas on, north, and west of a line beginning at the Oklahoma-Arkansas State line extending along U.S. Highway 70 to junction Arkansas Highway 7, thence along Arkansas Highway 7 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction Arkansas Highway 9, thence along Arkansas Highway 9 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction Arkansas Highway 27, thence along Arkansas Highway 27 to junction Ar-

kansas Highway 14, thence along Arkansas Highway 14 to junction Arkansas Highway 18, thence along Arkansas Highway 18 to its terminus on the Mississippi River at the Arkansas-Tennessee State line;

(227) From points in South Carolina on and south of a line beginning at the Georgia-South Carolina State line extending along U.S. Highway 27 to junction U.S. Highway 1, thence along U.S. Highway 1 to the South Carolina-North Carolina State line to points in Illinois; (228) from points in South Carolina on and south of U.S. Highway 78 to points in Indiana on, north, and west of a line beginning at the Indiana-Kentucky State line extending along U.S. Highway 41 to junction U.S. Highway 12, thence along U.S. Highway 12 to a terminus at Michigan City, Ind.; (229) from points in South Carolina on, south, and east of a line beginning at the North Carolina-South Carolina State line extending along U.S. Highway 17 to junction South Carolina Highway 90, thence along South Carolina Highway 90 to junction U.S. Highway 501, thence along U.S. Highway 501 to junction U.S. Highway 378, thence along U.S. Highway 378 to Columbia, S.C., thence along U.S. Highway 21 to junction U.S. Highway 17, thence along U.S. Highway 17 to the South Carolina-Georgia State line to points in Kentucky on, north, and west of a line beginning at Owensboro, Ky., thence along U.S. Highway 60 to junction Audubon Parkway, thence along Audubon Parkway to junction Pennsylvania Highway 68, thence along U.S. Highway 68 to junction U.S. Highway 641, thence along U.S. Highway 641 to the Kentucky-Tennessee State line; (230) from points in South Carolina on, north, and east of a line beginning at the Georgia-South Carolina State line extending along U.S. Highway 76 to Columbia, S.C., thence along U.S. Highway 176 to junction U.S. Highway 52, thence along U.S. Highway 52 to a terminus at Charleston, S.C., to Ida, La.; (231) from points in South Carolina on and south of U.S. Highway 78 to Sault St. Marie, Mich., and points in the Upper Peninsula of Michigan on and west of a line beginning at Menominee, Mich., thence along U.S. Highway 41 to a terminus at Marquette, Mich., and points in the Lower Peninsula of Michigan on and west of a line beginning at the Michigan-Illinois State line extending along Interstate Highway 94 to junction U.S. Highway 31, thence along U.S. Highway 31 to a terminus at Traverse City, Mich.;

(232) From points in Long Creek, Spartanburg, Ft. Mill, Wallace, and Little River, S.C., to Walls, Miss.; (233) from points in South Carolina to points in Texas on, north, and west of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 62 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Texas Highway 17, thence along Texas Highway 17 to junction U.S. Highway 67, thence along U.S. Highway

67 to its terminus at Presidio, Tex.; (234) from points in Texas on, north, and east of

west by a line beginning at the Alabama-Tennessee State line extending along

see on and east of a line beginning at the Tennessee-North Carolina State line ex-

nessee on and north of a line beginning

U.S. Highway 98, thence along U.S.

81 to junction U.S. Highway 83, thence

67 to its terminus at Presidio, Tex.; (234) from points in Tennessee on and east of a line beginning at the Tennessee-Kentucky State line extending along U.S. Highway 127 to junction Tennessee Highway 52, thence along Tennessee Highway 52 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction Tennessee Highway 63, thence along Tennessee Highway 63 to junction Interstate Highway 75, thence along Interstate Highway 75 to junction U.S. Highway 441, thence along U.S. Highway 441 to junction U.S. Highway 411, thence along U.S. Highway 411 to junction Interstate Highway 40, thence along Interstate Highway 40 to the Tennessee-North Carolina State line to points in Arkansas; (235) from points in Tennessee on and west of a line beginning at the Tennessee-Kentucky State line extending along U.S. Highway Alternate 41 to junction U.S. Highway 31, thence along U.S. Highway 31 to the Tennessee-Alabama State line to points in Connecticut; (236) from points in Tennessee on, west, and north of a line beginning at the Mississippi-Tennessee State line extending along Tennessee Highway 18 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Tennessee Highway 22, thence along Tennessee Highway 22 to junction U.S. Highway 79, thence along U.S. Highway 79 to the Tennessee-Kentucky State line to points in Delaware;

(237) From points in Tennessee on, north, and west of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 79 to junction Tennessee Highway 22, thence along Tennessee Highway 22 to junction U.S. Highway 70, thence along U.S. Highway 70 to Memphis, Tenn., to points in Florida on, south, and east of a line beginning at Cocoa, Fla., thence along U.S. Highway 1 to junction Florida Highway 70, thence along Florida Highway 70 to junction U.S. Highway 441, thence along U.S. Highway 441 to junction Florida Highway 78, thence along Florida Highway 78 to junction Florida Highway 29, thence along Florida Highway 29 to junction Florida Highway 80 to Ft. Myers, Fla.; (238) from points in Tennessee on, north, and west of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 641 to junction Tennessee Highway 54, thence along Tennessee Highway 54 to junction Tennessee Highway 104, thence along Tennessee Highway 104 to junction Tennessee Highway 20, thence along Tennessee Highway 20 to its terminus at Heloise, Tenn., to points in Georgia on and east of a line beginning at the Georgia-Florida State line extending along U.S. Highway 41 to junction U.S. Highway 221, thence along U.S. Highway 221 to junction U.S. Highway 441, thence along U.S. Highway 441 to junction U.S. Highway 280, thence along U.S. Highway 280 to junction U.S. Highway 1, thence along U.S. Highway 1 to a terminus at Augusta, Ga.; (239) from points in Tennessee in an area bounded on the

west by a line beginning at the Alabama-Tennessee State line extending along U.S. Highway 31 to Nashville, Tenn., thence along U.S. Highway 41 to the Georgia-Tennessee State line, and bounded on the south by the Alabama-Tennessee and Georgia-Tennessee State line to points in Illinois on, north, and west of a line beginning at the Illinois-Kentucky State line extending along U.S. Highway 45 to junction Illinois Highway 146, thence along Illinois Highway 146 to junction Illinois Highway 37, thence along Illinois Highway 37 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Interstate Highway 74, thence along Interstate Highway 74 to the Illinois-Indiana State line;

(240) From points in Tennessee on, south, and west of a line beginning at the Tennessee-Kentucky State line extending along U.S. Highway 641 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction U.S. Highway 41A, thence along U.S. Highway 41A to Nashville, Tenn., thence along U.S. Highway 41 to the Tennessee-Georgia State line to points in Indiana on, north, and west of a line beginning at the Indiana-Illinois State line extending along U.S. Highway 24 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Indiana-Michigan State line; (241) from points in Tennessee to points in Iowa on, north, and east of a line beginning at Council Bluffs, Iowa, thence along Iowa Highway 92 to junction Iowa Highway 25, thence along Iowa Highway 25 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Iowa-Missouri State line; (242) from points in Tennessee on and east of a line beginning at the Kentucky-Tennessee State line extending along Tennessee Highway 69 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Tennessee Highway 13, thence along Tennessee Highway 13 to the Tennessee-Alabama State line to points in Kansas; (243) from Clarksville, Tenn., to points in Louisiana; (244) from points in Tennessee on and west of a line beginning at the Tennessee-Mississippi State line extending along Tennessee Highway 18 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Tennessee Highway 22, thence along Tennessee Highway 22 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction U.S. Highway 641, thence along U.S. Highway 641 to the Tennessee-Kentucky State line to points in Maryland;

(245) From points in Tennessee on and west of a line beginning at the Tennessee-Kentucky State line extending along U.S. Highway 641 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction U.S. Highway 45E, thence along U.S. Highway 45E to junction U.S. Highway 45, thence along U.S. Highway 45 to the Tennessee-Mississippi State line to points in Michigan; (246) from Chanute, Tenn., and points in Tennessee

on and east of a line beginning at the Tennessee-North Carolina State line extending along Interstate Highway 40 to junction Tennessee Highway 32, thence along Tennessee Highway 32 to junction U.S. Highway 25E, thence along U.S. Highway 25E to the Tennessee-Kentucky State line to points in Mississippi on and west of a line beginning at the Mississippi-Tennessee State line extending along U.S. Highway 61 to junction U.S. Highway 82, thence along U.S. Highway 82 to the Mississippi-Arkansas State line; (247) from points in Tennessee on and east of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 41A to Nashville, Tenn., thence along U.S. Highway 31 to junction Tennessee Highway 11, thence along Tennessee Highway 11 to the Alabama-Tennessee State line to points in Missouri; (248) from points in Tennessee on and west of a line beginning at the Tennessee-Kentucky State line extending along U.S. Highway 41A to junction U.S. Highway 79, thence along U.S. Highway 79 to junction U.S. Highway 25E, thence along U.S. Highway 25E to junction U.S. Highway 45, thence along U.S. Highway 45 to the Tennessee-Mississippi State line to points in New Jersey; (249) from points in Tennessee on and west of a line beginning at the Tennessee-Kentucky State line extending along U.S. Highway 41A to junction Tennessee Highway 13, thence along Tennessee Highway 13 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction U.S. Highway 31, thence along U.S. Highway 31 to the Tennessee-Alabama State line to points in New York;

(250) From points in Tennessee on and west of a line beginning at the Tennessee-Kentucky State line extending along U.S. Highway 641 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction Tennessee Highway 22, thence along Tennessee Highway 22 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Tennessee Highway 18, thence along Tennessee Highway 18 to the Tennessee-Mississippi State line to points in Ohio; (251) from points in Tennessee on and east of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 41A to junction U.S. Highway 41, thence along U.S. Highway 41 to the Tennessee-Georgia State line to points in Oklahoma; (252) from points in Tennessee on and west of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 41A to junction U.S. Highway 31, thence along U.S. Highway 31 to junction U.S. Highway 43, thence along U.S. Highway 43 to the Alabama-Tennessee State line to points in Pennsylvania on, north, and east of a line beginning at the New York-Pennsylvania State line extending along U.S. Highway 15 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction Pennsylvania Highway 87, thence along Pennsylvania Highway 87 to junction U.S. Highway 6, thence along U.S. Highway 6 to a terminus at Matamoras, Pa.; (253) from points in Tennessee

on and north of a line beginning at the Tennessee-Kentucky State line extending along U.S. Highway 641 to junction Tennessee Highway 54, thence along Tennessee Highway 54 to junction Tennessee Highway 22, thence along Tennessee Highway 22 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Tennessee Highway 20, thence along Tennessee Highway 20 to the terminus at or near Heloise, Tenn., to points in Owen, Columbia, and Charleston, S.C.; (254) from points in Tennessee on and west of a line beginning at the Tennessee-Kentucky State line extending along Tennessee Highway 78 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Tennessee-Mississippi State line to points in Tennessee on, east, and north of a line beginning at the Tennessee-Kentucky State line extending along Interstate Highway 75 to junction U.S. Highway 441, thence along U.S. Highway 441 to junction U.S. Highway 25, thence along U.S. Highway 25 to the Tennessee-North Carolina State line;

(255) From points in Tennessee on, east, and north of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 41A to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Tennessee Highway 69, thence along Tennessee Highway 69 to its terminus at Port Arthur, Tex., to Lansing, Iowa, and points in Iowa on and east of a line beginning at Ft. Madison, Iowa, thence along U.S. Highway 61 to a terminus at Dubuque, Iowa; (262) from points in Texas to points in Kentucky on, north, and east of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 41A to junction Kentucky Highway 80, thence along Kentucky Highway 80 to junction Kentucky Highway 121, thence along Kentucky Highway 121 to a terminus at Wickliffe, Ky.; (263) from points in Texas to points in the Upper Peninsula of Michigan on and east of Interstate Highway 75 and points in the Lower Peninsula of Michigan; (264) from Texline, El Paso, and Presidio, Tex., to Corinth, Miss.; (265) From points in Texas on and south of a line beginning at El Paso, Tex., thence along U.S. Highway 80 to junction U.S. Highway 80 to junction U.S. Highway 290, thence along U.S. Highway 290 to Houston, Tex., thence along U.S. Highway 59 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction Texas Highway 87, thence along Texas Highway 87 to junction Texas Highway 21, thence along Texas Highway 21 to the Louisiana-Texas State line to points in Missouri on, north, and east of a line beginning at St. Louis, Mo., thence along Interstate Highway 55 to junction U.S. Highway 61 at or near Cape Girardeau, Mo., thence along U.S. Highway 61 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Illinois-Missouri State line; (266) from points in Texas on, north, and west of a line beginning at Texarkana, Tex., thence along U.S. Highway 67 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 81, thence along U.S. Highway

U.S. Highway 98, thence along U.S. Highway 98 to a terminus at St. Teresa, Fla.;

(259) From points in Texas on and west of a line beginning at Corpus Christi, Tex., thence along Interstate Highway 37 to junction Texas Highway 9, thence along Texas Highway 9 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Interstate Highway 30, thence along Interstate Highway 30 to junction U.S. Highway 82, thence along U.S. Highway 82 to the Texas-Arkansas State line to points of Rossville and Blairsville, Ga.; (260) from points in Texas on and south of a line beginning at Presidio, Tex., thence along U.S. Highway 67 to junction U.S. Highway 90, thence along U.S. Highway 90 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction U.S. Highway 96, thence along U.S. Highway 96 to junction Texas Highway 21, thence along Texas Highway 21 to the Texas-Louisiana State line to points in Illinois; (261) from points in Texas on and south of a line beginning at Del Rio, Tex., thence along U.S. Highway 90 to junction U.S. Highway 69, thence along U.S. Highway 69 to its terminus at Port Arthur, Tex., to Lansing, Iowa, and points in Iowa on and east of a line beginning at Ft. Madison, Iowa, thence along U.S. Highway 61 to a terminus at Dubuque, Iowa; (262) from points in Texas to points in Kentucky on, north, and east of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 41A to junction Kentucky Highway 80, thence along Kentucky Highway 80 to junction Kentucky Highway 121, thence along Kentucky Highway 121 to a terminus at Wickliffe, Ky.; (263) from points in Texas to points in the Upper Peninsula of Michigan on and east of Interstate Highway 75 and points in the Lower Peninsula of Michigan; (264) from Texline, El Paso, and Presidio, Tex., to Corinth, Miss.;

(265) From points in Texas on and south of a line beginning at El Paso, Tex., thence along U.S. Highway 80 to junction U.S. Highway 80 to junction U.S. Highway 290, thence along U.S. Highway 290 to Houston, Tex., thence along U.S. Highway 59 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction Texas Highway 87, thence along Texas Highway 87 to junction Texas Highway 21, thence along Texas Highway 21 to the Louisiana-Texas State line to points in Missouri on, north, and east of a line beginning at St. Louis, Mo., thence along Interstate Highway 55 to junction U.S. Highway 61 at or near Cape Girardeau, Mo., thence along U.S. Highway 61 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Illinois-Missouri State line; (266) from points in Texas on, north, and west of a line beginning at Texarkana, Tex., thence along U.S. Highway 67 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 81, thence along U.S. Highway

81 to junction U.S. Highway 83, thence along U.S. Highway 83 to its terminus at Brownsville, Tex., to points in Owen, Columbia, East Greenville, and Charleston, S.C.; (267) from points in Texas to points in Tennessee on, north, and east of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 41A to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Tennessee Highway 96, thence along Tennessee Highway 96 to junction U.S. Highway 70, thence along U.S. Highway 70 to the Tennessee-North Carolina State line; (268) from points in Texas on, south, and east of a line beginning at Texarkana, Tex., thence along Texas Highway 59 to Houston, Tex., thence along U.S. Highway 90 to a terminus at Del Rio, Tex., to points in Wisconsin on and east of U.S. Highway 53;

(269) From points in Virginia on and south of a line beginning at the Virginia-West Virginia State line extending along U.S. Highway 250 to junction Virginia Highway 20, thence along Virginia Highway 20 to junction Virginia Highway 3, thence along Virginia Highway 3 to junction U.S. Highway 301, thence along U.S. Highway 301 to the Virginia-Maryland State line to points in Illinois on and west of a line beginning at Alton, Ill., thence along Illinois Highway 3 to a terminus at Cairo, Ill.; (270) from points in Virginia on, south, and east of a line beginning at the Virginia-North Carolina State line extending along U.S. Highway 52 to junction U.S. Highway 221, thence along U.S. Highway 221 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction U.S. Highway 360, thence along U.S. Highway 360 to junction U.S. Highway 60, thence along U.S. Highway 60 to its terminus at Virginia Beach, Va., to Evansville, Ind.; (271) from points in Virginia on and south of a line beginning at the West Virginia-Virginia State line extending along U.S. Highway 460 to junction U.S. Highway 360, thence along U.S. Highway 360 to the terminus at Reedville, Va., to points in Iowa on, south, and west of a line beginning at Fort Madison, Iowa, thence along Iowa Highway 2 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Iowa Highway 5, thence along Iowa Highway 5 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction U.S. Highway 71, thence along U.S. Highway 71 to the junction of U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line; (272) from points in Virginia to points in Kentucky on, south, and west of a line beginning at Paducah, Ky., thence along U.S. Highway 62 to junction U.S. Highway 641, thence along U.S. Highway 641 to the Kentucky-Tennessee State line;

(273) From Kelsa, Allegheny, and Monterey, Va., and points in Virginia on and north of U.S. Highway 50 to points in Louisiana; (274) from points in Vir-

ginia on and south of a line beginning at

Alabama Highway 61, thence along Ala-

tion U.S. Highway 60, thence along U.S.

thence along New York Highway 17 to

No. MC 123681 (Sub-No. E7), filed

hicles, from points in Washington in and

ginia on and south of a line beginning at the Virginia-Kentucky State line extending along U.S. Highway 58 to a terminus at Bristol, Va., and points in Virginia on and south of a line beginning at U.S. Highway 29, thence along U.S. Highway 29 to junction U.S. Highway 58, thence along U.S. Highway 58 to junction U.S. Highway 501, thence along U.S. Highway 501 to the Virginia-North Carolina State line to points in Michigan on, north, and west of a line beginning at the Michigan-Wisconsin State line extending along U.S. Highway 2 to junction Michigan Highway 28, thence along Michigan Highway 28 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Michigan Highway 26, thence along Michigan Highway 26 to junction U.S. Highway 41, thence along U.S. Highway 41 to a terminus at Fort Wilkins, Mich.; (275) from points in Virginia on and east of a line beginning at Arlington, Va., thence along U.S. Highway 1 to junction U.S. Highway 40, thence along U.S. Highway 60 to junction U.S. Highway 17, thence along U.S. Highway 17 to the Virginia-North Carolina State line to points in Mississippi on and west of a line beginning at the Mississippi-Tennessee State line extending along U.S. Highway 45 to junction Mississippi Highway 30, thence along Mississippi Highway 30 to junction Mississippi Highway 7, thence along Mississippi Highway 7 to junction U.S. Highway 49E, thence along U.S. Highway 49E to junction U.S. Highway 49, thence along U.S. Highway 49 to junction U.S. Highway 80, thence along U.S. Highway 80 to the Mississippi-Louisiana State line; (276) from points in Virginia on and south of a line beginning at the West Virginia-Virginia State line extending along U.S. Highway 60 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction U.S. Highway 250, thence along U.S. Highway 250 to junction Virginia Highway 20, thence along Virginia Highway 20 to junction Virginia Highway 3, thence along Virginia Highway 3 to junction U.S. Highway 301, thence along U.S. Highway 301 to the Virginia-Maryland State line to points in Missouri;

(277) From South Boston, Va., and points in Virginia on and south of U.S. Highway 58 to points in Wisconsin on and north of a line beginning at Superior, Wis., thence along U.S. Highway 53 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to Red Cliff, Wis.; (278) from points in West Virginia on, north, and west of a line beginning at the West Virginia-Ohio State line extending along U.S. Highway 50 to junction U.S. Highway 119, thence along U.S. Highway 119 to the West Virginia-Pennsylvania State line to points in Alabama on, west, and south of a line beginning at the Alabama-Tennessee State line extending along Alabama Highway 17 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction Alabama Highway 69, thence along Alabama Highway 69 to junction Alabama Highway 14, thence along Alabama Highway 14 to junction

Alabama Highway 61, thence along Alabama Highway 61 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction Alabama Highway 41, thence along Alabama Highway 41 to junction Alabama Highway 89, thence along Alabama Highway 89 to junction Alabama Highway 28, thence along Alabama Highway 28 to junction Alabama Highway 21, thence along Alabama Highway 21 to junction Alabama Highway 10, thence along Alabama Highway 10 to junction Alabama Highway 47, thence along Alabama Highway 47 to junction Alabama Highway 83, thence along Alabama Highway 83 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction Alabama Highway 55, thence along Alabama Highway 55 to the Alabama-Florida State line; (279) from points in Ohio, Brooke, and Hancock Counties, W. Va., to points in Florida on and west of U.S. Highway 231; (280) from points in West Virginia to points in Illinois on and south of a line beginning at Chester, Ill., thence along Illinois Highway 3 to junction Illinois Highway 149, thence along Illinois Highway 149 to junction Illinois Highway 13, thence along Illinois Highway 13 to Marion, Ill., thence along Illinois Highway 37 to junction Illinois Highway 146, thence along Illinois Highway 146 to junction U.S. Highway 45, thence along U.S. Highway 45 to the Illinois-Kentucky State line;

(281) From points in West Virginia on and south of a line beginning at Huntington, W. Va., thence along U.S. Highway 60 to junction West Virginia Highway 16, thence along West Virginia Highway 16 to junction West Virginia Highway 39, thence along West Virginia Highway 39 to the West Virginia-Virginia State line to points in Iowa on, south, and west of a line beginning at Sioux City, Iowa, thence along U.S. Highway 20 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Iowa-Missouri State line; (282) from points in West Virginia to Narka, Kans., and points in Kansas on, west, and south of a line beginning at the Missouri-Kansas State line extending along U.S. Highway 24 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Kansas-Nebraska State line; (283) from points in West Virginia on and north of a line beginning at Parkersburg, W. Va., thence along U.S. Highway 50 to junction West Virginia Highway 20, thence along West Virginia Highway 20 to junction U.S. Highway 33, thence along U.S. Highway 33 to the West Virginia-Virginia State line to points in Kentucky on, south, and west of a line beginning at Paducah, Ky., thence along U.S. Highway 62 to junction Kentucky Highway 91, thence along Kentucky Highway 91 to junction U.S. Highway 41A, thence along U.S. Highway 41A to the Kentucky-Tennessee State line; (284) from points in West Virginia on and north of a line beginning at Williamson, W. Va., thence east and north on U.S. Highway 119 to junction

U.S. Highway 60, thence along U.S. Highway 60 to the Virginia-West Virginia State line to points in Louisiana; (285) from points in West Virginia on and north of a line beginning at Williamson, W. Va., thence along U.S. Highway 119 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction West Virginia Highway 16, thence along West Virginia Highway 16 to junction West Virginia Highway 39, thence along West Virginia Highway 39 to the Virginia-West Virginia State line to points in Mississippi;

(286) From points in West Virginia to points in Missouri on and south of a line beginning at the Kansas-Missouri State line extending along Missouri Highway 18 to junction Missouri Highway 7, thence along Missouri Highway 7 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Missouri Highway 8, thence along Missouri Highway 8 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Missouri Highway 32, thence along Missouri Highway 32 to a terminus at Genevieve, Mo.; and (287) from Bradshaw, W. Va., to Superior and Red Cliff, Wis. The purpose of this filing is to eliminate the gateway of the plant site of the Pittsburgh Metallurgical Company at or near Calvert City, Ky.

No. MC 123375 (Sub-No. E6), filed May 16, 1974. Applicant: KIRK TRUCKING SERVICE, INC., 3766 William Penn Highway, Monroeville, Pa. 15146. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Boilers, boiler parts, economizers, water walls, headers, stokers, power house installation materials, steel and steel products, machinery, contractors' tools and equipment, office equipment, and architects' supplies*, all of which by reason of size or weight require specialized handling or rigging, between points in that part of Maryland on and west of U.S. Highway 220, on the one hand, and, on the other, points in New Jersey, those in that part of Pennsylvania on and east of a line beginning at the Pennsylvania-Delaware State line, thence along U.S. Highway 202 to junction Pennsylvania Highway 100, thence along Pennsylvania Highway 100 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Pennsylvania Highway 29, thence along Pennsylvania Highway 29 to junction Pennsylvania Highway 309, thence along Pennsylvania Highway 309 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction Pennsylvania Highway 33, thence along Pennsylvania Highway 33 to junction U.S. Highway 209, thence along U.S. Highway 209 to junction Pennsylvania Highway 402, thence along Pennsylvania Highway 402 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Pennsylvania Highway 191, thence along Pennsylvania Highway 191 to the Pennsylvania-New York State line, and those in that part of New York on and east of a line beginning at the Pennsylvania-New York State line,

purpose of this filing is to eliminate the gateway of Multnomah or Washington

thence along New York Highway 17 to junction New York Highway 30, thence along New York Highway 30 to junction New York Highway 23, thence along New York Highway 23 to junction New York Highway 10, thence along New York Highway 10 to junction New York Highway 30, thence along New York Highway 30 to junction New York Highway 3, thence along New York Highway 3 to junction New York Highway 22, thence along New York Highway 22 to the New York-Canada Boundary line. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC 123681 (Sub-No. E2), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dry sodium chlorate*, in bulk, in tank trucks, from points in Washington, to points in California and Arizona. The purpose of this filing is to eliminate the gateway of Portland, Ore.

No. MC 123681 (Sub-No. E5), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals and acids* (except fertilizer and fertilizer solutions and liquid oxygen, hydrogen, and nitrogen), in bulk, in tank vehicles, between points in California, on the one hand, and, on the other, points in Idaho in and north of Idaho County. The purpose of this filing is to eliminate the gateway of Union County, Ore.

No. MC 123681 (Sub-No. E6), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Acids and chemicals* (except fertilizers and fertilizer solutions and liquid oxygen, hydrogen, and nitrogen), in bulk, in tank vehicles, between points in Washington and west of Whatcom, Skagit, Snohomish, King, Pierce, Lewis, and Skamania Counties, and in Yakima, Klickitat, Benton, Franklin, and Walla Walla Counties, on the one hand, and, on the other, points in Montana on and east of a line beginning at the United States-Canada International Boundary line and extending along Montana Highway 233 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Montana Highway 236, thence along Montana Highway 236 to junction U.S. Highway 191, thence along U.S. Highway 191 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 191, thence along U.S. Highway 191 to the Montana-Wyoming State line. The purpose of this filing is to eliminate the gateway of Union County, Ore.

beginning at the California-Nevada State line and extending along Inter-

No. MC 123681 (Sub-No. E7), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Washington, to points in Utah. The purpose of this filing is to eliminate the gateway of Wallula, Wash.

No. MC 123681 (Sub-No. E8), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid acids and chemicals* (except fertilizers and fertilizer solutions and liquid oxygen, hydrogen, and nitrogen), in bulk, in tank vehicles, between points in Idaho, on the one hand, and, on the other, points in Oregon (except points in Wallawa, Baker, Grant, Malheur, Harney, Wheeler, Crook, Deschutes, Lake, and Klamath Counties). The purpose of this filing is to eliminate the gateway of Portland or Union County, Ore.

No. MC 123681 (Sub-No. E9), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals and acids* (except fertilizers and fertilizer solutions and liquid oxygen, hydrogen, and nitrogen), in bulk, in tank vehicles, between points in Oregon (except points in Malheur and Wallawa Counties), on the one hand, and, on the other, points in Montana. The purpose of this filing is to eliminate the gateway of Union County, Ore.

No. MC 123681 (Sub-No. E10), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Oregon (except points in Baker, Crook, Deschutes, Grant, Harney, Jefferson, Klamath, Lake, Malheur, Union, Wallawa, and Wheeler Counties), to points in Utah. The purpose of this filing is to eliminate the gateway of Wallula, Wash.

No. MC 123681 (Sub-No. E11), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals and acids* (except fertilizer and fertilizer solutions and liquid oxygen, hydrogen and nitrogen), in bulk, in tank ve-

hicles, from points in Washington in and west of Whatcom, Skagit, Chelan, Kittitas, Yakima, and Klickitat Counties, to points in Wyoming. The purpose of this filing is to eliminate the gateways of Missoula, Mont., and Portland or Union County, Ore., or Tacoma, Wash.

No. MC 123681 (Sub-No. E12), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals and acids* (except fertilizer and fertilizer solutions and liquid oxygen, hydrogen and nitrogen), in bulk, in tank vehicles, from points in Benton, Franklin, and Walla Walla Counties, Wash., to points in Wyoming (except points in Lincoln, Uintah, Sublette, and Sweetwater Counties). The purpose of this filing is to eliminate the gateways of Missoula, Mont., and Union County, Ore.

No. MC 123681 (Sub-No. E13), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals and acids* (except fertilizers and fertilizer solutions and liquid oxygen, hydrogen, and nitrogen), in bulk, in tank vehicles, from points in Benton, Linn, Lane, Douglas, Coos, Curry, Josephine, and Jackson Counties, Ore., to points in Wyoming (except points in Teton, Fremont, Lincoln, Sublette, Uintah, Carbon, Albany, Platte, Goshen, and Laramie Counties). The purpose of this filing is to eliminate the gateways of Portland, Ore., and Missoula, Mont.

No. MC 123681 (Sub-No. E14), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals and acids* (except fertilizers, fertilizer solutions and liquid oxygen, hydrogen, and nitrogen), in bulk, in tank vehicles, from points in Oregon in, north, and west of Wallawa, Union, Umatilla, Morrow, Gilliam, Sherman, Wasco, Clackamas, Marion, Linn, Lane, Douglas, and Coos Counties, to points in Colorado in and east of Jackson, Grand, Summit, Park, Fremont, Custer, Huerfano, and Costilla Counties. The purpose of this filing is to eliminate the gateways of Missoula County, Mont., and Portland or Union County, Ore.

No. MC 123681 (Sub-No. E15), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals and acids* (except fertilizers

and fertilizer solutions and liquid oxygen, hydrogen, and nitrogen), in bulk, in tank

representative: V. J. Eggleston (same as above). Authority sought to operate as

purpose of this filing is to eliminate the gateway of Multnomah or Washington

following line: From Climax, Minn., on

U.S. Highway 75 to junction U.S. High-

Highway 191, thence along U.S. Highway 191 to junction U.S. Highway 10, thence

and fertilizer solutions and liquid oxygen, hydrogen, and nitrogen), in bulk, in tank vehicles, from points in Washington in and west of Whatcom, Skagit, Snohomish, King, Pierce, Lewis, and Cowlitz and Clark Counties, to points in Colorado. The purpose of this filing is to eliminate the gateways of Tacoma, Wash., and Missoula County, Mont.

No. MC 123681 (Sub-No. E16), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals and acids* (except fertilizers, fertilizer solutions and liquid oxygen, hydrogen, and nitrogen), in bulk, in tank vehicles, from points in Washington in and west of Okanogan, Douglas, Grant, Franklin, and Walla Walla Counties, to points in Colorado in and east of Jackson, Grand, Summit, Park, Fremont, Custer, Huerfano, and Costilla Counties. The purpose of this filing is to eliminate the gateways of Missoula County, Mont., and Tacoma, Wash., or Portland or Union County, Ore.

No. MC 123681 (Sub-No. E17), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from Portland, Linnton, and Willbridge, Ore., to points in Montana and points in Idaho north of Idaho County. The purpose of this filing is to eliminate the gateways of Garfield or Asotin Counties, Wash.

No. MC 123681 (Sub-No. E18), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank trucks, from Portland, Ore., to points in Oregon, except Pendleton, Haines, and Malheur Counties. The purpose of this filing is to eliminate the gateway of Vancouver, Wash.

No. MC 123681 (Sub-No. E19), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank trucks, from Vancouver, Wash., to points in Montana. The purpose of this filing is to eliminate the gateways of Garfield or Asotin Counties, Wash.

No. MC 123681 (Sub-No. E20), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's

representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank trucks, from Vancouver, Wash., to points in Idaho in, north, and east of Idaho, Lemhi, Custer, Butte, Bingham, Power, and Oneida Counties. The purpose of this filing is to eliminate the gateways of Garfield or Asotin Counties, Wash.

No. MC 123681 (Sub-No. E21), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, which because of size or weight require the use of special equipment, and related machinery parts and related contractors' materials and supplies when their transportation is incidental to the transportation of the commodities authorized above, restricted against the transportation of boats, between points in Utah, on the one hand, and, on the other, points in Idaho, in Fayette, and Gem Counties. The purpose of this filing is to eliminate the gateway of Washington or Oregon.

No. MC 123681 (Sub-No. E22), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, which because of size or weight require the use of special equipment, and related machinery parts and related contractors' materials and supplies when their transportation is incidental to the transportation of the commodities authorized above, restricted against the transportation of boats, between points in Kootenai, Benewah, Latah, Nez Perce, Lewis, Adams, Washington, Fayette, Gem, Canyon, and Ada Counties, Idaho, and in Idaho County, Idaho on and west of U.S. Highway 95, on the one hand, and, on the other, points in Montana on and east of U.S. Highway 93. The purpose of this filing is to eliminate the gateway of Washington or Oregon.

No. MC 123681 (Sub-No. E23), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Heavy machinery, structural and fabricated iron and steel, and such iron and steel articles* as are used in the construction of buildings and bridges, and contractors' equipment and supplies, in lots of not less than 20,000 pounds, between points in Idaho in and south of Adams, Valley, and Lemhi Counties, on the one hand, and, on the other, points in Washington in and west of Whatcom, Skagit, Snohomish, King, Pierce, Lewis, and Cowlitz Counties. The

purpose of this filing is to eliminate the gateway of Multnomah or Washington Counties, Ore.

No. MC 123681 (Sub-No. E24), filed May 13, 1974. Applicant: WIDING TRANSPORTATION, INC., P.O. Box 03159, Portland, Ore. 97203. Applicant's representative: V. J. Eggleston (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquid chemicals and acids* (except fertilizers, fertilizer solutions and liquid oxygen, hydrogen, and nitrogen), in bulk, in tank vehicles, from points in Multnomah, Clackamas, Marion, Polk, Yamhill, Washington, Tillamook, Clatsop, and Columbia Counties, Ore., to points in Wyoming (except Uintah, Lincoln, and Teton Counties). The purpose of this filing is to eliminate the gateways of Portland, Ore., and Missoula County, Mont.

No. MC 123744 (Sub-No. E5) (Correction), filed May 15, 1974, published in the FEDERAL REGISTER June 30, 1975. Republished July 30, 1975. Applicant: BUTLER TRUCKING COMPANY, P.O. Box 88, Woodland, Pa. 16881. Applicant's representative: E. Steward Butler (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Refractories* (except in bulk) from the facilities of Kaiser Refractories at Frostburg, Md., to points in Indiana north of U.S. Highway 30, and points in Illinois, Missouri, Michigan, and Wisconsin. The purpose of this filing is to eliminate the gateway of Clearfield, Pa., and points within 25 miles thereof. The purpose of this correction is to include Illinois as a destination.

No. MC 124211 (Sub-E87), filed March 6, 1975. Applicant: HILT TRUCK LINE, INC., P.O. Box 988 D.T.S., Omaha, Nebr. 68101. Applicant's representative: Thomas L. Hilt (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (A) *Recreational motor vehicles* for off-highway use, *Motorcycles and motorbikes, and motor vehicle parts, supplies, and accessories* (except commodities which, because of their size or weight, require the use of special equipment and commodities in bulk), from Los Angeles, Gardena, Wilmington, and Santa Clara, Calif., to points in Kentucky (except Louisville, Ky., and those in Kentucky within the Cincinnati, Ohio commercial zone as defined by the Commission), Virginia, North Carolina, South Carolina, Georgia (except those south of U.S. Highway 82 and west of U.S. Highway 19), Tennessee, Florida (except those west of Interstate Highway 75), those in Alabama and Mississippi on and north of U.S. Highway 78, those in Nebraska on and east of U.S. Highway 281, and Kansas City, Mo. (B) *Motor vehicle parts, supplies and accessories* (except commodities in bulk, and commodities which, because of their size or weight, require the use of special equipment): (1) Between those points in California on, north, and west of a line

beginning at the California-Nevada State line, and extending along Interstate Highway 15 to San Bernardino, thence along California Highway 90 to junction California Highway 55, thence along California Highway 55 to the Pacific Ocean, on the one hand, and, on the other, those points in Alabama (except those south of U.S. Highway 78), Florida (except those west of Interstate Highway 75), Georgia (except those south of U.S. Highway 82 and west of U.S. Highway 19), Kentucky (except Louisville, Ky., and those in Kentucky within the Cincinnati, Ohio commercial zone as defined by the Commission), Mississippi (except those south of U.S. Highway 78), North Carolina, South Carolina, Tennessee, and Virginia, and Kansas City, Mo.;

(2) Between those points in Nebraska on and north of a line beginning at the Nebraska-Colorado State line, and extending along U.S. Highway 6 to Lincoln, thence along Nebraska Highway 2 to the Nebraska-Iowa State line, on the one hand, and, on the other, points in Alabama, Florida, Georgia, Kentucky (except Louisville, Ky., and those in Kentucky within the Cincinnati, Ohio commercial zone as defined by the Commission), Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia; (3) between those points in Nebraska on and east of U.S. Highway 77 and north of Nebraska Highway 2, on the one hand, and, on the other, points in Arizona, California, New Mexico, and Texas, and those points in Oklahoma on and south of Interstate Highway 40; (4) between those points in Nebraska on and north of a line beginning at the Nebraska-Iowa State line, and extending along U.S. Highway 6 to Grand Island, thence along Interstate Highway 80 to the Nebraska-Wyoming State line, on the one hand, and, on the other, points in Arkansas and Kansas City, Mo.; (5) from Flint, Mich., to points in Arizona, California, Nebraska, New Mexico, those in Oklahoma and Texas on and west of U.S. Highway 75, and Kansas City, Mo.; (6) from Toledo, Ohio, to points in Arizona, California, Nebraska, New Mexico, those in Oklahoma and Texas on and west of Interstate Highway 35, and Kansas City, Mo.; restricted in (B) above against traffic originating at Phenix City, Ala., Marianna, Ark., Cleveland, Miss., Cushing, Okla., and Lynchburg and Radford, Va., and from Columbus, and Rushville, Nebr., to points in California. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 124692 (Sub-No. E3), filed May 13, 1974. Applicant: SAMMONS TRUCKING, P.O. Box 4347, Missoula, Mont. 59801. Applicant's representative: Johnson & Houland, 425 Gate City Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Wood product building materials and lumber products*; (a) from points in Idaho in and north of Idaho County (except those in Boundary County north of U.S. Highway 2) to points in (1) Minnesota that are on, east, and south of the

following line: From Climax, Minn., on U.S. Highway 75 to junction U.S. Highway 2, thence along U.S. Highway 2 to Grand Rapids, Minn., thence along U.S. Highway 169 to junction Minnesota Highway 169, thence along Minnesota Highway 169 to Ely, thence along Minnesota Highway 1 to junction U.S. Highway 61, and (2) South Dakota: (b) from points in Idaho in and north of Idaho County (except points north of Idaho Highway 200) to the Minot Air Force Base near Minot, N. Dak., and points in North Dakota that are on and east of the following lines: From the South Dakota-North Dakota State line on North Dakota Highway 22 to Killdeer, thence along North Dakota Highway 200 to junction U.S. Highway 83, thence along U.S. Highway 83 to the United States-Canada International Boundary line; (c) from points in Boundary County, Idaho, on and south of U.S. Highway 2, to points in North Dakota that are on and south of the following line: From the Montana-North Dakota State line on Interstate Highway 94 to Jamestown, thence along North Dakota Highway 20 to Glenfield, thence along North Dakota Highway 200 to the Minnesota-North Dakota State line;

(II) *Lumber and lumber products* (except commodities in bulk), (a) from points in Montana in Lewis and Clark County and those points east of the Continental Divide and south of U.S. Highway 12 (except those in Custer, Fallon, Powder River, and Carter Counties) to points in Minnesota (except those north of U.S. Highway 2 from East Grand Forks to Bemidji, thence along U.S. Highway 71 to Blackduck, thence along Minnesota Highway 72 to the United States-Canada International Boundary line), (b) from points in Montana east of the Continental Divide, north of U.S. Highway 12 and west of a line beginning at Sweetgrass over U.S. Highway 91 to Great Falls, thence along U.S. Highway 87 to junction U.S. Highway 12 to Duluth, Minn., and points in Minnesota south of Minnesota Highway 210, (c) from points in Montana east and south of the Continental Divide lying in or south of Lewis and Clark, Broadwater, Gallatin, Park, Sweetgrass, Carbon, Big Horn, Rosebud south of U.S. Highway 10, Powder River, and Carter Counties to points in North Dakota on and east of U.S. Highway 83 and those on and east of North Dakota Highway 49 and south of North Dakota Highway 200, (d) from points in Yellowstone County, Mont., to points in Barnes County, N. Dak., and those on and east of North Dakota Highway 32, and those on and east of North Dakota Highway 3 on and south of North Dakota Highway 46, (e) from points in Glacier, Pondera, Teton, Cascade, and Tooele Counties, Mont., to points in Logan, McIntosh, La-Moure, Dickey, Ransom, Sargent, and Richland Counties, N. Dak., (f) from Lewistown, Mont., and points in Montana east of the Continental Divide on, west, and south of a line from Sweetgrass on U.S. Highway 91 to Great Falls, thence along U.S. Highway 87 to junction U.S.

Highway 191, thence along U.S. Highway 191 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 212, thence along U.S. Highway 212 to the Montana-Wyoming State line to points in South Dakota (except those north of South Dakota Highway 20 and west of U.S. Highway 83);

(III) *Woodproduct building materials, and lumber products* (a) from points in Pend Oreille, Stevens, Spokane, Whitman, and Asotin Counties, Wash., to points in (1) Minnesota, (2) North Dakota (except points in Divide, Williams, and Burke Counties), and (3) South Dakota, (b) from points in Silver Bow County, Mont., to points in (1) North Dakota (except those in that part of North Dakota bounded on the east by North Dakota Highway 3 and on the south of North Dakota Highway 200 and those points west of U.S. Highway 85), (2) Minnesota and (3) South Dakota (except those in Butte, Harding, Perkins, and Corson Counties), (c) from Creston, Kalispell, and Somers, Mont., to points in North Dakota on and south of Interstate Highway 94 and on and east of North Dakota Highway 1, (d) from points in Flathead County, Mont. (except points in Glacier National Park) to points in Minnesota on, south, and east of a line beginning at Breckenridge, Minn., thence along Minnesota Highway 210 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Minnesota Highway 34, thence along Minnesota Highway 34 to junction Minnesota Highway 200, thence along Minnesota Highway 200 to junction U.S. Highway 2, thence along U.S. Highway 2 to Duluth, Minn., (e) from points in Flathead County, Mont. (except points in Glacier National Park) to points in South Dakota on, south, and east of a line from the Wyoming-South Dakota State line over U.S. Highway 212 to junction South Dakota Highway 65, thence along South Dakota Highway 65 to junction South Dakota Highway 20, thence along South Dakota Highway 20 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Minnesota-South Dakota State line, (f) from Missoula and Bonner, Mont., to points in North Dakota on and east of a line beginning on North Dakota Highway 49 at the South Dakota-North Dakota State line, thence along North Dakota Highway 49 to junction North Dakota Highway 20, thence along North Dakota Highway 20 to junction North Dakota Highway 3, thence along North Dakota Highway 3 to the United States-Canada International Boundary line (except those in Rolette, Towner, Cavalier, and Pembina Counties), and points in Minnesota and South Dakota (points in Wyoming);

(IV) *Lumber and wood products building materials*, (a) from points in Lemhi County, Idaho, on U.S. Highway 93 at and north of Salmon, Idaho, to points in California (except Imperial County), (b) from points in Idaho in and north of Kootenai and Shoshone Counties to points in California in and south of El Dorado, Amador, San Joaquin, Stanislaus, Merced, San Benito, Fresno, and San Luis Obispo Counties, (c) from

points in Idaho in Bonner and Boundary Counties, to points in Sacramento, So-

and salt compounds, crushed and ground oyster shells, animal feed, grade sugar, Jersey

Pa., commercial zone that is in New Jersey

(1) Wilmington, Del., or points in New Jersey within 40 miles of Philadelphia, Brown.

By the Commission, Commissioner

and certify to the Commission that this has been accomplished.

## NOTICES

points in Idaho in Bonner and Boundary Counties to points in Sacramento, Solano, Contra Costa, Alameda, Santa Clara, San Mateo, Santa Cruz, and Monterey Counties, Calif. (Missoula, Mont.) \*; (V) *Wood product building materials*, from points in Oregon and Washington (except those in Pend Oreille, Stevens, Spokane, Whitman, and Asotin Counties), to points in North Dakota, South Dakota, and Minnesota (points in Big Horn County, Wyo.) \*; (VI) *Lumber and wood product building materials*, from Meagher County, Mont., to points in Kansas and Nebraska (points in Big Horn County, Wyo.) \*; and (VII) *Lumber products* (except commodities in bulk), from Silver Bow County, Mont., to points in Butte, Harding, Perkins, and Corson Counties, S. Dak. (points in Wyoming) \*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 125996 (Sub-No. E1), filed May 10, 1974. Applicant: ROAD RUNNER TRUCKING, INC., P.O. Box 37491, Omaha, Nebr. 68137. Applicant's representative: George Bacon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry feed and animal and poultry feed ingredients* (except commodities in bulk, and except beet pulp and beet pulp pellets), (a) from points in Illinois on and north of a line beginning at the Iowa-Illinois State line and extending along U.S. Highway 34 to junction Interstate Highway 74, thence along Interstate Highway 74 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line (except Quincy, Ill., and points in its Commercial Zone), to points in California on and west of Interstate Highway 5, and (b) from points in Illinois (except Quincy, Ill., and points in its Commercial Zone), to points in Oregon and Washington. The purpose of this filing is to eliminate the gateway of Buhl, Idaho.

No. MC 125996 (Sub-No. E2), filed May 10, 1974. Applicant: ROAD RUNNER TRUCKING, INC., P.O. Box 37491, Omaha, Nebr. 68137. Applicant's representative: George Bacon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Animal feed and animal feed ingredients* (except commodities in bulk, in tank vehicles, and except salt and salt compounds, crushed and ground oyster shells, animal feed grade sugar, and molasses, in bulk), from points in that part of Kansas on, north, and east of a line beginning at the Nebraska-Kansas State line and extending along U.S. Highway 81 to Wichita, thence along Interstate Highway 35 to Emporia, and thence along U.S. Highway 50 to Kansas City (except Muncie), to points in that part of Colorado on and north of a line beginning at the Nebraska-Colorado State line and extending along Interstate Highway 805 to Denver, and thence along U.S. Highway 6 to the Colorado-Utah State line; (2) *animal and poultry feed and feed ingredients* (except salt

and salt compounds, crushed and ground oyster shells, animal feed grade sugar, and molasses, in bulk), from points in Kansas (except Muncie), to points in Washington and Oregon (except Ontario); (3) *animal and poultry feed and animal and poultry feed ingredients* (except commodities in bulk, in tank vehicles, and also except salt and salt compounds, crushed and ground oyster shells, animal feed grade sugar, and molasses, in bulk), from points in that part of Kansas on, east, and north of a line beginning at the Kansas-Nebraska State line and extending along U.S. Highway 81 to Wichita, thence along Interstate Highway 35 to Emporia, and thence along U.S. Highway 50 to Kansas City (except Muncie), to points in that part of California on, north, and west of a line beginning at the Arizona-California State line and extending along Interstate Highway 10 to junction California Highway 60, thence along California Highway 60 to junction U.S. Highway 395, thence along U.S. Highway 395 to San Diego, and points in Nevada; and (4) *animal and poultry feed and feed ingredients* (except salt and salt compounds, crushed and ground oyster shells, animal feed grade sugar, and molasses, in bulk), from points in Kansas (except Muncie), to points in Idaho. The purpose of this filing is to eliminate the gateway of points in Nebraska.

No. MC 125996 (Sub-No. E3), filed May 10, 1974. Applicant: ROAD RUNNER TRUCKING, INC., P.O. Box 37491, Omaha, Nebr. 68137. Applicant's representative: George Bacon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Animal feed ingredients* (except liquid commodities in bulk), (a) from Sioux Falls, S. Dak., and points in its Commercial Zone, to points in Colorado on and north of U.S. Highway 24, and points in Oregon on and west of Interstate Highway 5, and (b) from Huron and Sioux Falls, S. Dak., to points in Arizona, California, and points in Nevada on and south of a line beginning at the Utah-Nevada State line and extending along U.S. Highway 50 to Fallon, thence along Alternate U.S. Highway 95 to junction Interstate Highway 80 to the Nevada-California State line. The purpose of this filing is to eliminate the gateway of the facilities of Allen Products Co., Inc., at Crete, Nebr.

No. MC 126034 (Sub-No. E1), filed June 3, 1974. Applicant: BUCKS COUNTY CONSTRUCTION COMPANY, P.O. Box 196, Pennel, Pa. 19047. Applicant's representative: E. Stephen Helsley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such machinery* (including pumps, condensers, dynamos, motors, and parts) as would be embraced within lime, fence materials, and building materials, from Wilmington, Del., to unincorporated points in Bucks County, Pa. The purpose of this filing is to eliminate the gateway of any point in the Philadelphia,

Pa., commercial zone that is in New Jersey.

No. MC 126034 (Sub-No. E2), filed June 3, 1974. Applicant: BUCKS COUNTY CONSTRUCTION COMPANY, P.O. Box 196, Pennel, Pa. 19047. Applicant's representative: E. Stephen Helsley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such machinery* (including pumps, condensers, dynamos, motors, and parts) as would be embraced within machinery and boilers, and factory equipment, together with stocks and supplies when part of the movement of a factory: (1) between Philadelphia, Pa., on the one hand, and, on the other, points in New York, Connecticut, Massachusetts, Washington, D.C., Aberdeen, Md., points in Pennsylvania on and east of the Susquehanna River, Sayre and Erie, Pa., and Martinsburg, W. Va.; (2) between Wilmington, Del., on the one hand, and, on the other, points in New York, Connecticut, Massachusetts, Erie and Sayre, Pa., and points in Pennsylvania on and east of the Susquehanna River; and (3) between Wilmington, Del., on the one hand, and, on the other, points in New Jersey north of a line beginning at the Delaware River on Mantua Creek near Woodbury, N.J., extending along Mantua Creek to junction New Jersey Highway 47, thence along New Jersey Highway 47 to junction U.S. Highway 322, thence along U.S. Highway 322 to the Atlantic Ocean. The purpose of this filing is to eliminate the gateways of (1) New Jersey, (2) points in the Philadelphia, Pa. commercial zone which are in New Jersey, and (3) points in the Philadelphia, Pa. commercial zone which are on and east of the Susquehanna River.

No. MC 126034 (Sub-No. E3), filed June 3, 1974. Applicant: BUCKS COUNTY CONSTRUCTION COMPANY, P.O. Box 196, Pennel, Pa. 19047. Applicant's representative: E. Stephen Helsley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such machinery* (including pumps, condensers, dynamos, motors, and parts) as would be embraced within construction machinery and equipment: (1) between Philadelphia, Pa., on the one hand, and, on the other, points in Pennsylvania and Delaware within a 40 mile radius of Philadelphia, Pa., including Philadelphia, and (2) between Wilmington, Del., on the one hand, and, on the other, points in Delaware, Pennsylvania within 40 miles of Philadelphia, Pa., including Philadelphia, and points in New Jersey that are within 40 miles of Philadelphia and on and north of a line beginning at the Delaware River on Mantua Creek near Woodbury, N.J., extending along Mantua Creek to junction New Jersey Highway 47, thence along New Jersey Highway 47 to junction U.S. Highway 322, thence along U.S. Highway 322 to Weymouth, N.J. The purpose of this filing is to eliminate the gateways of

## NOTICES

(1) Wilmington, Del., or points in New Jersey within 40 miles of Philadelphia, Pa., and (2) Philadelphia, Pa., or points in New Jersey that are in the Philadelphia commercial zone.

No. MC 136186 (Sub-No. E72), filed May 10, 1974. Applicant: CF TANK LINES, INC., P.O. Box 3062, Portland, Ore. 97208. Applicant's representative: E. V. Taylor (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Synthetic resins*, in tank vehicles, from those points in Riverside, Imperial, and San Bernardino Counties, Calif., on and west of a line beginning at the United States-Mexico International Boundary line and extending along California Highway 111 to junction California Highway 195, thence along California Highway 195 to junction unnumbered highway near Shavers Wells, to junction California Highway 62 at Twentynine Palms, to junction unnumbered highway near Dale Lake (Dry), to junction U.S. Highway 66 at Amboy, to junction unnumbered highway at Ludlow, to junction Interstate Highway 15, to junction California Highway 127, to the San Bernardino County line to Helena, Mont. The purpose of this filing is to eliminate the gateway of Maywood, Calif.

By the Commission,

[SEAL] ROBERT L. OSWALD,  
Secretary.

[AB 3; sub-No. 7]

#### MISSOURI PACIFIC RAILROAD CO. Abandonment of Service

Present: Virginia Mae Brown, Commissioner, to whom the matter which is the subject of this order has been assigned for action thereon.

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available to the public upon request; and

*It appearing*, That no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. §§ 4321, et seq.; and good cause appearing therefor:

*It is ordered*, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Washington, County, on or before September 17, 1975, and certify to the Commission that this has been accomplished.

*And it is further ordered*, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the Federal Register.

Dated Washington, D.C., this 25th day of August, 1975.

By the Commission, Commissioner Brown.

[SEAL] ROBERT L. OSWALD,  
Secretary.

The Interstate Commerce Commission hereby gives notice that by order dated August 25, 1975, it has been determined that the proposed abandonment by the Missouri Pacific Railroad Company of its line of railroad between Greenleaf and Washington, Kans., a distance of 6.9 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1939 (NEPA), 42 U.S.C. §§ 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because of the low volume of traffic involved and the absence of any major historic, safety or ecological impacts associated with the proposed action.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before September 22, 1975.

This negative environmental determination shall become final unless good and sufficient reason demonstrating why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[FR Doc.75-23672 Filed 9-4-75; 8:45 am]

[AB 57; sub-No. 1]

#### SOO LINE RAILROAD CO. Abandonment of Service

Present: Virginia Mae Brown, Commissioner, to whom the matter which is the subject of this order has been assigned for action thereon.

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available to the public upon request; and

*It appearing*, That no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. §§ 4321, et seq.; and good cause appearing therefor:

*It is ordered*, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Alger and Delta Counties, Mich., on or before September 17, 1975,

and certify to the Commission that this has been accomplished.

*And it is further ordered*, That notice of this finding shall be given to the general public by depositing a copy of this order and the attached notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy of the notice to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to interested persons.

Dated at Washington, D.C., this 25th day of August, 1975.

By the Commission, Commissioner Brown.

[SEAL] ROBERT L. OSWALD,  
Secretary.

The Interstate Commerce Commission hereby gives notice that by order dated August 25, 1975, it has been determined that the proposed abandonment by the Soo Line Railroad Company of its line of railroad between Rapid River and Eben Junction, Mich., a distance of 32.50 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. §§ 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because area environmental quality will only be degraded slightly due to increased air pollution and energy consumption resulting from diversion of rail traffic to motor carrier transport. Sale of the right-of-way to a public agency would ensure availability of the land in the right-of-way for future use as a transportation or other public use corridor, and would be consistent with current interest in recreational trail development.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Washington, D.C., 20423, on or before September 22, 1975.

This negative environmental determination shall become final unless good and sufficient reason demonstrating why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[SEAL] ROBERT L. OSWALD,  
Secretary.

pursuant to Sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before September 26, 1975. Pursuant to Section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75011. By order entered August 29, 1975, the Motor Carrier Board approved the transfer to Star Trucking Company, Inc., Monahans,

Tex., of Certificate of Registration No. MC-58856 (Sub-No. 2), issued May 12, 1964, to Roy M. Griffin, (Winona Griffin, Heir-at-Law), doing business as Star Trucking, Odessa, Tex., evidencing a right to engage in transportation, in interstate or foreign commerce, of various specified commodities, between points in Texas. ## Title 40—Protection of the Environment

## CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL 421-1]

## PART 230—NAVIGABLE WATERS

## Discharge of Dredged or Fill Material

The Administrator of the Environmental Protection Agency (EPA) on May 6, 1975, proposed guidelines, pursuant to section 404(b) of the Federal Water Pollution Control Act Amendments of 1972, Pub. L. 92-500 (hereinafter, "the Act"), for the purpose of providing guidance to be applied in evaluating proposed discharge of dredged or fill material in navigable waters. The guidelines were developed in conjunction with the Army pursuant to section 404(b) of the Act.

Written comments were to be submitted to the Environmental Protection Agency by June 5, 1975. This date was extended to June 30 and consideration has been given to all comments received.

The guidelines are applicable to all activities involving the discharge of dredged or fill material in navigable waters, defined in the Act to mean "the waters of the United States, including the territorial seas." Such discharges are unlawful except in compliance with permits issued by the Secretary of the Army, acting through the Chief of Engineers, after notice and opportunity for public hearings (see 33 CFR 209.120, "Permits for Activities in Navigable Waters or Ocean Waters," published by the Corps of Engineers in the Federal Register on July 25, 1975). These guidelines are applicable to all Federal projects or activities, just as they are applicable to any other project or activity involving a discharge of dredged or fill materials.

Interim final guidelines are being published in order to provide immediate guidance in the implementation of the permit program under section 404 of the Act. While these guidelines become effective upon publication, there will be an additional comment period of 90 days in order that the public may comment further on any of its provisions. Thereafter, these comments will be reviewed and the guidelines modified if necessary.

The development of a permit program to regulate the discharge of dredged material and fill material in all waters of the United States has been the subject of intensive discussions between the Environmental Protection Agency and the Corps of Engineers, as well as other Federal and State agencies and the public. We have worked together in an effort to develop a program that is manageable, responsive to the concerns of protecting vital national water resources from destruction through irresponsible and irreversible decisions, and sensitive to the often conflicting needs and desires of people who utilize these resources. We have attempted to create a program that recognizes the need to interweave all concerns of the public in the decision-making process; that recognizes that present limitations on manpower preclude its immediate implementation

throughout the country; and that we believe to be responsive to the overall objectives and needs of the Federal Water Pollution Control Act.

Section 230.1 summarizes the purpose and scope of the guidelines. Section 230.2 and Appendix A contain definitions to be used in the application of the guidelines in the program under section 404 of the Act.

The procedures for evaluating the discharge of dredged or fill material are outlined in § 230.3. This section is intended to emphasize that each provision of §§ 230.4 and 230.5 must be applied in reaching one of the following determinations: (1) Allowing the proposed discharge with appropriate discharge conditions to minimize unacceptable effects on the aquatic environment; (2) denying the proposed discharge when the discharge will have an unacceptable effect on the aquatic environment; or (3) requesting additional information where necessary to ensure a sound decision.

Section 230.4 presents general approaches for technical evaluation of discharges of dredged or fill material. Section 230.4-1 describes the types of ecological effects that may result from the discharge of dredged or fill material and technical approaches which are available to evaluate such effects where appropriate. Section 230.4-2 explains the considerations that will be given to water quality standards.

Section 230.5 presents objectives and considerations for evaluating proposed sites and for conditioning discharges so as to minimize harmful effects when the disposal site can be approved. All proposed discharges will be analyzed by application of each provision presented.

Section 230.6 provides guidance on the use of general permits for categories of discharge activities that will have only minimal effect on the aquatic environment. Section 230.7 encourages advanced study of aquatic areas to identify those areas of critical ecological concern and those areas that are less sensitive. It is expected that, where practicable, advanced identification of such areas will facilitate planning and improve evaluation of individual and general permits. State and local implementation of advanced planning through mechanisms such as Coastal Zone Management Programs will significantly contribute to the success of these studies.

The following analysis summarizes key comments received on various sections of the proposed guidelines and presents a rationale for the changes made:

(1) Several commenters suggested that the guidelines lack a strong commitment to the spirit of the law by failing to place strict controls on the discretionary power given to the District Engineers. The nationwide application of a single set of guidelines to a variety of discharge activities in a myriad of different aquatic systems requires that the permitting agencies retain the discretion to adapt the approaches and considerations in the guidelines to local conditions. However, many of the approaches and considerations have been rewritten to clarify that

discharges will not be allowed if it is determined that the proposed discharge will result in unacceptable harm to the aquatic system.

(2) Several commenters indicated confusion over the organization of the guidelines. The guidelines have been reorganized, renumbered and retitled to provide greater clarity and utility.

(3) Many commenters objected to the execution of raw material extraction from the section 404 permit system. The Corps of Engineers regulations and the guidelines now recognize that the discharge of material extracted and processed on shipboard is included in the section 404 program, while discharges from land-based processing are included in the National Pollutant Discharge Elimination System under section 402 of the Act.

(4) Most of the comments concerned technical analytical procedures, the adequacy of using the results as a description of constituents actually contained in sediments, whether constituents measured are actually available to aquatic organisms and humans, and the criteria for evaluating technical analyses. In addition to the comments volunteered by the interested public, we sought opinions of experts in each of the above areas of concern. All comments indicated that at this time none of the tests specified in the proposed guidelines can be used on a nationwide basis to examine all sediments thought to contain toxic substances. However, each of the technical evaluations specified in the proposed guidelines can be used meaningfully under some disposal conditions. Since there is no single technical evaluation available for nationwide use, additional physical analysis, bioassays, and biological evaluations have been added. Technical evaluations should be required only when a case-by-case review indicates that the results will provide information necessary to reach a final decision. When used carefully, the results of an appropriate technical evaluation in a given case will serve as one of many factors involved in the decision-making process. The Environmental Protection Agency, in conjunction with the Corps of Engineers will publish a procedures manual to provide details on technical evaluations. Interim technical guidance is available from the District Engineers.

(5) A number of commenters criticized the apparent lack of State participation in the permit program. It has never been the intention of this Agency or the Corps of Engineers to exclude the States from this program.

First, since each discharge of dredged or fill material into a navigable water is, in effect, the discharge of a pollutant into the water, a State water quality certification is required under section 401 of the Act before that discharge can be lawfully undertaken. Provision has therefore been made in the Corps of Engineers regulations (see 40 CFR 209.120(f)(3)) to indicate this legal requirement. Thus, any State may cause the denial of a section 404 permit if it chooses to deny a water quality certification. Similar situations also exist in those States with approved

Coastal Zone Management Programs: An individual in States with such programs must also certify that his activity will comply with the approved plan. On the other hand, where the State does not have such a certification program or delays the processing of its certification, the Corps of Engineers will still begin to process the section 404 permit. In absence of a timely response from the State, the section 404 permit will be processed to a conclusion.

Second, we are aware that some States have existing permit programs to regulate the same types of activities that will be regulated through section 404 of the Act by the Corps of Engineers. To the extent possible, it is our desire to support the State in its decision. Thus, where a State denies a permit, the Corps will not issue a section 404 permit. On the other hand, if a State issues a permit, the Corps would not deny its permit unless there are overriding environmental factors as reflected in these guidelines. We believe that conflicting decisions will be minimized if State permit programs include the policies, procedures, goals, requirements, and objectives embodied in the Corps permit program (see 40 CFR 209.120(f)(3)) and the national legislation which molded and supports it. This would include, for example, the concerns and requirements of the National Environmental Policy Act, the Fish and Wildlife Coordination Act, the Endangered Species Act, the Coastal Zone Management Act, and the FWPCA.

Finally, provision has been made in the Corps regulations (see 40 CFR 209.120(f)(3)) to allow the District Engineer to enter into an agreement with those States having ongoing permit programs which would enable joint processing of the Department of the Army and the State permit application to an independent conclusion by each entity. This would include joint public notices, joint public hearings, and the joint development, review, and analysis of information which leads to the final decision on a permit application. We strongly encourage States to work with District Engineers in this effort as this is a valuable mechanism for avoiding unnecessary duplication of effort.

Accordingly, having considered the comments received and other relevant information, the Administrator hereby adopts these guidelines as interim final, effective upon publication as guidance for evaluating all proposed discharges of dredged or fill material into the navigable waters, and also allowing 90 additional days for public comment after which time the guidelines may be modified if necessary.

All comments should be submitted to Eckardt C. Beck, Deputy Assistant Administrator for Water Planning and Standards, Office of Water and Hazardous Materials (WH-451), EPA, 401 M Street, S.W., Washington, D.C. 20460. All comments received on or before December 4, 1975 will be considered.

Dated: August 28, 1975.

RUSSELL E. TRAIN,  
Administrator.

Interim final Part 230 is added to read as follows:

Sec.	Purpose and scope.
230.1	Definitions.
230.2	Evaluation procedures.
230.3	General approaches for technical evaluation.
230.4-1	Physical and chemical-biological interactive effects and approaches for evaluation.
230.4-2	Water quality considerations.
230.5	Selection of disposal sites and conditioning of discharges of dredged or fill material.
230.6	General or categorical permits.
230.7	Advanced identification of dredged material disposal areas.
230.8	Revision.

## APPENDIX A.

AUTHORITY: Sec. 404(b) Federal Water Pollution Control Act of 1972; Pub. L. 92-500.

## § 230.1 Purpose and scope.

(a) *Purpose.* The guidelines contained herein have been developed by the Administrator, Environmental Protection Agency in conjunction with the Secretary of the Army pursuant to section 404(b) of the Federal Water Pollution Control Act (33 USC 1344).

(1) These guidelines are required by section 404 of the Act to be applied in the issuance of permits for the discharge of dredged or fill material at specified disposal sites. In the event the District Engineer's application of the guidelines would preclude the discharge of dredged or fill material, the District Engineer in making the decision will also evaluate the economic impact on navigation and anchorage which will occur by failing to utilize the proposed disposal site.

(2) In addition, under section 404(c) of the Act, no discharge of dredged or fill material will occur at a proposed disposal site in a navigable water if the Administrator of EPA determines, after notice and opportunity for a public hearing and consultation with the Secretary of the Army, that such discharge will have an unacceptable adverse effect on municipal water supplies, shellfish beds and fishery areas (including spawning and breeding areas), wildlife or recreational areas.

(b) *Applicability.* These guidelines are applicable to all activities involving the discharge of dredged or fill material in navigable waters. They will be applied by the Corps of Engineers in the review of proposed discharges of dredged or fill material into navigable waters which lie inside the baseline from which the territorial sea is measured or the discharge of fill material into the territorial sea pursuant to the procedures specified in 33 CFR 209.120 and 33 CFR 209.145.

(1) The discharge of dredge material into the territorial sea is governed by the Marine Protection, Research, and Sanctuaries Act of 1972, Pub. L. 92-532, and regulations and criteria issued pursuant thereto. (See 33 CFR 209.120, "Permits for Activities in Navigable Waters or Ocean Waters" and 33 CFR 209.145, "Federal Projects Involving the Disposal of Dredged Material in Navigable and Ocean Waters," and 40 CFR

227, "Ocean Dumping Final Regulations and Criteria".)

(2) These guidelines apply in a like manner to all discharges of dredged or fill material into navigable waters proposed to be undertaken by members of the general public and Federal Agencies including those Corps of Engineers operations that will result in such discharges.

## § 230.2 Definitions.

For purposes of this subpart 230, the following terms shall have the meanings indicated:

(a) The term "Act" means the Federal Water Pollution Control Act Amendments of 1972 (Pub. L. 92-500, 33 USC 1251 et seq.).

(b) The definitions set forth in 33 CFR 209.120(d) are incorporated herein by reference. These cover: navigable waters, dredged material, discharge of dredged material, fill material, and discharge of fill material. A copy of these definitions is appended hereto.

(c) The term "Regional Administrator" means the EPA Regional Administrator for the particular EPA Region in which dredged or fill material is proposed to be discharged.

(d) The term "District Engineer" means the District Engineer for the U.S. Army Corps of Engineers District in which dredged or fill material is proposed to be discharged or such other individual as may be designated by the Secretary of the Army to issue or deny permits under section 404 of the Act.

(e) The term "territorial sea" means the belt of the sea measured from the baseline as determined in accordance with the Convention on the Territorial Sea and the Contiguous Zone and extending seaward a distance of three miles.

(f) The term "disposal site" means the location within fixed geographic boundaries in which a discharge of dredged or fill material is proposed or has been undertaken, and includes the volume of water and the substrate over which such water volume lies, where applicable.

(g) The term "constituents" means the chemical substances, the solids, and the organisms associated with dredged or fill material.

## § 230.3 Evaluation procedures.

(a) All proposed discharges of dredged or fill material will be processed and evaluated in accordance with these guidelines and with applicable Corps of Engineers regulations (33 CFR 209.120 and 33 CFR 209.145).

(b) Upon issuance of the public notice required by 33 CFR 209.120(j) and 209.145(g) the District Engineer shall send a copy of the public notice to the Regional Administrator.

(c) The role of the Regional Administrator shall include consultation with the District Engineer on the interpretation of the guidelines, review and comment to the District Engineer on permit applications, and implementation of section 404(c) in appropriate cases.

(d) The District Engineer shall utilize these guidelines by making an eco-

... following the guidance... cents in regard to the amounts and types... values, and direct destructive effects on

... sufficiently removed from sources of pol... would be of value in comparing sediment... ical and biological integrity of the aqua-

logical evaluation following the guidance in § 230.4, including technical evaluation where appropriate, in conjunction with the evaluation considerations specified in § 230.5. This evaluation shall be utilized by the District Engineer in making one of the following determinations pursuant to section 404(b)(1) of the Act:

(1) Allowing the proposed discharge with appropriate discharge conditions to minimize unacceptable effects on the aquatic environment;

(2) Denying the proposed discharge when the discharge will have an unacceptable effect on the aquatic environment;

(3) Requesting additional information where necessary to ensure a sound decision.

(e) The District Engineer shall make use of the following approaches where practicable: Short form application procedures as may be subsequently developed by the Chief of Engineers for minor activities with minimal environmental effects; use of general permit procedures (see § 230.6); and advance identification of disposal areas (see § 230.7). Evaluation of the proposed discharge will also be made based on information contained in Environmental Impact Assessments, Environmental Impact Statements if required, Coastal Zone Management Programs, and River Basin Plans.

#### § 230.4 General approaches for technical evaluation.

The effects of discharges of dredged or fill material on aquatic organisms and human uses of navigable waters may range from insignificant disruption to irreversible change at the disposal site. Section 230.4-1 describes the types of ecological effects that may result from the discharge of dredged or fill material and technical approaches to evaluate such effects. Ecological impact from dredged or fill material discharges can be divided into two main categories: (a) physical effects; and (b) chemical-biological interactive effects.

#### § 230.4-1 Physical and chemical-biological interactive effects and approaches for evaluation.

No single test or approach can be applied in all cases to evaluate the effects of proposed discharges of dredged or fill material. Evaluation of the significance of physical effects often may be made without laboratory tests by examining the character of the dredged or fill material proposed for discharge and the discharge area with particular emphasis on the principles given in § 230.5. The chemical change in water quality may best be simulated by use of an elutriate test. To the extent permitted by the state of the art, expected effects such as toxicity, stimulation, inhibition or bioaccumulation may best be estimated by appropriate bioassays. Suitability of the proposed disposal sites may be evaluated by the use, where appropriate, of sediment analysis or bioevaluation. In order to avoid unreasonable burdens on appli-

cants in regard to the amounts and types of data to be provided, consideration will be given by the District Engineer to the economic cost of performing the evaluation, the utility of the data to be provided, and the nature and magnitude of any potential environmental effect. EPA in conjunction with the Corps of Engineers will publish a procedures manual that will cover summary and description of tests, definitions, sample collection and preservation, procedures, calculations, and references. Interim guidance to applicants concerning the applicability of specific approaches or procedures will be furnished by the District Engineer.

(a) *Physical Effects.* Physical effects on the aquatic environment include the potential destruction of wetlands, impairment of the water column, and the covering of benthic communities. Other physical effects include changes in bottom geometry and substrate composition that cause subsequent alterations in water circulation, salinity gradients and the exchange of constituents between sediments and overlying water with subsequent alterations of biological communities. (See § 230.5 of these guidelines.)

(1) From a national perspective, the degradation or destruction of aquatic resources by filling operations in wetlands is considered the most severe environmental impact covered by these guidelines. Evaluation procedures for determining the environmental effects of fill operations in wetlands are relatively straight forward. The guiding principle should be that destruction of highly productive wetlands may represent an irreversible loss of a valuable aquatic resource. (See 33 CFR 209.120(g) (3) and 230.5 of these guidelines.) Wetlands considered to perform important functions include but are not limited to the following:

(i) Wetlands that serve important natural biological functions, including food chain production, general habitat, and nesting, spawning, rearing and resting sites for aquatic or land species;

(ii) Wetlands set aside for study of the aquatic environment or as sanctuaries of refuges;

(iii) Wetlands contiguous to areas listed in paragraphs (a) (1) (i) and (ii) of this section, the destruction or alteration of which would affect detrimentally the natural drainage characteristics, sedimentation patterns, salinity distribution, flushing characteristics, current patterns, or other environmental characteristics of the above areas;

(iv) Wetlands that are significant in shielding other areas from wave action, erosion or storm damage. Such wetlands often include barrier beaches, islands, reefs and bars;

(v) Wetlands that serve as valuable storage areas for storm and flood waters; and

(vi) Wetlands that are prime natural recharge areas. Prime recharge areas are locations where surface and ground water are directly interconnected.

(2) Effects on the water column are principally those associated with a reduction in light transmission, aesthetic

values, and direct destructive effects on nektonic and planktonic populations. The significance of water column physical effects are not readily predicted by current technical approaches.

(3) The effect on benthos is essentially the covering of benthic communities with a subsequent change in community structure or function. It has been noted that the benthic community often will reestablish, although sometimes of a somewhat different ecological structure. Evaluation of the significance of the effect on the benthic community can be estimated prior to the discharge activity from a knowledge of the hydrodynamics of the disposal site, mode of discharge, volume of materials, particle size distribution and types of dredged or fill material, and from a knowledge of the benthic community.

(b) *Chemical-biological interactive effects.* Ecological perturbation caused by chemical-biological interactive effects resulting from discharges of dredged or fill material is very difficult to predict. Research performed to date has not clearly demonstrated the extent of chemical-biological interactive effects resulting from contaminants present in the dredged or fill material. The principal concerns of open water discharge of dredged or fill material that contain chemical contaminants are the potential effects on the water column or on benthic communities.

(1) *Evaluation of chemical-biological interactive effects.* Dredged or fill material may be excluded from the evaluation procedures specified in paragraphs (b) (2) and (3) of this section if any of the conditions specified in paragraphs (b) (1) (i), (ii) or (iii) of this section are determined to exist, unless the District Engineer, after evaluating and considering any comments received from the Regional Administrator, determines that these approaches and procedures are necessary. The Regional Administrator may require, on a case-by-case basis, testing approaches and procedures by stating what additional information is needed through further analyses and how the results of the analysis will be of value in evaluating potential environmental effects. Dredged or fill material may be excluded from this evaluation, if:

(i) Dredged or fill material is composed predominantly of sand, gravel, or any other naturally occurring sedimentary material with particle sizes larger than silt, characteristic of and generally found in areas of high current or wave energy such as streams with large bed loads or coastal areas with shifting bars and channels;

(ii) Dredged or fill material is for beach nourishment or restoration and is composed predominantly of sand, gravel or shell with particle sizes compatible with material on receiving shores; or

(iii) When:

(a) The material proposed for discharge is substantially the same as the substrate at the proposed disposal site; and

(b) The site from which the material proposed for discharge is to be taken is

sufficiently removed from sources of pollution to provide reasonable assurance that such material has not been contaminated by such pollution; and

(c) Adequate terms and conditions are imposed on the discharge of dredged or fill material to provide reasonable assurance that the material proposed for discharge will not be moved by currents or otherwise in a manner that is damaging to the environment outside the disposal site.

(2) *Water column effects.* Sediments normally contain constituents that exist in different chemical forms and are found in various concentrations in several locations within the sediment. The potentially bioavailable fraction of a sediment is dissolved in the sediment interstitial water or in a loosely bound form that is present in the sediment. In order to predict the effect on water quality due to release of contaminants from the sediment to the water column, an elutriate test may be used. The elutriate is the supernatant resulting from the vigorous 30-minute shaking of one part bottom sediment from the dredging site with four parts water (vol./vol.) collected from the dredging site followed by one-hour settling time and appropriate centrifugation and a 0.45μ filtration. Major constituents to be analyzed in the elutriate are those deemed critical by the District Engineer, after evaluating and considering any comments received from the Regional Administrator, and considering known sources of discharges in the area and known characteristics of the extraction and disposal sites. Elutriate concentrations should be used in conjunction with the same constituents in disposal site water and other data which describe the volume and rate of the intended discharge, the type of discharge, the hydrodynamic regime at the disposal site, and other available information that aids in the evaluation of impact on water quality (see § 230.5 of these guidelines). The District Engineer may specify bioassays when he determines that such procedures will be of value. In reaching this determination, dilution and dispersion effects subsequent to the discharge at the disposal site will be considered.

(3) *Effects on benthos.* Evaluation of the significance of chemical-biological interactive effects on benthic organisms resulting from the discharge of dredged or fill material is extremely complex and demands procedures which are at the forefront of the current state of the art. Although research has shown that benthic species can ingest contaminated sediment particles, it has not been determined to what degree the contaminants are dissociated from the sediment and incorporated into benthic body tissues thereby gaining entry to the food web. The District Engineer may use an appropriate benthic bioassay when such procedures will be of value in assessing ecological effect and in establishing discharge conditions.

(c) *Procedure for comparison of sites.* (1) When an inventory of the total concentration of chemical constituents deemed critical by the District Engineer

would be of value in comparing sediment at the dredging site with sediment at the disposal site, he may require a total sediment chemical analysis. Total sediment analysis is accomplished by concentrated strong acid digestion or solvent extraction for inorganic and organic constituents respectively. Markedly different concentrations of critical constituents between the excavation and disposal sites may aid in making an environmental assessment of the proposed disposal operation.

(2) When an analysis of biological community structure will be of value to assess the potential for adverse environmental impact at the proposed disposal site, a comparison of the biological characteristics between the excavation and disposal sites may be required by the District Engineer. Biological indicator species may be useful in evaluating the existing degree of stress at both sites. Sensitive species representing community components colonizing various substrate types within the sites should be identified as possible bioassay organisms if tests for toxicity are required. Community structure studies are expensive and time consuming, and therefore should be performed only when they will be of value in determining discharge conditions. This is particularly applicable to large quantities of dredged material known to contain adverse quantities of toxic materials. Community studies should include benthic organisms such as micro-biota and harvestable shellfish and finfish. Abundance, diversity, and distribution should be documented and correlated with substrate type and other appropriate physical and chemical environmental characteristics.

#### § 230.4-2 Water quality considerations.

After application of the approaches presented in § 230.4, the District Engineer will compare the concentrations of appropriate constituents to applicable narrative and numerical guidance contained in such water quality standards as are applicable by law. In the event that such discharge would cause a violation of such appropriate and legally applicable standards at the perimeter of the disposal site after consideration of the mixing zone (see § 230.5(e)) discharge shall be prohibited.

#### § 230.5 Selection of disposal sites and conditioning of discharges of dredged or fill material.

(a) *General considerations and objectives.* In evaluating whether to permit a proposed discharge of dredged or fill material into navigable waters, consideration shall be given to the need for the proposed activity (see 33 CFR 209.120 and 33 CFR 209.145), the availability of alternate sites and methods of disposal that are less damaging to the environment, and such water quality standards as are appropriate and applicable by law. The following objectives shall be considered in making a determination on any proposed discharge:

(1) Avoid discharge activities that significantly disrupt the chemical, phys-

ical and biological integrity of the aquatic ecosystem, of which aquatic biota, the substrate, and the normal fluctuations of water level are integral components;

(2) Avoid discharge activities that significantly disrupt the food chain including alterations or decrease in diversity of plant and animal species;

(3) Avoid discharge activities that inhibit the movement of fauna especially their movement into and out of feeding, spawning, breeding and nursery areas;

(4) Avoid discharge activities that will destroy wetland areas having significant functions in maintenance of water quality;

(5) Recognize that discharge activities might destroy or isolate areas that serve the function of retaining natural high waters or flood waters;

(6) Minimize, where practicable, adverse turbidity levels resulting from the discharge of material;

(7) Minimize discharge activities that will degrade aesthetic, recreational, and economic values;

(8) Avoid degradation of water quality as determined through application of § 230.4, 230.5 (c) and (d).

(b) *Considerations relating to degradation of water uses at proposed disposal sites—(1) Municipal water supply intakes.* No disposal site may be designated in the proximity of a public water supply intake. The District Engineer and the Regional Administrator will determine the acceptable location of the disposal site in such cases.

(2) *Shellfish.* (i) Disposal sites for dredged or fill material shall not be designated in areas of concentrated shellfish production. In the case of widely dispersed shellfish populations where it is demonstrated by the applicant that the avoidance of shellfish population areas is impossible the disposal site may be located within such areas, but should be situated so as to cause the least impact on the shellfish population with particular reference to the burial of living forms and maintenance of a suitable substrate.

(ii) Disposal sites should be located to minimize or prevent the possible movement of pollutants by currents or wave action into productive shellfish beds.

(iii) Banks formed by dredged or fill material should be located and oriented to prevent undesirable changes in current patterns, salinity patterns and flushing rates which may affect shellfish.

(iv) The disposal operation should be scheduled to avoid interference with reproductive processes and avoid undue stress to juvenile forms of shellfish.

(3) *Fisheries.* (i) Significant disruptions of fish spawning and nursery areas should be avoided.

(ii) Dredging and disposal operations should be scheduled to avoid interference with fish spawning cycles and to minimize interference with migration patterns and routes.

(iii) Consideration shall be given to preservation of submersed and emergent vegetation.

(4) *Wildlife.* Disposal sites will be designated so as to minimize the impact

on habitat, the food chain, community structures of wildlife, and marine or

(9) *Submersed Vegetation.* Disposal sites shall be located to minimize the im-

fectively confined to prevent the discharge, leaching, or erosion of the ma-

certification under Section 401 of the Federal Water Pollution Control Act and, where applicable, a certification of com-

years of the date of this initial promulgation or earlier as determined by research results and affirmed by the Administra-

(3) For industrial purposes by industries in interstate commerce; or  
(4) In the production of agricultural

on habitat, the food chain, community structures of wildlife, and marine or aquatic sanctuaries.

(5) *Recreation activities.* In evaluating proposed discharges of dredged or fill material in or near recreational areas, the following factors should be considered:

(i) Reasonable methods should be employed to minimize any increase in amount and duration of turbidity which would reduce the numbers and diversity of fish or cause a significant aesthetically displeasing change in the color, taste, or odor of the water.

(ii) Release of nutrients from dredged or fill material should be minimized in order to prevent eutrophication, the degradation of aesthetic values, and impairment of recreation uses.

(iii) No material that will result in unacceptable levels of pathogenic organisms shall be discharged in areas used for recreation involving physical contact with the water.

(iv) No material shall be discharged which will release oil and grease in harmful quantities as defined in 40 CFR 110.

(6) *Threatened and endangered species.* No discharge will be allowed that will jeopardize the continued existence of threatened or endangered species or destroy or modify the habitat of those species determined critical in accordance with the Endangered Species Act.

(7) *Benthic life.* Disposal sites should be areas where benthic life which might be damaged by the discharge is minimal recognizing that enhancement may also occur. Use of existing disposal sites is generally desirable.

(8) *Wetlands.* (i) Discharge of dredged material in wetlands may be permitted only when it can be demonstrated that the site selected is the least environmentally damaging alternative; provided, however, that the wetlands disposal site may be permitted if the applicant is able to demonstrate that other alternatives are not practicable and that the wetlands disposal will not have an unacceptable adverse impact on the aquatic resources. Where the discharge is part of an approved Federal program which will protect or enhance the value of the wetlands to the ecosystem, the site may be permitted.

(ii) Discharge of fill material in wetlands shall not be permitted unless the applicant clearly demonstrates the following:

(a) the activity associated with the fill must have direct access or proximity to, or be located in, the water resources in order to fulfill its basic purpose, or that other site or construction alternatives are not practicable; and

(b) that the proposed fill and the activity associated with it will not cause a permanent unacceptable disruption to the beneficial water quality uses of the affected aquatic ecosystem, or that the discharge is part of an approved Federal program which will protect or enhance the value of the wetlands to the ecosystem.

(9) *Submersed Vegetation.* Disposal sites shall be located to minimize the impact on submersed grassflats (for example *Thalassia* and *Zostera* beds) and other areas containing submersed vegetation of significant biological productivity.

(10) *Size of disposal site.* The specified disposal site shall be confined to the smallest practicable area consistent with the type of dispersion determined to be appropriate by the application of these guidelines. Although the impact of the particular discharge may constitute a minor change, the cumulative effect of numerous such piecemeal changes often results in a major impairment of the water resource and interferes with the productivity and water quality processes of existing environmental systems. Thus, the particular disposal site will be evaluated with the recognition that it is part of a complete and interrelated ecosystem. The District Engineer may undertake reviews of particular areas in response to new applications, and in consultation with the appropriate Regional Director of the Fish and Wildlife Service, the Regional Director of the National Marine Fisheries Service of the National Oceanic and Atmospheric Administration, the Regional Administrator of the Environmental Protection Agency, the State Conservationist of the Soil Conservation Service of the Department of Agriculture, and the head of the appropriate State agencies, including the State Director of an approved Coastal Zone Management Program, to assess the cumulative effect of activities in such areas.

(c) The following may also be considered in determining the site and disposal conditions to minimize the possibility of harmful effects:

(1) Appropriate scientific literature, such as the National Water Quality Criteria developed by the Administrator, pursuant to section 304(a) (1) of the Act;

(2) Alternatives to open water disposal such as upland or confined disposal;

(3) Disposal sites where physical environmental characteristics are most amenable to the type of dispersion desired;

(4) Disposal seaward of the baseline of the territorial sea;

(5) Covering contaminated dredged material with cleaner material;

(6) Conditions to minimize the effect of runoff from confined areas on the aquatic environment; and

(7) The Regional Administrator may specify appropriate monitoring conditions in proximity of disposal sites where necessary to control and minimize water quality degradation, pursuant to Section 308 of the Act.

(d) *Contaminated fill material restrictions.* The discharge of fill material originating from a land source shall not be allowed when the District Engineer determines that the material contains unacceptable quantities, concentrations or forms of the constituents deemed critical by the District Engineer or the Regional Administrator for the proposed disposal site, unless such material is effectively confined to prevent the discharge, leaching, or erosion of the material outside the confined area. Appropriate approaches in 230.4 may be used in making this determination.

(e) *Mixing zone determination.* The mixing zone shall be the smallest practicable mixing zone within each specified disposal site, consistent with the objectives of these guidelines, in which desired concentrations of constituents must be achieved.

The District Engineer and the Regional Administrator shall consider the following factors in determining the acceptability of a proposed mixing zone:

(1) Surface area, shape and volume of the discharge site;

(2) Current velocity, direction and consistency at the discharge site;

(3) Degree of turbulence;

(4) Stratification attributable to causes which include without limitation salinity, obstructions, and specific gravity;

(5) Any on-site studies or mathematical models which have been developed with respect to mixing patterns at the discharge site; and

(6) Such other factors prevailing at the discharge site that affect rates and patterns of mixing.

§ 230.6 General or categorical permits.

(a) The District Engineer upon compliance with the procedures of 33 CFR 209.120 may issue a general permit for a clearly described category of discharge activities if he determines that the category meets the following conditions:

(1) The activities included in the category are substantially similar in nature; and

(2) The activities included in the category have substantially similar impact on water quality and the aquatic system, and the adverse impact on water quality and the aquatic system is minimal for each discharge activity; and

(3) The cumulative impact of the total number of activities predicted to occur during the period authorized by the permit, is expected to have only minimal adverse effect on water quality and the aquatic system.

(b) The District Engineer, may condition general permits to require dischargers to submit the following information at least 45 days prior to commencement of the discharge of dredged or fill material:

(1) The name and address of the discharger.

(2) The location of the contemplated activity including the name and general description of the receiving waters, including wetlands, and the size of the area to be filled.

(3) A brief description of the proposed activity, its purpose and intended use, including a description of the type of structures, if any, to be erected on fills.

(4) A description of the type, composition, and quantity of materials to be discharged and means of conveyance.

(5) A copy of other Federal, State, and local government authorizations obtained including a State water-quality

certification under Section 401 of the Federal Water Pollution Control Act and, where applicable, a certification of compliance with an approved State Coastal Zone Management Program pursuant to Section 307(c) (3) of the Coastal Zone Management Act.

(c) If reporting is required the District Engineer shall record the individual disposal site as authorized and authorization will occur automatically 30 days after receipt of notification unless the applicant is otherwise notified by the District Engineer.

(d) A general permit may be revoked completely or partially by the District Engineer independently or on the advice of the Regional Administrator, if he determines that the discharges of dredged or fill material authorized by it or the cumulative effects thereof will have an adverse impact on water quality and the aquatic system. Following revocation, any discharges of dredged or fill material in areas formerly covered by the general permit shall be processed as individual permits under this regulation.

§ 230.7 Advanced identification of dredged material disposal areas.

(a) The District Engineer and the Regional Administrator, after consultation with the affected State or States, may at their discretion and consistent with the guidelines, identify areas which will be considered as:

(1) Possible future disposal sites; or

(2) Areas which will not be available for disposal site specification.

(b) The identification of any area as a possible future disposal site shall not be deemed to constitute a permit for the discharge of dredged or fill material within such areas, but may be used in evaluating individual or general permit applications.

(c) A record of areas so identified shall be maintained at the offices of the District Engineer and the Regional Administrator.

(d) To provide the basis for advanced identification of disposal areas and of areas not available for disposal, the Regional Administrator and the District Engineer should assess waterbodies to determine those areas which are of critical ecological concern, those which are of environmental concern, and non-sensitive areas. To facilitate this analysis, they should assemble water resource management data including such data as may be available from the other Federal and State agencies listed in § 230.5(b) (10) and information from approved Coastal Zone Management Programs and River Basin Plans.

§ 230.8 Revision.

The provisions of these guidelines will be periodically reviewed by the Administrator in conjunction with the Secretary of the Army pursuant to section 404(b) (1) of the Act. The guidelines may not be modified without approval of the Secretary of the Army and the Administrator. Any proposed revisions, or notice that a review has been completed and no revisions are proposed, will be published in the FEDERAL REGISTER within three

years of the date of this initial promulgation or earlier as determined by research results and affirmed by the Administrator in conjunction with the Secretary of the Army.

#### APPENDIX A

DEFINITIONS FROM 33 CFR 209.120, "PERMITS FOR WORK IN NAVIGABLE WATERS OR OCEAN WATERS"

(1) "Navigable waters of the United States." The term, "navigable waters of the United States," is administratively defined to mean waters that have been used in the past, are now used, or are susceptible to use as a means to transport interstate commerce landward to their ordinary high water mark and up to the head of navigation as determined by the Chief of Engineers, and also waters that are subject to the ebb and flow of the tide shoreward to their mean high water mark (mean higher high water mark on the Pacific Coast). See 33 CFR 209.260 (ER 1165-2-302) for a more definitive explanation of this term.

(2) "Navigable waters". (i) The term, "navigable waters," as used herein for purposes of Section 404 of the Federal Water Pollution Control Act, is administratively defined to mean waters of the United States including the territorial seas with respect to the disposal of fill material and excluding the territorial sea with respect to the disposal of dredged material and shall include the following waters:

(a) Coastal waters that are navigable waters of the United States subject to the ebb and flow of the tide, shoreward to their mean high water mark (mean higher high water mark on the Pacific Coast);

(b) All coastal wetlands, mudflats, swamps, and similar areas that are contiguous or adjacent to other navigable waters. "Coastal wetlands" includes marshes and shallows and means those areas periodically inundated by saline or brackish waters and that are normally characterized by the prevalence of salt or brackish water vegetation capable of growth and reproduction;

(c) Rivers, lakes, streams, and artificial water bodies that are navigable waters of the United States up to their headwaters and landward to their ordinary high water mark;

(d) All artificially created channels and canals used for recreational or other navigational purposes that are connected to other navigable waters, landward to their ordinary high water mark;

(e) All tributaries of navigable waters of the United States up to their headwaters and landward to their ordinary high water mark;

(f) Interstate waters landward to their ordinary high water mark and up to their headwaters;

(g) Intrastate lakes, rivers and streams landward to their ordinary high water mark and up to their headwaters that are utilized;

(1) By interstate travelers for water-related recreational purposes;

(2) For the removal of fish that are sold in interstate commerce;

(3) For industrial purposes by industries in interstate commerce; or

(4) In the production of agricultural commodities sold or transported in interstate commerce;

(h) Freshwater wetlands including marshes, shallows, swamps and, similar areas that are contiguous or adjacent to other navigable waters and that support freshwater vegetation. "Freshwater wetlands" means those areas that are periodically inundated and that are normally characterized by the prevalence of vegetation that requires saturated soil conditions for growth and reproduction; and

(i) those other waters which the District Engineer determines necessitate regulation for the protection of water quality as expressed in the guidelines (40 CFR 230). For example, in the case of intermittent rivers, streams, tributaries, and perched wetlands that are not contiguous or adjacent to navigable waters identified in paragraphs (a)-(h) a decision on jurisdiction shall be made by the District Engineer.

(ii) The following additional terms are defined as follows:

(a) "Ordinary high water mark" with respect to inland fresh water means the line on the shore established by analysis of all daily high waters. It is established as that point on the shore that is inundated 25% of the time and is derived by a flow-duration curve for the particular water body that is based on available water stage data. It may also be estimated by erosion or easily recognized characteristics such as shelving, change in the character of the soil, destruction of terrestrial vegetation or its inability to grow, the presence of litter and debris, or other appropriate means that consider the characteristics of the surrounding area;

(b) "Mean high water mark" with respect to ocean and coastal waters means the line on the shore established by the average of all high tides (all higher high tides on the Pacific Coast). It is established by survey based on available tidal data (preferably averaged over a period of 18.6 years because of the variations in tide). In the absence of such data, less precise methods to determine the mean high water mark may be used, such as physical markings or comparison of the area in question with an area having similar physical characteristics for which tidal data are already available;

(c) "Lakes" means natural bodies of water greater than five acres in surface area and all bodies of standing water created by the impounding of navigable waters identified in paragraphs (a)-(h), above. Stock watering ponds and settling basins that are not created by such impoundments are not included;

(d) "Headwaters" means the point on the stream above which the flow is normally less than 5 cubic feet per second; provided, however, the volume of flow, point and nonpoint source discharge characteristics of the watershed, and other factors that may impact on the water quality of waters of the United States will be considered in determining this upstream limit; and

(e) "Primary tributaries" means the of dredged material to a specified dis- or approaches, and transportation struc-

(e) "Primary tributaries" means the main stems of tributaries directly connecting to navigable waters of the United States up to their headwaters and does not include any additional tributaries extending off of the main stems of these tributaries.

(3) "Ocean waters". The term "ocean waters," as defined in the Marine Protection, Research, and Sanctuaries Act of 1972 (Pub. L. 92-532), 86 Stat. 1052), means those waters of the open seas lying seaward of the base line from which the territorial sea is measured as provided for in the Convention on the Territorial Sea and the Contiguous Zone (15 UST 1606; TIAS 5639).

(4) "Dredged material". The term "dredged material" means material that is excavated or dredged from navigable waters. The term does not include material resulting from normal farming, silviculture, and ranching activities, such as plowing, cultivating, seeding, and harvesting, for production of food, fiber, and forest products.

(5) "Discharge of dredged material". The term "discharge of dredged material" means any addition of dredged material, in excess of one cubic yard when used in a single or incidental operation, into navigable waters. The term includes, without limitation, the addition

of dredged material to a specified disposal site located in navigable waters and the runoff or overflow from a contained land or water disposal area. Discharges of pollutants into navigable waters resulting from the onshore subsequent processing of dredged material that is extracted for any commercial use (other than fill) are not included within this term and are subject to section 402 of the Federal Water Pollution Control Act even though the extraction of such material may require a permit from the Corps of Engineers under section 10 of the River and Harbor Act of 1899.

(6) "Fill material." The term "fill material" means any pollutant used to create fill in the traditional sense of replacing an aquatic area with dry land or of changing the bottom elevation of a water body for any purpose. "Fill material" does not include the following:

(i) Material resulting from normal farming, silviculture, and ranching activities, such as plowing, cultivating, seeding, and harvesting, for the production of food, fiber, and forest products;

(ii) Material placed for the purpose of maintenance, including emergency reconstruction of recently damaged parts of currently serviceable structures such as dikes, dams, levees, groins, riprap, breakwaters, causeways, and bridge abutments

or approaches, and transportation structures;

(iii) Additions to these categories of activities that are not "fill" will be considered periodically and these regulations amended accordingly.

(7) "Discharge of fill material." The term "discharge of fill material" means the addition of fill material into navigable waters for the purpose of creating fastlands, elevations of land beneath navigable waters, or for impoundments of water. The term generally includes, without limitation, the following activities in a navigable water: placement of fill that is necessary to the construction of any structure; the building of any structure or impoundment requiring rock, sand, dirt, or other pollutants for its construction; site-development fills for recreational, industrial, commercial, residential, and other uses; causeways or road fills; dams and dikes; artificial islands, property protection and/or reclamation devices such as riprap, groins, seawalls, breakwalls, and bulkheads and fills; beach nourishment; levees; sanitary landfills; fill for structures such as sewage treatment facilities, intake and outfall pipes associated with power plants, and subaqueous utility lines; and artificial reefs.

## EFFLUENT LIMITATIONS AND GUIDELINES FOR EXISTING SOURCES AND STANDARDS OF PERFORMANCE AND PRETREATMENT STANDARDS FOR NEW SOURCES FOR THE BLEACHED KRAFT, GROUNDWOOD, SULFITE, SODA, DEINK AND NON-INTEGRATED PAPER MILLS SEGMENT OF THE PULP, PAPER, AND PAPERBOARD POINT SOURCE CATEGORY

### Advanced Notice of Proposed or Promulgated Rule Making

The Environmental Protection Agency (EPA) is hereby giving advance notice of intent to propose or promulgate effluent limitations guidelines for existing sources and standards of performance and pretreatment standards for new sources set forth in tentative form below. On May 29, 1974, EPA promulgated a regulation adding Part 430 to Chapter 40 of the Code of Federal Regulations (39 FR 18742). That regulation established effluent limitations and guidelines for existing sources and standards of performance and pretreatment standards for new sources for the pulp, paper, and paperboard point source category. The regulation set forth below when promulgated will amend 40 CFR 430—pulp, paper, and paperboard point source category by adding thereto the dissolving kraft subcategory (Subpart F); the market kraft subcategory (Subpart G); the BCT kraft subcategory (Subpart H); the fine kraft subcategory (Subpart I); the papergrade sulfite subcategory (Subpart J); the dissolving sulfite subcategory (Subpart K); the GW-chemi-mechanical subcategory (Subpart L); the GW-thermo-mechanical subcategory (Subpart M); the GW-CMN papers subcategory (Subpart N); the GW-fine papers subcategory (Subpart O); the soda subcategory (Subpart P); the deink subcategory (Subpart Q); the NI fine papers subcategory (Subpart R); the NI tissue papers subcategory (Subpart S); and the NI tissue (FWP) subcategory (Subpart T) pursuant to sections 301, 304 (b) and (c), 306(b), 307(c), and 501(a) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1311, 1314 (b) and (c), 1316(b) and 1317(c); 86 Stat. 816 et seq.; Pub. L. 92-500) (the Act).

This advance notice of proposed or promulgated rulemaking is being issued pursuant to EPA's policy of providing the interested public the greatest possible opportunity for review and comment. In developing the requisite data to support effluent limitations guidelines and standards, EPA commissioned a study and report entitled "Draft Development Document for Effluent Limitations Guidelines and Standards of Performance—Pulp, Paper, and Paperboard Industry" prepared by WAPORA, Inc. dated July, 1974. Copies of the contractor's reports have been circulated among industry representatives, government agencies,

public interest groups, and other interested persons, and comments have been received thereon. In light of these comments, as well as its own review of the reports, EPA presently intends to establish regulations which differ in some material respects from the recommendations contained in the contractor's report. The purpose, therefore, in giving this advance notice is to apprise interested persons of EPA's expected course of action, and to provide such interested persons with an opportunity to submit comments thereon.

In addition, this advance notice is given so as to obtain the aforesaid comments in sufficient time to enable EPA to promulgate effluent limitations and guidelines by December 15, 1975, in accordance with the order of the United States District Court for the District of Columbia in *Natural Resources Defense Council, Inc. v. Russell E. Train et al.* (Civil Action No. 1609-73; order entered April 24, 1975, modifying previous order of November 1, 1974).

#### (a) Legal Authority.

##### (1) Existing point sources.

Section 301(b) of the Act requires the achievement by not later than July 1, 1977, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of the best practicable control technology currently available as defined by the Administrator pursuant to section 304(b) of the Act. Section 301(b) also requires the achievement by not later than July 1, 1983, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of best available technology economically achievable which will result in reasonable further progress toward the national goal of eliminating the discharge of all pollutants, as determined in accordance with regulations issued by the Administrator pursuant to section 304(b) of the Act.

Section 304(b) of the Act requires the Administrator to publish regulations providing guidelines for effluent limitations setting forth the degree of effluent reduction attainable through the application of the best practicable control technology currently available and the degree of effluent reduction attainable through the application of the best control measures and practices achievable including treatment techniques, process and procedural innovations, operating methods and other alternatives. The advance notice regulation herein when promulgated will set forth effluent limitations guidelines, pursuant to sections 301 and 304(b) of the Act, for the dissolving kraft subcategory (Subpart F); the market kraft subcategory (Subpart G); the BCT kraft subcategory (Subpart H); the fine kraft subcategory (Subpart I); the papergrade sulfite subcategory (Subpart J); the dissolving sulfite subcategory (Subpart K); the GW-chemi-mechanical subcategory (Subpart L); the GW-thermo-mechanical subcategory (Subpart M); the GW-CMN papers subcategory (Subpart N); the GW-fine papers subcategory (Sub-

part O); the soda subcategory (Subpart P); the deink subcategory (Subpart Q); the NI fine papers subcategory (Subpart R); the NI tissue papers subcategory (Subpart S); and the NI tissue (FWP) subcategory (Subpart T) of the pulp, paper, and paperboard point source category.

##### (2) New sources.

Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants.

Section 306(b) (1) (B) of the Act requires the Administrator to propose regulations establishing Federal standards of performance for categories of new sources included in a list published pursuant to section 306(b) (1) (A) of the Act. The Administrator published in the FEDERAL REGISTER of January 16, 1973, (38 FR 1624) a list of 27 source categories, including the pulp, paper, and paperboard category. The advanced notice regulations herein set forth the standards of performance applicable to new sources for the dissolving kraft subcategory (Subpart F); the market kraft subcategory (Subpart G); the BCT kraft subcategory (Subpart H); the fine kraft subcategory (Subpart I); the papergrade sulfite subcategory (Subpart J); the dissolving sulfite subcategory (Subpart K); the GW-chemi-mechanical subcategory (Subpart L); the GW-thermo-mechanical subcategory (Subpart M); the GW-CMN papers subcategory (Subpart N); the GW-fine papers subcategory (Sub-

part O); the soda subcategory (Subpart P); the deink subcategory (Subpart Q); the NI fine papers subcategory (Subpart R); the NI tissue papers subcategory (Subpart S); and the NI tissue (FWP) subcategory (Subpart T) of the pulp, paper, and paperboard point source category.

Section 307(c) of the Act requires the Administrator to promulgate pretreatment standards for new sources at the same time that standards of performance for new sources are promulgated pursuant to section 306. Sections 430.66, 430.76, 430.86, 430.96, 430.106, 430.116, 430.126, 430.136, 430.146, 430.156, 430.166, 430.176, 430.186, 430.196 and 430.206, below, provide advanced notice pretreatment standards for new sources within dissolving kraft subcategory (Subpart F); the market kraft subcategory (Subpart G); the BCT kraft subcategory (Subpart H); the fine kraft subcategory (Subpart I); the papergrade sulfite subcategory (Subpart J); the dissolving sulfite subcategory (Subpart K); the GW-chemi-mechanical subcategory (Subpart L); the GW-thermo-mechanical subcategory (Subpart M); the GW-CMN papers subcategory (Subpart N); the GW-fine papers subcategory (Sub-

part O); the deink subcategory (Subpart Q); the NI fine papers subcategory (Subpart R); the NI tissue papers subcategory (Subpart S); and the NI tissue (FWP) subcategory (Subpart T) of the pulp, paper, and paperboard point source category.

Section 304(c) of the Act requires the Administrator to issue to the States and appropriate water pollution control agencies information on the processes, procedures or operating methods which result in the elimination or reduction of the discharge of pollutants to implement standards of performance under section 306 of the Act. The report or "Development Document" referred to below provides, pursuant to section 304(c) of the Act, information on such processes, procedures or operating methods.

(b) Summary and Basis of Advanced Notice Effluent Limitations Guidelines for Existing Sources and Standards of Performance and Pretreatment Standards for New Sources.

#### (1) General methodology.

The advanced notice effluent limitations guidelines, standards of performance, and pretreatment standards proposed herein were developed in the following manner. The point source category was first studied for the purpose of determining whether separate limitations and standards are appropriate for different segments within the category. This analysis included a determination of whether differences in raw material used, product produced, manufacturing process employed, age, size, waste water constituents and other factors require development of separate limitations and standards for different segments of the point source category. The raw waste characteristics for each such segment were then identified. This included an analysis of the source, flow and volume of water used in the process employed, the sources of waste and waste waters in the operation and the constituents of all waste water. The constituents of the waste waters which should be subject to effluent limitations guidelines and standards of performance were identified.

The control and treatment technologies existing within each segment were identified. This included an identification of each distinct control and treatment technology, including both in-plant and end-of-process technologies, which is existent or capable of being designed for each segment. It also included an identification of, in terms of the amount of constituents and the chemical, physical, and biological characteristics of pollutants, the effluent level resulting from the application of each of the technologies. The problems, limitations and reliability of each treatment and control technology were also identified. In addition, the nonwater quality environmental impact, such as the effects of the application of such technologies upon other pollution problems, including air, solid waste, noise and radiation were identified. The energy requirements of each control and treatment technology were determined as well as the cost of the application of such technologies.

The information, as outlined above, was then evaluated in order to determine what levels of technology constitute the "best practicable control technology currently available," "best available technology economically achievable" and the "best available demonstrated control technology, processes, operating methods, or other alternatives." In identifying such technologies, various factors were considered. These included the total cost of application of technology in relation to the effluent reduction benefits to be achieved from such application, the age of equipment and facilities involved, the process employed, the engineering aspects of the application of various types of control techniques, process changes, nonwater quality environmental impact (including energy requirements) and other factors.

The data upon which the above analysis was performed included EPA permit applications, EPA sampling and inspections, consultant reports, and industry submissions.

The advanced notice of pretreatment standards herein is intended to be complementary to the pretreatment standards proposed for existing sources under 40 CFR 128. The basis for such standards is set forth in the FEDERAL REGISTER of July 19, 1973, 38 FR 19236. The provisions of Part 128 are equally applicable to sources which would constitute "new sources," under section 306 if they were to discharge pollutants directly to navigable waters, except for section 128.133. That section provides a pretreatment standard for "incompatible pollutants" which requires application of the "best practicable control technology currently available," subject to an adjustment for amounts of pollutants removed by the publicly owned treatment works. Since the advanced notice pretreatment standards herein apply to new sources, §§ 430.66, 430.76, 430.86, 430.96, 430.106, 430.116, 430.126, 430.136, 430.146, 430.156, 430.166, 430.176, 430.186, 430.196 and 430.206 below amend § 128.133 to specify the application of the standard of performance for new sources rather than the "best practicable" standard applicable to existing sources under sections 301 and 304(b) of the Act.

(2) Summary of conclusions with respect to the dissolving kraft subcategory (Subpart F); the market kraft subcategory (Subpart G); the BCT kraft subcategory (Subpart H); the fine kraft subcategory (Subpart I); the papergrade sulfite subcategory (Subpart J); the dissolving sulfite subcategory (Subpart K); the GW-chemi-mechanical subcategory (Subpart L); the GW-thermo-mechanical subcategory (Subpart M); the GW-CMN papers subcategory (Subpart N); the GW-fine papers subcategory (Subpart O); the soda subcategory (Subpart P); the deink subcategory (Subpart Q); the NI fine papers subcategory (Subpart R); the NI tissue papers subcategory (Subpart S); and the NI tissue (FWP) subcategory (Subpart T) of the pulp, paper, and paperboard point source category.

#### (i) Categorization.

For the purpose of studying waste treatment and effluent limitations, the bleached kraft, groundwood, sulfite, soda, deink and non-integrated paper mills segment of the pulp, paper and paperboard manufacturing industry category were divided into fifteen discrete subcategories, primarily based on a consideration of the raw materials utilized, production processes employed, products produced, size and age of mills, waste water characteristics and treatability, and geographical location as outlined in the report entitled, "Development Document for Advance Notice of Proposed or Promulgated Rulemaking for the Bleached Kraft, Groundwood, Sulfite, Soda, Deink and Non-Integrated Paper Mills Segment of the Pulp, Paper and Paperboard Point Source Category". When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations applicable to the total production covered by each subcategory.

(1) Subpart F—Dissolving Kraft Subcategory. This subcategory includes mills which produce a highly bleached pulp by a "full cook" process, utilizing a highly alkaline sodium hydroxide and sodium sulfide cooking liquor. Included in the manufacturing process is a "pre-cook" operation termed pre-hydrolysis. The principal product made by this process is a highly bleached and purified dissolving pulp used principally for the manufacture of rayon and other products requiring the virtual absence of lignin and a very high alpha cellulose content.

(2) Subpart G—Market Kraft Subcategory. This subcategory includes mills which produce a bleached pulp by a "full cook" process utilizing a highly alkaline sodium hydroxide and sodium sulfide cooking liquor. The principal product made by this process is papergrade market pulp.

(3) Subpart H—BCT Kraft Subcategory. This subcategory includes mills which produce a bleached pulp by a "full cook" process utilizing a highly alkaline sodium hydroxide and sodium sulfide cooking liquor. The principal product made by this process is papers with clays and filler contents less than eight percent, including paperboard, coarse papers, and tissue papers.

(4) Subpart I—Fine Kraft Subcategory. This subcategory includes mills which produce a bleached pulp by a "full cook" process utilizing a highly alkaline sodium hydroxide and sodium sulfide cooking liquor. The principal product made by this process is fine papers which contain eight percent clays and filler or above.

(5) Subpart J—Papergrade Sulfite Subcategory. This subcategory includes mills which produce pulp, usually bleached, by a "full cook" process using an acidic cooking liquor of bisulfites of calcium, magnesium, ammonia, or sodium containing an excess of free sulfite dioxide. The principal products made by this process are tissue and fine papers.

(6) Subpart K—Dissolving Sulfite Subcategory. This subcategory includes mills which produce pulp, usually bleached, by a "full cook" process using an acidic cooking liquor of bisulfites of calcium, magnesium, ammonia, or sodium containing an excess of free sulfite dioxide. The principal products made by this process are tissue and fine papers.

papers from wood pulp or deinked pulp prepared at another site. The principal best available technology economically

## PROPOSED RULES

(6) Subpart E—Dissolving Sulfite Subcategory. This subcategory includes mills which produce a highly bleached and purified pulp by a "full cook" process using very strong solutions of bisulfites of calcium, magnesium, ammonia, or sodium containing an excess of free sulfur dioxide. The principal product made by this process is rayon and other products requiring the virtual absence of lignin and a very high alpha cellulose content.

(7) Subpart L—Groundwood Chemical-Mechanical Subcategory. This subcategory includes mills which produce a pulp, with or without brightening, utilizing a chemical cooking liquor to partially cook the wood followed by mechanical defibration by refining at atmospheric pressure. The principal products made by this process are fine papers, newsprint, and molded fiber products.

(8) Subpart M—Groundwood Thermo-Mechanical Subcategory. This subcategory includes mills which produce a pulp, with or without brightening, by a brief cook utilizing steam, with or without the addition of cooking chemicals such as sodium sulfite, followed by mechanical defibration by refiners which are under pressure. The principal products of this process are fine papers, newsprint, and tissue products.

(9) Subpart N—Groundwood-CMN Papers Subcategory. This subcategory includes mills which produce pulp, with or without brightening, utilizing only mechanical defibration by either stone grinders or refiners. The principal products made by this process are coarse papers, molded fiber products, and newsprint which include papers with clay and filler contents less than eight percent.

(10) Subpart O—Groundwood Fine Papers Subcategory. This subcategory includes mills which produce pulp, with or without brightening, utilizing only mechanical defibration by either stone grinders or refiners. The principal product made by this process is fine papers which contain eight percent or more clays and fillers.

(11) Subpart P—Soda Subcategory. This subcategory includes mills which produce a bleached pulp by a "full cook" process utilizing a highly alkaline sodium hydroxide cooking liquor. The principal products made by this process are printing and writing papers.

(12) Subpart Q—De-ink Subcategory. This subcategory includes mills which produce a pulp usually brightened or bleached from recycled waste papers in which an alkaline treatment is utilized to remove contaminants such as ink and coating pigments. The principal products of this process are printing paper, tissue, and newsprint.

(13) Subpart R—Non-Integrated Fine Subcategory. This subcategory includes mills which produce fine papers from wood pulp or deinked pulp prepared at another site. The principal products of this process are printing, writing, and technical grade papers.

(14) Subpart S—Non-Integrated Tissue Paper Subcategory. This subcategory includes mills which produce tissue

papers from wood pulp or deinked pulp prepared at another site. The principal products of this process include facial and toilet papers, glassine, paper diapers, and paper towels.

(15) Subpart T—Non-Integrated Tissue Papers (FWP) Subcategory. This subcategory includes mills which produce tissue papers from recycled waste papers. The principal products made by this process include facial and toilet papers, glassine, paper diapers, and paper towels.

(ii) Waste characteristics. The significant pollutant parameters in waste waters resulting from the dissolving kraft subcategory, market kraft subcategory, BCT kraft subcategory, fine kraft subcategory, papergrade sulfite subcategory, dissolving sulfite subcategory, GW-chem-mechanical subcategory, GW-thermo-mechanical subcategory, GW-CMN papers subcategory, GW-fine papers subcategory, soda subcategory, deink subcategory, NI fine papers subcategory, and the NI tissue (FWP) subcategory of the pulp, paper and paperboard manufacturing category includes five day biochemical oxygen demand (BOD<sub>5</sub>), total suspended non-filterable solids (TSS), pH, color (for bleached kraft and soda subcategories) and zinc (for groundwood subcategories).

Advanced notice effluent limitation guidelines and standards of performance are established below to control each of the above pollutants. No limitations have been established for several other waste water pollutants which are considered to be of lesser importance because (a) available data has indicated these pollutants are normally removed when BOD<sub>5</sub> or TSS are removed, (b) they occur in insignificant quantities, or (c) technology is not available to control the pollutant discharges.

(iii) Origin of waste water pollutants. The origin of waste water pollutants in the dissolving kraft, market kraft, BCT kraft, fine kraft, papergrade sulfite, dissolving sulfite, GW-chem-mechanical, GW-thermo-mechanical, GW-CMN papers, GW-fine papers, soda, deink, NI fine papers, NI tissue papers, and the NI tissue (FWP) subcategories result from the following applicable operations:

woodyard, digestion, and pulp washing, chemical recovery, cooking liquor preparation, pulp screening, bleaching, and papermaking. The primary continuous sources of waste water pollutants are (a) the white water from the paper machine, (b) evaporator and digester condensates, (c) pulp washing and screening operations, and (d) bleaching operations. Major intermittent sources of waste water pollutants are (e) spills from cooking liquor preparation areas, (f) spills of spent cooking liquor from the evaporator and recovery systems, (g) papermaking system spills and washups.

(iv) Treatment and control technology.

Waste water treatment and control technologies have been studied for each subcategory of the industry to determine what is (a) the best practicable control

technology currently available, (b) the best available technology economically achievable, and (c) the best available demonstrated control technology, processes, operating methods or other alternatives.

In-plant procedures to control pollution include strict management control over housekeeping and water use practices, minimization of the intake of water by re-use and recirculation of waste waters.

"End-of-process" waste water treatment processes include preliminary screening, primary sedimentation, biological treatment, and some physical-chemical treatment.

Best practicable control technology currently available for all subcategories except for NI tissue includes biological treatment.

The most commonly employed biological treatment systems presently used by mills within all of the subcategories include (1) aerated stabilization basins and (2) activated sludge treatment systems.

Reduction of pollutant parameters levels by either can achieve the best practicable control technology currently available effluent limitations guidelines. A specific level of effluent quality can generally be achieved by either aerated stabilization basins or activated sludge depending upon the design and operation of the treatment system.

Best available control technology economically achievable for all subcategories includes biological treatment and mixed media filtration with, if necessary, chemical addition and coagulation. In addition, color may be removed from mill effluents within the bleached kraft and soda subcategories by lime treatment.

Treatment required to achieve the best available demonstrated control technology, processes, operating methods or other alternatives for new sources is the same as the best available control technology economically achievable except that color removal for the subcategories of bleached kraft and soda is not required, and mixed media filtration is not required for any of the subcategories.

Best practicable control technology and best available control technology as they are known today, require disposal of the pollutants removed from waste waters in this industry in the form of solid wastes and liquid concentrates. In most cases these are nonhazardous substances requiring only minimal custodial care. However, some constituents may be hazardous and may require special consideration. In order to insure long-term protection of the environment from these hazardous or harmful constituents, special consideration of disposal sites must be made. All landfill sites where such hazardous wastes are disposed should be selected so as to prevent horizontal and vertical migration of these contaminants to ground or surface waters. In cases where geological conditions may not reasonably ensure this, adequate legal and mechanical precautions (e.g. impervious liners) should be taken to ensure long term protection to the environment from hazardous materials. Where appropriate,

(4) One commenter said that there was no real analysis of the costs of air

the location of solid hazardous materials disposal sites should be permanently recorded in the appropriate office of legal jurisdictions.

(v) Cost estimates for control of waste water pollutants.

Pollution control costs have been estimated for each subcategory for one to four plant sizes. Both aerated stabilization basins (ASB) and activated sludge treatment systems (A) were examined for EPCTCA, BATEA, and NSPS. Costs for the largest model mill in each subcategory are presented as cumulative costs and are as follows:

BPCTCA				
Mill	Total investment costs (\$MM)		Total annual costs (in thousands of kilograms)	
	ASB	A	ASB	A
Dissolving kraft, 907 kkg/d	\$21.6	\$27.2	\$15.2	\$19.0

<sup>1</sup> Multiply by 0.907 to convert to dollars per ton.

(vi) Energy requirements and non-water quality environmental impacts.

Non water quality impacts of the pollution control systems were analyzed and found to be of little consequence. Energy requirements of the industry are relatively low; power required to operate the internal controls and the mechanically aerated biological systems will increase consumption on an average of 2.5 percent. Solid wastes from treatment sludges and some odor from treatment systems are encountered, but no substantial impact can be identified.

(vii) Economic impact analysis.

A study of the economic impact of these advanced notice regulations is under way and will be reported separately in the near future as a separate report.

The report entitled "Development Document for Advanced Notice of Proposed or Promulgated Rulemaking for Effluent Limitations Guidelines and New Source Performance Standards for the Bleached Kraft, Groundwood, Sulfite, Soda, Deink and Non-Integrated Paper Mills Segment of the Pulp, Paper, and Paperboard Point Source Category" details the analysis undertaken in support of the advanced notice regulation herein and is available for inspection in the EPA Freedom of Information Center, Room 204, West Tower, Waterside Mall, Washington, D.C., at all EPA regional offices, and at State water pollution control offices. A supplementary analysis prepared for EPA of the possible economic effects of the proposed regulation will be available for inspection at these locations at a later date. Copies of both of these documents will be sent to persons or institutions affected by the advanced notice regulation or who have placed them-

selves on a mailing list for this purpose (see EPA's Advance Notice of Public Review Procedures, 38 FR 21202, August 6, 1973). An additional limited number of copies are available. Persons wishing to obtain a copy may write the EPA Office of Public Affairs, Environmental Protection Agency, Washington, D.C. 20460. Attention: Ms. Ruth Brown, A-107.

On June 14, 1973, the Agency published procedures designed to insure that, when certain major standards, regulations, and guidelines are proposed, an explanation of their basis, purpose and environmental effects is made available to the public (38 FR 15653). The procedures are applicable to major standards, regulations and guidelines which are proposed on or after December 31, 1973, and which prescribe national standards of environmental quality or require national emission, effluent or performance standards and limitations.

The Agency determined to implement these procedures in order to insure that the public was apprised of the environmental effects of its major standards setting actions and was provided with detailed background information to assist it in commenting on the merits of a proposed action. In brief, the procedures call for the Agency to make public the information available to it, delineating the major nonenvironmental factors affecting the decision, and to explain the viable options available to it and the reasons for the option selected.

The procedures contemplate publication of this information in the Federal Register, where this is practicable. They provide, however, that where, because of the length of these materials, such publication is impracticable, the material may be made available in an alternate format.

The report entitled "Development Document for Advanced Notice of Proposed or Promulgated Rulemaking for Effluent Limitations Guidelines and New Source Performance Standards for the Bleached Kraft, Groundwood, Sulfite, Soda, Deink and Non-Integrated Paper Mills Segment of the Pulp, Paper, and Paperboard Point Source Category" contains information available to the Agency concerning the major environmental effects of the advanced notice regulation below, including:

(1) the pollutants presently discharged into the Nation's waterways by manufacturers of pulp, paper, and paperboard and the degree of pollution reduction obtainable from implementation of the proposed guidelines and standards (see particularly Sections IV, V, VI, VII, IX, X, and XI);

(2) the anticipated effects of the advanced notice regulation on other aspects of the environment including air, solid waste disposal and land use, and noise (see particularly Section VIII); and

## PROPOSED RULES

(3) options available to the Agency in developing the advanced notice regulatory system and the reasons for its selecting the particular levels of effluent reduction (see particularly Sections VI, VII, and VIII).

The supplementary economic report will contain an estimate of the cost of pollution control requirements and an analysis of the possible effects of the advanced notice regulation on prices, production levels, employment, communities in which pulp, paper, and paperboard manufacturing plants are located, and international trade. In addition, the Development Document describes, in Section VIII, the cost and energy consumption implications of the advanced notice regulations.

The two reports described above in the aggregate exceed 1000 pages in length and contain a substantial number of charts, diagrams, and tables. It is clearly impracticable to publish the material contained in these documents in the *Federal Register*. To the extent possible, significant aspects of the material have been presented in summary form in foregoing portions of this preamble. Additional discussion is contained in the following analysis of comments received and the Agency's response to them. As has been indicated, both documents will be available for inspection at the Agency's Washington, D.C. and regional offices and at State water pollution control agency offices. Copies of each have been distributed to persons and institutions affected by the advanced notice regulations or who have placed themselves on a mailing list for this purpose. Finally, so long as the supply remains available, additional copies may be obtained from the Agency as described above.

When this regulation is promulgated, revised copies of the Development Document will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of the Economic Analysis will be available through the National Technical Information Service, Springfield, Virginia 22151.

(c) Summary of public participation. Prior to this publication, agencies and groups were consulted and given an opportunity to participate in the development of advanced notice effluent limitations, guidelines and standards for the pulp, paper, and paperboard manufacturing category. All participating agencies and groups have been informed of project developments. An initial draft of the Development Document was sent to all participants and comments were solicited on that report.

The following responded with comments: Nicolet Paper Co.; National Council of the Paper Industry for Air and Stream Improvement, Inc.; Kimberly-Clark Corp.; State of Michigan; Mead Corp.; Crown Zellerbach Corp.; International Paper Corp.; The Buckeye Cellulose Corp.; Scott Paper Co.; Hammermill Paper Co.; State of North Carolina; State of Wisconsin; State of New York; State of Idaho; The Procter &

Gamble Co.; Newton Falls Paper Mill, Inc.; State of Illinois; Eastex Inc.; ESWQIAC; Weyerhaeuser Corp.; American Paper Institute; and IVL (Sweden).

The primary issues raised in the development of the advanced notice effluent limitations guidelines and standards of performance and the treatment of these issues herein are as follows:

(1) A large number of comments were received that stated that special allowances should be established for mills subject to climatological extremes (i.e., temperature).

The effects of temperature upon biological treatment efficiencies should be accounted for in the design and operation of biological treatment systems (i.e., short term detention time biological treatment systems such as activated sludge are much less affected by climatic conditions than are long term detention time systems such as aerated stabilization basins). See the Development Document (Section VII).

(2) Comments were received which stated that two stage biological treatment systems in use by many pulp and paper mills should be considered as BATEA and not BPCTCA. The external treatment at these mills includes two-stage biological systems which include aerated stabilization basins followed by storage ponds. The commenters argued that these two-stage systems represent BATEA since the storage ponds primary purpose is to control the discharge according to the receiving water quality.

The Agency agrees that one of the purposes of the storage ponds is for controlling the discharge to meet receiving water requirements. However, further reductions in BOD<sub>5</sub> and TSS generally occur in the storage ponds, as these ponds are frequently described as storage oxidation ponds. The two-stage biological system represents BPCTCA at these mills. The design and operation of the aerated stabilization basins are such that the storage oxidation ponds are relied upon to remove BOD<sub>5</sub> and TSS. Thus, the aerated stabilization basins at these particular mills cannot be specified as BPCTCA. Therefore, the final effluent data from these particular mills was utilized in developing the limitations.

(3) A few commenters felt that the effluent limitations should be influenced by receiving water assimilative capacities at each particular site.

Under the Act, it is not necessary that a showing be made regarding the effect of the pollution discharge upon the quality of the receiving water. Under sections 301, 304 (b) and (c), 306 (b) and (c), and 307(c), the principal means of control is through the adoption of effluent limitations directly applicable to the discharge itself. The effluent limitations are to be based upon defined levels of technology which are specified in the Act. Nevertheless, water quality standards are retained as a secondary means of control and will have their principal applicability in those instances where effluent limitations are not stringent enough to provide for the achievement of water quality standards.

(4) One commenter said that there was no real analysis of the costs of air and water pollution control and the benefits derived.

The limitations, as mandated by the "Act" are technologically based, and benefits are expressed in terms of effluent reduction. Although air pollution control costs were not quantified, consideration is being given to this factor for the current economic impact analysis.

(5) Many comments were received that stated that the costs of achieving BPCTCA limitations presented in the draft Development Document were unsupported by the information presented in the report and impossible to determine the individual costs of internal and external controls used in the aggregate costs. The commenters also felt that the methodology used to determine the costs of achieving BATEA limitations and the NSPS were unsupported and inadequate.

The Agency has totally revised the costs contained in the Development Document to reflect changes in methodology, technologies identified as BPCTCA, BATEA, and BADT, and the expanded data base. Specific technologies included in BPCTCA, BATEA, and BADT have been identified and costs have been developed and presented in the Development Document. Two sets of treatment costs are presented including both the costs of aerated stabilization basins and activated sludge systems. Extensive information and data has been added to the Development Document in order to fully support and document the costs, some of which includes the following:

(1) Description of internal and external controls, (2) basic schematic drawings and design parameters of identified technologies, (3) cost curves for each subcategory relating mill size to costs, and (4) a specific sample calculation for one subcategory presenting the compilation of the costs into the aggregate cost figure.

(6) Several comments were received that stated that effluent limitations and standards should be established for zinc for groundwood mills. It was stated that high levels of zinc are discharged from groundwood mills which use zinc hydrosulfite as a brightening agent and that use of an alternate brightening agent, such as sodium hydrosulfite, should reduce the zinc in groundwood mill effluents to presently acceptable levels.

The Agency concurs that high levels of zinc in groundwood mill effluents are unacceptable and zinc effluents limitations and standards have been established.

(7) Several commenters suggested an approach to developing BPCTCA limitations. Essentially, the approach involved determining average BOD<sub>5</sub> raw waste loads for the industry and applying 85% reduction which was said to be representative of biological treatment.

The BPCTCA limitations are based upon mills which treat their waste waters by technologies representing BPCTCA. Thus, mill operating data is

the basis for the limitations and not the application of an assumed pollutant reduction efficiency.

(8) Several comments were received which stated that the total suspended solids concentrations resulting from testing methods utilizing filter paper (nonstandard methods) should be accounted for in the development of the effluent limitations and standards. A conversion factor for nonstandard methods to standard methods of 3 to 1 was suggested for use in the evaluation of data.

The TSS analytical measurement techniques are discussed in the Development Document, and data for mills utilizing nonstandard methods was not used in development of the limitations. Conversion factors for nonstandard methods to standard methods range from less than 2 to more than 10 depending upon the effluent stream sampled. Thus, the Agency feels that use of a conversion factor is not applicable.

(9) One commenter felt that additional subcategories should be added for small mills. Suggestions were provided for what constitutes a small mill and how the limitations should be increased for small mills.

In developing the subcategories, many factors were evaluated as possible bases for establishing subcategories. One of these factors was the size of mills. The Agency concluded that size of mills was not a significant factor for subcategorization because the waste water characteristics and control technologies are independent of plant size.

(10) It was alleged that the limitations for color removal do not appear to be workable since there is no direct linear relationship between color units and color mass.

The Agency concurs that there is no direct linear relationship between color units and color mass. However, in order for the color limitations to be related to mill production, the Agency defined, for purposes of implementing the color limitations, the following standard relationship used by several other countries: 1 mg/l equals 1 color unit.

(11) Several comments were made that the variabilities of raw waste load were not considered in the development of the limitations.

The limitations are based upon actual mill operating data including both raw waste and final effluent data. The Agency determined that any effects of variations in raw waste load are upon the treatment system and the quality of the final effluent. Thus, the effects of raw waste variability were considered in the development of the limitations through consideration of variations in final effluent quality.

(12) Many commenters stated that the limitations for TSS should be removed or replaced by a settleable solids limitation as the suspended solids in the final effluent from pulp and paper mill biological treatment systems are biological organisms generated during treatment for the removal of BOD and not the fibrous materials contained in mill raw wastes. It was argued that the fi-

## PROPOSED RULES

brous materials in the raw waste are removed by primary treatment and that the biological suspended solids in the final effluent from the biological treatment system characteristically do not settle. It was stated that the biological solids do not settle and cause problems of sludge beds in receiving waters and that no harm is caused to the environment other than an exertion of BOD which is regulated by the BOD<sub>5</sub> limitations.

The Agency believes that the TSS in final effluents from pulp and paper mill biological treatment systems are harmful to aquatic environments. The Agency concurs that the fibrous materials in the raw waste should settle out in a well designed and operated primary treatment system. As discussed in Section VI of the Development Document, the Agency believes that the TSS from pulp and paper mill biological treatment systems have the following detrimental effects upon receiving water environments: (1) increases in the turbidity of the receiving water resulting in reduced light transmission and accompanying effects, such as reduced photosynthesis, (2) aesthetic effects, (3) settling of suspended solids to the bottom of receiving waters, and (4) exertion of BOD by the biological suspended solids. Limiting just settleable solids would exclude a portion of the total suspended solids which should be controlled, and therefore the TSS limitation was not removed from the regulation.

(13) Comments were received that stated that BPCTCA limitations will require mills to install both internal and external controls. It was argued that, in effect, this pushes the 1983 limitations up to 1977 because the intent of the Act was to emphasize external treatment to meet the 1977 limitations and to emphasize internal controls in 1983. It was also suggested that since the 1983 internal technologies are essentially being required in 1977, the costs of achieving BPCTCA limitations will be substantially higher and the economic impact may be significant.

It is the opinion of the Agency that the Act does not preclude considering some in-plant control changes as part of BPCTCA. Section 304(b)(1)(B) includes consideration of "the process employed" and "process changes" as part of the determination of BPCTCA. Where an in-plant change can be implemented by 1977 and meets the other requirements of Section 304(b)(1), there is no reason to differentiate such control measure from any other control measure or practice imposed as part of BPCTCA. The in-plant changes which have been identified as available in 1977 are practices which are in common use in the industry.

(14) It was suggested by several commenters that the color limitation should be removed from the regulations as color has not been established as a pollutant and its inclusion for BATEA is not justified.

As discussed in Section VI of the Development Document, the Agency believes that color is a major pollutant

parameter and has the following detrimental effects: (1) color in receiving waters retards sunlight transmission and interferes with photosynthesis thereby reducing productivity of the aquatic community; (2) color alters the natural stream color and is thereby aesthetically displeasing; (3) color has a detrimental effect upon downstream municipal and industrial water users, as color, even when not visually apparent (i.e., turbid streams), must be removed before use in municipal and industrial water supplies; (4) color bodies complex with metal ions, such as iron or copper, forming tar-like residues which remove metals from the stock available to stream organisms for normal metabolism, and the complexes can have direct inhibitory effects on some of the lower scale organisms in the aquatic community; (5) color is an indicator of potentially inhibitory compounds discharged to the aquatic environment; and (6) color in receiving waters affects fish productivity and fish movements. Therefore, the limitations for color for BATEA were not removed from the regulations as the Agency believes that color is a major pollutant parameter.

(15) Two commenters stated that the limitations should be written as net pollutants and mills should be given credit for pollutants in their raw water supply.

The effluent limitations have generally been developed on a gross or absolute basis. However, the Agency recognizes that in certain instances pollutants will be present in navigable waters which supply a plant's intake water in significant concentrations which may not be removed to the levels specified in the limitations by the application of treatment technology contemplated by BPCTCA.

Accordingly, the Agency has promulgated amendments to its NPDES permit regulations (40 CFR 29850, July 16, 1975) which specify the situations in which the Regional Administrator may allow a credit for such pollutants.

(16) Several commenters stated that the Agency should provide a range of effluent limitations instead of a single limitation, as the range would allow the Regional Administrators to determine the appropriate limitation for each mill depending upon the specific conditions at the mills.

The present limitations take differences within an industry into account through subcategorization, rather than by use of ranges of numbers to be varied at the discretion of the office issuing permits. The 28 industries noted in Section 306 of the Act, for example, have already broken some of the broad industrial groups into subgroups such as the chemical industry into inorganic chemicals, organic chemicals, plastics and synthetics, petrochemicals, soaps and detergents, fertilizers, and rubber. The pulp and paper industry has been broken into 5 initial subcategories in the first segments of the industry and 15 subcategories which are covered by these regulations.

(17) Several commenters stated that the costs for pollution control presented

## PROPOSED RULES

in the draft report are expressed in 1973 establish effluent limitations and standards. the data base upon which effluent limita-

## PROPOSED RULES

tive proportions of the fiber, mineral, and biological TSS in secondary treatment

of Public Affairs, Environmental Protection Agency, Washington, D.C. 20460, At-

Sec. 430.65 Standards of performance for new

## PROPOSED RULES

in the draft report are expressed in 1973 dollars and that these 1973 costs do not reflect the actual costs to the industry in 1977 or 1983.

The costs presented in the Development Document have been updated to represent 1974 costs. The economic analysis has assumed that the cost of pollution control will increase at a rate similar to the general inflation rate. Therefore, the annual cost of pollution control as a percent of sales, or the capital cost as a percent of plant investment, is expected to be relatively stable. As a result, the economic analysis used these relatively stable parameters for assessing economic impact in 1977 and 1983.

(18) Many commenters stated that allowances should be established for mills with woodyard operations which use large quantities of water in preparation of logs prior to chipping.

The Agency agrees that the wood preparation operations are part of the manufacturing process and in certain cases additional waste loads are discharged from these operations. As discussed in the Development Document, woodyard operations are similar between mills in all wood pulping subcategories and thereby, any waste loads generated by the woodyard operation were not used as a basis for subcategorization. Instead, additional allowances for BOD5 and TSS were established for mills in any subcategory using specific woodyard operations which result in additional waste loads. The additional allowance is only included for BPCTCA effluent limitations as technology is presently available to essentially eliminate the water use within woodyard operations and is included as BATEA and best available demonstrated technology (BADT). It should be emphasized that additional data is being solicited on raw waste loads (flow, BOD5, and TSS) generated by woodyard operations including the following: (1) debarking (hydraulic drum), (2) flumes for transporting or defreezing, and (3) log ponds for defreezing.

(19) A number of commenters stated that the list of mills in each subcategory was inaccurate and several mills were misplaced in the wrong subcategory.

The list of mills in the Appendix of the Draft Development Document should not be interpreted as a placement of a mill in a subcategory but should only be used as a reference.

(20) Several comments stated that the subcategorization was inadequate and specifically that separate subcategories for dissolving bleached kraft and market bleached kraft mills should be established.

In response, the Agency has established a total of 15 subcategories based upon the greatly expanded data base, and separate subcategories for dissolving bleached kraft mills and market bleached kraft mills have been established. In addition, two groups of mills within the non-integrated paper mills segment have been excluded from these regulations due to what the Agency feels is inadequate data on which to subcategorize and es-

tablish effluent limitations and standards. These mills include those non-integrated paper mills producing coarse papers and specialty papers. Effluent limitations and standards will be developed for these mills at a later date.

(21) One commenter felt that the limitations and standards for bleached kraft mills producing market pulp should be more stringent than for bleached kraft mills producing paper products.

The available data shows that raw waste loads generated by bleached kraft market pulp mills are generally higher than bleached kraft mills producing paper products. This apparent anomaly can be attributed to the higher degree of cooking and bleaching which is usually practiced by bleached kraft market pulp mills. Effluent limitations and standards for bleached kraft market pulp mills were thereby established more stringent than for bleached kraft mills producing paper products.

(22) Several commenters stated that the data base was inadequate. The original data base included information and data collected by on-site surveys of approximately 105 mills. Since the original survey efforts, information and data has been collected from approximately 70 additional mills and approximately 30 mills have been recontacted for supplementary or revised information and data. Efforts are continuing to be made in collecting information and data from both surveyed and non-surveyed mills and as such, any information or data which is relevant to the development of these regulations is being solicited. The present data base includes extensive information and data for over 50% of the mills covered by these regulations.

(23) Several comments were received that stated that the methodologies used for data analysis and in determining the effluent limitations and standards were inadequate. The effluent limitations and standards were completely revised based upon modifications in the methodologies used in the data and variability analyses as well as upon the expanded data base. The general methodology used to establish BPCTCA limitations was to use the average flow for each subcategory with the capabilities of the identified external treatment systems. The maximum 30 day and maximum daily limitations were then determined by multiplication by variability factors which reflected the normal variability associated with the identified treatment technologies.

(24) Several commenters felt that the exclusion of some of the higher data points in the data analysis was not justified and had the effect of lowering the effluent limitations and standards. Analysis of the data from the 105 mills sometimes showed excursions in the data which were not considered to be normal operation of a particular plant. These data points were only excluded after extensive investigations into the cause of the excursion. The Agency believes that normal variability should be included in

the data base upon which effluent limitations and standards are based; however, conditions not representative of normal practice or BPCTCA should not be included as part of the data base.

(25) Several commenters stated that non-integrated specialty mills should not be included in the non-integrated coarse papers subcategory.

The Agency concurs that coarse papers are distinctly different from specialty papers and that manufacture of specialty papers generally results in higher raw waste loads than manufacture of coarse papers. The original subcategorization included a subcategory entitled "Non-Integrated Coarse Papers" which included both coarse and specialty papers. The effluent limitations and standards were actually based upon mills producing specialty papers, and coarse paper mills would thereby have been given a slight advantage. However, review of the available data for non-integrated paper mills producing coarse or specialty papers resulted in excluding these mills from these regulations for reasons cited previously.

(26) One commenter stated that the discussion of energy requirements of pollution control was inadequate.

The Agency has made extensive efforts to update and revise the estimates of energy requirements of the treatment technologies identified for BPCTCA, BATEA, and BADT. The Development Document presents revised and updated energy values for all 15 subcategories.

(27) Several comments were received that stated that BPCTCA for the sulfite subcategory should include (1) spent sulfite liquor (SSL) recovery, (2) secondary (aerated stabilization basins or activated sludge) treatment, and (3) reasonable in plant pollution control measures.

The Agency agrees with these comments and the effluent limitations for 1977 for sulfite mills have been developed based upon (1) SSL recovery, (2) biological treatment, and (3) in plant control measures as normally practiced within the industry.

(28) A number of commenters stated that the TSS in biological treatment system effluents are not related to the mill raw waste TSS and should be recognized as biological TSS in the Development Document.

The three general types of TSS occurring in biological treatment system effluents include (1) cellulose fiber, (2) mineral materials, and (3) biological TSS. Fibers and, for many mills, mineral type TSS are lost during the manufacturing process into the process waste waters. Most of the raw waste load TSS should be removed by primary treatment with most of the remaining TSS removed by secondary treatment. The majority of the TSS in the final effluents from well designed and operated secondary treatment systems should be biological TSS which were created in oxidizing the soluble BOD5 in the waste water. Mills with inadequately designed or operated primary treatment facilities generally have high TSS levels in the effluent from their secondary treatment facilities. The rela-

tive proportions of the fiber, mineral, and biological TSS in secondary treatment effluents can be considered as an indicator of the design and operation of the primary treatment as well as the secondary treatment facilities. Thus, effluents from well designed and operated primary and secondary treatment facilities should contain mostly biological TSS with only some fiber and mineral TSS. The Development Document was revised to reflect that the TSS in secondary treatment effluents are mostly biological TSS and as such are more related to the raw waste BOD5 than raw waste TSS.

(29) Two comments were received that stated that the raw waste load used in establishing BPCTCA effluent limitations for sulfite mills should be the raw waste load generated prior to SSL recovery. The rationale presented by the commenters was that SSL recovery is not economical as is liquor recovery in kraft mills.

The BPCTCA effluent limitations for sulfite mills were based upon raw waste loads from mills practicing SSL recovery. SSL recovery is an internal pollution control measure and since it is commonly practiced by the large majority of sulfite mills (18 of 22 papergrade sulfite mills have SSL recovery systems), it is included in BPCTCA. SSL recovery may not be economical at the present time, but internal pollution control measures are not necessarily economical. Internal measures which control pollution and have a net return on the investment are normally considered to be integral parts of the manufacturing process, such as liquor recovery by kraft mills. Thus, BPCTCA for sulfite mills includes commonly used internal controls (i.e. SSL recovery) and secondary treatment (i.e. biological treatment).

(30) A large number of comments were received that stated that BATEA effluent limitations and the New Source Performance Standards were based upon unproven and undocumented assumptions regarding raw waste load reductions and increases in external treatment effectiveness.

In response the Agency has completely revised BATEA effluent limitations and New Source Performance Standards. In most cases, the actual limitations and standards are based upon raw waste loads presently being achieved by the best mill or mills within each subcategory. The internal controls in use by these mills were thoroughly evaluated, and estimates were made of raw waste load reductions possible by use of identified BATEA or BADT internal controls not presently in use by these mills. The effluent reduction capabilities of the identified BATEA and BADT external treatment was then estimated and used in conjunction with the raw waste load to establish the limitations and standards. The estimates of the external treatment reduction capabilities were based upon actual mill data in each subcategory.

Interested persons may participate in this rulemaking by submitting written comments in triplicate to the EPA Office

## PROPOSED RULES

41307

of Public Affairs, Environmental Protection Agency, Washington, D.C. 20460, Attention: Ms. Ruth Brown, A-107. Comments on all aspects of the advanced notice regulation are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which are available, or which may be relied upon by the Agency, comments should identify and, if possible, provide any additional data which may be available and should indicate why such data are essential to the development of the regulations. In the event comments address the approach taken by the Agency in establishing an effluent limitations guideline or standard of performance, EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of sections 301, 304(b), 306 and 307 of the Act.

A copy of all public comments will be available for inspection and copying at the EPA Freedom of Information Center, Room 204, West Tower, Waterside Mall, 401 M Street, S.W., Washington, D.C. A copy of preliminary draft contractor reports, the Development Document and economic study referred to above, and certain supplementary materials supporting the study of the industry concerned will also be maintained at this location for public review and copying. The EPA information regulation, 40 CFR Part 2, provides that a reasonable fee may be charged for copying.

All comments received on or before October 7, 1975 will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning public review procedures published on August 6, 1973 (38 FR 21202).

Dated: August 27, 1975.

JAMES L. AGEE,  
Assistant Administrator for  
Water and Hazardous Materials.

# PART 430—EFFLUENT LIMITATIONS GUIDELINES FOR EXISTING SOURCES AND STANDARDS OF PERFORMANCE AND PRETREATMENT STANDARDS FOR NEW SOURCES FOR THE BLEACHED KRAFT, GROUNDWOOD, SULFITE, SODA, DEINK, AND NON-INTEGRATED PAPER MILLS SEGMENT OF THE PULP, PAPER AND PAPERBOARD POINT SOURCE CATEGORY

## Subpart F—Dissolving Kraft Subcategory

Sec.	
430.60	Applicability; description of the dissolving kraft subcategory.
430.61	Specialized definitions.
430.62	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
430.63	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
430.64	[Reserved]

Sec.	
430.65	Standards of performance for new sources.
430.66	Pretreatment standards for new sources.

## Subpart G—Market Kraft Subcategory

430.70	Applicability; description of the market kraft subcategory.
430.71	Specialized definitions.
430.72	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
430.73	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
430.74	[Reserved]
430.75	Standards of performance for new sources.
430.76	Pretreatment standards for new sources.

## Subpart H—BCT Kraft Subcategory

430.80	Applicability; description of the BCT kraft subcategory.
430.81	Specialized definitions.
430.82	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
430.83	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

430.84	[Reserved]
430.85	Standards of performance for new sources.
430.86	Pretreatment standards for new sources.

## Subpart I—Fine Kraft Subcategory

430.90	Applicability; description of the fine kraft subcategory.
430.91	Specialized definitions.
430.92	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
430.93	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
430.94	[Reserved]
430.95	Standards of performance for new sources.
430.96	Pretreatment standards for new sources.

## Subpart J—Papergrade Sulfite Subcategory

430.100	Applicability; description of the papergrade sulfite subcategory.
430.101	Specialized definitions.
430.102	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
430.103	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
430.104	[Reserved]
430.105	Standards of performance for new sources.
430.106	Pretreatment standards for new sources.

## PROPOSED RULES

Subpart K—Dissolving Sulfite Subcategory	
Sec.	
430.110	Applicability; description of the dissolving sulfite subcategory.
430.111	Specialized definitions.
430.112	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
430.113	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
430.114	[Reserved].
430.115	Standards of performance for new sources.
430.116	Pretreatment standards for new sources.
Subpart L—GW-Chem-Mechanical Subcategory	
430.120	Applicability; description of the GW-chem-mechanical subcategory.
430.121	Specialized definitions.
430.122	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
430.123	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
430.124	[Reserved].
430.125	Standards of performance for new sources.
430.126	Pretreatment standards for new sources.
Subpart M—GW-Thermo-Mechanical Subcategory	
430.130	Applicability; description of the GW-thermo-mechanical subcategory.
430.131	Specialized definitions.
430.132	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
430.133	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
430.134	[Reserved].
430.135	Standards of performance for new sources.
430.136	Pretreatment standards for new sources.
Subpart N—GW-CMN Papers Subcategory	
430.140	Applicability; description of the GW-CMN papers subcategory.
430.141	Specialized definitions.
430.142	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
430.143	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
430.144	[Reserved].
430.145	Standards of performance for new sources.
430.146	Pretreatment standards for new sources.

Subpart O—GW Fine Papers Subcategory	
Sec.	
430.150	Applicability; description of the GW fine papers subcategory.
430.151	Specialized definitions.
430.152	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
430.153	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
430.154	[Reserved].
430.155	Standards of performance for new sources.
430.156	Pretreatment standards for new sources.
Subpart P—Soda Subcategory	
430.160	Applicability; description of the soda subcategory.
430.161	Specialized definitions.
430.162	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
430.163	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
430.164	[Reserved].
430.165	Standards of performance for new sources.
430.166	Pretreatment standards for new sources.
Subpart Q—Deink Subcategory	
430.170	Applicability; description of the deink subcategory.
430.171	Specialized definitions.
430.172	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
430.173	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
430.174	[Reserved].
430.175	Standards of performance for new sources.
430.176	Pretreatment standards for new sources.
Subpart R—NI Fine Papers Subcategory	
430.180	Applicability; description of the NI fine papers subcategory.
430.181	Specialized definitions.
430.182	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
430.183	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
430.184	[Reserved].
430.185	Standards of performance for new sources.
430.186	Pretreatment standards for new sources.

Subpart S—NI Tissue Papers Subcategory	
Sec.	
430.190	Applicability; description of the NI tissue papers subcategory.
430.191	Specialized definitions.
430.192	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
430.193	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
430.194	[Reserved].
430.195	Standards of performance for new sources.
430.196	Pretreatment standards for new sources.
Subpart T—NI Tissue (FWP) Subcategory	
430.200	Applicability; description of the NI tissue (FWP) subcategory.
430.201	Specialized definitions.
430.202	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
430.203	Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.
430.204	[Reserved].
430.205	Standards of performance for new sources.
430.206	Pretreatment standards for new sources.
Subpart F—Dissolving Kraft Subcategory	
§ 430.60 Applicability; description of the dissolving kraft subcategory.	
The provisions of this subpart are applicable to discharges resulting from the production of pulp by dissolving kraft mills. When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations applicable to the total production covered by each subcategory.	
§ 430.61 Specialized definitions.	
(a) For the purpose of this subpart:	
(1) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.	
(b) Color shall mean that color as measured by the testing method presented in the National Council for Air and Stream Improvement, (Inc.) "Technical Bulletin 253," December 1971. Color units are to be assumed equal to mg/l.	
(c) Total suspended solids (TSS) shall mean TSS as measured by the technique utilizing glass fiber disks as specified in "Standard Methods for the Examination of Water and Wastewater" (13th Edition).	
(d) Production shall be defined as the annual average off the machine (air-dry tons).	
(e) Wet woodyard operations shall mean: (1) log ponds used for defreezing logs prior to processing; (2) log transport and defreeze flumes; (3) log washing; and (4) wet debarking.	

## PROPOSED RULES

## § 430.62 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	21.05.....	12.95
TSS.....	34.05.....	15.55
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	43.9.....	25.9
TSS.....	68.1.....	31.1
pH.....	Within the range 6.0 to 9.0.	

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section and attributable to that portion of the total mills production due to the use of logs from wet woodyard operations, which may be discharged by a point source subject to the provisions of this subpart, in addition to the limitations set forth by paragraph (a) of this section:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	0.9.....	0.5
TSS.....	1.6.....	0.75
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	1.8.....	1.0
TSS.....	3.2.....	1.5
pH.....	Within the range 6.0 to 9.0.	

## § 430.63 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	11.25.....	5.45
TSS.....	7.6.....	3.45
Color.....	250.....	125
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	22.5.....	10.9
TSS.....	15.2.....	6.9
Color.....	500.....	250
pH.....	Within the range 6.0 to 9.0.	

§ 430.64 [Reserved]  
§ 430.65 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	11.25.....	5.45
TSS.....	15.35.....	7.0
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	22.5.....	10.9
TSS.....	30.7.....	14.0
pH.....	Within the range 6.0 to 9.0.	

## § 430.66 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the dissolving kraft subcategory, which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128, for existing sources (and which would be a new point source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. In addition to the prohibitions set out in 40 CFR 128.131, the following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new point source subject to the provisions of this subpart.

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	No Limitation.....	
TSS.....	do.....	
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	No Limitation.....	
TSS.....	do.....	
pH.....	Within the range 6.0 to 9.0.	

Subpart G—Market Kraft  
§ 430.70 Applicability; description of the market kraft subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of pulp by market kraft mills. When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations ap-

## PROPOSED RULES

pliable to the total production covered by each subcategory.

tions, specify other limitations, or initiate proceedings to revise these regulations.

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—

## PROPOSED RULES

products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established.

use of logs from wet woodyard operations, which may be discharged by point source subject to the provisions of this subpart. In addition to the limitations

## PROPOSED RULES

pliable to the total production covered by each subcategory.

## § 430.71 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) Color shall mean that color as measured by the testing method presented in the National Council for Air and Stream Improvement, (Inc.) "Technical Bulletin 253," December 1971. Color units are to be assumed equal to mg/l.

(c) Total suspended solids (TSS) shall mean TSS as measured by the technique utilizing glass fiber disks as specified in "Standard Methods for the Examination of Water and Wastewater" (13th Edition).

(d) Production shall be defined as the annual average off the machine (air-dry tons).

(e) Wet woodyard operations shall mean: (1) log ponds used for defreezing logs prior to processing; (2) log transport and defreeze flumes; (3) log washing; and (4) wet debarking.

§ 430.72 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section and attributable to that portion of the total mills production due to the use of logs from wet woodyard operations, which may be discharged by a point source subject to the provisions of this subpart, in addition to the limitations set forth by paragraph (a) of this section:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	12.06.....	7.1
TSS.....	22.9.....	10.3
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	24.1.....	14.2
TSS.....	45.2.....	20.6
pH.....	Within the range 6.0 to 9.0.	

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	12.06.....	7.1
TSS.....	22.9.....	10.3
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	24.1.....	14.2
TSS.....	45.2.....	20.6
pH.....	Within the range 6.0 to 9.0.	

(c) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section and attributable to that portion of the total mills production due to the use of logs from wet woodyard operations, which may be discharged by a point source subject to the provisions of this subpart, in addition to the limitations set forth by paragraph (a) of this section:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	12.06.....	7.1
TSS.....	22.9.....	10.3
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	24.1.....	14.2
TSS.....	45.2.....	20.6
pH.....	Within the range 6.0 to 9.0.	

(d) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section and attributable to that portion of the total mills production due to the use of logs from wet woodyard operations, which may be discharged by a point source subject to the provisions of this subpart, in addition to the limitations set forth by paragraph (a) of this section:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	12.06.....	7.1
TSS.....	22.9.....	10.3
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	24.1.....	14.2
TSS.....	45.2.....	20.6
pH.....	Within the range 6.0 to 9.0.	

(e) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section and attributable to that portion of the total mills production due to the use of logs from wet woodyard operations, which may be discharged by a point source subject to the provisions of this subpart, in addition to the limitations set forth by paragraph (a) of this section:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	12.06.....	7.1
TSS.....	22.9.....	10.3
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	24.1.....	14.2
TSS.....	45.2.....	20.6
pH.....	Within the range 6.0 to 9.0.	

§ 430.73 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	6.9.....	3.35
TSS.....	4.95.....	2.25
Color.....	190.....	95
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	13.8.....	6.7
TSS.....	9.9.....	4.5
Color.....	390.....	190
pH.....	Within the range 6.0 to 9.0.	

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	6.9.....	3.35

Color.....	390.....	190
pH.....	Within the range 6.0 to 9.0.	

§ 430.74 [Reserved]

§ 430.75 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	3.8.....	1.85
TSS.....	5.65.....	2.6
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	7.6.....	3.7
TSS.....	11.3.....	5.2
pH.....	Within the range 6.0 to 9.0.	

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	3.8.....	1.85
TSS.....	5.65.....	2.6
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	7.6.....	3.7
TSS.....	11.3.....	5.2
pH.....	Within the range 6.0 to 9.0.	

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	3.8.....	1.85
TSS.....	5.65.....	2.6
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	7.6.....	3.7
TSS.....	11.3.....	5.2
pH.....	Within the range 6.0 to 9.0.	

§ 430.76 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the market kraft subcategory, which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128, for existing sources (and which would be a new point source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. In addition to the prohibitions set out in 40 CFR 128.131, the following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new point source subject to the provisions of this subpart:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	No Limitation.....	
TSS.....	do.....	
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	No Limitation.....	
TSS.....	do.....	
pH.....	Within the range 6.0 to 9.0.	

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	No Limitation.....	
TSS.....	do.....	
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	No Limitation.....

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	No Limitation.....	
TSS.....	do.....	
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	No Limitation.....	
TSS.....	do.....	
pH.....	Within the range 6.0 to 9.0.	

Subpart H—BCT Kraft Subcategory

§ 430.80 Applicability; description of the BCT kraft subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of paper board, coarse paper, and tissue paper by bleached kraft mills. When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitations shall be the aggregate of the limitations applicable to the total production covered by each subcategory.

§ 430.81 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) Color shall mean that color as measured by the testing method presented in the National Council for Air and Stream Improvement, (Inc.) "Technical Bulletin 253," December 1971. Color units are to be assumed equal to mg/l.

(c) Total suspended solids (TSS) shall mean TSS as measured by the technique utilizing glass fiber disks as specified in "Standard Methods for the Examination of Water and Wastewater" (13th Edition).

(d) Production shall be defined as the annual average off the machine (air-dry tons).

(e) Wet woodyard operations shall mean: (1) log ponds used for defreezing logs prior to processing; (2) log transport and defreeze flumes; (3) log washing; and (4) wet debarking.

§ 430.82 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes,

products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	10.75.....	6.85
TSS.....	22.6.....	10.3
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	21.5.....	12.7
TSS.....	45.2.....	20.6
pH.....	Within the range 6.0 to 9.0.	

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	10.75.....	6.85
TSS.....	22.6.....	10.3
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	21.5.....	12.7
TSS.....	45.2.....	20.6
pH.....	Within the range 6.0 to 9.0.	

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	10.75.....	6.85
TSS.....	22.6.....	10.3
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	21.5.....	12.7
TSS.....	45.2.....	20.6

## Subpart I—Fine Kraft Subcategory

## § 430.90 Applicability: description of the fine kraft subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of pulp and fine paper by bleached kraft mills. When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the

limitations applicable to the total production covered by each subcategory.

## § 430.91 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) Color shall mean that color as measured by the testing method presented in the National Council for Air and Stream Improvement, (Inc.) "Technical Bulletin 253," December 1971. Color units are to be assumed equal to mg/l.

(c) Total suspended solids (TSS) shall mean TSS as measured by the technique utilizing glass fiber disks as specified in "Standard Methods for the Examination of Water and Wastewater" (13th Edition).

(d) Production shall be defined as the annual average off the machine (air-dry tons).

(e) Wet woodyard operations shall mean: (1) log ponds used for defreezing logs prior to processing; (2) log transport and defreeze flumes; (3) log washing; and (4) wet debarking.

§ 430.92 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may

approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	7.9	4.7
TSS.....	32.1	7.35
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	15.8	9.4
TSS.....	70.5	14.7
pH.....	Within the range 6.0 to 9.0.	

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section and attributable to that portion of the total mills production due to the use of logs from wet woodyard operations, which may be discharged by a point source subject to the provisions of this subpart, in addition to the limitations set forth by paragraph (a) of this section:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	0.9	0.5
TSS.....	1.6	0.75
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	1.8	1.0
TSS.....	3.2	1.5
pH.....	Within the range 6.0 to 9.0.	

## § 430.93 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) Total suspended solids (TSS)

## PROPOSED RULES

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—

pH.....	Within the range 6.0 to 9.0.	

## § 430.96 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the fine kraft subcategory, which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128, for existing sources (and which would be a new point source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. In addition to the prohibitions set out in 40 CFR 128.131, the following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged

to a publicly owned treatment works by a new point source subject to the provisions of this subpart.

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	No limitation.	
TSS.....	do.	
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	No limitation.	
TSS.....	do.	
pH.....	Within the range 6.0 to 9.0.	

## Subpart J—Papergrade Sulfite Subcategory

## § 430.100 Applicability: description of the papergrade sulfite subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of pulp and paper by papergrade sulfite mills. When a plant is subject to effluent limitations covering more than one subcategory the discharge limitation shall be the aggregate of the limitations applicable to the total production covered by each subcategory.

## § 430.101 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) Total suspended solids (TSS) shall mean TSS as measured by the technique utilizing glass fiber disks as specified in "Standard Methods for the Examination of Water and Wastewater" (13th Edition).

(c) Production shall be defined as the annual average off the machine (air-dry tons).

(d) Wet woodyard operations shall mean: (1) log ponds used for defreezing logs prior to processing; (2) log transport and defreeze flumes; (3) log washing; and (4) wet debarking.

§ 430.102 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have

not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	25.75	15.2
TSS.....	40.4	21.15
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	51.5	30.4
TSS.....	92.8	42.3
pH.....	Within the range 6.0 to 9.0.	

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section and attributable to that proportion of the total mills production due to the use of logs from wet woodyard operations, which may be discharged by a point source subject to the provisions of this subpart, in addition to the limitations set forth by paragraph (a) of this section:

## PROPOSED RULES

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product

TSS	3.2	6.3
pH	Within the range 6.0 to 9.0	

### § 430.104 [Reserved]

### § 430.105 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub>	4.5	4.1
TSS	8.5	3.95
pH	Within the range 6.0 to 9.0	

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(English units) lb/ton of product		
BOD <sub>5</sub>	17.0	8.2
TSS	17.3	7.9
pH	Within the range 6.0 to 9.0	

### § 430.106 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the papergrade sulfite subcategory, which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128, for existing sources (and which would be a new point source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. In addition to the prohibitions set out in 40 CFR 128.131, the following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new point source subject to the provisions of this subpart.

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub>	No Limitation	
TSS	1.8	
pH	Within the range 6.0 to 9.0	
(English units) lb/ton of product		
BOD <sub>5</sub>	No Limitation	
TSS	3.2	
pH	Within the range 6.0 to 9.0	

### Subpart K—Dissolving Sulfite Subcategory

#### § 430.110 Applicability: description of the dissolving sulfite subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of pulp by dissolving sulfite mills. When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations applicable to the total production covered by each subcategory.

#### § 430.111 Specialized definitions.

For the purpose of this subpart: (a) Except as provided below, the general definitions, abbreviations and

methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) Total suspended solids (TSS) shall mean TSS as measured by the technique utilizing glass fiber disks as specified in "Standard Methods for the Examination of Water and Wastewater" (13th Edition).

(c) Production shall be defined as the annual average off the machine (air-dry tons).

(d) Wet woodyard operations shall mean: (1) log ponds used for defreezing logs prior to processing; (2) log transport and defreeze flumes; (3) log washing; and (4) wet debarking.

#### § 430.112 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub>	17.3	8.35
TSS	8.5	4.05
pH	Within the range 6.0 to 9.0	

## PROPOSED RULES

vidual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	5.6.....	3.5
TSS.....	12.9.....	5.9
Zinc.....	0.25.....	0.125
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	11.9.....	7.0
TSS.....	28.8.....	11.8
Zinc.....	0.4.....	0.25
pH.....	Within the range 6.0 to 9.0.	

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section and attributable to that portion of the total mills production due to the use of logs from wet woodyard operations, which may be discharged by a point source subject to the provisions of

this subpart, in addition to the limitations set forth by paragraph (a) of this section:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	0.9.....	0.5
TSS.....	1.6.....	0.75
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	1.8.....	1.0
TSS.....	3.2.....	1.5
pH.....	Within the range 6.0 to 9.0.	

§ 430.123 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	2.6.....	1.25
TSS.....	2.65.....	1.2
Zinc.....	0.25.....	0.115
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	5.2.....	2.5
TSS.....	5.3.....	2.4
Zinc.....	0.46.....	0.23
pH.....	Within the range 6.0 to 9.0.	

§ 430.124 [Reserved]

§ 430.125 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	2.6.....	1.25
TSS.....	5.3.....	2.4
Zinc.....	0.23.....	0.115
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	5.2.....	2.5
TSS.....	10.6.....	4.8
Zinc.....	0.46.....	0.23
pH.....	Within the range 6.0 to 9.0.	

§ 430.126 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the GW-Chem-Mechanical subcategory, which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128, for existing sources (and which would be a new point source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. In addition to the prohibitions set out in 40 CFR 128.131, the following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new point source subject to the provisions of this subpart.

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	No limitation.....	
TSS.....	do.....	
Zinc.....	0.25.....	0.125
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	No limitation.....	
TSS.....	do.....	
Zinc.....	0.50.....	0.25
pH.....	Within the range 6.0 to 9.0.	

## Subpart M—GW-Thermo-Mechanical Subcategory

§ 430.130 Applicability; description of the GW-Thermo-Mechanical subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of pulp and paper by groundwood thermo-mechanical mills. When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations applicable to the total production covered by each subcategory.

§ 430.131 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) Total suspended solids (TSS) shall mean TSS as measured by the technique utilizing glass fiber disks as specified in "Standard Methods for the Examination of Water and Wastewater" (13th Edition).

(c) Production shall be defined as the annual average off the machine (air-dry tons).

(d) Wet woodyard operations shall mean: (1) log ponds used for defreezing logs prior to processing; (2) log transport and defreeze flumes; (3) log washing; and (4) wet debarking.

§ 430.132 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the

## PROPOSED RULES

NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	4.4.....	2.6
TSS.....	17.....	4.45
Zinc.....	0.10.....	0.065
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	8.8.....	5.2
TSS.....	32.....	8.9
Zinc.....	0.2.....	0.19
pH.....	Within the range 6.0 to 9.0.	

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section and attributable to that portion of the total mills production due to the use of logs from wet woodyard operations, which may be discharged by a point source subject to the provisions of this subpart, in addition to the limitations set forth by paragraph (a) of this section:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	0.9.....	0.5
TSS.....	1.6.....	0.75
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	1.8.....	1.0
TSS.....	3.2.....	1.6
pH.....	Within the range 6.0 to 9.0.	

§ 430.133 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this sec-

tion, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	2.25.....	1.1
TSS.....	1.4.....	0.65
Zinc.....	0.13.....	0.065
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	4.5.....	2.2
TSS.....	2.8.....	1.3
Zinc.....	0.25.....	0.13
pH.....	Within the range 6.0 to 9.0.	

§ 430.134 [Reserved]

§ 430.135 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	5.35.....	2.6
TSS.....	4.4.....	2.0
Zinc.....	0.13.....	0.065
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	10.7.....	5.2
TSS.....	8.8.....	4.0
Zinc.....	0.25.....	0.19
pH.....	Within the range 6.0 to 9.0.	

§ 430.136 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the GW-Thermo-Mechanical subcategory, which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128, for existing sources (and which would be a new point source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standards as set forth in 40 CFR 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. In addition to the prohibitions set out in 40

## PROPOSED RULES

CFR 128.131, the following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties, controlled by this section and attributable to that portion of the total mills production due to the use of logs from wet woodyard operations, which may be discharged by a point source subject to the provisions of

manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the

section and attributable to that portion of the total mills production due to the use of logs from wet woodyard operations, which may be discharged by a point source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	No limitation.....	
TSS.....	do.....	
Zinc.....	0.50.....	0.25
pH.....	Within the range 6.0 to 9.0.	
(English units) lb/ton of product		
BOD <sub>5</sub> .....	No limitation.....

## Subpart N—GW—CMN Papers Subcategory

## § 430.140 Applicability; description of the GW—CMN papers subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of coarse paper, molded pulp products, and newspaper by groundwood mills. When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations applicable to the total production covered by each subcategory.

## § 430.141 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) Total suspended solids (TSS) shall mean TSS as measured by the technique utilizing glass fiber disks as specified in "Standard Methods for the Examination of Water and Wastewater" (13th Edition).

(c) Production shall be defined as the annual average off the machine (air-dry tons).

(d) Wet woodyard operations shall mean: (1) log ponds used for defreezing logs prior to processing; (2) log transport and defreeze flumes; (3) log washing; and (4) wet debarking.

## § 430.142 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials,

manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	7.1.....	4.2
TSS.....	15.35.....	7.0
Zinc.....	0.30.....	0.15
pH.....	Within the range 6.0 to 9.0.....	.....
(English units) lb/ton of product		
BOD <sub>5</sub> .....	14.2.....	8.4
TSS.....	30.7.....	14.0
Zinc.....	0.60.....	0.30
pH.....	Within the range 6.0 to 9.0.....	.....

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this

section and attributable to that portion of the total mills production due to the use of logs from wet woodyard operations, which may be discharged by a point source subject to the provisions of this subpart, in addition to the limitations set forth by paragraph (a) of this section:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	0.9.....	0.5
TSS.....	1.6.....	0.75
pH.....	Within the range 6.0 to 9.0.....	.....
(English units) lb/ton of product		
BOD <sub>5</sub> .....	1.8.....	1.0
TSS.....	3.2.....	1.5
pH.....	Within the range 6.0 to 9.0.....	.....

## § 430.143 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	3.65.....	1.75
TSS.....	2.8.....	1.3
pH.....	Within the range 6.0 to 9.0.....	0.12
(English units) lb/ton of product		
BOD <sub>5</sub> .....	7.3.....	3.5
TSS.....	5.6.....	2.6
pH.....	Within the range 6.0 to 9.0.....	0.24

## § 430.144 [Reserved]

## § 430.145 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

ization and effluent levels established. It is, however, possible that data which would affect these limitations have not

## PROPOSED RULES

the production of pulp and fine paper by groundwood mills. When a plan is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations applicable to the total production covered by each subcategory.

## § 430.151 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) Total suspended solids (TSS) shall mean TSS as measured by the technique utilizing glass fiber disks as specified in "Standard Methods for the Examination of Water and Wastewater" (13th Edition).

(c) Production shall be defined as the annual average off the machine (air-dry tons).

(d) Wet woodyard operations shall mean: (1) log ponds used for defreezing logs prior to processing; (2) log transport and defreeze flumes; (3) log washing; and (4) wet debarking.

## § 430.152 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations,

specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	6.35.....	3.75
TSS.....	14.1.....	6.45
Zinc.....	0.27.....	0.135
pH.....	Within the range 6.0 to 9.0.....	.....
(English units) lb/ton of product		
BOD <sub>5</sub> .....	12.7.....	7.5
TSS.....	28.2.....	12.9
Zinc.....	0.54.....	0.27
pH.....	Within the range 6.0 to 9.0.....	.....

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section and attributable to that portion of the total mills production due to the use of logs from wet woodyard operations, which may be discharged by a point source subject to the provisions of this subpart, in addition to the limitations set forth by paragraph (a) of this section:

Effluent characteristic	Effluent limitations	
	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	0.9.....	0.5

## § 430.154 [Reserved]

## § 430.155 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	3.45	1.65
TSS.....	1.0	1.2

pH.....	Within the range 6.0 to 9.0.	.....

## § 430.156 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the GW fine papers subcategory, which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128, for existing sources (and which would be a new point source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. In addition to the prohibitions set out in 40 CFR 128.131, the following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new point source subject to the provisions of this subpart.

## Subpart P—Soda Subcategory

## § 430.160 Applicability; description of the soda subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of pulp and paper by soda mills. When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations applicable to the total production covered by each subcategory.

## § 430.161 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) Color shall mean that color as measured by the testing method presented in the National Council for Air and Stream Improvement, (Inc.) "Technical Bulletin 263," December 1971. Color units are to be assumed equal to mg/l.

(c) Total suspended solids (TSS) shall mean TSS as measured by the technique utilizing glass fiber disks as specified in "Standard Methods for the Examination of Water and Wastewater" (13th Edition).

(d) Production shall be defined as the annual average off the machine (air dry tons).

(e) Wet woodyard operations shall mean: (1) log ponds used for defreezing logs prior to processing; (2) log transport and defreeze flumes; (3) log washing; and (4) wet debarking.

## § 430.162 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory.

ization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	9.75	5.75
TSS.....	18.2	8.3
pH.....	Within the range 6.0 to 9.0.	.....
(English units) lb/ton of product		
BOD <sub>5</sub> .....	19.5	11.5
TSS.....	36.4	16.6
pH.....	Within the range 6.0 to 9.0.	.....

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section and attributable to that portion of the total mills production due to the use of logs from wet woodyard operations, which may be discharged by a point source subject to the provisions of this subpart, in addition to the limitations set forth by paragraph (a) of this section:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	0.9	0.5
TSS.....	1.6	0.75
pH.....	Within the range 6.0 to 9.0.	.....
(English units) lb/ton of product		
BOD <sub>5</sub> .....	1.8	1.0
TSS.....	3.2	1.5
pH.....	Within the range 6.0 to 9.0.	.....

## PROPOSED RULES

## Subpart Q—Deink Subcategory

## § 430.170 Applicability; description of the deink subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of pulp and paper by deink mills. When a plant is subject to effluent limitations covering more than one subcategory the discharge limitation shall be the aggregate of the limitations applicable to the total production covered by each subcategory.

## § 430.171 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) Total suspended solids (TSS) shall mean TSS as measured by the techniques utilizing glass fiber disks as specified in "Standard Methods for the Examination of Water and Wastewater" (13th Edition).

(c) Production shall be defined as the annual average off the machine (air-dry tons).

## § 430.172 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such funda-

pH.....	Within the range 6.0 to 9.0	

#### Subpart R—NI Fine Papers Subcategory

##### § 430.180 Applicability; description of the NI fine papers subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of fine paper by non-integrated mills. When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations applicable to the total production covered by each subcategory.

##### § 430.181 Specialized definitions.

For the purpose of this subpart:

- Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.
- Total suspended solids (TSS) shall mean TSS as measured by the technique utilizing glass fiber disks as specified in "Standard Methods for the Examination of Water and Wastewater" (13th Edition).
- Production shall be defined as the annual average off the machine (air-dry tons).

##### § 430.182 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may

approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product

#### Subpart S—NI Tissue Papers Subcategory

##### § 430.190 Applicability; description of the NI tissue papers subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of tissue papers by non-integrated mills. When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations

applicable to the total production covered by each subcategory.

##### § 430.191 Specialized definitions.

For the purpose of this subpart:

- Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.
- Total suspended solids (TSS) shall mean TSS as measured by the technique utilizing glass fiber disks as specified in "Standard Methods for the Examination of Water and Wastewater" (13th Edition).
- Production shall be defined as the annual average off the machine (air-dry tons).

##### § 430.192 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

§ 430.193 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent limitations			Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—	Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product			(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	4.15	2.0	BOD <sub>5</sub> .....	No limitation	
TSS.....	2	0.95	TSS.....	do.	
pH.....	Within the range 6.0 to 9.0		pH.....	Within the range 6.0 to 9.0	
(English units) lb/ton of product			(English units) lb/ton of product		
BOD <sub>5</sub> .....	8.3	4.0	BOD <sub>5</sub> .....	No limitation	
TSS.....	4	1.9	TSS.....	do.	
pH.....	Within the range 6.0 to 9.0		pH.....	Within the range 6.0 to 9.0	

§ 430.194 [Reserved]

§ 430.195 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent limitations			Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—	Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product			(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	No limitation		BOD <sub>5</sub> .....	No limitation	
TSS.....	do.		TSS.....	do.	
pH.....	Within the range 6.0 to 9.0		pH.....	Within the range 6.0 to 9.0	
(English units) lb/ton of product			(English units) lb/ton of product		
BOD <sub>5</sub> .....	No limitation		BOD <sub>5</sub> .....	No limitation	
TSS.....	do.		TSS.....	do.	
pH.....	Within the range 6.0 to 9.0		pH.....	Within the range 6.0 to 9.0	

#### Subpart T—NI Tissue (FWP)

§ 430.200 Applicability; description of the NI tissue (FWP) subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of tissue paper from waste paper by non-integrated mills. When a plant is subject to effluent limitations covering more than one subcategory, the discharge limitation shall be the aggregate of the limitations applicable to the total production covered by each subcategory.

§ 430.201 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR 401 shall apply to this subpart.

(b) Total suspended solids (TSS) shall mean TSS as measured by the technique utilizing glass fiber disks as specified in "Standard Methods for the Examination of Water and Wastewater" (13th Edition).

(c) Production shall be defined as the annual average off the machine (air-dry tons).

§ 430.202 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategory and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

The following limitations establish the quantity or quality of pollutants or pollutant properties controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent limitations			Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—	Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product			(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	7.9	4.7	BOD <sub>5</sub> .....	7.9	4.7
TSS.....	10.25	4.65	TSS.....	10.25	4.65
pH.....	Within the range 6.0 to 9.0		pH.....	Within the range 6.0 to 9.0	
(English units) lb/ton of product			(English units) lb/ton of product		
BOD <sub>5</sub> .....	15.8	9.4	BOD <sub>5</sub> .....	15.8	9.4
TSS.....	20.5	9.3	TSS.....	20.5	9.3
pH.....	Within the range 6.0 to 9.0		pH.....	Within the range 6.0 to 9.0	

§ 430.203 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent limitations			Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—	Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product			(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	4.15	2.0	BOD <sub>5</sub> .....	4.15	2.0
TSS.....	2	0.95	TSS.....	2	0.95
pH.....	Within the range 6.0 to 9.0		pH.....	Within the range 6.0 to 9.0	
(English units) lb/ton of product			(English units) lb/ton of product		
BOD <sub>5</sub> .....	8.3	4.0	BOD <sub>5</sub> .....	8.3	4.0
TSS.....	4	1.9	TSS.....	4	1.9
pH.....	Within the range 6.0 to 9.0		pH.....	Within the range 6.0 to 9.0	

§ 430.204 [Reserved]

§ 430.205 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent limitations			Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—	Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product			(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	4.15	2.0	BOD <sub>5</sub> .....	4.15	2.0
TSS.....	4.25	1.85	TSS.....	4.25	1.85
pH.....	Within the range 6.0 to 9.0		pH.....	Within the range 6.0 to 9.0	
(English units) lb/ton of product			(English units) lb/ton of product		
BOD <sub>5</sub> .....	8.3	4.0	BOD <sub>5</sub> .....	8.3	4.0
TSS.....	8.5	3.7	TSS.....	8.5	3.7
pH.....	Within the range 6.0 to 9.0		pH.....	Within the range 6.0 to 9.0	

§ 430.206 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the NI tissue (FWP) subcategory, which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR 128, for existing sources (and which would be a new point source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. In addition to the prohibitions set out in 40 CFR 128.131, the following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new point source subject to the provisions of this subpart:

Effluent limitations			Effluent limitations		
Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—	Effluent characteristic	Maximum for any 1 day	Average of daily values for 30 consecutive days shall not exceed—
(Metric units) kg/kg of product			(Metric units) kg/kg of product		
BOD <sub>5</sub> .....	No limitation		BOD <sub>5</sub> .....	No limitation	
TSS.....	do.		TSS.....	do.	
pH.....	Within the range 6.0 to 9.0		pH.....	Within the range 6.0 to 9.0	
(English units) lb/ton of product			(English units) lb/ton of product		
BOD <sub>5</sub> .....	No limitation		BOD <sub>5</sub> .....	No limitation	
TSS.....	do.		TSS.....	do.	
pH.....	Within the range 6.0 to 9.0		pH.....	Within the range 6.0 to 9.0

**Title 28—Judicial Administration**  
**CHAPTER I—DEPARTMENT OF JUSTICE**  
**PART 2—PAROLE, RELEASE, SUPERVISION AND RECOMMITMENT OF PRISONERS, YOUTH OFFENDERS, AND JUVENILE DELINQUENTS**

**Parole Board**

(A) *Background.* On December 31, 1974, the United States Board of Parole published in the *Federal Register* at 39 FR 45296 a notice of proposed rule-making setting forth the rules proposed for publication at Part 2, Title 28, of the Code of Federal Regulations governing parole, release, supervision, and recommitment of prisoners, youth offenders, and juvenile delinquents. A deadline of March 3, 1975, was established for the submission of written statements or comments on the proposed regulations. On March 10, 1975, the deadline was extended to May 4, 1975, (40 FR 10996) and on May 2, 1975, was again extended by 60 days to July 3, 1975, (40 FR 19204). Copies of the proposed rules were placed in Federal institutions throughout the country to facilitate prisoner comment. The full text of the proposed rules may be found at 40 FR 10973 (March 10, 1975).

Prior to December 31, 1974, the Board of Parole published its regulations in the Code of Federal Regulations without providing opportunity for public comment as provided in the Administrative Procedure Act, 5 U.S.C. § 553(b) (3). In so doing, the Board was acting on the assumption that even if it was an agency within the meaning of that statute, its regulations fell, in any event, within the exemptions provided at 5 U.S.C. § 553(b) (3) for interpretative and procedural rules, and statements of general policy.

Subsequent litigation in *Pickus v. United States Board of Parole*, 507 F. 2d 1101 (D.C. Cir. 1974) resulted in a ruling that the Board of Parole was an agency as defined by the Administrative Procedure Act and held that the Board was required to comply with the notice and comment section, 5 U.S.C. § 553(b) (3). The court expressly held that its decision did not touch upon the substantive validity of the Board's regulations.

The Board, therefore, republished its rules on an emergency basis at 39 FR 45223 (December 31, 1974), with notice of proposed rule-making as described above. These rules were later amended at 40 FR 5357 (February 5, 1975) and at 40 FR 10973 (March 10, 1975).

Written statements and comments were received from 18 different sources: five from attorneys, seven from individual prisoners, three from committees of prisoners, one from a parolee, one from a Bureau of Prisons employee, and one from a public interest group (The Institute for Public Interest Representation, Georgetown University Law Center). All of these comments were carefully considered by the Board prior to the Board's quarterly meeting held July 30-31, 1975, in Atlanta, Georgia.

(B) *Rule changes.* As finally adopted and set forth below, these regulations contain a number of substantive changes

from the March 10, 1975, publication (40 FR 10973). The changes made will be discussed in this section, together with those comments found relevant to the changes. Other comments are evaluated and discussed in the following section.

The changes made are as follows: (a) Section 2.14(b). (*Review Hearings*) was changed to provide that a prisoner sentenced under the Youth Corrections Act, Federal Juvenile Delinquency Act, or under 18 U.S.C. § 4208(a) (2), or 924(a) shall not be continued past one-third of his maximum sentence without a further, in-person hearing upon completion of one-third of his maximum sentence. This practice became effective for prisoners who complete one-third of their maximum sentences after August 1, 1975. Prior to this change, § 2.14(b) provided for a review on the record with a current institutional progress report, rather than an in-person hearing. This rule provoked considerable criticism, and a number of comments urged the change presently adopted. While the Board does not believe that constitutional due process or the statutes concerned require this result (see *Grasso v. Norton*, — F. 2d —, No. 74-1222 [2d Cir., decided June 23, 1975]), it was concluded that the better course would be to modify this rule as adopted.

(b) A number of rules were amended to reflect existing practices of the Board and the Bureau of Prisons concerning the prisoner's opportunities to review the information in his official records, and to correct errors of fact appearing therein. The Board has amended its former regulations that emphasized confidentiality as the general rule, in order to conform to applicable laws governing disclosure of federal records. These changes are discussed below:

(1) Section 2.11(d) (*Application for Parole*), has been changed to provide that prisoners shall be furnished with an Inmate Background Statement (Parole Form I-32) for completion prior to the initial hearing. This form permits the prisoner to present his version of the factors which make up his salient factor score. Completion of this form with the assistance of the prisoner's case worker will provide for a more meaningful hearing on the salient factor score, and will serve to point up immediately areas of disagreement on the facts. This rule change reflects present policy and was urged by several comments.

(2) Section 2.13(a) (*Initial Hearing*) has been changed to provide that the examiner panel at an initial hearing shall discuss with the prisoner his offense severity rating and salient factor score as described in § 2.20(c), his institutional conduct, and, in addition, any other matters the panel may deem relevant. This requirement codifies the present practice and ensures that the prisoner will be afforded the opportunity to respond at the hearing to those assumptions of fact upon which the panel relies in computing the offense severity rating and salient factor score.

(3) Section 2.57 (*Disclosure of Records*), paragraphs (a) through (c) have

been changed to provide for access by the prisoner to factual reports.

This rule incorporates a procedure recently implemented by the Bureau of Prisons which provides for disclosure of the central file maintained at the institution in which the prisoner is confined. See Bureau of Prisons Policy Statement No. 2211.8, *Inmate Review of Central Files*, dated June 12, 1975. The central file is the file from which the initial parole hearing and all subsequent review hearings are conducted. At the time of the prisoner's initial classification, his central file is assembled and a duplicate file of the basic documents is prepared for the later use of the Board of Parole. After the initial hearing, the duplicate, or parole file, is sent to the appropriate Board of Parole regional office and is thereafter the repository of all Board of Parole internal memoranda and administrative records concerning the prisoner, as well as updated material duplicated from the central file.

The procedure employed by the Bureau of Prisons is to segregate material exempt from disclosure under the Freedom of Information Act, 5 U.S.C. § 552 (b), at the time of the initial classification. The prisoner may thereafter make an appointment with his case worker to review the non-exempt documents and obtain copies thereof. Documents withheld may be sought through written request to the Bureau of Prisons, under applicable statutes and regulations governing disclosure of government documents.

The retention of four narrowly drawn exemptions to disclosure in § 2.57(a) was found necessary to protect vital interests, both of the government, and of private persons whose names or identities appear in the prisoner's file. These exemptions parallel those contained in the Freedom of Information Act, 5 U.S.C. § 552(b), and the Federal Rules of Criminal Procedure, Rule 32, dealing with disclosure of the Presentence Investigation Report.

With regard to Presentence Investigation Reports furnished to the Bureau of Prisons and Board of Parole, the Board has been advised by the Administrative Office of the United States Courts that this report does not become a document of the Bureau of Prisons or Board of Parole upon receipt from the U.S. Probation Office, which can be disclosed under applicable statutes governing disclosure of government documents. The sentencing court retains the sole authority to disclose the report. *Cook v. Willingham*, 400 F. 2d 885 (10th Cir. 1968). The regulation at Subparagraph (c), places the responsibility for seeking disclosure of the Presentence Report upon the prisoner, as a matter to be resolved between the prisoner and his sentencing court. However, it should be borne in mind that each prisoner will have been afforded the opportunity to review that report, prior to sentencing, to the extent required by Rule 32, Federal Rules of Criminal Procedure, as amended August 1, 1975.

The above changes will operate in conjunction with a number of related provisions. The principal provision is that

contained in § 2.13, which provides for reasons in the case of parole denial. The reasons given indicate the number of months in custody, the salient factor score, offense severity rating with reasons for the rating if not apparent from the conviction, the guideline range indicated, reasons for going outside the range (where such a decision is made) and any other reason supporting the decision. The salient factor scoresheet, showing each point given or withheld for each of the nine salient factor score items, is furnished to the prisoner as a part of the reasons given.

Prisoners are also afforded a two-level administrative appeal procedure in §§ 2.25 and 2.26. Written statements may be submitted on appeal to the Regional Director under § 2.25, and to the National Appellate Board under § 2.26.

Section 2.57(d) was added to notify prisoners and other persons of their rights to make written requests for disclosure of documents in Board of Parole files, pursuant to the Privacy Act of 1974 and the Freedom of Information Act, by complying with the applicable Department of Justice regulations.

While the Board maintains the position that properly framed reasons for parole denial afford the prisoner a sufficient basis for an effective exercise of his rights to appeal (see *Fisher v. United States*, 382 F. Supp. 241 (D. Conn. 1974)), it recognizes that prisoners often seek to obtain copies of the tape recordings of their parole hearings and the Hearing Examiner's Summary (Parole Form H-1). Copies of tape recordings are furnished to prisoners upon request. The Bureau of Prisons provides recording equipment which enables prisoners to listen to these tapes. Technical difficulties with recording equipment sometimes result in inaudible or garbled recordings. Thus, the Board is not in a position to guarantee an accurate recording of every hearing. Hearing Summaries, which are prepared for the convenience of the examiners and the Board Members participating in the decision-making process, are disclosed subject to exemptions provided by law.

Section 2.12(b) (*Application for Parole*) was changed to delete a provision relating to confidentiality of parole records in order to avoid possible conflict with the disclosure provisions described above. It is nonetheless the Board's policy to avail itself of statutory exemptions to disclosure where appropriate, for example, in order to prevent clearly unwarranted invasions of the personal privacy of prisoners, ex-convicts, and persons communicating with the Board on the assumption of confidentiality.

(c) Section 2.20(c) (*Paroling Policy Guidelines*) has been changed in a number of specific instances.

(1) The severity of Firearms Act violations was felt to be greater than the severity categories (low-moderate and moderate) to which such offenses were formerly assigned. Thus, the possession, purchase, or sale of a single weapon (not a sawed-off shotgun or machine gun) was placed in the moderate severity category

of offenses, and the possession, purchase, or sale of a sawed-off shotgun, machine gun, or multiple weapons, was placed in the high severity category of offenses. This change does not preclude decisions below the guideline range indicated when circumstances mitigating the seriousness of the offense are presented to the Board. Sawed-off shotguns were expressly included in this rule change since the possession of such a weapon indicates the unlikelihood of an innocent purpose in the violation. A sawed-off shotgun is generally a weapon purposefully altered to facilitate criminal concealment, and its use presents an unusually grave threat to the personal safety of the victim or innocent bystanders.

(2) In the moderate severity category of offenses, smuggling of aliens was changed to include the smuggling or transporting of aliens, since the Board felt that the individual who transports an alien who has been smuggled into the country, as part of the general scheme to complete the smuggling offense, has committed a crime which cannot, for this purpose, be rationally differentiated from the act of smuggling itself.

(3) It is further concluded the offense of possession of hard drugs with intent to distribute or sell, in order to support a drug habit, should be consolidated with possession/sale for profit in the very high severity category. The Board found that the factor of drug addiction is no more consistent or valid a mitigating circumstance than any other which might be found, and that the serious consequences inherent in this offense could not justify the severity category to which it had previously been assigned. Thus, the Board has determined that offenses involving the possession of hard drugs with intent to distribute or sell warrant a very high severity rating, with the exception of those involving a prior conviction for the same offense, to which the greatest severity rating is presently assigned. However, mitigating or aggravating circumstances may warrant a decision above or below the guideline range indicated.

(4) In relation to the offense of counterfeiting currency, the Board amended the offense behavior description in the high category to read counterfeiting currency, Passing/Possession (\$20,000-\$100,000) making it consistent with other property related offenses in that category.

(5) One item in the salient factor score was changed. Cocaine or barbiturate dependence was found to be a somewhat less reliable predictive factor in general than heroin (opiate) dependence, and was, therefore, deleted from Item F. That item now reads: "no history of heroin or opiate dependence." This does not, however, preclude the Board from considering abuse of the drugs noted or other drugs as a negative indicant on an individual basis.

(6) The definition of Item G, High School Graduate or GED Completed was clarified to refer to such completion prior to the prisoner's present commitment. Completion of a GED during the

present commitment (found to be a weaker predictive item) is appropriately considered in relation to institutional program achievement.

(d) Section 2.32 (*Committed Fines*) has been changed to reflect more clearly the operation and effect of the governing statute, 18 U.S.C. § 3569. The regulation as amended places the responsibility for resolving questions involving payment or discharge of prisoners' committed fines upon the chief executive officer of the institution, as provided by statute. One comment called attention to the need for this change.

(e) Section 2.58 (*Special Parole Term*) was revised to provide guidance as to the operation of the special parole term required for certain drug offenses. 21 U.S.C. §§ 8801-966.

(f) Section 2.13(d) (*Initial Hearing*) was changed to provide that notice to the prisoner of the examiner panel's tentative decision shall be mailed within 15 working days, except in emergencies, in order to conform to present practice.

(C) *Evaluation of other comments received.* The comments received by the Board following publication of its proposed rule-making on December 31, 1974, raised a number of difficult issues regarding paroling policy. Many of these issues are valid concerns, even though the specific proposals offered by the writers were not acceptable to the Board at this time. These issues will continue to be given serious attention in the future.

(1) *The paroling policy guidelines.* Nearly every comment received referred to some aspect of the Board's Paroling Policy Guidelines at § 2.20.

Generally, the guidelines were criticized for failing to consider with sufficient emphasis, rehabilitation or institutional progress. However, one comment stated that although prison performance is relevant to the parole decision, the Board's guidelines correctly de-emphasize rehabilitative factors which social science suggests can neither be detected nor measured.

We support the development of detailed guidelines for decision-making not only because of the Board's stated goals, but also because § 2.20 as applied by the Board serves other commendable purposes. First, by its choice of criteria, the Board has made clear that it has de-emphasized rehabilitative factors as a condition of release. Extensive social science research strongly suggests that rehabilitation can neither be observed, detected or measured. An inmate's institutional behavior and performance should be relevant to the parole decision, however, and we support the Board rule allowing this factor to justify decisions outside the range indicated by the guidelines. Second, to a large degree the guidelines remove inmate uncertainty as to how much time they will have to serve. Because the release criteria in § 2.20 are based almost exclusively upon data fixed at the time of conviction, when he first enters prison, an inmate can calculate with great accuracy the average time he will have to serve.

(Statement submitted by the Institute for Public Interest Representation, Georgetown University Law Center, dated May 2, 1975, at Page 3-4).

It should be noted, however, that the Board's guidelines do not totally exclude consideration of institutional discipline

(i.e., based on a poll of community opinion), citing *Rossi, The Seriousness of Crime*, 39 Am. Soc. Ref. 224 (April, 1974).

at initial hearing believes that the notice given is inadequate to allow for preparation for the hearing or for the

4210 and 5005-5037, 28 CFR Chapter 1, Part 2, is amended as set forth below, effective October 6, 1975.

Sec. 2.53 Warrant placed as a detainer and dispositional interview.  
 2.54 Revocation by the Board, preliminary

§ 2.5 Same; committed youth offenders.  
 The Youth Correction Division may at any time, after reasonable notice to the

It should be noted, however, that the Board's guidelines do not totally exclude consideration of institutional discipline or program achievement. First, the guidelines are predicated upon good institutional performance. Secondly, exceptionally good or poor institutional performance may be considered as a reason for a decision above or below the guidelines.

There were also several specific proposals. One comment urged the Board to set parole dates early in a prisoner's term to remove uncertainty. This proposal is presently being put into practice by one state parole board (California), and the United States Board of Parole will study the results of that policy. In the Federal system, a prisoner continued for an institutional review hearing (when that continuance is not limited by Board policy) will frequently be paroled at that date, absent institutional misconduct.

Several comments suggested that sentence length play some role in the guideline evaluation. While this factor is listed at § 2.19(a) (2), the Board has rejected the proposal that sentence length in itself be included in the guidelines. Such a course would defeat one of the primary benefits of the Board's guidelines, which is to reduce sentence disparity, an important goal endorsed in comments received by the Board. Of course, facts which may have persuaded the sentencing court to impose a shorter or longer than average sentence will be presented to the Board in the Presentence Investigation Report, and may influence the Board to render a decision above or below the guideline range indicated. Moreover, the sentencing courts specific recommendations regarding parole will be considered, in addition to other relevant information, by the Board.

Several comments singled out Item I of the Salient Factor Score as discriminating against unmarried individuals. This item is, however, a strong indicator of parole prognosis. In addition, it should be pointed out that only nine of the 11 possible points on the salient factor score are required in order to achieve the most favorable parole prognosis category.

Regarding the offense severity categories, one comment suggested that all ratings be based on offense of conviction only. A corollary suggestion was that all Federal statutory offense descriptions be listed on the severity scale. The Board presently considers the total circumstances of the offense committed (offense behavior) and exercises its best judgment as to the correct rating in each case. Rigidly codifying offenses by statutory section would preclude objective assessment of the actual offense behavior, and would place excessive reliance on convictions obtained more often by negotiation of pleas than by trial of the facts. Neither justice nor uniformity of treatment could be achieved with such a system, and the Board has, therefore, found the proposal unacceptable.

Another comment urged that the severity ratings be empirically validated

(i.e., based on a poll of community opinion), citing Rossi, The Seriousness of Crime, 39 Am. Soc. Ref. 224 (April, 1974). While this proposal does not account for Congressional delegation of authority to the Board in 18 U.S.C. § 4203 to consider "the welfare of society," the type of research suggested by the proposal could be useful to the Board, on a long term basis, in the exercise of this authority. Serious consideration will be given to future studies in this field.

Regarding the factual basis for computing the guideline evaluation, one comment suggested that the Board require, by amended regulation at § 2.9 (Study prior to sentencing) that the United States Probation Officers include a guideline evaluation in preparation of the Presentence Investigation Report. For the Board's purposes, the factual basis for the guideline evaluation is presently included in these reports. Moreover, as noted above the prisoner provides information regarding his salient factor score in his background statement. The preparation of the determinative guideline evaluation is properly the task of a Board of Parole hearing examiner panel, and must be accomplished at a parole hearing pursuant to § 2.13 of the Board's regulations.

However, the preparation of a prospective guideline evaluation by probation officers could be an aid in the sentencing process if it is used to inform the court of the manner in which the Parole Board will exercise its discretion, rather than as a predetermination of the Board's final evaluation.

The Board notes that United States Probation Officers in the Southern District of New York, and other Probation Officers at the request of individual judges in other districts, currently prepare guideline evaluations for the benefit of the sentencing court.

(2) *Hearing Procedure.* Various aspects of the hearing procedure at § 2.12 were criticized. Two comments were made that the rule of representatives should be expanded to provide for their participation throughout the hearing. This proposal is not acceptable because the parole hearing is not an adversary proceeding, but an evaluative interview. The present regulation provides that the prisoner's representatives may offer a statement at the conclusion of the hearing and respond to questions of the examiner panel during the course of the hearing. There is no restriction in the present rule against the appearance of a lawyer as the prisoner's representative.

Another comment suggested that written notice of the hearing be given 30 days in advance. The Board's regulation at § 2.12(a) provides for written notice prior to a hearing.

However, a rigid 30 day notice requirement would not account for those prisoners transferring into an institution and who are placed on the next hearing docket on short notice. (Hearing examiner panels regularly visit each institution

at two month intervals). If a prisoner

at initial hearing believes that the notice given is inadequate to allow for preparation for the hearing or for the attendance of his representative, he may request the examiner panel to postpone his hearing until the next docket.

With regard to prisoners serving concurrent state and local sentences in state, local, or territorial institutions, two comments proposed that in-person parole hearings be granted by the Board. The present regulation at § 2.16(b) provides for reviews on the record for such prisoners. These prisoners are heard by the state or territorial parole authorities having jurisdiction over them. Upon a grant of parole from such authority, the Board will review its record to determine whether or not to grant parole at that time if it has not previously granted parole to that prisoner upon a record review. If the Board does not grant parole, the prisoner is returned to a Federal institution, and if he has not previously received an in-person parole hearing from the Board, and is otherwise eligible for parole, he will be scheduled for a hearing on the next docket following his transfer to the institution.

(3) *Appellate procedure.* Comments regarding the Board's appellate procedure generally emphasized the possibility for delays inherent in the absence of a time limit for rendering appeal decisions. While the Board has succeeded in rendering timely appeal decisions in most cases, it will continue to study means of expediting appeals as it evaluates the progress of the regional system which opened in 1974.

One comment pointed out the apparent futility of an appeal under § 2.26 to a Regional Director who has previously referred the examiner panel decision to the National Directors for decision under § 2.24. It was considered necessary to require this appeal since prisoner appeals may contain new or corrected information following receipt of the notice of action (reasons) and the salient factor scoresheet. As a matter of administrative policy, new information should be presented first at the regional level, rather than the national level, to allow the Regional Director full consideration of the case.

(4) *Mental competency hearing procedure.* One comment advanced the position that a § 2.35 mental competency hearing is an adversary proceeding requiring written notice, representation by counsel, and the opportunity to present favorable psychiatric testimony. The competency hearing, however, is an inquiry only into the prisoner's ability to understand the nature of and participate in the parole or parole revocation hearing. Implicit in the regulation is the understanding that the Board of Parole and the Bureau of Prisons will attempt to hold the parole or parole revocation hearing if at all possible, or at the earliest opportunity, in order to achieve a speedy resolution of the merits of the case.

(D) *Conclusion.* Accordingly, pursuant to the authority of 28 CFR Chapter 1, Part 0, Subpart I, and 18 U.S.C. 4201-

4210 and 5005-5037, 28 CFR Chapter 1, Part 2, is amended as set forth below, effective October 6, 1975.

Approved: August 29, 1975.

Dated: August 29, 1975.

MAURICE H. SIGLER,  
Chairman,  
United States Board of Parole.

AUTHORITY: 18 U.S.C. 42101-4210, 5001-5037; 28 CFR Part 0, Subpart V.

## § 2.1 Definitions.

(a) For the purpose of this part, the term "Board" means the United States Board of Parole; and the terms "Youth Correction Division" and "Division" each mean the Youth Correction Division of the Board.

(b) As used in this part, the term "National Appellate Board" means the Chairman, Vice Chairman, and at least one member of the Board, all of whom also serve as National Appellate Board members in the headquarters office, i.e., Washington, D.C.

(c) All other terms used in this part shall be deemed to have the same meaning as identical or comparable terms have when those terms are used in Chapter 311 of Part IV of Title 18 of the United States Code or Chapter I, Part 0, Subpart V of Title 28 of the Code of Federal Regulations.

## § 2.2 Eligibility for parole, regular adult sentences.

Except as set out in the following sections, a federal prisoner wherever confined and serving a definite term or terms of over one hundred and eighty days may, in accordance with the regulations prescribed in this part, be released on parole after serving one-third of such term or terms or after fifteen years of a life sentence or a sentence of over forty-five years (18 U.S.C. 4202).

## § 2.3 Same; adult indeterminate sentences.

A Federal prisoner, other than a juvenile delinquent or a committed youth offender, who has been sentenced to a maximum term of imprisonment in excess of one year may, if the court has designated a minimum term to be served, which term may be less than, but not more than, one-third of the maximum sentence imposed, be released on parole after serving the minimum term. In cases in which a court imposes a maximum sentence of imprisonment upon a prisoner and specifies that the prisoner may become eligible for parole at such times as the Board may determine, the prisoner may be released on parole at any time in the discretion of the Board (18 U.S.C. 4208(a)).

## § 2.4 Same; juvenile delinquents.

The Board of Parole shall release from custody, on such conditions as it deems necessary, each juvenile delinquent who has been committed, as soon as the Board is satisfied that he is likely to remain at liberty without violating the law and when such release would be in the interest of justice (18 U.S.C. 5041).

## § 2.5 Same; committed youth offenders.

The Youth Correction Division may at any time, after reasonable notice to the Director of the Bureau of Prisons, release conditionally under supervision a committed youth offender. A youth offender committed under section 5010(b) of title 18 of the United States Code to a maximum six year term shall be released conditionally under supervision on or before the expiration of four years from the date of his conviction. A youth offender committed under section 5010(c) of title 18 of the United States Code to a maximum term which is more than six years shall be released conditionally under supervision not later than two years before the expiration of the term imposed by the court (18 U.S.C. 5017).

## § 2.6 Same; sentences under the Narcotic Addict Rehabilitation Act.

The Narcotic Addict Rehabilitation Act provides for sentence to a maximum term for treatment as a narcotic addict. Parole may be ordered by the Board after at least six months in treatment, not including any period of time for "study" prior to final judgment of the court. Before parole is ordered by the Board, the Surgeon General or his designated representative must certify that the prisoner has made sufficient progress to warrant his release and the Attorney General or his designated representative must also report to the Board whether the prisoner should be released. Recertification by the Surgeon General prior to rep parole consideration is not required (18 U.S.C. 4254).

## § 2.7 Same; sentences under the gun control statute.

A Federal prisoner sentenced under 18 U.S.C. 924(a) for violation of Federal gun control laws is considered eligible for parole at such time as the Board may determine. Prisoners sentenced under this provision are considered for parole in the same manner as if they had been sentenced under 18 U.S.C. 4208(a) (2).

## § 2.8 Same; sentences of six months or less followed by probation.

A Federal prisoner sentenced under 18 U.S.C. 3651 to serve a period of six months or less in a jail type or treatment institution, with a period of probation to follow, is not eligible for parole.

## § 2.9 Study prior to sentencing.

(a) When an adult Federal offender has been committed to an institution by the sentencing court for observation and study prior to sentencing under the provisions of 18 U.S.C. 4208(b), the report to the sentencing court is prepared and submitted directly by the United States Bureau of Prisons.

(b) The court may order a youth to be committed to the custody of the Attorney General for observation and study at an appropriate classification center or agency. Within sixty days from the date of the order, or such additional period as the court may grant, the

Youth Correction Division shall report its findings to the court (18 U.S.C.

## § 2.12 Hearing procedure.

(a) Prisoners shall be given written

hearings. Review hearings by examiners designated by the Board shall be sched-

parole at the next visit by an examiner panel of the Board.

## § 2.19 Consideration by the Board.

In the exercise of its discretion, the

(b) Results of scientific data and tools:  
(1) Psychological tests and evaluations;

Youth Correction Division shall report its findings to the court (18 U.S.C. 5010(e)).

#### § 2.10 Date service of sentence commences.

(a) Service of a sentence of imprisonment commences to run on the date on which the person is received at the penitentiary, reformatory, or jail for service of the sentence: *Provided, however*, That any such person shall be allowed credit toward the service of his sentence for any days spent in custody in connection with the offense or acts for which sentence was imposed.

(b) Service of the sentence of any person who is committed to a jail or other place of detention to await transportation to the place at which his sentence is to be served shall commence to run from the date on which he is received at such jail or other place of detention.

(c) Service of the sentence of a committed youth offender or a person committed under the Narcotic Addict Rehabilitation Act commences to run and continues to run uninterruptedly from the date of conviction, except when such offender is on bail pending appeal or is in escape status.

#### § 2.11 Application for parole.

(a) A prisoner, other than a juvenile delinquent, a committed youth offender, or an offender committed under the Narcotic Addict Rehabilitation Act, desiring to apply for parole shall execute such application forms as may be prescribed by the Board. Such forms shall be available at each Federal institution and shall be provided to prisoners eligible for parole. Such prisoners may waive parole consideration on a form provided for that purpose. If such a prisoner waives parole consideration, he may later supply for parole and may be heard during the next visit of the Board to the institution where he is confined, provided he has applied prior to 45 days from the first scheduled date of this visit. A prisoner who receives an initial hearing may not waive any subsequent review hearing scheduled by the Board except as provided in § 2.16(c). New parole applications are not necessary for such review hearings.

(b) A prisoner who is required to apply before receiving a parole hearing but who fails to submit either an application or a waiver form shall be referred to the Board's representatives by the chief executive officer of the institution. The prisoner shall then receive an explanation of his right to apply for parole at a later date.

(c) Prisoners committed under the Federal Juvenile Delinquency Act, the Youth Correction Act, and the Narcotic Addict Rehabilitation Act shall be considered for parole without application and may not waive parole consideration.

(d) Notwithstanding the above provisions relating to parole application, all prisoners prior to initial hearing shall be provided with an inmate background statement by the Bureau of Prisons for completion by the prisoner.

#### § 2.12 Hearing procedure.

(a) Prisoners shall be given written notice of the time and place of the hearing described in §§ 2.13 and 2.14. Prisoners may be represented at hearings by a person of their choice. The function of the prisoner's representative shall be to offer a statement at the conclusion of the interview of the prisoner by the examiner panel, and to provide such additional information as the examiner panel shall request. Interested parties who oppose parole may select a representative to appear and offer a statement. The presiding hearing examiner shall limit or exclude any irrelevant or repetitious statement.

(b) No interviews with the Board, or any representative thereof, shall be granted to a prisoner unless his name is docketed for a hearing in accordance with Board procedures. Hearings shall not be open to the public, and the records

#### § 2.13 Initial hearing.

(a) An initial hearing shall be conducted by a panel of two hearing examiners designated by the Board. The examiner panel shall discuss with the prisoner his offense severity rating and salient factor score as described in § 2.20, his institutional conduct, and, in addition, any other matter the panel may deem relevant. At the conclusion of the hearing, the examiner panel shall inform the prisoner of its tentative decision, and, if parole is denied, of the reasons therefor.

(b) In accordance with § 2.18 the reasons for parole denial may include, but are not limited to, the following reasons, with further specification where appropriate:

(1) Release at this time would depreciate the seriousness of the offense committed and would thus be incompatible with the welfare of society.

(2) There does not appear to be a reasonable probability at this time that the prisoner would live and remain at liberty without violating the law.

(3) The prisoner has (a serious) (repeated) disciplinary infraction(s) in the institution.

(4) Additional institutional treatment is required to enhance the prisoner's capacity to lead a law-abiding life.

(c) In lieu of or in combination with the reasons in paragraph (b) (1) and (2) of this section the prisoner after initial hearing shall be furnished a guideline evaluation statement which includes the prisoner's salient factor score and offense severity rating as described in § 2.20, as well as the reasons for a decision to continue the prisoner for a period outside the range indicated by the guidelines.

(d) Written notification of the decision or referral under § 2.17 or § 2.24 shall be mailed or transmitted to the prisoner within fifteen working days of the date of the hearing except in emergencies. If parole is denied, the prisoner shall also receive in writing as a part of the decision, the reasons therefor.

#### § 2.14 Review hearings.

All hearings subsequent to the initial hearing shall be considered as review

hearings. Review hearings by examiners designated by the Board shall be scheduled for each Federal institution, and prisoners shall appear for such hearings in person, except for the following cases:

(a) During the month preceding a regularly scheduled review hearing, a case may be reviewed on the record by an examiner panel (including a current institutional progress report). If the decision is to grant parole, no hearing shall be conducted.

(b) A prisoner sentenced under the Youth Corrections Act or Federal Juvenile Delinquency Act or a prisoner sentenced to a maximum term of more than 18 months under 18 U.S.C. 4208(a) (2) or 924(a) shall not be continued past one-third of his maximum sentence at an initial hearing without further hearing upon completion of one-third of his maximum sentence.

(c) Notification of review decisions shall be given as set forth in § 2.13(d). No prisoner shall be continued for more than three years from the time of last hearing without further review.

#### § 2.15 Petition for consideration of parole prior to date set at hearing.

When a prisoner has met the minimum time of imprisonment required by law, the Bureau of Prisons may petition the responsible Regional Director for reopening the case under § 2.28 and consideration of parole prior to the date set by the Board at the initial or review hearing. The petition must show cause why it should be granted, i.e., an emergency, hardship, or the existence of other extraordinary circumstances that would warrant consideration of early parole.

#### § 2.16 Parole of prisoner in state or territorial institution.

(a) Any person who has been convicted of any offense against the United States which is punishable by imprisonment but who is confined therefor in a state reformatory or other state or territorial institution, shall be eligible for parole by the Board on the same terms and conditions by the same authority, and subject to recommitment for the violation of such parole, as though he were confined in a Federal penitentiary, reformatory, or other correctional institution.

(b) Federal prisoners serving concurrent state and Federal sentences in state, local, or territorial institutions shall be furnished upon request parole application forms. Upon receipt of the application and any supplementary classification material submitted by the institution, the parole decision shall be made by an examiner panel of the appropriate region on the record only.

(c) Prisoners who are serving federal sentences exclusively but who are being boarded in state, local or territorial institutions may be considered for parole on the record only, provided they sign a waiver of their right to a personal hearing. If such a prisoner does not waive a personal hearing, he may be transferred by the Bureau of Prisons to a Federal institution where he will be considered for

parole at the next visit by an examiner panel of the Board.

#### § 2.17 Original jurisdiction cases.

(a) A Regional Director may designate certain cases as original jurisdiction cases. The Regional Director shall then forward the case with his vote, and any additional comments he may deem germane, to the National Directors for decision. Decisions shall be based upon the concurrence of three votes with the appropriate Regional Director and each National Director having one vote. Additional votes, if required, shall be cast by the other Regional Directors on a rotating basis as established by the Chairman of the Board.

(b) The following criteria will be used in designating cases as original jurisdiction cases:

(1) Prisoners who have committed serious crimes against the security of the Nation, e.g., espionage, or aggravated subversive activity.

(2) Prisoners whose offense behavior (A) involved an unusual degree of sophistication or planning or (B) was part of a large scale criminal conspiracy or a continuing criminal enterprise.

(3) Prisoners who have received national or unusual attention because of the nature of the crime, arrest, trial, or prisoner status, or because of the community status of the offender or his victim.

(4) Long-term sentences. Prisoners sentenced to a maximum term of forty-five years (or more) or prisoners serving life sentences.

#### § 2.18 Granting of parole.

The granting of parole rests in the discretion of the Board of Parole. The Board may parole a prisoner who is otherwise eligible if (a) in the opinion of the Board such release is not incompatible with the welfare of society; (b) he has observed substantially the rules of the institution in which he is confined; and (c) there is a reasonable probability that he will live and remain at liberty without violating the laws (18 U.S.C. 4203(a)).

#### § 2.19 Consideration by the Board.

In the exercise of its discretion, the Board generally considers some or all of the following factors and such others as it may deem appropriate:

(a) Sentence data:  
(1) Type of sentence;  
(2) Length of sentence;  
(3) Recommendations of judge, U.S. Attorney, and other responsible officials.

(b) Present offense:  
(1) Facts and circumstances of the offense;  
(2) Mitigating and aggravating factors;

(3) Activities following arrest and prior to confinement, including adjustment on bond or probation, if any.

(c) Prior criminal record:  
(1) Nature and pattern of offenses;  
(2) Adjustment to previous probation, parole, and confinement;

(3) Detainers.  
(d) Changes in motivation and behavior:

(1) Changes in attitude toward self and others;  
(2) Reasons underlying changes;

(3) Personal goals and description of personal strength or resources available to maintain motivation for law abiding behavior.

(e) Personal and social history:

(1) Family and marital history;

(2) Intelligence and education;

(3) Employment and military experience;

(4) Physical and emotional health.

(f) Institutional experience:

(1) Program goals and accomplishments:

(i) Academic;

(ii) Vocational education, training or work assignments;

(iii) Therapy.

(2) General adjustment:

(i) Inter-personal relationships with staff and inmates;

(ii) Behavior, including misconduct.

(g) Community resources, including release plans:

(1) Residence; live alone, with family or others;

(2) Employment, training, or academic education;

(3) Special needs and resources to meet them.

(h) Results of scientific data and tools:

(1) Psychological tests and evaluations;

(2) Statistical parole experience tables (salient factor score).

(i) Paroling policy guidelines as set forth in § 2.20:

(j) Comments by hearing examiners, evaluative comments supporting a decision, including impressions gained from the hearing.
